Item 2.02 Results of Operations and Financial Condition.

On January 29, 2009, Brunswick Corporation (“Brunswick”) announced its financial results for the fourth quarter and full year 2008. The news release issued by Brunswick announcing its fourth quarter and full year 2008 earnings is incorporated herein by reference and is included as Exhibit 99.1 to this Current Report on Form 8-K.

In the news release, Brunswick uses non-GAAP financial measures. For purposes of SEC Regulation G, a “non-GAAP financial measure” is a numerical measure of a registrant’s historical or future financial performance, financial position or cash flows that excludes amounts, or is subject to adjustments that have the effect of excluding amounts, that are included in the most directly comparable measure calculated and presented in accordance with GAAP in the statements of operations, balance sheets or statements of cash flows of the issuer; or includes amounts, or is subject to adjustments that have the effect of including amounts, that are excluded from the most directly comparable measure so calculated and presented. Operating and statistical measures and certain ratios and other statistical measures are not non-GAAP financial measures. GAAP refers to generally accepted accounting principles in the United States.

Brunswick has used the financial measures that are included in the news release for several years, both in presenting its results to stockholders and the investment community and in its internal evaluation and management of its businesses. Brunswick’s management believes that these measures (including those that are “non-GAAP financial measures”) and the information they provide are useful to investors because they permit investors to view Brunswick’s performance using the same tools that Brunswick uses and to better evaluate Brunswick’s ongoing business performance. Brunswick’s management believes that the non-GAAP financial measure “free cash flow” is also useful to investors because it is an indication of cash flow that may be available for investment in future growth initiatives. Brunswick defines free cash flow as cash flow from operating and investing activities of continuing operations (excluding acquisitions and investments) and excluding financing activities. In addition, Brunswick’s management believes that presentation of diluted earnings per share for the quarters and years ended December 31, 2008 and December 31, 2007, excluding goodwill and tradename impairment charges, net of tax; restructuring, exit and other impairment charges, net of tax; NBK investment sale gain, net of tax; the reversal of variable compensation accruals, net of tax; and special tax items, provides a more meaningful comparison to prior results.

The information in this report and the exhibit attached hereto shall not be deemed to be “filed” for purposes of Section 18 of the Securities and Exchange Act of 1934, or incorporated by reference in any filing under the Securities Act of 1933, as amended, or the Exchange Act, except as shall be expressly set forth by specific reference in such a filing.

Item 9.01. Financial Statements and Exhibits.
