April 28, 2014

Dear Stockholders:

On behalf of the Board of Directors, you are cordially invited to attend the 2014 Annual Meeting of Stockholders of Celgene Corporation. The Annual Meeting will be held on Wednesday, June 18, 2014, at 1:00 p.m. Eastern Time at the offices of Celgene Corporation, 86 Morris Avenue, Summit, New Jersey 07901. The formal Notice of Annual Meeting is set forth in the enclosed material.

The matters expected to be acted upon at the Annual Meeting are described in the attached Proxy Statement. During the Annual Meeting, stockholders will have the opportunity to ask questions and comment on our business operations. We are pleased to once again offer our proxy materials over the Internet. We are mailing to our stockholders a Notice of Internet Availability of Proxy Materials instead of a paper copy of the notice of annual meeting, proxy statement and proxy card. The Notice of Internet Availability contains instructions on how to access those documents over the Internet and how each of our stockholders can receive a paper copy of our proxy materials, if desired. By furnishing proxy materials over the Internet, we believe we are lowering the costs and reducing the environmental impact of the Annual Meeting.

It is important that your views be represented. If you request a proxy card, please mark, sign and date the proxy card when received and return it promptly in the self-addressed, stamped envelope we will provide. No postage is required if this envelope is mailed in the United States. You also have the option of voting your proxy via the Internet at www.proxyvote.com or by calling toll free via a touch-tone phone at 1-800-690-6903. Proxies submitted by telephone or over the Internet must be received by 11:59 p.m. Eastern Time on June 17, 2014. Although we encourage you to complete and return a proxy prior to the Annual Meeting to ensure that your vote is counted, you can attend the Annual Meeting and cast your vote in person. If you vote by proxy and also attend the Annual Meeting, there is no need to vote again at the Annual Meeting unless you wish to change your vote.

We appreciate your investment in Celgene and urge you to cast your vote as soon as possible.

Sincerely,

When we refer to our fiscal year, we mean the 12-month period ended December 31 of the stated year. Web links and addresses contained in this Proxy Statement are provided for convenience only, and the content on the referenced websites does not constitute a part of this Proxy Statement.

Frequently Asked Questions About the Annual Meeting and Voting

1. I want to attend the Annual Meeting. What procedures must I follow?

Admission to the Annual Meeting is limited to stockholders of record as of the close of business on April 21, 2014 and one immediate family member; one individual designated as a stockholder’s authorized proxy holder; or one representative designated in writing to present a stockholder proposal properly brought before the Annual Meeting. In each case, the individual must have an admission ticket or proof of ownership of Celgene Common Stock, as well as a valid government-issued photo identification, to be admitted to the Annual Meeting.

Admission Ticket or Proof of Ownership

If you hold your shares in your name as a stockholder of record, you will need an admission ticket or proof of ownership of Celgene stock. An admission ticket is attached to your proxy card or to the Notice of Internet Availability of Proxy Materials. If you plan to attend the Annual Meeting, please vote your shares but keep the admission ticket and bring it with you to the Meeting.

If your shares are held in the name of a broker, bank or other holder of record and you plan to attend the Annual Meeting, you must present proof of your ownership of Celgene Common Stock, such as a bank or brokerage account statement, to be admitted to the Annual Meeting.

A stockholder may appoint a representative to attend the Annual Meeting and/or vote on his/her behalf. An admission ticket must be requested by the stockholder but will be issued in the name of the authorized representative. Any individual holding an admission ticket that is not issued in his/her name will not be admitted to the Annual Meeting. To request an admission ticket, contact Investor Relations at (908) 673-9000.

Proponent of Stockholder Proposal

The proponent of a stockholder proposal included in this Proxy Statement should notify the Company in writing of the individual authorized to present the proposal at the Annual Meeting; this notice should be received at least two weeks before the Annual Meeting.

2. Who is entitled to vote at the Annual Meeting?

Holders of Celgene Common Stock at the close of business on April 21, 2014 are entitled to receive the Notice of Annual Meeting and to vote their shares at the Meeting. Each share of Common Stock is entitled to one vote on each matter properly brought before the Annual Meeting.

3. How many shares of Celgene Common Stock are “outstanding”?

As of April 21, 2014, there were [] shares of Celgene Common Stock outstanding and entitled to be voted at the Annual Meeting.

4. What is the difference between holding shares as a stockholder of record and as a beneficial owner?

If your shares are registered in your name with Celgene's transfer agent, American Stock Transfer & Trust Company, LLC, you are the "stockholder of record" of those shares. This Notice of Annual Meeting and Proxy Statement and any accompanying materials have been provided directly to you by Celgene.

If your shares are held through a broker, bank or other holder of record, you hold your shares in "street name" and you are considered the "beneficial owner" of those shares. This Notice of Annual Meeting and Proxy Statement and any accompanying documents have been provided to you by your broker, bank or other holder of record. As the beneficial owner, you have the right to direct your broker, bank or other holder of record how to vote your shares by using the voting instruction card or by following their instructions for voting by telephone or on the Internet. Absent instructions from you, under applicable regulatory requirements, your broker may vote your shares on the ratification of the appointment of our independent registered public accounting firm for fiscal 2014, but may not vote your shares on the election of directors or any of the other proposals to be voted on at the Annual Meeting.

5. How do I vote?

You may vote using any of the following methods:

By mail

Complete, sign and date the accompanying proxy or voting instruction card and return it in the prepaid envelope. If you are a stockholder of record and return your signed proxy card but do not indicate your voting preferences, the persons named in the proxy card will vote the shares represented by your proxy card as recommended by the Board of Directors.

By telephone or on the Internet

Celgene has established telephone and Internet voting procedures for stockholders of record. These procedures are designed to authenticate your identity, to allow you to give your voting instructions and to confirm that those instructions have been properly recorded. Telephone and Internet voting facilities for stockholders of record will be available 24 hours a day until 11:59 p.m., Eastern Time, on June 17, 2014.

The availability of telephone and Internet voting for beneficial owners will depend on the voting processes of your broker, bank or other holder of record. We therefore recommend that you follow the voting instructions in the materials you receive.

If you vote by telephone or on the Internet, you do not have to return your proxy or voting instruction card.

Telephone. You can vote by calling the toll-free telephone number on your proxy card. Please have your proxy card handy when you call. Easy-to-follow voice prompts will allow you to vote your shares and confirm that your instructions have been properly recorded.

Internet. The website for Internet voting is www.proxyvote.com. Please have your proxy card handy when you go to the website. As with telephone voting, you can confirm that your instructions have been properly recorded. If you vote on the Internet, you also can request electronic delivery of future proxy materials.

In person at the Annual Meeting

Stockholders who attend the Annual Meeting may vote in person at the Meeting. You may also be represented by another person at the Meeting by executing a proper proxy designating that person. If you are a beneficial owner of shares, you must obtain a legal proxy from your broker, bank or other holder of record and present it to the inspector of election with your ballot to be able to vote at the Annual Meeting.

Your vote is important. Please complete your proxy card promptly to ensure that your vote is received timely.

6. What can I do if I change my mind after I vote?

If you are a stockholder of record, you can revoke your proxy before it is exercised by:

- giving written notice to the Corporate Secretary of the Company;
- delivering a valid, later-dated proxy, or a later-dated vote by telephone or on the Internet, in a timely manner; or
- voting by ballot at the Annual Meeting.

If you are a beneficial owner of shares, you may submit new voting instructions by contacting your broker, bank or other holder of record. All shares for which proxies have been properly submitted and not revoked will be voted at the Annual Meeting.

7. Why did I receive a “Notice of Internet Availability of Proxy Materials” but no proxy materials?

We distribute our proxy materials to certain stockholders via the Internet under the “Notice and Access” approach permitted by rules of the Securities and Exchange Commission (SEC). This approach conserves natural resources and reduces our cost of printing and distributing the proxy materials, while providing a convenient method of accessing the materials and voting. On or about April 28, 2014, we mailed a “Notice of Internet Availability of Proxy Materials” to participating stockholders, containing instructions on how to access the proxy materials on the Internet.

You may also request paper or e-mail delivery of the proxy materials on or before the date provided in the Notice of Internet Availability by calling 1-800-579-1639. We will fill your request within three business days. You will also have the option to establish delivery preferences that will be applicable for all future mailings of proxy materials. We encourage stockholders to take advantage of the availability of the proxy materials on the Internet to help reduce the environmental impact and costs of our annual meetings. If you choose to receive future proxy materials by e-mail, you will receive an e-mail message next year with instructions containing a link to those materials and a link to the proxy voting website. Your election to receive proxy materials by e-mail will remain in effect until you terminate it.

8. Can I access the proxy materials and the fiscal 2013 Annual Report on the Internet?

This Notice of Annual Meeting and Proxy Statement and the fiscal 2013 Annual Report are available on our website at www.celgene.com. Instead of receiving future proxy statements and accompanying materials by mail, most stockholders can elect to receive an e-mail that will provide electronic links to them. Opting to access your proxy materials online will conserve natural resources, will save us the cost of producing documents and mailing them to you, and will give you an electronic link directly to the proxy voting site.

Stockholders of Record: If you vote on the Internet at www.proxyvote.com, simply follow the prompts to enroll in the electronic proxy delivery service.

Beneficial Owners: You also may be able to receive copies of these documents electronically. Please check the information provided in the proxy materials sent to you by your broker, bank or other holder of record regarding the availability of this service.

9. What is a broker non-vote?

If you are a beneficial owner whose shares are held of record by a broker, you must instruct the broker how to vote your shares. If you do not provide voting instructions, your shares will not be voted on any proposal on which the broker does not have discretionary authority to vote. This is called a “broker non-vote.” In these cases, the broker can register your shares as being present at the Annual Meeting for purposes of determining the presence of a quorum but will not be able to vote on those matters for which specific authorization is required under the rules of the New York Stock Exchange (NYSE).

If you are a beneficial owner whose shares are held of record by a broker, your broker has discretionary voting authority under NYSE rules to vote your shares on the ratification of KPMG, even if the broker does not receive voting instructions from you. However, without specific instructions from you, your broker does not have discretionary authority to vote on the election of directors, the proposal to amend the Certificate of Incorporation and effect the stock split, approval of the amendment of our 2008 Stock Incentive Plan, the advisory approval of executive compensation, or on any stockholder proposal, in which case a broker non-vote will occur and your shares will not be voted on these matters.

10. What is a quorum for the Annual Meeting?

The presence of the holders of Common Stock representing a majority of the voting power of all shares of Common Stock issued and outstanding and entitled to vote at the Annual Meeting, in person or represented by proxy, is

necessary to constitute a quorum. Abstentions and broker non-votes are counted as present and entitled to vote for purposes of determining a quorum.

Table of Contents

11. What are the voting requirements to elect the directors and to approve each of the proposals discussed in this Proxy Statement?

Proposal	Vote Required	Broker Discretionary Voting Allowed
Election of Directors	Majority of Votes Cast	No
Ratification of KPMG	Majority of Votes Cast	Yes
Amendment of our Certificate of Incorporation to increase the authorized number of shares of common stock and to effect a stock split	Majority of Outstanding Stock entitled to Vote	No
Amendment of our 2008 Stock Incentive Plan	Majority of Votes Cast	No
Advisory Approval of Executive Compensation (non-binding)	Majority of Votes Cast	No
Stockholder Proposal (non-binding)	Majority of Votes Cast	No

If you abstain from voting or there is a broker non-vote on a matter requiring a majority of the votes cast, your abstention or the broker non-vote will not affect the outcome of such vote, because abstentions and broker non-votes are not considered to be votes cast. If you abstain from voting or there is a broker non-vote on the proposal to amend our Certificate of Incorporation and effect a stock split, your abstention or the broker non-vote will count as a vote against the proposal because a majority of the outstanding shares entitled to vote at the Annual Meeting is required to approve the proposal.

Election of Directors

Directors must be elected by a majority of the votes cast in uncontested elections, such as the election of directors at the Annual Meeting. This means that the number of votes cast “for” a director nominee must exceed the number of votes cast “against” that nominee. Abstentions and broker non-votes are not counted as votes “for” or “against” a director nominee. In a contested election, the required vote would be a plurality of votes cast.

Ratification of KPMG

The votes cast “for” must exceed the votes cast “against” to approve the ratification of KPMG as our independent registered public accounting firm. Abstentions are not counted as votes “for” or “against” this proposal.

Amendment of our Certificate of Incorporation to increase the authorized number of shares of common stock and to effect a stock split

The shares of Common Stock voted “for” the amendment to our Certificate of Incorporation and to effect a split of our common stock must equal or exceed a majority of the outstanding shares entitled to vote thereon. Abstentions and broker non-votes are counted as votes “against” this proposal. All references to numbers of shares of Common Stock in this Proxy Statement do not give effect to the proposed stock split, except as otherwise indicated.

Amendment of 2008 Stock Incentive Plan

The votes cast “for” must exceed the votes cast “against” to approve an amendment to our 2008 Stock Incentive Plan. Abstentions and broker non-votes are not counted as votes “for” or “against” this proposal.

Advisory Approval of Executive Compensation

The votes cast “for” must exceed the votes cast “against” to approve, on an advisory basis, the compensation of our Named Executive Officers. Abstentions and broker non-votes are not counted as votes “for” or “against” this proposal.

Stockholder Proposals

The votes cast “for” must exceed the votes cast “against” to approve a stockholder proposal. Abstentions and broker non-votes are not counted as votes “for” or “against” the stockholder proposal.

12. How will my shares be voted at the Annual Meeting?

At the Meeting, the Board of Directors (the persons named in the proxy card or, if applicable, their substitutes) will vote your shares as you instruct. If you sign your proxy card and return it without indicating how you would like to vote your shares, your shares will be voted as the Board of Directors recommends, which is:

• **FOR** the election of each of the director nominees named in this Proxy Statement;

• **FOR** the ratification of the appointment of KPMG LLP as our independent registered public accounting firm for fiscal 2014;

• **FOR** the amendment of our Certificate of Incorporation to increase the authorized number of shares of common stock and to effect a stock split;

• **FOR** the approval of the amendment of our 2008 Stock Incentive Plan;

• **FOR** the approval, on an advisory basis, of the compensation of our Named Executive Officers; and

• **AGAINST** the stockholder proposal.

13. Could other matters be decided at the Annual Meeting?

As of the date of this Proxy Statement, we did not know of any matters to be raised at the Annual Meeting other than those referred to in this Proxy Statement.

If you return your signed and completed proxy card or vote by telephone or on the Internet and other matters are properly presented at the Annual Meeting for consideration, the individuals named as proxies on the enclosed proxy card will have the discretion to vote for you.

14. Who will pay for the cost of the Annual Meeting and this proxy solicitation?

The Company will pay the costs associated with the Annual Meeting and solicitation of proxies, including the costs of mailing the proxy materials. In addition to solicitation by mail, our directors, officers and regular employees (who will not be specifically compensated for such services) may solicit proxies by telephone or otherwise. Arrangements will be made with brokerage houses and other custodians, nominees and fiduciaries to forward proxies and proxy materials to their principals, and we will reimburse them for their expenses. We have retained Broadridge Financial Solutions to assist in the mailing, collection and administration of proxies. In addition, we have engaged [_____] to assist with the solicitation of proxies (which may include solicitation by mail, electronically, facsimile, telephone and personal contact) for a fee of \$[_____] plus expenses.

MATTERS TO COME BEFORE THE ANNUAL MEETING

PROPOSAL ONE:

Election of Directors

Nominees

At the Annual Meeting, nine directors, who have been nominated by the Nominating, Governance and Compliance Committee of the Board of Directors (referred to as the Nominating Committee), are to be elected, each to hold office (subject to our By-Laws) until the next annual meeting and until his or her successor has been elected and qualified. All of the nominees for director currently serve as directors and were elected by the stockholders at the 2013 Annual Meeting.

Each nominee has consented to being named as a nominee in this proxy statement and to serve if elected. If any nominee listed in the table below should become unavailable for any reason, which the Board of Directors does not anticipate, the proxy will be voted for any substitute nominee or nominees who may be selected by the Board of Directors prior to or at the Annual Meeting, or, if no substitute is selected by the Board of Directors prior to or at the Annual Meeting, for a motion to reduce the membership of the Board of Directors to the number of nominees available. Directors will be elected by an affirmative vote of a majority of the votes cast at the Annual Meeting in person or by proxy. There are no family relationships between any of our directors and executive officers. The information concerning the nominees and their security holdings has been furnished by them to us.

Our directors are nominated by our Board of Directors, based on the recommendations of the Nominating Committee. As discussed elsewhere in this proxy statement, in evaluating director nominees, the Nominating Committee considers characteristics that include, among others, integrity, business experience, financial acumen, leadership abilities, familiarity with our businesses and businesses similar or analogous to ours, and the extent to which a candidate's knowledge, skills, background and experience are already represented by other members of our Board of Directors. Listed below are our director nominees with their biographies. In addition, we have summarized for each director the reasons why such director has been chosen to serve on our Board of Directors.

Board Independence

No director will be deemed to be independent unless the Board of Directors affirmatively determines that the director has no other material relationship with us, directly or as an officer, stockholder or partner of an organization that has such a relationship with us. The Board of Directors observes all criteria for independence established by the Nasdaq Stock Market (Nasdaq) under its applicable Listing Rules. The Board of Directors has determined that all of our non-employee directors, constituting all but one of our directors, may be classified as "independent" within the meaning of Rule 5605(a)(2) of the Nasdaq Listing Rules. Executive sessions of our independent directors are convened in conjunction with each regularly scheduled Board of Directors meeting.

Board Meetings; Committees and Membership

General

The Board of Directors held six meetings during fiscal 2013, five of which meetings were held over a period of two consecutive days. During fiscal 2013, each of the directors then in office attended more than 75% of the aggregate of (i) the total number of meetings of the Board of Directors and (ii) the total number of meetings of all committees of the Board on which such director served. Our policy is to encourage our Board members to attend all annual meetings and any special meetings of stockholders. All of our directors attended the 2013 Annual Meeting.

We maintain the following committees of the Board of Directors: the Executive Committee, the Compensation Committee, the Nominating Committee and the Audit Committee. Except for the Executive Committee, each committee is comprised entirely of directors who are "independent" within the meaning of Rule 5605(a)(2) of the Nasdaq Listing Rules. Other than the Executive Committee, each committee acts pursuant to a separate written charter, and each such charter has been adopted and approved by the Board of Directors. A copy of the Amended and Restated Charters of the Audit Committee, the Compensation Committee and the Nominating Committee, as well as our Corporate Governance Guidelines, are available on our website at www.celgene.com by choosing the "Investor Relations" link and clicking on the "Corporate Governance" section.

The Executive Committee

The Executive Committee's current members are Robert J. Hugin (Chairman), Michael D. Casey and Ernest Mario, Ph.D. The Executive Committee did not meet during fiscal 2013. The Executive Committee has and may exercise all of the powers and authority of our full Board of Directors, subject to certain exceptions.

The Management Development and Compensation Committee (the "Compensation Committee")

The Compensation Committee's current members are Rodman L. Drake (Chairman), Michael D. Casey and James J. Loughlin. The Compensation Committee held seven formal meetings and a number of informal meetings during fiscal 2013. The Compensation Committee annually reviews and approves the total compensation packages for all executive officers, including the Chief Executive Officer, considers modification of existing compensation and benefit programs and the adoption of new compensation and benefit plans, administers the plans and reviews the compensation of non-employee members of the Board of Directors and reviews periodically with the Chief Executive Officer our leadership development plans and succession planning. The Compensation Committee has (i) the full power and authority to interpret the provisions and supervise the administration of the Anthrogenesis Corporation Qualified Employee Incentive Stock Option Plan, the Signal Pharmaceuticals, Inc. 2000 Equity Incentive Plan, our 1992 Long-Term Incentive Plan, our 2008 Stock Incentive Plan and the Pharmion Corporation (Pharmion) 2000 Stock

Incentive Plan, (ii) the full power and authority to administer and interpret the Celgene Corporation 2005 Deferred Compensation Plan (the “Nonqualified Plan”) and (iii) the authority to review all matters relating to our personnel.

Compensation Committee Consultant

The Compensation Committee has retained Radford, an Aon Hewitt Company, which we refer to as “Radford,” as its outside compensation consultant since 2004. Radford was retained by the Compensation Committee as a result of a competitive bidding process conducted by the Compensation Committee. Radford regularly meets with the Compensation Committee and provides advice regarding the design and implementation of our executive compensation programs, as well as our director compensation programs. In particular, Radford:

- reviews and makes recommendations regarding executive and director compensation (including amounts and forms of compensation);

- provides market data and performs competitive market analyses;

- advises the Compensation Committee as to best practices; and

- assists in the preparation of our compensation-related disclosures included in this proxy statement.

In providing its services to the Compensation Committee, with the Compensation Committee’s knowledge, Radford may contact our management from time to time to obtain data and other information from us and to work together in the development of proposals and alternatives for the Compensation Committee to review and consider. In fiscal 2013, the cost of Radford’s executive compensation and director compensation consulting services was \$155,024.

In addition, in fiscal 2013: (i) Aon Consulting, an affiliate of Radford, was retained by us to provide global employee benefits consulting services; (ii) Aon Risk Services, an affiliate of Radford, was retained by us for various insurance-related consulting services; and (iii) Radford Surveys, an affiliate of Radford, was retained by us for various compensation surveys. In fiscal 2013, the aggregate cost of such other consulting services was \$107,946.

The Compensation Committee regularly evaluates the nature and scope of the services provided by Radford. The Compensation Committee approved the fiscal 2013 executive and director compensation consulting services of Radford described above. Although the Compensation Committee was aware of the nature of the services performed by Aon Consulting, Aon Risk Services and Radford Surveys, the Compensation Committee did not review and approve such services as those services were reviewed and approved by management in the ordinary course of business.

In order to ensure that Radford is independent, Radford is only engaged by, takes direction from, and reports to, the Compensation Committee and, accordingly, only the Compensation Committee has the right to terminate or replace Radford at any time. Further, Radford maintains certain internal controls within Aon which include, among other things:

- Radford is managed separately from Aon and performance is measured solely on the Radford business;

- no commissions or cross revenue is provided to Aon in the event that Aon introduces Radford to an account, and no

- Aon staff member is paid commissions or incentives for Radford services;

- Radford is not rewarded for selling Aon services nor is Radford required to cross-sell services;

- Radford maintains its own account management structure, contact database and IT network and its survey data is on a separate IT platform from Aon; and

- no member of Radford’s team is involved in, or sits on, any Aon committee for purposes of selling Aon services.

The Nominating, Governance and Compliance Committee (the “Nominating Committee”)

The Nominating Committee’s current members are Michael D. Casey (Chairman), Rodman L. Drake, Ernest Mario, Ph.D. and Michael A. Friedman, M.D. The Nominating Committee held five meetings in fiscal 2013. The Nominating Committee determines the criteria for nominating new directors, recommends to the Board of Directors candidates for nomination to the Board of Directors, oversees the evaluation of the Board of Directors, develops and recommends to the Board of Directors appropriate corporate governance guidelines, reviews on a periodic basis the Company’s leadership development plans and succession planning with respect to the position of Chief Executive Officer, and oversees certain of the Company’s corporate compliance efforts (excluding financial compliance and reporting and overseeing compliance with the requirements of the U.S. Foreign Corrupt Practices Act, which are the responsibilities of the Audit Committee). The Nominating Committee’s process to identify and evaluate candidates for nomination to the Board of Directors includes consideration of candidates for nomination to the Board of Directors recommended by stockholders. Such stockholder recommendations must be delivered to our Corporate Secretary, together with the information required to be filed in a proxy statement with the SEC regarding director nominees, and

each such nominee must consent to serve as a director if elected, no later than the deadline for submission of stockholder proposals as set forth in our By-Laws and under the section of this proxy statement entitled “Stockholder Nominations.” In considering and evaluating such stockholder proposals that have been properly submitted, the Nominating Committee will apply substantially the same criteria that the Nominating Committee believes must be met by a Nominating Committee-recommended nominee as described below. To date, we have not received

12

Table of Contents

any recommendation from stockholders requesting that the Nominating Committee consider a candidate for inclusion among the Nominating Committee's slate of nominees in our proxy statement.

In evaluating director nominees, the Nominating Committee currently considers the following factors:

• our needs with respect to the particular competencies and experience of our directors;

• familiarity with our business and businesses similar to ours;

• financial acumen and corporate governance experience; and

• our desire that our Board reflect diversity with respect to, among other matters, professional and operational experience, scientific and academic expertise, international background, gender, race and ethnicity.

The Nominating Committee identifies nominees first by evaluating the current members of the Board of Directors willing to continue in service. If any member of the Board does not wish to continue in service or if the Nominating Committee or the Board of Directors decides not to re-nominate a member for re-election, the Nominating Committee will identify the required skills, background and experience of a new nominee, in tandem with prevailing business conditions, and will source relevant candidates and present to the Board of Directors suggestions as to individuals who meet the required criteria. The Nominating Committee utilizes the services of an outside search firm to assist it in finding appropriate nominees for the Board of Directors.

The Audit Committee

The Audit Committee's current members are James J. Loughlin (Chairman), Richard W. Barker, D.Phil., Gilla Kaplan, Ph.D. and Carrie S. Cox. The Audit Committee held nine meetings in fiscal 2013. Mr. Loughlin is an "audit committee financial expert" within the meaning of the rules of the SEC and, as such, he satisfies the requirements of Rule 5605(c)(2) of the Nasdaq Listing Rules. The Audit Committee oversees our financial reporting process on behalf of the Board of Directors. In fulfilling its responsibility, the Audit Committee appoints, subject to stockholder ratification, our independent registered public accounting firm. The Audit Committee also reviews our consolidated financial statements and the adequacy of our internal controls. The Audit Committee meets at least quarterly with our management and our independent registered public accounting firm to review and discuss the results of audits or reviews of our consolidated financial statements, the evaluation of the effectiveness of our internal control over financial reporting and disclosure controls and procedures, the overall quality of our financial reporting and appropriate application of our critical accounting policies and to approve any related person transactions (as defined herein). The Audit Committee's responsibility is to monitor and oversee these processes, including the activities of our internal audit function. The Audit Committee meets separately, at least quarterly, with the independent registered public accounting firm. In addition, the Audit Committee oversees our existing procedures for the receipt, retention and handling of complaints related to auditing, accounting and internal control issues, including the confidential, anonymous submission by employees, vendors, customers or others of concerns on questionable accounting and auditing matters.

Related Person Transaction Policies and Procedures

At the beginning of each calendar year, each member of our Board of Directors and each executive officer is required to complete an extensive questionnaire that we utilize when preparing our annual proxy statement, as well as our Annual Report on Form 10-K. The purpose of the questionnaire is to obtain information from directors and executive officers to verify disclosures required to be made in these documents. Regarding related person transactions, it serves two purposes: first, to remind each executive officer and director of their obligation to disclose any related person transactions entered into between themselves (or family members or entities in which they hold an interest) and us that in the aggregate exceed \$120,000 ("related person transaction") that might arise in the upcoming year; and second, to ensure disclosure of any related person transaction that is currently proposed or that occurred since the beginning of the preceding year. When completing the questionnaire, each director and executive officer is required to report any such transaction.

Compensation Committee Interlocks and Insider Participation

Each member of the Compensation Committee is an independent director within the meaning of the Nasdaq Listing Rules. There was no interlock among any of the members of the Compensation Committee and any of our executive officers.

Financial Officer Code of Ethics

We have adopted a Financial Officer Code of Ethics that applies to our Chief Executive Officer, Chief Financial Officer and other financial professionals. This Financial Officer Code of Ethics is posted on our website at www.celgene.com and may be accessed by choosing the “Investor Relations” link and clicking on the “Corporate Governance” section. We intend to satisfy the disclosure requirements regarding any amendment to, or a waiver of, a provision of the Financial Officer Code of Ethics by posting such information on our website. We undertake to provide to any person a copy of this Financial Officer Code of Ethics upon request to our Corporate Secretary at our principal executive offices.

Stockholder Nominations

Our By-Laws provide that nominations for the election of directors may be made at an annual meeting: (a) by or at the direction of the Board of Directors (or any duly authorized committee thereof); or (b) by any stockholder who (i) is a stockholder of record on the date of the giving of the notice and on the record date for the determination of stockholders entitled to vote at such annual meeting and (ii) complies with the notice procedures set forth below.

In addition to any other applicable requirement for a nomination to be made by a stockholder, such stockholder must have given timely notice thereof in proper written form to our Corporate Secretary. To be timely, a stockholder's notice to the Corporate Secretary must be delivered to or mailed and received at our principal executive offices not less than 60 days nor more than 90 days prior to the date of the annual meeting; provided that in the event that less than 70 days' notice or prior public disclosure of the date of the annual meeting is given or made to stockholders, notice by the stockholder (in order to be timely) must be so received not later than the close of business on the 10th day following the day on which such notice of the date of the annual meeting was mailed or such public disclosure of the date of the annual meeting was made, whichever first occurs.

To be in proper written form, a stockholder's notice to the Corporate Secretary must set forth (a) as to each person whom the stockholder proposes to nominate for election as a director: (i) the name, age, business address and residence address of the person; (ii) the principal occupation or employment of the person; (iii) the class; or series and number of shares of our capital stock which are owned beneficially or of record by the person and (iv) any other information relating to the person that would be required to be disclosed in a proxy statement or other filing required to be made in connection with solicitations of proxies for election of directors pursuant to Section 14 of the Securities Exchange Act of 1934, as amended (the Exchange Act), and the rules and regulations promulgated thereunder; and (b) as to the stockholder giving the notice: (i) the name and record address of such stockholder; (ii) the class or series and number of shares of our capital stock which are owned beneficially or of record by such stockholder; (iii) a description of all arrangements or understandings between such stockholder and each proposed nominee and any other person or persons (including their names) pursuant to which the nomination(s) are to be made by such stockholder; (iv) a representation that such stockholder intends to appear in person or by proxy at the annual meeting to nominate the persons named in his or her notice and; (v) any other information relating to such stockholder that would be required to be disclosed in a proxy statement or other filing required to be made in connection with solicitations of proxies for election of directors pursuant to Section 14 of the Exchange Act and the rules and regulations promulgated thereunder. Such notice must be accompanied by a written consent of each proposed nominee to being named as a nominee and serving as a director if elected.

Stockholder Communications

Our Board of Directors has determined that, to facilitate communications with the Board of Directors, or any individual member or any Committee of the Board of Directors, stockholders should direct all communication in writing to our Corporate Secretary at our principal executive offices. Our Corporate Secretary will forward all such correspondence to the Board of Directors, individual members of the Board of Directors or applicable chairpersons of any Committee of the Board of Directors, as appropriate.

Board Leadership Structure

The Board of Directors has concluded that, consistent with past practice and in our best interests and the interests of our stockholders, the positions of Chairman and Chief Executive Officer should be combined.

Accordingly, assuming that the director nominees are elected to the Board at the Annual Meeting, Mr. Hugin will continue to hold the positions of both Chairman and Chief Executive Officer.

The independent directors believe that each of the possible leadership structures for a board has its particular pros and cons, which must be considered in the context of the specific circumstances, culture and challenges facing a company. The independent directors believe that our current model of the combined Chairman/CEO role in conjunction with the independent Lead Director position is the appropriate leadership structure that has served our stockholders well in the past and will continue to do so in the future. Additionally, given the abilities and strengths of each of our Board members, their varied organizational backgrounds and wide range of leadership and management experience, we believe that the concentration of functions will continue to promote a culture of transparency and accountability that has guided, and will continue to guide, our successful performance.

Table of Contents

Our leadership structure is periodically reviewed to ensure that it is appropriate for us given the facts and circumstances at the time of review. The independent directors believe that the combined Chairman/CEO position, together with the independent Lead Director, has certain advantages over other board leadership structures and continue to best meet our current needs, including:

- ensuring efficient communication between management and the Board;
- clearly delineating the independent Lead Director's and other independent directors' oversight roles from the Chairman/CEO's and other management's strategic and operational roles;
- ensuring that all key and appropriate issues are discussed by the Board in a timely and constructive manner;
- providing clarity for our key stakeholders on corporate leadership and accountability; and
- augmenting the Chairman's knowledge of our strategy, operations and financial condition and, in turn, communicating that to external stakeholders.

As Chief Executive Officer and President, Mr. Hugin is accountable directly to the full Board of Directors and has day-to-day responsibility for our business operations and for general oversight over our business and the various management teams that are responsible for our day-to-day operations.

We believe that the combined Chairman/CEO leadership structure is appropriate for us as it enhances our Board's oversight by leveraging the knowledge of our Chief Executive Officer who has also served, in the past, as our Chief Financial Officer and Chief Operating Officer.

Independent Lead Director

In June 2007, Michael D. Casey was designated independent Lead Director. In accordance with our corporate governance guidelines, as adopted by the Board of Directors on December 16, 2010, the independent Lead Director provides guidance concerning the agenda for each Board meeting, presides over executive sessions of the independent directors that are held on a regular basis, communicates with the Chairman/CEO after each executive session of the independent directors to provide feedback and to effectuate the decisions and recommendations of the independent directors, acts as intermediary liaison between the independent directors and management on a regular basis and when communication out of the ordinary course is appropriate.

Board of Directors Role in Risk Oversight

In connection with its oversight responsibilities, the Board of Directors, including through the Audit Committee, Nominating Committee and Compensation Committee, periodically assesses the significant risks that we face. These risks include financial, legal, technological, competitive, operational and compensation-related risks. The Board, together with the Chief Executive Officer, the Chief Financial Officer, management representatives of the relevant functional areas (e.g. internal audit, legal, regulatory and compliance groups, operational management, human resources, etc.) and representatives of each of our operating subsidiaries, reviews and monitors the identification, assessment and mitigation of the material risks affecting our operations.

Section 16(a) Beneficial Ownership Reporting Compliance

Pursuant to Section 16(a) of the Exchange Act, each of our directors, executive officers and any person beneficially owning more than 10 percent of Common Stock is required to report his, her or its ownership of Common Stock and any change in that ownership, on a timely basis, to the SEC. We believe that all applicable acquisitions and dispositions of Common Stock, including grants of options under our 2008 Stock Incentive Plan, were filed on a timely basis for fiscal 2013, except the Form 4 report of Rodman L. Drake relating to the exercise of stock options on August 7, 2013, which was filed with the SEC on August 12, 2013.

Elsewhere in this CD&A, under the heading “Additional Information Regarding Executive Officers,” we include a series of tables containing specific information about the compensation earned by the following individuals, who we refer to as our Named Executive Officers (NEOs) for fiscal 2013:

• Robert J. Hugin, Chairman and Chief Executive Officer;

• Jacquelyn A. Fouse, Ph.D., Executive Vice President and Chief Financial Officer;

• Mark J. Alles, Executive Vice President and Global Head of Hematology and Oncology;

• Thomas O. Daniel, M.D., Executive Vice President and President, Research and Early Development; and

• Perry A. Karsen, Executive Vice President and Chief Operations Officer and Chief Executive Officer of Celgene Cellular Therapeutics.

Each of our NEOs is fully engaged in company-wide strategic planning and decision-making aimed at ensuring our long-term success. The full biographies for Ms. Fouse, Dr. Daniel and Messrs. Alles and Karsen are provided elsewhere in this proxy statement under “Additional Information Regarding Executive Officers — Executive Officers.”

Introduction

Across the metrics that determine performance under our compensation plans and programs, fiscal 2013 was an outstanding year for us. We generated non-GAAP (i.e., generally accepted accounting principles) total revenue of \$6.494 billion, an 18% increase year over year, and non-GAAP diluted earnings per share of \$5.96, a 21% increase year over year. Full year REVLIMID[®] sales were \$4.280 billion, an increase of 14%; VIDAZA[®] sales were \$803 million, a decrease of 2%; ABRAXANE[®] sales were \$649 million, an increase of 52%; POMALYST[®]/IMNOVID[®] sales were \$305 million and THALOMID[®] sales were \$245 million, a decrease of 19%. Our stock price reflected our strong performance, increasing over 115% in fiscal 2013. These strong results were achieved with continued significant investment and progress in all stages of our research and development pipeline, the commercial launch of POMALYST[®]/IMNOVID[®] and expenses related to the planned launch of OTEZLA[®] in 2014. For more information about non-GAAP financial achievements, please see the description of non-GAAP financial achievements in “Key 2013 Compensation Actions and Program Highlights — Annual Bonus (MIP) Payout for Fiscal 2013.”

We believe the design of our executive pay programs will lead to continued stockholder support of our executive compensation programs. Our fiscal 2013 compensation programs were designed based on our compensation philosophy and guiding principles that focus on aligning competitive pay to performance. Our fiscal 2013 performance and consequent incentive payouts for our NEOs clearly demonstrate this alignment. In fiscal 2013, our executive compensation programs were structured such that 92% of our NEOs’ total compensation was delivered in the form of short- and long-term incentives, both of which are highly variable and tied to achievement of Company goals and objectives.

Advisory Vote on Executive Compensation

We conducted our third non-binding advisory vote on executive compensation last year at our 2013 Annual Meeting of Stockholders, which our stockholders voted should be held annually. At the 2013 Annual Meeting of Stockholders, 93.9% of the votes cast on the advisory vote on executive compensation proposal were in favor of our NEO compensation as described in the proxy statement. The Compensation Committee reviewed these final vote results and determined that the structure of our executive compensation policies continues to be appropriately aligned to the achievement of company goals and objectives. Despite the affirmative vote, however, the Compensation Committee believes that continual review of our executive compensation programs and their alignment to Company and stock price performance is in the best interests of our stockholders. In fiscal 2013, the Compensation Committee deemed that the changes made in fiscal 2011 that further aligned our executive compensation to the interests of our stockholders continue to be appropriate and should be continued. These and other practices are described in “Highlights of Best Practices of Our Compensation Programs.”

Our Compensation Philosophy

Our executive compensation philosophy is centered on the concept that compensation programs must be designed to focus executives on delivering both short- and long-term value to our stockholders. The objectives against which executives' performance is measured (and pay is subsequently delivered) require our NEOs not only to balance their focus between short- and long-term business strategies, but also to maintain a balanced and appropriate risk profile.

Table of Contents

In order to provide a consistent framework within which the Compensation Committee sets objectives, measures performance and decides compensation actions for our NEOs, we design our plans and deliver compensation according to the following principles:

Value Creation: In making compensation decisions and setting target pay, the Compensation Committee balances historical performance of each NEO with expected future contributions to his/her functional areas and to the broader management of the Company.

Pay for Performance: Our compensation programs are designed to deliver compensation that is commensurate with the level of performance achieved and to align the interest of our executives with the interests of our stockholders. Further, weighting our NEOs' pay mix more heavily on performance-based incentives ensures that payouts under our compensation plans appropriately reflect the achievement of financial and strategic goals.

Team-Based: The Compensation Committee reviews and approves objectives and makes compensation decisions based on the NEOs' performance not only against the specific strategy and objectives of the function(s) for which he/she is responsible, but also against each NEO's engagement in our broader, longer-range management as a whole. Aligning each NEO's variable pay to overall Company objectives reinforces our team-based management approach and encourages decision-making that is in the interest of the broader organization. As part of this team-based approach, we also strive to create and maintain internal equity in our compensation arrangements.

Competitive Positioning: We actively monitor compensation in relation to our industry and peer group. The Compensation Committee does not target a specific percentile within our peer group; rather, benchmark data is used as a reference point when making compensation determinations. The Compensation Committee periodically reviews our peer group and with the input of Radford, makes changes based on factors such as market capitalization, complexity, global presence and those in our industry with whom we compete for talent. Throughout fiscal 2013, our peer group consisted of the following ten companies: AbbVie Inc., Allergan, Inc., Amgen Inc., Baxter International Inc., Biogen Idec Inc., Bristol-Myers Squibb Company, Eli Lilly and Company, Forest Laboratories, Inc., Gilead Sciences Inc., and Valeant Pharmaceuticals International, Inc. We also consider various surveys, including the Radford Global Life Sciences Survey, SIRS Executive Compensation Survey and Towers Watson U.S. CDB Pharmaceutical Executive Database.

Highlights of Best Practices of Our Compensation Programs

We believe that our compensation plans and programs not only reflect our philosophy with regard to compensation for our NEOs, but are also aligned with best practices with regard to corporate governance. Below is a list that highlights certain features and key decisions with respect to our compensation plans and programs.

Recoupment of incentive compensation: In the event of an executive's fraud or misconduct that results in a material negative restatement of our financial statements, with respect to the year to which the restatement applies (excluding any year before January 1, 2013) and for any single year prior to the year in which the Company is required to prepare the restatement, we may recoup any or all of the incentive compensation paid to that executive in excess of the amounts that would have been paid to that executive based on the restated results. We may also cancel unvested incentive compensation or require the executive to repay any gains realized by the executive in excess of the amount that would have been paid to that executive based on the restated results. This provision applied to our CEO effective in fiscal 2013 and will apply to our other NEOs (and any other executive officer designated by the Compensation Committee) effective in fiscal 2014.

Risk mitigation: We proactively review our compensation programs and policies to ensure they are reflective of our philosophy with regard to risk. The plan features below are designed to promote each NEO's focus on making decisions that promote a responsible and balanced risk profile:

diversification and balance of short- and long-term rewards;

multiple metrics within each variable pay program that are balanced and weighted so as not to encourage focus on a single metric to the exclusion of others;

maximum payout caps for all variable and performance-based plans;

three year holding requirement on shares earned under our Long-Term Incentive Plan (LTIP)

ownership guidelines for our NEOs (described below).

Ownership and holding requirements: In order to ensure that NEOs continue to have a significant stake in our long-term performance and in order to align executives' compensation to the interest of stockholders, our NEOs have share ownership and holding requirements. As CEO, Mr. Hugin's ownership requirement is six times his annual base salary. The guidelines also provide for target stockholdings in an amount equal to three times annual

Table of Contents

base salary for Ms. Fouse, Dr. Daniel and Messrs. Alles and Karsen. Such guidelines will be deemed satisfied if the NEO holds, by the end of the applicable five-year period, at least that number of shares of our Common Stock equal to the value of the target amount divided by our stock price on the date the NEO becomes subject to the guidelines. Owned shares, vested restricted or deferred stock units, and vested shares held in the NEO's 401(k) plan account are included in ownership calculations, but stock options are not. All of our NEOs met and exceeded their stock ownership guidelines ahead of the required time frame.

Increased weighting on equity compensation: For each of our current LTIP performance cycles, the Compensation Committee has expressed its intention to settle each three-year plan in shares of Celgene Common Stock to be granted under the 2008 Stock Incentive Plan, rather than in cash payments for all NEOs. This, coupled with the three-year trading restriction on any shares granted under the LTIP, will further tie compensation and value delivered to such NEOs to stock performance and long-term value to our stockholders.

Vesting of equity upon change in control: We amended the 2008 Stock Incentive Plan in fiscal 2011 to eliminate the "single-trigger" change in control vesting provision for equity awards granted on or after July 1, 2011 and to provide that, unless otherwise determined at grant, equity awards granted on or after July 1, 2011 vest upon an involuntary termination without cause that occurs within two years following a change in control (i.e., a "double trigger").

No repricing/exchanges without stockholder approval: Our 2008 Stock Incentive Plan prohibits us from modifying stock options to reduce the exercise price, substituting a new stock option at a lower price for a surrendered stock option or repurchasing stock options if the per share exercise price is less than the fair market value of a share of Common Stock, unless such action is approved by our stockholders.

Securities trading policy: We maintain a comprehensive securities trading policy which provides, among other things, that our employees who possess material non-public information regarding us may not disclose or trade while in possession of such information or buy or sell our securities during any designated blackout period. Further, the policy prohibits all employees from short selling our securities, transacting in derivative securities relating to Celgene without prior written consent of our Chief Executive Officer or holding our stock in a margin account or pledging our stock as collateral for a loan without prior approval of an appropriate officer of the Company. Individuals classified as "insiders" (which includes our NEOs) and related persons (as defined in the policy) generally may not buy or sell our securities at any time without prior approval, except under approved Rule 10b5-1 trading plans.

Golden parachutes: In April 2014, at Mr. Hugin's suggestion, his employment agreement was amended to eliminate his golden parachute excise tax gross-up provision. Accordingly, none of our NEO's currently has an agreement with the Company whereby we would be obligated to pay a gross-up for excise taxes in excess of parachute payments as defined in IRC Section 280G.

Relative total stockholder return (R-TSR): All of our current LTIP performance cycles include R-TSR as a key performance metric. R-TSR is calculated as the percent change in our stock price at the beginning and the end of a measurement period compared to companies in the biopharmaceutical industry, which is expressed as an industry percentile.

NEO compensation cost analysis: To ensure that our compensation programs remain aligned with the interests of our stockholders and to further reinforce a team-based approach to management, we measure our NEOs' variable compensation in relation to the variable compensation paid to named executive officers of companies within our peer group as an additional data point when making compensation decisions for our NEOs.

Roles & Responsibilities

Overview of the Compensation Committee

The Compensation Committee is responsible for, among other things, overseeing our executive compensation and benefit programs, establishing the base salary, incentive compensation, equity awards and any other compensation for NEOs, including reviewing and approving the CEO's recommendations for the compensation of NEOs reporting to him. In addition, the Compensation Committee, in conjunction with the Board, reviews and approves the CEO's performance and compensation levels. The Compensation Committee also ensures that the total compensation paid to our NEOs is reasonable, competitive and achieves the goal of delivering results to our stockholders.

Role of the CEO

The CEO provides his insights, judgment and recommendations to the Compensation Committee regarding the setting of performance objectives for the NEOs and other leadership positions reporting to him. At the beginning of each year, the

18

Table of Contents

CEO establishes goals and objectives with each NEO that are designed to advance his/her functional areas, while promoting achievement of overall corporate performance goals. The Compensation Committee then reviews each NEO's performance goals and objectives to further ensure they are aligned with corporate goals and the interests of our stockholders.

At the conclusion of each fiscal year, the CEO evaluates the actual performance of each NEO via our performance management process and recommends appropriate salary adjustments and incentive awards to the Compensation Committee via our compensation review process.

At the request of the Compensation Committee, the CEO participates in Compensation Committee meetings and provides relevant assessment and explanation supporting his recommendations. Other members of our management, as well as certain advisors, including our outside compensation consultant, may also attend Compensation Committee meetings at our request.

Role of the Compensation Consultant

The Compensation Committee has retained Radford as its independent compensation consultant to assist in the continual development and evaluation of compensation plans and programs and the Compensation Committee's determinations of compensation awards. The Compensation Committee's consultant attends Compensation Committee meetings and provides third-party data, independent analyses, advice and industry expertise on plan design as well as proposed executive compensation levels within our plans.

At the request of the Compensation Committee, Radford reviews briefing materials prepared by management and outside advisers to management and advises the Compensation Committee on matters covered in the materials, ensuring the consistency of proposals with the Compensation Committee's compensation philosophy and comparisons to programs at other companies. Also at the request of the Compensation Committee, Radford prepares its own analyses and reports, including positioning of plans and programs within the context of competitive market analyses designed to ensure our plans and programs reinforce the principles within our compensation philosophy.

The Compensation Committee has assessed the independence of Radford pursuant to SEC rules and concluded that no conflict of interest exists that would prevent it from serving as an independent consultant to the compensation committee. For more information about the Compensation Committee's engagement of Radford, please see "Board Meetings; Committees and Membership — Compensation Committee Consultant."

Elements of Our Compensation Programs for NEOs

The goal of our compensation plans and programs is to deliver appropriate, fiscally responsible compensation to NEOs that focuses their efforts on delivering results against short- and long-term objectives, provides sustained value to stockholders and encourages taking responsible, appropriate and balanced risk. To achieve these goals, we have designed our compensation programs to include the components described below.

Pay Mix

The Compensation Committee believes that compensation for our NEOs must be a mix of variable compensation (both short- and long-term) and fixed compensation (base salary) in order to reinforce our executives' responsibility to balance short- and long-term performance while maintaining focus on delivering value for our stockholders. As such, our programs offer opportunity for higher compensation for successful performance and lower compensation in the absence of success. The Compensation Committee also believes in minimal use of perquisites as they do not reinforce our pay-for-performance philosophy. For our NEOs, the mix of compensation is weighted toward long-term, performance-based pay that correlates awards earned to the overall delivery of corporate performance and stockholder value. These goals for fiscal 2013 are reflected in the charts below.

Table of Contents

Fixed Compensation includes base salary;
Performance-Based Compensation includes bonus, LTIP
and equity awards.

Short-Term Compensation includes annual bonus;
Long-Term Compensation includes the value of LTIP
and
equity awards.

Cash Compensation includes base salary and bonus for fiscal 2013; Equity Compensation includes
all equity grants awarded in fiscal 2013 and LTIP awards payable in shares for fiscal 2013.

Base Salary

Base salaries for our NEOs provide a fixed rate of pay and serve as the basis for calculating targets in certain variable pay programs (as discussed below). Starting salaries and subsequent increases are determined based on the following factors:

- performance, experience, expected future contribution and ability to deliver value to stockholders;
- analysis of internal pay relationships;
- market conditions and competitive positioning.

Annual Bonus

Our Management Incentive Plan (MIP) is a variable pay plan designed to focus NEOs on annual goals and objectives that are established in order to contribute to the overall long-term health of our business. The Compensation Committee reviews and approves each plan year's targets and metrics under the MIP to ensure that they are challenging and commensurate with our short- and long-term business plan.

The performance goals for each NEO other than the CEO are set annually by the executive in collaboration with the CEO and are reviewed and approved by the Compensation Committee. The goals for the CEO are set annually and are reviewed and approved by the Compensation Committee. Bonus targets for our NEOs are expressed as a percentage of eligible base salary earnings. Actual payments made under the MIP are calculated based on performance in relation to the Compensation Committee-approved goals. For all of our NEOs, the maximum potential bonus payout under the MIP for fiscal 2013 was 200% of their annual bonus targets and the minimum potential bonus payout was zero.

Awards generally are payable at the end of February following the year to which the performance goals relate. Payments under our MIP are made in cash and are deferrable under our Nonqualified Plan.

Table of Contents

Long-Term Incentives

Equity Grants

The Compensation Committee's policy on equity awards for NEOs is that they should be awarded to align the interests of our NEOs with those of our stockholders and should reward achievement of exceptional corporate performance over time. As such, the 2008 Stock Incentive Plan is an important component of our total compensation strategy. The equity pool is approved each year by the Compensation Committee, subject to the overall maximum amount of shares of our stock available under the 2008 Stock Incentive Plan.

Long-term, equity-based compensation may be awarded to our NEOs in the form of stock options, RSUs or performance-based equity (through our Long-Term Incentive Plan, as described below). This deliberate mix of equity ensures that wealth creation is tied to stock performance (via stock options) and our financial performance (via performance-based equity that may be issued under the Long-Term Incentive Plan as described below). The Compensation Committee decides on targets and actual award amounts based upon relative contribution to our performance, individual performance and demonstrated leadership, and expected future contribution.

Each year, the Compensation Committee establishes equity awards and also determines, based in part on recommendations from Radford, the appropriate mix of stock options and RSUs for our NEOs. In fiscal 2013, annual awards granted (based on the value of such awards) were a mix of 2/3 stock options that are subject to service-based vesting over four years, (i.e., 25% on each of the first four anniversaries of the grant date) and generally remain exercisable for ten years after the grant date, and 1/3 RSUs that are subject to a three-year, service-based cliff vesting schedule. Time-based RSUs vest 100% on the third anniversary of the award date provided that the NEO is employed by the Company as of the vesting date, except in the event of death, permanent disability or termination as a result of a change in control (as defined in the 2008 Stock Incentive Plan), upon which vesting of RSUs will accelerate. If the NEO participant attains retirement as defined in the Celgene 2008 Stock Incentive Plan and has given at least six months' notice of the intent to retire, as of the date of retirement, options will continue to vest and will remain exercisable until the earlier of three years after retirement or the original expiration date (except with respect to our CEO, whose equity awards will immediately vest in accordance with his employment agreement). RSUs granted on or after April 29, 2013 will vest on retirement, but will be payable on the earlier of death or the originally scheduled vesting date following retirement (except with respect to our CEO, whose equity awards will immediately vest in accordance with his employment agreement); unvested RSUs granted prior to April 29, 2013 cancel upon retirement unless a prior alternative arrangement has been approved by the Compensation Committee.

The Compensation Committee has weighted the awards more toward stock options as these awards accrue value only when the market price of our Common Stock is above the exercise price, placing an emphasis on stock performance which aligns our executives' interests to those of our stockholders. Additionally, the smaller weighting of RSUs allows the Compensation Committee to deliver equivalent value while using fewer authorized shares for awards under our 2008 Stock Incentive Plan. The Compensation Committee may adjust the mix of award types or approve different award types, as part of the overall long-term incentive award strategy. Awards made in connection with a new, extended or expanded employment relationship may involve a different mix of equity vehicles depending on the Compensation Committee's assessment of the total compensation package being offered.

Long-Term Incentive Plan (LTIP)

The LTIP is a three-year plan designed to focus executives on achievement of longer-term objectives that are intended to ensure strength in our long-term financial, commercial and research and development positions. An additional objective of the LTIP is to promote management continuity in key functional areas. Prior to the commencement of each three-year plan (each called a "performance cycle"), the Compensation Committee establishes three key corporate-wide metrics against which performance will be measured. These objectives are weighted and awards earned under the LTIP are calculated based on actual performance of the objectives in relation to these weighted objectives.

The threshold, target and maximum cash payout levels under the three current LTIP performance cycles are calculated as a percentage of each NEO's base salary at the time the LTIP was approved by the Compensation Committee. Share-based payout levels are calculated using the cash-based threshold, target and maximum levels, divided by the average closing price of Celgene stock for the 30 trading days prior to the commencement of each performance cycle.

Share-based payout levels remain constant throughout the performance cycle. Therefore, final award values are reflective of the stock price at the end of the measurement period. More information is provided below under “Key 2013 Compensation Actions and Program Highlights.”

We have three separate performance cycles running concurrently for 2012–2014, 2013–2015, and 2014–2016 that will end December 31, 2014, 2015 and 2016, respectively. For each performance cycle, there are three performance measures: non-GAAP EPS (37.5% weighting), non-GAAP total revenue (37.5% weighting) and R-TSR (25% weighting). For purposes of

Table of Contents

the LTIP, R-TSR is calculated as the percent change in our stock price at the beginning and the end of the measurement period compared to the total stockholder return of the top 35 companies in the biopharmaceutical industry (defined by market capitalization prior to the commencement of the applicable performance cycle, as suggested by Radford and approved by the Compensation Committee) and expressed as a percentile. For the 2012–2014 and 2013–2015 performance cycles, the threshold, target and maximum levels for R-TSR are at the 50th and 90th percentiles, respectively. If our R-TSR is below the 50th percentile, there will be no payout associated with this measure. For the 2014–2016 performance cycle, the threshold, target and maximum levels for R-TSR have been adjusted to reflect prevailing industry measures and are at the 35th, 50th and 80th percentiles, respectively. If our R-TSR is below the 35th percentile, there will be no payout associated with this measure. The Compensation Committee believes that these three performance measures properly align executive pay with the interests of our stockholders while achieving a balanced approach to performance-based long-term incentives by focusing executive pay on internal financial measures, as well as on the external measurement of stock performance in relation to industry peers.

Payments under the LTIP may be made in cash or stock, or a combination thereof, as determined by the Compensation Committee in its sole discretion at the end of the relevant performance cycle. Payments, if made, are deferrable for our U.S.-based plan participants. For our NEOs participating in the three current LTIP performance cycles, it is the intention of the Compensation Committee to settle in shares. If the LTIP settles in shares, such shares will be subject to a three-year trading restriction. Specific data pertaining to performance targets, individual targets and resulting payments under the LTIP can be found elsewhere in this proxy statement under the “Key 2013 Compensation Actions and Program Highlights” section.

Other Elements of Compensation**Retirement Benefits**

We do not offer pension benefits to our NEOs. Instead, we provide the opportunity to accumulate retirement income through:

• **Equity Awards** (described elsewhere in this proxy statement).

• **Nonqualified Plan:** The Nonqualified Plan is an unfunded plan to which certain U.S.-based management-level employees and each of our NEOs may elect to defer up to 90% of their base salary and up to 100% of their MIP and LTIP payments. For fiscal 2013, we made semi-monthly cash matching contributions to the Nonqualified Plan on behalf of Mr. Hugin at a rate of up to 15% of his gross base salary earnings. Ms. Fouse, Dr. Daniel and Messrs. Alles and Karsen are not eligible to receive matching contributions under the Nonqualified Plan. For further discussion of the Nonqualified Plan, see “Additional Information Regarding Executive Officers — Nonqualified Deferred Compensation Table” elsewhere in this proxy statement.

• **401(k) Plan:** We make matching contributions under our 401(k) Plan in the form of shares of our Common Stock to the Plan accounts of all eligible employees who participate in the 401(k) Plan, including our NEOs.

Other Benefits

We provide our NEOs health and welfare benefits that are consistent with the plans, programs and eligibility provided to other employees. Additionally, we offer the NEOs reimbursement for professional tax and financial counseling of up to \$15,000 per calendar year, which alleviates concerns with respect to tax preparation and financial planning, with the goal of minimizing distractions to the effective management of our business. We also offer excess liability insurance premiums to our NEOs consistent with those offered to other senior-level employees.

Employment Agreements

We entered into an employment agreement with Mr. Hugin effective May 1, 2006, which was amended to comply with the deferred compensation rules under Section 409A of the Internal Revenue Code of 1986, as amended (the Code), effective on December 31, 2008. Effective on June 16, 2010, Mr. Hugin’s employment agreement was further amended to reflect his appointment as Chief Executive Officer. We also entered into letter agreements with each of Ms. Fouse, Dr. Daniel and Messrs. Alles and Karsen. In April 2014, at Mr. Hugin's suggestion, his employment agreement was amended to eliminate his golden parachute (Code Section 280G) excise tax gross-up provision and to provide that if Mr. Hugin becomes entitled to any amounts subject to the excise tax under Section 4999 of the Code relating to golden parachute payments, such amounts will be reduced to the extent necessary to avoid such excise tax

if such reduction would result in a greater after tax payment (commonly referred to as a "contingent cutback"). Our other NEOs are not entitled to golden parachute (Code Section 280G) excise tax gross-ups. If Ms. Fouse or Mr. Karsen becomes entitled to any amounts subject to the excise tax under Code Section 4999 relating to golden parachute payments, such amounts will be subject to a contingent cutback. We discuss the terms and conditions of these agreements elsewhere in this proxy statement under the heading "Additional Information Regarding Executive Officers — Agreements with our Named Executive Officers."

Key 2013 Compensation Actions and Program Highlights

In fiscal 2013, the Compensation Committee approved certain adjustments to compensation and awards and payouts for each NEO based on performance in relation to pre-approved objectives established under each compensation program as described elsewhere in this proxy statement.

Base Salary

In its capacity as consultant, each year, Radford provides an analysis of the competitive landscape within our industry and our peer group as additional context in which the Compensation Committee approves salaries for our NEOs. The table below outlines the salary adjustments determined for our NEOs in fiscal 2013 (for fiscal 2012 performance) and fiscal 2014 (for fiscal 2013 performance).

NEO	2012 Salary	2013 Salary	Effective Date of Salary Adjustment	2014 Salary	Effective Date of Salary Adjustment

Annual Bonus (MIP) Payout for Fiscal 2013

At its December 2012 meeting, the Compensation Committee determined that non-GAAP diluted EPS, non-GAAP total revenue and certain non-financial measures were appropriate measures for use in connection with the fiscal 2013 MIP and approved these targets for the fiscal 2013 MIP. The Compensation Committee believes that these measurements reflect management's focus and true operating performance. We believe these measures, balanced with our long-term objective of maintaining a significant research and development reinvestment rate, fuel our long-term growth.

In setting these objectives, we considered our fiscal 2012 performance and established the fiscal 2013 targets considering our long-term strategic plan and our commitment to deliver strong financial results to our stockholders. The corporate performance measures for fiscal 2013 were based on the following components, which were weighted as follows:

56% Financial Objectives

28% on non-GAAP total revenue — Target of \$6.0 billion; and

28% on non-GAAP diluted EPS — Range of \$5.40 to \$5.60 per share.

44% Non-Financial Objectives (Selected Strategic Corporate Objectives)

- advancement of our hematology clinical & regulatory pipeline: REVLIMID® in multiple myeloma and lymphoma; POMALYST® in multiple myeloma;
- advancement of our oncology clinical & regulatory pipeline: ABRAXANE® in pancreatic cancer and melanoma;
- advancement of our immune & inflammation clinical & regulatory pipeline: apremilast in psoriatic arthritis, psoriasis and ankylosing spondylitis; and
- clinical advancement of early stage product candidates.

For fiscal 2013, all of our NEOs received cash bonus payments entirely determined by the achievement of corporate goals, as evaluated by the Compensation Committee in its sole discretion.

We have not disclosed all of the non-financial targets or performance in relation to those targets for the fiscal 2013 MIP performance period because we believe that disclosing certain non-financial performance targets for the plan would result in competitive harm to us. Such information represents confidential business information that could place us at a competitive disadvantage by providing detailed insight into our strategic and financial goals.

Based on our full year financial results, the Compensation Committee determined that the MIP for fiscal 2013 was 160.75%, which includes both financial and non-financial performance, with weighted scores of 108% and 52.75%, respectively. These fiscal 2013 financial achievements include non-GAAP diluted EPS of \$5.96 and non-GAAP total revenue (which was the same as GAAP total revenue) of \$6.494 billion. Among the achievements in the clinical area were the progression of multiple key strategic studies both domestically and internationally, and the deepening of our

pipeline through strategic external collaborations.

Table of Contents

Financial measures that are not defined by GAAP provide investors and management with supplemental measures of operating performance and trends that facilitate comparisons between periods before, during and after certain items that would not otherwise be apparent on a GAAP basis. For purposes of calculating our non-GAAP financial measures, we exclude certain items that management and the Compensation Committee do not believe affect our basic operations and do not meet the GAAP definition of unusual or non-recurring items. Non-GAAP total revenue, non-GAAP net income and non-GAAP diluted earnings per share are not, and should not be viewed as, a substitute for similar GAAP items. The following is a discussion of the differences between each non-GAAP financial measure included in this proxy statement with the most comparable financial measure calculated and presented in accordance with GAAP:

Non-GAAP total revenue of \$6.494 billion was the same as GAAP total revenue in fiscal 2013.

Non-GAAP net income of \$2.563 billion vs. GAAP net income of \$1.450 billion in fiscal 2013. The difference between the two figures is primarily attributable to (i) the effects of charges for share-based employee compensation expense, (ii) amortization of intangible assets and other charges resulting from the acquisitions of Abraxis BioScience Inc. (Abraxis), Pharmion, Gloucester Pharmaceuticals, Inc. (Gloucester) and Celgene Avilomics Research, Inc. (formerly known as Avila Therapeutics) (Avila), (iii) research charges related to certain collaborative arrangements, (iv) expense recorded for the net increase in the fair value of contingent consideration issued as part of the Abraxis, Gloucester and Avila acquisitions, (v) impairment expense related to a royalty receivable asset that was received in 2011 as partial consideration in the sale of non-core assets obtained by Celgene in the acquisition of Abraxis, and (vi) the estimated tax effect of the above adjustments and the impact of certain other non-operating tax adjustments, including one-time effects of acquisition related matters, adjustments to the amount of unrecognized tax benefits and deferred taxes on unremitted foreign earnings. Each of items (i) through (vi) are excluded from the non-GAAP figure, but included in the GAAP figure.

Non-GAAP diluted earnings per share of \$5.96 vs. GAAP diluted earnings per share of \$3.37 in fiscal 2013. The difference between the two figures is primarily attributable to the effect of net income items (i) through (vi) listed above. Each of such items (i) through (vi) are excluded from the non-GAAP figure but included in the GAAP figure. For a reconciliation of the non-GAAP financial measures to the most comparable financial measure calculated and presented in accordance with GAAP for fiscal 2013, see Appendix A to this proxy statement.

Under the MIP, the Compensation Committee may adjust, modify or amend the performance measures and targets in the plan to reflect certain events that affect such performance measures and targets, including (i) restructurings, discontinued operations, extraordinary items or events, corporate transactions (including dispositions or acquisitions) and other unusual or non-recurring items, and (ii) changes in tax law or accounting standards required by GAAP.

LTIP Plan

During fiscal 2013, our eligible NEOs received an award for the 2010–2012 performance cycle, based on overall achievement under the plan of 200% of target, the details of which have been disclosed in other public filings. Due to her September 27, 2010 date of hire, Ms. Fouse was not eligible to participate in the 2010–2012 LTIP and consequently did not receive a payout for that performance cycle. We have not disclosed the specific performance targets under the LTIP because these targets represent confidential business information that could place us at a competitive disadvantage by providing insight into our long-term performance and financial goals. Additionally, the LTIP is unique among our peers and as a result, we believe that disclosing the targets will give our competitors insight into the plan and thus an unfair advantage in potentially recruiting our leadership talent.

The threshold, target and maximum payout levels for the 2011–2013 LTIP plan, as well as performance and resultant payouts are discussed elsewhere in this proxy statement.

Our NEOs are also eligible to receive an award for each of the three separate three-year performance cycles that have not been completed (i.e., 2012–2014, 2013–2015, and 2014–2016). For our NEOs participating in the three current LTIP performance cycles, it is the intention of the Compensation Committee to settle in shares. If the LTIP settles in shares, such shares will be subject to a three-year trading restriction. The targets under the LTIPs are expressed as a percentage of the NEO's annual base salary at the time the LTIP was approved by the Compensation Committee, as follows:

2012–2014 Performance Period

The potential payouts (in either cash or shares, as determined by the Compensation Committee), expressed as the NEO's base salary multiplied by the applicable percentage (threshold, target or maximum), under the LTIP for the 2012–2014 performance period are as follows:

Name	Threshold(1)(4)	Target(2)(4)	Maximum(3)(4)
Robert J. Hugin	\$537,500 8,433 shares	\$1,343,750 21,082 shares	\$2,150,000 33,731 shares

Perry A. Karsen	\$300,000 4,707 shares	\$600,000 9,413 shares	\$1,200,000 18,826 shares

(1) The threshold cash payout is 50% of 2011 base salary for all of our NEOs.

(2) The target cash payout is 125% of 2011 base salary for Mr. Hugin and 100% for Ms. Fouse, Dr. Daniel and Messrs. Alles and Karsen.

(3) The maximum cash payout is 200% of 2011 base salary for all of our NEOs.

(4) Share-based threshold, target and maximum payout levels for all of our NEOs are determined using the average closing price of our Common Stock for the 30 trading days immediately prior to the commencement of the measurement period which began on January 1, 2012.

2013–2015 Performance Period

The potential payouts (in either cash or shares, as determined by the Compensation Committee), expressed as the NEO's base salary multiplied by the applicable percentage (threshold, target or maximum), under the LTIP for the 2013–2015 performance period are as follows:

Share-based threshold, target and maximum payout levels for all of our NEOs are determined using the average (4) closing price of our Common Stock for the 30 trading days immediately prior to the commencement of the measurement period which began on January 1, 2013.

2014–2016 Performance Period

At the conclusion of the 2011–2013 performance cycle, the Compensation Committee approved the performance in relation to the pre-established measures, consisting of three financial performance objectives: (1) non-GAAP diluted EPS target (weighting of 25%), (2) non-GAAP net income target (weighting of 25%), and (3) non-GAAP total revenue target (weighting of 50%). The 2011–2013 LTIP payouts were made in restricted shares of common stock based on achievement of 149.8% of performance objectives as determined by the Compensation Committee.

Our policy with respect to the deductibility limit of Section 162(m) of the Code generally is to preserve the federal income tax deductibility of compensation paid when it is appropriate and is in our best interest. We reserve the right to authorize the payment of non-deductible compensation if we deem that it is appropriate to do so under the circumstances.

(1) No bonuses are reportable under column (d) but rather are included as non-equity incentive plan compensation under column (g).

The value of RSU awards in column (e) and stock options in column (f) equals the fair value at date of grant, disregarding for this purpose the estimate of forfeitures related to service-based vesting conditions. The value is calculated in accordance with FASB ASC 718. Amounts reflected in columns (e) and (f) of the Summary

(2) Compensation Table include awards with time-based vesting. The assumption used in determining the grant date fair values of these RSU and option awards for their respective years are set forth in note 14 to our consolidated financial statements included in our Annual Report on Form 10-K for fiscal 2013 filed with the SEC.

The amounts in column (g) reflect the aggregate cash awards to the NEOs under the fiscal 2013, fiscal 2012 and fiscal 2011 MIP and the 2011–2013, 2010–2012 and 2009–2011 performance cycles under the LTIP. The 2011–2013 LTIP was paid in shares of our Common Stock with a three-year hold and the dollar value of that stock award on the share delivery date is reflected in this amount. The payouts of the cash compensation awards under the fiscal

(3) 2013 MIP and the 2011–2013 performance cycle under the LTIP were approved by the Compensation Committee on January 29, 2014 and paid shortly thereafter. The MIP and the LTIP are discussed in further detail under the heading “Key 2013 Compensation Actions and Program Highlights” and which, for purposes of this Summary Compensation Table, have been characterized as “Non-Equity Incentive Plan Compensation” under this column (g) rather than “Bonus” under column (d).

(4) We do not have a pension plan for our NEOs. Under our Nonqualified Plan, there are no above-market or preferential earnings.

* Reflects company matching contributions for Mr. Hugin.

** The value of the matching contributions to the 401(k) Plan is based on the number of shares of Common Stock multiplied by the closing price of our Common Stock on December 31 of the respective year.

With respect to Dr. Daniel, reflects Company-paid costs in the amount of \$51,918.89 and a tax gross-up in the amount of \$26,686.51 provided to Dr. Daniel in fiscal 2013 in conjunction with housing accommodations in New Jersey. In fiscal 2012, reflects Company paid costs in the amount of \$50,276 and a tax gross-up in the amount of \$29,124 provided to Dr. Daniel in conjunction with housing accommodations in New Jersey in fiscal 2012. With respect to Mr. Hugin, reflects the value of an honorarium given to a retired employee by Mr. Hugin that was paid for by the Company and that was included in Mr. Hugin's compensation in fiscal 2011.

(6) Mr. Hugin serves as a member of the Board of Directors but does not receive any compensation in such capacity.

Agreements with our Named Executive Officers

Employment Agreement with Mr. Hugin

Effective as of May 1, 2006, we entered into a new employment contract with Mr. Hugin, which was subsequently amended effective December 31, 2008 solely for the purpose of addressing the deferred compensation requirements under Section 409A of the Code, and effective on June 16, 2010 in connection with Mr. Hugin's becoming Chief Executive Officer. In April 2014, at Mr. Hugin's suggestion, his employment agreement was amended to eliminate his golden parachute (Code Section 280G) excise tax gross-up provision and to provide that if Mr. Hugin becomes entitled to any amounts subject to the excise tax under Section 4999 of the Code relating to golden parachute payments, such amounts will be reduced to the extent necessary to avoid such excise tax if such reduction would result in a greater after tax payment.

The employment agreement had an initial term of three years. Mr. Hugin's employment agreement will automatically extend for successive one-year terms unless either we or Mr. Hugin provide written notice to the other, at least six months prior to the expiration of the then term, of such party's intention to terminate his employment at the end of such

term, unless terminated sooner as provided in Mr. Hugin's employment agreement.

The following is a summary of other provisions of Mr. Hugin's employment agreement, which is qualified in its entirety by reference to the full employment agreement:

Table of Contents

If Mr. Hugin's employment is terminated due to his disability or incapacitation or for any reason other than by us for "cause," or due to his death, Mr. Hugin is entitled to receive a lump sum payment equal to Mr. Hugin's then annual base salary, a pro rata share of Mr. Hugin's annual target bonus (based on the assumption that all performance or other criteria had been met) and certain accrued benefits. Further, if Mr. Hugin's employment is terminated by us without "cause" or because of disability or incapacitation or by Mr. Hugin for "good reason" at any time during the two-year period following a "change in control" or if Mr. Hugin's employment is terminated by us without "cause" or by Mr. Hugin for "good reason" during the 90-day period prior to a "change in control," Mr. Hugin is entitled to receive a lump sum payment equal to three times Mr. Hugin's then annual base salary plus three times Mr. Hugin's highest annual bonus paid within the three years prior to the change in control, certain accrued benefits, payment of health and welfare premiums for Mr. Hugin and his dependents for three years or, in certain instances, substitute arrangements on a similar tax basis and, upon the occurrence of a "change in control," full and immediate vesting of all stock options and equity awards; provided that such payment will be reduced by any payment made to Mr. Hugin prior to the "change in control" on account of Mr. Hugin's termination.

Mr. Hugin is subject to a non-competition provision which applies during the period he is employed by us and until the first anniversary of the date his employment terminates (or, if change in control payments and benefits are paid, generally the second anniversary of the later of the date his employment terminates or the change in control date). In addition, the employment agreement contains a patent/inventions provision and a perpetual confidentiality provision. For purposes of Mr. Hugin's employment agreement, "cause" generally means:

- the conviction of a crime involving moral turpitude or a felony;
- acts or omissions taken in bad faith and to the detriment of the Company; or
- a breach of any material term of such agreement.

For purposes of Mr. Hugin's employment agreement, "good reason" generally means, without Mr. Hugin's consent:

- the failure to elect or appoint Mr. Hugin to, or re-elect or reappoint Mr. Hugin to, or removal of Mr. Hugin from, his position with the Company or as a member of the Board of Directors;
- a significant change in the nature or scope of the authorities, powers, functions, duties or responsibilities normally attached to Mr. Hugin's position;
- a determination by Mr. Hugin made in good faith that, as a result of a change in control, he is unable effectively to carry out the authorities, powers, functions, duties or responsibilities attached to his position;
- a breach by the Company of any material provision of the agreement;
- a reduction in annual base salary;
- a 50-mile or greater relocation of the Company's principal office;
- the failure of the Company to continue any health or welfare plan, employee benefit plan, pension plan, fringe benefit plan or compensation plan in which Mr. Hugin is participating immediately prior to a change in control, unless Mr. Hugin is provided substantially comparable benefits at no greater after-tax cost or the Company's taking any action which adversely affects Mr. Hugin's participation in or which reduces Mr. Hugin's benefits under any such plan; or
- the failure of a successor to assume the agreement.

For purposes of Mr. Hugin's employment agreement, "change in control" generally means:

- any person becomes the beneficial owner of Company securities which represent 30% of the total combined voting power of the Company's then outstanding securities;
- a merger, consolidation or other business combination of the Company;
- the persons who are members of the Board of Directors during any consecutive two year period cease to constitute at least a majority of the Board of Directors; or
- the approval by the stockholders of the Company of any plan of complete liquidation of the Company or an agreement for the sale of all or substantially all of the Company's assets.

The definition of "change in control" that applies if Mr. Hugin is terminated by the Company without cause or by Mr. Hugin for good reason during the 90-day period prior to a "change in control" is the definition provided in the

Treasury regulations under Section 409A of the Code, which eliminates, among other things, the approval by the Company's stockholders of any plan of complete liquidation.

Letter Agreement with Ms. Fouse

On August 18, 2010, effective September 27, 2010, we entered into an employment letter agreement with Ms. Fouse. The letter agreement provides for an initial base salary of \$700,000 and a target incentive under the MIP equal to 65% of eligible base salary earnings (as defined in the MIP) (up to a maximum of 200%). The letter agreement provided that Ms. Fouse would receive a one-time grant of options to purchase 125,000 shares of Common Stock and 16,500 RSUs and an annual grant of options to purchase 45,000 shares of Common Stock and 7,800 RSUs. The stock options are subject to service-based vesting over four years and the RSUs are subject to a three year service-based cliff vesting schedule. Ms. Fouse is entitled to participate in our Deferred Compensation Plan and she received a one-time cash contribution into her non-qualified deferred compensation account of \$1,000,000 with a three-year ratable vesting schedule. Ms. Fouse also is entitled to reimbursement for reasonable expenses incurred in obtaining professional tax and financial counseling up to a maximum of \$15,000 annually. The letter agreement also provides that Ms. Fouse is entitled to participate in our U.S. comprehensive health and welfare benefit programs. The letter agreement also provides that if Ms. Fouse's employment is terminated by us for any reason other than for cause, she would be entitled to receive a lump sum payment equal to 12 months' base salary and bonus plus continuation of benefits, less applicable taxes. Further, the letter agreement provides that in the event of a change in control Ms. Fouse would be entitled to receive a lump sum payment equal to 18 months' base salary and bonus plus continuation of benefits, less applicable taxes, and that her unvested stock options and RSUs would become fully vested if her employment is terminated in connection with a change in control. If Ms. Fouse becomes entitled to any amounts subject to the excise tax under Code Section 4999 relating to golden parachute payments, such amounts will be reduced to the extent necessary to avoid such excise tax if such reduction would result in a greater payment amount to Ms. Fouse. We do not have any separate change in control agreements or arrangements with Ms. Fouse.

Letter Agreement with Mr. Alles

During 2012, Mr. Alles was elevated to the roles of Executive Vice President and Chief Commercial Officer (and later in 2012 to Executive Vice President and Global Head, Hematology and Oncology) responsible for the commercial operations of the Company. Commensurate with that promotion, we amended the terms of an earlier employment letter agreement with Mr. Alles. Under the amended terms, Mr. Alles is entitled to an annual base salary of \$650,000 and a target incentive under the MIP equal to 60% of eligible base salary earnings (as defined in the MIP) (up to a maximum of 200% of target). The amended terms also provide that Mr. Alles would receive on March 1, 2012 a one-time grant of options to purchase 12,500 shares of Common Stock and a grant of 4,167 RSUs, and a fiscal 2012 grant of options to purchase 33,300 shares of Common Stock and a grant of 5,600 RSUs. The stock options are subject to service-based vesting over four years and the RSUs are subject to three-year service-based cliff vesting. Mr. Alles is also entitled to participate in our Deferred Compensation Plan. If Mr. Alles' employment is terminated by us for any reason other than for cause, he would be entitled to receive a lump sum payment equal to 12 months' base salary, less applicable taxes, and per the terms of the MIP, if his employment is terminated by us for reasons other than cause, he would be entitled to a prorated MIP bonus at target. The letter agreement also provides that Mr. Alles is entitled to participate in our employee benefit programs. We do not have any separate change in control agreements or arrangements with Mr. Alles.

Letter Agreement with Dr. Daniel

The stock options are subject to service-based vesting over four years and the RSUs are subject to three-year service-based cliff vesting. Dr. Daniel is also entitled to participate in our Deferred Compensation Plan. If Dr. Daniel's employment is terminated by us for any reason other than for cause, he would be entitled to receive a lump sum payment equal to 12 months' base salary and bonus, less applicable taxes. The letter agreement also provides that Dr. Daniel is entitled to participate in our employee benefit

programs. We do not have any separate change in control agreements or arrangements with Dr. Daniel.

In the event of a change of control, if Mr. Karsen becomes entitled to any amounts subject to the excise tax under Code Section 4999 relating to golden parachute payments, such amounts will be reduced to the extent necessary to avoid such excise tax if such reduction would result in a greater payment amount to Mr. Karsen. The letter agreement also provides that Mr. Karsen is entitled to participate in our employee benefit programs. We do not have any separate change in control agreements or arrangements with Mr. Karsen.

“Comm Action” refers to the date the Compensation Committee voted to approve the fiscal 2013 stock option and (1)RSU grants listed in column (b) with respect to stock options and RSUs granted under the 2008 Stock Incentive Plan.

The amounts reflected in columns (c), (d) and (e) represent the estimated target range of the future payout for the LTIP for each NEO, which was established by the Compensation Committee on December 12, 2012. These amounts may be earned after completion of the 2013–2015 LTIP performance cycle, due to the NEO’s status as an eligible participant in 2013 if the threshold, target or maximum goals are satisfied for at least one performance measure. The potential payouts are performance-driven and therefore completely at risk. Awards under the (2) 2013–2015 cycle are payable in cash or shares at the discretion of the Compensation Committee. For additional information regarding LTIP awards, see “Key 2013 Compensation Actions and Program Highlights — LTIP Plan” under the “Compensation Discussion and Analysis.” See footnote 3 to the Summary Compensation Table for the actual amounts that were approved by the Compensation Committee on January 29, 2014 and paid to the NEOs shortly thereafter under the 2011–2013 LTIP performance cycle.

The amounts reflected in columns (c), (d) and (e) include the potential target and maximum payouts of the awards granted in fiscal 2013 to each NEO under the MIP, which were established by the Compensation Committee on February 12, 2013. See “Key 2013 Compensation Actions and Program Highlights — Annual Bonus (MIP) Payout for (3)Fiscal 2013” under the heading “Compensation Discussion and Analysis” for more information regarding the bonus targets under the MIP. See footnote 3 to the Summary Compensation Table for the actual amounts that were approved by the Compensation Committee on January 29, 2014 and paid to the NEO shortly thereafter under the MIP. The maximum MIP for each of our NEOs is 200% of the annual bonus target.

All stock options and RSUs granted in fiscal 2013 were granted pursuant to our 2008 Stock Incentive Plan. All (4)options were granted at the fair market value of Common Stock on the effective date of grant. All RSUs vest in full on the third anniversary of the grant date.

(5) This column reflects the closing price of the shares of our Common Stock on the date of the grant, which equals the exercise price for the stock options granted and the grant date fair value per share of RSUs granted.

(6) This column reflects the full grant date fair value of stock options and RSUs computed in accordance with FASB ASC 718, disregarding for this purpose the estimate of forfeitures related to service-based vesting conditions, granted to the NEO in fiscal 2013. The actual value, if any, that a NEO may realize upon exercise of stock options will depend on the excess of the stock price over the base value on the date of exercise, so there is no assurance that the value realized by a NEO will be at or near the value computed in accordance with FASB ASC 718. The assumptions used in determining the grant date fair values of these

awards are set forth in note 14 to our consolidated financial statements, which are included in our Annual Report on Form 10-K for fiscal 2013 filed with the SEC.

OUTSTANDING EQUITY AWARDS VALUE AT FISCAL YEAR-END TABLE

The following tables provide information on holdings of stock options and stock awards as of December 31, 2013, by our Named Executive Officers. Each equity grant is shown separately for each NEO. For additional information about the option awards, see “Compensation Discussion and Analysis — Equity Grants under our 2008 Stock Incentive Plan” elsewhere in this proxy statement.

- (1) Represents vested options under the 1992 Long-Term Incentive Plan and the 2008 Stock Incentive Plan. Pursuant to the 2008 Stock Incentive Plan, options granted to employees (including the NEOs) are immediately exercisable. The shares of Common Stock acquired upon exercise would be subject to the same vesting schedule as the underlying options (i.e., in four equal annual installments beginning on the first anniversary of the grant date).
- (2) Pursuant to the 2008 Stock Incentive Plan, RSUs granted to the NEOs vest in full on the third anniversary of the grant date.
- (3) Represents the number of unvested RSUs multiplied by the closing price of the shares on December 31, 2013.

- (1) Stock options granted under the 2008 Stock Incentive Plan vest in four equal annual installments beginning on the first anniversary of the grant date. The value realized when the stock options were exercised represents the excess

of the fair market value of the shares at the time of exercise over the exercise price of the stock options.
Value realized on vesting represents (i) the number of RSUs that vested during fiscal 2013 multiplied by the market price of our Common Stock on the respective vesting dates plus (ii) the number of shares acquired on vesting with respect to the Company's matching contribution to the 401(k) Plan multiplied by the closing price of our Common Stock on December 31, 2013.

(1) The amounts reported in column (b) reflect deferrals under the Nonqualified Plan of base salary and/or bonus earned by and paid to the applicable NEO in fiscal 2013. A portion of the amounts reported as salary and/or bonus in the Summary Compensation Table, column (c) and/or (g), respectively, were deferred by Mr. Hugin, Ms. Fouse and Dr. Daniel in fiscal 2013 as follows: with respect to Mr. Hugin \$189,375 of salary and \$834,651.67 of bonus; with respect to Ms. Fouse \$226,000 of salary and with respect to Dr. Daniel \$240,188 of bonus and \$275,808 of his 2010–2012 LTIP payment.

(2) The amounts reported in column (c) for the applicable NEOs are also reported and included within “all other compensation” in the “Summary Compensation Table,” column (i).

(3) None of the amounts reported in column (d) for the applicable NEOs is reported as compensation in the “Summary Compensation Table.”

(4) The amounts reported in column (f) for the applicable NEOs include previously earned, but deferred, salary and bonus and the value of Company matching contributions that were reported in our Summary Compensation Table in previous years as follows: (i) \$1,016,849 in fiscal 2012, and \$1,073,000 in fiscal 2011 with respect to Mr. Hugin; (ii) \$799,431 in fiscal 2012, and \$210,000 in fiscal 2011 with respect to Ms. Fouse; and (iii) \$414,153 in fiscal 2012 with respect to Dr. Daniel. The total in this column reflects the cumulative value of each NEO’s deferrals, Company matching contributions and investment experience. The amounts reported in column (f) above are also disclosed as “Nonqualified Plan” payments in the tables included in the section entitled, “Potential Payments Upon Termination or Change in Control” for each applicable NEO.

The Nonqualified Plan is an unfunded nonqualified deferred compensation plan to which our U.S. NEOs may elect to defer up to 90% of their base salary and up to 100% of other types of compensation (i.e., LTIP awards, MIP awards, and retention and new hire deferred bonuses). Generally, a deferral election must be made no later than December 31 of the previous year, and is irrevocable. Deferrals with respect to salary are deducted from the participant’s salary in equal installments for the period of January 1 to December 31 of each year. These deferral elections are for the salary earned by the participant for the particular salary pay period during that year, which would otherwise be payable to the participant in such pay period. The election to defer salary under the Nonqualified Plan is in addition to any deferral election made by the participant under our 401(k) Plan. Deferrals for performance-based annual bonuses are for those bonuses earned during the year in question, which are payable the following year. The performance-based annual bonus deferral elections may be modified or revoked before June 30 of the year in question.

The Nonqualified Plan authorizes us to make matching contributions at our sole discretion. Currently, the Nonqualified Plan provides for matching contributions up to a maximum of 15% of gross base salary earnings of Mr. Hugin, provided he is actively enrolled in the Plan. The participant is 100% vested at all times in his or her deferred cash account, and matching contributions vest in accordance with the vesting schedule specified by the Compensation Committee at the time the contribution is made.

The Nonqualified Plan credits gains and losses to deferral amounts based upon “deemed” investments in mutual funds investing in equity instruments or debt securities chosen by each participant (which the participant may change at any time) from a “menu” of fund options provided by us. The investment returns credited to participants’ accounts in the Nonqualified Plan correspond to actual returns of the chosen funds. The performance of the mutual funds fluctuates with the conditions of the capital markets and the economy generally, and is affected by prevailing interest rates and credit risks. The investment options under the Nonqualified Plan include:

The Nonqualified Plan provides for payment of deferred compensation and earnings thereon. A distribution is made upon a participant's separation from service with us, his or her "retirement" (i.e., a participant's attainment of age 55), a date specified by the participant in his or her compensation deferral agreement, the death of a participant (in such a case, to the designated beneficiary) or a "change in control." Distributions upon a separation from service may be made in a lump sum or in annual installments of two to 15 years, as elected by the participant. A participant may elect to receive up to three "in-service" distribution dates in a lump sum or two to five annual installments. Payments made on a participant's separation from service will begin on the first day of the seventh month following the date of separation from service. If a participant dies before installment payments have commenced, a lump sum will be distributed to the participant's beneficiary as soon as administratively feasible thereafter, to the extent no adverse tax consequences are triggered under Section 409A of the Code. If a participant dies after the date distributions have commenced, then installment payments shall continue to be distributed to such participant's beneficiary in accordance with the participant's election. Loans are not permitted under the Nonqualified Plan, although distributions are permitted in the case of certain emergencies.

The Nonqualified Plan is intended to provide participants with a tax deferral opportunity for compensation paid by us. The deferred amounts are not subject to income tax or income tax withholding when earned and deferred, but are fully taxable (and withheld appropriately) when distributed.

Potential Payments upon Termination or Change in Control

The following tables summarize the value of the termination payments and benefits that Mr. Hugin, Ms. Fouse, Dr. Daniel and Messrs. Alles and Karsen would have received if they had terminated employment or if a change in control of the Company occurred on December 31, 2013 under the circumstances shown. For further description of the employment agreements governing these payments, see "Additional Information Regarding Executive Officers — Agreements with our Named Executive Officers." The tables exclude (i) amounts accrued through December 31, 2013 that would be paid in the normal course of continued employment, such as accrued but unpaid salary and earned annual bonus for fiscal 2013, (ii) vested account balances under our 401(k) Plan that is generally available to all of our employees and (iii) any post-employment benefit that is available to all of our salaried employees and does not

discriminate in favor of the NEOs.

Executive is entitled to receive the payments and benefits set forth in this section if his employment is terminated:

DIRECTOR COMPENSATION

All members of the Board of Directors who are not our employees, or the non-employee directors, currently receive an annual retainer of \$75,000 per year, payable quarterly in arrears. In addition, all non-employee directors are eligible to receive stock options and RSUs pursuant to the 2008 Stock Incentive Plan as amended and described below.

In addition, the independent Lead Director receives \$35,000, the Chairman of the Audit Committee receives \$30,000, the Chairman of the Compensation Committee receives \$25,000 and the Chairman of the Nominating Committee receives \$15,000 in annual cash compensation. Each member of the Audit Committee (other than the Chairman) receives \$15,000, each member of the Compensation Committee (other than the Chairman) receives \$12,500, each member of the Nominating Committee (other than the Chairman) receives \$7,500 and each non-employee member of the Executive Committee receives \$5,000 in annual cash compensation. The Compensation Committee did not recommend changes to director compensation in fiscal 2013 with the exception of increasing the non-employee director ownership guidelines to a 5x multiple.

In February, 2014, the Compensation Committee reviewed non-employee director compensation and determined that the current level of cash compensation, while under prevailing market rates for peer companies, continues to be appropriate. The Compensation Committee believes that compensation delivered primarily through equity weighted more toward stock options maintains pay-at-risk for our non-employee directors, and aligns to stockholder interests and our pay-for-performance culture. Under our 2008 Stock Incentive Plan, the Compensation Committee currently grants equity awards to non-employee directors as follows:

upon initial election or appointment to the Board of Directors, a non-employee director will be granted nonqualified stock options, the amount of which will be determined by the Compensation Committee at the time of appointment; and

upon re-election as a member of the Board of Directors, non-employee directors will be granted nonqualified stock options to purchase 20,700 shares of Common Stock and 2,200 RSUs. These awards will be granted on July 1, 2014 in order to reflect the stock split, if approved by stockholders, and at each annual meeting of stockholders thereafter. Commencing in fiscal 2013, our non-employee directors are subject to minimum stock ownership guidelines and must attain equity ownership (exclusive of unvested stock options and unvested RSUs) equal to five times current annual retainer amounts (i.e., \$375,000 worth of Common Stock) no later than the date that is five years after becoming a non-employee director. However, existing non-employee directors must comply with this requirement by the later of (i) December 31, 2016 or (ii) the date that is five years after becoming a non-employee director. In addition, existing non-employee directors as of June 17, 2009 must attain equity ownership equal to three times the then annual retainer amounts (i.e., \$180,000 worth of Common Stock) by the later of (i) June 17, 2014 or (ii) the date that is five years after becoming a non-employee director; and existing non-employee directors as of June 15, 2011 must attain equity ownership equal to four times the then annual retainer amounts (i.e., \$300,000 worth of Common Stock) by the later of (i) June 15, 2016 or (ii) the date that is five years after becoming a non-employee director.

Once established a non-employee director's target ownership will not re-adjust automatically as a result of changes in his or her annual cash retainer or changes in the price of our Common Stock. However, the Board of Directors or the Compensation Committee may, from time to time, re-evaluate and revise a particular non-employee director's target ownership in light of such changes. In determining whether a non-employee director meets the guidelines, we consider owned shares and vested restricted or deferred stock units, but we do not consider stock options.

The value of stock awards in column (c) and stock options in column (d) equals the fair value at date of grant, disregarding for this purpose the estimate of forfeitures related to service-based vesting conditions.

- (1) The value is calculated in accordance with FASB ASC 718. The assumption used in determining the grant date fair values of these awards are set forth in note 14 to our consolidated financial statements included in our Annual Report Form 10-K for fiscal 2013 filed with the SEC.

The Anthrogenesis Corporation Qualified Employee Incentive Stock Option Plan (the Qualified Plan) has not been approved by our stockholders. No future awards will be granted under the Anthrogenesis Nonqualified Plan. The Qualified Plan authorizes the award of incentive stock options, which are stock options that qualify for special federal income tax treatment. The exercise price of any stock option granted under the Qualified Plan may not be less than the fair market value of Common Stock on the date of grant. In general, each option granted under the Qualified Plan vests evenly over a four-year period and expires ten years from the date of grant, subject to earlier expiration in case of termination of employment. The vesting period is subject to certain acceleration provisions if a change in control occurs. No award will be granted under the Qualified Plan on or after December 31, 2007.

A VOTE FOR THE ADOPTION OF PROPOSAL TWO

PROPOSAL THREE:

Amendment to the Company's Certificate of Incorporation

Description of the Proposed Amendment and Vote Required

On February 12, 2014, the Board approved an amendment to Article FOURTH of the Company's Certificate of Incorporation to (i) increase the number of shares of Common Stock that the Company is authorized to issue from 575,000,000, par value \$0.01 per share, to 1,150,000,000, par value \$0.01 per share, and (ii) split the Common Stock of the Company by changing each issued share of Common Stock into two shares of Common Stock, par value \$0.01 per share (the "Stock Split"). The Board determined that such amendment is advisable and in the best interests of the Company and directed that the proposed amendment be submitted for approval by Stockholders at the Annual Meeting of Stockholders. The affirmative vote of the holders of a majority of the outstanding shares of Common Stock of the Company entitled to vote thereon is required to approve the proposed amendment and effectuate the Stock Split.

The full text of the proposed amendment to the Certificate of Incorporation is set forth in Appendix B to this Proxy Statement. The amendment will not affect the number of shares of Preferred Stock authorized, which is 5,000,000 shares of Preferred Stock, \$0.01 par value per share. Currently, there are no shares of Preferred Stock issued and outstanding.

Purposes and Effects of Increasing the Number of Authorized Shares of Common Stock

The proposed amendment would increase the number of shares of Common Stock that the Company is authorized to issue from 575,000,000 to 1,150,000,000. The additional 575,000,000 shares would be a part of the existing class of Common Stock and, if and when issued, would have the same rights and privileges as the shares of Common Stock presently issued and outstanding. The holders of Common Stock of the Company are not entitled to preemptive rights or cumulative voting.

The primary purpose of doubling the number of authorized shares of Common Stock is to facilitate the proposed Stock Split while preserving the relative proportion of authorized and issued shares to unissued shares of Common Stock. As of April 21, 2014, there were [] shares of Common Stock issued (of which [] shares were held in the treasury of the Company) and [] shares of Common Stock reserved for issuance under the Company's equity compensation plans. This means that as of April 21, 2014, there were [] authorized shares of Common Stock that were not outstanding, held in the treasury of the Company or reserved for issuance.

If the proposed amendment is adopted, based on the number of authorized and issued shares of Common Stock as of April 21, 2014, there would be [] shares of Common Stock issued (of which [] shares would be held in the treasury of the Company) and [] shares would be reserved for issuance under the Company's equity compensation plans following the Stock Split. As a result, there would be [] authorized shares of Common Stock that are not outstanding, held in the treasury of the Company or reserved for issuance.

Except for shares reserved for issuance under our existing equity compensation plans and shares to be issued to effect the proposed Stock Split, the Board has no current plans to issue additional shares of Common Stock. The Board has not proposed the increase in the amount of authorized shares of Common Stock with the intention of discouraging tender offers or takeover attempts of the Company. However, the availability of additional authorized shares for issuance may have the effect of discouraging a merger, tender offer, proxy contest or other attempt to obtain control of the Company.

Purposes and Effects of Proposed Two-For-One Stock Split

The Board anticipates that the increase in the number of outstanding shares of Common Stock of the Company resulting from the proposed Stock Split will place the market price of the Common Stock in a range more attractive to investors, particularly individuals, which may result in a broader market for our Common Stock. The additional shares of Common Stock will be listed on The NASDAQ Global Market, where the existing Common Stock is listed for trading.

If the proposed amendment is adopted, each Stockholder of record at the close of business on June 18, 2014, the date of the Annual Meeting and the date the proposed amendment will be filed with the Secretary of State of the State of Delaware, will become the record owner of, and entitled to receive one additional share of Common Stock for each share of Common Stock then owned of record by such Stockholder. All shares issued as a result of the proposed Stock Split will be issued in book-entry form, either through the Direct Registration System ("DRS") or as a credit to an existing account of a Stockholder of record. Consequently, certificates representing shares of Common Stock currently issued should be retained by each Stockholder and should not be returned to the Company or to its transfer agent, as it will not be necessary to submit outstanding certificates for exchange.

Table of Contents

The Company has been advised by tax counsel that the proposed Stock Split would not result in recognition of gain, loss or other taxable income by owners of Common Stock under existing U.S. Federal income tax laws. The cost basis for tax purposes of each new share and each retained share of Common Stock would be equal to one-half of the cost basis for tax purposes of the corresponding share immediately preceding the Stock Split. In addition, the holding period for the additional shares issued pursuant to the Stock Split would be deemed to be the same as the holding period for the original shares of Common Stock. Stockholders who are subject to the tax laws of other jurisdictions are urged to consult their tax advisors regarding any tax consequences of the Stock Split under such laws.

If Stockholders dispose of their shares subsequent to the Stock Split, they may pay higher brokerage commissions on the same relative interest in the Company because that interest is represented by a greater number of shares. Stockholders should consult their respective brokers to ascertain the brokerage commission that would be charged for disposing of the greater number of shares.

In accordance with the various equity compensation plans of the Company, it will be necessary to make appropriate adjustments in the number of shares of Common Stock that remain available for issuance pursuant to such plans, as well as in the number of shares and price of Common Stock subject to outstanding awards under such plans. From the effective date of the proposed Stock Split, the number of shares that remain available for issuance pursuant to such plans will be doubled, the number of shares subject to outstanding awards under such plans will be doubled, and the exercise price per share of stock options granted under such plans will be divided by two. In addition, appropriate adjustments will be made under The Celgene Corporation 401(k) Plan and The Celgene Corporation 2005 Deferred Compensation Plan.

If the proposed amendment is adopted, the value of the Company's common stock account as reflected in the Company's financial statements will be increased to reflect the additional shares issued at par value \$0.01 per share and the value of the additional paid-in capital account will be reduced a like amount, with no overall effect on stockholders' equity. If the proposed amendment is adopted, following the Stock Split the number of shares of Common Stock issued and outstanding, reserved for issuance and held in the treasury would double. Per share net income or loss will be decreased for current and prior periods because there will be additional shares of our common stock outstanding. The proposed amendment would not have any impact on compensation expense associated with past or existing share-based compensation grants. Employee share targets for the number of shares to be granted in the future are not intended to be doubled following the Stock Split, which will result in a near-term reduction in share-based compensation expense as compared to share-based compensation expense for prior periods; however, future compensation expense amounts will be dependent on the fair value of equity grants on the date of issue.

Effective Date of Proposed Amendment and Issuance of Shares for Stock Split

If the proposed amendment to Article FOURTH of the Certificate of Incorporation of the Company is adopted by the required vote of Stockholders, such amendment will become effective on the date the proposed amendment is filed with the Secretary of State of the State of Delaware, which will become the record date for the determination of the owners of Common Stock entitled to additional shares. If the proposed amendment is approved, the Company currently anticipates that the record date will be June 18, 2014 and the distribution date for such additional shares will be June 25, 2014. The Board reserves the right, notwithstanding Stockholder approval of the proposed amendment to the Certificate of Incorporation, and without further action by the Stockholders, to elect not to proceed with the amendment if, at any time prior to filing the amendment, the Board determines that it is no longer in the best interests of the Company and Stockholders to proceed with the Stock Split.

Please do not destroy or send your existing stock certificates to the Company. If the proposed amendment is adopted, those certificates will remain valid for the number of shares shown thereon, and should be carefully preserved by you. All shares issued as a result of the proposed Stock Split will be issued in book-entry form, either through DRS or as a credit to an existing Stockholder of record account. You will receive information about the additional shares to which you are entitled on or around the distribution date.

If the proposed amendment is approved, the Company will provide additional details about the implementation of the Stock Split on its website following the Annual Meeting of Stockholders. **IMPORTANT NOTE: PLEASE DO NOT DESTROY OR RETURN YOUR EXISTING STOCK CERTIFICATES. CERTIFICATES REPRESENTING SHARES OF COMMON STOCK ISSUED PRIOR TO THE STOCK SPLIT WILL CONTINUE TO REPRESENT**

THE SAME NUMBER OF SHARES OF COMMON STOCK AFTER THE EFFECTIVE DATE OF THE STOCK SPLIT.

PROPOSAL FOUR:

Approval of an Amendment to the Company's 2008 Stock Incentive Plan

Our stockholders are being asked to approve an amendment (the "Amendment") to our 2008 Stock Incentive Plan (the "Plan"). The Amendment was approved by the Board of Directors on April 17, 2014, to be effective upon stockholder approval. The Amendment includes the following key modifications (references to numbers of shares of Common Stock in this Proposal do not give effect to the proposed Stock Split):

Adoption of an aggregate share reserve of 113,981,641 shares of our Common Stock. This number includes our current share reserve of 104,981,641 shares of our Common Stock and 9,000,000 new shares of our Common Stock; and

Extension of the term of the Plan through April 16, 2024 (currently, the Plan is scheduled to expire after April 17, 2023).

In addition to the foregoing, our stockholders are being asked to re-approve the Section 162(m) performance goals under the Plan so that certain incentive awards granted under the Plan to executive officers of the Company may qualify as exempt performance-based compensation under Section 162(m) of the Code. Otherwise, Section 162(m) of the Code generally disallows the corporate tax deduction for certain compensation paid in excess of \$1,000,000 annually to each of the chief executive officer and the three other most highly paid executive officers of publicly held companies (other than the chief financial officer). Section 162(m) of the Code generally requires such performance goals to be approved by stockholders every five years. If stockholders do not approve the Section 162(m) performance goals at the Annual Meeting, then awards granted under the Plan after the first stockholder's meeting in 2018 will not qualify as exempt performance-based compensation under Code Section 162(m) unless such approval is obtained or stockholders approve other designated performance criteria at or prior to the first stockholders' meeting in 2018. Notwithstanding the foregoing, awards of stock options and stock appreciation rights will continue to qualify as exempt performance-based compensation under Section 162(m) of the Code even if the stockholders do not approve the Section 162(m) performance goals at or prior to the first stockholders' meeting in 2018.

We anticipate filing a Registration Statement on Form S-8 with the SEC to register the additional amount of new shares of our Common Stock to be included in the aggregate share reserve under the Plan, as amended by the Amendment, effective upon and subject to stockholder approval of the Amendment, as soon as practicable upon such stockholders' approval of the Amendment.

Background of the Proposal to Approve the Amendment

As of April 21, 2014, the closing price of shares of our Common Stock as reported on Nasdaq, was \$[_____] per share. In addition, as of April 21, 2014, stock options outstanding and shares available for grant under all of our equity compensation plans are as follows:

	Total
Stock options outstanding, all plans(1)	
Full-value awards outstanding, all plans	
Shares available for awards, all plans(2)	

As of April 21, 2014, the range of the exercise prices of stock options outstanding under all of our equity compensation plans was \$[_____] to \$[_____] , with a weighted-average exercise price of \$[_____] . The (1) closing price of a share of our Common Stock on such date was \$[_____] . The weighted-average remaining contractual life of stock options outstanding under all of our equity compensation plans as of April 21, 2014 was [_____] years.

(2) Represents shares of our Common Stock reserved for issuance under all of our equity compensation plans as of April 21, 2014.

The Board of Directors believes that if the proposed Amendment is approved, we will be able to continue to provide long-term performance incentives to our employees that will benefit our Company and our stockholders; attract top talent to build a global inflammation and immunology franchise that will support our existing products and indications, as well as position us for future growth with additional indications and products;

evolve our human capital strategy by hiring thought leaders and innovators in key functions that are critical to our long-term success;

59

Table of Contents

provide differentiated, meaningful rewards to our top talent and those current employees who provide the greatest value creation for us by granting options and RSUs on a reduced post-Stock Split value basis, and affording these employees the opportunity to earn additional awards based on past performance and expected future contribution; and foster our entrepreneurial company philosophy of broad-based employee stock ownership that has helped make us successful.

The Board of Directors recommends that our stockholders approve the Amendment. If the requisite stockholder approval of the Amendment is not obtained, the provisions relating to the increase in the aggregate share reserve and the extension of the term of the Plan will not take effect. If such approval is not obtained, we may continue to grant awards under the Plan in accordance with the current share reserve and the current term under the Plan.

Finally, the Board of Directors also recommends that the stockholders of the Company re-approve the performance goals under the Plan so that certain incentive awards granted under the Plan to executive officers of the Company after the first stockholders' meeting in 2018 may qualify as exempt performance-based compensation under Section 162(m) of the Code, which otherwise generally disallows the corporate tax deduction for certain compensation paid in excess of \$1,000,000 annually to each of the chief executive officer and the three other most highly paid executive officers of publicly held companies (other than the chief financial officer). Stockholders last approved the performance goals at the 2013 stockholders' meeting and Section 162(m) of the Code generally requires such performance goals to be approved by stockholders every five years.

The following is a brief summary of the principal provisions of the Plan, as amended by the Amendment. This summary does not purport to be complete and is qualified in its entirety by reference to the text of the Plan, as amended by the Amendment. A copy of the Amendment is annexed to this proxy statement as Appendix C.

Summary of the Plan (as amended)

Purpose; Eligibility. The purpose of the Plan is to enable us and our affiliates to attract, retain and motivate key employees and Non-Employee Directors who are important to our success and growth, and to strengthen the mutuality of interests between such individuals and our stockholders by granting such individuals stock-based incentives and other equity interests in us.

Administration. The Plan is administered by the Compensation Committee or such other committee or subcommittee appointed from time to time by the Board of Directors (referred to as the "Committee"), which is intended to consist of two or more Non-Employee Directors, each of whom will be, to the extent required by Rule 16b-3 under the Exchange Act, Section 162(m) of the Code and the rules of the Financial Industry Regulatory Authority, a Non-Employee Director as defined in Rule 16b-3, an outside director as defined under Section 162(m) of the Code and an independent director as defined under Rule 5605(a)(2) of the Nasdaq Listing Rules. If for any reason the appointed Committee does not meet the requirements of Rule 16b-3 of the Exchange Act or Section 162(m) of the Code, the validity of the awards, grants, interpretation or other actions of the Committee will not be affected. The Committee has the full authority to select those individuals eligible to receive awards and the amount and type of awards.

Types of Awards. The Plan provides for the grant of any or all of the following types of awards to eligible employees: (i) stock options, including incentive stock options and nonqualified stock options; (ii) stock appreciation rights (SARs), in tandem with stock options or freestanding; (iii) restricted stock; (iv) other stock-based awards, including restricted stock units (RSUs); and (v) performance-based awards. The Plan provides for grants of non-qualified stock options and RSUs to Non-Employee Directors.

Stock Options. Options may be in the form of incentive stock options or nonqualified stock options. The Committee will, with regard to each stock option, determine the number of shares subject to the option, the term of the option (which will not exceed ten years, provided that the term of an incentive stock option granted to a 10% stockholder will not exceed five years), the exercise price per share of stock subject to the option, the vesting schedule and the other material terms of the option. Stock options will be subject to a minimum vesting schedule of one year, except that, with respect to participants other than named executive officers on the grant date, unvested stock options may become vested prior to the completion of such one-year period upon a change in control or a participant's retirement, disability, death, layoff pursuant to a reduction in workforce or termination of employment pursuant to a business acquisition, in

each case, to the extent provided in the applicable award agreement. Awards with respect to up to 5% of the total number of shares reserved for awards under the Plan may be granted to any participant (including a NEO) without regard to any limit on accelerated vesting. No stock option may

60

Table of Contents

have an exercise price less than the “fair market value” (as defined in the Plan) of the Common Stock at the time of grant (or, in the case of an incentive stock option granted to a 10% stockholder, 110% of the fair market value of the Common Stock).

The exercise price upon exercise may be paid in cash, shares of Common Stock for which the recipient has good title free and clear of any lien or encumbrance or, if the Common Stock is traded on a national securities exchange, to the extent permitted by law, through the delivery of irrevocable instructions to a broker to deliver to us an amount equal to the exercise price. The Committee also may provide, at the time of grant, that the shares to be issued upon the exercise of a stock option be in the form of restricted stock or may reserve a right to do so after the time of grant.

The Plan contains express prohibition against repricing stock options and SARs. Without stockholder approval we are prohibited from either (i) reducing the exercise price of an outstanding stock option or SAR or (ii) simultaneously canceling stock options or SARs for which the exercise price exceeds the then current fair market value of the underlying Common Stock and granting a new stock option or SAR with an exercise price equal to the then current fair market value of the underlying Common Stock. In addition, the Plan expressly prohibits us from repurchasing stock options without stockholder approval if the per share option price of the stock option is less than the fair market value of a share of Common Stock.

Stock Appreciation Rights or SARs. The Committee may grant SARs either with a stock option, referred to as Tandem SARs, or independent of a stock option, referred to as Non-Tandem SARs. An SAR is a right to receive a payment in Common Stock, equal in value to the excess of the fair market value of a share of Common Stock on the date of exercise over the reference price per share of Common Stock established in connection with the grant of the SAR. The reference price per share covered by a SAR will be the per share exercise price of the related option in the case of a Tandem SAR and will be the per share fair market value of Common Stock on the date of the grant in the case of a Non-Tandem SAR. The Committee also may grant “limited SARs,” either as Tandem SARs or Non-Tandem SARs, which may become exercisable only upon the occurrence of a “change in control” (as defined in the Plan) or such other event as the Committee may, in its sole discretion, designate at the time of grant or thereafter. SARs will be subject to a minimum vesting schedule of one year, except that, with respect to participants other than named executive officers on the grant date, unvested SARs may become vested prior to the completion of such one-year period upon a change in control or a participant’s retirement, disability, death, layoff pursuant to a reduction in workforce or termination of employment pursuant to a business acquisition, in each case, to the extent provided in the applicable award agreement. Awards with respect to up to 5% of the total number of shares reserved for awards under the Plan may be granted to any participant (including a named executive officer) without regard to any limit on accelerated vesting.

Restricted Stock. The Committee may award shares of restricted stock. Upon the recipient's acceptance of an award of restricted stock, the recipient has all rights of a stockholder with respect to the shares, including, without limitation, the right to receive dividends, the right to vote such shares and, subject to and conditioned upon the full vesting of the shares of restricted stock, the right to tender such shares. The payment of dividends, if any, shall be deferred until the date that the relevant share of restricted stock vests.

Recipients of restricted stock are required to enter into a restricted stock award agreement with us which states the restrictions to which the shares are subject and the criteria or date or dates on which such restrictions will lapse. Within these limits, based on service, attainment of performance goals and such other factors as the Committee may determine in its sole discretion, or a combination thereof, the Committee may provide for the lapse of such restrictions in installments in whole or in part or may accelerate or waive such restrictions at any time. If the lapse of the relevant restriction is based on the attainment of performance goals, the Committee shall establish the goals, formulae or standards and the applicable vesting percentage for the restricted stock awards applicable to recipients. Restricted stock is subject to a minimum vesting schedule of three years (with no more than one-third of the shares of Common Stock subject thereto vesting on each of the first three anniversaries of the date of grant), except that, with respect to participants other than named executive officers on the grant date, unvested restricted stock may become vested prior to the completion of such three-year period upon a change in control or a participant’s retirement, disability, death, layoff pursuant to a reduction in workforce or termination of employment pursuant to a business acquisition, in each case, to the extent provided in the applicable award agreement. Awards with respect to up to 5% of the total number of

shares reserved for awards under the Plan may be granted to any participant (including a named executive officer) without regard to any limit on accelerated vesting.

Other Stock-Based Awards. The Committee may, subject to limitations under applicable law, make a grant of such other stock-based awards (including, without limitation, performance units, dividend equivalent units, stock equivalent units, RSUs and deferred stock units) under the Plan that are payable in cash or denominated or payable in or valued by shares of Common Stock or factors that influence the value of such shares. The Committee shall determine the terms and conditions of any such other award, which may include the achievement of certain minimum performance goals for purposes of compliance with Section 162(m) of the Code and/or a minimum vesting period. Other stock-based awards (other than those granted upon completion of a performance period) are subject to a minimum vesting schedule of three years (with no more than one-third of the shares of Common Stock subject thereto vesting on each of the first three anniversaries of the date of grant), except that,

with respect to participants other than named executive officers on the grant date, unvested other stock-based awards may become vested prior to the completion of such three-year period upon a change in control or a participant's retirement, disability, death, layoff pursuant to a reduction in workforce or termination of employment pursuant to a business acquisition, in each case, to the extent provided in the applicable award agreement. Awards with respect to up to 5% of the total number of shares reserved for awards under the Plan may be granted to any participant (including a named executive officer) without regard to any limit on accelerated vesting. The performance goals for such other stock-based awards will be based on one or more of the objective criteria set forth on Exhibit A to the Plan and discussed in general below.

Performance-Based Awards. The Committee may award Common Stock and other awards (including awards of cash) that are valued in whole or in part by reference to, or are payable in or otherwise based on, Common Stock or the attainment of pre-established performance goals ("Performance Awards"). Performance Awards (other than those granted upon completion of a performance period) are subject to a minimum vesting schedule of three years (with no more than one-third of the shares of Common Stock subject thereto vesting on each of the first three anniversaries of the date of grant), except that, with respect to participants other than named executive officers on the grant date, unvested Performance Awards may become vested prior to the completion of such three-year period upon a change in control or a participant's retirement, disability, death, layoff pursuant to a reduction in workforce or termination of employment pursuant to a business acquisition, in each case, to the extent provided in the applicable award agreement. Awards with respect to up to 5% of the total number of shares reserved for awards under the Plan may be granted to any participant (including a named executive officer) without regard to any limit on accelerated vesting.

Performance Awards may be granted either alone or in addition to or in tandem with stock options, SARs, or restricted stock. Performance Awards may be paid in Common Stock, restricted stock or cash as the Committee may determine at grant and they will be subject to such other terms and conditions as the Committee may prescribe, including the attainment of performance goals established by the Committee for a specified performance period (which period may not exceed three years). These awards may be designed to comply with Section 162(m) of the Code so as to preserve the tax deductibility of such awards.

If the awards are intended to comply with Section 162(m) of the Code, the performance goals will be based on one or more of the following criteria: (i) revenues, earnings, income before income taxes and extraordinary items, net income, operating income, earnings before income tax, earnings before interest, taxes, depreciation and amortization or a combination of any or all of the foregoing; (ii) after-tax or pre-tax profits; (iii) operational cash flow; (iv) level of, reduction of or other specified objectives with regard to our bank debt or other long-term or short-term public or private debt or other similar financial obligations; (v) earnings per share or earnings per share from continuing operations; (vi) return on capital employed or return on invested capital; (vii) after-tax or pre-tax return on stockholders' equity; (viii) economic value-added targets; (ix) fair market value of the shares of Common Stock; (x) the growth in the value of an investment in Common Stock assuming the reinvestment of dividends; (xi) filing of a new drug application or the approval of such application by the U.S. Food and Drug Administration; (xii) launch of a new drug; (xiii) research and development milestones; (xiv) successful completion of clinical trial phases, (xv) level of, reduction of, or other specified objectives with regard to limiting the level in or increase in all or a portion of controllable expense or costs or other expenses or costs; (xvi) gross or net sales, revenue and growth of sales revenue (either before or after cost of goods, selling and general administrative expenses, research and development expenses and any other expense or interest); (xvii) total stockholder return; (xviii) return on assets or net assets; (xix) return on sales; (xx) operating profit or net operating profit; (xxi) operating margin; (xxii) gross or net profit margin; (xxiii) cost reductions or savings; (xxiv) productivity; (xxv) operating efficiency; (xxvi) customer satisfaction; (xxvii) working capital; or (xxviii) market share. In addition, such performance goals may be based upon the attainment of specified levels of our (or our subsidiary, division or other operational unit) performance under one or more of the measures described above relative to the performance of other corporations. To the extent permitted under the Code, the Committee may: (i) designate additional business criteria on which the performance goals may be based or (ii) adjust, modify or amend the aforementioned business criteria.

Awards for Non-Employee Directors. Non-Employee Directors may be granted stock options and RSUs from time to time in the sole and absolute discretion of the Compensation Committee.

Stock options granted to Non-Employee Directors will vest as follows: (i) grants made to a Non-Employee Director upon the date of the Non-Employee Director's initial election or appointment as a member of the Board of Directors will vest in four equal annual installments with the first installment vesting on the first anniversary of the date of grant (provided that the holder thereof has been a Non-Employee Director of the Company at all times through each such date), except that if a Non-Employee Director fails to stand for election at an annual meeting and such annual meeting occurs prior to the date that a portion of a stock option that was granted to the Non-Employee Director upon his or her initial election or appointment to the Board of Directors would have otherwise vested in the year of such annual meeting, such portion will vest on the day preceding the annual meeting subject to the Non-Employee Director continuing as a Director until such date, and (ii) grants made on and after an annual stockholders' meeting to the Non-Employee Directors who are elected at such annual meeting to continue as a

Table of Contents

member of the Board of Directors will vest on the earlier of the day preceding the date of the first annual meeting held following the date of grant and the first anniversary of the date of grant of the award provided that, in each case, the holder thereof has been a Non-Employee Director at all times through such date. Further, all stock option grants made to a Non-Employee Director will become fully vested upon a change in control or the Non-Employee Director's death or disability. One-third of the restricted stock units granted to Non-Employee Directors will vest on each of the first, second and third anniversaries of the date of grant, provided that the holder thereof has been a Non-Employee Director of the Company at all times through each such date. Unvested restricted stock units will become vested prior to the completion of such three-year period upon a change in control or the Non-Employee Director's retirement, disability or death.

Awards for Non-Employee Directors will be subject to all other terms and conditions of the Plan. In addition, a Non-Employee Director may elect to defer the payment of RSUs in a manner specified in the Plan and in a manner intended to comply with Section 409A of the Code. Upon a Non-Employee Director's termination for any reason, all unvested awards will terminate and expire as of the date of termination, provided that stock options that were exercisable on the date of termination and that have not expired may be exercised at any time until the date of expiration of such stock options. In addition, upon a change in control or a Non-Employee Director's disability or death, the Non-Employee Director's outstanding awards will be fully vested and any stock option will become immediately exercisable in its entirety.

Term. Awards under the Plan may not be made on or after April 17, 2023 (which term will be extended to April 16, 2024 if this Proposal is approved by stockholders), but awards granted prior to such date may extend beyond that date. Awards (other than stock options and stock appreciation rights) that are intended to be "performance-based" under Section 162(m) of the Code will not be made on or after the first stockholders' meeting in the fifth year following the year of the last stockholder approval of the performance goals in the Plan as described above (i.e., the first stockholders' meeting in 2019 (if this Proposal is approved by stockholders)).

Amendment and Termination. The Plan provides that it may be amended, in whole or in part, suspended or terminated by the Board of Directors, except that no such amendment, suspension or termination will be made without stockholder approval to the extent such approval is required by any exchange or system on which our securities are then listed or traded, applicable state law, the exception for performance-based compensation under Section 162(m) of the Code or Section 422 of the Code (with respect to incentive stock options).

Share and Other Limitations. If this Proposal is approved by stockholders, a maximum of 113,981,641 shares of Common Stock may be issued or used for reference purposes under the Plan, subject to adjustment as provided in the Plan. This number includes our current share reserve of 104,981,641 shares of Common Stock in effect prior to amending the Plan and 9,000,000 new shares of our Common Stock. In general, if awards under the Plan are for any reason cancelled, or expire or terminate unexercised, the shares covered by such awards will again be available for the grant of awards under the Plan. Each share of our Common Stock subject to awards of restricted stock, other stock-based awards or Performance Awards denominated in Common Stock under the Plan, or that for any reason is cancelled, or expires or terminates unexercised after such date, will be counted as 2.1 shares with respect to the aggregate share reserve under the Plan. The number of shares of Common Stock available for the purpose of awards under the Plan will be reduced by (i) the total number of stock options or SARs exercised, regardless of whether any of the shares of Common Stock underlying such awards are not actually issued to the participant as the result of a net settlement and (ii) any shares of Common Stock used to pay any exercise price or tax withholding obligation with respect to any stock option or stock appreciation right. Shares of Common Stock repurchased by us on the open market with the proceeds of a stock option exercise price will not be added to the aggregate share reserve.

Subject to adjustment in accordance with the Plan, the maximum number of shares of Common Stock subject to stock options, SARs, other stock-based awards or Performance Awards denominated in shares of Common Stock that may be granted to any eligible employee under the Plan shall be 1,500,000 for any fiscal year (or, with respect to Performance Awards, pro-rated if the performance period (which is generally three consecutive fiscal years) is less than three consecutive fiscal years) during the term of the Plan. The maximum payment under any Performance Award denominated in cash shall be \$6,000,000 for any fiscal year (pro-rated if the performance period is less than three consecutive fiscal years). There are no limitations on the number of shares of our Common Stock that may be

issued or used for reference purposes for awards of restricted stock or other stock-based awards that are not intended to comply with the performance-based exception under Section 162(m) of the Code.

The Committee will make appropriate adjustments in a manner that it deems equitable to the number of shares available for awards and the terms of outstanding awards under the Plan to reflect any change in our capital structure or business by reason of any stock dividend, stock split, recapitalization, reorganization, merger, consolidation or sale of all or substantially all of our assets.

Table of Contents

Change in Control. In general, unless determined otherwise by the Committee at the time of grant, upon a “change in control” (as defined in the Plan), all vesting and forfeiture conditions, restrictions and limitations in effect with respect to any outstanding award granted prior to July 1, 2011 will immediately lapse and any unvested awards will automatically become 100% vested. Equity awards granted on and after July 1, 2011, will not immediately vest upon a change in control, but will vest upon an involuntary termination without cause that occurs within two years following a change in control (i.e., upon a “double trigger”).

Transferability. Although awards will generally be nontransferable (except by will or the laws of descent and distribution), the Committee may determine at the time of grant or thereafter that a nonqualified stock option is transferable in whole or in part and in such circumstances, and under such conditions, as specified by the Committee. If a nonqualified stock option is transferable, it is anticipated that the options may be transferred solely to immediate family members or trusts, partnerships or other family entities and, to the extent permitted by the Committee, to charitable organizations.

Certain U.S. Federal Income Tax Consequences

The rules concerning the federal income tax consequences with respect to stock options granted pursuant to the Plan are highly technical. In addition, the applicable statutory provisions are subject to change and their application may vary in individual circumstances. Therefore, the following is designed to provide a general understanding of the federal income tax consequences as of the date of this Proxy Statement; it does not set forth any state or local income tax or estate tax consequences that may be applicable.

The following summary is included for general information only and does not purport to address all the tax considerations that may be relevant. Each recipient of a grant is urged to consult his or her own tax advisor as to the specific tax consequences to such grantee and the disposition of Common Stock.

Incentive Stock Options. Options granted under the Plan may be incentive stock options as defined in the Code, provided that such options satisfy the requirements under the Code. In general, neither the grant nor the exercise of an incentive stock option will result in taxable income to the optionee or a deduction to us. The sale of Common Stock received pursuant to the exercise of an option which satisfied all the requirements of an incentive stock option, as well as the holding period requirement described below, will result in a long-term capital gain or loss to the optionee equal to the difference between the amount realized on the sale and the exercise price and will not result in a tax deduction to us. To receive incentive stock option treatment, the optionee must not dispose of the Common Stock purchased pursuant to the exercise of an option either (i) within two years after the option is granted or (ii) within one year after the date of exercise.

If all requirements for incentive stock option treatment other than the holding period rules are satisfied, the recognition of income by the optionee is deferred until disposition of the Common Stock, but, in general, any gain (in an amount equal to the lesser of (i) the fair market value of the Common Stock on the date of exercise (or, with respect to officers, the date that sale of such stock would not create liability, referred to as Section 16(b) liability, under Section 16(b) of the Exchange Act) minus the exercise price or (ii) the amount realized on the disposition minus the exercise price) is treated as ordinary income. Any remaining gain is treated as long-term or short-term capital gain depending on the optionee’s holding period for the stock disposed of. We generally will be entitled to a deduction at that time equal to the amount of ordinary income realized by the optionee.

The Plan provides that an optionee may pay for Common Stock received upon the exercise of an option (including an incentive stock option) with other shares of Common Stock for which the optionee has good title free and clear of any lien or encumbrance. In general, an optionee’s transfer of stock acquired pursuant to the exercise of an incentive stock option, to acquire other stock in connection with the exercise of an incentive stock option may result in ordinary income if the transferred stock has not met the minimum statutory holding period necessary for favorable tax treatment as an incentive stock option. For example, if an optionee exercises an incentive stock option and uses the stock so acquired to exercise another incentive stock option within the two-year or one-year holding periods discussed above, the optionee may realize ordinary income under the rules summarized above.

Nonqualified Stock Options. An optionee will realize no taxable income at the time he or she is granted a nonqualified stock option. Such conclusion is predicated on the assumption that, under existing U.S. Treasury Department regulations, a nonqualified stock option, at the time of its grant, has no readily ascertainable fair market

value. Ordinary income will be realized when a nonqualified stock option is exercised, provided the Common Stock issued is not restricted stock. The amount of such income will be equal to the excess of the fair market value on the exercise date of the shares of Common Stock issued to an optionee over the exercise price. The optionee's holding period with respect to the shares acquired will begin on the date of exercise.

Table of Contents

The tax basis of the stock acquired upon the exercise of any option will be equal to the sum of (i) the exercise price of such option and (ii) the amount included in income with respect to such option. Any gain or loss on a subsequent sale of the stock will be either a long-term or short-term capital gain or loss, depending on the optionee's holding period for the stock disposed of. If the Common Stock issued is restricted stock, different rules may apply. Subject to the limitations under Sections 162(m) and 280G of the Code (as described below), we generally will be entitled to a deduction for federal income tax purposes at the same time and in the same amount as the optionee is considered to have realized ordinary income in connection with the exercise of the option.

Certain Other Tax Issues. In addition, (i) any of our officers subject to Section 16(b) liability may be subject to special rules regarding the income tax consequences concerning their awards; (ii) any entitlement to a tax deduction on our part is subject to the applicable federal tax rules (including, without limitation, Section 162(m) of the Code regarding the \$1 million limitation on deductible compensation); (iii) in the event that the exercisability or vesting of any award is accelerated because of a change in control, payments relating to the awards (or a portion thereof), either alone or together with certain other payments, may constitute parachute payments under Section 280G of the Code, which excess amounts may be subject to excise taxes and may be nondeductible by us; and (iv) the exercise of an incentive stock option may have implications in the computation of alternative minimum taxable income.

In general, Section 162(m) of the Code denies a publicly held corporation a deduction for federal income tax purposes for compensation in excess of \$1 million per year per person to its chief executive officer and certain of its other named executive officers, subject to certain exceptions. Options will generally qualify under one of these exceptions if they are granted under a plan that states the maximum number of shares with respect to which options may be granted to any employee during a specified period and the plan under which the options are granted is approved by stockholders and is administered by a compensation committee comprised of outside directors. The Plan is intended to satisfy these requirements with respect to options, SARs, certain Performance Awards and other stock based awards. Awards of restricted stock and RSUs under the Plan generally do not satisfy, and certain other Performance Awards may not satisfy, the exception for performance-based compensation under Section 162(m) of the Code.

Code Section 409A provides that all amounts deferred under a nonqualified deferred compensation plan are includible in a participant's gross income to the extent such amounts are not subject to a substantial risk of forfeiture, unless certain requirements are satisfied. If the requirements are not satisfied, in addition to current income inclusion, interest at the underpayment rate plus 1% will be imposed on the participant's underpayments that would have occurred had the deferred compensation been includible in gross income for the taxable year in which first deferred or, if later, the first taxable year in which such deferred compensation is not subject to a substantial risk of forfeiture. The amount required to be included in income is also subject to an additional 20% tax. While most awards under the Plan are anticipated to be exempt from the requirements of Code Section 409A, awards not exempt from Code Section 409A are intended to comply with Code Section 409A.

The Plan is not, nor is it intended to be, qualified under Section 401(a) of the Code.

Under the Plan as amended by the Amendment, the terms and number of options or other awards to be granted in the future are to be determined in the discretion of the Committee. Since no such determination regarding awards or grants has yet been made, the benefits or amounts that will be received by or allocated to our executive officers and other eligible employees cannot be determined at this time.

The proposal to approve the Amendment to our 2008 Stock Incentive Plan will require the affirmative vote of the holders of a majority of the shares of Common Stock cast in person or by proxy.

PROPOSAL FIVE:

Advisory Vote on Executive Compensation

In accordance with the Dodd-Frank Wall Street Reform and Consumer Protection Act and the related SEC rules promulgated thereunder, we are providing our stockholders with the opportunity to cast an advisory vote on the compensation of our named executive officers as described below. We believe that it is appropriate to seek the views of stockholders on the design and effectiveness of our executive compensation programs.

The Board of Directors believes that our compensation arrangements for executive officers are designed to attract, motivate and retain a talented team of executives who will provide leadership and promote the creation of long-term stockholder value and position the Company for continued growth and success. We seek to accomplish these goals in ways that reward performance and that are aligned with stockholders' long-term interests. We believe that our executive compensation programs, which emphasize long-term equity awards and performance-based incentive programs, satisfy our goal of creating a close relationship between performance and compensation, as more fully described in the Compensation Discussion and Analysis. Our equity compensation (which is awarded in the form of stock options and restricted stock units) is designed to build executive ownership and align financial incentives focused on the achievement of our long-term strategic goals (both financial and non-financial). Our performance-based compensation consists of: (i) a short-term program that provides annual variable compensation based on attainment of annual corporate, division functional and individual goals; and (ii) a three year performance plan based on the achievement of certain financial metrics. We believe the compensation program for the named executive officers is instrumental in helping the Company achieve its strong financial performance. Stockholders are urged to read the Compensation Discussion and Analysis section of this proxy statement, which discusses in detail how our compensation policies and procedures implement our compensation philosophy.

Although the vote is non-binding, the Board of Directors and the Compensation Committee value the opinions expressed by stockholders in their vote on this proposal and will continue to consider the outcome of the vote in connection with their ongoing evaluation of the Company's compensation program for the named executive officers. Broker non-votes are not entitled to vote on this proposal and will not be counted in evaluating the results of the vote. We ask our stockholders to vote in favor of the compensation of the Company's named executive officers, as described in this proxy statement in accordance with the SEC's compensation disclosure rules, including the Compensation Discussion and Analysis, compensation tables and the narrative discussion accompanying the compensation tables. We currently conduct annual advisory votes on executive compensation, and we expect to conduct the next advisory vote on executive compensation at our 2015 Annual Meeting of Stockholders.

PROPOSAL SIX

(Stockholder Proposal)

The stockholder proposal set forth below was sponsored and submitted to the Company on December 12, 2013 by American Federation of State, County and Municipal Employees, AFL-CIO (AFSCME), 1625 L Street, Washington, D.C. 20036-5687, a purported owner of shares of our Common Stock having a minimum value as set forth in Rule 14a-8 of the Exchange Act allowing submission of proposals by stockholders meeting certain requirements.

AFSCME's proposal is printed below verbatim, and we have not endeavored to correct any erroneous statements or typographical errors contained therein. AFSCME has advised the Company that it intends to present the following resolution at our Annual Meeting. The Company is not responsible for the contents of this proposal or the supporting statement of AFSCME. Our Board has recommended a vote against the proposal, if properly presented at the Annual Meeting, for the reasons set forth following the proposal.

“Whereas, corporate lobbying exposes our company to risks that could adversely affect the company's stated goals, objectives, and ultimately stockholder value, and

Whereas, we rely on the information provided by our company to evaluate goals and objectives, and we, therefore, have a strong interest in full disclosure of our company's lobbying to assess whether our company's lobbying is consistent with its expressed goals and in the best interests of stockholders and long-term value.

Resolved, the stockholders of Celgene Corporation (“Celgene”) request the Board authorize the preparation of a report, updated annually, disclosing:

1. Company policy and procedures governing lobbying, both direct and indirect, and grassroots lobbying communications.
2. Payments by Celgene used for (a) direct or indirect lobbying or (b) grassroots lobbying communications, in each case including the amount of the payment and the recipient.
3. Celgene's membership in and payments to any tax-exempt organization that writes and endorses model legislation.
4. Description of management's decision making process and the Board's oversight for making payments described in sections 2 and 3 above.

For purposes of this proposal, a “grassroots lobbying communication” is a communication directed to the general public that (a) refers to specific legislation or regulation, (b) reflects a view on the legislation or regulation and (c) encourages the recipient of the communication to take action with respect to the legislation or regulation. “Indirect lobbying” is lobbying engaged in by a trade association or other organization of which Celgene is a member. Both “direct and indirect lobbying” and “grassroots lobbying communications” include efforts at the local, state and federal levels.

The report shall be presented to the Audit Committee or other relevant oversight committees and posted on the company's website.

Supporting Statement

As stockholders, we encourage transparency and accountability in the use of corporate funds to influence legislation and regulation both directly and indirectly. Celgene is listed as a member of the Biotechnology Industry Organization, which spent approximately \$15.53 million lobbying in 2011 and 2012. Celgene does not disclose its memberships in, or payments to, trade associations, or the portions of such amounts used for lobbying. Transparent reporting would reveal whether company assets are being used for objectives contrary to Celgene's long-term interests.

Celgene spent approximately \$2.18 million in 2011 and 2012 on direct federal lobbying activities (opensecrets.org). This figure does not include expenditures to influence legislation in states. Celgene lobbies at the state level, using the services of at least 11 lobbyists in 7 states in 2012 (followthemoney.org). Celgene does not disclose membership and participation in, or contributions to, tax-exempt organizations that write and endorse model legislation, such as

Celgene's service on the Health and Human Services Task Force of the American Legislative Exchange Council (ALEC). More than 50 companies, including Amgen, AstraZeneca, GlaxoSmithKline and Merck, have publicly left ALEC because their business objectives and values did not align with ALEC's activities.

We encourage our Board to require comprehensive disclosure related to its direct, indirect, and grassroots lobbying.”

Board's Statement Opposing Proposal Six

Your Board believes that this proposal is unnecessary and would not serve the interests of Celgene stockholders because our company already makes extensive disclosures about our lobbying activities and the additional information requested by this proposal would be burdensome, without providing meaningful additional information.

Celgene's existing reporting, combined with extensive federal and state disclosure, provides extensive information about our lobbying activities.

The Board of Directors believes that it is in the best interest of the Company and its stockholders for the Company to participate, as others do, in the public policy process, including engaging in certain lobbying activities that express the Company's position on issues significant to our business and the patients we serve. Recognizing that stockholders and other Celgene stakeholders may have an interest in being informed about our public policy positions and lobbying activities, Celgene provides extensive information about our public policy advocacy and political participation in the "Celgene Responsibility" section of our company website, where investors and others have ready access to:

• Our annual "Celgene Responsibility Report," which includes a "Public Policy" section.

• A description of our policies and practices regarding public policy activities, and the reporting of those activities to the Board's Nominating, Governance and Compliance Committee.

• A detailed description of our policies and practices concerning political contributions, lobbying activities and our memberships in trade associations.

• A link to quarterly reports of our federal lobbying activity and biannual contribution reports in accordance with the Honest Leadership and Open Government Act of 2007.

• A list of the Company's trade association memberships.

• A description and report of the Celgene PAC, which is updated biannually to report all political contribution amounts and recipients.

A significant amount of information is also readily available through other public sources. Reports of corporate lobbying activity are mandated under federal and state laws and the Company believes it complies with all such laws. We and our registered lobbyists file required quarterly and semi-annual reports pursuant to the federal Lobbying Disclosure Act with the U.S. House of Representatives and the U.S. Senate, and the "Celgene Responsibility" page of our Company website provides a link to where those reports can be found on the applicable government website. The Company files similar periodic reports as required by state agencies reflecting lobbying activities at the state level, which are also publicly available.

The preparation and maintenance of the report requested by proposal six would be burdensome and result in the expenditure of Company resources to produce a document that would not provide meaningful additional information about Celgene's lobbying activities.

The Company is a member of a number of trade associations and industry groups at the national, state and local level. From time to time, each of these entities communicates the position of its membership on public policy issues to government officials and the public. Although lobbying is in many cases not the primary focus of these entities, a portion of the dues that Celgene and other members pay to such trade organizations and industry groups may be part of the funds they use to engage in certain lobbying activities. Celgene does not specifically direct how these funds are used, and may not agree with all positions supported by these organizations. As a result, disclosure of Celgene's dues to these organizations could misrepresent Celgene's position and advocacy on certain legislative issues and would not provide stockholders with meaningful information. Moreover, requiring the Company to gather this information would create an unreasonable burden on the Company to gather information that has little value, if any, to stockholders. Such a waste of resources is not in the best interests of the Company or its stockholders.

In sum, we believe the readily available information about Celgene's public policy advocacy activities provides a level of information and accountability consistent with legal requirements as well as prevailing practices among other leading companies in our industry.

The Board of Directors unanimously recommends a vote "AGAINST" this proposal for the reasons discussed above. Proxies solicited by the Board of Directors will be voted "AGAINST" this proposal unless a stockholder indicates otherwise in the proxy.
