Form 8-K

Item 5. Other Events

On August 15, 2001, Entergy's domestic non-utility nuclear business agreed to purchase the 510 MW Vermont Yankee Nuclear Power Plant in Vernon, Vermont from Vermont Yankee Nuclear Power Corporation (VYNPC) for \$180 million, to be paid in cash upon closing. Entergy will receive the plant, nuclear fuel, inventories and related real estate. The liability to decommission the plant, as well as related decommissioning trust funds of approximately \$280 million, will also be transferred to Entergy. Under a 10-year power purchase agreement (PPA) executed in conjunction with the transaction, Entergy will sell 100% of the plant's output up to 510 MW to VYNPC's owner-utilities. The PPA includes an adjustment clause whereby the prices specified in the PPA will be adjusted downward annually, beginning in 2006, if power market prices drop below the PPA prices. Management expects to close the transaction by the spring of 2002, pending the approvals of the NRC, the Public Service Board of Vermont, and other regulatory agencies.
