The Company is currently a development stage company and does not current have any operations, and therefore no revenues.

Milestones

Our milestones and objectives over the next 12 months are significantly dependent on various factors which the Company may or may not be in control of, including, but not limited to: (a) obtaining adequate financing to sustain and expand our operations; (b) ability to identify suitable acquisition targets; (c) acquiring synergistic business operations to obtain revenue growth; (d) ability to develop new partnerships and distribution channels; (e) launching new marketing and sales strategies; (h) generating adequate cash flow from the sales of the products and services, once acquired, to sustain its operations.

Our plan of operations for the next twelve months is to complete the objectives described under the heading Management's Discussion and Analysis or Plan of Operations .

Capital & Uses of Proceeds

Capital Needs

To implement our plan of operations, we will need to continue to raise capital in an amount between \$500,000 to \$2.5 million in equity from restricted stock sales or other acceptable financing options over the remaining 6 months of year-ending 2013 on terms and conditions to be determined. Management may also elect to seek subsequent interim or bridge financing in the form of debt as may be necessary.

We anticipate the need to raise additional capital beyond the next 6 months of operations, subject to the successful implementation of our initial milestones over the last 180 days of operations of 2013 and our revenue growth cycle thereafter. At this time, management is unable to determine the specific amounts and terms of such future financings.

Proceeds

We foresee the proceeds from capital raised to be allocated as follows: (a) legal, audit, SEC filings and compliance fees; (b) working capital (general and administrative); (c) financing costs; (d) acquisition research and due diligence; (e) new business development and marketing; and (f) reserve capital for costs of acquisition and market expansion.

Competition

The Company conducts its business in an environment that is highly competitive and unpredictable. Competition may have considerable financial resources at their disposal, which could facilitate their access to the market under more favorable terms than the Company and could allow them faster market penetration.

Due to the Company's current position (seeking acquisition targets), the Company does not currently have any direct competitors at this time, however, this does not necessarily mean competition does not exist in terms of bidding for the same acquisition targets.

Employees

Currently, we have no employees in the Company, except for three (3) advisors which one of them is the sole Officer and Director of the Company. Each of the advisors spends on an average of forty percent (40%) of their available time on Company matters.

Other than engaging and/or retaining independent consultants to assist us in various administrative and marketing related needs, we do not anticipate a significant change in the number of our employees, if any, unless we are able to obtain adequate financing to complete one or more acquisitions. Currently, our officers / directors do not have any employment agreements with us.

Subsidiaries

As of December 31, 2012, we do not have any operating subsidiaries.

Intellectual Property

We do not currently own any intellectual property.

Patents, Trademarks, and Copyrights

We do not currently have any filed patents, trademarks or copyrights.

Dividend Policy

There are no restrictions in our articles of incorporation or bylaws that prevent us from declaring dividends. The Nevada Revised Statutes, however, do prohibit us from declaring dividends where, after giving effect to the distribution of the dividend:

1.
We would not be able to pay our debts as they become due in the usual course of business; or

2.
Our total assets would be less than the sum of our total liabilities plus the amount that would be needed to satisfy the rights of shareholders who have preferential rights superior to those receiving the distribution.

Company Overview

Mount Knowledge Holdings, Inc. is a software development and sales company focused on providing innovative technology solutions to the global marketplace.

For more details on the Company and its operations, please refer to **History** and **Company Overview** sections in Item 1. Business section, hereinabove in this filing.

Plan of Operations

Over the 12-months of 2013, we must raise capital and complete certain milestones as described below.

Milestones

The Company anticipates identifying and completing one or more acquisitions and/or mergers over the next 6-12 months, beginning in the third quarter of 2013, for the purposes of obtaining operations and revenues.

Requirements and Utilization of Funds

To implement our plan of operations, including some or all of the above described milestones (objectives), we anticipate the need to continue to raise capital (equity) in an amount between \$500K and \$2.5 million in equity from restricted stock sales or other acceptable financing options over the remaining 6 months of 2013 on terms and conditions to be determined. Management may elect to seek subsequent interim or bridge financing in the form of debt (corporate loans) as may be necessary.

Proceed

We foresee the proceeds from capital raised to be allocated as follows: (a) legal, audit, SEC filings and compliance fees; (b) working capital (general and administrative); (c) financing costs; (d) acquisition research and due diligence; (e) new business development and marketing; and (f) reserve capital for costs of acquisition and market expansion.

Financial Condition, Liquidity and Capital Resources

As of December 31, 2012, we had \$233 cash and cash equivalents. We had limited operations to date and we did not have any revenues during the twelve-month period ended December 31, 2012. We are illiquid and need cash infusions from investors and/or current shareholders to support our proposed marketing and sales operations.

Management believes this amount will not satisfy our cash requirements for the next 12 months and as such we will need to either raise additional proceeds and/or our officers and/or directors will need to make additional financial commitments to our company, neither of which is guaranteed. We plan to satisfy our future cash requirements, primarily the working capital required to execute on our objectives, including marketing and sales of our product, and to offset legal and accounting fees, through financial commitments from future debt/equity financings, if and when possible.

Management believes that we may generate some revenues within the next twelve (12) months, from acquisitions, but that these sales revenues may not satisfy our cash requirements during that period. We have no committed source for funds as of this date. No representation is made that any funds will be available when needed. In the event that funds cannot be raised when needed, we may not be able to carry out our business plan, may never achieve sales, and could fail to satisfy our future cash requirements as a result of these uncertainties.

If we are unsuccessful in raising the additional proceeds from officers and/or directors, we may then have to seek additional funds through debt financing, which would be extremely difficult for an early stage company to secure and may not be available to us. However, if such financing is available, we would likely have to pay additional costs associated with high-risk loans and be subject to above market interest rates.

At such time as these funds are required, management would evaluate the terms of such debt financing and determine whether the business could sustain operations and growth and manage the debt load. If we cannot raise additional proceeds via a private placement of our common stock or secure debt financing we would be required to cease business operations. As a result, investors in our common stock would lose all of their investment.

The staged development of our business will continue over the next 12 months. Other than engaging and/or retaining independent consultants to assist the Company in various administrative and marketing related needs, we do not anticipate a significant change in the number of our employees, if any, unless we are able to obtain adequate financing.

Our auditors have issued a going concern opinion. This means that there is substantial doubt that we can continue as an on-going business for the next 12 months unless we obtain additional capital to pay our expenses. This is because we have not generated any revenues and no substantial revenues are anticipated in the near-term. Accordingly, we must raise cash from sources other than from the sale of our products.

Results of Operations

The following summary of our results of operations should be read in conjunction with our audited financial statements for the year ended December 31, 2012 which are included herein.

Our operating results for the years ended December 31, 2012 and 2011, respectively are summarized as follows:

General and Administrative

The decrease in our general and administrative expenses for the year ended December 31, 2012 compared to December 31, 2011 was primarily due to the disposition of our operating subsidiaries. For the purposes of this disclosure, general and administrative fees include the Company's professional fees.

Professional fees include our accounting and auditing expenses incurred in connection with the preparation and audit of our financial statements and professional fees that we pay to our legal counsel. Our accounting and auditing expenses were incurred in connection with the preparation of our audited financial statements and unaudited interim financial statements and our preparation and filing of a registration statement with the SEC. Our legal expenses represent amounts paid to legal counsel in connection with our corporate organization. Legal expenses will be ongoing during fiscal 2012 and 2013, respectively, as we are subject to the reporting obligations of the Securities Exchange Act of 1934, as amended.

Cash Flows

We anticipate that we will incur approximately \$250,000 for operating expenses, including professional, legal and accounting expenses associated with our reporting requirements under the Exchange Act during the next twelve months. Accordingly, we will need to obtain additional financing in order to complete our business plan.

Cash Used in Operating Activities

We used net cash in operating activities in the amount of \$(380,954) during the year ended December 31, 2012 and \$(1,310,554) during the year ended December 31, 2011. Cash used in operating activities was funded by cash from financing activities. The decrease in operating activities in 2012 compared to 2011 was due to the disposal of all the Company's operating subsidiaries.

Cash Used in Investing Activities

We used net cash in investing activities in the amount of \$(2,100) during the year ended December 31, 2012 and \$(41,574) was used or provided in investing activities during the years ended December 31, 2011.

Cash Provided by Financing Activities

We generated \$322,000 net cash from financing activities during the year ended December 31, 2012 compared to net cash from financing activities in the amount of \$1,217,225 during the year ended December 31, 2011. Cash generated by financing activities during 2012 is attributable mainly to capital stock sales, issued notes, and related party borrowings of \$322,000. The decrease in the net cash from financing activities in 2012 compared to 2011 was due to the disposal of all the Company's operating subsidiaries during 2011 and 2012.

Disclosure of Outstanding Share Data

As of December 31, 2012, we had 190,695,096 shares of common stock issued and outstanding.

Going Concern

The financial statements accompanying this report have been prepared on a going concern basis, which implies that our company will continue to realize its assets and discharge its liabilities and commitments in the normal course of business. Our company has not generated revenues since inception and has never paid any dividends and is unlikely to pay dividends or generate earnings in the immediate or foreseeable future. The continuation of our company as a going concern is dependent upon the continued financial support from our shareholders, the ability of our company to obtain necessary equity financing to achieve our operating objectives, and the attainment of profitable operations.

As of December 31, 2012, we had accumulated losses of \$9,335,888 since inception and a working capital deficit of \$3,368,044. We do not have sufficient working capital to enable us to carry out our stated plan of operation for the next twelve months. These financial statements do not include any adjustments to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should our company be unable to continue as a going concern.

Due to the uncertainty of our ability to meet our current operating expenses and the capital expenses noted above in their report on the financial statements for the year ended December 31, 2012, our independent auditors included an explanatory paragraph regarding concerns about our ability to continue as a going concern. Our financial statements contain additional note disclosures describing the circumstances that lead to this disclosure by our independent auditors.

The continuation of our business is dependent upon us raising additional financial support. The issuance of additional equity securities by us could result in a significant dilution in the equity interests of our current stockholders. Obtaining commercial loans, assuming those loans would be available, will increase our liabilities and future cash commitments.

Future Financings

We anticipate continuing to rely on equity sales of our common shares in order to continue to fund our business operations. Issuances of additional shares will result in dilution to our existing stockholders. There is no assurance that we will achieve any additional sales of our equity securities or arrange for debt or other financing to fund our planned activities. There is no assurance that the Company will be able to obtain financing to carry on our legal, accounting and reporting needs.

Off-Balance Sheet Arrangements

We have no significant off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to stockholders.

Application of Critical Accounting Estimates

The financial statements of our company have been prepared in accordance with generally accepted accounting principles in the United States (GAAP). Because a precise determination of many assets and liabilities is dependent upon future events, the preparation of financial statements for a period necessarily involves the use of estimates, which have been made using careful judgment.

The financial statements have been prepared within the framework of the significant accounting policies summarized below:

Mineral Property and Exploration Costs

Until abandonment of its mineral property on January 23, 2009, we were an exploration stage mining company and had not realized any revenue from its operations. We were primarily engaged in the acquisition, exploration and development of mining properties. Exploration costs are expensed as incurred regardless of the stage of development or existence of reserves.

Costs of acquisition are capitalized subject to impairment testing, in accordance with ASC Topic 360, *Property, Plant and Equipment - Subsequent Measurement*, (formerly SFAS 144), when facts and circumstances indicate impairment may exist, as defined in Note 3, *Newly Adopted Accounting Policies And Recent Accounting Guidance*.

We regularly performed evaluations of any investment in mineral properties to assess the recoverability and/or the residual value of its investments in these assets. Also, long-lived assets were reviewed for impairment whenever events or circumstances change which indicate the carrying amount of an asset may not be recoverable.

Management periodically reviewed the carrying value of its investments in mineral leases and claims with internal and external mining related professionals. A decision to abandon, reduce or expand a specific project was based upon many factors including general and specific assessments of mineral deposits, anticipated future mineral prices, anticipated future costs of exploring, developing and operating a production mine, the expiration term and ongoing expenses of maintaining mineral properties and the general likelihood that the Company will continue exploration on such project.

The Company did not set a pre-determined holding period for properties with unproven deposits; however, properties which had not demonstrated suitable metal concentrations at the conclusion of each phase of an exploration program were re-evaluated to determine if future exploration was warranted, whether there has been any impairment in value and that their carrying values was appropriate.

If an area of interest is abandoned or it is determined that its carrying value cannot be supported by future production or sale, the related costs are charged against operations in the year of abandonment or determination of value. The amounts recorded as mineral leases and claims represent costs to date and do not necessarily reflect present or future values.

Recent Accounting Pronouncements

We do not expect the adoption of any recently issued accounting pronouncements to have a significant impact on our financial position, results of operations or cash flows.

Item 7A. Quantitative and Qualitative Disclosures About Market Risk.

Not applicable because we are a smaller reporting company.

Item 8. Financial Statements and Supplementary Data.

CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED DECEMBER 31, 2012 AND 2011

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Stockholders

Mount Knowledge Holdings, Inc. (A Development Stage Company)

We have audited the accompanying consolidated balance sheets of Mount Knowledge Holdings, Inc. (the Company) as of December 31, 2012 and 2011, and the related consolidated statements of operations and other comprehensive loss, stockholder's deficit and cash flows for the years then ended. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audit.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. Our audits also include examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as, evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Mount Knowledge Holdings, Inc. as of December 31, 2012 and 2011, and the results of its operations and cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 2 to the financial statements, the Company had an accumulated deficit of \$9,335,888 as of December 31, 2012. These considerations raise substantial doubt about the Company's ability to continue as a going concern. Management's plans regarding those matters are also described in Note 2 which contemplates continued operations of the Company, which in turn is dependent upon the Company's ability to raise additional capital, obtain

financing and to succeed in its future operations. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Actual results could differ from those estimates.

Assets Held for Sale

The Company considers assets to be assets held for sale when all of the following criteria are met:

- .
management commits to a plan to sell the assets;

it is unlikely that the disposal plan will be significantly modified or discontinued;

actions required to complete the sale of the property have been initiated;

The Financial Accounting Standards Board issued ASC (Accounting Standards Codification) 820-10 (SFAS No. 157), "Fair Value Measurements and Disclosures" for financial assets and liabilities. FASB ASC 820-10 provides a framework for measuring fair value and requires expanded disclosures regarding fair value measurements. FASB ASC 820-10 defines fair value as the price that would be received for an asset or the exit price that would be paid to transfer a liability in the principal or most advantageous market in an orderly transaction between market participants on the measurement date. FASB ASC 820-10 also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs, where available. The following summarizes the three levels of inputs required by the standard that the Company uses to measure fair value:

-

Level 1: Quoted prices in active markets for identical assets or liabilities.

-

Level 2: Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the related assets or liabilities.

-

Level 3: Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

All of the Company's financial instruments are recorded at fair value due to their term of maturity.

Financial Instruments and Concentration of Risk

The fair value of financial instruments, which consist of cash, accounts payable and accrued liabilities and loans payable, were estimated to approximate their carrying values due to the immediate or relatively short maturity of these instruments. Unless otherwise noted, it is management's opinion that this Company is not exposed to significant interest or credit risks arising from these financial instruments.

Basic and Diluted Loss per Share

In accordance with the Accounting Standards Codification (ASC) subtopic 260-10 (formerly SFAS No. 128 Earnings Per Share), the basic loss per common share is computed by dividing net loss available to common stockholders by the weighted average number of common shares outstanding. Diluted loss per common share is computed similar to basic loss per common share except that the denominator is increased to include the number of additional common shares that would have been outstanding if the potential common shares had been issued and if the additional common shares were dilutive. At December 31, 2012 and December 31, 2011, the Company had no stock equivalents that were anti-dilutive and excluded in the earnings per share computation.

Foreign Currency Translation

Mount Knowledge Holdings, Inc.'s functional currency is the U.S. dollar.

While Language Key Asia Ltd. presents its consolidated financial results and accompanying notes in U.S. dollar terms, its functional currency for its operations in The People's Republic of China (PRC) is the Chinese Renminbi, and its functional currency for its operations in Hong Kong is the Hong Kong dollar.

Transactions in Renminbi and Hong Kong dollars are translated into U.S. dollars as follows:

- i) monetary items at the exchange rate prevailing at the balance sheet date;

- ii) non-monetary items at the historical exchange rate;

- iii) revenue and expense at the average rate in effect during the applicable accounting period.

Translation adjustments resulting from this process are recorded in Stockholders' Equity as a component of Accumulated Other Comprehensive Income (Loss). Gains and losses arising on translation or settlement of foreign currency denominated transactions or balances are recorded in the Statement of Operations.

Investment in Unconsolidated Subsidiary

The Company has investments in a certain subsidiary of which the Company does not have control and therefore does not require consolidation. The investment is accounted for under the equity method.

Comprehensive Income

The Company had adopted ASC220, *Reporting Comprehensive Income*, which establishes standards for reporting and displaying comprehensive income, its components, and accumulated balances in a full-set of general-purpose financial statements. The Company's accumulated other comprehensive income represents the accumulated balance of foreign currency translation adjustments.

Share-based Payments

The Company accounts for share-based payments in accordance with the authoritative guidance issued by the FASB on stock compensation, which establishes the accounting for transactions in which an entity exchanges its equity instruments for goods or services. Under the provisions of the authoritative guidance, share-based compensation expense is measured at the grant date, based on the fair value of the award, and is recognized as an expense over the requisite employee service period (generally the vesting period). The Company estimates the fair value of share-based payments using the Black-Scholes option-pricing model. Additionally, share-based awards to non-employees are expensed over the period in which the related services are rendered at their fair value.

Revenue Recognition

The Company and its subsidiaries recognize revenues from training sales equally over the duration of training contracts. Revenues recognized for training courses that commence prior to an invoice being issued are classified on the Company's balance sheet as unbilled revenues.

Related Parties

A party is considered to be related to the Company if the party directly or indirectly or through one or more intermediaries, controls, is controlled by, or is under common control with the Company. Related parties also include principal owners of the Company, its management, members of the immediate families of principal owners of the Company and its management and other parties with which the Company may deal if one party controls or can significantly influence the management or operating policies of the other to an extent that one of the transacting parties might be prevented from fully pursuing its own separate interests. A party which can significantly influence the management or operating policies of the transacting parties or if it has an ownership interest in one of the transacting parties and can significantly influence the other to an extent that one or more of the transacting parties might be prevented from fully pursuing its own separate interests is also a related party.

Derivative Liability

Pursuant to ASC 815, *Derivatives and Hedging*, on March 31, 2011 and at the end of subsequent quarterly periods, the Company recorded mark-to-market adjustments based on the fair value of the derivative liability on those dates, which resulted as a contribution of \$2,852,455 and charge of \$4,812,705 for 2012 and 2011, respectively, to operations. The fair value of the derivative liability was determined using the Black Scholes option pricing model, using the following data and assumptions:

Recently Issued Accounting Pronouncements

-

Adopted

Effective January 2012, the Company adopted ASU No. 2011-05, Presentation of Comprehensive Income (ASU 2011-05). ASU 2011-05 is intended to increase the prominence of items reported in other comprehensive income and to facilitate convergence of accounting guidance in this area with that of the IASB. The amendments require that all non-owner changes in shareholders' equity be presented in a single continuous statement of comprehensive income or in two separate but consecutive statements. In December 2011, the FASB issued ASU No. 2011-12, Comprehensive Income (Topic 220): Deferral of the Effective Date for Amendments to the Presentation of Reclassifications of Items Out of Accumulated Other Comprehensive Income in Accounting Standards Update No. 2011-05 (ASU 2011-12). ASU 2011-12 defers the provisions of ASU 2011-05 that require the presentation of reclassification adjustments on the face of both the statement of income and statement of other comprehensive income. Amendments under ASU 2011-05 that were not deferred under ASU 2011-12 will be applied retrospectively for fiscal years, and interim periods within those years, beginning after December 15, 2011. The adoption of this update did not have a material impact on the consolidated financial statements and related disclosures.

Not Adopted

In December 2011, the FASB issued ASU No. 2011-11: Balance Sheet (topic 210): Disclosures about Offsetting Assets and Liabilities, which requires new disclosure requirements mandating that entities disclose both gross and net information about instruments and transactions eligible for offset in the statement of financial position as well as instruments and transactions subject to an agreement similar to a master netting arrangement. In addition, the standard requires disclosure of collateral received and posted in connection with master netting agreements or similar arrangements. This ASU is effective for annual reporting periods beginning on or after January 1, 2013, and interim periods within those annual periods. Entities should provide the disclosures required retrospectively for all comparative periods presented. We are currently evaluating the impact of adopting ASU 2011-11 on the consolidated financial statements and related disclosures.

In February 2013, the FASB issued ASU No. 2013-02, Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive (ASU 2013-02). This guidance is the culmination of the FASB's deliberation on reporting

reclassification adjustments from accumulated other comprehensive income (AOCI). The amendments in ASU 2013-02 do not change the current requirements for reporting net income or other comprehensive income. However, the amendments require disclosure of amounts reclassified out of AOCI in its entirety, by component, on the face of the statement of operations or in the notes thereto. Amounts that are not required to be reclassified in their entirety to net income must be cross-referenced to other disclosures that provide additional detail. This standard is effective prospectively for annual and interim reporting periods beginning after December 15, 2012. The Company is evaluating the effect, if any, the adoption of ASU 2013-02 will have on its consolidated financial statements and related disclosures.

In July 2013, the FASB issued ASU No. 2013-11, Income Taxes (Top 740): Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists. The objective of ASU No. 2013-11 is to provide guidance on the financial statement presentation of an unrecognized tax benefit when a net loss carryforward, similar tax loss, or tax credit carryforward exists. The amendments in this standard is effective for all entities that have unrecognized tax benefits when a net operating loss carryforward, a similar tax loss, or a tax credit carryforward exists for fiscal years, and interim periods beginning after December 15, 2013. We are evaluating the effect, if any, adoption of ASU No. 2013-11 will have on our consolidated financial statements.

Other recent accounting pronouncements issued by the FASB (including its Emerging Issues Task Force), the American Institute of Certified Public Accountants, and the United States Securities and Exchange Commission did not or are not believed by management to have a material impact on the Company's present or future financial statements.

Note 2 - Going Concern

The accompanying consolidated financial statements have been prepared assuming the Company will continue as a going concern. As shown in the accompanying financial statements, the Company incurred net income of \$2,724,096 for the year ended December 31, 2012. In addition, the Company had a working capital deficit of \$3,368,044 and deficit of \$9,335,887 as of December 31, 2012. These conditions raise substantial doubt as to the Company's ability to continue as a going concern.

The ability of the Company to continue as a going concern is dependent upon its ability to obtain financing. Management has plans to seek additional capital through debt, and private and public offerings of its common stock. The financial statements do not include any adjustments relating to the recoverability and classification of recorded assets, or the amounts of and classification of liabilities that might be necessary in the event the Company cannot continue as a going concern.

The ownership structure of Mount Knowledge Technologies Inc. enables it to seek small business development incentive programs and other private and public research initiatives available in Canada. The investment in Mount Knowledge Technologies Inc. is recorded by the Company using the equity method of accounting.

Subsequently, on December 28, 2010, the Company entered into a five-year Option Agreement with Ucandu to purchase the remaining 510,000 shares of common stock of MTK Tech (51%) for an exercise price of 100,000 shares of the Company's common stock, at the Company's discretion. Item 9. Changes In and Disagreements With Accountants On Accounting and Financial Disclosure.

We had no changes in or disagreements with accountants on accounting and financial disclosure in 2012 or 2011.

Item 9A. Controls and Procedures.

(a) Evaluation of Disclosure Controls and Procedures

Our principal executive and principal financial officers have evaluated the effectiveness of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act) that are designed to ensure that information required to be disclosed in our reports under the Exchange Act, is recorded, processed, summarized and reported within the time periods required under the SEC's rules and forms and that the information is gathered and communicated to our management, including our principal executive officer, principal accounting officer and principal financial officer, as appropriate, to allow for timely decisions regarding required disclosure.

Our principal executive officer, principal accounting officer and principal financial officer evaluated the effectiveness of our disclosure controls and procedures (as defined in Exchange Act Rule 13a-15(e)) as of the end of the period covered by this report. Based on this evaluation, our principal executive officer, principal accounting officer and principal financial officer concluded that our disclosure controls and procedures were not effective as of the end of the period covered by this report.

Management's Report on Internal Control Over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act. Our internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. Our internal control over financial reporting includes those policies and procedures that:

1. Pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of our assets;
2. Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with U.S. GAAP, and that our receipts and expenditures are being made only in accordance with the authorization of our management and directors; and
3. Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may

deteriorate.

Management assessed the effectiveness of our internal control over financial reporting as of December 31, 2012. Based on this assessment, management concluded that the Company did not maintain effective internal controls over financial reporting as a result of the identified material weakness in our internal control over financial reporting described below. In making this assessment, management used the framework set forth in the report entitled Internal Control Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission, or COSO. The COSO framework summarizes each of the components of a company's internal control system, including (i) the control environment, (ii) risk assessment, (iii) control activities, (iv) information and communication, and (v) monitoring.

This annual report does not include an attestation report of the Company's independent registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by our registered public accounting firm pursuant to Rule 308(b) of Regulation S-K, which permits the Company to provide only management's report in this Annual Report.

Identified Material Weaknesses and Management's Remediation Initiatives

A material weakness in our internal control over financial reporting is a control deficiency, or combination of control deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected.

Management identified the following material weaknesses during its assessment of internal controls over financial reporting as of December 31, 2012:

The Company lacks an audit committee with an independent financial expert. The Company is planning to form an audit committee and hopes to do so within the next fiscal year.

The Company's accounting department lacks sufficient employees to maintain a segregation of duties. The Company is planning to hire a controller and any necessary additional accounting personnel necessary to mitigate these issues.

(b) Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting or in other factors that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting in our most recent fiscal quarter.

Other than engaging and/or retaining independent consultants to assist us in various administrative and marketing related needs, we do not anticipate a significant change in the number of our employees, if any, unless we are able to obtain adequate financing. Currently, our officers / directors do not have any employment agreements with us.

Term of Office

Our directors are appointed for a one-year term to hold office until the next annual general meeting of our shareholders or until removed from office in accordance with our bylaws. Our officers are appointed by our board of directors and hold office until removed by the board.

Significant Employees

We have no significant employees other than the director and officer described above.

Family Relationships

There are no family relationships among our directors or officers.

Involvement in Certain Legal Proceedings

To the best of our knowledge, none of our directors or executive officers has, during the past ten years:

been convicted in a criminal proceeding or been subject to a pending criminal proceeding (excluding traffic violations and other minor offenses);

had any bankruptcy petition filed by or against the business or property of the person, or of any partnership, corporation or business association of which he was a general partner or executive officer, either at the time of the bankruptcy filing or within two years prior to that time;

been subject to any order, judgment, or decree, not subsequently reversed, suspended or vacated, of any court of competent jurisdiction or federal or state authority, permanently or temporarily enjoining, barring, suspending or otherwise limiting, his involvement in any type of business, securities, futures, commodities, investment, banking, savings and loan, or insurance activities, or to be associated with persons engaged in any such activity;

been found by a court of competent jurisdiction in a civil action or by the Securities and Exchange Commission or the Commodity Futures Trading Commission to have violated a federal or state securities or commodities law, and the judgment has not been reversed, suspended, or vacated;

been the subject of, or a party to, any federal or state judicial or administrative order, judgment, decree, or finding, not subsequently reversed, suspended or vacated (not including any settlement of a civil proceeding among private litigants), relating to an alleged violation of any federal or state securities or commodities law or regulation, any law or regulation respecting financial institutions or insurance companies including, but not limited to, a temporary or permanent injunction, order of disgorgement or restitution, civil money penalty or temporary or permanent cease-and-desist order, or removal or prohibition order, or any law or regulation prohibiting mail or wire fraud or fraud in connection with any business entity; or

Audit Committee

For the year ended December 31, 2011, the Company did not have an audit committee. However, the Company intends to establish a new and independent auditing committee consisting of a minimum of three members in accordance with a new corporate governance policy to be adopted by the Company in 2012 in order to comply with the rules and regulations of the Sarbanes-Oxley Act of 2002.

Audit Committee Financial Expert

Our board of directors has determined that it does not have an audit committee member that qualifies as an audit committee financial expert as defined in Item 407(d)(5)(ii) of Regulation S-K. We believe that the audit committee to be formed will have members capable of collectively analyzing and evaluating our financial statements and understanding internal controls and procedures for financial reporting. In addition, we believe that retaining an independent director who would qualify as an audit committee financial expert would be overly costly and burdensome and is not warranted in our circumstances given the early stages of our development and the fact that we have not generated revenues to date.

Code of Ethics

We adopted a Code of Ethics applicable to all of our directors, officers, employees and consultants, which is a "code of ethics" as defined by applicable rules of the SEC. Our Code of Ethics is attached as an exhibit to our annual report on Form 10-KSB filed on February 13, 2008. If we make any amendments to our Code of Ethics other than technical, administrative, or other non-substantive amendments, or grant any waivers, including implicit waivers, from a provision of our Code of Ethics to our chief executive officer, chief financial officer, or certain other finance executives, we will disclose the nature of the amendment or waiver, its effective date and to whom it applies in a Current Report on Form 8-K filed with the SEC.

Section 16(a) Beneficial Ownership Compliance

Section 16(a) of the Exchange Act requires our executive officers and directors and persons who own more than 10% of a registered class of our equity securities to file with the SEC initial statements of beneficial ownership, reports of changes in ownership and annual reports concerning their ownership of our common stock and other equity securities, on Forms 3, 4 and 5 respectively. Executive officers, directors and greater than 10% shareholders are required by the SEC regulations to furnish us with copies of all Section 16(a) reports that they file.

Based solely on our review of the copies of such forms received by us, or written representations from certain reporting persons, we believe that all filing requirements applicable to our officers, directors and greater than ten percent beneficial owners were complied with.

Director Independence

Our common stock is quoted on the OTC bulletin board interdealer quotation system, which does not have director independence requirements. Under NASDAQ rule 4200(a)(15), a director is not considered to be independent if he or she is also an executive officer or employee of the corporation. Our sole director, James D. Beatty, whom succeeded Daniel A. Carr on March 30, 2012, is also our chief executive officer, president and treasurer. As a result, we do not have any independent directors.

As a result of our limited operating history and limited resources, our management believes that we will have difficulty in attracting independent directors. In addition, we would be likely be required to obtain directors and officers insurance coverage in order to attract and retain independent directors. Our management believes that the costs associated with maintaining such insurance is prohibitive at this time.

The audit committee has adopted specific policies and procedures for the engagement of non-audit services as set out in the Audit Committee Charter of our company. A copy of our company's Audit Committee Charter is filed as an exhibit to this annual report.

Transactions with Independent Directors

Our sole director, James D. Beatty, is also our chief executive officer, president and treasurer. As a result, we do not have any independent directors.

Board of Directors

Our board of directors currently acts with one member consisting of James D. Beatty. We have determined that Mr. Beatty is not independent as that term is defined in National Instrument 52-110 due to the fact that they were all directors and officers.

Our board of directors facilitates its exercise of independent supervision over management by endorsing the guidelines for responsibilities of the board as set out by regulatory authorities on corporate governance in the United States. Our board's primary responsibilities are to supervise the management of our company, to establish an appropriate corporate governance system, and to set a tone of high professional and ethical standards.

The board is also responsible for:

.

selecting and assessing members of the Board;

.

choosing, assessing and compensating the Chief Executive Officer of our company, approving the compensation of all executive officers and ensuring that an orderly management succession plan exists;

.

reviewing and approving our company's strategic plan, operating plan, capital budget and financial goals, and reviewing its performance against those plans;

.

adopting a code of conduct and a disclosure policy for our company, and monitoring performance against those policies;

.

ensuring the integrity of our company's internal control and management information systems;

.

approving any major changes to our company's capital structure, including significant investments or financing arrangements; and

.

reviewing and approving any other issues which, in the view of the Board or management, may require Board scrutiny.

Orientation and Continuing Education

We have an informal process to orient and educate new recruits to the board regarding their role of the board, our committees and our directors, as well as the nature and operations of our business. This process provides for an orientation with key members of the management staff, and further provides access to materials necessary to inform them of the information required to carry out their responsibilities as a board member. This information includes the most recent board approved budget, the most recent annual report, the audited financial statements and copies of the interim quarterly financial statements.

The board does not provide continuing education for its directors. Each director is responsible to maintain the skills and knowledge necessary to meet his or her obligations as directors.

Nomination of Directors

The board is responsible for identifying new director nominees. In identifying candidates for membership on the board, the board takes into account all factors it considers appropriate, which may include strength of character, mature judgment, career specialization, relevant technical skills, diversity and the extent to which the candidate would fill a present need on the board. As part of the process, the board, together with management, is responsible for conducting background searches, and is empowered to retain search firms to assist in the nominations process. Once candidates have gone through a screening process and met with a number of the existing directors, they are formally put forward as nominees for approval by the board.

Assessments

The board intends that individual director assessments be conducted by other directors, taking into account each director's contributions at board meetings, service on committees, experience base, and their general ability to contribute to one or more of our company's major needs. However, due to our stage of development and our need to deal with other urgent priorities, the board has not yet implemented such a process of assessment.

Item 14. Principal Accountant Fees and Services.**Audit fees**

The aggregate fees billed for the two most recently completed fiscal periods ended December 31, 2012 and December 31, 2011 for professional services rendered by MaloneBailey LLP (predecessor accountants) and Anton & Chia LLP for the audit of our annual consolidated financial statements, quarterly reviews of our interim consolidated financial statements and services normally provided by the independent accountant in connection with statutory and regulatory filings or engagements for these fiscal periods were as follows:

	Year Ended December 31, 2012	Year Ended December 31, 2011
Audit Fees and Audit Related Fees	25,000	50,000
Tax Fees	-	-
All Other Fees	-	-
Total	25,000	50,000

In the above table, audit fees are fees billed by our company's external auditor for services provided in auditing our company's annual financial statements for the subject year. Audit-related fees are fees not included in audit fees that are billed by the auditor for assurance and related services that are reasonably related to the performance of the audit review of our company's financial statements. Tax fees are fees billed by the auditor for professional services rendered for tax compliance, tax advice and tax planning. All other fees are fees billed by the auditor for products and services not included in the foregoing categories.

Policy on Pre-Approval by Audit Committee of Services Performed by Independent Auditors

The board of directors pre-approves all services provided by our independent auditors. All of the above services and fees were reviewed and approved by the board of directors either before or after the respective services were rendered.

The board of directors has considered the nature and amount of fees billed by Anton & Chia LLP and believes that the provision of services for activities unrelated to the audit is compatible with maintaining Anton & Chia LLP.
