## TRICO BANCSHARES ANNOUNCES RECORD HIGH EARNINGS IN SECOND QUARTER 2004

CHICO, Calif. - (July 21, 2004) - TriCo Bancshares (NASDAQ: TCBK), parent company (the "Company") of Tri Counties Bank (the "Bank"), today announced record quarterly earnings of \$4,847,000 for the quarter ended June 30, 2004. This represents a 13.9% increase when compared with earnings of \$4,254,000 for the quarter ended June 30, 2003. Diluted earnings per share for the quarter ended June 30, 2004 increased 11.1% to \$0.30 from \$0.27 for the quarter ended June 30, 2003. Total assets of the Company increased \$184 million (13.5%) to \$1.545 billion at June 30, 2004 versus \$1.361 billion at June 30, 2003. Total loans of the Company increased \$226 million (26.5%) to \$1.078 billion at June 30, 2004 versus \$852 million at June 30, 2003. Total deposits of the Company increased \$94 million (8.0 %) to \$1.267 billion at June 30, 2004 versus \$1.174 billion at June 30, 2003. Diluted earnings per share for the six months ended June 30, 2004 and 2003 were \$0.59 and \$0.52, respectively, on earnings of \$9,624,000 and \$7,867,000, respectively.

"Tri Counties Bank is the largest community bank in California headquartered north of Sacramento, and our strategy to expand our franchise by opening new branches in addition to acquiring other banks continues to be tremendously successful as indicated by our record high earnings," said Richard Smith, President and Chief Executive Officer. "In April of 2004 we opened another full-service branch in Turlock, Calif., which has already exceeded projections. Additionally, loan demand continues to be strong, the credit quality of our loan portfolio remains high, and our expansion into California's Central Valley has allowed us to increase sales of nondeposit investment products, and add households that enhance our source of low cost deposits, service charges and fee revenue."

The increase in earnings for the quarter ended June 30, 2004 over the year-ago quarter was due to a \$2,825,000 (19.2%) increase in net interest income to \$17,541,000, and a \$388,000 (5.9%) increase in noninterest income to \$6,942,000. The increase in net interest income was due to a \$228 million (28.4%) increase in average loan balances to \$1.029 billion, and a 0.25% increase in fully tax-equivalent net interest margin to 5.27% during the quarter ended June 30, 2004 compared to the year-ago quarter.

## Edgar Filing: TRICO BANCSHARES / - Form 8-K

The following table shows the components of noninterest income for the three-month periods ended June 30, 2004 and 2003, and the changes therein:

	Three Months Ended June 30,		
	2004	2003	Change
Service charges on deposit accounts	\$ 3,407	\$ 3,192	\$ 215
ATM fees and surcharges	664	597	67
Other service fees	269	196	73
Mortgage servicing valuation recovery	570	-	570
Gain on sale of loans	433	1,319	(886)
Commissions on sale of nondeposit investment products	616	461	155
Gain on sale of investments	-	100	(100)
Gain on sale of fixed assets	89	-	89
Gain on sale of other real estate	182	60	122
Increase in cash value of life insurance	432	376	56
Other noninterest income	280	253	27
	-----	-----	-----
Total noninterest income	\$ 6,942	\$ 6,554	\$ 388

Service charges on deposit accounts, ATM fees and surcharges, and other service fees increased \$355,000 (8.9%) to \$4,340,000 during the quarter ended June 30, 2004 compared to \$3,985,000 in the year-ago quarter. The increases in these categories are primarily due to an increase in number of customers as a result of the Bank's continued de-novo expansion and penetration of existing markets. The mortgage servicing valuation recovery and the decrease in gain on sale of loans are due to the slowdown in mortgage refinance activity that peaked in the middle of 2003. During the third quarter of 2003, when refinance activity was high, the Company recorded a \$600,000 valuation allowance for its mortgage servicing portfolio. During the first quarter of 2004, as refinance activity slowed, the Company recovered \$30,000 of the \$600,000 valuation allowance. During the second quarter of 2004, as refinance activity continued to slow, the Company recovered the remaining \$570,000 of this valuation allowance. As of June 30, 2004, the Company serviced \$372 million of residential mortgage loans for others, \$360 million of which is subject to potential valuation allowance. As of June 30, 2004, this servicing portfolio has an estimated market value of \$3.7 million, and is recorded in the Company's consolidated financial statements at \$3.5 million.

The increases in net interest income and noninterest income were partially offset by a \$1,150,000 (767%) increase in provision for loan losses to \$1,300,000, and a \$1,044,000 (7.3%) increase in noninterest expense to \$15,412,000 in the quarter ended June 30, 2004 versus the year-ago quarter. The increase in provision for loan losses is mainly due to loan growth of \$84 million during the quarter ended June 30, 2004 as loan quality remains high and loan charge-offs remain low. During the quarter ended June 30, 2004, net loan charge-offs were \$67,000 or 0.026% of average outstanding loans on an annualized basis. As of June 30, 2004, nonperforming loans net of government guarantees, and the allowance for loan losses were 0.36% and 1.44%, respectively, of outstanding loans. The increase in noninterest expense was mainly due to salary and benefit expense related to the addition of de-novo branches in Roseville (November 2003), Folsom (December 2003), and Turlock (April 2004), and regular salary increases.

As previously announced on March 11, 2004, the Board of Directors of TriCo Bancshares approved a two-for-one stock split of its common stock at its meeting held on March 11, 2004. The stock split was effected in the form of a stock dividend and provided each stockholder of record at the close of business on April 9, 2004 one additional share for every share of TriCo common stock held on

## Edgar Filing: TRICO BANCSHARES / - Form 8-K

that date. Shares resulting from the split were distributed on April 30, 2004. As of June 30, 2004, the Company had 15,640,000 common shares outstanding. All per share amounts for prior periods have been restated to reflect the stock split.

As of July 21, 2004, the Company had purchased 222,600 shares under its stock repurchase plan announced on July 31, 2003 and amended on April 9, 2004, which leaves 277,400 shares available for repurchase under the plan.

In addition to the historical information contained herein, this press release contains certain forward-looking statements. The reader of this press release should understand that all such forward-looking statements are subject to various uncertainties and risks that could affect their outcome. The Company's actual results could differ materially from those suggested by such forward-looking statements. Factors that could cause or contribute to such differences include, but are not limited to, variances in the actual versus projected growth in assets, return on assets, loan losses, expenses, rates charged on loans and earned on securities investments, rates paid on deposits, competition effects, fee and other noninterest income earned as well as other factors. This entire press release should be read to put such forward-looking statements in context and to gain a more complete understanding of the uncertainties and risks involved in the Company's business.
