NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

September 28, 2014

NOTE 1 – Basis of presentation and summary of significant accounting policies

Basis of presentation: Our accompanying unaudited condensed consolidated financial statements have been prepared in accordance with the instructions for Form 10-Q and, therefore, do not include all information and footnotes which are normally included in the Form 10-K and annual report to shareholders. In our opinion, the financial statements reflect all adjustments of a normal recurring nature necessary for a fair presentation of results for the interim periods presented.

Variable Interest Entities (VIE): A variable interest entity is an entity that lacks equity investors or whose equity investors lack a controlling interest in the entity through their equity investments. We consolidate VIEs when we are the primary beneficiary. In determining whether we are the primary beneficiary of a VIE for financial reporting purposes, we consider whether we have the power to direct the activities of the VIE that most significantly impact the economic performance of the VIE and whether we are obligated to absorb losses or the right to receive returns that would significantly impact the VIE.

We have determined that the entities holding four of our television stations constitute VIEs and the various agreements that we entered into with these entities represent variable interests. Accordingly, we evaluated the arrangements to determine whether we are considered the primary beneficiary, and as a result of this evaluation, we have consolidated four stations in the Louisville, KY, Portland, OR, and Tucson, AZ, television markets since December 23, 2013.

The carrying amounts and classification of the assets and liabilities of the consolidated VIEs mentioned above and included in our consolidated balance sheets were as follows:

In thousands	Sept. 28, 2014	Dec. 29, 2013
Current assets	\$20,420	\$4,677
Plant, property and equipment, net	9,015	8,061
Intangible and other assets	30,918	32,008
Total assets	\$60,353	\$44,746
Current liabilities	\$6,973	\$7,827
Noncurrent liabilities	30,501	34,173
Total liabilities	\$37,474	\$42,000

Recent accounting standards: In May 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2014-09 Revenue from Contracts with Customers (Topic 606) which supersedes the guidance in Revenue Recognition (Topic 605). The core principle contemplated by ASU 2014-09 is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. New disclosures about the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers are also required.

We are required to adopt ASU 2014-09 in the first quarter of 2017 and early application is not permitted. However, we will need to retroactively apply the standard to 2015 and 2016 at the time of adoption. We can choose to apply the standard using either the full retrospective approach or a modified retrospective approach where we will recognize a cumulative catch up adjustment to the opening balance of retained earnings. We are currently assessing the impact of adopting this pronouncement and the transition method we will use.

In July 2013, the FASB issued ASU 2013-11 Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, A Similar Tax Loss, or a Tax Credit Carryforward Exists. ASU 2013-11 provides guidance on financial statement presentation of an unrecognized tax benefit (UTB) when a net operating loss (NOL) carryforward, a similar tax loss, or a tax credit carryforward exists. Under ASU 2013-11, an entity must present a UTB, or a portion

of a UTB, in the financial statements as a reduction to a deferred tax asset (DTA) for an NOL carryforward, a similar tax loss, or a tax credit carryforward except when:

• An NOL carryforward, a similar tax loss, or a tax credit carryforward is unavailable as of the reporting date under the tax law of the jurisdiction.

• The entity does not intend to use the DTA for this purpose (provided that the tax law permits a choice).

7

If either of these conditions exists, an entity should present a UTB in the financial statements as a liability and should not net the UTB with a DTA. ASU 2013-11 is effective for public entities for fiscal years beginning after December 15, 2013, and interim periods within those years. We were required to adopt ASU 2013-11 in the first quarter of 2014, and the impact on our consolidated results of operations, financial position and cash flows was insignificant.

NOTE 2 – Acquisitions and dispositions

On February 28, 2014, we completed the previously announced sale of KMOV-TV in St. Louis, MO, to Meredith Corporation, following regulatory approval. As a condition of the sale, Sander Media conveyed to Meredith Corporation substantially all of its assets used to operate KMOV-TV, which Sander Media acquired when the Gannett-Belo transaction closed on December 23, 2013. We conveyed certain other assets needed to provide services to KMOV-TV, which we also acquired from Belo Corp.

In March 2014, Classified Ventures, in which we owned a 26.9% interest, agreed to sell Apartments.com to CoStar Group, Inc. for \$585 million. This transaction closed on April 1, 2014. As a result of our ownership stake, we received a special \$154.6 million distribution from Classified Ventures after the close of the transaction.

Early in the second quarter, our subsidiary CareerBuilder acquired Broadbean. Broadbean is a leading international job distribution, candidate sourcing and big data analytics software company. Broadbean is headquartered in London, United Kingdom and has offices in the U.S., France, Germany, the Netherlands and Australia. The acquisition unites two technology companies which specialize in sourcing and recruitment.

On June 19, 2014, we, together with Sander Media LLC, completed the previously announced sale of KTVK-TV and KASW-TV in Phoenix, AZ, to Meredith Corporation, following regulatory approval. As part of the sale, Sander Media conveyed to Meredith all of the assets used to operate both stations, which Sander Media acquired when the Belo transaction was completed in December 2013. We also conveyed certain other assets used to provide services to both stations, which were also acquired from the Belo transaction. At the closing, Meredith simultaneously conveyed KASW-TV to SagamoreHill of Phoenix, LLC, which, through its affiliates, owns and operates two television stations in two markets. The total sale price of the Phoenix and St. Louis stations was \$407.5 million plus working capital.

On July 8, 2014, we acquired six London Broadcasting Company television stations in Texas for approximately \$215.0 million in an all-cash transaction. We used proceeds of \$134.9 million from the sale of the Phoenix and St. Louis stations to partially pay for these London Broadcasting Company stations via a tax efficient structure. The acquisition included KCEN (NBC) in Waco-Temple-Bryan, KYTX (CBS) in Tyler-Longview, KIII (ABC) in Corpus Christi, KBMT (ABC) and its digital sub-channel KJAC (NBC) in Beaumont-Port Arthur, KXVA (FOX) in Abilene-Sweetheart and KIDY (FOX) in San Angelo.

On August 5, 2014, we announced our plan to create two publicly traded companies: one exclusively focused on our Broadcasting and Digital businesses, and the other on our Publishing business. The planned separation of the Publishing business will be implemented through a tax-free distribution of shares of a new entity formed to hold our Publishing assets to our shareholders. We expect to complete the transaction mid-2015, subject to a number of conditions, including final approval of our Board of Directors, receipt of an opinion from tax counsel regarding the tax free nature of the distribution, the effectiveness of a Form 10 registration statement to be filed with the SEC in regard to the shares of the entity formed to hold our Publishing assets, and other customary matters. There can be no assurance regarding the ultimate timing of the proposed transaction or that it will be completed.

On October 1, 2014, we acquired the remaining 73% interest in Classified Ventures LLC, which owns Cars.com, for \$1.8 billion. We funded the acquisition from our sale of \$350.0 million aggregate principal amount of 4.875% Senior Notes due 2021 and \$325.0 million aggregate principal amount of 5.500% Senior Notes due 2024, plus cash and borrowings under our revolving credit agreement.

NOTE 3 – Facility consolidation and asset impairment charges

Throughout the year we evaluated the carrying values of property, plant and equipment at certain publishing businesses as a result of our ongoing facility consolidation efforts. We revised the useful lives of certain assets to reflect the use of those assets over a shortened period as a result. Certain assets classified as held-for-sale according to Accounting Standards Codification (ASC) Topic 360 resulted in us recognizing non-cash charges in both 2014 and 2013 as we reduced the carrying values to equal the fair value less cost to dispose. The fair values were based on the

estimated prices of similar assets.

We recorded non-cash impairment charges to reduce the book value of goodwill and other intangible assets. We are required to test goodwill and other indefinite lived assets for impairment annually. Our annual measurement date for testing is the first day of the fourth quarter. However, because of softening business conditions at two of our smaller Publishing Segment reporting units, we updated our evaluations as of the beginning of the second quarter of 2014. Our testing indicated that the

8

implied \$6.2 million fair value of the goodwill was less than the recorded value. As a result, we recognized a \$15.3 million pre-tax charge to reduce the carrying value of goodwill to the implied fair value.

We recorded pre-tax charges for facility consolidations and asset impairments of \$6.6 million in the third quarter and \$50.2 million for the year-to-date period in 2014. For 2013, we recorded \$5.9 million pre-tax charges for the third quarter and \$15.2 million for the year-to-date period. We recorded a \$1.0 million non-operating pre-tax charge in the second quarter of 2014 to write off certain broadcasting assets that were donated then and a \$0.9 million non-operating pre-tax charge in the first quarter of 2013 to write off certain publishing assets.

NOTE 4 – Goodwill and other intangible assets

On December 23, 2013, we acquired Belo and on July 8, 2014 we acquired six London Broadcasting Company television stations. The initial purchase price allocations are preliminary based upon all information available to us at the present time and are subject to change. We continue to review underlying assumptions and valuation techniques utilized to calculate the fair value of primarily the indefinite-lived and amortizable intangible assets, property, plant and equipment, investments and deferred income taxes. Certain immaterial adjustments for the Belo acquisition have been made since the initial allocation in the fourth quarter of 2013.

NOTE 5 – Long-term debt

For the first nine months of 2014, our long-term debt increased by \$399.7 million primarily reflecting the issuance of \$675.0 million of new notes in support of the Classified Ventures, LLC (owner of Cars.com) acquisition, partially offset by the early repayment of the 9.375% notes due in 2017. We redeemed the 9.375% notes by paying 104.688% of the outstanding principal amount in accordance with the original terms. The early redemption of these notes will save us approximately \$19.4 million in interest expense for 2014.

On September 8, 2014, we completed the private placement of \$350.0 million in aggregate principal amount of 4.875% senior unsecured notes due 2021. The 2021 Notes were priced at 98.531% of face value, resulting in a yield to maturity of 5.125%. Subject to certain exceptions, we may not redeem the 2021 Notes before September 15, 2017. On the same day, we completed the private placement of \$325.0 million in aggregate principal amount of 5.50% senior unsecured notes due 2024. The 2024 Notes were priced at 99.038% of face value, resulting in a yield to maturity of 5.625%. Subject to certain exceptions, we may not redeem the 2024 Notes before September 15, 2019. The 2021 and 2024 Notes were issued in a private offering that is exempt from the registration requirements of the Securities Act of 1933. The 2021 and 2024 Notes are guaranteed on a senior basis by our subsidiaries that guarantee our revolving credit facility, term loan and our other outstanding notes. After quarter end, we used the net proceeds from the private placements of the 2021 and 2024 Notes plus cash and borrowings under our revolving credit facility to finance the acquisition of all of the outstanding membership interests of Classified Ventures, LLC previously owned by other parties.

On September 28, 2014, we had unused borrowing capacity of \$1.27 billion under our revolving credit agreement that expires in August 2018. Immediately following the Classified Ventures acquisition on October 1, 2014, our unused borrowing capacity under our revolving credit agreement was \$617.5 million.

NOTE 6 – Retirement plans

We, along with our subsidiaries, have various retirement plans, including plans established under collective bargaining agreements. The Gannett Retirement Plan (GRP) is our principal retirement plan. Our retirement plan costs include costs for qualified and nonqualified plans and are presented in the following table:

In thousands	Thirteen Weeks Ended		Thirty-nine Weeks Ended	
	Sept. 28, 2014	Sept. 29, 2013	Sept. 28, 2014	Sept. 29, 2013

Expense (credit) for company-sponsored retirement plans	\$(1,806)	\$5,311	\$(5,424)	\$15,930

For the thirty-nine weeks ended September 28, 2014, we contributed \$55.0 million to the GRP, \$20.1 million to the G.B. Dealey Retirement Plan (Dealey Plan) and \$10.5 million to the Newsquest Pension Scheme in the U.K. (Newsquest Plan). We assumed the Dealey Plan as part of the Belo acquisition that was completed on December 23, 2013. Based on current funding requirements, we expect no further contributions to the GRP or to the Dealey Plan for the remainder of 2014.

NOTE 7 – Post-retirement benefits other than pension

We provide health care and life insurance benefits to certain retired employees who meet age and service requirements. Most of our retirees contribute to the cost of these benefits, and retiree contributions are increased as actual benefit costs increase. Our policy is to fund benefits as claims and premiums are paid. In March 2014, we adopted changes to the retiree medical plan that were effective July 1, 2014. Beginning on that date, we pay a stipend to certain Medicare-eligible Gannett retirees. This stipend is accessible through a Healthcare Reimbursement Account and retirees can select from a variety of plans offered through the individual Medicare marketplace. As a result of this change, we remeasured the related post-retirement benefit obligation during the first quarter of 2014, and recorded a reduction to the liability of \$33.9 million (with a corresponding adjustment to “Accumulated other comprehensive loss”). Post-retirement benefit costs for health care and life insurance are presented in the following table:

In thousands	Thirteen Weeks Ended		Thirty-nine Weeks Ended	
	Sept. 28, 2014	Sept. 29, 2013	Sept. 28, 2014	Sept. 29, 2013
Service cost-benefits earned during the period	\$92	\$132	\$278	\$396
Interest cost on net benefit obligation	1,098	1,414	3,613	4,242
Amortization of prior service credit	(3,083)	(2,291)	(8,566)	(6,873)
Amortization of actuarial loss	213	292	545	877
Net periodic post-retirement benefit credit	\$(1,680)	\$(453)	\$(4,130)	\$(1,358)

NOTE 8 – Income taxes

The total amount of unrecognized tax benefits that, if recognized, would impact the effective tax rate was approximately \$44.8 million as of September 28, 2014 and \$46.5 million as of December 29, 2013. The following table summarizes the activity related to unrecognized tax benefits, excluding the federal tax benefit of state tax deductions:

In thousands	Unrecognized Tax Benefits
Balance at Dec. 29, 2013	\$57,324
Changes in unrecognized tax benefits:	
Additions based on tax positions related to the current year	5,319
Additions for tax positions of prior years	313
Reductions for tax positions of prior years	(4,314)
Reductions due to lapse of statutes of limitations	(2,759)
Balance at Sept. 28, 2014	\$55,883

We recognize interest and penalties related to unrecognized tax benefits as a component of income tax expense. Interest income attributable to overpayment of income tax is recognized as a component of income tax expense. We recognized a net benefit from the reversal of interest and penalty expense of \$1.4 million in the third quarter of 2014 and \$1.6 million during the third quarter of 2013. We recognized a net benefit from the reversal of interest and penalty expense of \$3.8 million during the first nine months of 2014 and \$19.0 million during the first nine months of 2013. The net interest and penalty benefits recognized in the third quarter and first nine months of 2014 and 2013 are primarily from the release of uncertain tax position reserves due to audit settlements and the lapse of the applicable statutes of limitations. The amount of net accrued interest and penalties related to uncertain tax benefits as of September 28, 2014, was approximately \$7.7 million and as of December 29, 2013, was approximately \$11.5 million. We file income tax returns in the U.S. as well as various state and foreign jurisdictions. The 2011 through 2013 tax years remain subject to IRS examination. The 2010 through 2013 tax years generally remain subject to examination by state authorities, and the 2012 and 2013 tax years are subject to examination in the U.K. Tax years before 2010 remain subject to examination by certain states primarily due to the filing of amended tax returns as a result of the settlement of the IRS examination for these years and due to ongoing audits.

It is reasonably possible that the amount of unrecognized benefits with respect to certain of our unrecognized tax positions will significantly increase or decrease within the next 12 months. These changes may be the result of settlement of ongoing audits, lapses of statutes of limitations or other regulatory developments. At this time, we estimate the amount of gross unrecognized tax positions may be reduced by up to approximately \$6.0 million within the next 12 months primarily due to lapses of statutes of limitations and settlement of ongoing audits in various jurisdictions.

NOTE 9 – Supplemental equity information

In August 2012, our CareerBuilder subsidiary acquired 74% of Economic Modeling Specialists Intl. (EMSI), a software firm that specializes in employment data and labor market analytics. Holders of the remaining 26% ownership interest in EMSI hold put rights that permit them to put their equity interest to CareerBuilder. Since redemption of EMSI noncontrolling interest is outside of our control, the balance is presented on the Condensed Consolidated Balance Sheets in the caption “Redeemable noncontrolling interests.”

NOTE 10 – Fair value measurement

We measure and record in the accompanying condensed consolidated financial statements certain assets and liabilities at fair value. ASC Topic 820, Fair Value Measurement, establishes a hierarchy for those instruments measured at fair value that distinguishes between market data (observable inputs) and our own assumptions (unobservable inputs). The hierarchy consists of three levels:

Level 1 - Quoted market prices in active markets for identical assets or liabilities;

Level 2 - Inputs other than Level 1 inputs that are either directly or indirectly observable; and

Level 3 - Unobservable inputs developed using our own estimates and assumptions, which reflect those that a market participant would use.

The following table summarizes our assets and liabilities measured at fair value in the accompanying Condensed Consolidated Balance Sheets as of September 28, 2014 and December 29, 2013:

In thousands	Fair Value Measurements as of Sept. 28, 2014

Contingent consideration payable	\$—	\$—	\$32,267	\$32,267
Total liabilities	\$—	\$—	\$32,267	\$32,267

Under certain acquisition agreements, we have agreed to pay the sellers earn-outs based on the future financial performance of the businesses. Contingent consideration payable in the table above represents the estimated fair value of future earn-outs payable under such agreements. The fair value of the contingent payments was measured based on the present value of the consideration expected to be transferred using a discounted cash flow analysis. The discount rate is a significant unobservable input in such present value computations. Discount rates ranged between 10% and 30% depending on the risk associated with the cash flows. Changes to the fair value of earn-outs are reflected in “Selling, general and administrative expenses” on our Condensed Consolidated Statements of Income. For the thirty-nine weeks ended September 28, 2014, the contingent consideration decreased by \$19.9 million as a result of payments and adjustments to fair value.

The fair value of our total long-term debt, based on the bid and ask quotes for the related debt (Level 2), totaled \$4.23 billion at September 28, 2014 and \$3.93 billion at December 29, 2013.

NOTE 11 – Business segment information

Our reportable segments based on our management and internal reporting structures are Broadcasting, Publishing and Digital. The Broadcasting Segment at the end of the third quarter includes our 46 owned and serviced television stations. The Publishing Segment principally includes local domestic publishing operations, Newsquest operations in the U.K. and the USA TODAY group. The Digital Segment includes CareerBuilder, Shoplocal and PointRoll.

The diluted earnings per share amounts exclude the effects of approximately 1.7 million stock options outstanding for the third quarter and year-to-date of 2014 and 6.1 million stock options outstanding for the third quarter and year-to-date of 2013, as their inclusion would be anti-dilutive.

NOTE 13 – Commitments, contingencies and other matters

We, along with a number of our subsidiaries, are defendants in judicial and administrative proceedings involving matters incidental to our business. Management believes any liability that exists as a result of these matters is immaterial.

NOTE 14 – Subsequent events

On October 1, 2014, we acquired the remaining 73% interest in Classified Ventures LLC, which owns Cars.com, for \$1.8 billion. We funded the acquisition from our sale of \$350.0 million aggregate principal amount of 4.875% Senior Notes due 2021 and \$325.0 million aggregate principal amount of 5.50% Senior Notes due 2024, plus cash and borrowings under our revolving credit agreement.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

We are a leading international media and marketing solutions company, and one of the largest, most geographically diverse local content providers in the U.S. Through a vast network of broadcast, digital, mobile and print products, we inform and engage more than 110 million people every month.

Our Broadcasting Segment currently includes 46 television stations that we either own or service through shared service agreements. Excluding owner-operators, we are the No. 1 NBC affiliate group; No. 1 CBS affiliate group; and the No. 4 ABC affiliate group. These stations cover almost a third of the U.S. population in markets with approximately 35 million households. We are the largest independent television station group of major network affiliates in the top 25 U.S. markets.

Within our Publishing Segment, we provide content through 82 local U.S. daily publications, including USA TODAY, a multi-platform news and information media company, as well as more than 400 non-daily local publications in 30 states and Guam. USA TODAY ranks No. 1 in the industry in total daily combined print and digital circulation, according to the Alliance for Audited Media. Our subsidiary Newsquest is one of the United Kingdom's leading regional community news providers, providing its markets with 17 daily paid-for titles, more than 200 weekly print products, magazines and trade publications.

We own and operate a number of stand-alone digital subsidiaries, the results of which are included in our Digital Segment. The largest of these subsidiaries is CareerBuilder, a global leader in human capital solutions, providing everything from labor market intelligence to talent management software and other recruitment solutions, with a presence in more than 60 markets worldwide and a focus on technology solutions and niche sites. CareerBuilder.com is the largest online job site in the U.S., measured both by traffic and revenue.

Recent Developments

In the third quarter, we announced two transformative, highly strategic transactions:

▲ tax-free separation of our Publishing business

◆ The acquisition of the remaining 73% interest in Classified Ventures for \$1.8 billion cash

Separation into two public companies:

On August 5, 2014, we announced our plan to create two publicly traded companies: one exclusively focused on our Broadcasting and Digital businesses, and the other on our Publishing business. The planned separation of the Publishing business will be implemented through a tax-free distribution to our shareholders of shares of a new entity formed to hold our Publishing assets. We expect to complete the transaction in mid-2015, subject to a number of conditions, including final approval of our Board of Directors, receipt of an opinion from tax counsel regarding the tax free nature of the distribution, the effectiveness of a Form 10 registration statement to be filed with the SEC in regard to the shares of the entity formed to hold our Publishing business assets, and other customary matters. There can be no assurance regarding the ultimate timing of the proposed transaction or that it will be completed.

Classified Ventures acquisition:

On October 1, 2014, we acquired the remaining 73% interest in Classified Ventures LLC, which owns Cars.com, for \$1.8 billion. Cars.com is a leading destination for online car shoppers, offering information from consumers and experts to help buyers formulate opinions on what to buy, where to buy and how much to pay for a car. We funded the acquisition with the net proceeds from our sale of \$350 million aggregate principal amount of 4.875% Senior Notes due 2021 and \$325 million aggregate principal amount of 5.50% Senior Notes due 2024, plus cash and borrowings under our revolving credit agreement. As part of the acquisition, Classified Ventures entered into new five year affiliation agreements with each of the former newspaper investors at economic terms much more favorable to Cars.com. Before this acquisition, we held a noncontrolling interest in Classified Ventures and accounted for our interest using the equity method. After the acquisition, we will consolidate the results of Classified Ventures. We expect our operating income will increase and equity income will decrease. Our Publishing businesses that sell Cars.com products are operating under new pricing terms following the acquisition which are similar to terms included in the new affiliate agreements we entered into with the former newspaper investors. The new terms will

result in lower operating income in our Publishing Segment with corresponding increases in our Digital Segment.

Results from Operations

Our reportable segments based on our management and internal reporting structures are Broadcasting, Publishing, and Digital. The primary categories of Broadcasting Segment revenue are: 1) core advertising which includes local and national non-political advertising; 2) political advertising revenues which are seasonal with peaks occurring in even years (e.g., 2014 and 2012) and particularly in the fourth quarter of those years; 3) retransmission revenues representing fees paid by satellite and cable networks and telecommunications companies to carry our television signals on their network; 4) digital revenues generated through advertising on the stations' web, tablet and mobile products; and 5) other revenues, which consist of payments by advertisers to television stations for other services, such as producing advertising material. We generate Publishing Segment revenue primarily through advertising and subscriptions to our print and digital publications. Our advertising departments sell retail, classified and national advertising across multiple platforms including print, web sites, mobile, tablet and other specialty publications. The largest subsidiary within our Digital Segment is CareerBuilder, which generates revenues both through its own sales force by providing talent and compensation intelligence, human resource related consulting services and recruitment solutions and through sales of employment advertising placed with its affiliated media organizations.

Our largest component of operating expense is payroll and benefits. Other significant operating expenses include the costs of locally produced content and purchased syndicated programming in the Broadcasting Segment, production (raw materials) and distribution costs within the Publishing Segment, and sales and marketing costs within the Digital Segment.

A number of factors impacted 2014 revenue and expense comparisons. The largest of these drivers was the inclusion of the television stations acquired or serviced as a result of the Belo and London Broadcasting Company transactions as well as the continued growth of retransmission revenues. Strong political advertising spending, particularly in the third quarter, helped to drive record revenues in our broadcasting operations. We continued to stabilize our publishing operations and manage the industry-wide softening of revenues through a number of initiatives including the All Access Content Subscription Model and the inclusion of USA TODAY content editions within our local domestic publishing operations. Coupled with our efficiency initiatives, including consolidating printing and distribution platforms, global sourcing and real estate optimization, we are managing expenses to align with continuing industry-wide challenges for our Publishing Segment. Our Digital Segment, led by CareerBuilder, provided solid revenue growth as CareerBuilder continues to position itself for expansion in the software-as-a-service market for talent management solutions. Growth of digital revenues within our Publishing and Broadcasting Segments reflects the success of our expansion of digital marketing services, particularly with search and social products. As a result of these factors, the mix of our revenues and expenses is shifting, with a significantly higher share of our revenues being generated by higher growth and higher margin broadcasting and digital operations.

Our operating revenues were \$1.44 billion in the third quarter of 2014, an increase of 15% from \$1.25 billion in the same period last year. For the first nine months of 2014, operating revenues increased 14% to \$4.31 billion from \$3.79 billion in 2013. The increase in both periods was driven primarily by a record level of Broadcasting Segment revenues which increased 105% in the third quarter of 2014 and 97% in the first nine months of 2014, reflecting revenues from the acquisitions of Belo and the London Broadcasting Company television stations, as well as substantially higher

retransmission and political advertising revenues. On a pro forma basis, had we owned and/or serviced the Belo and London Broadcasting Company television stations in the same period last year and excluding Captivate and the impact of the sale of a print business and Apartments.com, total operating revenue would have increased 4% in the third quarter and 3% in the first nine months of 2014. Broadcasting Segment revenues on a pro forma basis increased 19% in the third quarter of 2014 and 17% year-to-date. A separate discussion of pro forma information begins on page 32. Publishing Segment revenues were down 4% in both the third

quarter of 2014 and the year-to-date periods, reflecting continued pressure on advertising demand, partially offset by higher revenue associated with digital advertising and marketing solutions. On a pro forma basis, Publishing Segment revenues were down 2% in the third quarter of 2014 and down 3% year-to-date. Digital Segment revenues increased 4% in the third quarter of 2014, driven by continued growth at CareerBuilder.

Operating expenses increased 8% for the third quarter and 10% for the year-to-date period. Broadcasting Segment operating expenses increased 100% in the third quarter and 103% in the first nine months due to the impact of the acquisitions of Belo and the London Broadcasting Company television stations. On a pro forma basis, company-wide operating expenses were relatively unchanged in both the third quarter and the first nine months of 2014 compared to the same periods in 2013. Broadcasting Segment expenses on a pro forma basis were up 4% in both the third quarter and year-to-date 2014 compared to the same periods last year. Publishing Segment operating expenses were down 4% in the third quarter and 2% in the year-to-date period due to ongoing cost control and efficiency efforts as well as lower volumes. On a pro forma basis, Publishing Segment operating expenses were down 2% in both the third quarter of 2014 and the year-to-date periods. Digital Segment operating expenses increased 1% in the third quarter and 3% year-to-date reflecting incremental expenses incurred at CareerBuilder related to its Broadbean acquisition and also its continued investments in sales staff expansion as well as technology support for its human capital software solutions. A separate discussion of operating expenses excluding special items (non-GAAP basis) begins on page 26.

Non-operating expense increased from \$47.5 million for the third quarter of 2013 and \$113.2 million for the year-to-date period in 2013 to \$81.6 million in the third quarter of 2014 and \$74.1 million for the year-to-date period, driven primarily by higher interest expense. Equity income in unconsolidated investees totaled \$1.8 million in the third quarter of 2014 and \$166.8 million for the year-to-date period, reflecting primarily the gain in the second quarter from the sale of Apartments.com by Classified Ventures, an equity method investee. Interest expense was \$65.9 million in the third quarter and \$199.7 million for the year-to-date period in 2014 compared to \$41.6 million and \$113.2 million in the same periods last year, reflecting primarily the issuance of debt to fund the Belo acquisition and the Classified Ventures (which owns Cars.com) acquisition, partially offset by a lower average interest rate. With the successful completion of our private placement offering of \$675.0 million senior notes related to acquiring Cars.com, the total average outstanding debt was \$3.58 billion for the third quarter of 2014, compared to \$1.81 billion last year. The weighted average interest rate on total outstanding debt was 6.89% for the third quarter of 2014 compared to 7.92% last year. For the year-to-date period total average outstanding debt was \$3.56 billion compared to \$1.66 billion last year. The weighted average interest rate on total outstanding debt was 6.98% year-to-date in 2014 compared to 8.02% in the same period last year.

Our reported effective income tax rate was 29.2% for the third quarter of 2014, compared to 25.1% for the third quarter of 2013. The tax rate for the third quarter in 2014 was higher than the comparable rate in 2013 due to non-operating special items that are not deductible for tax purposes. The reported effective income tax rate was 34.9% for the first nine months of 2014 compared to 19.4% for the same period last year. These rates also reflect special items. The year-to-date 2014 rate was negatively impacted by a \$18.2 million tax charge recognized on the sale of KMOV-TV in St. Louis, MO to Meredith Corporation in February 2014. The year-to-date 2013 rate was positively impacted by a net tax benefit of \$27.8 million related to resolving a multi-year federal audit settlement and the release of a significant reserve for an uncertain state tax position. A separate discussion of effective income tax rates excluding special items (non-GAAP basis) appears on page 32.

The weighted average number of diluted shares outstanding for the third quarter of 2014 decreased by 2.3 million shares from 2013. For the year-to-date period, the weighted average number of diluted shares outstanding in 2014 decreased by 2.6 million shares. These declines reflect shares repurchased in 2013 and the first half of 2014, partially offset by increases in stock option exercises. See Part II, Item 2 for information on share repurchases.

Segment Results

The following is a discussion of our reported operating segment results for the third quarter and year-to-date period of 2014. Unless otherwise noted, all comparisons are to the comparable prior year period.

^(a) The pro forma figures are presented as if the acquisition of Belo Corp. and the six acquired London Broadcasting Company television stations as well as the Captivate disposition had occurred at the beginning of 2013.

^(b) Reverse compensation to network affiliates is included as part of programming costs and therefore is excluded from this line.

Reported Broadcasting Segment revenues in the third quarter of 2014 increased 105% to \$416.5 million, a record, driven primarily by the acquisitions of Belo and the London Broadcasting Company television stations, as well as substantially higher retransmission revenue and political advertising. Core advertising revenue, which consists of Local and National non-political advertising, increased 75% to \$250.6 million in the third quarter of 2014 mainly due to television station acquisitions. Political advertising reached \$40.0 million compared to \$3.6 million in the third quarter a year ago, driven by maximizing the benefit of a strong political footprint. Retransmission revenue increased 154% to \$91.9 million in the quarter resulting from rate increases and the expansion of our Broadcasting Segment portfolio. Digital revenue increased 171% to \$26.0 million in the third quarter of 2014, reflecting our expanded portfolio and continued growth from digital marketing services products. Other revenue declined 25% to \$8.0 million, reflecting the absence of Captivate revenue that was reported in the third quarter of 2013. On a pro forma basis, Broadcasting Segment revenues increased 19% driven by robust retransmission revenues and significantly higher political advertising.

For the year-to-date period, Broadcasting Segment revenues increased 97% to \$1.20 billion driven primarily by the acquisitions, as well as substantially higher political and retransmission revenues.

Broadcasting Segment operating expenses for the third quarter of 2014 increased 100% to \$238.5 million primarily due to the acquisitions as well as higher investments in digital initiatives and reverse network compensation. On a pro forma basis, Broadcasting Segment operating expenses increased 4% in the third quarter of 2014 and increased 4% year-to-date. Operating

income in the third quarter of 2014 increased 112% to \$178.0 million compared to last year and increased 47% on a pro forma basis. Operating income in the first nine months of 2014 increased 90% to \$503.8 million compared to last year and increased 40% on a pro forma basis.

Publishing Segment revenues were generated principally from advertising and circulation sales. Advertising sales accounted for 60% of total Publishing Segment revenues for the third quarter of 2014 and the first nine months of 2014. Circulation sales accounted for 33% of total Publishing Segment revenues for the third quarter of 2014 and the first nine months of 2014. Advertising revenues include amounts generated from print advertising as well as digital advertising on publishing-related Internet websites, mobile and tablet applications. The table below presents the main components of Publishing Segment revenues:

In thousands	Third Quarter			Year-to-Date		
	2014	2013	Change	2014	2013	Change
Advertising	\$494,899	\$520,189	(5 %)	\$1,526,382	\$1,609,164	(5 %)
Circulation	276,829	274,999	1 %	836,756	840,626	— %
All other	55,098	62,891	(12 %)	173,116	183,753	(6 %)
Total Publishing Segment revenues	\$826,826	\$858,079	(4 %)	\$2,536,254	\$2,633,543	(4 %)

Publishing Segment revenues were down 4% both in the third quarter and year-to-date, reflecting continued pressure on advertising demand, partially offset by higher revenue associated with digital advertising and marketing solutions. On a pro forma basis, Publishing Segment revenues were down 2% in the third quarter of 2014 and down 3% year-to-date.

The table below presents the principal categories of advertising revenues for the Publishing Segment:

In thousands	Third Quarter			Year-to-Date		
	2014	2013	Change	2014	2013	Change
Retail	\$258,063	\$269,516	(4 %)	\$793,614	\$831,553	(5 %)

Total Publishing Segment advertising revenues	\$494,899	\$520,189	(5 %)	\$1,526,382	\$1,609,164	(5 %)

The percentage changes within the advertising revenue categories for U.S. Publishing, Newsquest and the total Publishing Segment, presented as if the Apartments.com sale occurred at the beginning of 2013, are as follows:

	Third Quarter			Year-to-Date		
	U.S. Publishing	Newsquest (in pounds)	Total Publishing Segment	U.S. Publishing	Newsquest (in pounds)	Total Publishing Segment
Retail	(5 %)	(2 %)	(4 %)	(6 %)	(2 %)	(5 %)

Classified	(4 %)	(2 %)	(1 %)	(5 %)	(3 %)	(2 %)
Total Publishing Segment advertising revenues	(6 %)	(2 %)	(4 %)	(6 %)	(3 %)	(5 %)

Total advertising comparisons year over year in the Publishing Segment were lower both in the third quarter and year-to-date due to ongoing pressure on advertising demand, partially offset by higher revenue associated with digital advertising and marketing solutions. Pro forma advertising revenues were 4% lower. On the same basis, national and classified comparisons in the third quarter were better than second quarter year-over-year comparisons. Advertising revenue at Newsquest declined 2%, in pounds, as national advertising was 3% lower and retail advertising was 2% lower. The average exchange rate used to translate U.K. publishing results from the British pound to U.S. dollars increased 8% for the third quarter of 2014 and for the year-to-date period.

Overall percentage changes within the classified revenue categories for U.S. Publishing, Newsquest, and the total Publishing Segment, presented as if the Apartments.com sale occurred at the beginning of 2013, are as follows:

	Third Quarter			Year-to-Date		
	U.S. Publishing	Newsquest (in pounds)	Total Publishing Segment	U.S. Publishing	Newsquest (in pounds)	Total Publishing Segment

Total circulation revenues increased 1% to \$276.8 million in the third quarter of 2014 and were relatively unchanged to \$836.8 million year-to-date compared to the same periods last year. Circulation revenue for our local domestic publishing business was 1% higher in the third quarter of 2014, the first quarterly increase in 2014, reflecting ongoing strength of the All Access Subscription Model as well as strategic home delivery price increases at our local domestic publishing sites. Circulation revenue at USA TODAY was 2% lower in the third quarter of 2014 due to planned volume losses. In the U.K., circulation revenues in local currency were 5% lower in the third quarter of 2014 reflecting the cycling of cover price increases last year.

Commercial printing and other publishing revenue was down 12% for the quarter and down 6% year-to-date reflecting the sale of a print business and a decrease in U.K. commercial printing revenues.

Digital revenues associated with the Publishing Segment increased 7% for the third quarter. Digital revenues at USA TODAY and its associated businesses increased 17%, fueled by increased user engagement across all digital platforms. Digital revenues for our local domestic publishing business increased 4% for the third quarter. Digital revenues in the U.K. were 20% higher for the quarter in local currency. These increases reflect the impact of our strategic successes in providing digital advertising and marketing solutions.

For the year-to-date period, digital revenues associated with the Publishing Segment increased 7%. Digital revenues at USA TODAY and its associated businesses increased 22% year-to-date driven by desktop and other mobile

applications. Digital revenues for our local domestic publishing business increased 4% year-to-date. Digital revenues in the U.K. were 21% higher for the year-to-date period in local currency.

Publishing Segment operating expenses decreased 4% in the quarter to \$764.4 million compared to \$795.3 million last year. This decrease was primarily due to continued cost efficiency efforts. Newsprint expense was 7% lower in the quarter and year-to-date due primarily to declines in consumption. Drivers of year-to-date comparisons were similar to quarterly comparisons. Publishing Segment operating expenses decreased 2% for the year-to-date period to \$2.38 billion from \$2.43 billion last year.

Publishing Segment operating income was \$62.4 million in the quarter compared to \$62.7 million last year, a decrease of less than 1%. For the year-to-date period, Publishing Segment operating income was \$158.7 million compared to \$208.1 million last year. Publishing Segment operating income for the quarter and year-to-date periods for both 2014 and 2013 were impacted by special items. Financial results and comparisons excluding the impact of these special items are discussed in the “Results from Operations - Non-GAAP and Pro Forma Information” below.

Digital Segment Results

The Digital Segment includes results for stand-alone digital subsidiaries including CareerBuilder, PointRoll, and Shoplocal. The largest of these subsidiaries, CareerBuilder has been expanding both through internal growth and acquisitions. On April 1, 2014, CareerBuilder announced the acquisition of Broadbean, a leader in online recruitment software that enables job distribution, candidate sourcing and big data analytics for employers. The Broadbean acquisition, when combined with the addition of Economic Modeling Specialists Intl. in 2012, represents the next step in CareerBuilder’s transformation, positioning it as a leading company in the rapidly growing software-as-a-service market for talent management solutions. Many of our other digital offerings are tightly integrated within our existing publishing or broadcasting offerings, and therefore the results of these integrated digital offerings are reported within the operating results of the Publishing and Broadcasting Segments.

Digital Segment operating revenues increased 4% to \$199.8 million in the third quarter of 2014 compared to \$191.4 million in 2013. CareerBuilder revenues were up 7% for the quarter and 6% year-to-date, driven by expanding sales of human capital software solutions as well as their recent acquisition of Broadbean. Digital Segment revenues benefited from continued growth at Shoplocal driven by search work for major advertisers.

Digital Segment operating expenses increased 1% to \$151.5 million in the third quarter of 2014 and 3% year-to-date, reflecting investments by CareerBuilder to grow its market-leading sales presence and other digital investments including technology development in human capital software solutions. As a result, Digital Segment operating income for the quarter was \$48.3 million, an increase of 15% over the comparable period in 2013. Digital Segment operating income for the year-to-date period was \$107.9 million, an increase of 7% over the comparable 2013 period.

Corporate Expense

Corporate expense in the third quarter of 2014 increased 8% to \$18.2 million. Corporate expense for the year-to-date period increased 9% to \$53.3 million compared to \$48.9 million last year, driven by our investment in strategic initiatives and a slight increase in stock-based compensation.

Results from Operations - Non-GAAP and Pro Forma Information

Presentation of Non-GAAP information

We use non-GAAP financial performance and liquidity measures to supplement the financial information presented on a GAAP basis. These non-GAAP financial measures should not be considered in isolation from or as a substitute for the related GAAP measures, and should be read together with financial information presented on a GAAP basis. We discuss in this report non-GAAP financial performance measures that exclude from our reported GAAP results the impact of special items consisting of workforce restructuring charges, transformation costs, non-cash asset impairment charges, certain gains and expenses recognized in non-operating categories and certain credits and charges to our income tax provision.

We believe that such expenses, charges and credits are not indicative of normal, ongoing operations and their inclusion in results makes for more difficult comparisons between years and with peer group companies. Workforce restructuring and transformation expenses primarily relate to incremental expenses we have incurred to consolidate or outsource production processes and centralize other functions. Workforce restructuring expenses include payroll and related benefit costs as well as charges related to our partial withdrawal from certain multi-employer pension plans. Transformation costs include incremental expenses incurred by us to execute on our transformation and growth plan, including those related to our recently completed acquisitions of Belo and London Broadcasting Company television stations and incremental expenses associated with optimizing our real estate portfolio. Transformation costs also include amortization of acquired advertising contracts. In connection with the Belo acquisition, we recognized intangible assets for Belo's advertising contracts. Unlike most intangible assets which have useful lives of several years, these specific intangible assets had a benefit period and related amortization period that was less than three months from the date of acquisition. Asset impairment charges reflect non-cash charges to reduce the book value of certain intangible assets to their respective fair value, as our projections for the business underlying the related asset had declined.

In the second quarter of 2014, special items were recorded in other non-operating items primarily related to the pre-tax gain of \$148 million related to the Classified Ventures sale of its Apartments.com business. This gain is reflected in the line equity income in unconsolidated investees, net. Other non-operating items for 2014 included special charges primarily related to (1) acquiring six London Broadcasting Company television stations and the remaining outstanding shares of Classified Ventures LLC, (2) expenses related to the planned spin-off of our publishing operation, and (3) the early retirement of our 9.375% notes due in 2017. The non-operating charges included a call premium paid as well as the write off of unamortized debt issuance costs and original issue discount. Other non-operating items in 2013 included Belo acquisition related expenses, a non-cash charge related to a sale of interests in a business and a currency loss related to the weakening of the British pound associated with the downgrade of the U.K. sovereign credit rating. The income tax provision for 2014 year-to-date reflects a charge related to the sale of our interest in television station KMOV TV in St. Louis, MO, in February 2014. The income tax provision for 2013 year-to-date included special credits related to reserve releases as a result of federal exam resolution.

We discuss Adjusted EBITDA, a non-GAAP financial performance measure that we believe offers a useful view of our overall business operations. Adjusted EBITDA is defined as net income attributable to Gannett before (1) net income attributable to noncontrolling interests, (2) income taxes, (3) interest expense, (4) equity income, (5) other non-operating items, (6) workforce restructuring, (7) transformation costs, (8) asset impairment charges, (9) depreciation and (10) amortization. When Adjusted EBITDA is discussed in reference to performance on a consolidated basis, the most directly comparable GAAP financial measure is Net income attributable to Gannett.

We use non-GAAP financial performance measures for purposes of evaluating business unit and consolidated company performance. Therefore, we believe that each of the non-GAAP measures presented provides useful information to investors by allowing them to view our businesses through the eyes of our management and Board of Directors, facilitating comparison of results across historical periods, and providing a focus on the underlying ongoing operating performance of our businesses. Many of our peer group companies present similar non-GAAP measures to better facilitate industry comparisons.

Discussion of special charges and credits affecting reported results

Our results for 2014 included the following items we consider special and not indicative of our normal ongoing operations:

- Costs associated with workforce restructuring;
- Transformation costs;
- Non-cash asset impairment charges;
- Equity income gain on the sale of Apartments.com by Classified Ventures;
- Other non-operating item charges; and
- Special tax gain and charge.

Results for 2013 included the following special items:

- Costs associated with workforce restructuring;
- Transformation costs;
- Other non-operating item charges; and
- Special tax benefit.

Consolidated Summary - Non-GAAP

The following is a discussion of our as adjusted non-GAAP financial results. All as adjusted (non-GAAP basis) measures are labeled as such or “adjusted.”

Adjusted operating results were as follows:

In thousands, except share data	Third Quarter			Year-to-Date				
	2014	2013	Change	2014	2013	Change		
Operating revenues	\$1,443,137	\$1,252,890	15	% \$4,307,207	\$3,793,324	14	%

Adjusted diluted earnings per share	\$0.59	\$0.43	37	% \$1.72	\$1.37	26	%	

Operating revenues totaled \$1.44 billion in the third quarter of 2014, up 15% from \$1.25 billion in the third quarter of 2013. Results were driven by a 105% increase in Broadcasting Segment revenue and a 4% increase in Digital Segment revenue. On a pro forma basis, had we owned the Belo and London Broadcasting Company television stations in the same period last year and excluding results for Captivate and the impact of the sale of a print business and Apartments.com, total operating revenue would have increased 4%.

On a year-to-date basis, total operating revenues increased 14% to \$4.31 billion from \$3.79 billion in the same period last year. We achieved a 97% increase in Broadcasting Segment revenue and a 4% increase in Digital Segment revenue. On a pro forma basis, total operating revenue would have increased 3%.

Broadcasting Segment revenues more than doubled year over year as a result of the acquisitions of Belo and London Broadcasting Company television stations, higher advertising demand related to political spending, and substantial increases in retransmission revenue. On a pro forma basis, Broadcasting Segment revenues increased 19% for the quarter and 17% year-to-date, reflecting substantially higher retransmission revenue, strong political advertising and digital marketing services revenues.

A summary of the impact of special items on our operating expenses is presented below:

As adjusted (non-GAAP basis)	\$1,162,995	\$1,066,066	9 %	\$3,506,112	\$3,216,185	9 %

Adjusted operating expenses increased 9% for both the third quarter of 2014 and year-to-date period primarily due to acquiring Belo and television stations owned by London Broadcasting Company. On a pro forma basis, adjusted operating expenses were relatively unchanged in both the third quarter and year-to-date periods. Lower operating expenses in the Publishing Segment reflecting reduced circulation volumes and the impact of cost control and efficiency efforts were partially offset by higher expenses in the Broadcasting and Digital Segments associated with growth of revenues.

A summary of the impact of special items on operating income is presented below:

As adjusted (non-GAAP basis)	\$280,142	\$186,824	50 %	\$801,095	\$577,139	39 %

Adjusted operating income increased 50% for the third quarter of 2014 and was up 39% for the year-to-date period, reflecting higher Broadcasting and Digital Segment adjusted operating income, partially offset by lower Publishing Segment adjusted operating income. Adjusted Broadcasting Segment operating income increased 112% to \$179.3 million for the quarter and 95% to \$520.3 million for the year-to-date period due primarily to the acquisitions of Belo and London Broadcasting Company television stations, substantially higher retransmission and strong political advertising revenues. The 2014 year-to-date period benefited from \$41.3 million in advertising associated with the Winter Olympic Games as well as increases in retransmission and political revenue. Adjusted Digital Segment operating income was \$48.3 million for the quarter and \$107.9 million for the year-to-date period as solid revenue growth at CareerBuilder was partially offset by incremental expenses incurred at CareerBuilder related to its Broadbean acquisition and its continued investments in its sales staff expansion as well as technology support for its human capital software solutions. Adjusted Publishing Segment operating income was down 8% for the quarter and down 13% for the year-to-date period reflecting continued pressure on advertising demand, partially offset by higher revenue associated with digital advertising and marketing solutions and continued cost efficiency efforts.

^(b) Total per share amount may not sum due to rounding.

As adjusted net income attributable to Gannett increased 37% for the quarter and 24% for the year-to-date period. As adjusted diluted earnings per share increased 37% for the third quarter and 26% for the year-to-date period. These increases were due to higher Broadcasting and Digital Segment adjusted operating income partially offset by lower Publishing Segment adjusted operating income.

Adjusted Broadcasting Segment operating expenses increased 100% for the third quarter and 99% for the year-to-date period mainly due to the acquisitions of Belo and London Broadcasting Company television stations. Adjusted expenses on a pro forma basis increased 4% for both the third quarter and year-to-date periods reflecting higher costs

related to increased revenues, higher investments in digital initiatives and reverse network compensation. Adjusted operating income for the Broadcasting Segment was \$179.3 million for the third quarter of 2014, an increase of 112% and was \$520.3 million for the year-to-date period, an increase of 95%. Adjusted operating income on a pro forma basis increased 47% reflecting substantial increases in both retransmission and political advertising revenues. Adjusted operating

Publishing Segment adjusted operating expenses decreased by 3% for both the third quarter of 2014 and the year-to-date period. Adjusted operating expenses on a pro forma basis decreased by 2% for both the third quarter of 2014 and the year-to-date period. Third quarter and year-to-date comparisons were lower due to continued cost efficiency efforts.

Adjusted operating income for the Publishing Segment was \$70.7 million for the third quarter of 2014, a decrease of 8% compared to the same period last year. The decrease reflects lower Publishing Segment revenues partially offset by lower circulation volume-driven expense declines as well as cost control and efficiency efforts. For the year-to-date period, adjusted Publishing Segment operating income was \$226.3 million, a decrease of 13%. On a pro forma basis, adjusted Publishing Segment operating income decreased 6% for the third quarter of 2014 and decreased 12% for the year-to-date period.

Presentation of Pro Forma Information

Pro forma information is presented on the basis as if the acquisitions of Belo and London Broadcasting Company television stations, the Captivate disposition, the sale of a print business and the Apartments.com sale had occurred at the beginning of 2013. This pro forma financial information is based on historical results of operations, adjusted for the allocation of the purchase price and other acquisition accounting adjustments, and is not necessarily indicative of what our results would have been had we operated the businesses since the beginning of 2013. Pro forma adjustments include revenues and expenses of the six television stations acquired from London Broadcasting Company on July 8, 2014. The pro forma adjustments reflect depreciation expense and amortization of intangibles related to the fair value adjustments of the assets acquired and the alignment of accounting policies. The pro forma adjustments include reductions to revenues and expenses for the former Belo stations in Phoenix, AZ and St. Louis, MO. Certain of our subsidiaries and Sander Media, a holding company that has a station-operation agreement with us, agreed to sell these stations upon receiving government approval. KMOV-TV, the television station in St. Louis, was sold in February 2014 and the two television stations in Phoenix were sold in June 2014. Pro forma adjustments include reductions to revenues and expenses for Captivate since we sold our controlling interest in Captivate in the third quarter of 2013. Pro forma adjustments for Publishing Segment revenue and expenses include reductions related to the second quarter 2014 sale of a print business and the impact from the Classified Ventures sale of Apartments.com.

Reconciliations of our Broadcasting Segment, Publishing Segment and company-wide revenues and expenses on an as reported basis to a pro forma basis for the third quarter and for the year-to-date period in 2014 are below:

(b) We acquired six television stations from London Broadcasting Company on July 8, 2014. Results from these television stations from that date and forward are included in the as reported numbers above. The Gannett pro forma combined numbers above present results as if the acquisition had taken place on the first day of 2013.

KMOV-TV, the television station in St. Louis, was sold in February 2014 and the two television stations in Phoenix were sold in June 2014. Revenue and expense adjustments totaling \$12 million and \$10 million, respectively, were added as if the third quarter 2014 acquisition of six London Broadcasting Company television stations had occurred on the first day of 2013. Pro forma adjustments also include reductions to revenues and expenses for Captivate that totaled \$5 million and \$6 million, respectively, as Gannett sold its controlling interest in Captivate in the third quarter of 2013. The pro forma adjustments for broadcasting expense reflect the addition of \$6 million of amortization for definite-lived intangible assets as if the acquisition of Belo had occurred on the first day of 2013. Certain Matters Affecting Future Operating Results

The following items will affect year-over-year comparisons for future results:

Broadcasting Segment Revenues and Expenses - Broadcasting Segment revenues will increase significantly in the fourth quarter of 2014 due to the expanded broadcasting portfolio, a substantial increase in political advertising, higher retransmission revenue and digital revenue growth. We expect political revenue to increase significantly as our political footprint is larger than ever with our markets covering many of the key toss-up Senate and Governor races across the country. We expect Broadcasting Segment expenses to increase with the expanded portfolio as well as from increases in reverse network compensation and investments in digital initiatives. Based on current trends and including a full quarter of results for the former Belo and London Broadcasting Company television stations, we expect the increase in total Broadcasting Segment revenues for the fourth quarter of 2014 compared to the fourth quarter of 2013 to exceed 115%. On a pro forma basis, the percentage increase in total Broadcasting Segment revenues in the fourth quarter of 2014 is projected to be up in the low-twenties compared to the fourth quarter of 2013.

Acquisition of remaining 73% interest in Classified Ventures LLC - On October 1, 2014, we acquired the remaining 73% interest in Classified Ventures, LLC, which owns Cars.com, for \$1.8 billion. With respect to the financial impact of consolidating Cars.com and the impact of the new affiliate agreements that went into effect at closing, we expect a substantial increase in Digital Segment Adjusted EBITDA in the fourth quarter compared to 2013. The Publishing Segment Adjusted EBITDA year-over-year comparison will be negatively impacted by approximately \$7 million in the fourth quarter, as a result of new terms with Classified Ventures that are similar to the new affiliate agreements entered into with the former newspaper investors. Overall equity income will be lower by about \$6 million now that we own Cars.com in its entirety. As a result, we expect the addition of Cars.com to be about neutral to net income and earnings per share in the fourth quarter after including additional interest expense and amortization of intangibles related to the acquisition.

Interest Expense - We expect our interest expense to increase significantly in the fourth quarter 2014, reflecting the debt incurred to acquire the remaining 73% interest in Classified Ventures LLC, which owns Cars.com.

Income Taxes - We estimate the non-GAAP income tax rate to be just under 30% for the fourth quarter and in the range of 30% - 31% for the full year of 2014.

Foreign Currency - Our U.K. publishing operations are conducted through our Newsquest subsidiary. Newsquest earnings are translated at the average British pound-to-U.S. dollar exchange rate. Therefore, a strengthening in the exchange rate will improve Newsquest revenue and earnings contributions to consolidated results. A weakening of the exchange rate will have a negative impact. Newsquest results for the full year of 2013 were translated from the British pound sterling to U.S. dollars at an average rate of 1.56. By comparison, Newsquest results for the first nine months of 2014 were translated into U.S. dollars at an average rate of 1.67.

Liquidity, Capital Resources and Cash Flows

Our cash generating capability and financial condition, together with our revolving credit agreement, are sufficient to fund our capital expenditures, interest, dividends, share repurchases, contributions to our pension plans, investments in strategic initiatives and other operating requirements. Looking ahead, we expect to continue to fund debt maturities, acquisitions and investments through a combination of cash flows from operations, borrowings under our revolving

credit agreement and/or funds raised in the capital or credit markets.

In February 2012, we announced a new capital allocation plan, which aimed to return \$1.3 billion to shareholders by 2015. This plan included increasing our dividend to its current level of \$0.80 per share on an annual basis. A \$300 million share repurchase program was also launched. On June 13, 2013, we announced that the existing share buyback program was replaced

37

with a new \$300 million authorization projected to be completed within the two year period following its announcement. As of September 28, 2014, we had \$148.9 million remaining under this authorization. However, repurchases have been temporarily suspended in support of the Classified Ventures acquisition. As a result, during the third quarter of 2014 there were no share repurchases. Our existing dividend program remains unchanged.

On September 8, 2014, we completed the private placement of \$350.0 million in aggregate principal amount of 4.875% senior unsecured notes due 2021. The 2021 Notes were priced at 98.531% of face value, resulting in a yield to maturity of 5.125%. On the same day, we completed the private placement of \$325.0 million in aggregate principal amount of 5.50% senior unsecured notes due 2024. The 2024 Notes were priced at 99.038% of face value, resulting in a yield to maturity of 5.625%. We used the net proceeds, cash and borrowings under our revolving credit facility to finance the acquisition of all of the outstanding membership interests of Classified Ventures, LLC (owner of Cars.com) that we did not previously own.

At the end of the third quarter of 2014, our total long-term debt was \$4.11 billion and our leverage ratio was 2.99x, substantially below the maximum leverage ratio of 4.0x permitted by our Amended and Restated Credit Agreement. Cash and cash equivalents at the end of the third quarter totaled \$1.37 billion. Early in the fourth quarter of 2014, we borrowed \$650.0 million under our revolving credit agreement. We used the proceeds of this borrowing as well as cash at the end of the third quarter to pay for the Classified Ventures, LLC acquisition. Immediately following the acquisition, our unused borrowing capacity on the revolving credit agreement was \$617.5 million. We plan to fund the \$250.0 million notes due in November 2014 through additional borrowings under our revolving credit agreement. Our financial and operating performance, as well as our ability to generate sufficient cash flow to maintain compliance with credit facility covenants, are subject to certain risk factors as noted in the section below titled “Certain Factors Affecting Forward-Looking Statements.”

Cash Flows

Our net cash flow from operating activities was \$572.6 million for the first nine months of 2014, compared to \$349.0 million for the first nine months of 2013. The increase in net cash flow from operating activities resulted principally from incremental cash flow from the new Gannett television stations we acquired from Belo in late 2013.

Cash flows from investing activities totaled \$170.2 million for the first nine months of 2014, compared to cash outflow of \$24.5 million for the same period in 2013 or a difference of \$194.7 million. We received a \$154.6 million cash distribution from Classified Ventures related to its sale of Apartments.com as a return of investment in the second quarter of 2014. Year-to-date 2014 payments for acquisitions reflect the cash spent to acquire the London Broadcasting Company television stations and CareerBuilder’s acquisition of Broadbean. Payments for acquisitions also reflect the cash spent by us to acquire KMOV-TV, KASW-TV and KTVK-TV television station assets that were previously owned by other parties. We purchased those assets pursuant to an option agreement we had with the former owner. These assets and other KMOV-TV, KASW-TV and KTVK-TV assets we already owned were immediately sold to Meredith Corporation. Meredith purchased the assets for \$407.5 million plus working capital. We used a portion of the proceeds in a tax efficient structure to acquire six London Broadcasting Company television stations from SunTX Capital Partners, which closed early in our third quarter.

Cash inflows from financing activities totaled \$162.6 million for the first nine months of 2014, compared to \$311.9 million for the first nine months of 2013. The decrease in cash inflows from financing activities was mainly due to lower net debt issuance proceeds. Such proceeds were \$666.7 million in the first nine months of 2014 compared to \$746.2 million in 2013 which were offset by debt payments of \$277.6 million in the first nine months of 2014 compared to \$205.0 million in 2013.

Non-GAAP Liquidity Measure

Our free cash flow, a non-GAAP liquidity measure, was \$185.9 million for the quarter ended September 28, 2014 and \$642.0 million for the year-to-date period. Free cash flow, which we reconcile to “net cash flow from operating activities,” is cash flow from operations reduced by “purchase of property, plant and equipment” as well as “payments for investments” and increased by “proceeds from investments” and voluntary pension contributions, net of related tax benefit. We believe that free cash flow is a useful measure for management and investors to evaluate the level of cash generated by operations and the ability of its operations to fund investments in new and existing businesses, return cash to shareholders under our capital program, repay indebtedness or to use in other discretionary activities.

Reconciliations from “Net cash flow from operating activities” to “Free cash flow” follow:

In thousands	Third Quarter		Year-to-Date	
	2014	2013	2014	2013
Net cash flow from operating activities	\$217,662	\$125,017	\$572,601	\$348,958
Purchase of property, plant and equipment	(34,654)	(23,770)	(91,559)	(72,668)
Voluntary pension employer contributions	—	—	—	15,507
Tax benefit for voluntary pension employer contributions	—	—	—	(6,125)
Payments for investments	—	(1,001)	(5,318)	(3,380)

Free cash flow	\$185,944	\$105,660	\$641,975	\$317,071

Our net cash flow from operating activities and free cash flow in 2014 were substantially higher than in 2013. This increase reflects incremental cash flow from our new television stations acquired in late 2013 and a \$154.6 million cash distribution received from Classified Ventures related to its sale of Apartments.com in the second quarter of 2014.

Certain Factors Affecting Forward-Looking Statements

Certain statements in this Quarterly Report on Form 10-Q contain forward-looking information. The words “expect,” “intend,” “believe,” “anticipate,” “likely,” “will” and similar expressions generally identify forward-looking statements. These forward-looking statements are subject to certain risks and uncertainties that could cause actual results and events to differ materially from those anticipated in the forward-looking statements. We are not responsible for updating or revising any forward-looking statements, whether the result of new information, future events or otherwise, except as required by law.

Potential risks and uncertainties which could adversely affect our results include, without limitation, the following factors: (a) increased consolidation among major retailers or other events which may adversely affect business operations of major customers and depress the level of local and national advertising; (b) a potential increase in competition for our Digital Segment businesses; (c) a decline in viewership of major networks and local news programming resulting from increased competition, including alternative forms of media, or other factors; (d) a continuance of the generally soft economic conditions in the U.S. and the U.K. or a further economic downturn leading to a continuing or accelerated decrease in circulation or local, national or classified advertising; (e) a further decline in general print readership and/or advertiser patterns as a result of competitive alternative media or other factors; (f) an increase in newsprint or syndication programming costs over the levels anticipated; (g) labor disputes which may cause revenue declines or increased labor costs; (h) acquisitions of new businesses or dispositions of existing businesses; (i) rapid technological changes and frequent new product introductions prevalent in electronic publishing and digital businesses; (j) an increase in interest rates; (k) a weakening in the British pound to U.S. dollar exchange rate; (l) volatility in financial and credit markets which could affect the value of retirement plan assets and our ability to raise funds through debt or equity issuances; (m) changes in the regulatory environment could encumber or impede our efforts to improve operating results or the value of assets; (n) credit rating downgrades, which could affect the availability and cost of future financing; (o) adverse outcomes in proceedings with governmental authorities or administrative agencies; (p) cyber security breaches; (q) the proposed separation of our Publishing business from our Broadcasting and Digital businesses may not be completed on the terms or timeline currently contemplated, if at all; (r) general economic, political and business conditions; and (s) an other than temporary decline in operating results and enterprise value that could lead to non-cash goodwill, other intangible asset, investment or property, plant and equipment impairment charges. We continue to monitor the uneven economic recovery in the U.S. and U.K., as well as new and developing competition and technological change, to evaluate whether any indicators of impairment exist, particularly for those reporting units where fair value is closer to carrying value.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

We believe that our market risk from financial instruments, such as accounts receivable, accounts payable and debt, is immaterial. We are exposed to foreign exchange rate risk primarily due to our operations in the United Kingdom, for

which the British pound is the functional currency. If the price of the British pound against the U.S. dollar had been 10% more or less than the actual price, operating income for the third quarter of 2014 would have increased or decreased approximately 1%.

At the end of the third quarter of 2014, we had \$166.4 million in long-term floating rate obligations outstanding. While these fluctuate with market interest rates, by way of comparison, a 50 basis points increase or decrease in the average interest rate for these obligations would result in a change in annualized interest expense of less than \$1 million.

The fair value of our total long-term debt, based on bid and ask quotes for the related debt, totaled \$4.23 billion at September 28, 2014 and \$3.93 billion at December 29, 2013.

Item 4. Controls and Procedures

Based on their evaluation, our principal executive officer and principal financial officer have concluded that our disclosure controls and procedures are effective, as of September 28, 2014, to ensure that information required to be disclosed in the reports that we file or submit under the Securities Exchange Act of 1934 are recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms.

There have been no changes in our internal controls or in other factors during the fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

There have been no material developments with respect to our potential liability for environmental matters previously reported in our 2013 Annual Report on Form 10-K.

Item 1A. Risk Factors

The following is an update to our risk factors disclosed in our 2013 Annual Report on Form 10-K and should be read in conjunction with the other risk factors disclosed therein.

The proposed separation of our Publishing business from our Broadcasting and Digital businesses is subject to various risks and uncertainties, and may not be completed on the terms or timeline currently contemplated, if at all.

On August 5, 2014, we announced our plan to create two publicly traded companies: one exclusively focused on our Broadcasting and Digital businesses, and the other on our Publishing business. The separation, which is expected to be completed in mid-2015, is subject to final approval of our Board of Directors. In addition, unanticipated developments, including possible delays in obtaining various tax opinions or rulings, regulatory approvals or clearances and uncertainty of the financial markets, could delay or prevent the completion of the proposed separation or cause the proposed separation to occur on terms or conditions that are different from those currently expected. As a result, we cannot assure that we will be able to complete the proposed separation on the terms or the timeline that we announced, if at all.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

On June 11, 2013, our Board of Directors approved a new \$300 million share repurchase program (replacing the 2012 \$300 million program). Share repurchases have been temporarily suspended in support of the Classified Ventures acquisition. As a result, during the third quarter of 2014 there were no share repurchases.

Item 3. Defaults Upon Senior Securities

This item is not applicable.

Item 4. Mine Safety Disclosures

This item is not applicable.

Item 5. Other Information
