FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2008

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission file number: 1-32733

RESOURCE CAPITAL CORP.
(Exact name of registrant as specified in its charter)

Maryland
(State or other jurisdiction of
incorporation or organization)

20-2297134
(I.R.S. Employer
Identification No.)

712 5th Avenue, 10th Floor
New York, New York
(Address of principal executive
offices)

10019
(Zip code)

(Registrant's telephone number, including area code): 212-506-3870

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definition of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Edgar Filing: Resource Capital Corp. - Form 10-Q

Large accelerated filer	<input type="checkbox"/>		Accelerated filer	<input checked="" type="checkbox"/>
Non-accelerated filer	<input type="checkbox"/>	(Do not check if a smaller reporting Company)	Smaller reporting company	<input type="checkbox"/>

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).
Yes No

The number of outstanding shares of the registrant's common stock on August 6, 2008 was 25,282,632 shares.

Edgar Filing: Resource Capital Corp. - Form 10-Q
RESOURCE CAPITAL CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2008
(Unaudited)

NOTE 1 – ORGANIZATION AND BASIS OF QUARTERLY PRESENTATION

Resource Capital Corp. and subsidiaries' (the "Company") principal business activity is to purchase and manage a diversified portfolio of commercial real estate-related assets and commercial finance assets. The Company's investment activities are managed by Resource Capital Manager, Inc. ("Manager") pursuant to a management agreement ("Management Agreement"). The Manager is a wholly-owned indirect subsidiary of Resource America, Inc. ("RAI") (Nasdaq: REXI).

The Company has three direct wholly-owned subsidiaries:

- RCC Real Estate, Inc. ("RCC Real Estate") holds real estate investments, including commercial real estate loans. RCC Real Estate owns 100% of the equity of the following entities:
 - Resource Real Estate Funding CDO 2006-1 ("RREF 2006-1"), a Cayman Islands limited liability company and qualified real estate investment trust ("REIT") subsidiary ("QRS"). RREF 2006-1 was established to complete a collateralized debt obligation ("CDO") issuance secured by a portfolio of commercial real estate loans and commercial mortgage-backed securities.
 - Resource Real Estate Funding CDO 2007-1 ("RREF 2007-1"), a Cayman Islands limited liability company and QRS. RREF 2007-1 was established to complete a CDO issuance secured by a portfolio of commercial real estate loans and commercial mortgage-backed securities.
- RCC Commercial, Inc. ("RCC Commercial") holds bank loan investments and real estate investments, including commercial real estate-related securities. RCC Commercial owns 100% of the equity of the following entities:
 - Apidos CDO I, Ltd. ("Apidos CDO I"), a Cayman Islands limited liability company and taxable REIT subsidiary ("TRS"). Apidos CDO I was established to complete a CDO secured by a portfolio of bank loans.
 - Apidos CDO III, Ltd. ("Apidos CDO III"), a Cayman Islands limited liability company and TRS. Apidos CDO III was established to complete a CDO secured by a portfolio of bank loans.
 - Apidos Cinco CDO, Ltd. ("Apidos Cinco CDO"), a Cayman Islands limited liability company and TRS. Apidos Cinco CDO was established to complete a CDO secured by a portfolio of bank loans.
- Resource TRS, Inc. ("Resource TRS"), the Company's directly-owned TRS, holds all the Company's direct financing leases and notes.

The consolidated financial statements and the information and tables contained in the notes to the consolidated financial statements are unaudited. However, in the opinion of management, these interim financial statements include all adjustments necessary to fairly present the results of the interim periods presented. The unaudited interim consolidated financial statements should be read in conjunction with the audited consolidated financial statements included in the Company's Annual Report on Form 10-K for the period ended December 31, 2007. The results of operations for the three and six months ended June 30, 2008 may not necessarily be indicative of the results of operations for the full fiscal year ending December 31, 2008.

Certain reclassifications with respect to the exit fees and income taxes have been made to the 2007 consolidated financial statements to conform to the 2008 presentation.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation

The accompanying consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America (“GAAP”). The consolidated financial statements include the accounts of the Company and its subsidiaries, all of which are wholly-owned.

8

RESOURCE CAPITAL CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
JUNE 30, 2008
(Unaudited)

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued)

Principles of Consolidation – (Continued)

When the Company obtains an explicit or implicit interest in an entity, the Company evaluates the entity to determine if the entity is a variable interest entity (“VIE”), and, if so, whether or not the Company is deemed to be the primary beneficiary of the VIE, in accordance with Financial Accounting Standards Board (“FASB”) Interpretation 46, “Consolidation of Variable Interest Entities,” as revised (“FIN 46-R”). Generally, the Company consolidates VIEs for which the Company is deemed to be the primary beneficiary or for non-VIEs which the Company controls. The primary beneficiary of a VIE is the variable interest holder that absorbs the majority of the variability in the expected losses or the residual returns of the VIE. When determining the primary beneficiary of a VIE, the Company considers its aggregate explicit and implicit variable interests as a single variable interest. If the Company’s single variable interest absorbs the majority of the variability in the expected losses or the residual returns of the VIE, the Company is considered the primary beneficiary of the VIE. The Company reconsiders its determination of whether an entity is a VIE and whether the Company is the primary beneficiary of such VIE if certain events occur.

The Company has a 100% interest valued at \$1.5 million in the common shares (three percent of the total equity) in two trusts, Resource Capital Trust I (“RCT I”) and RCC Trust II (“RCT II”). Accordingly, the Company does not have the right to the majority of RCTs’ expected residual returns. Therefore, the Company is not deemed to be the primary beneficiary of either trust and they are not consolidated in the Company’s consolidated financial statements. The Company records its investments in RCT I and RCT II’s common securities of \$774,000 each as investments in unconsolidated trusts and records dividend income upon declaration by RCT I and RCT II. For the three months ended June 30, 2008, the Company recognized \$26,000 and \$59,000, respectively, of income on its investment in RCT I and RCT II and \$916,000 and \$2.0 million, respectively, of interest expense which included \$34,000 and \$65,000, respectively, of amortization of deferred debt issuance costs. For the three months ended June 30, 2007, the Company recognized \$36,000 and \$73,000, respectively, of income on its investment in RCT I and RCT II and \$1.2 million and \$2.5 million, respectively, of interest expense which included \$27,000 and \$55,000, respectively, of amortization of deferred debt issuance costs (see Note 7 for further discussion on RCT I and RCT II under Trust Preferred Securities).

b

All inter-company transactions and balances have been eliminated.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Estimates affecting the accompanying consolidated financial statements include the net realizable and fair values of the Company’s investments and derivatives, the estimated life used to calculate amortization and accretion of premiums and discounts, respectively, on investments and provisions for loan and lease losses.

Income Taxes

The Company operates in such a manner as to qualify as a REIT under the provisions of the Internal Revenue Code of 1986, as amended (the "Code"); therefore, applicable REIT taxable income is included in the taxable income of its

shareholders, to the extent distributed by the Company. To maintain REIT status for federal income tax purposes, the Company is generally required to distribute at least 90% of its REIT taxable income to its shareholders as well as comply with certain other qualification requirements as defined under the Code. As a REIT, the Company is not subject to federal corporate income tax to extent that it distributes 100% of its REIT taxable income each year.

Taxable income from non-REIT activities managed through Resource TRS are subject to federal, state and local income taxes. Resource TRS' income taxes are accounted for under the asset and liability method as required under Statement of Financial Account Standards ('SFAS") 109 "Accounting for Income Taxes." Under the asset and liability method, deferred income taxes are recognized for the temporary differences between the financial reporting basis and tax basis of Resource TRS' assets and liabilities. As of June 30, 2008 and December 31, 2007, Resource TRS recognized a provision for income taxes of \$167,000 and \$338,000, respectively.

Edgar Filing: Resource Capital Corp. - Form 10-Q
RESOURCE CAPITAL CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
JUNE 30, 2008
(Unaudited)

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued)

Income Taxes – (Continued)

Apidos CDO I, Apidos CDO III, Apidos Cinco CDO and Ischus CDO II, the Company's foreign TRSs, are organized as exempted companies incorporated with limited liability under the laws of the Cayman Islands, and are generally exempt from federal and state income tax at the corporate level because their activities in the United States are limited to trading in stock and securities for their own account. Therefore, despite their status as TRSs, they generally will not be subject to corporate tax on their earnings and no provision for income taxes is required; however, because they are "controlled foreign corporations," the Company will generally be required to include Apidos CDO I's, Apidos CDO III's, Apidos Cinco CDO's and Ischus CDO II's current taxable income in its calculation of REIT taxable income.

Allowance for Loan and Lease Losses

The Company maintains an allowance for loan and lease losses. Loans and leases held for investment are first individually evaluated for impairment, and then evaluated for impairment as a homogeneous pool of loans with substantially similar characteristics. The reviews are performed at least quarterly.

The Company considers a loan to be impaired when, based on current information and events, management believes it is probable that the Company will be unable to collect all amounts due according to the contractual terms of the loan agreement. When a loan is impaired, the allowance for loan losses is increased by the amount of the excess of the amortized cost basis of the loan over its fair value. Fair value may be determined based on the present value of estimated cash flows; on market price, if available; or on the fair value of the collateral less estimated disposition costs. When a loan, or a portion thereof, is considered uncollectible and pursuit of the collection is not warranted, then the Company will record a charge-off or write-down of the loan against the allowance for credit losses.

The balance of impaired loans and leases was \$17.7 million at June 30, 2008. The total balance of impaired loans and leases with a valuation allowance at June 30, 2008 was \$16.9 million. All of the loans deemed impaired at June 30, 2008 have an associated valuation allowance. The total balance of impaired leases without a specific valuation allowance was \$771,000 at June 30, 2008. The specific valuation allowance related to these impaired loans and leases was \$15.5 million at June 30, 2008. The average balance of impaired loans and leases was \$17.2 million during the quarter ended June 30, 2008. The Company did not recognize any income on impaired loans and leases during 2008.

The balance of impaired loans and leases was \$17.4 million at December 31, 2007. The total balance of impaired loans and leases with a valuation allowance at December 31, 2007 was \$17.0 million. All of the loans deemed impaired at December 31, 2007 have an associated valuation allowance. The total balance of impaired leases without a specific valuation allowance was \$359,000 at December 31, 2007. The specific valuation allowance related to these impaired loans and leases was \$2.3 million at December 31, 2007. The average balance of impaired loans and leases was \$4.3 million during 2007. The Company did not recognize any income on impaired loans and leases during 2007 once each individual loan or lease became impaired.

An impaired loan or lease may remain on accrual status during the period in which the Company is pursuing repayment of the loan or lease; however, the loan or lease would be placed on non-accrual status at such time as either (i) management believes that scheduled debt service payments will not be met within the coming 12 months; (ii) the loan or lease becomes 90 days delinquent; (iii) management determines the borrower is incapable of, or has ceased efforts toward, curing the cause of the impairment; or (iv) the net realizable value of the loan's underlying collateral

approximates the Company's carrying value of such loan. While on non-accrual status, the Company recognizes interest income only when an actual payment is received.

RESOURCE CAPITAL CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

JUNE 30, 2008

(Unaudited)

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued)

The following tables show the changes in the allowance for loan and lease losses (in thousands):

Allowance for loan loss at January 1, 2008	\$ 5,918
Provision for loan loss	16,631
Loans charged-off	(2,269)
Recoveries	–
Allowance for loan loss at June 30, 2008	\$ 20,280

Allowance for lease loss at January 1, 2008	\$ 293
Provision for lease loss	198
Leases charged-off	(391)
Recoveries	–
Allowance for lease loss at June 30, 2008	\$ 100

Stock Based Compensation

The Company follows SFAS 123(R), “Share Based Payment,” (“SFAS 123(R”). Issuances of restricted stock and options are accounted for using the fair value based methodology prescribed by SFAS 123(R) whereby the fair value of the award is measured on the grant date and expensed monthly to equity compensation expense-related party on the consolidated statements of operations with a corresponding entry to additional paid-in capital. For issuances to the Company’s Manager and to non-employees, the unvested stock and options are adjusted quarterly to reflect changes in fair value as performance under the agreement is completed. For issuances to the Company’s five non-employee directors, the amount is not remeasured under the fair value-based method. The compensation for each of these issuances is amortized over the service period and included in equity compensation expense.

Recent Accounting Pronouncements

In June 2008, the Financial Accounting Standards Board (“FASB”) issued Staff Position (“FSP”) EITF 03-6-1, “Determining Whether Instruments Granted in Share-Based Payment Transactions Are Participating Securities” (“FSP EITF 03-6-1”). FSP EITF 03-6-1 addresses whether instruments granted in share-based payment transactions are participating securities prior to vesting and, therefore, need to be included in the earnings allocation in computing earnings per share under the two-class method as described in SFAS No. 128, “Earnings per Share.” Under the guidance in FSP EITF 03-6-1, unvested share-based payment awards that contain non-forfeitable rights to dividends or dividend equivalents (whether paid or unpaid) are participating securities and shall be included in the computation of earnings per share pursuant to the two-class method. FSP EITF 03-6-1 is effective for the Company in fiscal 2009. After the effective date of FSP EITF 03-6-1, all prior-period earnings per share data presented must be adjusted retrospectively. The Company is currently evaluating the potential impact of adopting FSP EITF 03-6-1.

In May 2008, the FASB issued SFAS 162, “The Hierarchy of Generally Accepted Accounting Principles” (“SFAS 162”). SFAS 162 is intended to improve financial reporting by identifying a consistent framework or hierarchy for selecting accounting principles to be used in preparing financial statements in conformity with U.S. GAAP. The Company does not expect that SFAS 162 will have an impact on its consolidated financial statements.

In March 2008, the FASB issued SFAS 161, "Disclosures about Derivative Instruments and Hedging Activities, an amendment of SFAS 133" ("SFAS 161"). This new standard requires enhanced disclosures for derivative instruments, including those used in hedging activities. It is effective for fiscal years and interim periods beginning after November 15, 2008 and will be applicable to the Company in the first quarter of fiscal 2009. The Company is assessing the potential impact that the adoption of SFAS 161 may have on its financial statements.

Edgar Filing: Resource Capital Corp. - Form 10-Q
RESOURCE CAPITAL CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
JUNE 30, 2008
(Unaudited)

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued)

Recent Accounting Pronouncements – (Continued)

In February 2008, the FASB issued FASB Staff Position 140-3, “Accounting for Transfers of Financial Assets and Repurchase Financing Transactions” (“FSP FAS 140-3”) which provides guidance on accounting for a transfer of a financial asset and repurchase financing. FSP FAS 140-3 is effective for fiscal years beginning after November 15, 2008 and interim periods within those fiscal years. The Company does not expect that FSP FAS 140-3 will have a material effect on its consolidated financial statements.

In December 2007, the FASB issued SFAS 160, “Noncontrolling Interests in Consolidated Financial Statements,” (“SFAS 160”). SFAS 160 amends Accounting Research Bulletin 51 to establish accounting and reporting standards for the noncontrolling (minority) interest in a subsidiary and for the deconsolidation of a subsidiary. It clarifies that a noncontrolling interest in a subsidiary is an ownership interest in the consolidated entity that should be reported as equity in the consolidated financial statements. The Company is currently determining the effect, if any, that SFAS 160 will have on its consolidated financial statements. SFAS 160 is effective for fiscal years beginning on or after December 15, 2008.

In December 2007, the FASB issued SFAS No. 141R, “Business Combinations,” which replaces SFAS No. 141 (“SFAS 141R”). SFAS 141R, among other things, establishes principles and requirements for how an acquirer entity recognizes and measures in its financial statements the identifiable assets acquired (including intangibles), the liabilities assumed and any noncontrolling interest in the acquired entity. Additionally, SFAS 141R requires that all transaction costs be expensed as incurred. The Company is currently evaluating the effect, if any, that SFAS 141R will have on its financial statements. SFAS 141R is effective for fiscal years beginning after December 15, 2008.

In December 2007, the Securities and Exchange Commission (“SEC”) issued Staff Accounting Bulletin 110 (“SAB 110”). SAB 110 amends and replaces Question 6 of Section D.2 of Topic 14, “Share-Based Payment,” of the Staff Accounting Bulletin series. Question 6 of Section D.2 of Topic 14 expresses the views of the Staff regarding the use of the “simplified” method in developing an estimate of the expected term of “plain vanilla” share options and allows usage of the “simplified” method for share option grants prior to December 31, 2007. SAB 110 allows public companies which do not have historically sufficient experience to provide a reasonable estimate of the expected term of outstanding options to continue use of the “simplified” method for estimating the expected term of “plain vanilla” share option grants after December 31, 2007. The Company will continue to use the “simplified” method until it has enough historical experience to provide a reasonable estimate of expected term in accordance with SAB 110.

In February 2007, the FASB issued SFAS 159, “The Fair Value Option for Financial Assets and Financial Liabilities – Including an amendment of FASB Statement 115,” (“SFAS 159”). SFAS 159 permits entities to choose to measure many financial instruments and certain other items at fair value. This statement is effective for fiscal years beginning after November 15, 2007. The Company did not elect to apply the provisions of SFAS 159 for existing eligible instruments at December 31, 2007.

In September 2006, the FASB issued SFAS 157 “Fair Value Measurements,” (“SFAS 157”). SFAS 157 clarifies the definition of fair value, establishes a framework for measuring fair value in GAAP and expands the disclosure of fair value measurements. This statement is effective for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years. The Company adopted SFAS 157 in the first quarter of 2008, which did not result in

recognition of a transition adjustment to retained earnings.

NOTE 3 – RESTRICTED CASH

Restricted cash consists of \$27.8 million held in five consolidated CDO trusts, \$3.5 million in cash collateralizing outstanding margin calls and a \$2.2 million credit facility reserve used to fund future investments that will be acquired by the Company's three closed bank loan CDO trusts. The remaining \$2.8 million consists of interest reserves and security deposits held in connection with the Company's equipment lease and note portfolio.

NOTE 4 – INVESTMENT SECURITIES AVAILABLE-FOR-SALE

The following tables summarize the Company's mortgage-backed securities (“MBS”) and other asset-backed securities (“ABS”), including those pledged as collateral and classified as available-for-sale, which are carried at fair value (in thousands):

	Amortized Cost (1)	Unrealized Gains	Unrealized Losses	Fair Value (1)
June 30, 2008:				
Commercial MBS private placement	\$ 70,326	\$ –	\$ (23,552)	\$ 46,774
Other ABS	5,665	–	(5,365)	300
Total	\$ 75,991	\$ –	\$ (28,917)	\$ 47,074
December 31, 2007:				
Commercial MBS private placement	\$ 82,373	\$ –	\$ (17,809)	\$ 64,564
Other ABS	5,665	–	(4,765)	900
Total	\$ 88,038	\$ –	\$ (22,574)	\$ 65,464

(1)As of June 30, 2008 and December 31, 2007, all securities were pledged as collateral security under related financings.

The following tables summarize the estimated maturities of the Company's MBS and other ABS according to their estimated weighted average life classifications (in thousands, except percentages):

Weighted Average Life	Fair Value	Amortized Cost	Weighted Average Coupon
June 30, 2008:			
Less than one year	\$ 16,154	\$ 23,150	4.17%
Greater than one year and less than five years	6,656	8,998	4.49%
Greater than five years and less than ten years	24,264	43,843	5.55%
Total	\$ 47,074	\$ 75,991	5.03%
December 31, 2007:			
Less than one year	\$ 11,908	\$ 12,824	6.15%
Greater than one year and less than five years	19,042	21,589	6.16%
Greater than five years and less than ten years	34,514	53,625	5.85%
Total	\$ 65,464	\$ 88,038	5.96%

The contractual maturities of the securities available-for-sale range from July 2017 to March 2051.

RESOURCE CAPITAL CORP. AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
 JUNE 30, 2008
 (Unaudited)

NOTE 4 – INVESTMENT SECURITIES AVAILABLE-FOR-SALE - (Continued)

The following tables show the fair value and gross unrealized losses, aggregated by investment category and length of time, that individual securities that have been in a continuous unrealized loss position (in thousands):

	Less than 12 Months		More than 12 Months		Total	
	Fair Value	Gross Unrealized Losses	Fair Value	Gross Unrealized Losses	Fair Value	Gross Unrealized Losses
June 30, 2008:						
Commercial MBS private placement	\$ 3,108	\$ (1,195)	\$ 43,666	\$ (22,357)	\$ 46,774	\$ (23,552)
Other ABS	–	–	300	(5,365)	300	(5,365)
Total temporarily impaired securities	\$ 3,108	\$ (1,195)	\$ 43,966	\$ (27,722)	\$ 47,074	\$ (28,917)
December 31, 2007:						
Commercial MBS private placement	\$ 64,564	\$ (17,809)	–	–	\$ 64,564	\$ (17,809)
Other ABS	900	(4,765)	–	–	900	(4,765)
Total temporarily impaired securities	\$ 65,464	\$ (22,574)	–	–	\$ 65,464	\$ (22,574)

The determination of other-than-temporary impairment is a subjective process, and different judgments and assumptions could affect the timing of loss realization. The Company reviews its portfolios monthly and the determination of other-than-temporary impairment is made at least quarterly. The Company considers the following factors when determining if there is an other-than-temporary impairment on a security:

- the length of time the market value has been less than amortized cost;
- the Company's intent and ability to hold the security for a period of time sufficient to allow for any anticipated recovery in market value;
- the severity of the impairment;
- the expected loss of the security as generated by third party software;
- credit ratings from the rating agencies; and
- underlying credit fundamentals of the collateral backing the securities.

While the available-for-sale investments have continued to decline in fair value, their change continues to be temporary. In particular, with respect to CMBS, all assets are current with respect to interest and principal payments. In addition, the Company performs an on-going review of third-party reports and updated financial data on the underlying property to analyze current and projected loan performance. The Company's review concluded that there exist no credit characteristics that would indicate other-than-temporary impairments as of June 30, 2008.

In November 2007, the Company sold a portion of its preferred shares in Ischus CDO II, Ltd., a Cayman Islands TRS to an independent third party. The sale was deemed to be a reconsideration event under FASB Interpretation No. 46, "Consolidation of Variable Interests," as revised ("FIN 46-R") and as a result, the Company was no longer considered to be its primary beneficiary based on a discounted cash flow analysis of expected losses and expected residual returns and Ischus CDO II was deconsolidated. The Company currently recognizes income on its remaining investment using the cost recovery method. At the date of deconsolidation, the value of the Company's investments in Ischus CDO II was \$722,000. From the date of deconsolidation through December 31, 2007, the Company received \$465,000 of distributions leaving a balance of \$257,000 at December 31, 2007. For the three months ended March 31, 2008, \$1.3 million of cash receipts were collected of which \$997,000 was recognized as interest income – other on the consolidated statements of operations. No additional cash has been collected since March 31, 2008.

Allowance for loan loss	(5,919)	–	(5,919)
Total loans, net of allowances	\$ 1,774,510	\$ (7,871)	\$ 1,766,639

(1) Substantially all loans are pledged as collateral under various borrowings at June 30, 2008 and December 31, 2007.

As of June 30, 2008, approximately 40.7% and 10.5% of the Company's commercial real estate loan portfolio was concentrated in commercial real estate loans located in California and New York, respectively. As of June 30, 2008, approximately 10.8% of the Company's bank loan portfolio was concentrated in the collective industry grouping of healthcare, education and childcare.

At June 30, 2008, the Company's bank loan portfolio consisted of \$941.5 million (net of allowance of \$5.4 million) of floating rate loans, which bear interest ranging between the London Interbank Offered Rate ("LIBOR") plus 1.38% and LIBOR plus 9.50% with maturity dates ranging from March 2009 to August 2022.

At December 31, 2007, the Company's bank loan portfolio consisted of \$928.3 million (net of allowance of \$2.8 million) of floating rate loans, which bore interest ranging between LIBOR plus 1.38% and LIBOR plus 7.50% with maturity dates ranging from July 2008 to August 2022.

RESOURCE CAPITAL CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
JUNE 30, 2008
(Unaudited)

NOTE 5 – LOANS HELD FOR INVESTMENT– (Continued)

As of June 30, 2008, the Company had recorded a provision for loan loss of \$20.3 million consisting of a \$5.4 million provision on the Company's bank loan portfolio and a \$14.9 million provision on the Company's commercial real estate portfolio as a result of the Company having two bank loan issuers and one commercial real estate loan that were deemed impaired as well as the establishment of a general reserve for these portfolios.

As of December 31, 2007, the Company had recorded a provision for loan loss of \$5.9 million consisting of a \$2.7 million provision on the Company's bank loan portfolio and a \$3.2 million provision on the Company's commercial real estate portfolio as a result of the Company having two bank loans and one commercial real estate loan that were deemed impaired.

The Company has one mezzanine loan, with a book value of \$11.6 million secured by 100% of the equity interests in two enclosed regional malls. RCC had been working with the borrower and special servicer toward a resolution as the mezzanine loan was in default since February 2008. However, during the quarter ended June 30, 2008, the borrower on the mezzanine loan defaulted on the more senior first mortgage position. This event triggered the reevaluation of our provision for loan loss and the Company determined that a full reserve of the remaining book value balance of \$11.6 million was necessary. If in the future, the Company is able to recover any value from this loan, the amount would be credited directly to income in that period.

NOTE 6 –DIRECT FINANCING LEASES AND NOTES

The Company's direct financing leases and notes had weighted average initial lease and note terms of 79 months and 72 months as of June 30, 2008 and December 31, 2007, respectively. The interest rates on notes receivable range from 6.5% to 14.7% and from 6.8% to 13.4% as of June 30, 2008 and December 31, 2007, respectively. Investments in direct financing leases and notes, net of unearned income, were as follows (in thousands):

	June 30, 2008	December 31, 2007
Direct financing leases, net	\$ 25,542	\$ 28,880
Notes receivable	66,662	66,150
Subtotal	92,204	95,030
Allowance for lease losses	(100)	–
Total	\$ 92,104	\$ 95,030

The components of net investment in direct financing leases are as follows (in thousands):

	June 30, 2008	December 31, 2007
Total future minimum lease payments	\$ 29,753	\$ 34,009
Unguaranteed residual	21	21
Unearned income	(4,232)	(5,150)
Total	\$ 25,542	\$ 28,880

At June 30, 2008, the Company had five leases that were sufficiently delinquent with respect to scheduled payments of interest to require a provision for lease losses. As a result, the Company had recorded an allowance for lease losses of \$393,000 and written the leases off. The Company also recorded an additional allowance of \$100,000 during the three months ended June 30, 2008. At December 31, 2007, the Company had three leases that were sufficiently delinquent with respect to scheduled payments of interest to require a provision for lease losses. As a result, the Company had recorded an allowance for lease losses of \$293,000.

RESOURCE CAPITAL CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
JUNE 30, 2008
(Unaudited)

NOTE 7 – BORROWINGS

The Company has historically financed the acquisition of its investments, including securities available-for-sale, loans and equipment leases and notes, primarily through the use of secured and unsecured borrowings in the form of CDOs, repurchase agreements, a secured term facility, warehouse facilities, trust preferred securities issuances and other secured and unsecured borrowings. Certain information with respect to the Company's borrowings at June 30, 2008 and December 31, 2007 is summarized in the following table (dollars in thousands):

	Outstanding Borrowings	Weighted Average Borrowing Rate	Weighted Average Remaining Maturity	Value of Collateral
June 30, 2008:

(1) Equal to the estimated fair value of securities or loans sold, plus accrued interest income, minus the sum of repurchase agreement liabilities plus accrued interest expense.

Repurchase and Credit Facilities

In April 2007, the Company's indirect wholly-owned subsidiary, RCC Real Estate SPE 3, LLC, ("RCC Real Estate SPE 3") entered into a master repurchase agreement with Natixis Real Estate Capital, Inc. to be used as a warehouse facility to finance the purchase of commercial real estate loans and commercial mortgage-backed securities. The maximum amount of the Company's borrowing under the repurchase agreement is \$150.0 million. The financing provided by the agreement matures April 18, 2010 subject to a one-year extension at the option of RCC Real Estate SPE 3 and subject further to the right of RCC Real Estate SPE 3 to repurchase the assets held in the facility earlier. The Company paid a facility fee of 0.75% of the maximum facility amount, or \$1.2 million, at closing. In addition, once the borrowings exceed a weighted average undrawn balance of \$75.0 million for the prior 90 day period, the Company will be required to pay a Non-Usage Fee on the unused portion equal to the product of (i) 0.15% per annum multiplied by (ii) the weighted average undrawn balance during the prior 90 day period. Each repurchase transaction specifies its own terms, such as identification of the assets subject to the transaction, sale price, repurchase price, rate and term. These are one-month contracts. The repurchase agreement is with recourse only to the assets financed, subject to standardized exceptions relating to breaches of representations, fraud and similar matters. The Company has guaranteed RCC Real Estate SPE 3's performance of its obligations under the repurchase agreement. At June 30, 2008, RCC Real Estate SPE 3 had borrowed \$64.3 million. At June 30, 2008, borrowings under the repurchase

agreement were secured by commercial real estate loans with an estimated fair value of \$112.7 million and had a weighted average interest rate of one-month LIBOR plus 1.39%, which was 3.86% at June 30, 2008. At December 31, 2007, RCC Real Estate SPE 3 had borrowed \$96.7 million. At December 31, 2007, borrowings under the repurchase agreement were secured by commercial real estate loans with an estimated fair value of \$154.2 million and had a weighted average interest rate of one-month LIBOR plus 1.39%, which was 6.42% at December 31, 2007.

In March 2006, the Company entered into a secured term credit facility with Bayerische Hypo – und Vereinsbank AG to finance the purchase of equipment leases and notes. The maximum amount of the Company's borrowing under this facility is \$100.0 million. Borrowings under this facility bear interest at one of two rates, determined by asset class.

(Unaudited)

NOTE 7 – BORROWINGS – (Continued)

Repurchase and Credit Facilities – (continued)

The Company received a waiver for the period ended December 31, 2007, which was effective through June 23, 2008, from Bayerische Hypo- und Vereinsbank AG with respect to Resource America's non-compliance with the tangible net worth covenant. Under the covenant, Resource America was required to maintain a consolidated net worth (stockholder's equity) of at least \$175.0 million plus 90% of the net proceeds of any capital transactions, minus all amounts (not to exceed \$50,000,000) paid by Resource America to repurchase any outstanding shares of common or preferred stock of Resource America, measured by each quarter end, as further described in the agreement. On June 23, 2008, the facility was amended to base the net worth test on LEAF Financial Corporation ("LEAF") and to change the measure of net worth to not less than the sum of (i) \$17,000,000, plus (ii) 50% of the aggregate net income of LEAF for each fiscal quarter beginning with the fiscal quarter ended June 30, 2008. See Note 11 regarding the Company's relationship with LEAF.

The Company paid \$300,000 in commitment fees during the year ended December 31, 2006. Commitment fees are being amortized into interest expense using the effective yield method over the life of the facility in the consolidated statements of operations. The Company paid \$11,000 and \$18,000 for the three and six months ended June 30, 2008, respectively, in unused line fees. Unused line fees are expensed immediately into interest expense in the consolidated statements of operations. As of June 30, 2008, the Company had borrowed \$85.8 million at a weighted average interest rate of 3.84%. As of December 31, 2007, the Company had borrowed \$91.7 million at a weighted average interest rate of 6.55%. The facility expires March 2010.

In December 2005, the Company entered into a \$15.0 million unsecured revolving credit facility with TD Bank, N.A. (successor by merger to Commerce Bank, N.A.). This facility was increased to \$25.0 million in April 2006. This facility was decreased to \$10.0 million in April 2008 to reflect more closely the actual borrowing base available to the Company under the facility and to reduce fees payable on the amount available for borrowing under the facility. Outstanding borrowings bear interest at one of two rates elected at the Company's option; (i) the lender's prime rate plus a margin ranging from 0.50% to 1.50% based upon the Company's leverage ratio; or (ii) LIBOR plus a margin ranging from 1.50% to 2.50% based upon the Company's leverage ratio. The facility expires in December 2008. The Company paid \$13,000 and \$37,000 in unused line fees as of June 30, 2008 and December 31, 2007, respectively. Commitment fees are being amortized into interest expense using the effective yield method over the life of the facility in the consolidated statements of operations. Unused line fees are expensed immediately into interest expense in the consolidated statements of operations. As of June 30, 2008 and December 31, 2007, no borrowings were outstanding under this facility.

In August 2005, the Company's subsidiary, RCC Real Estate, entered into a master repurchase agreement with Bear, Stearns International Limited ("Bear Stearns") to finance the purchase of commercial real estate loans. The maximum amount of the Company's borrowing under the repurchase agreement is \$150.0 million. Each repurchase transaction specifies its own terms, such as identification of the assets subject to the transaction, sales price, repurchase price, rate and term. These are one-month contracts. The Company has guaranteed RCC Real Estate's obligations under the repurchase agreement to a maximum of \$150.0 million. At June 30, 2008, the Company had repaid all obligations under this facility. At December 31, 2007, the Company had borrowed \$1.9 million, all of which was guaranteed, with a weighted average interest rate of LIBOR plus 1.25%, which was 6.22% at December 31, 2007.

In March 2005, the Company entered into a master repurchase agreement with Credit Suisse Securities (USA) LLC to finance the purchase of agency ABS-residential MBS (“RMBS”) securities. In December 2006, the Company began using this facility to finance the purchase of commercial MBS (“CMBS”)-private placement and other securities. Each repurchase transaction specifies its own terms, such as identification of the assets subject to the transaction, sales price, repurchase price, rate and term. These are one-month contracts. At June 30, 2008, the Company had borrowed \$4.6 million with a weighted average interest rate of 4.00%. At December 31, 2007, the Company had borrowed \$14.6 million with a weighted average interest rate of 5.91%.

In March 2005, the Company entered into a master repurchase agreement with J.P. Morgan Securities, Inc. to finance the purchase of agency ABS-RMBS. In August 2007, the Company began using this facility to finance the purchase of CMBS-private placement. Each repurchase transaction specifies its own terms, such as identification of the assets subject to the transaction, sales price, repurchase price, rate and term. These are one-month contracts. At June 30, 2008, the Company had repaid all obligations under this facility. At December 31, 2007, the Company had borrowed \$3.2 million with a weighted average interest rate of 5.63%.

NOTE 7 – BORROWINGS – (Continued)

Collateralized Debt Obligations

Resource Real Estate Funding CDO 2007-1

In June 2007, the Company closed RREF 2007-1, a \$500.0 million CDO transaction that provides financing for commercial real estate loans and CMBS. The investments held by RREF 2007-1 collateralize the debt it issued and, as a result, the investments are not available to the Company, its creditors or stockholders. RREF 2007-1 issued a total of \$390.0 million of senior notes at par to unrelated investors. RCC Real Estate purchased 100% of the class H senior notes (rated BBB+:Fitch), class K senior notes (rated BBB-:Fitch), class L senior notes (rated BB:Fitch) and class M senior notes (rated B:Fitch) for \$68.0 million. In addition, Resource Real Estate Funding 2007-1 CDO Investor, LLC, a subsidiary of RCC Real Estate, purchased a \$41.3 million equity interest representing 100% of the outstanding preference shares. The senior notes purchased by RCC Real Estate are subordinated in right of payment to all other senior notes issued by RREF 2007-1 but are senior in right of payment to the preference shares. The equity interest is subordinated in right of payment to all other securities issued by RREF 2007-1.

The senior notes issued to investors by RREF 2007-1 consist of the following classes: (i) \$180.0 million of class A-1 notes bearing interest at one-month LIBOR plus 0.28%; (ii) \$50.0 million of available class A-1R notes (\$32.1 million was funded as of June 30, 2008), which allow the CDO to fund future funding obligations under the existing whole loan participations held by RREF 2007-1 that have future funding commitments; the undrawn balance of the class A-1R notes will accrue a commitment fee at a rate per annum equal to 0.18%, the drawn balance will bear interest at one-month LIBOR plus 0.32%; (iii) \$57.5 million of class A-2 notes bearing interest at one-month LIBOR plus 0.46%; (iv) \$22.5 million of class B notes bearing interest at one-month LIBOR plus 0.80%; (v) \$7.0 million of class C notes bearing interest at a fixed rate of 6.423%; (vi) \$26.8 million of class D notes bearing interest at one-month LIBOR plus 0.95%; (vii) \$11.9 million of class E notes bearing interest at one-month LIBOR plus 1.15%; (viii) \$11.9 million of class F notes bearing interest at one-month LIBOR plus 1.30%; (ix) \$11.3 million of class G notes bearing interest at one-month LIBOR plus 1.55%; (x) \$11.3 million of class H notes bearing interest at one-month LIBOR plus 2.30%; (xi) \$11.3 million of class J notes bearing interest at one-month LIBOR plus 2.95%; (xii) \$10.0 million of class K notes bearing interest at one-month LIBOR plus 3.25%; (xiii) \$18.8 million of class L notes bearing interest at a fixed rate of 7.50% and (xiv) \$28.8 million of class M notes bearing interest at a fixed rate of 8.50%. As a result of the Company's ownership of 100% of the Class H, K, L and M senior notes and \$5.0 million of the Class J senior note, the notes retained eliminate in consolidation. All of the notes issued mature in September 2046, although the Company has the right to call the notes anytime after July 2017 until maturity. The weighted average interest rate on all notes issued to outside investors was 3.24% at June 30, 2008.

During the six months ended June 30, 2008, the Company repurchased \$5.0 million of the Class J notes in RREF 2007-1 at a price of 65.0% which resulted in a \$1.75 million gain. The Company reported the gain as gain on the extinguishment of debt in its consolidated statements of operations.

Apidos Cinco CDO

In May 2007, the Company closed Apidos Cinco CDO, a \$350.0 million CDO transaction that provides financing for bank loans. The investments held by Apidos Cinco CDO collateralize the debt it issued and, as a result, the investments are not available to the Company, its creditors or stockholders. Apidos Cinco CDO issued a total of \$322.0 million of senior notes at par to investors and RCC commercial purchased a \$28.0 million equity interest

representing 100% of the outstanding preference shares. The equity interest is subordinated in right of payment to all other securities issued by Apidos Cinco CDO.

The senior notes issued to investors by Apidos Cinco CDO consist of the following classes: (i) \$37.5 million of class A-1 notes bearing interest at LIBOR plus 0.24%; (ii) \$200.0 million of class A-2a notes bearing interest at LIBOR plus 0.23%; (iii) \$22.5 million of class A-2b notes bearing interest at LIBOR plus 0.32%; (iv) \$19.0 million of class A-3 notes bearing interest at LIBOR plus 0.42%; (v) \$18.0 million of class B notes bearing interest at LIBOR plus 0.80%; (vi) \$14.0 million of class C notes bearing interest at LIBOR plus 2.25% and (vii) \$11.0 million of class D notes bearing interest at LIBOR plus 4.25%. All of the notes issued mature on May 14, 2020, although the Company has the right to call the notes anytime after May 14, 2011 until maturity. The weighted average interest rate on all notes was 3.18% at June 30, 2008.

Collateralized Debt Obligations – (Continued)

Resource Real Estate Funding CDO 2006-1

In August 2006, the Company closed RREF 2006-1, a \$345.0 million CDO transaction that provides financing for commercial real estate loans. The investments held by RREF 2006-1 collateralize the debt it issued and, as a result, the investments are not available to the Company, its creditors or stockholders. RREF 2006-1 issued a total of \$308.7 million of senior notes at par to investors of which RCC Real Estate purchased 100% of the class J senior notes (rated BB: Fitch) and class K senior notes (rated B:Fitch) for \$43.1 million. In addition, Resource Real Estate Funding 2006-1 CDO Investor, LLC, a subsidiary of RCC Real Estate, purchased a \$36.3 million equity interest representing 100% of the outstanding preference shares. The senior notes purchased by RCC Real Estate are subordinated in right of payment to all other senior notes issued by RREF 2006-1 but are senior in right of payment to the preference shares. The equity interest is subordinated in right of payment to all other securities issued by RREF 2006-1.

The senior notes issued to investors by RREF 2006-1 consist of the following classes: (i) \$129.4 million of class A-1 notes bearing interest at one-month LIBOR plus 0.32%; (ii) \$17.4 million of class A-2 notes bearing interest at one-month LIBOR plus 0.35%; (iii) \$5.0 million of class A-2 notes bearing interest at a fixed rate of 5.842%; (iv) \$6.9 million of class B notes bearing interest at one-month LIBOR plus 0.40%; (v) \$20.7 million of class C notes bearing interest at one-month LIBOR plus 0.62%; (vi) \$15.5 million of class D notes bearing interest at one-month LIBOR plus 0.80%; (vii) \$20.7 million of class E notes bearing interest at one-month LIBOR plus 1.30%; (viii) \$19.8 million of class F notes bearing interest at one-month LIBOR plus 1.60%; (ix) \$17.3 million of class G notes bearing interest at one-month LIBOR plus 1.90%; (x) \$12.9 million of class H notes bearing interest at one-month LIBOR plus 3.75%, (xi) \$14.7 million of Class J notes bearing interest at a fixed rate of 6.00% and (xii) \$28.4 million of Class K notes bearing interest at a fixed rate of 6.00%. As a result of the Company's ownership of the Class J and K senior notes, these notes eliminate in consolidation. All of the notes issued mature in August 2046, although the Company has the right to call the notes anytime after August 2016 until maturity. The weighted average interest rate on all notes issued to outside investors was 3.36% at June 30, 2008.

Apidos CDO III

In May 2006, the Company closed Apidos CDO III, a \$285.5 million CDO transaction that provides financing for bank loans. The investments held by Apidos CDO III collateralize the debt it issued and, as a result, the investments are not available to the Company, its creditors or stockholders. Apidos CDO III issued a total of \$262.5 million of senior notes at par to investors and RCC Commercial purchased a \$23.0 million equity interest representing 100% of the outstanding preference shares. The equity interest is subordinated in right of payment to all other securities issued by Apidos CDO III.

The senior notes issued to investors by Apidos CDO III consist of the following classes: (i) \$212.0 million of class A-1 notes bearing interest at 3-month LIBOR plus 0.26%; (ii) \$19.0 million of class A-2 notes bearing interest at 3-month LIBOR plus 0.45%; (iii) \$15.0 million of class B notes bearing interest at 3-month LIBOR plus 0.75%; (iv) \$10.5 million of class C notes bearing interest at 3-month LIBOR plus 1.75%; and (v) \$6.0 million of class D notes bearing interest at 3-month LIBOR plus 4.25%. All of the notes issued mature on June 12, 2020, although the Company has the right to call the notes anytime after June 12, 2011 until maturity. The weighted average interest rate on all notes was 3.24% at June 30, 2008.

Apidos CDO I

In August 2005, the Company closed Apidos CDO I, a \$350.0 million CDO transaction that provides financing for bank loans. The investments held by Apidos CDO I collateralize the debt it issued and, as a result, the investments are not available to the Company, its creditors or stockholders. Apidos CDO I issued a total of \$321.5 million of senior notes at par to investors and RCC Commercial purchased a \$28.5 million equity interest representing 100% of the outstanding preference shares. The equity interest is subordinated in right of payment to all other securities issued by Apidos CDO I.

NOTE 7 – BORROWINGS – (Continued)

Collateralized Debt Obligations – (Continued)

Apidos CDO I – (Continued)

The senior notes issued to investors by Apidos CDO I consist of the following classes: (i) \$265.0 million of class A-1 notes bearing interest at 3-month LIBOR plus 0.26%; (ii) \$15.0 million of class A-2 notes bearing interest at 3-month LIBOR plus 0.42%; (iii) \$20.5 million of class B notes bearing interest at 3-month LIBOR plus 0.75%; (iv) \$13.0 million of class C notes bearing interest at 3-month LIBOR plus 1.85%; and (v) \$8.0 million of class D notes bearing interest at a fixed rate of 9.251%. All of the notes issued mature on July 27, 2017, although the Company has the right to call the notes anytime after July 27, 2010 until maturity. The weighted average interest rate on all notes was 3.42% at June 30, 2008.

Trust Preferred Securities

In May 2006 and September 2006, the Company formed RCT I and RCT II, respectively, for the sole purpose of issuing and selling capital securities representing preferred beneficial interests in the trusts. Although the Company owns 100% of the common securities' of RCT I and RCT II, RCT I and RCT II are not consolidated into the Company's consolidated financial statements because the Company is not deemed to be the primary beneficiary of these entities in accordance with FIN 46-R. In connection with the issuance and sale of the capital securities, the Company issued junior subordinated debentures to RCT I and RCT II of \$25.8 million each, representing the Company's maximum exposure to loss. The debt issuance costs associated with the junior subordinated debentures for RCT I and RCT II at June 30, 2008 were \$726,000 and \$735,000, respectively. These costs, which are included in other assets, are being amortized into interest expense using the effective yield method over a ten year period and are recorded in the consolidated statements of operations.

The rights of holders of common securities of RCT I and RCT II are subordinate to the rights of the holders of capital securities only in the event of a default; otherwise, the common securities' economic and voting rights are pari passu with the capital securities. The capital and common securities of RCT I and RCT II are subject to mandatory redemption upon the maturity or call of the junior subordinated debentures held by each. Unless earlier dissolved, RCT I will dissolve on May 25, 2041 and RCT II will dissolve on September 29, 2041. The junior subordinated debentures are the sole assets of RCT I and RCT II, mature on June 30, 2036 and October 30, 2036, respectively, and may be called at par by the Company any time after June 30, 2011 and October 30, 2011, respectively. Interest is payable on the junior subordinated debentures held by RCT I and RCT II quarterly at a floating rate equal to three-month LIBOR plus 3.95% per annum. The rates for RCT I and RCT II, at June 30, 2008, were 6.65% and 6.85%, respectively. The Company records its investments in RCT I and RCT II's common securities of \$774,000 each as investments in unconsolidated trusts and records dividend income upon declaration by RCT I and RCT II.

NOTE 8 – CAPITAL STOCK

Under a share repurchase plan authorized by the board of directors on July 26, 2007, the Company was authorized to buy back up to 2.5 million outstanding shares. As of December 31, 2007, the Company had repurchased 263,000 shares at a weighted average price, including commissions, of \$10.54 per share. No additional shares were repurchased during the six months ended June 30, 2008.

NOTE 9 – SHARE-BASED COMPENSATION

The following table summarizes restricted common stock transactions:

	Non-Employee			
	Manager	Directors	Non-Employees	Total
Unvested shares as of January 1, 2008	113,332	4,404	463,757	581,493
Issued	–	17,261	144,000	161,261
Vested	(113,332)	(4,404)	(133,823)	(251,559)
Forfeited	–	–	–	–
Unvested shares as of June 30, 2008	–	17,261	473,934	491,195

RESOURCE CAPITAL CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
June 30, 2008
(Unaudited)

NOTE 9 – SHARE-BASED COMPENSATION – (Continued)

Pursuant to SFAS 123(R) and EITF 96-18, the Company is required to value any unvested shares of restricted common stock granted to the Manager and non-employees at the current market price. The estimated fair value of the unvested shares of restricted stock granted during the six months ended June 30, 2008 and 2007, including shares issued to the four non-employee directors, was \$1.4 million and \$4.1 million, respectively.

On January 14, 2008, the Company issued 144,000 shares of restricted common stock under its 2007 Omnibus Equity Compensation Plan. These restricted shares will vest 33.3% on January 14, 2009. The balance will vest annually thereafter through January 14, 2011.

On February 1, 2008 and March 8, 2008, the Company granted 2,261 and 15,000 shares of restricted stock, respectively, to the Company's non-employee directors as part of their annual compensation. These shares will vest in full on the first anniversary of the date of grant.

The following table summarizes common stock option transactions:

	Number of Options	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term (in years)	Aggregate Intrinsic Value (in thousands)
Outstanding as of January 1, 2008	640,166	\$ 14.99		
Granted	–	–		
Exercised	–	–		
Forfeited	–	–		
Outstanding as of June 30, 2008	640,166	\$ 14.99	7	\$ 91
Exercisable at June 30, 2008	339,166	\$ 14.99	7	\$ 48

The common stock options have a remaining contractual term of seven years. Upon exercise of options, new shares are issued.

The following table summarizes the status of the Company's unvested stock options as of June 30, 2008:

	Options	Weighted Average Grant-Date Fair Value
Unvested Options		
Unvested at January 1, 2008	205,722	\$ 14.97
Granted	–	\$ –
Vested	(162,389)	\$ 14.98
Forfeited	–	\$ –
Unvested at June 30, 2008	43,333	\$ 14.88

The weighted average period over which the Company expects to recognize the remaining expense on the unvested options is less than one year.

RESOURCE CAPITAL CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
June 30, 2008
(Unaudited)

NOTE 9 – SHARED-BASED COMPENSATION – (Continued)

The following table summarizes the status of the Company's vested stock options as of June 30, 2008:

Vested Options	Number of Options	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term (in years)	Aggregate Intrinsic Value (in thousands)
Vested as of January 1, 2008	357,944	\$ 15.00		
Vested	162,389	14.98		
Exercised	–	–		
Forfeited	–	–		
Vested as of June 30, 2008	520,333	\$ 15.00	7	\$ 312

The common stock option transactions are valued using the Black-Scholes model using the following assumptions:

	As of June 30, 2008	As of December 31, 2007
Expected life	9 years	7 years
Discount rate	4.29%	3.97%
Volatility	55.96%	42.84%
Dividend yield	22.75%	17.62%

The fair value of each common stock transaction for the period ended June 30, 2008 and for the year ended December 31, 2007, respectively, was \$0.142 and \$0.251. For the three and six months ended June 30, 2008 and 2007, the components of equity compensation expense are as follows (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2008	2007	2008	2007
Options granted to Manager and non-employees	\$ 4	\$ 151	\$ (54)	\$ 631
Restricted shares granted to Manager and non-employees	509	(33)	626	(44)
Restricted shares granted to non-employee directors	28	19	50	36
Total equity compensation expense	\$ 541	\$ 137	\$ 622	\$ 623

During the three and six months ended June 30, 2008, the Manager received 17,839 shares as compensation, valued at \$141,000, pursuant to the management agreement. During the three and six months ended June 30, 2007, the Manager received 11,349 and 21,309 shares, respectively, as incentive compensation, valued at \$186,000 and \$358,000, respectively, pursuant to the management agreement. The incentive management fee is paid one quarter in arrears.

Apart from incentive compensation payable under the management agreement, the Company had established no formal criteria for equity awards as of June 30, 2008. All awards are discretionary in nature and subject to approval by the compensation committee of the Company's board of directors.

Basic net income per share	\$ (0.21)	\$ 0.40	\$ 0.17	\$ 0.78
Diluted:				
Net (loss) income	\$ (5,257)	\$ 9,836	\$ 4,106	\$ 19,275
Weighted average number of shares outstanding	24,721,063	24,704,471	24,665,840	24,569,694
Additional shares due to assumed conversion of dilutive instruments	–	239,691	256,500	321,992
Adjusted weighted-average number of common shares outstanding	24,721,063	24,944,162	24,922,340	24,891,686
Diluted net (loss) income per share	\$ (0.21)	\$ 0.39	\$ 0.16	\$ 0.77

Potentially dilutive shares relating to stock options to purchase 640,166 shares of common stock warrants to purchase 1,192,697 shares of common stock and 485,245 shares of unvested restricted stock are not included in the calculation of diluted net (loss) income per share for the three and six months ended June 30, 2008 because the effect was anti-dilutive.

NOTE 11 – RELATED PARTY TRANSACTIONS

Relationship with Resource Real Estate

Resource Real Estate originates, finances and manages the Company's commercial real estate loan portfolio, including A notes, B notes and mezzanine loans. The Company reimburses Resource Real Estate for loan origination costs associated with all loans originated. At December 31, 2007, the Company was indebted to Resource Real Estate for \$197,000 of loan origination costs. The Company was not indebted to Resource Real Estate for any such costs at June 30, 2008. At December 31, 2007, Resource Real Estate was indebted to the Company for deposits held in trust in connection with the Company's commercial real estate portfolio of approximately \$90,000. The Company was not indebted to Resource Real Estate for any such deposits at June 30, 2008.

Relationship with LEAF

LEAF, a majority-owned subsidiary of RAI, originates and manages equipment leases and notes on the Company's behalf. The Company purchases these leases and notes from LEAF at a price equal to their book value plus a reimbursable origination cost not to exceed 1% to compensate LEAF for its origination costs. At June 30, 2008 and December 31, 2007, the Company acquired \$14.3 million and \$38.7 million, respectively, of equipment lease and note investments from LEAF, including \$141,000 and \$387,000 million of origination cost reimbursements,

respectively. In addition, the Company pays LEAF an annual servicing fee, equal to 1% of the book value of managed assets, for servicing the Company's equipment leases and notes. At June 30, 2008 and December 31, 2007, the Company was indebted to LEAF for servicing fees in connection with the Company's equipment finance portfolio of approximately \$148,000 and \$133,000, respectively. LEAF's servicing fees for the three and six months ended June 30, 2008 were \$224,000 and \$460,000, respectively, compared to \$204,000 and \$413,000 for the three and six months ended June 30, 2007, respectively.

During the three and six months ended June 30, 2008, the Company sold two leases back to LEAF at a price equal to their book value. The total proceeds received were \$2.6 million. During the three and six months ended June 30, 2007, the Company sold one and three leases back to LEAF at a price equal to their book value. The total proceeds received were \$600,000 and \$1.8 million, respectively.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
JUNE 30, 2008
(Unaudited)

NOTE 11 – RELATED-PARTY TRANSACTIONS – (Continued)

Relationship with Resource America

At June 30, 2008, RAI owned 1,980,339 shares, or 7.8%, of the Company's outstanding common stock. In addition, RAI has 100,088 unexercised warrants and 2,166 options to purchase restricted stock.

The Company is managed by the Manager pursuant to a management agreement that provides for both base and incentive management fees. On June 30, 2008, the Company and the Manager entered into an amended and restated management agreement that shall be in effect until March 31, 2009 and shall be automatically renewed for a one-year term annually unless at least two-thirds of the independent directors or a majority of the outstanding common shares agree to not automatically renew. Incentive compensation calculation was revised as follows: (i) twenty-five percent (25%) of the dollar amount by which (A) the Company's Adjusted Operating Earnings (before Incentive Compensation but after the Base Management Fee) for such quarter per Common Share (based on the weighted average number of Common Shares outstanding for such quarter) exceeds (B) an amount equal to (1) the weighted average of the price per share of the Common Shares in the initial offering by the Company and the prices per share of the Common Shares in any subsequent offerings by the Company, in each case at the time of issuance thereof, multiplied by (2) the greater of (a) 2.00% and (b) 0.50% plus one-fourth of the Ten Year Treasury Rate for such quarter, multiplied by (ii) the weighted average number of Common Shares outstanding during such quarter; provided, that the foregoing calculation of Incentive Compensation shall be adjusted to exclude events pursuant to changes in GAAP or the application of GAAP, as well as non-recurring or unusual transactions or events, after discussion between the Manager and the Independent Directors and approval by a majority of the Independent Directors in the case of non-recurring or unusual transactions or events. For the three and six months ended June 30, 2008, the Manager earned base management fees of approximately \$1.2 million and \$2.3 million, respectively, and incentive management fees of \$564,000. For the three and six months ended June 30, 2007, the Manager earned base management fees of approximately \$1.3 million and \$2.6 million, respectively, and incentive management fees of \$730,000 and \$1.5 million, respectively. The Company also reimbursed the Manager and Resource America for various expenses incurred on behalf of the Company. For the three and six months ended June 30, 2008, the Company reimbursed the Manager \$82,000 and \$183,000, respectively, for such expenses. For the three and six months ended June 30, 2007, the Company reimbursed the Manager \$63,000 and \$293,000, respectively, for such expenses.

At June 30, 2008, the Company was indebted to the Manager for base management fees of \$785,000 and for the reimbursement of expenses of \$59,000. At December 31, 2007, the Company was indebted to the Manager for base management fees of \$802,000 and for reimbursement of expenses of \$65,000. These amounts are included in accounts payable and other liabilities.

As of June 30, 2008 and December 31, 2007, the Company had executed six CDO transactions. These CDO transactions were structured for the Company by the Manager but, under the management agreement, the Manager was not separately compensated by the Company for these transactions. In addition, the Company may reimburse the Manager and Resource America for expenses for employees of Resource America who perform legal, accounting, due diligence and other services that outside professionals or consultants would otherwise perform.

Relationship with Law Firm

Until 1996, the Company's Chairman, Edward Cohen, was of counsel to Ledgewood, P.C., a law firm. For the three and six months ended June 30, 2008, the Company paid Ledgewood \$36,000 and \$104,000, respectively, compared to \$152,000 and \$252,000 during the three and six months ended June 30, 2007, respectively. Mr. Cohen receives certain debt service payments from Ledgewood related to the termination of his affiliation with Ledgewood and its redemption of his interest.

NOTE 12 – DISTRIBUTIONS

In order to qualify as a REIT, the Company must currently distribute at least 90% of its taxable income. In addition, the Company must distribute 100% of its taxable income in order not to be subject to corporate federal income taxes on retained income. The Company anticipates it will distribute substantially all of its taxable income to its stockholders. Because taxable income differs from cash flow from operations due to non-cash revenues or expenses (such as depreciation), in certain circumstances, the Company may generate operating cash flow in excess of its distributions or, alternatively, may be required to borrow to make sufficient distribution payments.

RESOURCE CAPITAL CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
JUNE 30, 2008
(Unaudited)

NOTE 12 – DISTRIBUTIONS – (Continued)

On June 20, 2008, the Company declared a quarterly distribution of \$0.41 per share of common stock, \$10.4 million in the aggregate, which was paid on July 28, 2008 to stockholders of record as of June 30, 2008.

On March 11, 2008, the Company declared quarterly distribution of \$0.41 per share of common stock which was paid on April 28, 2008 to stockholders of record as of March 31, 2008.

NOTE 13 – FAIR VALUE OF FINANCIAL INSTRUMENTS

Effective January 1, 2008, the Company adopted the provisions of SFAS 157 which did not have a material effect on the Company's consolidated financial statements as the Company historically has valued its investment securities available-for-sale and derivatives at fair value. SFAS 157 establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The Company determines fair value based on quoted prices when available or through the use of alternative approaches, such as discounting the expected cash flows using market interest rates commensurate with the credit quality and duration of the investment. SFAS 157's hierarchy defines three levels of inputs that may be used to measure fair value:

Level 1 - Quoted prices in active markets for identical assets and liabilities that the reporting entity has the ability to access at the measurement date.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset and liability or can be corroborated with observable market data for substantially the entire contractual term of the asset or liability.

Level 3 - Unobservable inputs that reflect the entity's own assumptions about the assumptions that market participants would use in the pricing of the asset or liability and are consequently not based on market activity, but rather through particular valuation techniques.

The determination of where an asset or liability falls in the hierarchy requires significant judgment. The Company evaluates its hierarchy disclosures each quarter; and depending on various factors, it is possible that an asset or liability may be classified differently from quarter to quarter. However, the Company expects that changes in classifications between levels will be rare.

Certain assets and liabilities are measured at fair value on a recurring basis. The following is a discussion of these assets and liabilities as well as the valuation techniques applied to each for fair value measurement. Investment securities available-for-sale are measured with income valuation approaches and dealer quotes using the following types of inputs:

- CMBS with no secondary trading except for distressed sellers and markets reflecting forced liquidations are valued using an income approach and utilizing an appropriate current market yield, time value and estimated losses from default assumptions based on historical analysis.
- Other ABS are priced using consensus pricing and a dealer quote.

Derivatives (Interest rate swap contracts), both assets and liabilities, are valued by a third-party pricing agent using an income approach and utilizing models that use as their primary basis readily observable market parameters. This

valuation process considers factors including interest rate yield curves, time value, credit factors and volatility factors. Although we have determined that the majority of the inputs used to value our derivatives fall within Level 2 of the fair value hierarchy, the credit valuation adjustments associated with our derivatives utilize Level 3 inputs, such as estimates of current credit spreads to evaluate the likelihood of default by us and our counterparties. However, as of June 30, 2008, we have assessed the significance of the impact of the credit valuation adjustments on the overall valuation of its derivative positions and has determined that the credit valuation adjustments are not significant to the overall valuation of our derivatives. As a result, we have determined that our derivative valuations in their entirety are classified in Level 2 of the fair value hierarchy.

NOTE 13 – FAIR VALUE OF FINANCIAL INSTRUMENTS – (Continued)

The following table presents information about the Company's assets (including derivatives that are presented net) measured at fair value on a recurring basis as of June 30, 2008 and indicates the fair value hierarchy of the valuation techniques utilized by the Company to determine such fair value.

	Quoted Prices in Active Markets Level 1	Significant Other Observable Inputs Level 2	Significant Unobservable Inputs Level 3	Balance as of June 30, 2008
Securities available-for-sale	\$ –	\$ –	\$ 47,074	\$ 47,074
Derivatives, net	–	(12,833)	–	(12,833)
Total	\$ –	\$ (12,833)	\$ 47,074	\$ 34,241

The following table presents additional information about assets which are measured at fair value on a recurring basis for which the Company has utilized Level 3 inputs to determine fair value.

	Fair Value Measurements Using Significant Unobservable Inputs (Level 3) Securities Available-for-Sale
Beginning balance	\$ 65,464
Total gains or losses (realized/unrealized):	
Included in earnings	(2,000)
Purchases, sales, issuances, and settlements (net)	(10,048)
Included in other comprehensive income	(6,342)
Ending balance	\$ 47,074

The Company had \$2.0 million of losses included in earnings due to the sale of one asset during the six months ended June 30, 2008. The loss is included on consolidated statements of operations as net realized gains (losses) on sales of investments.

NOTE 14 – INTEREST RATE RISK AND DERIVATIVE INSTRUMENTS

The primary market risk to the Company is interest rate risk. Interest rates are highly sensitive to many factors, including governmental monetary and tax policies, domestic and international economic and political considerations and other factors beyond the Company's control. Changes in the general level of interest rates can affect net interest income, which is the difference between the interest income earned on interest-earning assets and the interest expense

incurred in connection with the interest-bearing liabilities, by affecting the spread between the interest-earning assets and interest-bearing liabilities. Changes in the level of interest rates also can affect the value of the Company's interest-earning assets and the Company's ability to realize gains from the sale of these assets. A decline in the value of the Company's interest-earning assets pledged as collateral for borrowings under repurchase agreements could result in the counterparties demanding additional collateral pledges or liquidation of some of the existing collateral to reduce borrowing levels.

RESOURCE CAPITAL CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
JUNE 30, 2008
(Unaudited)

NOTE 14 – INTEREST RISK AND DERIVATIVE INSTRUMENTS – (Continued)

The Company seeks to manage the extent to which net income changes as a function of changes in interest rates by matching adjustable-rate assets with variable-rate borrowings. During periods of changing interest rates, interest rate mismatches could negatively impact the Company's consolidated financial condition, consolidated results of operations and consolidated cash flows. In addition, the Company mitigates the potential impact on net income of periodic and lifetime coupon adjustment restrictions in its investment portfolio by entering into interest rate hedging agreements such as interest rate caps and interest rate swaps.

At June 30, 2008, the Company had 31 interest rate swap contracts outstanding whereby the Company will pay an average fixed rate of 5.14% and receive a variable rate equal to one-month LIBOR. The aggregate notional amount of these contracts was \$334.8 million at June 30, 2008.

At December 31, 2007, the Company had 30 interest rate swap contracts outstanding whereby the Company will pay an average fixed rate of 5.36% and receive a variable rate equal to one-month LIBOR. The aggregate notional amount of these contracts was \$347.9 million at December 31, 2007.

The estimated fair value of the Company's interest rate swaps was (\$12.8) million and (\$18.0) million as of June 30, 2008 and December 31, 2007, respectively. The Company had aggregate unrealized losses of \$14.7 million and \$15.7 million on the interest rate swap agreements as of June 30, 2008 and December 31, 2007, respectively, which is recorded in accumulated other comprehensive loss. In connection, with the August 2006 close of Resource Real Estate Funding CDO 2006-1, the Company realized a swap termination loss of \$119,000, which is being amortized over the maturity of RREF CDO 2006-1. The amortization is reflected in interest expense in the Company's consolidated statements of operations. In connection with the June 2007 close of RREF 2007-1, the Company realized a swap termination gain of \$2.6 million, which is being amortized over the maturity of RREF 2007-1. The accretion is reflected in interest expense in the Company's consolidated statements of operations. In connection with the termination of a \$53.6 million swap related to RREF 2006-1 during the six months ended June 30, 2008, the Company realized a swap termination loss of \$4.2 million, which is being amortized over the maturity of a new \$45.0 million swap. The amortization is reflected in interest expense in the Company's consolidated statements of operations.

Changes in interest rates may also have an effect on the rate of mortgage principal prepayments and, as a result, prepayments on MBS in the Company's investment portfolio. The Company seeks to mitigate the effect of changes in the mortgage principal repayment rate by balancing assets purchased at a premium with assets purchased at a discount. At June 30, 2008, the aggregate discount exceeded the aggregate premium on the Company's MBS by approximately \$3.9 million. At December 31, 2007, the aggregate discount exceeded the aggregate premium on the Company's MBS by approximately \$4.1 million.

NOTE 15 – SUBSEQUENT EVENTS

On June 20, 2008, the Company declared a quarterly distribution of \$0.41 per share of common stock, \$10.4 million in the aggregate, which was paid on July 28, 2008 to stockholders of record as of June 30, 2008.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (Unaudited)

This report contains certain forward-looking statements. Forward-looking statements relate to expectations, beliefs, projections, future plans and strategies, anticipated events or trends and similar expressions concerning matters that are not historical facts. In some cases, you can identify forward-looking statements by terms such as "anticipate," "believe," "could," "estimate," "expects," "intend," "may," "plan," "potential," "project," "should," "will" and "would" or the terms or other comparable terminology. Such statements are subject to the risks and uncertainties more particularly described in Item 1A, under the caption "Risk Factors," in our Annual Report on Form 10-K for period ended December 31, 2007. These risks and uncertainties could cause actual results to differ materially. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof. We undertake no obligation to publicly release the results of any revisions to forward-looking statements which we may make to reflect events or circumstances after the date of this Form 10-Q or to reflect the occurrence of unanticipated events, except as may be required under applicable law.

Overview

We are a specialty finance company that focuses primarily on commercial real estate and commercial finance. We are organized and conduct our operations to qualify as a REIT under Subchapter M of the Internal Revenue Code of 1986, as amended. Our objective is to provide our stockholders with total returns over time, including quarterly distributions and capital appreciation, while seeking to manage the risks associated with our investment strategy. We invest in a combination of real estate-related assets and, to a lesser extent, higher-yielding commercial finance assets. Future distributions and capital appreciation are not guaranteed, however, and we have only a relatively short operating history and REIT experience upon which you can base an assessment of our ability to achieve our objectives.

We generate our income primarily from the spread between the revenues we receive from our assets and the cost to finance the purchase of those assets and hedge interest rate risks. We generate revenues from the interest we earn on our whole loans, A notes, B notes, mezzanine debt, commercial mortgage-backed securities, or CMBS, bank loans, payments on equipment leases and notes and other asset-backed securities, or ABS. Historically, we have used a substantial amount of leverage to enhance our returns and we have financed each of our different asset classes with different degrees of leverage. The cost of borrowings to finance our investments comprises a significant part of our expenses. Our net income depends on our ability to control these expenses relative to our revenue. In our bank loans, CMBS, equipment leases and notes and other ABS, we have used warehouse facilities as a short-term financing source and collateralized debt obligations, or CDOs, and, to a lesser extent, other term financing as a long-term financing source. In our commercial real estate loan portfolio, we have used repurchase agreements as a short-term financing source, and CDOs and have used, to a lesser extent, other term financing as a long-term financing source. Our other term financing has consisted of long-term match-funded financing provided through long-term bank financing and asset-backed financing programs, depending upon market conditions and credit availability.

Ongoing problems in real estate and credit markets continue to impact our operations, particularly our ability to generate capital and financing to execute our investment strategies. These ongoing problems have affected our earnings on a GAAP basis as we have increased our provision for loan and lease losses to reflect this trend. We have also determined that the market valuation for CMBS and Other ABS in our investment portfolio has been temporarily impaired. While we believe we have appropriately valued the assets in our investment portfolio at June 30, 2008, we cannot assure you that further impairment will not occur or that our assets will otherwise not be adversely effected by market conditions.

The events occurring in the credit markets have impacted our financing and investing strategies. The market for securities issued by securitizations collateralized by assets similar to those in our investment portfolio has contracted

severely. Since our sponsorship in June 2007 of Resource Real Estate Funding CDO 2007-1, or RREF 2007-1, we have not sponsored any new securitizations and we expect our ability to sponsor new securitizations will be limited for the foreseeable future. Short-term financing through warehouse lines of credit and repurchase agreements has become less available and reliable as increasing volatility in the valuation of assets similar to those we originate has increased the risk of margin calls. To reduce our exposure to margin calls or facility terminations, we have been paying down various repurchase agreement borrowings that finance CMBS and other securities that we hold. In addition, we have received returns of funded margin calls related to our interest rate derivatives and repurchase agreements of \$3.3 million and \$295,000, respectively, during the six months ended June 30, 2008. As a result, our ability to originate and finance new investments has been significantly diminished.

Beginning in the second half of 2007, we have focused on managing our exposure to liquidity risks primarily by reducing our exposure to possible margin calls under repurchase agreements, seeking to conserve our liquidity. We have continued to manage our liquidity and originate new assets primarily through capital recycling as payoffs occur and through existing capacities within our completed securitizations. To illustrate these efforts, within our commercial real estate loan portfolio we had uninvested cash of \$54.0 million at December 31, 2007 coupled with proceeds of \$11.4 million from a commercial real estate loan that paid off during the six months ended June 30, 2008 to originate a new loan of \$20.8 million and transfer \$42.8 million of commercial real estate loans into RREF CDO 2006-1. In addition, during the six months ended June 30, 2008 we sold a CMBS security that provided proceeds of \$8.0 million. The proceeds from the transfer of commercial real estate loans from our commercial real estate non-recourse term facility and the sale of a CMBS security were used to repay related repurchase agreement debt of \$47.3 million and the remaining \$3.5 million became unrestricted cash during the period. As of June 30, 2008, our repurchase agreement exposure was \$49.0 million on commercial real estate loans and \$16.6 million on commercial real estate CDO notes, which was reduced from \$75.8 million in the aggregate as of December 31, 2007.

We expect to continue to generate net investment income from our current investment portfolio and generate dividends for our shareholders. We continue to seek additional sources of financing, including expanded bank financing, and use of co-investment, participations and joint venture strategies that will enable us to originate investments and generate fee income while preserving capital.

We consolidate variable interest entities, or VIEs, if we determine we are the primary beneficiary, in accordance with Financial Accounting Standards Board, or FASB, Interpretation 46, "Consolidation of Variable Interest Entities," as revised, or FIN 46-R. During the year ended December 31, 2007, we sold ten percent of our equity investment in Ischus CDO II to an independent third party at market value. The sale was deemed to be a reconsideration event under FIN 46-R and we determined we were no longer the primary beneficiary based on a discounted cash flow analysis of expected losses and expected residual returns. Therefore, we deconsolidated Ischus CDO II and recognized income in our investment in Ischus CDO II using the cost recovery method. Our investment in Ischus CDO II was fully recovered during the three months ended March 31, 2008. For the six months ended June 30, 2008, we recognized \$997,000 of interest income on this investment which we record on our income statement as interest income – other.

As of June 30, 2008, we had invested 73% of our portfolio in commercial real estate-related assets 25% in commercial bank loans and 2% in direct financing leases and notes. As of December 31, 2007, we had invested 75% of our portfolio in commercial real estate-related assets, 24% in commercial bank loans and 1% in direct financing leases and notes.

Critical Accounting Policies and Estimates

The following represents our most critical accounting policies and estimates. For a complete discussion of our critical accounting policies and estimates, see the discussion our annual report on Form 10-K for fiscal 2007 under "Management's Discussion and Analysis of Financial Condition and Results of Operations – Critical Accounting Policies and Estimates."

Allowance for Loan and Lease Losses

We maintain an allowance for loan and lease losses. Loans and leases held for investment are first individually evaluated for impairment, and then evaluated as a homogeneous pool as loans with substantially similar characteristics for impairment. The reviews are performed at least quarterly.

We consolidate variable interest entities, or VIEs, if we determine we are the primary beneficiary, in accordance with Financial Accounting Standards Board, or FASB, Interpretation 46, "Consolidation of Variable Interest Entities," as

revised, or FIN 46-R. During the year ended December 31, 2007, we sold ten percent of our equity investment in Ischus CDO II to an independent third party at market value. The sale was deemed to be a reconsideration event under FIN 46-R and we determined we were no longer the primary beneficiary based on a discounted cash flow analysis of expected losses and expected residual returns. Therefore, we deconsolidated Ischus CDO II and recognized income in our investment in Ischus CDO II using the cost recovery method. At the date of deconsolidation, the value of our investment in Ischus CDO II was \$722,000. From the date of deconsolidation through December 31, 2007, we received \$465,000 of distributions leaving a balance of \$257,000 at December 31, 2007. For the three months ended March 31, 2008, \$1.3 million of cash receipts were collected and we recognized \$997,000 of interest income on this investment which we record on our income statement as interest income – other. No additional cash has been collected since March 31, 2008.

The balance of impaired loans and leases was \$17.1 million at June 30, 2008. The balance of impaired loans and leases with a valuation allowance at June 30, 2008 was \$16.9 million. All of the loans deemed impaired at June 30, 2008 have an associated valuation allowance. The balance of impaired leases without a specific valuation allowance was \$771,000 at June 30, 2008. The valuation allowance related to these specifically impaired loans and leases was \$15.5 million at June 30, 2008. The average balance of impaired loans and leases was \$17.2 million during the six months ended June 30, 2008. We did not recognize any income on impaired loans and leases during 2008.

The balance of impaired loans and leases was \$17.4 million at December 31, 2007. The balance of impaired loans and leases with a valuation allowance at December 31, 2007 was \$17.0 million. All of the loans deemed impaired at December 31, 2007 have an associated valuation allowance. The balance of impaired leases without a specific valuation allowance was \$359,000 at December 31, 2007. The valuation allowance related to these specifically impaired loans and leases was \$2.3 million at December 31, 2007. The average balance of impaired loans and leases was \$4.3 million during 2007. We did not recognize any income on impaired loans and leases during 2007 once each individual loan or lease became impaired.

An impaired loan or lease may remain on accrual status during the period in which we are pursuing repayment of the loan or lease; however, the loan or lease would be placed on non-accrual status at such time as either (i) management believes that scheduled debt service payments will not be met within the coming 12 months; (ii) the loan or lease becomes 90 days delinquent; (iii) management determines the borrower is incapable of, or has ceased efforts toward, curing the cause of the impairment; or (iv) the net realizable value of the loan's underlying collateral approximates our carrying value of such loan. While on non-accrual status, we recognize interest income only when an actual payment is received.

The following tables show the changes in the allowance for loan and lease losses (in thousands):

Allowance for loan loss at January 1, 2008	\$ 5,918
Provision for loan loss	16,631
Loans charged-off	(2,269)
Recoveries	—
Allowance for loan loss at June 30, 2008	\$ 20,280
Allowance for lease loss at January 1, 2008	\$ 293
Provision for lease loss	198
Leases charged-off	(391)
Recoveries	—
Allowance for lease loss at June 30, 2008	\$ 100

Classifications and Valuation of Investment Securities

Effective January 1, 2008, we adopted the provisions of Statement of Financial Accounting Standards No. 157, or SFAS, "Fair Value Measurements." SFAS 157 did not have a material effect on our consolidated financial statements with respect to investment securities available-for-sale and derivatives as we historically have valued them at fair value. SFAS 157 establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. We determined fair value based on quoted prices when available or through the use of alternative approaches, such as discounting the expected cash flows using market interest rates commensurate with the credit quality and duration of the investment. SFAS 157's hierarchy defines three levels of inputs that may be used to measure fair value:

Level 1 - Quoted prices in active markets for identical assets and liabilities that the reporting entity has the ability to access at the measurement date.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset and liability or can be corroborated with observable market data for substantially the entire contractual term of the asset or liability.

Level 3 - Unobservable inputs that reflect the entity's own assumptions about the assumptions that market participants would use in the pricing of the asset or liability and are consequently not based on market activity, but rather through particular valuation techniques.

The determination of where an asset or liability falls in the hierarchy requires significant judgment. The Company evaluates its hierarchy disclosures each quarter; and depending on various factors, it is possible that an asset or liability may be classified differently from quarter to quarter. However, we expect that changes in classifications between levels will be rare.

Certain assets and liabilities are measured at fair value on a recurring basis. The following is a discussion of these assets and liabilities as well as the valuation techniques applied to each for fair value measurement. Investment securities available-for-sale are measured with income valuation approaches and dealer quotes using the following types of inputs:

- Commercial Mortgage Backed Securities with no secondary trading except for distressed sellers and markets reflecting forced liquidations are valued using an income approach and utilizing an appropriate current market yield, time value and estimated losses from default assumptions based on historical analysis.

- Other ABS is priced using consensus pricing and a dealer quote.

The following is a discussion of the valuation techniques applied to derivatives for fair value measurement.

- Derivatives (Interest rate swap contracts), both assets and liabilities, are valued by a third-party pricing agent using an income approach and utilizing models that use as their primary basis readily observable market parameters. This valuation process considers factors including interest rate yield curves, time value, credit factors and volatility factors. Although we have determined that the majority of the inputs used to value our derivatives fall within Level 2 of the fair value hierarchy, the credit valuation adjustments associated with our derivatives utilize Level 3 inputs, such as estimates of current credit spreads to evaluate the likelihood of default by us and our counterparties. However, as of June 30, 2008, we have assessed the significance of the impact of the credit valuation adjustments on the overall valuation of its derivative positions and has determined that the credit valuation adjustments are not significant to the overall valuation of our derivatives. As a result, we have determined that our derivative valuations in their entirety are classified in Level 2 of the fair value hierarchy.

The following table presents information about our assets (including derivatives that are presented net) measured at fair value on a recurring basis as of June 30, 2008 and indicates the fair value hierarchy of the valuation techniques utilized by us to determine such fair value.

	Quoted Prices in Active Markets Level 1	Significant Other Observable Inputs Level 2	Significant Unobservable Inputs Level 3	Balance as of June 30, 2008
Securities available-for-sale	\$ -	\$ -	\$ 47,074	\$ 47,047
Derivatives, net	-	(12,833)	-	(12,833)
Total	\$ -	\$ (12,833)	\$ 47,074	\$ 34,241

The following table presents additional information about assets which we measure at fair value on a recurring basis for which we used Level 3 inputs to determine fair value.

	Fair Value Measurements Using Significant Unobservable Inputs (Level 3) Securities Available-for-Sale
Beginning balance	\$ 65,464
Total gains or losses (realized/unrealized):	
Included in earnings	(2,000)
Purchases, sales, issuances, and settlements (net)	(10,048)
Included in other comprehensive income	(6,342)
Ending balance	\$ 47,074

We had \$2.0 million of losses included in earnings due to the sale of one asset during the six months ended June 30, 2008. The loss is included on consolidated statements of operations as net realized gains (losses) on sales of investments.

SFAS No. 115, "Accounting for Certain Investments in Debt and Equity Securities," requires us to classify our investment portfolio as either trading investments, available-for-sale investments or held-to-maturity investments. Although we generally plan to hold most of our investments to maturity, we may from time to time sell any of our investments due to changes in market conditions or in accordance with our investment strategy. Accordingly, SFAS 115 requires us to classify all of our investment securities as available-for-sale. We report all investments classified as available-for-sale at fair value, based on market prices provided by dealers, with unrealized gains and losses reported as a component of accumulated other comprehensive income (loss) in stockholders' equity.

We evaluate our available-for-sale investments for other-than-temporary impairment charges in accordance with Emerging Issues Task Force, or EITF, 03-1, "The Meaning of Other-Than-Temporary Impairment and its Application to Certain Investments." SFAS 115 and EITF 03-1 require an investor to determine when an investment is considered impaired (i.e., decline in fair value below its amortized cost), evaluate whether the impairment is other than temporary (i.e., the investment value will not be recovered over its remaining life), and, if the impairment is other than temporary, recognize an impairment loss equal to the difference between the investment's cost and its fair value. The guidance also includes accounting considerations subsequent to the recognition of other-than-temporary impairment and requires certain disclosures about unrealized losses that have not been recognized as other-than-temporary impairments. EITF 03-1 also includes disclosure requirements for investments in an unrealized loss position for which other-than-temporary impairments have not been recognized.

While our available-for-sale investments have continued to decline in fair value, we believe that these declines continue to be temporary. In particular, with respect to CMBS, all assets are current with respect to interest and principal payments. In addition, we perform an on-going review of third-party reports and updated financial data on the underlying property financial information to analyze current and projected loan performance. Our review concluded, that there exist no credit characteristics that would indicate other-than-temporary impairments as of June 30, 2008.

We record investment securities transactions on the trade date. We record purchases of newly issued securities when all significant uncertainties regarding the characteristics of the securities are removed, generally shortly before settlement date. We determine realized gains and losses on investment securities on the specific identification method.

Repurchase Agreements

We have used repurchase agreements as a financing source in acquiring our commercial real estate loans and CMBS-private placement portfolios, and have used repurchase agreements as a short-term financing source for our commercial real estate loan portfolio prior to the execution of a CDO. Although structured as a sale and purchase obligation, a repurchase agreement operates as a financing arrangement under which we pledge our securities as collateral to secure a loan which is equal in value to a specified percentage of the estimated fair value of the pledged collateral, while we retain beneficial ownership of the pledged collateral. We carry these repurchase agreements at their contractual amounts, as specified in the respective agreements. We recognize interest expense on all borrowings on an accrual basis.

We have from time to time purchased debt investments from a counterparty and subsequently financed the acquisition of those debt investments through repurchase agreements with the same counterparty. We currently record the acquisition of the debt investments as assets and the related repurchase agreements as financing liabilities gross on the consolidated balance sheets. Interest income earned on the debt investments and interest expense incurred on the repurchase obligations are reported gross on our consolidated income statements. However, under an interpretation of SFAS 140, "Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities" such transactions may not qualify as a purchase by us. We believe, and it is industry practice, that we account for these transactions in an appropriate manner. However, the result of this technical interpretation would prevent us from presenting the debt investments and repurchase agreements and the related interest income and interest expense on a gross basis on our financial statements. Instead, we would present the net investment in these transactions with the counterparty and a derivative with the corresponding change in fair value of the derivative being recorded through earnings. The value of the derivative would reflect changes in the value of the underlying debt investments and changes in the value of the underlying credit provided by the counterparty. There were no such transactions as of June 30, 2008 and December 31, 2007. In February 2008, FASB issued FASB Staff Position 140-3, or FSP FAS 140-3, "Accounting for Transfers of Financial Assets and Repurchase Financing Transactions," which provides guidance on accounting for a transfer of a financial asset and repurchase financing, which is effective for fiscal years beginning after November 15, 2008. We do not expect FSP FAS 140-3 will have a material effect on our consolidated financial statements.

Derivative Instruments

Our policies permit us to enter into derivative contracts, including interest rate swaps and interest rate caps to add stability to our interest expense and to manage our exposure to interest rate movements or other identified risks. We designated these transactions as cash flow hedges. We evaluate contracts or hedge instruments at inception and at subsequent balance sheet dates to determine if they qualify for hedge accounting under SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities." SFAS 133 requires that we recognize all derivatives on the balance sheet at fair value. We record changes in the fair value of the derivative in other comprehensive income to the extent that it is effective. Any ineffective portion of a derivative's change in fair value will be immediately recognized in

earnings.

Results of Operations – Three and Six Months Ended June 30, 2008 as compared to Three and Six Months Ended June 30, 2007

Our net loss for the three months ended June 30, 2008 was \$5.3 million, or (\$0.21) per weighted average common share (basic and diluted) while our net income for the six months ended June 30, 2008 was \$4.1 million or \$0.17 per weighted average common share-basic (\$0.16 per weighted average common share-diluted) as compared to \$9.8 million, or \$0.40 per weighted average common share-basic (\$0.39 per weighted average common share-diluted) and \$19.3 million, or \$0.78 per weighted average common share-basic (\$0.77 per weighted average common share-diluted) for the three and six months ended June 30, 2007, respectively.

The decrease in net income of \$15.1 million for the three months ended June 30, 2008 from the comparative 2007 period is primarily attributable to provisions for loan and lease losses of \$15.7 million during the three months ended June 30, 2008. The decrease in net income for the six months ended June 30, 2008 from the comparative 2007 period is primarily attributable to provisions for loan and lease losses of \$16.8 million offset by a gain on the extinguishment of debt of \$1.8 million during the six months ended June 30, 2008.

Interest Income

The following table sets forth information relating to our interest income recognized for the periods presented (in thousands, except percentages):

	Three Months Ended June 30, 2008			Three Months Ended June 30, 2007		
	Interest Income	Weighted Average		Interest Income	Weighted Average

Total interest income	\$ 69,241			\$ 83,814		

(1) Represents cash received on our 90% equity investment in Ischus CDO II in excess of our investment. Income on this investment is recognized using the cost recovery method.

Interest income decreased \$11.5 million (26%) and \$14.6 million (17%) to \$32.3 million and \$69.2 million for the three and six months ended June 30, 2008, respectively, from \$43.8 million and \$83.8 million for the three and six months ended June 30, 2007. We attribute this decrease to the following:

Interest Income from Loans

Interest income from loans decreased \$4.4 million (13%) and \$2.3 million (4%) to \$28.7 million and \$61.1 million for the three and six months ended June 30, 2008, respectively, from \$33.1 million and \$63.4 million for the three and six months ended June 30, 2007, respectively.

Bank loans generated interest income of \$12.6 million and \$28.8 million for the three and six months ended June 30, 2008, respectively, as compared to \$17.5 million and \$33.1 million for the three and six months ended June 30, 2007, respectively, a decrease of \$4.9 million (28%) and \$4.3 million (13%), respectively. These decreases resulted primarily from a decrease in the weighted average rate earned by our bank loans to 5.27% and 6.02% for the three and six months ended June 30, 2008, respectively from 7.38% and 7.42% for the three and six months ended June 30, 2007, respectively, principally as a result of the decrease in LIBOR which is a reference index for the rates payable on

these loans. The effects of the decrease in the weighted average rate were partially offset by an increase of \$28.9 million and \$74.0 million in the weighted average balance of assets to \$945.2 million and \$943.0 million for the three and six months ended June 30, 2008, respectively, from \$916.3 million and \$869.0 million for the three and six months ended June 30, 2007, respectively, as a result of the acquisition of investments for Apidos Cinco CDO.

The decrease in bank loans was partially offset by an increase in commercial real estate loans which produced \$16.0 million and \$32.3 million of interest income for the three and six months ended June 30, 2008, respectively, as compared to \$15.6 million and \$30.3 million for the three and six months ended June 30, 2007, respectively, an increase of \$448,000 (3%) and \$2.0 million (7%), respectively. This increase resulted from an increase of \$134.9 million and \$158.7 million in the weighted average balance of our commercial real estate loans to \$858.6 million and \$851.6 million, respectively for the three and six months ended June 30, 2008, respectively, from \$723.7 million and \$692.9 million for the three and six months ended June 30, 2007, respectively, as a result of the accumulation of assets for our second commercial real estate, or CRE CDO, RREF 2007-1 which closed in June 2007. This increase was partially offset by the following:

- a decrease in the weighted average rate to 7.17% and 7.31% for the three and six months ended June 30, 2008, respectively, from 8.09% and 8.28% for the three and six months ended June 30, 2007, respectively, primarily as a result of the decrease in LIBOR which is a reference index for the rates payable on a substantial portion of these loans; and
- the acceleration of loan origination fees of \$495,000 for the six months ended June 30, 2007, respectively, as a result of the sale of loans. There was no such acceleration of loan origination fees for the three and six months ended June 30, 2008.

Interest Income from Securities Available-for-Sale

Interest income from securities available-for-sale decreased \$6.8 million (85%) and \$13.0 million (85%) to \$1.2 million and \$2.3 million for the three and six months ended June 30, 2008, respectively, from \$7.9 million and \$15.3 million for the three and six months ended June 30, 2007.

Interest income from our asset-backed securities-residential mortgage-backed securities, or ABS-RMBS, CMBS and other ABS portfolio generated \$6.3 million, \$400,000 and \$404,000, respectively for the three months ended June 30, 2007 and \$12.6 million, \$801,000 and \$758,000 for the six months ended June 30, 2008. No interest income from ABS-RMBS and CMBS was generated during the three and six months ended June 30, 2008. The other ABS portfolio generated \$70,000 and \$19,000 for the three and six months ended June 30, 2008. The decrease is primarily a result of the deconsolidation of Ischus CDO II on November 13, 2007 following our sale of a 10% portion of our equity ownership, a reconsideration event in accordance with FIN 46-R.

This decrease was partially offset by the contribution from CMBS-private placement of \$1.1 million and \$2.3 million of interest income for the three and six months ended June 30, 2008, respectively, as compared to \$832,000 and \$1.2 million for the three and six months ended June 30, 2007, respectively, an increase of \$256,000 (31%) and \$1.1 million (95%), respectively. This increase resulted primarily from the increase of the weighted average balance of \$24.2 million and \$40.1 million on these securities to \$74.6 million and \$78.3 million for the three and six months ended June 30, 2008, respectively, from \$50.4 million and \$38.2 million for the three and six months ended June 30, 2007, respectively.

Interest Income - Other

Interest income-other decreased \$457,000 (50%) and increased \$515,000 (39%) to \$453,000 and \$1.8 million for the three and six months ended June 30, 2008, respectively, as compared to \$910,000 and \$1.3 million for the three and six months ended June 30, 2007, respectively. The decrease for the three months ended June 30, 2008 was due to lower rates earned on our over-night repurchase agreements. The increase for the six months ended June 30, 2008 was from an increase in interest income from our equity method investment in Ischus CDO II. We use the cost recovery method to recognize the income on this investment and recognized \$997,000 during the three months ended March 31, 2008. No such income was recognized for the three months ended June 30, 2008 or in the prior year. This increase during the six months ended June 30, 2008 was partially offset by a decrease in temporary investment income

due to lower rates earned on our over-night repurchase agreements.

38

Interest Expense

The following tables set forth information relating to our interest expense incurred for the periods presented (in thousands, except percentages):

	Three Months Ended June 30, 2008			Three Months Ended June 30, 2007		
	Weighted Average			Weighted Average		
	Interest Expense	Yield	Balance	Interest Expense	Yield	Balance
Bank loans	\$ 8,208	3.58%	\$ 906,000	\$ 13,338	5.90%	\$ 881,131
Commercial real estate loans	6,626	3.78%	\$ 699,850	8,050	6.33%	\$ 496,132
ABS-RMBS / CMBS / ABS	–	N/A	N/A	5,665	5.88%	\$ 376,000
CMBS-private placement	11	5.52%	\$ 848	494	5.68%	\$ 34,554
Leasing	931	4.25%	\$ 86,751	1,401	6.41%	\$ 83,894
General	3,148	3.21%	\$ 384,385	1,274	9.51%	\$ 50,385
Total interest expense	\$ 18,924			\$ 30,222		

	Six Months Ended June 30, 2008			Six Months Ended June 30, 2007		
	Weighted Average			Weighted Average		
	Interest Expense	Yield	Balance	Interest Expense	Yield	Balance
Bank loans	\$ 19,094	4.17%	\$ 906,000	\$ 24,938	5.97%	\$ 830,066
Commercial real estate loans	15,101	4.26%	\$ 701,615	14,594	6.45%	\$ 451,079
ABS-RMBS / CMBS / ABS	–	N/A	N/A	11,269	5.96%	\$ 376,000
CMBS-private placement	88	4.88%	\$ 3,570	833	5.54%	\$ 29,848
Leasing	2,215	4.94%	\$ 89,649	2,812	6.50%	\$ 84,646
General	5,574	2.79%	\$ 388,523	2,543	9.77%	\$ 50,244
Total interest expense	\$ 42,072			\$ 56,989		

Interest expense decreased \$11.3 million (37%) and \$14.9 million (26%) to \$18.9 million and \$42.1 million for the three and six months ended June 30, 2008, respectively, from \$30.2 million and \$57.0 million for the three and six months ended June 30, 2007. We attribute this decrease to the following:

Interest expense on bank loans was \$8.2 million and \$19.1 million for the three and six months ended June 30, 2008, respectively, as compared to \$13.3 million and \$24.9 million for the three and six months ended June 30, 2007, a decrease of \$5.1 million (38%) and \$5.8 million (23%), respectively. This decrease resulted from a decrease in the weighted average rate on the debt related to bank loans to 3.41% and 4.00% for the three and six months ended June 30, 2008, respectively, from 5.84% and 5.85% for the three and six months ended June 30, 2007, respectively, on a substantial portion of this debt due primarily to the decrease in LIBOR. This decrease was partially offset by our amortization of \$395,000 and \$776,000 of deferred debt issuance costs related to the CDO financings for the three and six months ended June 30, 2008, respectively, as compared to \$272,000 and \$504,000 for the three and six months ended June 30, 2007.

Interest expense on commercial real estate loans which was \$6.6 million and \$15.1 million for the three and six months ended June 30, 2008, respectively, decreased \$1.4 million (18%) for the three months ended June 30, 2008 and increased \$507,000 (3%) for the six months ended June 30, 2008 from \$8.1 million and \$14.6 million for the three and six months ended June 30, 2007 due principally to the following:

-

Edgar Filing: Resource Capital Corp. - Form 10-Q

The increase in the weighted average balance of debt of \$203.7 million and \$250.5 million to \$699.9 million and \$701.6 million for the three and six months ended June 30, 2008, respectively, from \$496.1 million and \$451.1 million for the three and six months ended June 30, 2007, respectively, primarily related to the accumulation of investments and the closing of our second CRE CDO, RREF 2007-1, which closed on June 26, 2007 and issued \$348.9 million of debt.

- Our amortization of \$453,000 and \$800,000 of deferred debt issuance costs related to the CDO financings for the three and six months ended June 30, 2008, respectively, as compared to \$146,000 and \$290,000 for the three and six months ended June 30, 2007, respectively.

Edgar Filing: Resource Capital Corp. - Form 10-Q

The increase in the weighted average balance and the increase in issuance cost amortization were offset by a decrease in the weighted average rate to 3.48% and 3.97% for the three and six months ended June 30, 2008, respectively, from 6.23% and 6.24% for the three and six months ended June 30, 2007, respectively, on a substantial portion of debt as a result of the decrease in LIBOR.

ABS-RMBS, CMBS and other ABS, which we refer to collectively as ABS, were pooled and financed by Ischus CDO II. Interest expense related to these obligations was \$5.7 million and \$11.3 million for the three and six months ended June 30, 2007, respectively. There was no such interest expense for the three and six months ended June 30, 2008 due to the deconsolidation of Ischus CDO II on November 13, 2007 as a result of the sale of 10% of our equity ownership, a reconsideration event in accordance with FIN 46-R.

Interest expense on CMBS-private placement was \$11,000 and \$88,000 for the three and six months ended June 30, 2008, respectively, as compared to \$494,000 and \$833,000 for the three and six months ended June 30, 2007, respectively, a decrease of \$483,000 (98%) and \$745,000 (89%) due to a majority of the assets being refinanced by CDO debt for the three and six months ended June 30, 2008, respectively. For the three and six months ended June 30, 2007, most of the assets were held outside of the CDOs.

Interest expense on leasing activities was \$931,000 and \$2.2 million for the three and six months ended June 30, 2008, respectively, as compared to \$1.4 million and \$2.8 million for the three and six months ended June 30, 2007, respectively, a decrease of \$470,000 (34%) and \$597,000 (21%), respectively, resulting from the decrease in the commercial paper index, which is a reference index for the rate payable on this facility.

The decrease in interest expense was partially offset by the increase in general interest expense which incurred \$3.1 million and \$5.6 million of interest expense for the three and six months ended June 30, 2008, respectively, as compared to \$1.3 million and \$2.5 million for the three and six months ended June 30, 2007, respectively, an increase \$1.9 million (147%) and \$3.0 million (119%), respectively. This increase resulted primarily from an increase of \$2.2 million and \$3.5 million in expenses on our interest rate derivatives that fix the rate we pay under these agreements. During the three and six months ended June 30, 2008, the floating rate we paid exceeded the fixed rate we received due to the decrease in LIBOR. The increase in derivative expense was partially offset by a decrease in interest expense related to our unsecured junior subordinated debentures held by unconsolidated trusts that issued trust preferred securities as a result of a decrease in the LIBOR rate which is a reference index for the rates payable by these debentures.

Non-Investment Expenses

The following table sets forth information relating to our expenses incurred for the periods presented (in thousands):

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2008	2007	2008	2007
Management fee – related party	\$ 1,171	\$ 2,027	\$ 2,909	\$ 4,059
Equity compensation – related party	541	137	622	623
Professional services	664	541	1,456	1,233
Insurance	170	114	298	235
General and administrative	343	324	698	736
Income tax expense	138	26	167	171
Total	\$ 3,027	\$ 3,169	\$ 6,150	\$ 7,057

Management fee–related party decreased \$856,000 (42%) and \$1.2 million (28%) to \$1.2 million and \$2.9 million for the three and six months ended June 30, 2008, respectively, as compared to \$2.0 million and \$4.1 million for the three and six months ended June 30, 2007, respectively. These amounts represent compensation in the form of base

management fees and incentive management fees pursuant to our management agreement. The base management fees decreased by \$125,000 (10%) and \$238,000 (9%) to \$1.2 million and \$2.3 million for the three and six months ended June 30, 2008, respectively, as compared to \$1.3 million and \$2.6 million for the three and six months ended June 30, 2007, respectively. This decrease was due to decreased equity, a component in the formula by which base management fees are calculated, as a result of the buyback of 263,000 shares during the third and fourth quarters of 2007 as well as asset impairment and eventual deconsolidation of Ischus CDO II. Incentive management fees decreased by \$730,000 (100%) and \$912,000 (62%) to \$0 and \$564,000 for the three and six months ended June 30, 2008 from \$730,000 and \$1.5 million in the three and six months ended June 30, 2007, respectively. The decrease for the three and six months ended was due to the fact that no incentive was paid as a result of the net loss for the three months ended June 30, 2008. The decrease for the six months ended June 30, 2008 was also a result of the decrease in our adjusted net income of \$11.4 million, as defined in the management agreement, during the three and six months ended June 30, 2008 as compared to the three and six months ended June 30, 2007 as well as an increase in the number of weighted average common shares outstanding, a component in the formula by which incentive management fees are calculated, for the three months ended June 30, 2008 as compared to June 30, 2007.

Equity compensation–related party increased \$404,000 (295%) to \$541,000 for the three months ended June 30, 2008 as compared to \$137,000 for the three months ended June 30, 2007. These expenses relate to the amortization of annual grants of restricted common stock to our non-employee independent directors, and annual and discretionary grants of restricted stock to several employees of Resource America, Inc., or RAI, who provide investment management services to us through our Manager. The increase in expense was primarily the result of several restricted stock grants during and subsequent to June 2007. This was partially offset by our quarterly remeasurement of unvested stock and options as a result of the decrease in our stock price.

Professional services increased \$123,000 (23%) and \$223,000 (18%) to \$664,000 and \$1.5 million for the three and six months ended June 30, 2008, respectively, as compared to \$541,000 and \$1.2 million for the three and six months ended June 30, 2007, respectively. These increases during the three and six months ended June 30, 2008 were primarily due to a \$74,000 and \$125,000, respectively, increase in legal fees related principally to compliance work performed.

Other (Expenses) Revenues

The following table sets forth information relating to our other (expenses) revenues incurred for the periods presented (in thousands):

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2008	2007	2008	2007
Net realized gains (losses) on sales of investments	\$ 102	\$ 152	\$ (1,893)	\$ 222
Asset impairments	–	(788)	–	(788)
Other income	26	37	59	73
Provision for loan and lease loss	(15,692)	–	(16,829)	–
Gain on the extinguishment of debt	–	–	1,750	–
Total	\$ (15,564)	\$ (599)	\$ (16,913)	\$ (493)

Net realized gains (losses) on investments decreased \$50,000 (33%) and decreased \$2.1 million (953%) to a gain of \$102,000 and a loss of \$1.9 million for the three and six months ended June 30, 2008, respectively, from gains of \$152,000 and \$222,000 for the three and six months ended June 30, 2007, respectively. The increase in realized losses during the six months ended June 30, 2008 was primarily due to a loss of \$2.0 million on the sale of one of our CMBS – private placement positions.

Asset impairments were \$788,000 for the three and six months ended June 30, 2007 and consisted entirely of other-than-temporary impairment on assets in our ABS-RMBS portfolio. During the second quarter, we experienced illiquidity in the sub-prime market and deteriorating delinquency characteristics of the mortgages underlying our bonds. These trends together with significant rating agency actions supported the need to further reevaluate the level of asset impairments in our ABS-RMBS portfolio. The asset impairments recorded reflect these worsening market conditions. Due to the deconsolidation of Ischus CDO II on November 13, 2007, as a result of the sale of 10% of our equity ownership, a reconsideration event in accordance with FIN 46-R, there was no such impairment for the three and six months ended June 30, 2008.

Our provision for loan and lease losses was \$15.7 million and \$16.8 million for the three and six months ended June 30, 2008, respectively. It consisted of \$3.9 million and \$4.6 million of provisions for loan loss on our bank loan portfolio for the three and six months ended June 30, 2008, respectively, \$11.6 million and \$11.7 million of provisions for loan loss on our commercial real estate portfolio for the three and six months ended June 30, 2008, respectively and \$198,000 of provision on our leasing portfolio for the three and six months ended June 30, 2008. There was no provision deemed necessary for the three and six months ended June 30, 2007. The principal reason for the increase in the provision for loan and lease losses was due to reserves recognized on three defaulted bank loans and fully

reserving for one defaulted CRE loan. We also increased our general reserve due to deteriorating credit market conditions.

Gain on the extinguishment of debt is due to the buyback of \$5.0 million of debt issued by RREF 2007-1 during the six months ended June 30, 2008. The notes, issued at par, were bought back as an investment by us at a price of 65% resulting in a gain of \$1.8 million. The related deferred debt issuance costs were immaterial. There was no such transaction in the six months ended June 30, 2007.

Income Taxes

We do not pay federal income tax on income we distribute to our stockholders, subject to our compliance with REIT qualification requirements. However, Resource TRS, our domestic TRS, is taxed as a regular subchapter C corporation under the provisions of the Internal Revenue Code. For the three and six months ended June 30, 2008, Resource TRS recognized a \$138,000 and \$167,000 provision for income taxes, respectively. For the three and six months ended June 30, 2007, Resource TRS recognized a \$26,000 and \$171,000 provision for income taxes, respectively.

Financial Condition

Investment Portfolio

The table below summarizes the amortized cost and net carrying amount of our investment portfolio as of June 30, 2008 and December 31, 2007, classified by interest rate type. The following table includes both (i) the amortized cost of our investment portfolio and the related dollar price, which is computed by dividing amortized cost by par amount, and (ii) the net carrying amount of our investment portfolio and the related dollar price, which is computed by dividing the net carrying amount by par amount (in thousands, except percentages):

	Amortized cost	Dollar price	Net carrying amount (4)	Dollar price	Net carrying amount less amortized cost	Dollar price

(1) Net carrying amount includes an allowance for loan losses of \$14.9 million at June 30, 2008, allocated as follows: B notes (\$0.2 million), mezzanine loans (\$13.2 million) and whole loans (\$1.5 million). Net carrying amount includes an allowance for loan losses of \$3.2 million at December 31, 2007, allocated as follows: B notes (\$0.2 million), mezzanine loans (\$1.6 million) and whole loans (\$1.4 million).

(2) Net carrying amount includes a \$5.4 million and \$2.7 million allowance for loan losses at June 30, 2008 and December 31, 2007, respectively.

(3) Net carrying amount includes \$100,000 and \$293,000 allowance for lease losses at June 30, 2008 December 31, 2007, respectively.

(4) Bank loan portfolio is carried at amortized cost less allowance for loan loss.

Commercial Mortgage-Backed Securities-Private Placement

At June 30, 2008 and December 31, 2007, we held \$46.8 million and \$64.6 million, respectively, of CMBS-private placement at fair value which is based on certain valuation techniques, see "Management's Discussion and Analysis of Financial Condition and Results of Operations – Critical Accounting Policies and Estimates," net of unrealized losses of \$23.6 million and \$17.8 million, respectively. The portfolio was purchased at a discount. As of June 30, 2008 and December 31, 2007, the remaining discount to be accreted into income over the remaining lives of the securities was \$3.9 million and \$4.1 million, respectively. These securities are classified as available-for-sale and, as a result, are carried at their fair value.

The following table summarizes our CMBS-private placement as of June 30, 2008 and December 31, 2007 (in thousands, except percentages). Dollar price is computed by dividing amortized cost by par amount.

Other Asset-Backed Securities

At June 30, 2008 and December 31, 2007, we held \$300,000 and \$900,000, respectively, of other ABS at fair value, which is based on market prices provided by dealers, net of losses of \$5.4 million and \$4.8 million, respectively. In the aggregate, we purchased our other ABS portfolio at a discount. As of June 30, 2008 and December 31, 2007, the remaining discount to be accreted into income over the remaining lives of securities was \$335,000. These securities are classified as available-for-sale and, as a result, are carried at their fair market value.

The following table summarizes our other ABS as of June 30, 2008 and December 31, 2007 (in thousands, except percentages). Dollar price is computed by dividing amortized cost by par amount.

Total (1)	59	\$ 841,457		

(1)The total does not include a provision for loan losses of \$14.8 million recorded as of June 30, 2008 and \$3.2 million as of December 31, 2007.

Edgar Filing: Resource Capital Corp. - Form 10-Q

We have one mezzanine loan, with a book value of \$11.6 million secured by 100% of the equity interests in two enclosed regional malls. We had been working with the borrower and special servicer toward a resolution as the mezzanine loan was in default since February 2008. However, during the quarter ended June 30, 2008, the borrower on the mezzanine loan defaulted on the more senior first mortgage position. This event triggered the reevaluation of our provision for loan loss and we determined that a full reserve of the remaining book value balance of \$11.6 million was necessary. If in the future, we are able to recover any value from this loan, the amount would be credited directly to income in that period.

Bank Loans

At June 30, 2008, we held a total of \$857.3 million of bank loans at fair value, all of which are held by and secure the debt issued by Apidos CDO I, Apidos CDO III and Apidos Cinco CDO. This is a decrease of \$17.4 million over our holdings at December 31, 2007 at fair value. The decrease in the fair value of bank loans was principally due to the reduction of market prices. We own 100% of the equity issued by Apidos CDO I, Apidos CDO III and Apidos Cinco CDO. We have determined that Apidos CDO I, Apidos CDO III and Apidos Cinco CDO are VIEs for which we are the primary beneficiaries. See “-Variable Interest Entities.” As a result, we consolidated Apidos CDO I, Apidos CDO III and Apidos Cinco CDO as of June 30, 2008.

The following table summarizes our bank loan investments as of June 30, 2008 and December 31, 2007 (in thousands, except percentages). Dollar price is computed by dividing amortized cost by par amount.

Variable Interest Entities

In December 2003, FASB issued FIN 46-R which addresses the application of Accounting Research Bulletin No. 51, "Consolidated Financial Statements," to a variable interest entity, or VIE, and requires that the assets, liabilities and results of operations of a VIE be consolidated into the financial statements of the enterprise that has a controlling financial interest in it. The interpretation provides a framework for determining whether an entity should be evaluated for consolidation based on voting interests or significant financial support provided to the entity which we refer to as variable interests. We consider all counterparties to a transaction to determine whether a counterparty is a VIE and, if so, whether our involvement with the entity results in a variable interest in the entity. We perform analyses to determine whether we are the primary beneficiary. As of June 30, 2008, we determined that RREF CDO 2007-1, Resource Real Estate Funding CDO 2006-1, Apidos CDO I, Apidos CDO III and Apidos Cinco CDO were VIEs and that we were the primary beneficiary of the VIEs. We own 100% of the equity interests of RREF CDO 2007-1, Resource Real Estate Funding CDO 2006-1, Apidos CDO I, Apidos CDO III and Apidos Cinco CDO. As a result of the application of FIN 46-R, we consolidated \$1.7 billion of assets for these entities onto our balance sheet; however, only our equity investments in these VIEs, amounting to \$273.9 million (before adjustment to other comprehensive loss) as of June 30, 2008, is available to our creditors.

Interest Receivable

At June 30, 2008, we had accrued interest receivable of \$9.1 million, which consisted of \$9.0 million of interest on our securities, loans and equipment leases and notes, and \$71,000 of interest earned on escrow and sweep accounts. At December 31, 2007, we had interest receivable of \$12.0 million, which consisted of \$11.7 million of interest on our securities, loans and equipment leases and notes and \$228,000 of interest earned on escrow and sweep accounts.

Principal Paydown Receivables

At June 30, 2008 and December 31, 2007, we had principal paydown receivables of \$60,000 and \$836,000, respectively, which consisted of principal payments on our bank loans. The decrease was primarily due to the timing of when the principal was paid.

Other Assets

Other assets at June 30, 2008 of \$5.1 million consisted primarily of \$3.1 million of loan origination costs associated with our revolving credit facility, commercial real estate loan portfolio and secured term facility, \$1.2 million of prepaid expenses and \$809,000 of lease payment receivables.

Other assets at December 31, 2007 of \$4.9 million consisted primarily of \$3.4 million of loan origination costs associated with our trust preferred securities issuances, revolving credit facility, commercial real estate loan portfolio and secured term facility, \$85,000 of prepaid directors' and officers' liability insurance, \$412,000 of prepaid expenses, \$998,000 of lease payment receivables and \$37,000 of other receivables.

Hedging Instruments

Our hedges at June 30, 2008 and December 31, 2007, were fixed-for-floating interest rate swap agreements whereby we swapped the floating rate of interest on the liabilities we hedged for a fixed rate of interest. As of December 31, 2007, we had entered into hedges with a notional amount of \$347.9 million and maturities ranging from May 2009 to November 2017. We intend to continue to seek such hedges for our floating rate debt in the future. Our hedges at June 30, 2008 were as follows (in thousands):

	Benchmark rate	Notional value	Pay rate	Effective date	Maturity date	Fair value
Interest rate swap	1 month LIBOR	\$ 12,750	5.27	07/25/07	08/06/12	\$ (655)
Interest rate swap	1 month LIBOR	12,965	4.63	12/04/06	07/01/11	(349)
Interest rate swap	1 month LIBOR	28,000	5.10	05/24/07	06/05/10	(953)
Interest rate swap	1 month LIBOR	12,675	5.52	06/12/07	07/05/10	(526)
Interest rate swap	1 month LIBOR	1,880	5.68	07/13/07	03/12/17	(163)
Interest rate swap	1 month LIBOR	15,235	5.34	06/08/07	02/25/10	(536)
Interest rate swap	1 month LIBOR	10,435	5.32	06/08/07	05/25/09	(230)
Interest rate swap	1 month LIBOR	12,150	5.44	06/08/07	03/25/12	(675)
Interest rate swap	1 month LIBOR	7,000	5.34	06/08/07	02/25/10	(246)
Interest rate swap	1 month LIBOR	44,888	4.13	01/10/08	05/25/16	460
Interest rate swap	1 month LIBOR	82,879	5.58	06/08/07	04/25/17	(5,951)

Borrowings

Repurchase Agreements

We have entered into repurchase agreements to finance our commercial real estate loans and CMBS-private placement portfolio. These agreements are secured by the financed assets and bear interest rates that have historically moved in close relationship to LIBOR. At June 30, 2008, we had established nine borrowing arrangements with various financial institutions and had utilized four of these arrangements, principally our arrangement with Credit Suisse Securities (USA) LLC, the initial purchaser and placement agent for our March 2005 offering and one of the underwriters in our two public offerings. None of the counterparties to these agreements are affiliates of the Manager or us.

We seek to renew the repurchase agreements we use to finance asset acquisitions as they mature under the then-applicable borrowing terms of the counterparties to our repurchase agreements. Through June 30, 2008, we have encountered no difficulties in effecting renewals of our repurchase agreements. However, we have had to post collateral and/or pay down a particular repurchase agreement depending upon the market value of the securities or other collateral subject to that repurchase agreement.

Collateralized Debt Obligations

As of June 30, 2008, we had executed six CDO transactions as follows:

- In June 2007, we closed Resource Real Estate Funding CDO 2007-1, a \$500.0 million CDO transaction that provided financing for commercial real estate loans. The investments held by Resource Real Estate Funding CDO 2007-1 collateralized \$390.0 million of senior notes issued by the CDO vehicle, of which RCC Real Estate, Inc., or RCC Real Estate, purchased 100% of the class H senior notes, class K senior notes, class L senior notes and class M senior notes for \$68.0 million and \$5.0 million of the class J senior notes purchased in February 2008. In addition, Resource Real Estate Funding 2007-1 CDO Investor, LLC, a subsidiary of RCC Real Estate, purchased a \$41.3 million equity interest representing 100% of the outstanding preference shares. At June 30, 2008, Resource Real Estate Funding CDO 2007-1 had \$106,000 of uninvested principal and \$17.9 million of A1-R availability to fund future funding commitments on commercial real estate loans. At June 30, 2008, the notes issued to outside investors had a weighted average borrowing rate of 3.24%.
- In May 2007, we closed Apidos Cinco CDO, a \$350.0 million CDO transaction that provided financing for bank loans. The investments held by Apidos Cinco CDO collateralized \$322.0 million of senior notes issued by the CDO vehicle, of which RCC Commercial Inc., or RCC Commercial, purchased a \$28.0 million equity interest representing 100% of the outstanding preference shares. At June 30, 2008, Apidos Cinco CDO had \$4.3 million in uninvested principal and \$1.2 million in a credit facility reserve. At June 30, 2008, the notes issued to outside investors had a weighted average borrowing rate of 3.18%.
- In August 2006, we closed Resource Real Estate Funding CDO 2006-1, a \$345.0 million CDO transaction that provided financing for commercial real estate loans. The investments held by Resource Real Estate Funding CDO 2006-1 collateralized \$308.7 million of senior notes issued by the CDO vehicle, of which RCC Real Estate, Inc., or RCC Real Estate, purchased 100% of the class J senior notes and class K senior notes for \$43.1 million. At June 30, 2008, Resource Real Estate Funding CDO 2006-1 had \$20,000 of uninvested principal. At June 30, 2008, the notes issued to outside investors had a weighted average borrowing rate of 3.36%.
- In May 2006, we closed Apidos CDO III, a \$285.5 million CDO transaction that provided financing for bank loans. The investments held by Apidos CDO III collateralized \$262.5 million of senior notes issued by the CDO vehicle. At June 30, 2008, Apidos CDO III had \$3.9 million in uninvested principal and \$309,000 in a credit facility reserve. At June 30, 2008, the notes issued to outside investors had a weighted average borrowing rate of

3.24%.

- In August 2005, we closed Apidos CDO I, a \$350.0 million CDO transaction that provided financing for bank loans. The investments held by Apidos CDO I collateralize \$321.5 million of senior notes issued by the CDO vehicle, of which RCC Commercial purchased \$23.0 million equity interest representing 100% of the outstanding preference shares. At June 30, 2008, Apidos CDO I had \$11.2 million in uninvested principal and \$642,000 in a credit facility reserve. At June 30, 2008, the notes issued to outside investors had a weighted average borrowing rate of 3.42%.
- In July 2005, we closed Ischus CDO II, a \$403.0 million CDO transaction that provided financing for MBS and other asset-backed. The investments held by Ischus CDO II collateralize \$376.0 million of senior notes issued by the CDO vehicle, of which RCC Commercial purchased \$28.5 million equity interest representing 100% of the outstanding preference shares. At November 13, 2007, we sold 10% of our equity interest and are no longer deemed to be the primary beneficiary. As a result, we deconsolidated Ischus CDO II at that date.

Trust Preferred Securities

In May and September 2006, we formed Resource Capital Trust I and RCC Trust II, respectively, for the sole purpose of issuing and selling trust preferred securities. In accordance with FIN 46-R, we do not consolidate Resource Capital Trust I and RCC Trust II into our consolidated financial statements because we are not deemed to be the primary beneficiary of either trust. We own 100% of the common shares of each trust, each of which issued \$25.0 million of preferred shares to unaffiliated investors. Our rights as the holder of the common shares of each trust are subordinate to the rights of the holders of preferred shares only in the event of a default; otherwise, our economic and voting rights are pari passu with the preferred shareholders. We record each of our investments in the trusts' common shares of \$774,000 as an investment in unconsolidated entities and record dividend income upon declaration by each trust.

In connection with the issuance and sale of the trust preferred securities, we issued \$25.8 million principal amount of junior subordinated debentures to each of Resource Capital Trust I and RCC Trust II. The junior subordinated debentures debt issuance costs are deferred in other assets in our consolidated balance sheets. We record interest expense on the junior subordinated debentures and amortization of debt issuance costs in our consolidated statements of operations. At June 30, 2008, the junior subordinated debentures had a weighted average borrowing rate of 6.75%.

Term Facility

In March 2006, we entered into a secured term credit facility with Bayerische Hypo – und Vereinsbank AG, New York Branch to finance the purchase of equipment leases and notes. The maximum amount of our borrowing under this facility is \$100.0 million. At June 30, 2008 and December 31, 2007, \$85.8 million and \$91.7 million, respectively was outstanding under the facility. The facility bears interest at one of two rates, determined by asset class. The interest rate was 3.84% and 6.55% at June 30, 2008 and December 31, 2007, respectively.

Credit Facility

In December 2005, we entered into a \$15.0 million corporate credit facility with TD Bank, N.A. (successor by merger to Commerce Bank, N.A.) This facility was increased to \$25.0 million in April 2006 and decreased to \$10.0 million in April 2008 to reflect more closely the actual borrowing base available to us under the facility and to reduce fees payable on the amount available for borrowing under the facility. As a result, we do not believe the reduction will have a material impact on our current liquidity. The unsecured revolving credit facility permits us to borrow up to the lesser of the facility amount and the sum of 80% of the sum of our unsecured assets rated higher than Baa3 or better by Moody's and BBB- or better by Standard and Poor's plus our interest receivables plus 65% of our unsecured assets rated lower than Baa3 by Moody's and BBB- from Standard and Poor's. Up to 20% of the borrowings under the facility may be in the form of standby letters of credit. At June 30, 2008 and December 31, 2007, no balance was outstanding under this facility. The interest rate varies from, in the case of LIBOR loans, from the adjusted LIBOR rate (as defined in the agreement) plus between 1.50% to 2.50% depending upon our leverage ratio (the ratio of consolidated total liability to consolidated tangible net worth) or, in the case of base rate loans, from TD Bank, N.A. base rate plus between 0.50% and 1.50% also depending upon our leverage ratio.

Stockholders' Equity

Stockholders' equity at June 30, 2008 was \$250.3 million and included \$28.9 million of net unrealized losses on our CMBS-private placement and other asset-backed portfolio, and \$14.7 million of unrealized losses on cash flow hedges, shown as a component of accumulated other comprehensive loss. Stockholders' equity at December 31, 2007 was \$271.6 million and included \$15.7 million of unrealized losses on cash flow hedges and \$22.6 million of unrealized losses on our available-for-sale portfolio, shown as a component of accumulated other comprehensive loss. The decrease in stockholder's equity during the six months ended June 30, 2008 was principally due to the decrease in the market value of our available-for-sale securities and on our cash flow hedges.

Fluctuations in market values of assets do not impact our income determined in accordance with GAAP, or our taxable income, but rather are reflected on our consolidated balance sheets by changing the carrying value of the asset and stockholders' equity under "Accumulated Other Comprehensive Income (Loss)." By accounting for our assets in this manner, we hope to provide useful information to stockholders and creditors and to preserve flexibility to sell assets in the future without having to change accounting methods.

Estimated REIT Taxable Income

We calculate estimated REIT taxable income, which is a non-GAAP financial measure, according to the requirements of the Internal Revenue Code. The following table reconciles net income to estimated REIT taxable income for the periods presented (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2008	2007	2008	2007
Net (loss) income	\$ (5,257)	\$ 9,836	\$ 4,106	\$ 19,275
Adjustments:				
Share-based compensation to related parties	(392)	(345)	(539)	(340)
Incentive management fee expense to related parties paid in shares	–	231	–	417
Capital loss carryover (utilization)/losses from the sale of securities	–	–	2,000	–
Provisions for loan and lease losses unrealized	11,629	–	11,685	–
Net book to tax adjustments for the Company's taxable foreign REIT subsidiaries	3,462	(15)	4,237	(34)
Addback of GAAP loss reserves	–	856	–	856
Other net book to tax adjustments	1	(45)	9	14
Estimated REIT taxable income	\$ 9,443	\$ 10,518	\$ 21,498	\$ 20,188
Amounts per share – diluted	\$ 0.38	\$ 0.42	\$ 0.86	\$ 0.81

We believe that a presentation of estimated REIT taxable income provides useful information to investors regarding our financial condition and results of operations as this measurement is used to determine the amount of dividends that we are required to declare to our stockholders in order to maintain our status as a REIT for federal income tax purposes. Since we, as a REIT, expect to make distributions based on taxable earnings, we expect that our distributions may at times be more or less than our reported earnings. Total taxable income is the aggregate amount of taxable income generated by us and by our domestic and foreign taxable REIT subsidiaries. Estimated REIT taxable income excludes the undistributed taxable income of our domestic taxable REIT subsidiary, if any such income exists, which is not included in REIT taxable income until distributed to us. There is no requirement that our domestic taxable REIT subsidiary distribute its earnings to us. Estimated REIT taxable income, however, includes the taxable income of our foreign taxable REIT subsidiaries because we will generally be required to recognize and report their taxable income on a current basis. Because not all companies use identical calculations, this presentation of estimated REIT taxable income may not be comparable to other similarly-titled measures of other companies.

In order to maintain our qualification as a REIT and to avoid corporate-level income tax on the income we distribute to our stockholders, we intend to make regular quarterly distributions of all or substantially all of our net taxable income to holders of our common stock. This requirement does not allow us to generate any material amount of investment funds from operations to fund investments or to provide operating liquidity.

Liquidity and Capital Resources

Capital Sources

For the six months ended June 30, 2008, we had both restricted and unrestricted sources of capital funds as follows:

- Restricted - \$64.0 million of principal repayments on investments held by our CDO issuers and \$18.0 million of CDO future funding advances.

· Unrestricted - \$1.7 million from principal repayments on investments held at our term facility.

Liquidity

Our liquidity needs consist principally of capital needed to make investments, make distributions to our stockholders, pay our operating expenses, including management fees and our approved share repurchase plan. Our ability to meet our liquidity needs will be subject to our ability to generate cash from operations, and, with respect to our investments, our ability to obtain debt financing and equity capital. We may seek to increase our capital resources through offerings of equity securities (possibly including common stock and one or more classes of preferred stock), CDOs, trust preferred securities or other forms of financing. However, the availability of any such financing will depend on market conditions which, as we discuss in "Overview", have recently been subject to substantial volatility and reduction in liquidity. If we are unable to renew, replace or expand our sources of financing on substantially similar terms, we may be unable to implement our investment strategies successfully and may be required to liquidate portfolio investments. If required, a sale of portfolio investments could be at prices lower than the carrying value of such investments, which could result in losses and reduced income.

At July 31, 2008, RCC's liquidity consisted of three primary sources:

- unrestricted cash and cash equivalents of \$7.1 million and restricted cash of \$7.0 million comprised of \$4.0 million in margin call accounts and \$3.0 million related to its leasing portfolio;
- capital available for reinvestment in its five collateralized debt obligation ("CDO") entities of \$44.4 million, which is made up of \$27.0 million of restricted cash and \$17.4 million of availability to finance future funding commitments on commercial real estate loans; and
- financing available under existing borrowing facilities of \$26.5 million, comprised of \$16.5 million of available cash from RCC's three year non-recourse secured financing facility and \$10.0 million of unused capacity under its unsecured revolving credit facility. RCC also has \$83.4 million of unused capacity under a three-year non-recourse commercial real estate repurchase facility, which, however, requires approval of individual repurchase transactions by the repurchase counterparty.

We anticipate that, depending upon market conditions and credit availability, upon repayment of each borrowing under a repurchase agreement, we will immediately use the collateral released by the repayment as collateral for borrowing under a new repurchase agreement to maximize liquidity. Our leverage ratio may vary as a result of the various funding strategies we use. As of June 30, 2008 and December 31, 2007, our leverage ratio was 6.9 times and 6.5 times, respectively. This increase was primarily due to the decrease in fair market value adjustments that are recorded in the statement of stockholders equity through accumulated other comprehensive loss due to available-for-sale securities and derivatives and offset by the repayment of repurchase agreements.

Distributions

Edgar Filing: Resource Capital Corp. - Form 10-Q

On March 11, 2008, we declared a quarterly distribution of \$0.41 per share of common stock, \$10.4 million in the aggregate, which was paid on April 28, 2008 to stockholders of record as of March 30, 2008.

On June 20, 2008, we declared a quarterly distribution of \$0.41 per share of common stock, \$10.4 million in the aggregate, which was paid on July 28, 2008 to stockholders of record as of June 30, 2008.

52

Contractual Obligations and Commitments

The table below summarizes our contractual obligations as of June 30, 2008. The table below excludes contractual commitments related to our derivatives, which we discuss in our Annual Report on Form 10-K for fiscal 2007 in Item 7A – “Quantitative and Qualitative Disclosures about Market Risk,” and in “ – Financial Condition – Hedging Instruments,” above and incentive fees payable under the management agreement that we have with our Manager, which we discuss in our Annual Report on Form 10-K for fiscal 2007 in Item 1 – “Business” and Item 13, “Certain Relationships and Related Transactions” because those contracts do not have fixed and determinable payments.

	Contractual commitments (dollars in thousands)				
	Payments due by period				
	Total	Less than 1 year	1 – 3 years	3 – 5 years	More than 5 years
Repurchase agreements (1)	\$ 68,907	\$ 68,907	\$ –	\$ –	\$ –
CDOs	1,515,960	–	318,173	577,366	620,421
Secured term facility	85,829	–	85,829	–	–
Junior subordinated debentures held by unconsolidated trusts that issued trust preferred securities	51,548	–	–	–	51,548
Total borrowings	1,722,244	68,907	404,002	577,366	671,969
Base management fees(2)	4,736	4,736	–	–	–
Total contractual commitments	\$ 1,726,980	\$ 73,643	\$ 404,002	\$ 577,366	\$ 671,969

(1) Includes accrued interest of \$84,000.

(2) Calculated only for the next 12 months based on our current equity, as defined in our management agreement.

At June 30, 2008, we had 31 interest rate swap contracts with a notional value of \$334.8 million. These contracts are fixed-for-floating interest rate swap agreements under which we contracted to pay a fixed rate of interest for the term of the hedge and will receive a floating rate of interest. As of June 30, 2008, the average fixed pay rate of our interest rate hedges was 5.14% and our receive rate was one-month LIBOR, or 2.48%.

Off-Balance Sheet Arrangements

As of June 30, 2008, we did not maintain any relationships with unconsolidated entities or financial partnerships, such as entities often referred to as structured finance vehicles, special purpose entities or VIEs, established for the purpose of facilitating off-balance sheet arrangements or contractually narrow or limited purposes. Further, as of June 30, 2008, we had not guaranteed any obligations of unconsolidated entities or entered into any commitment or intent to provide additional funding to any such entities.

Recent Developments

As of July 31, 2008, short-term repurchase agreements have been reduced to \$880,000 from \$4.6 million as of June 30, 2008.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

As of June 30, 2008 and December 31, 2007, the primary component of our market risk was interest rate risk, as described below. While we do not seek to avoid risk completely, we do seek to assume risk that can be quantified from historical experience, to actively manage that risk, to earn sufficient compensation to justify assuming that risk and to maintain capital levels consistent with the risk we undertake or to which we are exposed.

The following sensitivity analysis tables show, at June 30, 2008 and December 31, 2007, the estimated impact on the fair value of our interest rate-sensitive investments and liabilities of changes in interest rates, assuming rates instantaneously fall 100 basis points and rise 100 basis points (dollars in thousands):

	June 30, 2008		
	Interest rates fall 100 basis points	Unchanged	Interest rates rise 100 basis points
CMBS – private placement (1)			
Fair value	\$ 27,302	\$ 25,772	\$ 8,995
Change in fair value	\$ 1,530	\$ –	\$ (16,777)
Change as a percent of fair value	5.94%		65.10%
Repurchase and warehouse agreements (2)			
Fair value	\$ 154,652	\$ 154,652	\$ 154,652
Change in fair value	\$ –	\$ –	\$ –
Change as a percent of fair value	–	–	–
Hedging instruments			
Fair value	\$ (27,544)	\$ (12,833)	\$ (1,094)
Change in fair value	\$ (14,711)	\$ –	\$ 11,739
Change as a percent of fair value	N/M	–	N/M
December 31, 2007			
	Interest rates fall 100 basis points	Unchanged	Interest rates rise 100 basis points
CMBS – private placement (1)			
Fair value	\$ 28,756	\$ 27,154	\$ 11,519
Change in fair value	\$ 1,602	\$ –	\$ (15,635)
Change as a percent of fair value	5.90%	–	57.58%
Repurchase and warehouse agreements (2)			
Fair value	\$ 207,908	\$ 207,908	\$ 207,908
Change in fair value	\$ –	\$ –	\$ –
Change as a percent of fair value	–	–	–
Hedging instruments			
Fair value	\$ (33,731)	\$ (18,040)	\$ (3,234)
Change in fair value	\$ (15,691)	\$ –	\$ 14,806
Change as a percent of fair value	N/M	–	N/M

-
- (1) Includes the fair value of other available-for-sale investments that are sensitive to interest rate changes.
- (2) The fair value of the repurchase agreements and warehouse agreements would not change materially due to the short-term nature of these instruments.

For purposes of the tables, we have excluded our investments with variable interest rates that are indexed to LIBOR. Because the variable rates on these instruments are short-term in nature, we are not subject to material exposure to movements in fair value as a result of changes in interest rates.

It is important to note that the impact of changing interest rates on fair value can change significantly when interest rates change beyond 100 basis points from current levels. Therefore, the volatility in the fair value of our assets could increase significantly when interest rates change beyond 100 basis points from current levels. In addition, other factors impact the fair value of our interest rate-sensitive investments and hedging instruments, such as the shape of the yield curve, market expectations as to future interest rate changes and other market conditions. Accordingly, in the event of changes in actual interest rates, the change in the fair value of our assets would likely differ from that shown above and such difference might be material and adverse to our stockholders.

ITEM 4. CONTROLS AND PROCEDURES

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our Securities Exchange Act of 1934 reports is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and our Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, our management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and our management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

Under the supervision of our Chief Executive Officer and Chief Financial Officer, we have carried out an evaluation of the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective at the reasonable assurance level.

There have been no significant changes in our internal controls over financial reporting that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting during our most recent fiscal year.

PART II. OTHER INFORMATION

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

At our Annual Meeting of Stockholders held on June 12, 2008, our stockholders re-elected seven directors - Messrs. Walter T. Beach, Edward E. Cohen, Jonathan Z. Cohen, William B. Hart, Gary Ickowicz, Murray S. Levin and P. Sherrill Neff - to serve one year terms expiring at the Annual Meeting of Stockholders in 2009. The voting results were: 23,618,663 shares for and 244,611 shares withheld for Mr. Beach; 23,609,506 shares for and 253,768 shares withheld for Mr. E. Cohen; 23,624,492 shares for and 238,782 shares withheld for Mr. J. Cohen; 23,619,844 shares for and 243,430 shares withheld for Mr. Hart; 23,648,036 shares for and 215,238 shares withheld for Mr. Ickowicz; 23,564,621 shares for and 298,653 shares withheld for Mr. Levin; and 23,549,874 shares for and 313,400 shares withheld for Mr. Neff.
