**DATA I/O ANNOUNCES SECOND QUARTER 2010 REVENUE GROWTH AND PROFITABILITY**

**Redmond, WA, July 22, 2010** Data I/O Corporation (NASDAQ: DAIO), the leading provider of manual and automated device programming systems, today announced financial results for the second quarter ended June 30, 2010.

Revenues for the second quarter of 2010 were \$6.6 million, compared with \$3.9 million in the second quarter of 2009 and \$6.3 million in the first quarter of 2010. We increased sales in all geographic regions compared to the second quarter of 2009, as well as in both our automated systems and non-automated systems. In accordance with U.S. generally accepted accounting principles (GAAP), net income in the second quarter of 2010 was \$859,000, or \$0.09 per diluted share, compared with net loss of (\$683,000), or (\$0.08) per share, in the second quarter of 2009.

Gross margin as a percentage of sales in the second quarter of 2010 was 58.4 percent, compared with 48.3 percent in the second quarter of 2009 and 60.0 percent in the first quarter of 2010. This gross margin percentage increase compared to the second quarter of 2009 was primarily due to the impact of increased sales volume relative to fixed operating costs and the product mix, especially from additional software revenues. Backlog at June 30, 2010 was \$1.4 million, compared to \$1.1 million at the end of the first quarter of 2010 and \$1.3 million at June 30, 2009.

The company's cash position at June 30, 2010 increased \$1.1 million during the quarter to \$16.8 million. Collections improved with accounts receivable of \$4.6 million at June 30, 2010 compared to \$4.7 million at March 31, 2010. We have continued to focus on reducing our inventories which are at \$3.4 million at June 30, 2010, down from \$3.7 last quarter and \$4.6 million one year ago.

We are pleased to report continued improved levels of business and profits, said Fred Hume, President and CEO. We experienced the largest revenue growth percentage in Asia followed by Europe and finally the Americas. Our PS Series and FlashPAK product families' revenues each were over 400 percent of their corresponding second quarter 2009 revenues.

### **Conference Call Information**

A conference call discussing the second quarter of 2010 financial results will follow this release today at 2:00 p.m. Pacific time/5:00 p.m. Eastern time. To listen to the conference call, please dial (612) 234-9959 passcode: DAIO. A taped replay will be made available approximately one hour after the conclusion of the call and will remain available for one week. To access the replay, please dial (320) 365-3844, access code: 164697. The conference call will also be simultaneously web cast over the Internet; visit the News and Events section of the Data I/O Corporation website at <http://www.dataio.com> to access the call from the site. This web cast will be recorded and available for replay on the Data I/O Corporation website approximately two hours after the conclusion of the conference call.

### **About Data I/O Corporation**

With over 35 years of expertise in delivering intellectual property to programmable devices, Data I/O offers complete, integrated manufacturing solutions in wireless, automotive, programming center, semiconductor, and industrial control market segments for OEM, ODM, EMS and semiconductor companies. Data I/O is the leader in programming and provides hardware and software solutions for turn-key programming and device testing services, as well as in-system (on-board), in-line (right before use at the SMT line), or in-socket (off-line) programming. These solutions are scalable for small, medium and large volume applications with different device mixes. Data I/O Corporation has headquarters in Redmond, Wash., with sales and services worldwide. For further information, visit the company's website at <http://www.dataio.com>.

### **Forward Looking Statement**

Statements in this news release concerning future results from operations, financial position, economic conditions, product releases and any other statement that may be construed as a prediction of future performance or events are forward-looking statements which involve known and unknown risks, uncertainties and other factors which may cause actual results to differ materially from those expressed or implied by such statements. These factors include uncertainties as to levels of orders, ability to record revenues, release schedules, market acceptance of new products, changes in economic conditions and market demand, pricing and other activities by competitors, and other risks including those described from time to time in the Company's filings on Forms 10K and 10Q with the Securities and Exchange Commission (SEC), press releases and other communications.
