PART I

Item 1. Description of Business

Organization

a. Corporate History.

CoConnect, Inc. (formerly known as Advanced Wireless Communications, Inc.) (the “Company”) was incorporated in Alabama in December 1997 to take over the assets of related business involved in reorganizations through bankruptcies. In 1997, we acquired Mobile Limited Liability Company as part of the confirmation by the U.S. Bankruptcy Court for the Northern District of Texas of a Plan of Reorganization of Mobile Limited Liability Company. We acquired all of the assets of Digital Wireless Systems (“DWSI”) on August 6, 2000, as part of the consummation of DWSI’s confirmed Plan of Reorganization under Chapter 11 of the U.S. Bankruptcy Code. Lack of funding forced us to abandon plans to revive the operations of both companies.

In 2000, we acquired three operating subsidiaries, Daybreak Auto Recovery, Inc., Rap Group and Voltage Vehicles. In 2002, we rescinded these acquisitions, and in October 2004 cancelled the common shares that were to be issued for the acquisitions, which shares had been held in escrow. During 2002 and 2003, the Company had no operations other than to continue its efforts to liquidate certain telecommunications licenses, the only assets of the Company, in order to pay creditors who had judgments arising out of the bankruptcies.

In August of 2004, we moved our domicile to Nevada and changed our name to Advanced Wireless Communications, Inc.

On October 5, 2004, we signed a definitive agreement with Heritage Communications, Inc. (“Heritage”) and acquired an exclusive license for the marketing and distribution of products over Heritage’s proprietary high-speed wireless network.

On January 28, 2005, we executed a share exchange agreement with Heritage and its stockholders. The share exchange agreement closed on February 23, 2005 and superseded the exclusive license with Heritage by making Heritage our wholly owned subsidiary.

In February 2005, we changed our name to CoConnect, Inc.

On July 14, 2005, we rescinded the Share Exchange Agreement with Heritage due to material omissions and misrepresentations had been made by Heritage. As a result of the rescission, the Company cancelled the 30 million shares of common stock previously issued to the shareholders of Heritage.

On December 21, 2005, we purchased through our newly formed wholly-owned subsidiary, Phoenix Asset Acquisition Corporation, selected assets of Phoenix Systems Corp. ("Phoenix"). The terms of the purchase include the issuance of 8 million shares of our common stock, 2 million of which are being held in escrow until certain performance measures are achieved; a \$50,000 cash payment and the assumption of approximately \$374,000 of Phoenix liabilities and approximately \$49,000 in real property leases. At December 31, 2005, the Phoenix acquisition was mutually rescinded. The financial statements have been stated as if the transaction never happened.

On December 12, 2008, a majority of the holders of our common shares voted to authorize a reverse split of our common shares at a rate of 1 share for every 12,000 shares held. On March 10, 2009, NASDAQ notified us that the reverse split shareholder action of December 12, 2008, which took effect on January 12, 2009, would effect our stock trading symbol as of March 10, 2009 and that our new trading stock symbol would be "CCON."

b. Current Business Operations.

Our previous business model focused on the exploration of VoIP technology. VoIP is the delivery of voice information in the language of the Internet, i.e., as digital packets instead of the current circuit protocols of the copper-based phone networks. In VoIP systems analog voice messages are digitized and transmitted as a stream of data (not sound) packets that are reassembled and converted back into a voice signal at their destination. VoIP allows telephony users to bypass long-distance carrier charges by transporting those data packets just like other Internet information.

Although we are still investigating the profitability of pursuing the VoIP Technology business, management is of the belief that there may be more value for our shareholders if we were able to (i) attract a more substantial operating company and engage in a merger or business combination of some kind, or (ii) acquire assets or shares of an entity actively engaged in business which generates revenues. We have several acquisitions in mind and are investigating the candidates to determine whether or not they will add value to the Company for the benefit of our shareholders. Our Board of Directors intends to obtain certain assurances of value of the target entity's assets prior to consummating such a transaction. Any business combination or transaction will likely result in a significant issuance of shares and substantial dilution to our present stockholders.

We do not intend to restrict our consideration to any particular business or industry segment, and we may consider, among others, finance, brokerage, insurance, transportation, communications, research and development, service, natural resources, manufacturing or high-technology business. Of course, because we have limited resources, the scope and number of suitable candidates to merge with, will be limited accordingly. Because we may participate in a business opportunity with a newly organized firm or with a firm which is entering a new phase of growth, it should be emphasized that we may incur further risk due to the failure of the target's management to have proven its abilities or effectiveness, or the failure to establish a market for the target's products or services, or the failure to prove or predict profitability.

Personnel

As of December 31, 2012, we had no employees other than our officers and directors.

Item 2. Description of Properties

We currently do not own any real property nor do we lease any real property. We receive mail at 25 East 200 South Lehi, Utah 84043.

Item 3. Legal Proceedings

None.

Item 4. Mine Safety Disclosures

Not applicable.

PART II**Item 5: Market for Registrant's Common Equity and Related Stockholder Matters*****(a) Market Information.***

The common stock of the Company, \$.001 par value, is currently traded over the counter and is listed on the OTC Bulletin Board under the symbol "CCON." The availability of historical trading prices of our common stock is limited, with periods of little or no trading activity. The following table sets forth the available approximate range of high and low closing prices for the common stock of the Company during the periods indicated. The quotations presented are adjusted to reflect splits in our common stock and reflect inter-dealer prices, without retail markup, markdown, or commissions, and may not necessarily represent actual transactions in the common stock.

2011	Low	High
First Quarter	\$0.20	\$0.22
Second Quarter	0.06	0.22
Third Quarter	0.06	0.15
Fourth Quarter	0.06	0.61
2012	Low	High
First Quarter	\$0.51	\$0.79
Second Quarter	0.51	0.70
Third Quarter	0.53	1.01
Fourth Quarter	0.51	1.10

As reflected by the high and low prices on the foregoing table, the trading price of the common stock of the Company can be volatile with dramatic changes over short periods. The trading price may reflect imbalances in the supply and demand for shares of the Company, market reaction to perceived changes in the industry in which the Company sells products and services, general economic conditions, and other factors. Investors are cautioned that the trading price of the common stock can change dramatically based on changing market perceptions that may be unrelated to the Company and its activities.

(b) Approximate number of equity security holders

The approximate number of record holders of the Company's common stock as of April 23, 2014 was 4,687, which does not include shareholders whose stock is held through securities position listings.

(c) Dividends

The Company did not declare or pay any cash dividends on its common stock during the past two fiscal years.

(d) Securities authorized for issuance under equity compensation plans

We currently do not have any stock option or other equity compensation plans.

(e) Recent sales of unregistered securities.

None.

(f) Purchases of equity securities by the small business issuer and affiliated purchasers

During the year ended December 31, 2012, neither the Company nor any of its affiliates purchased any equity securities of the Company or on behalf of the Company.

Critical Accounting Policies

We rely on the use of estimates and make assumptions that impact our financial condition and results. These estimates and assumptions are based on historical results and trends as well as our forecasts as to how results and trends might change in the future. Although we believe that the estimates we use are reasonable, actual results could differ from those estimates.

We believe that the accounting policies described below are critical to understanding our business, results of operations and financial condition because they involve more significant judgments and estimates used in the preparation of our consolidated financial statements. An accounting policy is deemed to be critical if it requires an accounting estimate to be made based on assumptions about matters that are highly uncertain at the time the estimate is made, and any changes in the different estimates that could have been used in the accounting estimates that are reasonably likely to occur periodically could materially impact our consolidated financial statements.

Our most critical accounting policies and estimates that may materially impact our results of operations include:

Stock-Based Compensation. All share-based payments to employees, including grants of employee stock options and restricted stock grants, to be recognized in the financial statements based upon their fair values. We use the Black-Scholes option pricing model to estimate the grant-date fair value of share-based awards. Fair value is determined at the date of grant. The financial statement effect of forfeitures is estimated at the time of grant and revised, if necessary, if the actual effect differs from those estimates.

Our accounting policy for equity instruments issued to consultants and vendors in exchange for goods and services follows Financial Accounting Standards Board (“FASB”) guidance. As such, the value of the applicable stock-based compensation is periodically remeasured and income or expense is recognized during the vesting terms. The measurement date for the fair value of the equity instruments issued is determined at the earlier of (i) the date at which a commitment for performance by the consultant or vendor is reached or (ii) the date at which the consultant or vendor’s performance is complete. In the case of equity instruments issued to consultants, the fair value of the equity instrument is recognized over the term of the consulting agreement. An asset acquired in exchange for the issuance of fully vested, nonforfeitable equity instruments should not be presented or classified as an offset to equity on the grantor’s balance sheet once the equity instrument is granted for accounting purposes. Accordingly, we record the fair value of nonforfeitable equity instruments issued for future consulting services as prepaid consulting fees in our consolidated balance sheets.

Tax Liabilities. As part of the process of preparing our financial statements, we must estimate our actual current tax liabilities together with assessing temporary differences resulting from differing treatment of items for tax and accounting purposes. These differences result in deferred tax assets and liabilities, which are included within the balance sheet. We must assess the likelihood that the deferred tax assets will be recovered from future taxable income and, to the extent we believe that recovery is not likely, a valuation allowance must be established. To the extent we establish a valuation allowance or increase or decrease this allowance in a period, the impact will be included in the tax provision in the statement of operations.

Total costs and expenses of \$60,651 for the year ended December 31, 2011 consisted of \$8,500 in professional fees, \$0 in depreciation expense and \$52,151 in general and administrative expenses.

Net Profit (Loss)

	Year Ended December 31	
	2012	2011
Net Profit (Loss)	\$(24,588)	\$(91,102)

For the year ended December 31, 2012, we sustained net losses of \$24,588 as compared with net losses of \$91,102 for the year ended December 31, 2011.

No provision for income taxes has been recorded in the accompanying financial statements due to the net losses of the Company. Because of the bankruptcy proceedings and significant changes in ownership of its common stock, the Company has not determined the amount of net operating loss carryforwards that may be available to offset future taxable income of the Company. If there have been substantial changes in the Company's ownership, as defined in the Internal Revenue Code and related Regulations, there may be substantial annual limitations of the amount of net operating loss carryforwards, which could be utilized by the Company.

Liquidity and Capital Resources

At December 31, 2012, the Company had assets of \$70 comprised of \$70 in cash. There were liabilities of \$65,227 comprised of \$50,182 in accounts payable, and \$15,045 in other payables and amounts due to shareholders. Current assets of \$70 and current liabilities of \$65,227 resulted in a working capital deficiency of \$65,157. The Company reported total stockholders' deficit of \$65,157 at December 31, 2012.

The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern. Because of recurring operating losses and the excess of current liabilities over current assets, there is substantial doubt about the Company's ability to continue as a going concern. The Company's continuation as a going concern is dependent on attaining profitable operations through business acquisitions, restructuring its financial arrangements, and obtaining additional outside financing as needed.

We intend to retain any future earnings to retire any existing debt, finance the expansion of our business and any necessary capital expenditures, and for general corporate purposes.

Forward-Looking Statements

The Company, from time to time, may publish forward-looking statements relating to such matters as anticipated financial performance, business prospects, technological development, new products, research and development activities and similar matters. The Company notes that a variety of factors could cause the Company's actual results and experience to differ materially from the anticipated results or other expectations expressed in any of the Company's forward-looking statements. The risks and uncertainties that may affect the operations, performance, development and results of the Company's business include, but are not limited to, the following: (a) the failure to

obtain additional borrowed and/or equity capital on favorable terms for acquisitions and expansion; (b) adverse changes in federal and state laws, or other matters affecting the Company's business; (c) the demand for the Company's products and services; and (d) other risks detailed in the Company's Securities and Exchange Commission filings.

This Form 10-K contains and incorporates by reference certain "forward-looking statements" with respect to results of operations and businesses of the Company. All statements, other than statements of historical facts, included in this Form 10-K, including those regarding market trends, the Company's financial position, business strategy, projected costs, and plans and objectives of management for future operations, are forward-looking statements. In general, such statements are identified by the use of forward-looking words or phrases including, but not limited to, "intended, will, should, may, expect, anticipate, estimates, projects" or the negative thereof or variations thereon or similar terminology.

Forward-looking statements are based on the Company's current expectations. Although the Company believes that the expectations reflected in such forward-looking statements are reasonable, there can be no assurance that such expectations will prove to be correct. Because forward-looking statements involve risk and uncertainty, the Company's actual results could differ materially. Important factors that could cause actual results to differ materially from the Company's expectations are disclosed hereunder and elsewhere in this Form 10-K. These forward-looking statements represent the Company's judgment as of the date of this Form 10-K. All subsequent written and oral forward-looking statements attributable to the Company are expressly qualified in their entirety by the Cautionary Statements. The Company disclaims, however, any intent or obligation to update its forward-looking statements.

To the Board of Directors and Stockholders

CoConnect, Inc.

We have audited the accompanying balance sheets of CoConnect, Inc. (A Development Stage “Company”) as of December 31, 2012 and 2011 and the related statements of operations, changes in shareholders’ equity (deficit) and cash flows for the years ended December 31, 2012 and 2011. These financial statements are the responsibility of the Company’s management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of CoConnect, Inc. as of December 31, 2012 and 2011, and the result of its operations and its cash flows for the years ended December 31, 2012 and 2011 in conformity with U.S. generally accepted accounting principles.

The financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 2 to the financial statements, the Company’s losses from operations raise substantial doubt about its ability to continue as a going concern. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

COCONNECT, INC.

Notes to the Financial Statements

For the years ended December 31, 2012 and 2011

Note 1 - Organization And History of the Company

CoConnect, Inc. (the “Company”) was incorporated in Alabama in December 1997 to take over the assets of related businesses involved in reorganizations through bankruptcies. In 1997, the Company acquired Mobile Limited Liability Company (Mobile) as part of the confirmation by the U.S. Bankruptcy Court for the Northern District of Texas of a Plan of Reorganization of Mobile. The Company acquired all of the assets of Digital Wireless Systems (“DSWI”) on August 6, 2000, as part of the consummation of DSWI’s confirmed Plan of Reorganization under Chapter 11 of the U.S. Bankruptcy Code. Lack of funding forced the Company to abandon plans to revive the operations of both companies.

In 2000, the Company acquired three operating subsidiaries, Daybreak Auto Recovery, Inc., Rap Group, and Voltage Vehicles. In 2002, the Company rescinded these acquisitions and in October 2004 cancelled the common shares that were issued for the acquisitions, which shares had been held in escrow. During 2002 and 2003, the Company had no operations other than to continue its efforts to liquidate certain telecommunications licenses, the only assets of the Company, in order to pay creditors who had judgments arising out of the bankruptcies.

In August 2004, the Company changed its domicile to Nevada, and changed its name to Advanced Wireless Communications, Inc.

On October 5, 2004, the Company signed a definitive agreement with Heritage Communications, Inc. (“Heritage”) and acquired an exclusive license for the marketing and distribution of telecommunications products over Heritage’s proprietary high-speed wireless network.

The Company changed its name to CoConnect, Inc. in February, 2005.

Acquisition of Heritage Communications, Inc. and Rescission of Agreement

On January 28, 2005, the Company executed a Share Exchange Agreement (the “Agreement”) with Heritage Communications, Inc. (“Heritage”) and its shareholders. The Company acquired all of the outstanding shares of Heritage in exchange for 30 million shares of the Company’s common stock as provided by the Agreement.

As part of the Agreement, Heritage provided warranties and representations that, among other items, it had no undisclosed outstanding indebtedness and that it had filed all federal, state and local tax returns which were required and that Heritage had paid all taxes, interest and penalties, if any, due and payable related to its tax liabilities. Subsequent to the Agreement being executed, the Company determined that material omissions and misrepresentations had been made by Heritage. As a result of these omissions and misrepresentations, the Company rescinded the Agreement on July 14, 2005. As a result of the rescission, the Company issued a cancel order to the transfer agent on the 30 million shares of common stock previously issued to the shareholders of Heritage. The stock has been recorded at par value.

Acquisition of Phoenix Asset Systems Corp and Rescission of the Agreement

On December 17, 2005, the Company executed a Purchase Agreement (the “Agreement”) with Phoenix Asset Systems Corp. (“Phoenix”) and its shareholders. The Company acquired assets of Phoenix and assumed liabilities in exchange \$50,000 in cash and 8,000,000 shares of the Company’s common stock.

The Companies mutually rescinded the Agreement and the shares were returned to the Company’s office for cancellation.

Failed Plan of Merger with Boomj.com, Inc.

On March 23, 2007, we entered into a Loan Agreement (the “Loan Agreement”) with Richard Ferguson (“Ferguson”) and David O. Black (“Black”) whereby Ferguson and Black were to provide \$25,000 each to pay the Company’s debts. It was agreed that upon a successful merger or acquisition Ferguson and Black would be repaid out of proceeds received from the merger or acquisition together with 10% interest. In the event there was not a merger or acquisition acceptable to a majority of the Board of Directors within 180 days of the Loan Agreement, Ferguson and Black were to be immediately issued 50% of the authorized but unissued common stock of the Company; half of the shares to be issued to Ferguson and half of the shares to be issued to Black.

On August 7, 2007 we entered into an Agreement and Plan of Reorganization (the “Plan”) with CoConnect Sub, Inc., a newly-formed Nevada corporation (hereinafter “CoConnect Sub”) and Boomj.com, Inc., a Nevada corporation (hereinafter “BOOMJ”), pursuant to which CoConnect Sub agreed to merge with and into BOOMJ (the “Merger”). The proposed closing date for the Merger was August 31, 2007. BOOMJ was granted an extension to September 20, 2007 in which to send a non-refundable deposit. Said deposit was never received. On September 21, 2007, the merger between BOOMJ and the Company was cancelled due to lack of performance and failure to meet any of the objectives set forth in the Plan. Pursuant to the terms of the March 23, 2007 Loan Agreement, on September 23, 2007 Ferguson and Black were each issued 37,500,000 shares of our common stock.

Note 2 - Summary of Significant Accounting Policies

Going Concern Considerations

The accompanying financial statements have been prepared assuming the Company will continue as a going concern. Because of the recurring operating losses and the excess of current liabilities over current assets, there is substantial doubt about the Company’s ability to continue as a going concern. The Company’s continuation as a going concern is dependent on attaining profitable operations, restructuring its financial obligations, and obtaining additional outside financing. The Company has funded losses from operations primarily from the issuance of debt and the sale of the Company’s common stock. The Company believes that the issuance of debt and the sale of the Company’s common stock will continue to fund operating losses in the short-term until the Company can generate revenues sufficient to fund its operations.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (“U.S. GAAP”) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Estimates and assumptions principally relate to the fair value and forfeiture rates of stock based transactions, and long-lived asset depreciation and amortization, and potential impairment.

Cash and Cash Equivalents

Cash equivalents include short-term, highly liquid investments with maturities of three months or less at the time of acquisition.

Concentration of Risk

A financial instrument which potentially subjects the Company to concentrations of credit risk is cash. The Company places its cash with financial institutions deemed by management to be of high credit quality. The Federal Deposit Insurance Corporation ("FDIC") provides basic deposit coverage with limits to \$250,000 per owner. At December 31, 2012, there were no uninsured deposits.

Financial Instruments

Fair value measurements are determined based on the assumptions that market participants would use in pricing an asset or liability. ASC 820-10 establishes a hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. FASB ASC 820 establishes a fair value hierarchy that prioritizes the use of inputs used in valuation methodologies into the following three levels:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets. A quoted price in an active market provides the most reliable evidence of fair value and must be used to measure fair value whenever available.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect a reporting entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability. For example, level 3 inputs would relate to forecasts of future earnings and cash flows used in a discounted future cash flows method.

The recorded amounts of financial instruments, including cash equivalents accounts payable, other payables and due to shareholders, approximate their market values as of December 31, 2012.

Income Taxes

We account for income taxes under the provision of Accounting Standards Codification 740, "Income Taxes", or ASC 740. As of December 31, 2012 and 2011, there were no unrecognized tax benefits included in the consolidated balance sheets that would, if recognized, affect the effective tax rate. Our practice is to recognize interest and/or penalties related to income tax matters in income tax expense. We had no accrual for interest or penalties on our balance sheets at December 31, 2012 and 2011, respectively and have not recognized interest and/or penalties in the consolidated statement of operations for the years ended December 31, 2012 and 2011. We are subject to taxation in the United States and California.

The Company is subject to taxation in the United States and California. The Company does not have any income tax provision for the years ended December 31, 2012 and 2011 due to current and historical losses.

The provision for income taxes using the statutory federal income tax rate of 34% in 2012 and 2011 as compared to the company's effective tax rate is summarized as follows:

	for the year ended December 31, 2012	for the year ended December 31, 2011
Federal taxes	\$ (5,924)	\$ (28,264)
State taxes	(1,671)	(7,971)
Taxes	-	-
Change in Valuation Allowance	7,595	36,236
Income Tax Expense	\$ -	\$ -

At December 31, 2012 and 2011, the Company had deferred tax assets of \$4,047,649 and \$4,040,055, respectively. Due to uncertainties surrounding the Company's ability to generate future taxable income to realize these assets, a full valuation allowance has been established to offset the net deferred tax asset. Additionally, the future utilization of the Company's net operating loss to offset future taxable income may be subject to an annual limitation, pursuant to Internal Revenue Code Section 382, as a result of ownership changes that may have occurred previously or that could occur in the future. The Company has not performed a Section 382 analysis to determine the limitation of the net operating loss and research and development credit carry forwards.

Significant components of the company's deferred tax assets are as follows:

	December 31, 2012	December 31, 2011
NOL Carryforward	\$4,047,649	\$4,040,055
Valuation Allowance	(4,047,649)	(4,040,055)
Net deferred tax assets	\$-	\$-

Realization of the deferred tax assets is dependent upon the generation of future taxable income, the amount and timing of which are uncertain. Accordingly, the net deferred tax assets have been fully offset by a valuation allowance. The valuation allowance increased by approximately \$7,595 and \$36,236 in 2012 and 2011, respectively.

As of December 31, 2012, the Company had federal and California net operating loss carryforwards of approximately \$12 million. The federal and California tax loss carry forwards will begin to expire in 2025 and 2020, respectively, unless previously utilized.

The impact of an uncertain income tax position on the income tax return must be recognized at the largest amount that is more-likely-than-not to be sustained upon audit by the relevant taxing authority. An uncertain income tax position will not be recognized if it has 50% or less likelihood of being sustained upon examination. The Company believes that its income tax filing positions and deductions will be sustained on audit and does not anticipate any adjustments that will result in a material change to its financial position. Therefore, no reserves for uncertain income tax positions have been recorded.

The Company's practice is to recognize interest and/or penalties related to income tax matters in income tax expense. The Company had no accrual for interest or penalties at December 31, 2012 and 2011, and has not recognized interest and/or penalties in the consolidated statements of operations for the years ended December 31, 2012 and 2011. The Company's tax years for 2011 and forward are subject to examination by the United States and state tax authorities due to the carry forward of unutilized net operating losses

The tax years that remain subject to examination by major taxing jurisdictions are those for the years ended December 31, 2006-2012.

Basic Net Loss per Share of Common Stock

In accordance with US GAAP, basic net loss per common share is based on the weighted average number of shares outstanding during the periods presented. Diluted earnings per share are computed using weighted average number of common shares plus dilutive common share equivalents outstanding during the period. There is a total of \$0 and \$316,036 in convertible notes and accrued interest outstanding at December 31, 2012 and 2011, respectively, which are convertible into 0 and 1,529,907,108 shares of common stock, respectively, the common stock equivalents resulting from the issuance of these stock options have not been included in the per share calculations because such inclusion would be anti-dilutive.

	for the year ended December 31, 2012	for the year ended December 31, 2011
Numerator – (loss)	\$(24,588)	\$(91,102)
Denominator – weighted avg. number of shares outstanding	2,750,000	935,098
Loss per share – basic and diluted	\$(0.01)	\$(0.10)

Note 3 - Other Payables

The Company began capital raising efforts during the year ended December 31, 2011 to cover certain cash obligations regarding possible acquisition targets and other capital funding needs. At December 31, 2012, the Company had \$1,660 due to these prospective investors, which is shown as other payables on the Balance Sheets.

On September 30, 2011, NFM assigned all amounts due to it from the Company to a third party non-affiliate named BCGU, LLC (the "BCGU") and the Company approved of the assignment (the "Assignment"). Concurrent with the Assignment, BCGU agreed to settle the \$75,000 due related to the management fee along with three convertibles notes with principal balances totaling \$208,724, accrued interest totaling \$47,285, and 100,000 shares of Series A preferred stock, in exchange for the issuance of 100,000 shares of Series B Preferred Stock (the "Series B Preferred Stock") and 1,721,845 common shares of the Company (see Note 4. and Note 6. for more detail).

On October 26, 2010, the Noteholders filed a complaint against the Company arising from the unpaid Notes (the "Claims"). As of September 30, 2011 the complaint was dismissed without prejudice and all claims and disputes related to the litigation were amicably and privately resolved out of court. On April 5, 2012, the Board of Directors made the decision to dismiss our former accounting firm, Hansen, Barnett & Maxwell, PC. The decision to dismiss was based upon the Company's preference of accounting firms and the timing of filing the upcoming Form 10-K for the year ending December 31, 2011 and was approved by the Company's Board of Directors as the Company has no audit or similar committee. Following the dismissal of Hansen, Barnett & Maxwell, PC, we retained the our prior auditing firm of PLS, CPA to audit our financial statements for the year ending December 31, 2011 and review all interim period financial statements going forward. Such change in accountants was approved by the Company's Board of Directors. In connection with the prior engagement of Hansen, Barnett & Maxwell, PC up to the date of dismissal as described herein, there were no disagreements between Hansen, Barnett & Maxwell, PC and the Company on any matter of accounting principles or practices, financial statement disclosure, or auditing scope and procedures, nor any advisement of reportable events that, if not resolved to the satisfaction of Hansen, Barnett & Maxwell, PC would have caused Hansen, Barnett & Maxwell, PC to make reference to the subject matter of the disagreement or reportable events in connection with a report on our financial statements for such periods.

Item 9A. Controls and Procedures

(A) Evaluation of disclosure controls and procedures.

We evaluated the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the period covered by this Annual Report on Form 10-K. Disclosure controls and procedures are designed to ensure that information required to be disclosed in our reports filed under the Exchange Act, such as this Annual Report on Form 10-K is recorded, processed, summarized and reported within the time periods specified by the SEC. Disclosure controls are also designed to ensure that such information is accumulated and communicated to our management, including the CEO and CFO, as appropriate, to allow timely decisions regarding required disclosure. In our original filing of this Form 10-K, our management did not include a firm conclusion regarding their belief that the disclosure controls and procedures were effective. At such time, management was of the belief that such disclosure controls and procedures were effective, however, considering such conclusion was not included in the original filing of this Form 10-K, for that reason and that reason alone, management believes that, as of December 31, 2012, the Company's disclosure controls and procedures were ineffective. The Company plans to remedy this issue by completing their assessment of internal controls over financial reporting in a timely manner in their next 10-K for the year ending December 31, 2012 and including a firm conclusion as to such assessment.

(B) Management's report on internal controls over financial reporting.

The Company's management is responsible for establishing and maintaining effective internal control over financial reporting (as defined in Rule 13a-15(f) of the Securities Exchange Act). Management assessed the effectiveness of the Company's internal control over financial reporting as of December 31, 2012. In making this assessment, management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO"). Based on that assessment, management believes that, as of December 31, 2012, the Company's internal control over financial reporting was ineffective based on the COSO criteria, due to the following material weakness listed below.

Insufficient segregation of duties in our finance and accounting functions due to limited personnel. During the year ended December 31, 2012, the company internally performed all aspects of our financial reporting process, including, but not limited to, access to the underlying accounting records and systems, the ability to post and record journal entries and responsibility for the preparation of the financial statements. Due to the fact these duties were performed oftentimes by the same people, a lack of review was created over the financial reporting process that might result in a failure to detect errors in spreadsheets, calculations, or assumptions used to compile the financial statements and related disclosures as filed with the SEC. These control deficiencies could result in a material misstatement to our interim or annual financial statements that would not be prevented or detected.

Insufficient corporate governance policies. Although we have a code of ethics which provides broad guidelines for corporate governance, our corporate governance activities and processes are not always formally documented. Specifically, decisions made by the board to be carried out by management should be documented and communicated on a timely basis to reduce the likelihood of any misunderstandings regarding key decisions affecting our operations and management.

We intend to take appropriate and reasonable steps to make the necessary improvements to remediate these deficiencies and we intend to consider the results of our remediation efforts and related testing as part of our next year-end assessment of the effectiveness of our internal control over financial reporting.

This annual report does not include an attestation report of the company's registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by the company's registered public accounting firm pursuant to temporary rules of the Securities and Exchange Commission that permit the company to provide only management's report in this annual report.

(C) Changes in internal controls over financial reporting.

During the period covered by this report, there were no changes in the Company's internal control over financial reporting that occurred during the last fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
