### Forward-Looking Statement

The Corporation may make forward-looking statements about its relative business outlook. These forward-looking statements and all other statements made during this meeting that do not concern historical facts are subject to risks and uncertainties that may materially affect actual results.

Specific forward-looking statements include, but are not limited to, any indications regarding the financial services industry, the economy and future growth of the balance sheet or income statement.

Please refer to our press releases, Form 10-Qs and 10-Ks concerning factors that could cause actual results to differ materially from any forward-looking statements.

Loss of \$.55 per diluted share for the quarter ended December 31, 2009, reflects continued efforts to build loan loss reserve, maximize net interest margin, and preserve capital.

Growth in core deposit level produces growing liquidity and reduced wholesale funding use.

Improvement in the risk profile of the loan portfolio across the continuum of credit measures from delinquency to non-performing status.

Active balance sheet management maintains regulatory ratios soundly in excess of “well capitalized” thresholds.

Key Points for 4<sup>th</sup> Quarter

4

Pre-tax pre-provision run rate captures early benefit of Lincoln Bancorp acquisition.

Charter combination accelerates adoption of common processes and policies to identify efficiencies.

Credit profile in loan portfolio and investment portfolio improves at year-end.

Reduced common dividend to preserve capital.
