COMPETITIVE BUSINESS CONDITIONS

SUBSIDIARY – HEALTHCARE BUSINESS SERVICES GROUPS, INC. (“Healthcare”)

MEDICAL BILLING

(A Delaware Company registered to do business in California during 1997-2008.) Amended

Healthcare Business Services Groups, Inc. (Delaware Corporation a subsidiary of the Nevada Company) moved its office from 1120 W Foothill Blvd Suite 105 and 106 Upland, CA 91786 and moved to 818 N Mountain Ave, Suite 200, Upland, CA 91786 which was approximately 2600 sqft prestigious space as of July 1, 2007 with one year lease.

SUBSIDIARY - AUTOMED

AUTOMATED MEDICAL BILLING SOFTWARE (A Nevada Company)

“AutoMed” was initially formed to satisfy its custom medical billing needs. “Healthcare” began implementing AutoMed in its Medical Billing line of business in July 2003. “Healthcare” has been using AutoMed since October 2003 for all new medical billing.

The “Registrant” intends to promote AutoMed for other aspects of medical office management as well, as discussed below.

We sold the first copy of our AutoMed program license in January of 2008 and installed in March of 2008 into general/internal medical clinic. The program was sold for 39 doctors for a selling price of \$230,000. Due to the product being new to the market, we only installed the program for one physician with initial deposit of \$62,000. We used these funds to customize the program for the clinic, travel, technical, installation and training. We have received an additional \$5,000 in the second quarter of 2008. There are multiple interests at this point from the hospital, surgery center and other medical professionals who seek to use AutoMed program. Additional funding of \$2.2 million dollars to effect its business plan and to promote AutoMed program through out the United States of America.

DEPENDENCE ON ONE OR A FEW CUSTOMERS

“Healthcare” depended on few customers throughout the United States to continue in the medical billing field with few loyal Clients. Due to our higher fees (10%) to perform a customized service to deliver a higher cash flow to our clients, we have experienced that a few of the former clients were the largest competitors of Healthcare Business Services Groups; Inc itself. Doctors would sign contracts with us to learn our privileged and specialized method of billing, once they see a drastic upwards of collections they will change pay to address to them selves and copy our methods of billing. We have experienced this conduct over and over again in the recent years.

NEED FOR GOVERNMENTAL APPROVAL AND THE EFFECTS OF REGULATIONS

RESULTS OF OPERATIONS

The Company is amending 2007 Results of Operations.

AMENDED STATEMENTS BELOW:

Healthcare Business Services Groups, Inc. (Delaware Corporation a subsidiary of the Nevada Company) moved its office from 1120 W Foothill Blvd Suite 105 and 106 Upland, CA 91786 and moved to 818 N Mountain Ave, Suite 200, Upland, CA 91786 which was approximately 2600 sqft prestigious space with one year lease. The company kept approximately 11 employees and 5 consultants until end of Oct 2007 and then reduced employees down to 5 and 3 consultants and continued its operation until the Company discovered that its former Client Dr. Narinder S. Grewal (Grewal) was scamming the Company out of millions of dollars of its assets. Due to Grewal's scam, the Company suffered in excess of estimated \$100,000,000 million of dollars of loss during the years of 2001 to 2013. Assets discovered are listed in Exhibit-B which adds up to more than \$3,204,919.14 million dollars, having this information and the evidence in possession the Company brought a lawsuit against Dr Narinder S. Grewal residence of Chatsworth, California practicing in of Santa Clarita California, Lancaster and his companies such as Santa Clarita Surgery Center for Advance Pain Management and Narinder S Grewal, MD, Inc. on December 3, 2009 in Los Angeles Superior Court, Los Angeles, California, Case NO. LA BC 427192. Trial on this Case is currently set for October 30, 2013. In addition, Dr. Grewal breached the agreement for "Medical Billing Agreement" with the Company in all terms including Non Compete clause and stole the Company's proprietary billing methods and started a billing company naming "G3 Healthcare Business Services, Inc." which is almost identical name of the company's prior subsidiary billing company and became a pain management billing provider and competed with the business of the Company. Narinder S. Grewal and his wife Pritpal Grewal practically stole the Company's identity and become the mirror image of the Registrant's business. Grewal operates his billing service in Lancaster, California. The Company is also suing Dr. Grewal and his companies for breach of agreement for Non Compete. The Company located 2085 patients of Dr. Grewal were missing from the exclusive billing service agreement during the year of 2004 to 2007. The Company was deprived of more than \$4,000,000 to \$7,000,000 in revenue in addition to \$3,204,919.14 he scammed the Company. The Company is working to confirm the amount of loss based on evidence. During the year of 2004 and 2007, Grewal was also a member of the Board of Directors of the Company, while he was a fiduciary of the Company and scamming the Company of its assets, the Company is considering to file a Criminal Investigation with the U.S. Security and Exchange Commissions against Grewal.

Due to the negligence of CPA Mr. Ankit Jain of Lake Forest, California 2007 yearly financial only contains the half year of 2007of the actual operational activities. Mr. Jain failed to perform his duties to complete the second half of the Company's bank statements to prepare an accurate financial for which he was paid for.

The company was aware of overpayments to Narinder S. Grewal and his companies (Grewal) for approximately \$706,000 as of 2005 and continued to work with Grewal to recover this money. But the Company had no knowledge of the findings in 2009 that Grewal has been scamming the Company of approximately \$3,204,919.14 since year 2000. In 2007 auditors were informed of the overpayments but they ignored to publish because the financials based on cash basis not accrual and due to no signed confirmation from Dr. Grewal at that time. It was disputed by the company but the Company was unaware of the true facts of how the overpayments happened.

During a court trial between Ms. Chandana Basu and Dr. Grewal in 2009 where Dr. Grewal claimed that the company did not pay all money due him and sued Ms. Basu for \$3,000,000. At that time Ms. Basu provided the court with 7 years of accounting review that revealed Dr. Grewal was paid in excess of \$3,204,919.14 over and above due Grewal. Ms Basu won the trial in that case but Judge ruled that the Company must sue Grewal to recover the money. Later that year by a detail analysis with original books and records, the company came to concluded that Grewal received \$3,204,919.14 by scam and other various fraudulent actions.

In addition the company also discovered that during the exclusive service terms, by breaching Non-Compete clause Grewal was billing directly using different Tax-Ids and using the company proprietary billing formulas to gain in excess of \$50,000,000 to \$60,000,000 dollars from his practice to avoid paying fees to the Company of approximately 4,000,000.00 to 7,000,000,000 (estimated).

2007 Revenue was \$1,508,452.83 out of which uncollected \$826,732 (fees from Grewal) and 2007 Assets amount was \$3,204,919.14(actual amount scammed).

Once the trial in this case is awarded, the company will amend 10KSB financials of 2007.

In addition, in the event that the average daily price of the common stock, as reported by the reporting service, for each day of the month ending on any determination date is below \$.05, the Company may prepay a portion of the outstanding principal amount of the Notes equal to 101% of the principal amount hereof divided by thirty-six (36) plus one month's interest. Exercise of this option will stay all conversions for the following month. The full principal amount of the Notes is due upon default under the terms of Notes. In addition, the Company has granted the investors a security interest in substantially all of its assets and intellectual property as well as registration rights.

The Company simultaneously issued to the Investors seven year warrants to purchase 81,250 shares of common stock at an exercise price of \$28.00.

The Investors have contractually agreed to restrict their ability to convert the Notes and exercise the Warrants and receive shares of the Company's common stock such that the number of shares of the Company's common stock held by them and their affiliates after such conversion or exercise does not exceed 4.99% of the then issued and outstanding shares of the Company's common stock.

The Company has received the \$ 1,300,000 through December 31, 2007.

RISK FACTORS Due to accounting error the information below is not reliable - Amended statement.

WE NEED A SUBSTANTIAL AMOUNT OF ADDITIONAL FINANCING.

The Company anticipates the need for approximately \$2,200,000 million dollars of financing for marketing its products and other operational expenses and growth. There is no assurance that additional financing will be available on favorable terms, if at all. If the Company is unable to raise such additional financing, or accepts financing on unfavorable terms to the Company, it could have a materially adverse effect upon the Company's ability to implement its business plan with respect to AutoMed, and other products.

WE NOW PAY SUBSTANTIALLY LESS SALARY AND BONUS TO OUR CHIEF EXECUTIVE OFFICER, PRESIDENT AND TREASURER.

Our original employment agreement with Chandana Basu, our Chief Executive Officer and Treasurer was executed on April 1, 2004 and cannot be terminated by us. It shall remain in existence until Ms. Basu retires or assigns her position to others. It provides for a monthly base salary of \$5,000 per month and a bonus of 25% of our gross receipts payable monthly with a minimum bonus of \$45,000 per month. It also includes reimbursement of all reasonable expenses. It provides for the issuance of a minimum of 1,000,000 shares annually as per amendment of employment agreement in October 2004.

The Company was never able to pay Ms. Basu such an amount as agreed in her employment agreement. So Ms Basu amended her employment agreement due to Company's financial conditions during the First Quarter of 2008 as below:

Ms. Basu will accept \$5,000 as salary and \$20,000 worth of Company's Common Shares per month for the first six months. After six months her salary must increase \$1,000 per month to a maximum \$10,000 per month and \$20,000 worth of Company's S-8 shares per month until Company's financial condition changes.

On April 29, 2008 Ms. Basu accepted \$937,665 Officers Due liability in Company Common and Preferred Socks of the Company as a full payment towards all accrued dues including bonuses as of 12/31/2007. **Amended Statements**

Ms. Basu also serves as the Chief Executive Officer and President of AutoMed. Ms. Basu is our only employee at this time. She travels for marketing, deals with the auditors, attorneys, and investors in addition she works closely with programmers and other technical professionals to continuously improve the status of the Company.

WE MAY NOT BE ABLE TO DEVELOP A MARKET FOR AUTOMED IN THE EVENT THAT WE ARE ABLE TO RAISE ENOUGH MONEY TO MARKET AUTOMED.

The Company completed development of the basic version of AutoMed software as a stand-alone, commercially viable product, the Company plans to market AutoMed as a "one-stop shopping" solution for medical office management. The Company plans to charge \$50,000 per installation for a single user and one computer. Currently the Company generates some revenue through AutoMed. The extent to which AutoMed gains acceptance, if any, will depend, in part, on its cost effectiveness and performance as compared to conventional means of office management, as well as known or unknown alternative software packages. If conventional means of office management or alternative software packages are more cost-effective or outperform AutoMed, the demand for AutoMed may be adversely affected. Additionally, the Company anticipates the need for approximately \$2,200,000 Million dollars to begin marketing AutoMed. The failure of the Company to raise an additional \$2,200,000 to implement our Business Plan and maintain levels of market acceptance would have a material adverse effect on the line of business and the Company's overall business, financial condition and results of operations, and would likely cause the value of the Company's securities to decrease.

OUR AUDITORS HAVE EXPRESSED AN OPINION THAT THERE IS SUBSTANTIAL DOUBT ABOUT OUR ABILITY TO CONTINUE AS A GOING CONCERN. - ~~AMENDED – UNRELIABLE DUE TO ERRORS IN ACCOUNTING~~

As of December 31, 2006 the Company has accumulated deficit amounting to \$ 6,671,589, net loss amounting \$ 2,997,584, working capital deficit amounting to \$ 5,144,299 and net cash used in operations of \$ 94,588. The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. The financial statements do not include any adjustments that might result from our inability to continue as a going concern. Our continuation as a going concern is dependent upon future events, including obtaining financing (discussed above) for expansion and to implement our business plan with respect to AutoMed, if we are unable to continue you will lose your investment.

WE RELY ON KEY MANAGEMENT.

The success of the Company depends upon the personal efforts and abilities of Chandana Basu. The Company faces competition in retaining Ms. Basu and in attracting new personnel should Ms. Basu choose to leave the Company. There is no assurance that the Company will be able to retain and/or continue to adequately motivate Ms. Basu in the future. The loss of Ms. Basu or the Company's inability to continue to adequately motivate her could have a material adverse effect on the Company's business and operations.

BECAUSE MS. CHANDANA BASU OWNS 81.1% OF OUR OUTSTANDING COMMON STOCK, SHE WILL EXERCISE CONTROL OVER CORPORATE DECISIONS THAT MAY BE ADVERSE TO OTHER MINORITY SHAREHOLDERS.

Chandana Basu, a Director of the Company and the Company's Chief Executive Officer and Treasurer, owns approximately 81.1% of the issued and outstanding shares of our common stock. Accordingly, she will exercise control in determining the outcome of all corporate transactions or other matters, including mergers, consolidations and the sale of all or substantially all of our assets, and also the power to prevent or cause a change in control. The interests of Ms. Basu may differ from the interests of the other stockholders and thus result in corporate decisions that are adverse to other shareholders.

IF THERE'S A MARKET FOR OUR COMMON STOCK, OUR STOCK PRICE MAY BE VOLATILE.

If there's a market for our common stock, we anticipate that such market would be subject to wide fluctuations in response to several factors, including, but not limited to:

1. actual or anticipated variations in our results of operations;
2. our ability or inability to generate new revenues;
3. increased competition; and
4. conditions and trends in the medical billing industry.

Further, because our common stock is trading on the Pink sheets our stock price may be impacted by factors that are unrelated or disproportionate to our operating performance. These market fluctuations, as well as general economic, political and market conditions, such as recessions, interest rates or international currency fluctuations may adversely affect the market price of our common stock.

CRITICAL ACCOUNTING POLICIES

Our discussion and analysis of our financial condition and results of operations is based upon our financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of any contingent assets and liabilities. On an on-going basis, we evaluate our estimates. We base our estimates on various assumptions that we believe to be reasonable under the circumstances, the results of which form the basis for making judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

ITEM 7. FINANCIAL STATEMENTS TO BE AMENDED

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

THE BOARD OF PPJ ENTERPRISE

We have audited the accompanying consolidated balance sheet of PPJ Enterprise and Subsidiaries as of December 31, 2007 and 2006, and the related consolidated statements of operations, stockholders equity and cash flows for the periods then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform our audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of PPJ Enterprise and Subsidiaries at December 31, 2007 and 2006, and the results of its' consolidated operations and its' consolidated stockholders equity and consolidated cash flows for the periods then ended in conformity with accounting principles generally accepted in the United States of America.

The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern. The Company's viability is dependent upon its ability to obtain future financing and the success of its future operations. These factors raise substantial doubt as to the Company's ability to continue as a going concern. Management's plan in regard to these matters is described in Note 2. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Notes to Consolidated Financial Statements

Note 2 - Going Concern and Management's Plans AMENDED STATEMENT – DUE TO ACCOUNTING ERRORS THE INFORMATION BELOW IS NOT RELIABLE

The accompanying consolidated financial statements have been prepared in conformity with generally accepted accounting principles which contemplate continuation of the company as a going concern. However, as of December 31, 2007, the Company has a stockholders' deficit of \$6,304,331 and an accumulated deficit of \$8,915,665. In addition, the Company has no assets and on June 26, 2008 the Company filed for Chapter 7 Bankruptcy protection for Healthcare Business Services Groups, Inc. ("HBSGI"), a Delaware Company and subsidiary of PPJ Enterprise ("PPJE"). These and other factors raise substantial doubt about the Company's ability to continue as a going concern.

The ability of the Company to continue as a going concern is dependent upon its ability to raise additional capital and achieve profitable operations. The accompanying consolidated financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.

Note 3 - Summary of Significant Accounting Policies

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries, AutoMed Software Corp., and Silver Shadow Properties, LLC. All significant inter-company accounts and transactions have been eliminated in consolidation. The acquisition of Healthcare Business Services Groups Inc. on May 7, 2004, has been accounted for as a purchase and treated as a reverse acquisition.

Cash and Cash Equivalents

The Company considers all liquid investments with a maturity of three months or less from the date of purchase that are readily convertible into cash to be cash equivalents.

Inventories

Inventories are stated at the lower of cost or market. Cost is computed on a weighted-average basis, which approximates the first-in, first-out method; market is based upon estimated replacement costs. Costs included in inventory primarily include finished spirit product and packaging.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates

Property & Equipment

Property and equipment are recorded at cost. Depreciation is computed using the straight-line method over useful lives of 3 to 10 years. The cost of assets sold or retired and the related amounts of accumulated depreciation are removed from the accounts in the year of disposal. Any resulting gain or loss is reflected in current operations. Assets held under capital leases are recorded at the lesser of the present value of the future minimum lease payments or the fair value of the leased property. Expenditures for maintenance and repairs are charged to operations as incurred.

PPJ Enterprise and Subsidiaries

Notes to Consolidated Financial Statements

Impairment of Long-Lived Assets

Effective January 1, 2002, the Company adopted Statement of Financial Accounting Standards No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets" ("SFAS 144"), which addresses financial accounting and reporting for the impairment or disposal of long-lived assets and supersedes SFAS No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of," and the accounting and reporting provisions of APB Opinion No. 30, "Reporting the Results of Operations for a Disposal of a Segment of a Business." The Company periodically evaluates the carrying value of long-lived assets to be held and used in accordance with SFAS 144. SFAS 144 requires impairment losses to be recorded on long-lived assets used in operations when indicators of impairment are present and the undiscounted cash flows estimated to be generated by those assets are less than the assets' carrying amounts. In that event, a loss is recognized based on the amount by which the carrying amount exceeds the fair market value of the long-lived assets. Loss on long-lived assets to be disposed of is determined in a similar manner, except that fair market values are reduced for the cost of disposal.

Basic and Diluted Net Income per Share

Basic earnings per share is calculated using the weighted-average number of common shares outstanding during the period without consideration of the dilutive effect of stock warrants and convertible notes. Diluted earnings per share is calculated using the weighted-average number of common shares outstanding during the period after consideration of the dilutive effect of stock warrants and convertible notes.

Stock-Based Compensation

In December 2004, the Financial Accounting Standards Board (FASB) issued SFAS No. 123(R), Share-Based Payment. This pronouncement amends SFAS No. 123, Accounting for Stock-Based Compensation, and supersedes APB Opinion No. 25, Accounting for Stock Issued to Employees. SFAS No. 123(R) requires that companies account for awards of equity instruments issued to employees under the fair value method of accounting and recognize such amounts in their statements of operations. Under SFAS No. 123(R), we are required to measure compensation cost for all stock-based awards at fair value on the date of grant and recognize compensation expense in our consolidated statements of operations over the service period that the awards are expected to vest.

The Company accounts for stock-based compensation issued to non-employees and consultants in accordance with the provisions of SFAS 123(R) and the Emerging Issues Task Force consensus in Issue No. 96-18 ("EITF 96-18"), "Accounting for Equity Instruments that are Issued to Other Than Employees for Acquiring or in Conjunction with Selling, Goods or Services". Common stock issued to non-employees in exchange for services is accounted for based on the fair value of the services received.

Fair Value of Financial Instruments

Statement of financial accounting standard No. 107, Disclosures about Fair Value of Financial Instruments, requires that the Company disclose estimated fair values of financial instruments. The carrying amounts reported in the statements of financial position for current assets and current liabilities qualifying as financial instruments are a reasonable estimate of fair value.

Revenue Recognition

The Company's revenue recognition policies are in compliance with Staff accounting bulletin SAB 104. All revenue is recognized when persuasive evidence of an arrangement exists, the service or sale is complete, the price is fixed or determinable and collectibility is reasonably assured. Revenue is derived from collections of medical billing services. Revenue is recognized when the collection process is complete which occurs when the money is collected and recognized on a net basis.

PPJ Enterprise and Subsidiaries

Notes to Consolidated Financial Statements

License Revenue - The Company recognizes revenue from license contracts when a non-cancelable, non-contingent license agreement has been signed, the software product has been delivered, no uncertainties exist surrounding product acceptance, fees from the agreement are fixed and determinable and collection is probable. Any revenues from software arrangements with multiple elements are allocated to each element of the arrangement based on the relative fair values using specific objective evidence as defined in the SOPs. If no such objective evidence exists, revenues from the arrangements are not recognized until the entire arrangement is completed and accepted by the customer. Once the amount of the revenue for each element is determined, the Company recognizes revenues as each element is completed and accepted by the customer. For arrangements that require significant production, modification or customization of software, the entire arrangement is accounted for by the percentage of completion method, in conformity with Accounting Research Bulletin ("ARB") No. 45 and SOP 81-1.

Services Revenue - Revenue from consulting services is recognized as the services are performed for time-and-materials contracts and contract accounting is utilized for fixed-price contracts. Revenue from training and development services is recognized as the services are performed. Revenue from maintenance agreements is recognized ratably over the term of the maintenance agreement, which in most instances is one year.

Allowance for Doubtful Accounts

We provide an allowance for estimated uncollectible accounts receivable balances based on historical experience and the aging of the related accounts receivable.

Advertising

The Company expenses advertising costs as incurred. The Company incurred no advertising costs for the years ended December 31, 2007 and 2006.

Income Taxes

The Company accounts for income taxes using the liability method as required by Statement of Financial Accounting Standards ("FASB") No. 109, Accounting for Income Taxes ("SFAS 109"). Under this method, deferred tax assets and

liabilities are determined based on differences between their financial reporting and tax basis of assets and liabilities. The Company was not required to provide for a provision for income taxes for the periods ended December 31, 2007 and 2006, as a result of net operating losses incurred during the periods. As of December 31, 2007, the Company has available approximately \$6,900,000 of net operating losses ("NOL") available for income tax purposes that may be carried forward to offset future taxable income, if any. These carryforwards expire in various years through 2026. At December 31, 2007 and 2006, the Company has deferred tax assets of approximately \$3,600,000 and \$2,700,000 relating to the Company's net operating losses, respectively. The Company's deferred tax asset has been fully reserved by a valuation allowance since realization of its benefit is uncertain. The Company's ability to utilize its NOL carryforwards may be subject to an annual limitation in future periods pursuant to Section 382 of the Internal Revenue Code of 1986, as amended.

Certain items in the prior year financial statements have been reclassified for comparative purposes to conform to the presentation in the current period's presentation. These reclassifications have no effect on the previously reported income (loss).

Recently Issued Accounting Pronouncements

In December 2007, the FASB issued SFAS No. 141(R), Business Combinations (FAS 141(R)). This Statement provides greater consistency in the accounting and financial reporting of business combinations. It requires the acquiring entity in a business combination to recognize all assets acquired and liabilities assumed in the transaction, establishes the acquisition-date fair value as the measurement objective for all assets acquired and liabilities assumed, and requires the acquirer to disclose the nature and financial effect of the business combination. FAS 141(R) is effective for fiscal years beginning after December 15, 2008. We will adopt FAS 141(R) no later than the first quarter of fiscal 2010 and are currently assessing the impact the adoption will have on our financial position and results of operations.

PPJ Enterprise and Subsidiaries

Notes to Consolidated Financial Statements

In December 2007, the FASB issued SFAS No. 160, Noncontrolling Interests in Consolidated Financial Statements (FAS 160). This Statement amends Accounting Research Bulletin No. 51, Consolidated Financial Statements, to establish accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. FAS 160 is effective for fiscal years beginning after December 15, 2008. We will adopt FAS 160 no later than the first quarter of fiscal 2010 and are currently assessing the impact the adoption will have on our financial position and results of operations.

In February 2007, the FASB issued SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities, which permits entities to choose to measure at fair value eligible financial instruments and certain other items that are not currently required to be measured at fair value. This statement requires that unrealized gains and losses on items for which the fair value option has been elected be reported in earnings at each subsequent reporting date. SFAS No. 159 is effective for fiscal years beginning after November 15, 2007. We will adopt SFAS No. 159 no later than the first quarter of fiscal 2009. We are currently assessing the impact the adoption of SFAS No. 159 will have on our financial position and results of operations.

In September 2006, the FASB issued SFAS No. 158, Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans, an amendment of FASB Statements No. 87, 88, 106, and 132(R). SFAS No. 158 requires company plan sponsors to display the net over or under-funded position of a defined benefit postretirement plan as an asset or liability, with any unrecognized prior service costs, transition obligations or actuarial gains/losses reported as a component of other comprehensive income in shareholders' equity. SFAS No. 158 is effective for fiscal years ending after December 15, 2006. We adopted the recognition provisions of SFAS No. 158 as of the end of fiscal 2007. The adoption of SFAS No. 158 did not have an effect on the Company's financial position or results of operations.

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurements. SFAS No. 157 establishes a framework for measuring fair value in generally accepted accounting principles, clarifies the definition of fair value and expands disclosures about fair value measurements. SFAS No. 157 does not require any new fair value measurements. However, the application of SFAS No. 157 may change current practice for some entities. SFAS No. 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. We will adopt SFAS No. 157 in the first quarter of fiscal 2009. We are currently assessing the impact that the adoption of SFAS No. 157 will have on our financial position and results of operations.

In July 2006, the FASB issued Interpretation No. 48, Accounting for Uncertainty in Income Taxes — an interpretation of FASB Statement No. 109 (FIN 48). This interpretation clarifies the application of SFAS No. 109, Accounting for Income Taxes, by defining a criterion that an individual tax position must meet for any part of the benefit of that position to be recognized in an enterprise's financial statements and also provides guidance on measurement, derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. FIN 48 is

effective for fiscal years beginning after December 15, 2006, but earlier adoption is permitted. The Company is in the process of evaluating the impact of the application of the Interpretation to its financial statements.

ITEM 8. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS AMENDED – SERIOUS ACCOUNTING AND AUDIT DISAGREEMENT

ITEM 8A. CONTROLS AND PROCEDURES

The Company maintains a set of disclosure controls and procedures designed to ensure that information required to be disclosed by the Company in the reports filed under the Securities Exchange Act, is recorded, processed, summarized and reported within the time periods specified by the SEC's rules and forms. Disclosure controls are also designed with the objective of ensuring that this information is accumulated and communicated to the Company's management, including the Company's chief executive officer and chief financial officer, as appropriate, to allow timely decisions regarding required disclosure.

Our management does not expect that our disclosure controls or internal controls over financial reporting will prevent all errors or all instances of fraud. A control system, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that the control system's objectives will be met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within our company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of simple error or mistake. Because of the inherent limitation of a cost-effective control system, misstatements due to error or fraud may occur and not be detected.

Based upon their evaluation as of the end of the period covered by this report, the Company's chief executive officer and chief financial officer concluded that, the Company's disclosure controls and procedures are not effective to ensure that information required to be included in the Company's periodic SEC filings is recorded, processed, summarized, and reported within the time periods specified in the SEC rules and forms.

This deficiency consisted primarily of inadequate staffing and supervision that could lead to the untimely identification and resolution of accounting and disclosure matters and failure to perform timely and effective reviews. However, the size of the Company prevents us from being able to employ sufficient resources to enable us to have adequate segregation of duties within our internal control system. Management is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.
