Section 1 – Conflict Minerals Disclosure

Item 1.01 – Conflict Minerals Disclosure and Report

Conflict Minerals Disclosure

Key Tronic Corporation has conducted a good faith investigation in connection with the products it manufactured or contracted to be manufactured in the period from January 1, 2014 to December 31, 2014, to determine whether its products contain certain conflict minerals and their derivatives, including tin, tantalum, tungsten and gold which are commonly termed “3TG” (here forward “Conflict Minerals”) and whether the conflict minerals are necessary to the functionality or production of any of these products.

As part of its investigation, Key Tronic Corporation conducted a good faith and/or “reasonable country of origin inquiry” of its suppliers to determine whether any conflict minerals contained within its products originated in the Democratic Republic of the Congo or its surrounding areas (the “Covered Countries”) or were from recycled or scrapped sources.

All applicable due diligence activities related to conflict minerals by Key Tronic Corporation were designed and conducted in accordance with the internationally recognized Due Diligence Guidance for Responsible Supply Chains of Minerals from Conflict-Affected and High-Risk Areas (“OECD Framework”) of the Organization for Economic Cooperation and Development (OECD) in order to determine whether its products contain conflict minerals that directly or indirectly finance or benefit armed groups in any of the Covered Countries.

Item 1.02 – Exhibit

Key Tronic Corporation’s Conflict Minerals Report is filed as exhibit 1.01 to this Form SD and is also available at Key Tronic Corporation’s website at: <http://www.keytronic.com/home/about-us/conflict-minerals/>.
