**Item 1.01 Entry into a Material Definitive Agreement**

On October 6, 2008, Neose Technologies, Inc. (the *Company*) entered into an amendment (the *Amendment*) to that certain Registration Rights Agreement dated March 8, 2007 (the *Original Agreement*) by and among the Company and the other signatories thereto (the *Investors*). The Amendment reduced the potential maximum payment of liquidated damages by 50% to the Investors under certain circumstances after the closings of the previously announced Asset Purchase Agreement dated September 17, 2008 by and between the Company and Novo Nordisk A/S (the *Novo Asset Purchase Agreement*) and the Asset Purchase Agreement dated September 17, 2008 by and between the Company and BioGeneriX AG (the *BGX Asset Purchase Agreement* and collectively, the *Asset Sales*). As required under the Original Agreement, the Amendment was entered into by the Company and Investors holding at least 67% of the currently outstanding registrable securities under the Original Agreement.

Certain of the Investors hold warrants to purchase shares of common stock of the Company. In addition, one Investor is affiliated with a member of the Company's board of directors.

The above description does not purport to be a complete statement of the parties' rights and obligations under the Amendment and is qualified in its entirety by reference to the terms and conditions of the Amendment, a copy of which is attached hereto as Exhibit 10.1.

**Item 7.01 Regulation FD Disclosure**

As a result of the Amendment and updated assumptions, the Company has modified the preliminary estimate of liquidating distributions to the Company's stockholders assuming stockholder approval of the Asset Sales and the plan of complete liquidation and dissolution (the *Plan of Liquidation*) announced on September 18, 2008. The Company's modified estimate is that there will be between \$17,000,000 and \$27,000,000, or \$0.31 to \$0.50 per share of Neose common stock, available for distribution over time to the Company's stockholders with the final distribution amount to be determined and the final distribution made after settlement and satisfaction of all of the Company's liabilities. However, if certain contingent liabilities are not able to be settled within the currently estimated range, the amount available for distribution could fall outside the estimated distribution range.

**Forward-Looking Information Is Subject to Risk and Uncertainty**

A number of the matters discussed in this Current Report on Form 8-K that are not historical or current facts deal with potential future circumstances and developments, in particular, whether and when the Asset Sales will be consummated and the amount available for distribution to stockholders. The discussion of such matters is qualified by the inherent risks and uncertainties surrounding future expectations generally and also may materially differ from

actual future experience involving any one or more of such matters. Such risks and uncertainties include, among others: approval of the Asset Sales and the Plan of Liquidation by the Company's stockholders; the timing of the stockholders meeting; satisfaction of various other conditions to the closing of the Asset Sales; termination of the Novo Asset Purchase Agreement and the BGX Asset Purchase Agreement pursuant to their terms, the timing and amount of cash distributed to stockholders; and the risks that are described from time to time in the Company's reports filed with the Securities and Exchange Commission (SEC), including its Annual Report on Form 10-K for the year ended December 31, 2007, as amended, and subsequent Quarterly Reports on Form 10-Q. This current report on Form 8-K speaks only as of its date, and the Company disclaims any duty to update the information herein.
