ITEM 2.05 Costs Associated with Exit or Disposal Activities

On August 22, 2005, Eastman Kodak Company committed to a plan to close the manufacturing operations of Creo Inc. in Middleway, West Virginia.

Edgar Filing: EASTMAN KODAK CO - Form 8-K

This facility was included in the Company's recent acquisition of Creo Inc. This action is the result of the product rationalization activities that Kodak is undertaking related to the recent acquisitions of Kodak Polychrome Graphics and Creo Inc.

In conjunction with this action, the Company will incur restructuring-related charges of approximately \$28 million. Included in these charges is approximately \$17 million of exit costs, including site disposition and dismantlement, accelerated depreciation on equipment and buildings of approximately \$10 million, and employee termination benefits of approximately \$1 million. In addition, the Company will record approximately \$1 million in operating charges related to the execution of this plan. The exit costs, severance and the operating charges require the outlay of cash, while the accelerated depreciation represents a non-cash charge. The manufacturing operations are expected to cease by March 31, 2006. The site disposition and dismantlement are expected to be completed by the end of 2007.

A copy of the August 22, 2005 press release related to these actions is attached as Exhibit (99.1).
