QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF
1934

For the quarterly period ended June 30, 2016

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF
1934

For the transition period from _____ to _____

Commission File Number: 001-34177

Discovery Communications, Inc.
(Exact name of Registrant as specified in its charter)

Delaware 35-2333914
(State or other jurisdiction of (I.R.S. Employer
incorporation or organization) Identification No.)

One Discovery Place 20910
Silver Spring, Maryland
(Address of principal executive offices) (Zip Code)
(240) 662-2000
(Registrant's telephone number, including area code)

Not Applicable

(Former name, former address and former fiscal year, if changed since last report.)

Indicate by check mark whether the Registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the Registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the Registrant was required to submit and post such files). Yes No

Edgar Filing: Discovery Communications, Inc. - Form 10-Q

Indicate by check mark whether the Registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer," and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

Indicate by check mark whether the Registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Total number of shares outstanding of each class of the Registrant's common stock as of July 26, 2016:

Series A Common Stock, par value \$0.01 per share 150,890,556

Series B Common Stock, par value \$0.01 per share 6,512,379

Series C Common Stock, par value \$0.01 per share 238,538,663

DISCOVERY COMMUNICATIONS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

NOTE 1. DESCRIPTION OF BUSINESS AND BASIS OF PRESENTATION

Description of Business

Discovery Communications, Inc. ("Discovery" or the "Company") is a global media company that provides content across multiple distribution platforms, including pay-TV, free-to-air ("FTA") and broadcast television networks, websites, digital distribution arrangements and content licensing agreements. The Company also develops and sells curriculum-based education products and services and operates production studios. The Company classifies its operations in two reportable segments: U.S. Networks, consisting principally of domestic television networks and websites, and International Networks, consisting principally of international television networks and websites; and two combined operating segments referred to as Education and Other, consisting principally of curriculum-based product and service offerings and production studios. Financial information for Discovery's reportable segments is discussed in Note 16.

Basis of Presentation

The consolidated financial statements include the accounts of Discovery and its majority-owned subsidiaries in which a controlling interest is maintained. For each non-wholly owned subsidiary, the Company evaluates its ownership and other interests to determine whether it should consolidate the entity or account for its ownership interest as an investment. As part of its evaluation, the Company makes judgments in determining whether the entity is a variable interest entity ("VIE") and, if so, whether it is the primary beneficiary of the VIE and is thus required to consolidate the entity. (See Note 3.) Inter-company accounts and transactions between consolidated entities have been eliminated in consolidation.

Unaudited Interim Financial Statements

These consolidated financial statements are unaudited; however, in the opinion of management, they reflect all adjustments consisting only of normal recurring adjustments necessary to state fairly the financial position, results of operations and cash flows for the periods presented in conformity with U.S. generally accepted accounting principles ("GAAP") applicable to interim periods. The results of operations for the interim periods presented are not necessarily indicative of results for the full year or future periods. These consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in Discovery's Annual Report on Form 10-K for the year-ended December 31, 2015 (the "2015 Form 10-K").

Use of Estimates

The preparation of financial statements in accordance with GAAP requires management to make estimates, judgments and assumptions that affect the amounts and disclosures reported in the consolidated financial statements and accompanying notes. Management continually re-evaluates its estimates, judgments and assumptions, and management's evaluation could change. These estimates are sometimes complex, sensitive to changes in assumptions and require fair value determinations using Level 3 fair value measurements. Actual results may differ materially from those estimates.

Estimates inherent in the preparation of the consolidated financial statements include accounting for asset impairments, revenue recognition, allowances for doubtful accounts, content rights, depreciation and amortization, business combinations, equity-based compensation, income taxes, other financial instruments, contingencies and the determination of whether the Company is the primary beneficiary of entities in which it holds variable interests.

Accounting and Reporting Pronouncements Adopted

Business Consolidation

In February 2015, the Financial Accounting Standards Board ("FASB") issued guidance that amends the analysis that a reporting entity performs to determine whether it should consolidate certain legal entities. The changes in this guidance include how related parties and de facto agents are considered in the primary beneficiary determination and the analysis for determining whether a fee paid to a decision maker or service provider is a variable interest. The new

standard is effective for reporting periods beginning after December 15, 2015 and can be adopted either retrospectively or using a modified retrospective approach by recording a cumulative-effect adjustment to stockholders' equity as of the beginning of the fiscal year of adoption. The Company adopted this guidance effective January 1, 2016, and there was no effect on the consolidated financial statements.

DISCOVERY COMMUNICATIONS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

Business Combinations

In September 2015, the FASB issued new guidance on adjustments to provisional amounts recognized in a business combination, which are currently recognized on a retrospective basis. Under the new requirements, adjustments will be recognized in the reporting period in which the adjustments are determined. The effects of changes in depreciation, amortization, or other income arising from changes to the provisional amounts, if any, are included in earnings of the reporting period in which the adjustments to the provisional amounts are determined. An entity is also required to present separately on the face of the income statement or disclose in the notes the portion of the amount recorded in current-period earnings by line item that would have been recorded in previous reporting periods if the adjustment to the provisional amounts had been recognized as of the acquisition date. The Company adopted this guidance effective January 1, 2016, and there was no effect on the consolidated financial statements.

Accounting for Fees Paid in a Cloud Computing Arrangement

In April 2015, the FASB issued explicit guidance on the recognition of fees paid by a customer for cloud computing arrangements as either the acquisition of a software license or a service contract. The Company adopted this guidance effective October 1, 2015, and there was no material effect on the consolidated financial statements.

Presentation of Debt Issuance Costs

In April 2015, the FASB issued guidance requiring all debt issuance costs to be presented in the balance sheet as a direct deduction from the carrying value of the debt instead of being presented as an asset on the balance sheet. The Company retrospectively adopted the new guidance effective April 1, 2015 and reclassified its unamortized debt issuance costs related to the Company's debt from other noncurrent assets to noncurrent portion of debt on the consolidated balance sheet as of December 31, 2014.

Accounting and Reporting Pronouncements Not Yet Adopted

Share-Based Payment

In March 2016, the FASB issued guidance that simplifies how share-based payments are accounted for and presented in the financial statements. The new guidance includes requirements to record all of the tax effects related to share-based payments at settlement through the income statement, allows for tax withholdings up to maximum statutory rates before precluding equity accounting, and allows the Company to make an accounting policy election for the impact of forfeitures on the recognition of expense. The new standard is effective for reporting periods beginning after December 15, 2016 and can be adopted early in any interim period, with any adjustments reflected as of the beginning of the fiscal year of adoption in retained earnings. The Company is currently evaluating the impact that the pronouncement will have on the consolidated financial statements.

Leases

In February 2016, the FASB issued guidance on leases that will require lessees to recognize almost all of their leases on the balance sheet by recording a right-of-use asset and liability. The new standard will be effective for reporting periods beginning after December 15, 2018, and requires application of the new accounting guidance at the beginning of the earliest comparative period presented in the year of adoption. The Company is currently evaluating the impact that the pronouncement will have on the consolidated financial statements.

Recognition and Measurement of Financial Instruments

In January 2016, the FASB issued guidance regarding the classification and measurement of financial instruments, which significantly revises the classification and measurement of investments in equity securities. This standard requires equity securities to be measured at fair value with changes in the fair value recognized through net income, and supersedes the guidance permitting entities to record gains and losses on equity securities with readily determinable fair values in accumulated other comprehensive income. Investments accounted for under the equity method of accounting or that result in consolidation are not included within the scope of this update. The new standard will be effective for reporting periods beginning after December 15, 2017. This pronouncement is expected to impact

the Company's accounting for changes in the fair value of available-for-sale ("AFS") securities.

10

DISCOVERY COMMUNICATIONS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

Balance Sheet Classification of Deferred Taxes

In November 2015, the FASB issued guidance to simplify the presentation of deferred income taxes, which removes the requirement to separate deferred tax liabilities and assets into current and noncurrent amounts and instead requires all such amounts be classified as noncurrent on the Company's consolidated balance sheets. The new requirement will be effective for financial statements issued for annual periods beginning after December 15, 2016, and can be adopted on either a retrospective or prospective basis. The Company is currently evaluating the impact that the pronouncement will have on the consolidated financial statements.

Presentation of Financial Statements - Going Concern

In August 2014, the FASB issued guidance requiring the Company to perform interim and annual assessments regarding conditions or events that raise substantial doubt about the Company's ability to continue as a going concern and to provide related disclosures, if applicable. The new standard is effective for reporting periods ending after December 15, 2016, with early adoption permitted. The adoption of this standard is not expected to have a material effect on the consolidated financial statements.

Revenue from Contracts with Customers

In May 2014, the FASB issued an accounting pronouncement related to revenue recognition, which applies a single, comprehensive revenue recognition model for all contracts with customers. This standard, as amended, contains principles with respect to the measurement and timing of recognition of revenue. The Company will recognize revenue to reflect the transfer of goods or services to customers at an amount that it expects to be entitled to receive in exchange for those goods or services. The new standard is effective for annual reporting periods beginning after December 15, 2017, with early adoption permitted for annual reporting periods beginning after December 15, 2016. The Company is required to apply the new revenue standard beginning in the first interim period within the year of adoption. The Company is currently evaluating the impact that the pronouncement will have on the consolidated financial statements.

Concentrations Risk

Customers

The Company has long-term contracts with distributors around the world. For the U.S. Networks segment, more than 90% of distribution revenue comes from the Company's top 10 distributors in the U.S. For the International Networks segment, approximately 45% of distribution revenue comes from the Company's top 10 distributors outside of the U.S. Agreements in place with the major cable and satellite operators in the U.S. expire at various times in 2016 through 2021. One of the Company's top 10 U.S. distribution agreements has been extended under a short-term agreement. Although the Company seeks to renew its agreements with its distributors prior to expiration of a contract, a delay in securing a renewal that results in a service disruption, a failure to secure a renewal or a renewal on less favorable terms may have a material adverse effect on the Company's financial condition and results of operations. Not only could the Company experience a reduction in distribution revenue, but it could also experience a reduction in advertising revenue, as viewership is impacted by affiliate subscriber levels.

No individual customer accounted for more than 10% of total consolidated revenues for the three and six months ended June 30, 2016 or 2015. As of June 30, 2016 and December 31, 2015, the Company's trade receivables did not represent a significant concentration of credit risk as the customers and markets in which the Company operates are varied and dispersed across many geographic areas.

Financial Institutions

Cash and cash equivalents are maintained with several financial institutions. The Company has deposits held with banks that exceed the amount of insurance provided on such deposits. Generally, these deposits may be redeemed upon demand and are maintained with financial institutions of reputable credit and, therefore, bear minimal credit risk. Additionally, the Company has cash and cash equivalents held by its foreign subsidiaries that would result in U.S. tax consequences should the Company decide it needs to repatriate these funds to the U.S.

Lender Counterparties

There is a risk that the counterparties associated with the Company's revolving credit facility will not be available to fund as obligated under the terms of the facility and that the Company may, at the time of such unavailability to fund, have limited or no access to the commercial paper market. If funding under the revolving credit facility is unavailable, the Company may have to acquire a replacement credit facility from different counterparties at a higher cost or may be unable to find a suitable replacement. Typically, the Company seeks to manage such risks from its revolving credit facility by contracting with experienced large

DISCOVERY COMMUNICATIONS, INC.
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 (unaudited)

financial institutions and monitoring the credit quality of its lenders. As of June 30, 2016, the Company did not anticipate nonperformance by any of its counterparties.

NOTE 2. ACQUISITIONS AND DISPOSITIONS

Acquisitions

Eurosport France

On December 21, 2012, the Company acquired a 20% equity method investment in Eurosport France. On March 31, 2015, the Company acquired an additional 31% interest in Eurosport France for €36 million (\$38 million). This transaction gave the Company a 51% controlling stake in Eurosport France. The Company recognized a gain of \$2 million during the six months ended June 30, 2015, to account for the difference between the carrying value and the fair value of the previously held 20% equity method investment in Eurosport France as a component of other income (expense), net in the Company's consolidated statements of operations. (See Note 13.) On October 1, 2015, the Company acquired the remaining 49% of Eurosport France. (See Note 8.)

Eurosport France is part of Eurosport, a leading pan-European sports media platform. The flagship Eurosport network focuses on regionally popular sports, such as tennis, skiing, cycling and motor sports. Eurosport's brands and platforms also include Eurosport HD (high definition simulcast), Eurosport 2, Eurosport 2 HD (high definition simulcast) and Eurosportnews. The acquisition is intended to increase the growth of Eurosport and enhance the Company's pay-TV offerings in Europe.

The Company used a discounted cash flow ("DCF") analysis, which represents a Level 3 fair value measurement, to assess certain components of the Eurosport France purchase price allocation. The fair value of the assets acquired, liabilities assumed, noncontrolling interest recognized and the remeasurement gain recorded on the previously held equity interest is presented in the table below (in millions).

	March 31, 2015
Goodwill	\$ 69
Intangible assets	40
Other assets acquired	25
Cash	35
Removal of TF1 put right	2
Currency translation adjustment	(6)
Remeasurement gain on previously held equity interest	(2)
Liabilities assumed	(30)
Deferred tax liabilities	(14)
Redeemable noncontrolling interest (Note 8)	(60)
Carrying value of previously held equity interest	(21)
Net assets acquired	\$ 38

The goodwill reflects the workforce and synergies expected from increased pan-European market penetration as the operations of Eurosport and the Company are combined. The goodwill recorded as part of this acquisition is included in the International Networks reportable segment and is not amortizable for tax purposes. Intangible assets primarily consist of distribution and advertising customer relationships, advertiser backlog and trademarks with a weighted average estimated useful life of 10 years.

Other

In 2015, the Company acquired several other unrelated businesses for total cash and contingent consideration of \$91 million, net of cash acquired. Total consideration, net of cash acquired, included contingent consideration of \$13 million as of December 31, 2015, of which \$1 million was paid during the six months ended June 30, 2016. The Company recorded \$54 million and \$43 million of goodwill and intangible assets, respectively, in connection with

these acquisitions. The acquisitions included FTA networks in Italy and Turkey, cable networks in Denmark and a pay-TV sports channel in Asia. The goodwill reflects the synergies and regional market penetration from combining the operations of these acquisitions with the Company's operations.

DISCOVERY COMMUNICATIONS, INC.
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 (unaudited)

Impact of Business Combinations

The operations of each of the business combinations in 2015 discussed above were included in the consolidated financial statements as of each of their respective acquisition dates. The following table presents their revenue and earnings as reported within the consolidated financial statements for the current period (in millions).

Dispositions

Russia

On October 7, 2015, Discovery recorded a loss of \$5 million upon deconsolidation of its Russian business following its contribution to a joint venture (the "New Russian Business") with a Russian media company, National Media Group ("NMG"). The New Russian Business was established to comply with changes in Russian legislation that limit foreign ownership of media companies in Russia. No cash consideration was exchanged in the transaction. NMG contributed an FTA license which enables advertising for the New Russian Business. As part of the transaction, Discovery obtained a 20% ownership interest in the New Russian Business, which is accounted for under the equity method of accounting. The loss on contribution of the Russian business included \$15 million of goodwill allocated to the transaction based on the relative fair values of the Russian business disposed of and the portion of the reporting unit that was retained. Although Discovery no longer consolidates the Russian business, Discovery earns revenue by providing content and brands to the New Russian Business under long-term licensing arrangements. The Russian business was included in the International Networks reportable segment; the licensing arrangements are reported as distribution revenue in the International Networks reportable segment. (See Note 14 and Note 16.)

Radio

On June 30, 2015, Discovery sold its radio business in Northern Europe to Bauer Media Group ("Bauer") for total consideration, net of cash disposed, of €72 million (\$80 million), which included €54 million (\$61 million) in cash and €18 million (\$19 million) of contingent consideration. The cumulative gain on the disposal is \$1 million and includes \$26 million of goodwill allocated to the transaction based on the relative fair values of the radio business disposed of and the portion of the reporting unit that was retained. Upon sale, the Company recorded a \$3 million gain including estimated contingent consideration as disclosed for the three and six months ended June 30, 2015. For the year-end December 31, 2015, the Company revised its estimated contingent consideration resulting in a \$12 million loss. Based on the final resolution and receipt of contingent consideration payable, Discovery recorded a pre-tax gain of \$13 million for the six months ended June 30, 2016.

DISCOVERY COMMUNICATIONS, INC.
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 (unaudited)

The Company determined that the disposal did not meet the definition of a discontinued operation because it does not represent a strategic shift that has a significant impact on the Company's operations and consolidated financial results. The Company's radio business had no impact to income before income taxes for the six months ended June 30, 2015. The Company's radio businesses were part of the International Networks reportable segment.

3. INVESTMENTS

The Company's investments consisted of the following (in millions).

Category	Balance Sheet Location	June 30, December 31,	
		2016	2015
Trading securities:			
Mutual funds	Prepaid expenses and other current assets	\$ 154	\$ 149
Equity method investments	Equity method investments	535	567
Available-for-sale securities:			
Common stock	Other noncurrent assets	51	81
Common stock - pledged	Other noncurrent assets	51	81
Cost method investments	Other noncurrent assets	48	43
Total investments		\$ 839	\$ 921

Trading Securities

Trading securities include investments in mutual funds held in a separate trust which are owned as part of the Company's supplemental retirement plan. (See Note 4.)

Equity Method Investments

In the normal course of business, the Company makes investments that support its underlying business strategy and enable it to enter new markets and develop programming. All equity method investees are privately owned. The carrying values of the Company's equity method investments are consistent with its ownership in the underlying net assets of the investees, except for Oprah Winfrey Network ("OWN"), because the Company has recorded losses in excess of its ownership interest. Certain of the Company's equity method investments are VIEs, for which the Company is not the primary beneficiary. As of June 30, 2016, the Company's estimated risk of loss for all its VIEs including the investment carrying values, unfunded contractual commitments, and guarantees made on behalf of VIEs was approximately \$390 million. The Company's estimated risk of loss excludes the non-contractual future funding of VIEs. The aggregate carrying values of these VIE investments were \$384 million and \$423 million as of June 30, 2016 and December 31, 2015, respectively. The Company recognized its portion of net losses by VIE's of \$5 million and \$3 million for the three months ended June 30, 2016 and 2015, respectively, and net income generated by VIE's of \$4 million and \$10 million for the six months ended June 30, 2016 and 2015, respectively.

OWN

OWN is a pay-TV network and website that provides adult lifestyle content, which is focused on self-discovery, self-improvement and entertainment. Since the initial equity was not sufficient to fund OWN's activities without additional subordinated financial support in the form of a note receivable held by the Company, OWN is a VIE. While the Company and Harpo, Inc. ("Harpo") are partners who share equally in voting control, power is not shared because Harpo holds operational rights related to programming and marketing, as well as selection and retention of key management personnel, that significantly impact OWN's economic performance. Accordingly, the Company has determined that it is not the primary beneficiary of OWN and accounts for its investment in OWN using the equity method. However, the Company provides OWN content licenses and services, such as distribution, sales and administrative support, for a fee and has provided OWN funding. (See Note 14.)

The carrying value of the Company's investment in OWN of \$336 million and \$373 million as of June 30, 2016 and December 31, 2015, respectively, includes the Company's note receivable and accumulated investment losses.

The Company's combined advances to and note receivable from OWN, including accrued interest, were \$348 million and \$384 million as of June 30, 2016 and December 31, 2015, respectively. On April 30, 2015, Oprah Winfrey agreed to extend her exclusivity agreement with OWN and the note receivable agreement was modified to reduce its interest rate, compounded annually, from 7.5% to 5.0%, retroactive to January 1, 2014. During the six months ended June 30, 2016, the Company received net repayments of \$45 million from OWN and accrued interest on the note receivable of \$9 million.

DISCOVERY COMMUNICATIONS, INC.
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 (unaudited)

The note receivable is secured by the net assets of OWN. While the Company has no further funding commitments, the Company will provide additional funding to OWN, if necessary, and expects to recoup amounts funded. There can be no event of default on the borrowing until 2023. However, borrowings are scheduled for repayment four years after the borrowing date to the extent that OWN has excess cash to repay the borrowings then due. Following such repayment, OWN's subsequent cash distributions will be shared equally between the Company and Harpo. In accordance with the venture agreement, losses generated by OWN are generally allocated to both investors based on their proportionate ownership interests. However, the Company has recorded its portion of OWN's losses based upon accounting rules for equity method investments. Prior to the contribution of the Discovery Health network to OWN at its launch, the Company had recognized \$104 million, or 100%, of OWN's net losses. During the three months ended March 31, 2012, accumulated operating losses at OWN exceeded the equity contributed to OWN, and Discovery began again to record 100% of OWN's net losses. Although OWN has become profitable, the Company will record 100% of any net losses to the extent they occur resulting from OWN's operations as long as Discovery has provided all funding to OWN and OWN's accumulated losses continue to exceed the equity contributed. All of OWN's net income has been and will continue to be recorded by the Company until the Company recovers losses absorbed in excess of the Company's equity ownership interest. The Company monitors the financial results of OWN along with other relevant business information to assess the recoverability of the OWN note receivable. There has been no impairment of the OWN note receivable.

Based on the joint venture agreement, as amended on April 1, 2016, Harpo has the right to conditionally require the Company to purchase all or part of Harpo's interest in OWN at fair market value up to a maximum put amount during 90-day windows beginning on April 1, 2017 and every two and a half years commencing July 1, 2018 through January 1, 2026. The maximum put amount ranges from \$100 million on the first put exercise date up to a cumulative cap of \$400 million on the fifth put exercise date. The Company has not recorded amounts for the put right because the fair value of this put right was zero as of June 30, 2016 and December 31, 2015.

Other Equity Method Investments

At June 30, 2016 and December 31, 2015, the Company's other equity method investments included the New Russian Business, All3Media and certain joint ventures in Canada. In addition on June 24, 2016, the Company acquired a 27.5% interest in Mega TV, a FTA channel in Chile owned by Bethia Comunicaciones, for \$53 million.

Available-for-Sale Securities

On November 12, 2015, the Company acquired 5 million shares, or approximately 3%, of Lions Gate Entertainment Corp. ("Lionsgate"), an entertainment company, for \$195 million. As the shares have a readily determinable fair value and the Company has the intent to retain the investment, the shares are classified as AFS securities. The components of the Company's AFS securities, which are included in other non-current assets, are summarized in the table below (in millions).

	June 30, 2016	December 31, 2015
Cost	\$195	\$ 195
Unrealized losses	(93)	(33)
Fair Market Value	\$102	\$ 162

Unrealized losses related to our investment in Lionsgate shares represent 48% of our cost. If declines in the value of AFS securities are determined to be other-than-temporary, any loss is recorded in earnings in the period identified as a component of other income (expense), net on the consolidated statements of operations. Impairments are determined based on, among other factors, the length of time the fair value of the investment has been less than the carrying value, future business prospects for the investee, and information regarding market and industry trends for the investee's

business, if available. Lionsgate share prices have historically been volatile. The Company continues to believe in the long-term value of the investment and does not intend to dispose of its Lionsgate shares for the foreseeable future. Based on current information, the Company anticipates that the fair value of its investment in Lionsgate will recover. Accordingly, the Company concluded that there were no unrealized losses that were other-than-temporary as of June 30, 2016. However, the Company continues to carefully monitor this investment.

In connection with the investment in Lionsgate, the Company hedged 50% of the shares with an equity collar (the “Lionsgate Collar”) and pledged those shares as collateral to the derivative counter party. In the application of hedge accounting, when the share price of Lionsgate is within the boundaries of the collar and the hedge has no intrinsic value, the Company records the gains or losses on the Lionsgate AFS securities as a component of other comprehensive (loss) income. When the share price of the

DISCOVERY COMMUNICATIONS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

Lionsgate AFS is outside the boundaries of the collar and the hedge has intrinsic value, the Company records a gain or loss for the change in the fair value of the hedged portion of Lionsgate shares that correspond to the change in intrinsic value of the hedge as a component of other income (expense), net. For the three and six months ended June 30, 2016, the Company recorded temporary unrealized losses of \$8 million and \$60 million, respectively, related to this investment, of which \$4 million and \$30 million, respectively, were recorded as a component of other comprehensive (loss) income and \$4 million and \$30 million, respectively, were recorded as a component of other income (expense), net. (See Note 7.)

Cost Method Investments

Cost method investments include ownership rights in entities that do not provide the Company with control or significant influence in these investments and that have no readily determinable fair values. The Company's cost method investments as of June 30, 2016 primarily include an educational website and an electric car racing series.

NOTE 4. FAIR VALUE MEASUREMENTS

Fair value is defined as the amount that would be received for selling an asset or paid to transfer a liability in an orderly transaction between market participants. Assets and liabilities carried at fair value are classified in the following three categories:

Level 1—Quoted prices for identical instruments in active markets.

Level 2—Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs and significant value drivers are observable in active markets.

Level 3—Valuations derived from techniques in which one or more significant inputs are unobservable.

The tables below present assets and liabilities measured at fair value on a recurring basis (in millions).
