ACTION I – REVERSE STOCK SPLIT TO

DECREASE THE NUMBER OF ISSUED AND OUTSTANDING SHARES OF OUR COMMON STOCK

This Information Statement contains a brief summary of the material aspects of the action approved by the Board and the Majority Stockholders. The terms “we,” “our,” and the “Company” in this Information Statement refer to BioCardia, Inc. References to “you” are to the Stockholders of the Company.

General

The Board approved a resolution to effectuate a reverse stock split of our issued and outstanding shares of Common Stock at a ratio between one-for-seven (1:7) and one-for-ten (1:10) (the “Reverse Stock Split”). Under the Reverse Stock Split, outstanding shares of our Common Stock will be exchanged and combined, automatically and without further action, into one (1) share of Common Stock at a ratio to be determined by our management, ranging from every seven (7) shares of Common Stock converting into one (1) share of Common Stock to every ten (10) shares of Common Stock converting into one (1) share of Common Stock. Our management made a determination that the final ratio for the Reverse Stock Split would be at one-for-nine (1:9) ratio, whereby every nine (9) shares of Common Stock would combined into one (1) share of Common Stock. To avoid the issuance of fractional shares of Common Stock, each Stockholder shall receive from the Company a cash payment (without interest) in lieu of the fractional shares, and such cash payment will equal the fraction of a share to which a Stockholder would otherwise be entitled multiplied by the closing sales price of the Company’s Common Stock on April 8, 2019 (the “Record Date”). We expect the effective date of the Reverse Stock Split to be on or about May 10, 2019.

PLEASE NOTE THAT THE REVERSE STOCK SPLIT WILL NOT CHANGE YOUR PROPORTIONATE EQUITY INTERESTS IN THE COMPANY, EXCEPT AS MAY RESULT FROM THE CANCELLATION OF SHARES PURSUANT TO THE FRACTIONAL SHARES.

Purpose and Effects of the Reverse Stock Split

A reverse stock split by a publicly traded company reduces the number of shares outstanding, but leaves the market capitalization of the company the same, which results in an increase in the price per share of the company’s stock. The Common Stock is presently quoted on the OTC Market, Inc.’s OTCQB under the symbol “BCDA.” We intend to apply sometime in the future to have our Common Stock listed on a major stock exchange, such as NASDAQ or NYSE, which have minimum per share bid price requirements. The primary goal of the Reverse Stock Split is to increase the per share market price of the stock to meet the minimum per share bid price requirements for listing.

The effect of the Reverse Stock Split upon the market price for our Common Stock cannot be predicted, and the history of similar stock split combinations for companies in like circumstances is varied. There can be no assurance that the market price per share of our Common Stock after the Reverse Stock Split will rise in proportion to the reduction in the number of shares of Common Stock outstanding resulting from the Reverse Stock Split. The market price of our Common Stock may also be based on our performance and other factors, some of which may be unrelated to the number of shares outstanding.

The Reverse Stock Split will affect all of our Stockholders uniformly and will not affect any Stockholder's percentage ownership interests in the Company or proportionate voting power, except to the extent that the Reverse Stock Split results in any of our Stockholders owning a fractional share. The principal effect of the Reverse Stock Split will be that the number of shares of Common Stock issued and outstanding will be reduced from 43,631,684 shares of Common Stock as of April 5, 2019, to approximately 4,847,964 shares (depending on the number of fractional shares that are cancelled). The Common Stock issued pursuant to the Reverse Stock Split will remain fully paid and non-assessable.

The Reverse Stock Split will not affect the par value of our Common Stock. As a result, on the effective date of the Reverse Stock Split, the stated capital on our balance sheet attributable to our Common Stock will be reduced to less than the present amount, and the additional paid-in capital account shall be credited with the amount by which the stated capital is reduced. The per share net income or loss and net book value of our Common Stock will be increased because there will be fewer shares of our Common Stock outstanding.

Stockholders should recognize that they will own fewer numbers of shares than they presently own (a number equal to the number of shares owned immediately prior to the filing of the certificate of amendment divided by nine, which is the ratio that has been finally determined by management). In addition, the Reverse Stock Split will increase the number of Stockholders of the Company who own odd lots (less than 100 shares). Stockholders who hold odd lots typically will experience an increase in the cost of selling their shares, as well as possible greater difficulty in effecting such sales.

No Action Needed by Beneficial Holders (Stockholders who Hold Shares in Street Name)

Upon the implementation of the Reverse Stock Split, the Company intends to treat shares of its capital stock held by stockholders through a bank, broker, custodian or other nominee in the same manner as registered stockholders whose shares of stock are registered in their names. Banks, brokers, custodians or other nominees will be instructed to effectuate the Reverse Stock Split for their beneficial holders holding our capital stock in street name. However, those banks, brokers, custodians or other nominees may have procedures different than those for registered stockholders for processing the Reverse Stock Split. Stockholders who hold shares of our stock with a bank, broker, custodian or other nominee and have any questions in this regard are encouraged to contact their banks, brokers, custodians or other nominees.

Exchange of Shares

Promptly after the Reverse Stock Split, the Stockholders of record on the effective date of the Reverse Stock Split will receive a letter of transmittal from our transfer agent asking them to return the outstanding certificates representing pre-split shares of Common Stock, which would be cancelled upon receipt by our transfer agent. All new shares representing the post-split shares of Common Stock will be kept in book-entry form by our transfer agent. If stockholders would like a certificate representing the new post-split Shares, they can request in writing a stock certificate from our transfer agent with a check for \$25.00. We will not issue fractional shares.

Stockholders who hold uncertificated shares, either as direct or beneficial owners, will have their holdings electronically adjusted by the Company's transfer agent (and, for beneficial owners, by their brokers or banks that hold in "street name" for their benefit, as the case may be) to give effect to the Reverse Stock Split. Stockholders who hold uncertificated shares as direct owners will be sent a statement of holding from the Company's transfer agent that indicates the number of shares owned in book-entry form.

Our transfer agent is Continental Stock Transfer & Trust, whose telephone number and address are (212) 509-4000 and 1 State Street, 30th Floor, New York, NY 10004-1561, respectively.

STOCKHOLDERS SHOULD NOT DESTROY ANY STOCK CERTIFICATE AND SHOULD NOT SUBMIT ANY CERTIFICATES WITHOUT THE LETTER OF TRANSMITTAL.

Federal Income Tax Consequences of the Reverse Stock Split

The following is a summary of certain material United States federal income tax consequences of the Reverse Stock Split. It does not purport to be a complete discussion of all of the possible United States federal income tax consequences of the Reverse Stock Split and is included for general information only. Further, it does not address any state, local or foreign income or other tax consequences. This discussion does not address the tax consequences to holders that are subject to special tax rules, such as banks, insurance companies, regulated investment companies, personal holding companies, foreign entities, nonresident alien individuals, broker-dealers and tax-exempt entities. The discussion is based on the provisions of the United States federal income tax law as of the date hereof, which is subject to change retroactively as well as prospectively. This summary also assumes that the shares of Common Stock held by our Stockholders before the Reverse Stock Split were, and the shares of Common Stock held after the Reverse Stock Split will be, held as "capital assets," as defined in the Internal Revenue Code of 1986, as amended (i.e., generally, property held for investment). The tax treatment of a Stockholder may vary depending upon the particular facts and circumstances of such Stockholder. Each stockholder is urged to consult with such Stockholder's own tax advisor with respect to the tax consequences of the Reverse Stock Split.

The Reverse Stock Split is intended to be a tax-free recapitalization to the Company and its Stockholders. Other than the cash payments by the Company for fractional shares discussed below, no gain or loss will be recognized by a Stockholder upon such Stockholder's exchange of shares held before the Reverse Stock Split for shares after the Reverse Stock Split. The aggregate tax basis of the shares of the Common Stock received in the Reverse Stock Split (including any fraction of a share deemed to have been received) will be the same as the Stockholder's aggregate tax basis in the shares of our Common Stock exchanged therefor. In general, Stockholders who receive cash instead of their fractional share interests in the shares of our Common Stock as a result of the Reverse Stock split will recognize a gain or loss based on their adjusted basis in the fractional share interests redeemed. The Stockholder's holding period for the shares of our Common Stock after the Reverse Stock Split will include the period during which the Stockholder held the shares of our Common Stock surrendered in the Reverse Stock Split. The Company should not recognize any gain or loss as a result of the Reverse Split.

This summary of certain material United States federal income tax consequence of the Reverse Stock Split is not binding on the Internal Revenue Service, the Company or the courts.
