## EXHIBIT INDEX

Exhibit Number	Description
99	Quarterly shareholder report issued October 29, 2003

Exhibit 99

October 29, 2003

Quarterly Report to the Owners,  
First Mid-Illinois Bancshares, Inc.

Our financial results for the first nine months of 2003 were good, with diluted earnings per share amounting to \$2.14 per share. This amount represents a 21% increase from the \$1.77 per share we earned during the same period in 2002. Total net income during the first nine months of 2003 was \$6,877,000, representing a 14% increase from the \$6,046,000 we earned during the same period in 2002. Earnings per share increased faster than net income because of our share buy-back program. Year-to-date in 2003, we have acquired 103,419 shares at a total investment of \$3,466,000. This program has proven to be an effective way of increasing value for shareholders. Any shareholder who wishes to use this service should contact Mrs. Christie Wright at (217) 258-0493.

Higher non-interest income was the primary factor in the earnings growth. Non-interest income increased to \$9,913,000 for the first nine months of 2003 as compared to \$7,727,000 for the same period in 2002. Residential real estate activity has continued to be strong throughout our franchise area, with mortgage banking revenue increasing to \$1,755,000 for the first nine months of 2003 from \$1,054,000 for the same period in 2002. Most of the residential real estate loans we originate are sold into the secondary market for interest rate risk management purposes. In addition, growth in deposit service charges due to increases in deposit balances and overdraft fees, and increased insurance commissions also contributed to the non-interest income increase.

Net interest income declined slightly for the first nine months, amounting to \$19,965,000 in 2003 as compared to \$20,001,000 in 2002. Loan pricing constraints together with an extremely low interest rate environment resulted in a decline in our net interest margin from 4.18% in the first nine months of 2002 to 3.81% for the first nine months of 2003. We have been able to offset the margin compression by increasing our loan volumes. Loan balances have increased by \$40 million since December 31, 2002, with the growth primarily in commercial real estate loans.

## Edgar Filing: FIRST MID ILLINOIS BANCSHARES INC - Form 8-K

Our provision for loan losses amounted to \$750,000 for the first nine months of 2003 as compared to \$775,000 during the same period last year, with net charge-offs declining to \$205,000 for the first nine months of 2003 as compared with \$578,000 for the same period in 2002. Non-performing loans on September 30, 2003 were \$4,766,000 as compared with \$3,149,000 on December 31, 2002.

Non-interest expenses of \$18,674,000 increased by \$769,000 for the first nine months of 2003 when compared to the same period in 2002 primarily as a result of the increased costs associated with the locations in Champaign and Maryville that were opened in November, 2002. Both branches have had solid loan and deposit growth and are now adding to our profitability.

Thank you for your support and for your confidence in First Mid-Illinois Bancshares, Inc.

Sincerely,

/s/ William S. Rowland
