Notes to Condensed Consolidated Financial Statements

Note 1 Nature of Operations and Basis of Presentation

Nature of Operations

MamaMancini's Holdings, Inc. (the "Company"), (formerly known as Mascot Properties, Inc.) was organized on July 22, 2009 as a Nevada corporation.

Current Business of the Company

The Company is a manufacturer and distributor of a line of beef meatballs with sauce, turkey meatballs with sauce, Italian sausage with sauce and other similar Italian meats with sauces. The Company's customers are located throughout the United States, with a large concentration in the Northeastern and Southeastern United States regions.

Mergers

On January 24, 2013, the Company, Mascot Properties Acquisition Corp, a Delaware corporation and wholly-owned subsidiary of the Company ("Merger Sub"), MamaMancini's, Inc., a privately-held Delaware Corporation headquartered in New Jersey ("MamaMancini's") and an individual (the "Majority Shareholder"), entered into an Acquisition Agreement and Plan of Merger (the "Agreement") pursuant to which the Merger Sub was merged with and into MamaMancini's, with MamaMancini's surviving as a wholly-owned subsidiary of the Company (the "Merger"). The Company acquired, through a reverse triangular merger, all of the outstanding capital stock of MamaMancini's in exchange for issuing MamaMancini's share to the majority shareholders (the "MamaMancini's Shareholders"), pro-rata, a total of 20,054,000 shares of the Company's common stock. Immediately after the Merger was consummated, and further to the Agreement, the majority shareholders and certain affiliates of the Company cancelled a total of 103,408,000 shares of the Company's common stock held by them (the "Cancellation"). In consideration of the Cancellation of such common stock, the Company paid the Majority Shareholder in aggregate of \$295,000 and 800,000 shares of common stock and released the other affiliates from certain liabilities. In addition, the Company has agreed to spinout to the Majority Shareholder all assets related to the Company's real estate management business within 30 days after the closing. As a result of the

Merger and the Cancellation, the MamaMancini's Shareholders became the majority shareholders of the Company.

The consolidated financial statements presented for all periods through and including September 30, 2013 are those of MamaMancini's. As a result of this Merger, the equity sections of MamaMancini's for all prior periods presented reflect the recapitalization described above and are consistent with the September 30, 2013 balance sheet presented for the Company.

Since the transaction is considered a reverse acquisition and recapitalization, the presentation of pro-forma financial information was not required.

Basis of Presentation

The condensed consolidated financial statements and accompanying footnotes are prepared in accordance with accounting principles generally accepted in the United States of America ("US GAAP") and include the accounts of the Company and its wholly-owned subsidiaries. All material intercompany balances and transactions have been eliminated in consolidation.

MamaMancini's Holdings, Inc.

Notes to Condensed Consolidated Financial Statements

September 30, 2013

The unaudited financial information furnished herein reflects all adjustments, consisting solely of normal recurring items, which in the opinion of management are necessary to fairly state the financial position of the Company and the results of its operations for the periods presented. This report should be read in conjunction with the Company's consolidated financial statements and notes thereto included in the Company's Form 10-K for the year ended December 31, 2012 filed on April 16, 2013. The Company assumes that the users of the interim financial information herein have read or have access to the audited financial statements for the preceding fiscal year and that the adequacy of additional disclosure needed for a fair presentation may be determined in that context. Accordingly, footnote disclosure, which would substantially duplicate the disclosure contained in the Company's Form 10-K for the year ended December 31, 2012 has been omitted. The results of operations for the interim periods presented are not necessarily indicative of results for the entire year ending December 31, 2013.

Note 2 Summary of Significant Accounting Policies

Principles of consolidation

All significant intercompany accounts and transactions have been eliminated in consolidation.

Use of estimates

The preparation of consolidated financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Such estimates and assumptions impact, among others, the following: allowance for bad debt, inventory obsolescence, the fair value of share-based payments.

Making estimates requires management to exercise significant judgment. It is at least reasonably possible that the estimate of the effect of a condition, situation or set of circumstances that existed at the date of the consolidated financial statements, which management considered in formulating its estimate could change in the near term due to one or more future confirming events. Accordingly, the actual results could differ significantly from our estimates.

Risks and uncertainties

The Company operates in an industry that is subject to intense competition and change in consumer demand. The Company's operations are subject to significant risk and uncertainties including financial and operational risks including the potential risk of business failure.

The Company has experienced, and in the future expects to continue to experience, variability in sales and earnings. The factors expected to contribute to this variability include, among others, (i) the cyclical nature of the grocery industry, (ii) general economic conditions in the various local markets in which the Company competes, including the general downturn in the economy, and (iii) the volatility of prices pertaining to food and beverages in connection with the Company's distribution of the product. These factors, among others, make it difficult to project the Company's operating results on a consistent basis.

Reclassifications

Certain amounts in the prior year have been reclassified to conform to the current year presentation.

Cash

The Company considers all highly liquid instruments purchased with a maturity of three months or less to be cash equivalents. The Company held no cash equivalents at September 30, 2013 and December 31, 2012.

The Company minimizes its credit risk associated with cash by periodically evaluating the credit quality of its primary financial institution. The balance at times may exceed federally insured limits.

MamaMancini's Holdings, Inc.

Notes to Condensed Consolidated Financial Statements

September 30, 2013

Accounts receivable and allowance for doubtful accounts

Accounts receivable are stated at the amount management expects to collect from outstanding balances. The Company generally does not require collateral to support customer receivables. The Company provides an allowance for doubtful accounts based upon a review of the outstanding accounts receivable, historical collection information and existing economic conditions. The Company determines if receivables are past due based on days outstanding, and amounts are written off when determined to be uncollectible by management. The maximum accounting loss from the credit risk associated with accounts receivable is the amount of the receivable recorded, which is the face amount of the receivable net of the allowance for doubtful accounts. As of September 30, 2013 and December 31, 2012, the Company had reserves of \$2,000.

Inventories

Inventories are stated at average cost using the first-in, first-out (FIFO) valuation method. Inventory was comprised of the following at September 30, 2013 and December 31, 2012:

	September 30, 2013	December 31, 2012
Finished goods	\$ 51,037	\$ 76,570

Depreciation

Property and equipment are recorded at cost. Depreciation expense is computed using straight-line methods over the estimated useful lives.

Asset lives for financial statement reporting of depreciation are:

Machinery and equipment	2-7 years
Vehicles	3-5 years

Fair Value of Financial Instruments

For purpose of this disclosure, the fair value of a financial instrument is the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced sale or liquidation. The carrying amount of the Company's short term financial instruments approximates fair value due to the relatively short period to maturity for these instruments.

Stock Issuance Costs

Stock Issuance costs are capitalized as incurred. Upon the completion of the offering, the stock issuance costs are reclassified to equity. Offering costs recorded to equity for the nine months ended September 30, 2013 and year ended December 31, 2012 were \$1,123,498 and \$1,088,964, respectively.

F-7

MamaMancini's Holdings, Inc.

Notes to Condensed Consolidated Financial Statements

September 30, 2013

Research and Development

Research and development is expensed as incurred. Research and development expenses for the nine months ended September 30, 2013 and 2012 were \$12,350 and \$65,070, respectively.

Shipping and Handling Costs

The Company classifies freight billed to customers as sales revenue and the related freight costs as cost of sales.

Revenue Recognition

The Company records revenue for products when all of the following have occurred: (1) persuasive evidence of an arrangement exists, (2) the product is delivered, (3) the sales price to the customer is fixed or determinable, and (4) collectability of the related customer receivable is reasonably assured. There is no stated right of return for products.

The Company meets these criteria upon shipment.

Expenses such as slotting fees and sales discounts are accounted for as a direct reduction of revenues as follows:

Nine Months Ended September 30, 2013	Nine Months Ended September 30, 2012
---	---

Edgar Filing: MamaMancini's Holdings, Inc. - Form 10-Q

Gross Sales	\$6,033,622	\$3,606,759
Less: Slotting, Discounts, Allowances	393,553	225,381
Net Sales	\$5,640,069	\$3,381,378

Cost of sales

Cost of sales represents costs directly related to the production and manufacturing of the Company's products. Costs include product development, freight, packaging, and print production costs.

Advertising

Costs incurred for producing and communicating advertising for the Company are charged to operations as incurred. Producing and communicating advertising expenses for the nine months ended September 30, 2013 and 2012 were \$1,267,035 and \$906,814, respectively.

Stock-based compensation

The Company accounts for stock-based compensation in accordance with ASC Topic 718, "Accounting for Stock-Based Compensation" ("ASC 718") which establishes financial accounting and reporting standards for stock-based employee compensation. It defines a fair value based method of accounting for an employee stock option or similar equity instrument. The Company accounts for compensation cost for stock option plans in accordance with ASC 718. The Company accounts for share based payments to non-employees in accordance with ASC 505-50 "Accounting for Equity Instruments Issued to Non-Employees for Acquiring, or in Conjunction with Selling Goods or Services".

MamaMancini's Holdings, Inc.

Notes to Condensed Consolidated Financial Statements

September 30, 2013

The Company recognizes all forms of share-based payments, including stock option grants, warrants and restricted stock grants, at their fair value on the grant date, which are based on the estimated number of awards that are ultimately expected to vest.

Share based payments, excluding restricted stock, are valued using a Black-Scholes option pricing model. Grants of share based payment awards issued to non-employees for services rendered have been recorded at the fair value of the share-based payment, which is the more readily determinable value. The grants are amortized on a straight-line basis over the requisite service periods, which is generally the vesting period. If an award is granted, but vesting does not occur, any previously recognized compensation cost is reversed in the period related to the termination of service. Stock based compensation expenses are included in cost of goods sold or selling, general and administrative expenses, depending on the nature of the services provided, in the Statement of Operations. For the nine months ended September 30, 2013 and 2012 share based compensation amounted to \$662,506 and \$293,898, respectively. \$505,973 of the \$662,506 recorded for the nine months ended September 30, 2013 was a direct cost of a stock offering and has been recorded as a reduction in additional paid in capital. The \$293,898 recorded for the nine months ended September 30, 2012 was a direct cost of a stock offering and has been recorded as a reduction in additional paid in capital.

For the nine months ended September 30, 2013, when computing fair value of share based payments, the Company has considered the following variables:

The risk-free interest rate assumption is based on the U.S. Treasury yield for a period consistent with the expected term of the option in effect at the time of the grant. The risk free rate used had a range of 0.68%-1.71%.

The Company has not paid any dividends on common stock since its inception and does not anticipate paying dividends on its common stock in the foreseeable future. Therefore the expected dividend rate was \$0.

The expected option term is computed using the "simplified" method as permitted under the provisions of Staff Accounting Bulletin ("SAB") 110.

The expected warrant term is the life of the warrant.

The expected volatility was benchmarked against similar companies in a similar industry. The expected volatility used had a range of 144%-145%.

The forfeiture rate is based on the historical forfeiture rate for the Company's unvested stock options, which was 0%.

For the nine months ended September 30, 2012, when computing fair value of share based payments, the Company has considered the following variables:

The risk-free interest rate assumption is based on the U.S. Treasury yield for a period consistent with the expected term of the option in effect at the time of the grant. The risk free rate used had a range of 0.63%-1.01%.

F-9

MamaMancini's Holdings, Inc.

Notes to Condensed Consolidated Financial Statements

September 30, 2013

The Company has not paid any dividends on common stock since its inception and does not anticipate paying dividends on its common stock in the foreseeable future. Therefore the expected dividend rate was \$0.

The expected option term is computed using the "simplified" method as permitted under the provisions of Staff Accounting Bulletin ("SAB") 110.

The expected warrant term is the life of the warrant.

Given the Company was privately held, expected volatility was benchmarked against similar companies in a similar industry. The expected volatility used was 128%.

The forfeiture rate is based on the historical forfeiture rate for the Company's unvested stock options, which was 0%.

Earnings per share

Basic earnings (loss) per share is computed by dividing net income (loss) by the weighted average number of shares of common stock outstanding during each period. Diluted earnings (loss) per share is computed by dividing net income (loss), adjusted for changes in income or loss that resulted from the assumed conversion of convertible shares, by the weighted average number of shares of common stock, common stock equivalents and potentially dilutive securities outstanding during the period.

The Company had the following potential common stock equivalents at September 30, 2013:

Common stock warrants, exercise price range of \$1.00-\$1.50 782,534

Edgar Filing: MamaMancini's Holdings, Inc. - Form 10-Q

Common stock options, exercise price of \$1.00	420,923
Total common stock equivalents	1,203,457

The Company had the following potential common stock equivalents at September 30, 2012:

Common stock warrants, exercise price of \$1.00	345,400
Common stock options, exercise price of \$1.00	223,404
Total common stock equivalents	568,804

Since the Company reflected a net loss during the three and nine months ended September 30, 2013 and 2012, the effect of considering any common stock equivalents, would have been anti-dilutive. A separate computation of diluted earnings (loss) per share is not presented.

Income Taxes

Income taxes are provided in accordance with ASC No. 740, Accounting for Income Taxes. A deferred tax asset or liability is recorded for all temporary differences between financial and tax reporting and net operating loss carryforwards. Deferred tax expense (benefit) results from the net change during the period of deferred tax assets and liabilities.

F-10

MamaMancini's Holdings, Inc.

Notes to Condensed Consolidated Financial Statements

September 30, 2013

Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment.

Penalties and interest assessed by income taxing authorities are included in general and administrative expenses.

Recent accounting pronouncements

There are no recent accounting pronouncements that are expected to have an effect on the Company's financial statements.

Note 3 Going Concern

As reflected in the accompanying consolidated financial statements, the Company has a net loss and net cash used in operations of \$1,858,028 and \$2,580,463, respectively, for the nine months ended September 30, 2013.

The ability of the Company to continue its operations is dependent on Management's plans, which include the raising of capital through debt and/or equity markets with some additional funding from other traditional financing sources, including term notes, until such time that funds provided by operations are sufficient to fund working capital requirements. The Company may need to incur additional liabilities with certain related parties to sustain the Company's existence.

The Company may require additional funding to finance the growth of its current and expected future operations as well as to achieve its strategic objectives. The Company believes its current available cash along with anticipated revenues may be insufficient to meet its cash needs for the near future if it does not receive the anticipated additional funding. There can be no assurance that financing will be available in amounts or terms acceptable to the Company, if

at all. These conditions raise substantial doubt about our ability to continue as a going concern. In that event, the Company would be required to change its growth strategy and seek funding on that basis, if at all.

The accompanying consolidated financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. These consolidated financial statements do not include any adjustments relating to the recovery of the recorded assets or the classification of the liabilities that might be necessary should the Company be unable to continue as a going concern.

Under the terms of the Agreement the Licensor shall develop for the Company a line of beef meatballs with sauce, Italian sausage with sauce and other similar Italian meats with sauces for commercial manufacture, distribution and sale (each a “Licensor Product” and collectively the “Licensor Products”). Licensor shall work with Licensee to develop Licensor Products that are acceptable to Licensee. Upon acceptance of a Licensor Product by Licensee, Licensor’s trade secret recipes, formulas methods and ingredients for the preparation and production of such Licensor Products (the “Recipes”) shall be subject to this Development and License Agreement.

The Non-Exclusive Term begins upon expiration of the Exclusive Term and continues indefinitely thereafter, until terminated by Licensor due to a material breach hereof by Licensee that remains uncured after notice and opportunity to cure in accordance herewith, or until terminated by Licensee.

Either party may terminate this Agreement in the event that the other party materially breaches its obligations and fails to cure such material breach within sixty (60) days following written notice from the non-breaching party specifying the nature of the breach. As used herein, "Net Sales" means gross invoiced sales of Products, directly or indirectly to unrelated third parties, less (a) discounts (including cash discounts), and retroactive price reductions or allowances actually allowed or granted from the billed amount (collectively "Discounts"); (b) credits, rebates, and allowances actually granted upon claims, rejections or returns, including recalls (voluntary or otherwise) (collectively, "Credits"); (c) freight, postage, shipping and insurance charges; (d) taxes, duties or other governmental charges levied on or measured by the billing amount, when included in billing, as adjusted for rebates and refunds; and (e) provisions for uncollectible accounts determined in accordance with reasonable accounting methods, consistently applied.

Social media activity has increased with facebook, twitter, pinterest, utube, newsletter mailings, blogs, and helpful consumer content including a recipe bank of videos and special projects such as a MamaMancini's Meatball Mobile Sweepstakes beginning mid-year. Aggressive consumer merchandising activity, including virtual couponing, product demonstrations, co-op retail advertising been undertaken to increase sales to existing customers and new customers.

We believe that the Company's all natural, frozen and fresh meat line of 22 ozMamaMancini's Brand of Slow Cooked Italian Sauce and Meatballs has shown excellent acceptance in the market since its introduction in late 2012. We believe that our pricing on the 22 oz line of beef, chicken, pork and turkey meatballs is attractive to our major customers.

Key sales personnel have been added and management believes that all major supermarket retailers, club stores and mass market accounts are actively being solicited. Additionally the Company has undertaken an effort to develop a sales network to major factors in the food service industry through fee based consultants who are specialists in this industry. The Company is also soliciting business in Canada and the Caribbean.

New products will be tested and offered for sale to our customer base in mid and late 2013. Mama's Mac N Cheese, and a gluten free beef meatball are the first of these new products. In addition the Company will be testing cheese stuffed meatballs, flavored poultry meatballs, and spicy beef meatballs later in the year as well as potentially pasta with meatballs.

The Company owns 24% of the common equity of Meatball Obsession and is its exclusive supplier of its meatball products. Meatball Obsession offers a fast service menu of take-out meatball offerings. Meatball Obsession opened its first location in 2012 in Manhattan and opened its second location in the Garden State Plaza Mall in May of this year. The business plan of Meatball Obsession is to rapidly open more units in 2014 based upon its success this year, however, there is no guarantee that Meatball Obsession will perform up to its expectations or be able to open any more units in the future.

The Company plans to increase its manufacturing source of supply in 2013 to meet an anticipated increased demand. Additions of high speed equipment and new production order flow will be undertaken in 2013. As sales increase, the Company expects that its packaging costs will decrease as it purchases longer runs of material and supplies but not guarantee that such packaging costs will decrease with the purchase of such materials or at all. The Company also expects that the labor costs component of the cost of goods sold will decrease in the later part of the year with higher speed equipment and order flow but cannot guarantee any such decrease in the labor costs.

The Company expects to have an operating loss in 2013 due to the investment in developing new and expanded business. These investments include slot fees to gain initial distribution, special marketing demo events to induce trial, major promotional campaigns for customers for initial trial, and the cost of additional personnel or fee based marketing and sales support while this new business is developing.

The Company believes that the MamaMancini's Brand has potentially great market brand equity once it is established. We believe that MamaMancini's products have the ability to grow into several areas of consumption by consumers such as frozen Italian specialties, frozen meat, fresh meat, prepared foods, hot bars, cold bars in delis, and sandwich sections of supermarkets, and other retailers. In addition we believe that MamaMancini's products can be sold into food service channels, mass market, export or as a component of other products.

Slotting fees are required in new placements with some, but not a majority of supermarket chains that the Company does business with. They are negotiated with each chain depending upon the expected return to the Company. We believe that we have successfully negotiated such slotting fees to a relatively low expense. We have taken into account future fees currently being negotiated in preliminary negotiations for new placements. We do not believe our size or financial limitations are an impediment to being able to pay such slotting fees. Slotting fee costs are an expense in growing the business as are other marketing and sales costs and the Company has accounted for these fees in assessing its estimated working capital for the next twelve months.

Gross Profit: The gross profit margin increased by approximately 3.0% of sales during the three months ended September 30, 2013 as compared to the three months ended September 30, 2012. This increase is primarily attributable to a change in product mix and lower packaging costs.

These expense increases were offset by decreases in the following expenses:

Liquidity and Capital Resources

The following table summarizes total current assets, liabilities and working capital at September 30, 2013 compared to December 31, 2012:

	Period ended		
	September	December	Increase/(Decrease)
	30, 2013	31, 2012	
Current Assets	\$3,961,080	\$2,964,630	\$ 996,450

Working Capital	\$3,553,661	\$2,435,397	\$ 1,118,264

As of September 30, 2013, we had working capital of \$3,553,661 as compared to working capital of \$2,435,397 as of December 31, 2012, an increase of \$1,118,264. The increase in working capital is primarily attributable to net cash

provided by financing activities during the nine months ended September 30, 2013. During the nine months ended September 30, 2013 the Company raised net proceeds of the \$3,539,475 from the sale of 2,771,334 shares of common stock.

Net cash (used in) operating activities for the nine months ended September 30, 2013 and 2012 was \$(2,580,463) and \$(1,400,638), respectively. The Net Loss for the nine months ended September 30, 2013 and 2012 was \$(1,858,028) and \$(1,319,776), respectively.

Net cash used in all investing activities for the nine months ended September 30, 2013 was \$(848,952) as compared to \$(10,000) for the nine months ended September 30, 2012. The Company paid \$295,000 for the acquisition of a company, \$405,825 for machinery and equipment, placed \$148,127 of deposits on machinery and equipment and loaned \$30,000 to a related party, and received \$30,000 from a related party loan during the nine months ended September 30, 2013. The Company paid \$10,000 for machinery and equipment during the nine months ended September 30, 2012.

Net cash provided by financing activities for nine months ended September 30, 2013 was \$3,339,475 as compared to \$2,643,661 for the nine months ended September 30, 2012. During the nine months ended September 30, 2013 the Company raised net proceeds of the \$3,539,475 from the sale of common stock, received advances from the Company credit line in the amount of \$150,000, and paid off the credit line in the amount of \$350,000. During the nine months ended September 30, 2012 the Company received net proceeds of \$2,943,661 from the sale of common stock and paid down the Company credit line in the amount of \$300,000.

The Company believes that our existing available cash along with estimated net proceeds from the issuance of securities during the fourth quarter of 2013 and first quarter of 2014 will enable the Company to meet the working capital requirements for at least 12 months. (See note 11 to the Financial Statements related to financings subsequent to September 30, 2013) The estimated working capital requirement for the next 12 months is \$2,200,000 with an estimated burn rate of \$183,000 per month. The Company continues to explore potential expansion opportunities in the industry in order to boost sales while leveraging distribution systems to consolidate lower costs.

As reflected in the accompanying financial statements, the Company has a net loss and net cash used in operations of \$1,858,028 and \$2,580,463, respectively, for the nine months ended September 30, 2013.

The ability of the Company to continue its operations is dependent on Management's plans, which include the raising of capital through debt and/or equity markets with some additional funding from other traditional financing sources, including term notes, until such time that funds provided by operations are sufficient to fund working capital requirements. The Company may need to incur additional liabilities with certain related parties to sustain the Company's existence.

The Company may require additional funding to finance the growth of its current and expected future operations as well as to achieve its strategic objectives. There can be no assurance that financing will be available in amounts or terms acceptable to the Company, if at all. In that event, the Company would be required to change its growth strategy and seek funding on that basis, though there is no guarantee it will be able to do so.

Our auditor has expressed substantial doubt about our ability to continue as a going concern. Our plan regarding these matters is to raise additional debt and/or equity financing to allow us the ability to cover our current cash flow requirements and meet our obligations as they become due. There can be no assurances that financing will be available or if available, that such financing will be available under favorable terms. In the event that we are unable to generate adequate revenues to cover expenses and cannot obtain additional financing in the near future, we may seek protection under bankruptcy laws. The accompanying financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. These financial statements do not include any adjustments relating to the recovery of the recorded assets or the classification of the liabilities that might be necessary should the Company be unable to continue as a going concern. During the Third and Fourth Quarter 2013, Management raised capital through equity financings. The Company intends to utilize the capital in order further advertise and market the Company's brand and to assist in penetrating additional distribution channels.

Recent Accounting Pronouncements

There are no recent accounting pronouncements that are expected to have an effect on the Company's financial statements.

Critical Accounting Policies

Our financial statements and related public financial information are based on the application of accounting principles generally accepted in the United States ("GAAP"). GAAP requires the use of estimates; assumptions, judgments and subjective interpretations of accounting principles that have an impact on the assets, liabilities, revenues and expense amounts reported. These estimates can also affect supplemental information contained in our external disclosures including information regarding contingencies, risk and financial condition. We believe our use of estimates and underlying accounting assumptions adhere to GAAP and are consistently and conservatively applied. We base our estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances. Actual results may differ materially from these estimates under different assumptions or conditions. We continue to monitor significant estimates made during the preparation of our financial statements.

Our significant accounting policies are summarized in Note 2 of our financial statements. While all these significant accounting policies impact our financial condition and results of operations, we view certain of these policies as critical. Policies determined to be critical are those policies that have the most significant impact on our financial statements and require management to use a greater degree of judgment and estimates. Actual results may differ from those estimates. Our management believes that given current facts and circumstances, it is unlikely that applying any other reasonable judgments or estimate methodologies would cause effect on our consolidated results of operations, financial position or liquidity for the periods presented in this report.

We believe the following critical accounting policies and procedures, among others, affect our more significant judgments and estimates used in the preparation of our consolidated financial statements:

Use of Estimates - The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Such estimates and assumptions impact, among others, the following: allowance for bad debt, inventory obsolescence, the fair value of share-based payments.

Making estimates requires management to exercise significant judgment. It is at least reasonably possible that the estimate of the effect of a condition, situation or set of circumstances that existed at the date of the financial statements, which management considered in formulating its estimate could change in the near term due to one or more future confirming events. Accordingly, the actual results could differ significantly from our estimates.

Stock-Based Compensation - The Company accounts for stock-based compensation in accordance with ASC Topic 718, "Accounting for Stock-Based Compensation" established financial accounting and reporting standards for stock-based employee compensation. It defines a fair value based method of accounting for an employee stock option or similar equity instrument. The Company accounts for compensation cost for stock option plans in accordance with ASC 718. The Company accounts for share based payments to non-employees in accordance with ASC 505-50 "Accounting for Equity Instruments Issued to Non-Employees for Acquiring, or in Conjunction with Selling, Goods or Services".

The Company recognizes all forms of share-based payments, including stock option grants, warrants and restricted stock grants, at their fair value on the grant date, which are based on the estimated number of awards that are ultimately expected to vest.

Share based payments, excluding restricted stock, are valued using a Black-Scholes option pricing model. Share based payment awards issued to non-employees for services rendered are recorded at either the fair value of the services rendered or the fair value of the share-based payment, whichever is more readily determinable. The grants are

amortized on a straight-line basis over the requisite service periods, which is generally the vesting period. If an award is granted, but vesting does not occur, any previously recognized compensation cost is reversed in the period related to the termination of service. Stock based compensation expenses are included in cost of goods sold or Selling, general and administrative expenses, depending on the nature of the services provided, in the Statement of Operations.

When computing fair value of share based payments, the Company has considered the following variables:

The risk-free interest rate assumption is based on the U.S. Treasury yield for a period consistent with the expected term of the option in effect at the time of the grant.

The Company has not paid any dividends on common stock since its inception and does not anticipate paying dividends on its common stock in the foreseeable future.

The expected warrant term is the contractual term of the warrant.

Given the Company was privately held, and the Company does not have significant history, expected volatility was benchmarked against similar companies in a similar industry.

Revenue recognition - The Company follows the guidance of the Securities and Exchange Commission's Staff Accounting Bulletin No. 104 for revenue recognition and records revenue when all of the following have occurred: (1) persuasive evidence of an arrangement exists, (2) the product is delivered, (3) the sales price to the customer is fixed or determinable, and (4) collectability of the related customer receivable is reasonably assured. There is no stated right of return for products. Sales are recognized upon shipment of products to customers.

Advertising - Costs incurred for producing and communicating advertising for the Company are charged to operations as incurred.

Off Balance Sheet Arrangements:

We do not have any off-balance sheet arrangements, financings, or other relationships with unconsolidated entities or other persons, also known as "special purpose entities" (SPEs).
