Ø

⁽¹⁾ Adjusted EBITDA is a non-GAAP measure; please see later in this press release for reconciliation to net income.

George Economou, Chairman and Chief Executive Officer of the Company commented:

We are very pleased with the 98.4% average operating efficiency of our fleet in the third quarter. Although unscheduled rig downtime is an unavoidable industry fact, our consistent efforts over the past year and our ongoing focus on operational excellence have resulted in three consecutive quarters of strong performance. We remain dedicated to our plan of becoming the preferred drilling contractor for our clients.

In August we took delivery of the *Ocean Rig Mylos*, the first of our three 7 generation drillships being delivered in the coming months. I am very pleased to announce that the *Ocean Rig Mylos* mobilized to Brazil in record time, underwent a very smooth acceptance process and commenced drilling operations this week. At the same time, the scheduled delivery of the *Ocean Rig Skyros* and *Ocean Rig Athena* has unfortunately slipped to January and February 2014 due to the late delivery of third party and sub-supplier equipment. I note that the late delivery of the drillships has no negative implication under their respective employment contracts.

During the third quarter, and as previously announced, we successfully completed the refinancing of the Nordea and Deutsche Bank facilities with a new \$1.9 billion senior secured term loan facility comprised of two term loans. In addition we drew down \$450 million under the \$1.35 billion Bank/ECA facility, to finance the acquisition of *Ocean Rig Mylos* and agreed with the syndicate of commercial banks and export credit agencies to amend certain provisions of this facility to allow for incremental financial flexibility.

Following the conclusion of several of our key strategic objectives, our focus now turns to implementing our value creation initiatives for our stakeholders. We are commencing the creation of a new Master Limited Partnership (MLP) subsidiary with a targeted Initial Public Offering (IPO) launch date within the second quarter of 2014. In addition we plan to initiate a quarterly dividend of \$25 million starting with cashflow from our first quarter 2014 operations and payable in mid May 2014.

Financial Review: 2013 Third Quarter

Adjusted EBITDA was \$161.4 million for the third quarter of 2013, as compared to \$122.5 million for the same period in 2012. ⁽²⁾

Adjusted EBITDA Reconciliation

Adjusted EBITDA represents earnings before interest, taxes, depreciation and amortization, class survey costs and gains or losses on interest rate swaps. Adjusted EBITDA does not represent and should not be considered as an alternative to net income or cash flow from operations, as determined by United States generally accepted accounting principles, or U.S. GAAP, and our calculation of adjusted EBITDA may not be comparable to that reported by other companies. Adjusted EBITDA is included herein because it is a basis upon which the Company measures its operations and efficiency. Adjusted EBITDA is also used by our lenders as a measure of our compliance with certain covenants contained in our loan agreements and because the Company believes that it presents useful information to investors regarding a company's ability to service and/or incur indebtedness.
