Exhibit Index

99.1 Press Release, dated June 5, 2007, issued by Brown-Forman Corporation, reporting results of operations for the fiscal year and fiscal quarter ended April 30, 2007.

Exhibit 99.1

FOR IMMEDIATE RELEASE

BROWN-FORMAN FISCAL 2007 UNDERLYING(1) EARNINGS PER SHARE UP 11%;
REPORTED EARNINGS PER SHARE INCREASE 1%

June 5, 2007 - Brown-Forman Corporation reported record earnings of \$3.22 per share from continuing operations for the fiscal year ended April 30, 2007, driven by continued volume growth and margin improvement from the company's premium brands. Diluted earnings per share from continuing operations for the full year were up 1% on a reported basis and 11% on an underlying basis.

The company exceeded previously provided earnings guidance for continuing operations as detailed below:

	Fiscal 2007 Diluted Earnings Per Share	
	March Outlook	Actual
Base Continuing Operations	\$3.20 - \$3.30	\$3.35
Casa Herradura(2) Impact	(\$0.14) - (\$0.18)	(\$0.13)
Projected/Reported	\$3.02 - \$3.16	\$3.22

(1) Underlying earnings per share represent diluted reported earnings per share in accordance with GAAP, adjusted for certain items. A reconciliation from reported to underlying earnings per share (a non-GAAP measure) for the full year, and the reasons why management believes these adjustments to be useful to the reader, are included in Schedule A and the Notes to this press release.

(2) References to Casa Herradura include all brands (el Jimador, Herradura, New Mix, Antiguo, Suave 35 and other brands) and operations acquired in

Edgar Filing: BROWN FORMAN CORP - Form 8-K

January, 2007

Fiscal 2007 revenues and gross profit were up 16% and 13%, respectively. Gross profit grew \$173 million, reflecting double-digit gains for Jack Daniel's, Southern Comfort, Finlandia, and the company's Jack Daniel's & Cola ready-to-drink product sold primarily in Australia. The improvement in gross profit for these brands was due to volume growth, margin expansion, and favorable foreign currency fluctuations. The fiscal 2007 acquisitions of Chambord liqueur and the Casa Herradura brands also contributed to the year-over-year increases in revenues and gross profit.

Advertising expenses increased 12% for the year due to incremental investments behind the company's premium global brands and spending on the recently acquired Chambord and Casa Herradura family of brands. SG&A grew 14% for the year, due in large part to the company's global distribution initiatives. Operating income from continuing operations increased \$39 million, up 7% for the year.

Reported results from continuing operations in the current and prior year included several items that management believes were not representative of underlying earnings growth. Consistent with past practice, the company excludes these items to provide an informative measure of underlying growth (see Schedule A).

Jack Daniel's, Southern Comfort, and Finlandia achieved record profit levels for the fiscal year. Favorable exchange trends and higher volumes and pricing contributed to double-digit gross profit growth for each of the brands. Global depletions for Jack Daniel's were up 6% over the prior year. In the U.S., depletions improved in the low-single-digits, while international depletions grew at a double-digit rate. Depletion growth rates were particularly strong in Germany, France, South Africa, Italy, Russia, and Japan.

Southern Comfort global depletions grew 3%, with mid-single digit gains in the U.S. and South Africa. Finlandia volumes were up 15% globally, led by strong double-digit growth in Poland, the brand's largest market.

Depletions for the company's mid-priced brands were flat for the year, as 5% depletion growth for both Fetzer Valley Oaks and Korbel was offset by declines for Canadian Mist, Bolla, and Early Times. Depletions for the company's super-premium brands grew at a double-digit rate, behind continued growth for all brands in this category, most notably Sonoma-Cutrer and Woodford Reserve.

The following chart summarizes the fiscal 2007 worldwide depletions (depletions are shipments from wholesaler distributors to retail customers, and are commonly regarded in the industry as an approximate measure of consumer demand) for Brown-Forman's largest volume brands:

Brand	Nine-Liter Cases (000s)	% Change vs Fiscal 2006
Jack Daniel's	9,075	6%
Southern Comfort	2,465	3%
Finlandia	2,440	15%
Fetzer Valley Oaks	2,295	5%
Canadian Mist	1,945	(4%)
Jack Daniel's & Cola	1,925	28%

Edgar Filing: BROWN FORMAN CORP - Form 8-K

Reported fourth quarter diluted earnings per share from continuing operations were \$0.56, down 9% from the same period last year. However, adjusting quarterly comparisons for the impact of acquisitions, favorable foreign currency fluctuations and last year's gain associated with changes in the company's Australian distribution operation, underlying earnings growth for the fourth quarter was 11%(3).

Fiscal 2008 Outlook

Global trends for our premium beverage portfolio remain strong, and we continue to believe there are excellent opportunities to invest behind our brands. We anticipate earnings in the range of \$3.53 to \$3.68 per share for fiscal 2008, representing growth of 8% to 13% over comparable fiscal 2007 earnings of \$3.27 per share. This outlook excludes the projected earnings dilution of \$0.13 to \$0.18 per share associated with the Casa Herradura acquisition, two-thirds of which we expect to be transition-related costs. These costs will include integration and compliance expenditures and non-cash charges associated with the purchase of distribution rights for the Herradura brand in the U.S.

(3) Underlying earnings per share represent diluted reported earnings per share in accordance with GAAP, adjusted for certain items. A reconciliation from reported to underlying earnings per share (a non-GAAP measure) for the fourth quarter, and the reasons why management believes these adjustments to be useful to the reader, is included in Schedule B and the Notes to this press release.

Including anticipated dilution from the Casa Herradura acquisition, the company expects fiscal 2008 earnings of \$3.35 to \$3.55 per share, representing growth of 7 to 13% over comparable 2007 earnings.

	Fiscal 2007	Fiscal 2008 Outlook	
GAAP Reported Earnings Per Share	\$3.22		
Gain on sale of winery assets	(\$0.08)		

Adjusted Earnings Per Share including Casa Herradura	\$3.14	\$3.35 - \$3.55	7-13
Costs associated with the Casa Herradura acquisition	\$0.13	\$0.18 - \$0.13	

Adjusted Earnings Per Share excluding Casa Herradura	\$3.27	\$3.53 - \$3.68	8-13
	=====		

Our full-year earnings expectations are moderated by our expectations for a higher effective tax rate, anticipated higher raw material costs, and the absence of \$0.06 of interest income earned in fiscal 2007 on proceeds held from the sale of Lenox, which was distributed to shareholders on May 10, 2007.

Brown-Forman will host a conference call to discuss the results at 10:00 a.m. (EDT) this morning. All interested parties in the U.S. are invited to join the conference call by dialing 888-624-9285 and asking for the Brown-Forman call. International callers should dial 706-679-3410 and ask for the Brown-Forman call. No password is required. The company suggests that participants dial in approximately ten minutes in advance of the 010:00 a.m. start of the conference call.

Edgar Filing: BROWN FORMAN CORP - Form 8-K

A live audio broadcast of the conference call will also be available via Brown-Forman's Internet Web site, www.brown-forman.com, through a link to "Investors/Information." For those unable to participate in the live call, a replay will be available by calling 800-642-1687 (U.S.) or 706-645-9291 (international). The identification code is 9424319. A digital audio recording of the conference call will also be available on the Web site approximately one hour after the conclusion of the conference call. The replay will be available for at least 30 days following the conference call.

Brown-Forman Corporation is a diversified producer and marketer of fine quality consumer products, including Jack Daniel's, Southern Comfort, Finlandia Vodka, Tequila Herradura, el Jimador Tequila, Canadian Mist, Fetzer and Bolla Wines, and Korbel California Champagnes.

IMPORTANT NOTE ON FORWARD-LOOKING STATEMENTS:

This release contains statements, estimates, or projections that constitute "forward-looking statements" as defined under U.S. federal securities laws. Generally, the words "expect," "believe," "intend," "estimate," "will," "anticipate," and "project," and similar expressions identify a forward-looking statement, which speaks only as of the date the statement is made. Except as required by law, we do not intend to update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise. We believe that the expectations and assumptions with respect to our forward-looking statements are reasonable. But by their nature, forward-looking statements involve known and unknown risks, uncertainties and other factors that in some cases are out of our control. These factors could cause our actual results to differ materially from Brown-Forman's historical experience or our present expectations or projections. Here is a non-exclusive list of such risks and uncertainties:

- changes in general economic conditions, particularly in the United States where we earn a significant portion of our profits;
- lower consumer confidence or purchasing in the wake of higher energy prices or catastrophic events;
- tax increases, whether at the federal or state level or in major international markets and/or tariff barriers or other restrictions affecting beverage alcohol;
- limitations and restrictions on distribution of products and alcohol marketing, including advertising and promotion, as a result of stricter governmental policies adopted either in the United States or in international markets;
- adverse developments in the class action lawsuits filed against Brown-Forman and other spirits, beer and wine manufacturers alleging that our industry conspired to promote the consumption of alcohol by those under the legal drinking age;
- a strengthening U.S. dollar against foreign currencies, especially the British Pound, Euro, Australian Dollar, and the Mexican Peso;
- reduced bar, restaurant, hotel and travel business, including travel retail, in the wake of terrorist attacks;
- lower consumer confidence or purchasing associated with high energy prices;
- longer-term, a change in consumer preferences, social trends or cultural trends that results in the reduced consumption of our premium spirits brands;
- changes in distribution arrangements in major markets that limit our ability to market or sell our products;
- adverse impact on performance and reported results as a consequence of integrating acquisitions and ensuring their conformance to the company's trade practice standards, financial controls environment and U.S. public company requirements;
- increases in the price of energy or raw materials, including grapes, grain,

Edgar Filing: BROWN FORMAN CORP - Form 8-K

- wood, glass, and plastic;
- excess wine inventories or a world-wide oversupply of grapes or agave;
- termination of our rights to distribute and market agency brands included in our portfolio;
- counterfeit production of our products and any resulting negative effect on our intellectual property rights or brand equity; and
- adverse developments as a result of state or federal investigations of beverage alcohol industry trade practices of suppliers, distributors and retailers.

Schedule A

Brown-Forman Corporation Supplemental Information

	Full Year Diluted Earnings Per Share from Continuing Operations		
	Fiscal	Fiscal	% Change
	2006	2007	
Reported GAAP	\$3.20	\$3.22	1%
Australian distribution transition	(0.15)		
Glenmorangie distribution termination	(0.11)		
Gain on sale of winery assets	(0.04)	(0.08)	
Trade inventory levels	(0.05)	(0.01)	
Foreign exchange		(0.13)	
Acquisitions(4)		0.15	
Underlying(5)	\$2.85	\$3.15	11%

Schedule B

Brown-Forman Corporation Supplemental Information

	Q4 Diluted Earnings Per Share from Continuing Operations		
	Q4 2006	Q4 2007	% Change
Reported GAAP	\$0.61	\$0.56	(9%)
Australian distribution transition	(0.01)		
Foreign exchange		(0.02)	
Acquisitions(6)		0.12	
Underlying(5)	\$0.60	\$0.66	11%

(4) Includes \$0.02 for Chambord and \$0.13 for Casa Herradura.

(5) Management believes that disclosing this measure of earnings per share is important because it more accurately reflects the underlying operations and growth of the company.

(6) Includes \$0.01 for Chambord and \$0.11 for Casa Herradura.

Notes to Schedule A and B:

Australian distribution transition - Refers to the gain recorded during fiscal 2006 associated with changes in our distribution operations in Australia. The gain represents the receipt of a contractual termination payment, net of the loss of gross profits associated with the change in timing of revenue recognition for shipments to this now wholly-owned operation. We believe this

Edgar Filing: BROWN FORMAN CORP - Form 8-K

item creates a disproportionate effect on underlying business results, making comparisons difficult to understand for the reader. In addition, we believe that excluding this gain provides helpful information in forecasting and planning the growth expectations of the company.

Glenmorangie distribution termination - Refers to the gain recorded during fiscal 2006 associated with consideration received from the brand owner for the termination of the company's distribution and marketing rights for the Glenmorangie family of brands. We believe this item created a disproportionate effect on underlying business results, making comparisons difficult to understand for the reader. In addition, we believe that excluding this gain provides helpful information in forecasting and planning the growth expectations of the company.

Gain on sale of winery assets - Refers to the gain recorded during fiscal 2006 associated with the company's sale of the former Jekel winery, and the net gain recorded during fiscal 2007 associated with the sale of an Italian winery used in the production of Bolla wines. We believe these items create a disproportionate effect on underlying business results, making comparisons difficult to understand for the reader. In addition, we believe that excluding these gains provides helpful information in forecasting and planning the growth expectations of the company.

Trade inventory levels - Refers to the estimated financial impact of changes in wholesale trade inventories for the company's brands in markets where we use third-party distributors. It does not reflect any changes in markets where the company sells direct to the retail trade, such as the UK, Australia, Germany and Poland. We believe it is important to make this adjustment in order for management and investors to understand the results of our business without distortions that can arise from varying levels of wholesale inventories.

Foreign exchange - Refers to net gains and losses incurred by the company relating to sales and purchases in currencies other than the U.S. Dollar. We use the measure to understand the growth of the business on a constant dollar basis as fluctuations in exchange rates distort the underlying growth of our business (both positively and negatively). To neutralize the effect of foreign exchange fluctuations, we have historically translated current year results at prior year rates. While we recognize that foreign exchange volatility is a reality for a global company, we routinely review our company performance on a constant dollar basis. We believe this allows both management and our investors to understand better our company's growth trends.

Acquisitions - Refers to the various costs (primarily transition and interest expense) associated with the acquisitions of the Casa Herradura brands and Chambord. We believe brand acquisitions can create a disproportionate effect on underlying business results, making comparisons difficult to understand for the reader. In addition, we believe that excluding the acquisition costs of Chambord and Casa Herradura brands provide helpful information in forecasting and planning the growth expectations of the company.

The company cautions that non-GAAP measures should be considered in addition to, but not as a substitute for, the company's reported GAAP results.
