

Section 1 - Conflict Minerals Disclosure

Item 1.01. Conflict Minerals Disclosure and Report

In accordance with Rule 13p-1 under the Securities Exchange Act of 1934 (the “Rule”), we conducted a reasonable country of origin inquiry (“RCOI”) to assess whether conflict minerals necessary to the functionality or production of products we manufactured or contracted to manufacture in calendar year 2015 originated in the Democratic Republic of the Congo or an adjoining country (collectively, the “Covered Countries”) or were from recycled or scrap sources. The Rule defines conflict minerals as cassiterite, columbite-tantalite, gold, wolframite, and their derivatives (tin, tantalum and tungsten).

Based on the results of our RCOI, we have reason to believe that certain conflict minerals contained in our 2015 products may have originated in the Covered Countries and may not have been from recycled or scrap sources. We therefore conducted due diligence on the source and chain of custody of these minerals and prepared a Conflict Minerals Report, filed as Exhibit 1.01 hereto.
