MARATHON PATENT GROUP, INC.
(FORMERLY AMERICAN STRATEGIC MINERALS CORPORATION)
(DEVELOPMENT STAGE COMPANY)
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
MARCH 31, 2013

NOTE 1 - ORGANIZATION AND DESCRIPTION OF BUSINESS

Organization

Marathon Patent Group, Inc. ("the Company"), formerly American Strategic Minerals Corporation, was incorporated under the laws of the State of Nevada on February 23, 2010.

On December 7, 2011, the Company filed a Certificate of Amendment to its Articles of Incorporation with the Secretary of State of the State of Nevada in order to change its name to "American Strategic Minerals Corporation" from "Verve Ventures, Inc.", and increase the Company's authorized capital to 200,000,000 shares of common stock, par value $0.0001 per share, and 50,000,000 shares of preferred stock, par value $0.0001 per share. During June 2012, the Company decided to discontinue its exploration and potential development of uranium and vanadium minerals business. Additionally, in November 2012, the Company decided to discontinue its real estate business.

On August 1, 2012, the shareholders holding a majority of the Company's voting capital voted in favor of (i) changing the name of the Company to "Fidelity Property Group, Inc." and (ii) the adoption the 2012 Equity Incentive Plan and reserving 10,000,000 shares of common stock for issuance thereunder (the "2012 Plan"). The board of directors of the Company (the "Board of Directors") approved the name change and the adoption of the 2012 Plan on August 1, 2012. The Company did not file an amendment to its Articles of Incorporation with the Secretary of State of Nevada and subsequently abandoned the decision to adopt the "Fidelity Property Group, Inc." name.

On October 1, 2012, the shareholders holding a majority of the Company's voting capital voted and authorized the Company to (i) change the name of the Company to Marathon Patent Group, Inc. (the "Name Change") and (ii) effectuate a reverse stock split of the Company's common stock by a ratio of 3-for-2 (the "Reverse Split") within one year from the date of approval of the stockholders of the Company. The Board of Directors of the Company approved the Name Change and the Reverse Split on October 1, 2012. The Company's Board of Directors determined the name "Marathon Patent Group, Inc." better reflects the long-term strategy in exploring other opportunities and the identity of the Company going forward. On February 15, 2013, the Company filed the Certificate of Amendment with the Secretary of State of the State of Nevada in order to effectuate the Name Change. Currently, the Reverse Split has been authorized by the Company's shareholders but has not been effectuated.

On January 26, 2012, the Company entered into a Share Exchange Agreement (the "Exchange Agreement") with American Strategic Minerals Corporation, a Colorado corporation ("Amicor") and the shareholders of Amicor (the "Amicor Shareholders"). Upon closing of the transaction contemplated under the Exchange Agreement (the "Share Exchange"), on January 26, 2012, the Amicor Shareholders transferred all of the issued and outstanding capital stock of Amicor to the Company in exchange for an aggregate of 10,000,000 shares of the common stock of the Company. The Share Exchange caused Amicor to become a wholly-owned subsidiary of the Company. Additionally, as further consideration for entering into the Exchange Agreement, certain Amicor Shareholders received ten-year warrants to purchase an aggregate of 6,000,000 shares of the Company's common stock with an exercise price of 0.50 per share. Prior to acquisition by the Company, Amicor owned certain mining and mineral rights.

Amicor, formerly Nuclear Energy Corporation, was incorporated under the laws of the State of Colorado on April 30, 2011. Amicor owns mining leases of federal unpatented mining claims and leases private lands in the states of Utah

and Colorado for the purpose of exploration and potential development of uranium and vanadium minerals.

Prior to the Share Exchange, the Company was a shell company with no business operations.

The Share Exchange was accounted for as a reverse-merger and recapitalization. Amicor was the acquirer for financial reporting purposes and the Company was the acquired company. Consequently, the assets and liabilities and the operations reflected in the historical financial statements prior to the Share Exchange were those of Amicor and was recorded at the historical cost basis of Amicor, and the consolidated financial statements after completion of the Share Exchange included the assets and liabilities of the Company and Amicor, historical operations of Amicor and operations of the Company from the closing date of the Share Exchange.

(DEVELOPMENT STAGE COMPANY)
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
MARCH 31, 2013

NOTE 1 - ORGANIZATION AND DESCRIPTION OF BUSINESS (continued)

On June 11, 2012, the Company terminated various leases related to its uranium mining claims (the "Claims"), consisting of: the Cutler King Property (3 unpatented mining claims); "Centennial-Sun Cup" (42 unpatented mining claims); "Bull Canyon" (2 unpatented mining claims); "Martin Mesa" (51 unpatented mining claims); "Avalanche/Ajax" (8 unpatented mining claims) and "Home Mesa" (9 unpatented mining claims). The Company had acquired the Claims through the acquisition of Amicor on January 26, 2012. The decision by the Company to terminate these leases followed changes in management and direction of the Company, a review of the uranium market, and the timing and costs expected to pursue the business.

On June 11, 2012, the Company entered into a rescission agreement (the "Rescission Agreement") with Amicor, and the Amicor Shareholders. Each of the Amicor Shareholders had previously received shares of the Company's common stock (and certain of the Amicor Shareholders also received warrants to purchase shares of the Company's common stock) (collectively, the "Shareholder Securities") pursuant to the Rescission Agreement. Each of the Amicor Shareholders, with the exception of one, agreed to return the Shareholder Securities to the Company for cancellation and to enter into joint mutual releases with the Company. Furthermore, pursuant to the terms of the Rescission Agreement, George Glasier resigned from his position as President, Chief Executive Officer and Chairman of the Company; Kathleen Glasier resigned from her position as Secretary of the Company, Michael Moore resigned from his position as Chief Operating Officer and Vice President of the Company and each of David Andrews and Kyle Kimmerle resigned from their position as a director of the Company. As a result of the foregoing, the Company cancelled 9,806,667 shares of the Company's common stock and 4,800,000 warrants and terminated the mining leases entered into with the Amicor Shareholders. Additionally, the Company paid an aggregate of $132,000 to Amicor Shareholders upon the execution of the Rescission Agreement.

Under the terms of the Rescission Agreement, the Company's employment agreement with Mr. Glasier resigned and all options, warrants and rights to acquire any shares of the Company's common stock, whether vested or unvested, were terminated as of the date of the Rescission Agreement. Additionally, under the terms of the Rescission Agreement, the Company's lease for certain office space, dated as of January 26, 2012 with Silver Hawk Ltd., an entity owned and controlled by George Glasier and Kathleen Glasier, was terminated.

On June 11, 2012, the Company and Pershing Gold Corporation ("Pershing") exercised its right under the Option Agreement executed in January 2012, through the assignment of Pershing's wholly owned subsidiary, Continental Resources Acquisition Sub, Inc. ("Acquisition Sub"), (see Note 5). As a result of the assignment, Acquisition Sub became a wholly owned subsidiary of the Company and the Company acquired all of Pershing's uranium assets.

On November 14, 2012, the Company entered into a Share Exchange Agreement (the "Sampo Exchange Agreement") with Sampo IP LLC, a Virginia limited liability company ("Sampo"), a company that holds certain intellectual property rights, and the members of Sampo (the "Sampo Members"). Upon closing of the transaction contemplated under the Sampo Exchange Agreement (the "Sampo Share Exchange"), on November 14, 2012, the Sampo Members (6 members) transferred all of the issued and outstanding membership interests of Sampo to the Company in exchange for an aggregate of 9,250,000 shares of the common stock of the Company. Additionally, the Company made a cash payment to Sampo of $500,000 pursuant to the terms of the Sampo Exchange Agreement.

Upon the closing of the Sampo Share Exchange, Mark Groussman resigned as the Company's Chief Executive Officer and John Stetson resigned as the Company's President and Chief Operating Officer and simultaneously with the effectiveness of the Sampo Share Exchange, Doug Croxall was appointed as the Company's Chief Executive Officer and Chairman and John Stetson was appointed as the Company's Chief Financial Officer and Secretary. LVL Patent Group LLC, of which Mr. Croxall is the Chief Executive Officer, and John Stetson, were former members of Sampo and received 4,000,000 and 500,000 shares of the Company's common stock, respectively, in connection with the Sampo Share Exchange.

The Company is an Intellectual Property ("IP") company that serves patent owners ranging from individual inventors to Fortune 500 corporations. The Company's objective is to provide a focused and comprehensive set of IP services that range from analysis of existing IP assets, idea creation, development, prosecution, commercialization, licensing and enforcement. The Company provides its clients proprietary analytics, IP valuation methods, partnering opportunities, infringement tracking, patent analysis, strategies, tactics, enforcement and reporting among others. Consequently, the Company decided to discontinue its real estate business and intends to sell and dispose its remaining real estate holdings during fiscal 2013.

(DEVELOPMENT STAGE COMPANY)
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
MARCH 31, 2013

NOTE 1 - ORGANIZATION AND DESCRIPTION OF BUSINESS (continued)

On March 6, 2013, the Company entered into an Asset Purchase Agreement (the “Agreement”) with Augme Technologies (“Seller”) whereby Seller agreed to sell to the Company certain office equipment, data, documentation, and business information related to the Seller’s business and assign agreements and prospective clients and business opportunities to the Company. In consideration for the assets and assigned agreements, the Company paid $10,000 at closing and provides litigation assistance as defined in the Agreement. As additional consideration, the Company also entered into a 2 year Service Agreement (the “Service Agreement”) with the Seller whereby the Seller shall engage the Company to provide consulting services including patent litigation matters, sale, license involving the Seller’s intellectual property and general consulting services to continue the Seller’s business operations. The Company recorded the $10,000 payment which was primarily attributable to property and equipment.

Going Concern

The consolidated financial statements have been prepared on a going concern basis which assumes the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. The Company has incurred losses since inception resulting in a deficit accumulated during the development stage of approximately $7.7 million as of March 31, 2013, negative cash flows from operating activities and net loss of $233,175 and $605,536, respectively, for the three months ended March 31, 2013. The Company anticipates further losses in the development of its business raising substantial doubt about the Company’s ability to continue as a going concern. The ability to continue as a going concern is dependent upon the Company generating profitable operations in the future and/or to obtain the necessary financing to meet its obligations and repay its liabilities arising from normal business operations when they come due. The ability to successfully resolve these factors raise substantial doubt about the Company's ability to continue as a going concern. The consolidated financial statements of the Company do not include any adjustments that may result from the outcome of these aforementioned uncertainties.

Based on current operating plans, the current resources of the Company, after taking into account the net funds received during the three months ended March 31, 2013 from the sales and disposal of the remaining real estate properties, are expected to be sufficient for at least the next twelve months. The Company may choose to raise additional funds in connection with any future acquisition of additional intellectual property assets, operating businesses or other assets that it may choose to pursue. There can be no assurance, however, that any such opportunities will materialize. Moreover, any potential financing would likely be dilutive to the Company’s stockholders.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation and Principle of Consolidation

The condensed consolidated financial statements are prepared in accordance with generally accepted accounting principles in the United States of America ("US GAAP") and present the financial statements of the Company and its wholly-owned subsidiaries. In the preparation of consolidated financial statements of the Company, intercompany transactions and balances were eliminated. All adjustments (consisting of normal recurring items) necessary to present fairly the Company's financial position as of March 31, 2013, and the results of operations and cash flows for the three

months ended March 31, 2013 have been included. The results of operations for the three months ended March 31, 2013 are not necessarily indicative of the results to be expected for the full year. The accounting policies and procedures employed in the preparation of these condensed consolidated financial statements have been derived from the audited financial statements of the Company for the year ended December 31, 2012, which are contained in Form 10-K as filed with the Securities and Exchange Commission on March 28, 2013. The consolidated balance sheet as of December 31, 2012 was derived from those financial statements.

MARATHON PATENT GROUP, INC.
(FORMERLY AMERICAN STRATEGIC MINERALS CORPORATION)
(DEVELOPMENT STAGE COMPANY)
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
MARCH 31, 2013

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Development Stage Company

The Company is presented as a development stage company. Activities during the development stage include organizing the business, raising capital and acquiring additional intellectual property. The Company is a development stage company with no revenues and no profits. The Company has not commenced significant operations and, in accordance with Accounting Standards Codification (“ASC”) Topic 915 “Development Stage Entities”, is considered a development stage company.

Cash and Cash Equivalents

The Company considers all highly liquid debt instruments and other short-term investments with maturity of three months or less, when purchased, to be cash equivalents. The Company maintains cash and cash equivalent balances at one financial institution that is insured by the Federal Deposit Insurance Corporation. The Company’s account at this institution is insured by the Federal Deposit Insurance Corporation ("FDIC") up to $250,000. For the three months ended March 31, 2013, the Company has reached bank balances exceeding the FDIC insurance limit. To reduce its risk associated with the failure of such financial institution, the Company evaluates at least annually the rating of the financial institution in which it holds deposits.

Use of Estimates and Assumptions

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Significant estimates made by management include, but are not limited to, the assumptions used to calculate fair value of warrants and options granted, common stock issued for services, and common stock issued in connection with an option agreement and the valuation of mineral rights.

Intangible assets

Intangible assets include patents purchased and recorded based on the cost to acquire them. These assets are amortized over their remaining estimated useful lives. Useful lives of intangible assets are periodically evaluated for reasonableness and the assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may no longer be recoverable.

Marketable Securities

Marketable securities that the Company invests in publicly traded equity securities and are generally restricted for sale under Federal securities laws. The Company’s policy is to liquidate securities received when market conditions are favorable for sale. Since these securities are often restricted, the Company is unable to liquidate them until the restriction is removed. Pursuant to ASC Topic 320, “Investments –Debt and Equity Securities” the Company’s marketable

securities have a readily determinable and active quoted price, such as from NASDAQ, NYSE Euronext, the Over the Counter Bulletin Board, and the OTC Markets Group.

Available for sale securities are carried at fair value, with changes in unrealized gains or losses are recognized as an element of comprehensive income based on changes in the fair value of the security. Once liquidated, realized gains or losses on the sale of marketable securities available for sale are reflected in the net income (loss) for the period in which the security was liquidated.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Comprehensive Income

Accounting Standards Update ("ASU") No. 2011-05 amends Financial Accounting Standards Board ("FASB") Codification Topic 220 on comprehensive income (1) to eliminate the current option to present the components of other comprehensive income in the statement of changes in equity, and (2) to require presentation of net income and other comprehensive income (and their respective components) either in a single continuous statement or in two separate but consecutive statements. These amendments do not alter any current recognition or measurement requirements in respect of items of other comprehensive income. The amendments in this Update are to be applied prospectively.

Fair Value of Financial Instruments

The Company adopted FASB ASC 820, "Fair Value Measurements and Disclosures" ("ASC 820"), for assets and liabilities measured at fair value on a recurring basis. ASC 820 establishes a common definition for fair value to be applied to existing generally accepted accounting principles that require the use of fair value measurements, establishes a framework for measuring fair value and expands disclosure about such fair value measurements. The adoption of ASC 820 did not have an impact on the Company's financial position or operating results, but did expand certain disclosures. ASC 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Additionally, ASC 820 requires the use of valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. These inputs are prioritized below:

Level 1: Observable inputs such as quoted market prices in active markets for identical assets or liabilities
Level 2: Observable market-based inputs or unobservable inputs that are corroborated by market data
Level 3: Unobservable inputs for which there is little or no market data, which require the use of the reporting entity's own assumptions.

Investment measured at fair value on a recurring basis:

	Fair Value Measurements Using:		
	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Marketable securities – available for sale, net of discount for effect of restriction	$ -	$ -	$ 6,250

The Company classifies the investments in marketable securities available for sale as Level 3, adjusted for the effect of restriction. The securities are restricted and cannot be readily resold by the Company absent a registration of those securities under the Securities Act of 1933, as amended (the "Securities Act") or the availabilities of an exemption from the registration requirements under the Securities Act. As these securities are often restricted, the Company is unable to liquidate them until the restriction is removed. Unrealized gains or losses on marketable securities available for sale are recognized as an element of comprehensive income based on changes in the fair value of the security. Once liquidated, realized gains or losses on the sale of marketable securities available for sale are reflected in our net income for the period in which the security was liquidated.

The carrying amounts reported in the balance sheet for cash, prepaid expenses, note receivable, accounts payable, and accrued expenses, approximate their estimated fair market value based on the short-term maturity of this instrument.

In addition, FASB ASC 825-10-25 "Fair Value Option" was effective for January 1, 2008. ASC 825-10-25 expands opportunities to use fair value measurements in financial reporting and permits entities to choose to measure many financial instruments and certain other items at fair value.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Prepaid Expenses

Prepaid expenses of $30,666 and $40,333 at March 31, 2013 and December 31, 2012, respectively, consist primarily of costs paid for future services which will occur within a year. Prepaid expenses include prepayments in cash of public relation services and consulting and prepaid insurance which are being amortized over the terms of their respective agreements.

Income Taxes

The Company accounts for income taxes pursuant to the provision of ASC 740-10, “Accounting for Income Taxes” which requires, among other things, an asset and liability approach to calculating deferred income taxes. The asset and liability approach requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of temporary differences between the carrying amounts and the tax bases of assets and liabilities. A valuation allowance is provided to offset any net deferred tax assets for which management believes it is more likely than not that the net deferred asset will not be realized.

The Company follows the provision of the ASC 740-10 related to Accounting for Uncertain Income Tax Position. When tax returns are filed, it is highly certain that some positions taken would be situated upon examination by the taxing authorities, while others are subject to uncertainty about the merits of the position taken or the amount of the position that would be ultimately sustained. In accordance with the guidance of ASC 740-10, the benefit of a tax position is recognized in the financial statements in the period during which, based on all available evidence, management believes it is most likely that not that the position will be sustained upon examination, including the resolution of appeals or litigation processes, if any. Tax positions taken are not offset or aggregated with other positions.

Tax positions that meet the more-likely-than-not recognition threshold are measured as the largest amount of tax benefit that is more than 50 percent likely of being realized upon settlement with the applicable taxing authority. The portion of the benefits associated with tax positions taken that exceeds the amount measured as described above should be reflected as a liability for uncertain tax benefits in the accompanying balance sheet along with any associated interest and penalties that would be payable to the taxing authorities upon examination. The Company believes its tax positions are all highly certain of being upheld upon examination. As such, the Company has not recorded a liability for uncertain tax benefits.

The Company has adopted ASC 740-10-25 Definition of Settlement, which provides guidance on how an entity should determine whether a tax position is effectively settled for the purpose of recognizing previously unrecognized tax benefits and provides that a tax position can be effectively settled upon the completion and examination by a taxing authority without being legally extinguished. For tax position considered effectively settled, an entity would recognize the full amount of tax benefit, even if the tax position is not considered more likely that not to be sustained based solely on the basis of its technical merits and the statute of limitations remains open. The federal and state income tax returns of the Company are subject to examination by the IRS and state taxing authorities, generally for three years after they were filed.

Basic and Diluted Net Loss per Share

Net loss per common share is calculated in accordance with ASC Topic 260: Earnings Per Share (“ASC 260”). Basic loss per share is computed by dividing net loss by the weighted average number of shares of common stock outstanding during the period. The computation of diluted net loss per share does not include dilutive common stock equivalents in the weighted average shares outstanding as they would be anti-dilutive. The Company has 4,200,000 options and 2,589,109 warrants outstanding at March 31, 2013 and was excluded from the computation of diluted shares outstanding as they would have had an anti-dilutive impact on the Company’s net loss.

Impairment of Long-lived Assets

The Company accounts for the impairment or disposal of long-lived assets according to the ASC 360 “Property, Plant and Equipment”. The Company continually monitors events and changes in circumstances that could indicate that the carrying amounts of long-lived assets, including mineral rights, may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to the estimated future net undiscounted cash flows expected to be generated by the asset. When necessary, impaired assets are written down to estimated fair value based on the best information available. Estimated fair value is generally based on either appraised value or measured by discounting estimated future cash flows. Considerable management judgment is necessary to estimate discounted future cash flows. Accordingly, actual results could vary significantly from such estimates. The Company recognizes an impairment loss when the sum of expected undiscounted future cash flows is less than the carrying amount of the asset.

Stock-based Compensation

Stock-based compensation is accounted for based on the requirements of the Share-Based Payment Topic of ASC 718 which requires recognition in the consolidated financial statements of the cost of employee and director services received in exchange for an award of equity instruments over the period the employee or director is required to perform the services in exchange for the award (presumptively, the vesting period). The ASC also requires measurement of the cost of employee and director services received in exchange for an award based on the grant-date fair value of the award.

Pursuant to ASC Topic 505-50, for share-based payments to consultants and other third-parties, compensation expense is determined at the “measurement date.” The expense is recognized over the vesting period of the award. Until

the measurement date is reached, the total amount of compensation expense remains uncertain. The Company initially records compensation expense based on the fair value of the award at the reporting date.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Mineral Property Acquisition and Exploration Costs

Costs of lease, exploration, carrying and retaining unproven mineral lease properties were expensed as incurred. The Company expensed all mineral exploration costs as incurred. Such expenses are included in the loss from discontinued operations and prior periods have been restated in the Company's financial statements and related footnotes to conform to this presentation.

The Company's remaining claims which include (1) mining lease encompassing 1,520 acres of land owned by J. H. Ranch, Inc. located in San Juan County, Utah (2) certain unpatented lode mining claims acquired on March 9, 2012, located in San Juan County, Utah (3) the Pitchfork Claims, acquired in January 2012 and located in San Miguel County Colorado and (4) the claims acquired on June 11, 2012 from Pershing which include the Coso, Artillery Peak, Blythe and Carnotite properties.

Recent Accounting Pronouncements

In July 2012, the FASB issued ASU 2012-02, Intangibles – Goodwill and Other (Topic 350): Testing Indefinite-Lived Intangible Assets for Impairment, on testing for indefinite-lived intangible assets for impairment. The new guidance provides an entity to simplify the testing for a drop in value of intangible assets such as trademarks, patents, and distribution rights. The amended standard reduces the cost of accounting for indefinite-lived intangible assets, especially in cases where the likelihood of impairment is low. The changes permit businesses and other organizations to first use subjective criteria to determine if an intangible asset has lost value. The amendments to U.S. GAAP will be effective for fiscal years starting after September 15, 2012. The Company's adoption of this accounting guidance does not have a material impact on the consolidated financial statements and related disclosures.

There were other updates recently issued, most of which represented technical corrections to the accounting literature or application to specific industries and are not expected to have a material impact on the Company's financial position, results of operations or cash flows.

NOTE 3 - DISCONTINUED OPERATIONS

During June 2012, the Company decided to discontinue its exploration and potential development of uranium and vanadium minerals business and prior periods have been restated in the Company's consolidated financial statements and related footnotes to conform to this presentation. Additionally, in November 2012, the Company decided to discontinue its real estate business and intends to sell and dispose its remaining real estate holdings during fiscal 2013. The Company is now engaged in the acquisition, development and monetization of intellectual property through both the prosecution and licensing of its own patent portfolio, the acquisition of additional intellectual property or partnering with others to defend and enforce their patent rights.

The remaining assets and liabilities of discontinued operations are presented in the balance sheet under the caption "Assets and Liabilities of discontinued operation" and relates to the discontinued operations of the uranium and vanadium minerals business and real estate business. The Company expects to collect these deposits during fiscal 2013.

Real estate held for sale

Real estate held for sale consists of a residential property located in Southern California. Real estate held for sale is initially recorded at the lower of cost or estimated fair market value less the estimated cost to sell. After acquisition, costs incurred relating to the development and improvements of property are capitalized to the extent they do not cause the recorded value to exceed the net realizable value, whereas costs relating to holding and disposition of the property are expensed as incurred. After acquisition, real estate held for sale is analyzed periodically for changes in fair values and any subsequent write down is charged to impairment losses on real estate properties. Whenever events or changes in circumstances suggest that the carrying amount may not be recoverable, management assesses the recoverability of its real estate by comparing the carrying amount with its fair value. The process involved in the determination of fair value requires estimates as to future events and market conditions. This estimation process may assume that the Company has the ability to dispose of its real estate properties in the ordinary course of business based on management's present plans and intentions. If management determines that the carrying value of a specific real estate investment is impaired, a write-down is recorded as a charge to current period operations. The evaluation process is based on estimates and assumptions and the ultimate outcome may be different.

The Company determined that the carrying value of the remaining real estate properties do not exceed the net realizable value and thus did not consider it necessary to record any impairment charges of real estate held for sale at March 31, 2013. The Company sold 4 real estate properties generating gross profit of $169,468 during the three months ended March 31, 2013 and is included in gain (loss) from discontinued operations. As of March 31, 2013 and December 31, 2012, real estate held for sale which includes capitalized improvements amounted to $230,088 and $1,035,570 respectively and are included in assets of discontinued operations. The Company intends to sell and

dispose its remaining real estate holdings during fiscal 2013.

Common Stock

On January 26, 2012, the Company entered into the Exchange Agreement with Amicor and Amicor Shareholders (see Note 1). Upon closing of the Share Exchange, on January 26, 2012, the Amicor Shareholders transferred all of the issued and outstanding capital stock of Amicor to the Company in exchange for an aggregate of 10,000,000 shares of the Company's common stock. Additionally, as further consideration for entering into the Exchange Agreement, certain Amicor Shareholders received ten-year warrants to purchase an aggregate of 6,000,000 shares of the Company's common stock with an exercise price of 0.50 per share.

Immediately following the closing of the Share Exchange and a private placement of the Company's securities (described below), under an Agreement of Conveyance, Transfer and Assignment of Assets and Assumption of Obligations (the "Conveyance Agreement"), the Company transferred all of the pre-Share Exchange assets and liabilities to a newly formed wholly-owned subsidiary of the Company, Verve Holdings, Inc. ("SplitCo"). Pursuant to a stock purchase agreement, the Company transferred all of the outstanding capital stock of SplitCo to certain former shareholders of the Company in exchange for the cancellation of an aggregate of 4,769,144 (post-split) shares of the Company's common stock that they owned (the "Split-Off"), with 7,500,000 (post split) shares of the Company's common stock held by persons who acquired such shares prior to the Share Exchange remaining outstanding. Accordingly, following the Split-Off, 7,500,000 shares will constitute as the Company's "public float".

On January 26, 2012, the Company sold 10,029,965 shares of the Company's common stock at a purchase price of $0.50 per share in a private placement to accredited investors, resulting in aggregate net proceeds to the Company of $4,993,965 (the "Private Placement"), which includes an aggregate of $100,000 advanced to Amicor for general working capital purposes prior to the closing of the Share Exchange which was converted into an aggregate of 200,000 shares of common stock in the Private Placement and an aggregate of $75,000 in debt owed in January 2012 for legal fees incurred by Amicor which was converted into an aggregate 150,000 shares of common stock in the Private Placement. On January 30, 2012, the Company sold an additional 600,000 shares of common stock in the Private Placement with gross proceeds to the Company of $300,000 for total net proceeds to the Company of $5,293,965. In connection with these private placements, the Company paid legal fees of $21,000.

On January 26, 2012, contemporaneously with the Share Exchange, the Company also entered into an Option Agreement with Pershing pursuant to which the Company obtained the option (the "Option") to acquire certain uranium exploration rights and properties held by Pershing for a purchase price of $10.00. In consideration for issuance of the Option, the Company issued to Pershing (i) a $1,000,000 promissory note payable in installments upon satisfaction of certain conditions, expiring six months following issuance and (ii) 10 million shares of the Company's common stock (collectively, the "Option Consideration"). On January 26, 2012, Pershing held 26.65% of interest in the Company. David Rector and Joshua Bleak were former members of the Company's Board of Directors. David Rector was a former member of the board of Pershing and Joshua Bleak is the Chief Executive Officer and a director of Continental Resources Group, Inc. (a company which is one of the largest shareholders of Pershing).

Between February1, 2012 and March 31, 2012, the Company sold 1,300,000 shares of the Company's common stock at a purchase price of $0.50 per share in a private placement to accredited investors, resulting in aggregate net

proceeds to the Company of $650,000.

During fiscal 2012, $930,000 of the principal amount of note has been paid. Under the terms of the note, the Company was required to pay the balance of the note upon completion of a private placement totaling $1 million or more on or before July 26, 2012. The $1.0 million private placement was not completed by that date thus the Company was not required to pay the final $70,000 due under the note and a total of $930,000 has been paid under the note. On June 11, 2012, the Company and Pershing exercised its right under the Option, through the assignment of Pershing's wholly owned subsidiary, Acquisition Sub, (see Note 1). As a result of the assignment, Acquisition Sub became a wholly owned subsidiary of the Company and the Company acquired all of Pershing's uranium assets. The Company recorded the 10 million shares at par value or $1,000. Pursuant to ASC 805-50-30-2 "Business Combinations", the Company determined that if the consideration paid is not in the form of cash, the measurement may be based on either (i) the cost which is measured based on the fair value of the consideration given or (ii) the fair value of the assets (or net assets) acquired, whichever is more clearly evident and thus more reliably measurable. The Company determined that the fair value of the net assets acquired was a better indicator thus more reliably measurable than the fair value of the common stock issued.

NOTE 5 - STOCKHOLDERS' EQUITY (continued)

Between March 2012 and August 2012, the Company issued an aggregate of 4,494,829 shares of common stock in connection with the exercise of the 6,200,000 stock warrants on a cashless basis. The Company valued these common shares at par value (see Note – Common Stock Warrants).

On June 11, 2012, the Company cancelled a total of 9,806,667 shares of common stock and 4,800,000 warrants in connection with the Rescission Agreement (see Note 1). Upon the execution of the Rescission Agreement, the Company paid to Amicor Shareholders an aggregate of $132,000 and was recorded to additional paid in capital.

In connection with the Sampo Exchange Agreement (see Note 1), on November 14, 2012, the Sampo Members transferred all of the issued and outstanding membership interests of Sampo to the Company in exchange for an aggregate of 9,250,000 shares of the common stock of the Company. Additionally, the Company made a cash payment to Sampo of $500,000 pursuant to the terms of the Sampo Exchange Agreement. The 9,250,000 shares of common stock were valued at par value or $925. In accordance with Accounting Standards Codification ("ASC") 805-50-30 "Business Combinations," the Company determined that if the consideration paid is not in the form of cash, the measurement may be based on either (i) the cost which is measured based on the fair value of the consideration given or (ii) the fair value of the assets (or net assets) acquired, whichever is more clearly evident and thus more reliably measurable. The Company determined that the fair value of the net assets acquired was a better indicator thus more reliably measurable than the fair value of the common stock issued.Therefore the Company has determined, in accordance with ASC 805-50-30, that the value of the net assets acquired is equivalent to $500,925 which represents the cash consideration paid of $500,000 and the par value of 9,250,000 shares of the Company’s common stock amounting to $925. No independent valuation was done on the net assets or patents acquired before acquisition. The Company deemed that the fair value of the net asset of Sampo amounting to $500,925 is more clearly evident and more reliable measurement basis.

On December 27, 2012, the Company sold an aggregate of 1,089,109 units with gross proceeds to the Company of $866,287 to certain accredited investors pursuant to a subscription agreement. Each unit was sold for a purchase price of $0.80 per unit and consists of: (i) two shares of the Company’s common stock (2,178,218 common stock) and (ii) a five-year warrant to purchase an additional share of common stock at an exercise price of $0.60 per share, subject to adjustment upon the occurrence of certain events such as stock splits and dividends. The sale of units consists of 1,870,000 shares of common stock issued for cash of $743,000, 83,218 shares of common stock for the conversion of unpaid salaries of $33,287 and 225,000 shares of common stock for certain outstanding amounts for legal fees of $90,000 into units at the per unit offering price totaling $866,287. The Company paid placement agent fees of $5,000 in cash to a broker-dealer in connection with the sale of the Units.

Pursuant to a Registration Rights Agreement with the investors, the Company has agreed to file a “resale” registration statement with the SEC covering all shares of the common stock and shares underlying the warrants within 90 days of the final closing date of the sale of units on December 27, 2012 (the “Filing Date”) and to maintain the effectiveness of the registration statement until all securities have been sold or are otherwise able to be sold pursuant to Rule 144. The Company has agreed to use its reasonable best efforts to have the registration statement declared effective within 90 days of the Filing Date (the “Effectiveness Date”).

The Company is obligated to pay to investors a fee of 1% per month in cash for every thirty day period up to a maximum of 6%, (i) that the registration statement has not been filed and (ii) following the Effectiveness Date that the registration statement has not been declared effective; provided, however, that the Company shall not be obligated to pay any such liquidated damages if the Company is unable to fulfill its registration obligations as a result of rules, regulations, positions or releases issued or actions taken by the SEC pursuant to its authority with respect to “Rule 415”, provided the Company registers at such time the maximum number of shares of common stock permissible upon consultation with the staff of the SEC.

Common Stock Warrants

On January 26, 2012, the Company issued to certain Amicor Shareholders ten-year warrants to purchase an aggregate of 6,000,000 shares of the Company's common stock with an exercise price of 0.50 per share in connection with the Exchange Agreement (see Note 1).

The Company entered into consulting agreements with Melechdavid Inc. and GRQ Consultants, Inc., pursuant to which such consultants will provide consulting services to the Company in consideration for which the Company sold to the consultants warrants to purchase an aggregate of 3,500,000 shares of the Company's common stock with an exercise price of $0.50 per share (the "Consulting Warrants"). The services provided by the consultants include introductions to banking relationships, consulting on strategic acquisitions and advice on capital restructuring.

The Consulting Warrants have a term of ten years and were exercisable on a cashless basis after twelve months if the shares of common stock underlying the Consulting Warrants are not registered with the Securities and Exchange Commission. In March 2012, the Company entered into a First Amendment to the Consulting Warrants (the "First Amendment") with such consultants to amend the cashless exercise terms of the warrants. The First Amendment provides for the exercise of the Consulting Warrants on a cashless basis immediately upon the execution of the First Amendment. In March 2012, the Company issued an aggregate of 2,722,222 shares of common stock in connection with the exercise of the 3,500,000 Consulting Warrants on a cashless basis. The Company's former Chief Executive Officer is the President of Melechdavid Inc.

The Company issued warrants to purchase an aggregate of 2,700,000 shares of common stock at an exercise price of $0.50 per share to Joshua Bleak, David Rector, Stuart Smith and George Glasier, in consideration for their services as directors of the Company (the "Director Warrants"). The Director Warrants have a term of ten years and are exercisable on a cashless basis after twelve months if the shares of common stock underlying the Director Warrants are not registered with the Securities and Exchange Commission. NOTE 8 – MARKETABLE SECURITIES

Marketable securities at March 31, 2013 consisted of the following:

	Cost	Gross Unrealized Gains/(losses)	Gross Realized Gains/(losses)	Fair Value
Publicly traded equity securities – available for sale	$ 125,000	(6,250)	(112,500)	$ 6,250

Available for sale securities are carried at fair value. Unrealized gains or losses on marketable securities - available for sale are recognized on a periodic basis as an element of comprehensive income based on changes in the fair value of the security. Once liquidated, realized gains or losses on the sale of marketable securities available for sale will be reflected in the Company’s net loss for the period in which the security are liquidated. At the end of each period, the Company evaluates the carrying value of the marketable securities for a decrease in value. The Company evaluates the company underlying these marketable securities to determine whether a decline in fair value below the amortized cost basis is other than temporary. If the decline in fair value is judged to be “other- than- temporary”, the cost basis of the individual security shall be written down to fair value as a new cost basis and the amount of the write-down is charged

to earnings.

On March 19, 2012, the Company entered into an agreement with California Gold, pursuant to which the Company agreed to provide California Gold with a geological review (the “Report”) on or prior to March 30, 2012, of the Company’s certain uranium properties pursuant to which California Gold may determine and identify the approximate locations and scope of geologic formations that could contain potential gold deposits on these properties.

In consideration for delivery of the Report, California Gold agreed to pay the Company $125,000, which payment may, at the election of California Gold, be paid in cash or in unregistered shares of California Gold common stock, par value $0.001 per share (the “California Gold Common Stock”), issued by California Gold. In the event that California Gold elects to deliver the California Gold Common Stock, it shall deliver such number of shares of California Gold Common Stock that shall be equal to the number which results from dividing $125,000 by the lesser of: (i) the closing price of a share of the California Gold Common Stock as quoted on the

Over the Counter Bulletin Board on March 19, 2012 or (ii) the purchase price per share of California Gold Common Stock paid by investors in California Gold sold in California Gold's next financing, if any, on or before March 30, 2012. In March 2012, the Company received 1,250,000 restricted shares of California Gold.

The Company evaluated these marketable securities and determined that the fair value is deemed to be other- than-temporary, the cost basis of the individual security shall be written down to fair value as a new cost basis and the amount of the write-down is charged to earnings. During the year ended December 31, 2012, as a result of the evaluation, the Company has recorded a realized loss on other than temporary decline of $112,500.

Critical Accounting Policies and Estimates

The discussion and analysis of our financial condition and results of operations are based upon our financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an on-going basis, we evaluate our estimates based on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

Management believes the following critical accounting policies affect the significant judgments and estimates used in the preparation of the financial statements.

Principles of Consolidation

The condensed consolidated financial statements are prepared in accordance with generally accepted accounting principles in the United States of America and present the financial statements of the Company and our wholly-owned subsidiary. In the preparation of our consolidated financial statements, intercompany transactions and balances are eliminated.

Development Stage Companies

We are a development stage company. Activities during the development stage include organizing the business, raising capital and acquiring real estate properties. We are a development stage company with no revenues and no

profits. We have not commenced significant operations and, in accordance with ASC Topic 915 "Development Stage Entities", is considered a development stage company.

Use of Estimates and Assumptions

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Significant estimates made by management include, but are not limited to, the assumptions used to calculate fair value of warrants granted, common stock issued for services, common stock issued in connection with an option agreement, common stock issued for acquisition of patents, and the valuation of mineral rights.

Fair Value of Financial Instruments

We adopted Financial Accounting Standards Board ("FASB") ASC 820, "Fair Value Measurements and Disclosures", for assets and liabilities measured at fair value on a recurring basis. ASC 820 establishes a common definition for fair value to be applied to existing US GAAP that require the use of fair value measurements which establishes a framework for measuring fair value and expands disclosure about such fair value measurements.

ASC 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Additionally, ASC 820 requires the use of valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. These inputs are prioritized below:

Level 1: Observable inputs such as quoted market prices in active markets for identical assets or liabilities

Level 2: Observable market-based inputs or unobservable inputs that are corroborated by market data

Level 3: Unobservable inputs for which there is little or no market data, which require the use of the reporting entity's own assumptions.

In addition, FASB ASC 825-10-25 "Fair Value Option" was effective for January 1, 2008. ASC 825-10-25 expands opportunities to use fair value measurements in financial reporting and permits entities to choose to measure many financial instruments and certain other items at fair value.

Stock-based Compensation

Stock-based compensation is accounted for based on the requirements of the Share-Based Payment Topic of ASC 718 which requires recognition in the consolidated financial statements of the cost of employee and director services received in exchange for an award of equity instruments over the period the employee or director is required to perform the services in exchange for the award (presumptively, the vesting period). The ASC also requires measurement of the cost of employee and director services received in exchange for an award based on the grant-date fair value of the award.

Pursuant to ASC Topic 505-50, for share-based payments to consultants and other third-parties, compensation expense is determined at the "measurement date." The expense is recognized over the vesting period of the award. Until the measurement date is reached, the total amount of compensation expense remains uncertain. The Company initially records compensation expense based on the fair value of the award at the reporting date.

Long-Lived Assets

We review for impairment whenever events or circumstances indicate that the carrying amount of assets may not be recoverable, pursuant to guidance established in ASC 360-10-35-15, "Impairment or Disposal of Long-Lived Assets". We recognize an impairment loss when the sum of expected undiscounted future cash flows is less than the carrying amount of the asset. The amount of impairment is measured as the difference between the asset's estimated fair value and its book value.

Recent Accounting Pronouncements

Other accounting standards that have been issued or proposed by the FASB that do not require adoption until a future date are not expected to have a material impact on the financial statements upon adoption.

Results of Operations

Our business began on April 30, 2011. We are still in our development stage and have generated no revenues to date in connection with our current patent business.

These expenses primarily consisted of general expenses, compensation, professional fees and consulting incurred in connection with the day to day operation of our business. The operating expenses consisted of the following:

· Professional fees: For the three months ended March 31, 2013 and 2012, professional fees were $158,472 and $262,739, respectively, a decrease of $104,267 or 40%, which includes fees incurred for audits and legal fees related to public company filing requirements. Other Income

Total other income was $61 and $125,000 for the three months ended March 31, 2013 and 2012, respectively, a decrease of $124,939 or 100%. On March 19, 2012, we entered into an agreement with California Gold, pursuant to which we agreed to provide California Gold with a geological review on or prior to March 30, 2012, of our certain uranium properties in consideration for $125,000. We do not have a comparable other income during the three months ended March 31, 2013.

Discontinued Operations

During June 2012, we decided to discontinue our exploration and potential development of uranium and vanadium minerals business and prior periods have been restated in our consolidated financial statements and related footnotes to conform to this presentation. Subsequently, in November 2012, we decided to discontinue our real estate business and we intend to sell and dispose our remaining real estate holdings during fiscal 2013. We are now engage in the acquisition, development and monetization of intellectual property through both the prosecution and licensing of our own patent portfolio, the acquisition of additional intellectual property or partnering with others to defend and enforce their patent rights.

The following table indicates selected financial data of the Company's discontinued operations of its uranium and vanadium minerals business and real estate business.

We reported a net loss of $605,536 or $(0.02) per common shares - basic and diluted and $2,959,879 million or $(0.9) per common share - basic and diluted, respectively, for the three months ended March 31, 2013 and 2012, respectively, a decrease of approximately $2.4 million or 80%.

Liquidity and Capital Resources

Liquidity is the ability of a company to generate funds to support its current and future operations, satisfy its obligations, and otherwise operate on an ongoing basis. At March 31, 2013, we had a cash balance of approximately $2.9 million and working capital of approximately $2.8 million. During the three months ended March 31, 2013, we have been funding our operations through the sale of our remaining real estate properties included in our discontinued operations.

We may be required to raise additional funds, particularly if we are unable to generate positive cash flow as a result of our operations. We estimate that based on current plans and assumptions, that our available cash is sufficient to satisfy our cash requirements under our present operating expectations for up to 12 months. We presently have no other alternative source of working capital. We may not have sufficient working capital to fund the expansion of our operations and to provide working capital necessary for our ongoing operations and obligations after 12 months. We have not generated revenues to support our current daily operations from the inception of development stage. We may need to raise significant additional capital to fund our future operating expenses, pay our obligations, and grow our Company. We do not anticipate we will generate significant revenues in 2013. Therefore our future operations will be dependent on our ability to secure additional financing. Financing transactions may include the issuance of equity or debt securities, obtaining credit facilities, or other financing mechanisms. The trading price of our common stock could make it more difficult to obtain financing through the issuance of equity or debt securities. Even if we are able

to raise the funds required, it is possible that we could incur unexpected costs and expenses, or experience unexpected cash requirements that would force us to seek alternative financing. Furthermore, if we issue additional equity or debt securities, stockholders may experience additional dilution or the new equity securities may have rights, preferences or privileges senior to those of existing holders of our common stock. The inability to obtain additional capital may restrict our ability to grow and may reduce our ability to continue to conduct business operations. If we are unable to obtain additional financing, we will likely be required to curtail our development plans and possibly cease our operations.

Operating Activities

We have not generated positive cash flows from operating activities. For the three months ended March 31, 2013, net cash flows used in operating activities was $233,175 and was primarily attributable to our net loss of $605,536 , adjusted for non-cash items such as stock based compensation of $220,108, amortization and depreciation expense of $17,825 and total changes in assets and liabilities of $134,428 primarily attributable to a decrease in prepaid expenses of $9,667, decrease in assets of discontinued operations of $28,750, and increase in accounts payable and accrued expenses of $96,011.

For the three months ended March 31, 2012, net cash flows used in operating activities was ($483,899) and was primarily attributable to our net loss of $2,959,879, offset by stock based compensation of $2,611,075, and add back non cash other income of $125,000, and total changes in assets and liabilities of $10,095 due to an increase in prepaid expenses of $88,855, decrease in deposits of $3,500 and increase in accounts payable and accrued expenses of $75,260.

Investing Activities

Net cash flows provided by investing activities were $795,482 in connection with the sale of real estate property of $817,482 offset by capitalized cost related to improvements of real estate property of $12,000 and purchase of property and equipment of $10,000 during the three months ended March 31, 2013.

Net cash flows used in investing activities were $325,000 in connection with acquisition of mineral rights during the three months ended March 31, 2012.

Financing Activities

Net cash flows provided by financing activities were $0 and $4,685,991 for the three months ended March 31, 2013 and 2012 respectively. We received net proceeds from the sale of our stocks of $5,768,965 offset by payment on notes payable of $1,082,974.

Contractual Obligations

We have certain fixed contractual obligations and commitments that include future estimated payments. Changes in our business needs, cancellation provisions, changing interest rates, and other factors may result in actual payments differing from the estimates. We cannot provide certainty regarding the timing and amounts of payments. We have presented below a summary of the most significant assumptions used in our determination of amounts presented in the tables, in order to assist in the review of this information within the context of our consolidated financial position, results of operation, and cash flows.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

Not required for smaller reporting companies.

Item 4. Controls and Procedures.

Disclosure Controls and Procedures.

We maintain “disclosure controls and procedures,” as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (the “Exchange Act”), that are designed to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in Securities and Exchange Commission rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and our Chief Financial Officer, to allow timely decisions regarding required disclosure. In designing and evaluating our disclosure controls and procedures, management recognized that disclosure controls and procedures, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the disclosure controls and procedures are met. Additionally, in designing disclosure controls and procedures, our management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible disclosure controls and procedures. The design of any disclosure controls and procedures also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions.

With respect to the quarterly period ended March 31, 2013, under the supervision and with the participation of our management, we conducted an evaluation of the effectiveness of the design and operations of our disclosure controls and procedures. Based upon this evaluation, the Company’s management has concluded that certain disclosure controls and procedures were not effective as of March 31, 2013 due to the Company’s limited internal resources and lack of ability to have multiple levels of transaction review. However, to the extent possible, we will implement procedures to assure that the initiation of transactions, the custody of assets and the recording of transactions will be performed by separate individuals. We believe that the foregoing steps will remediate the significant deficiency identified above, and we will continue to monitor the effectiveness of these steps and make any changes that our management deems appropriate.

Management is in the process of determining how best to change our current system and implement a more effective system to insure that information required to be disclosed in this quarterly report on Form 10-Q has been recorded, processed, summarized and reported accurately. Our management acknowledges the existence of this problem, and intends to developed procedures to address them to the extent possible given limitations in financial and manpower resources. While management is working on a plan, no assurance can be made at this point that the implementation of such controls and procedures will be completed in a timely manner or that they will be adequate once implemented.

Changes in Internal Controls.

There have been no changes in our internal control over financial reporting during the three months ended March 31, 2013 that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting.
