Persons who respond to the collection of information contained in this form are not

SEC 1474 (9-02)

Edgar Filing: NORDSTROM INC - Form 4

Granted under the issuer's 2010 Equity Incentive Plan. The number of options granted is not known at this time. The number is calculated as a function of a percent of base pay and the fair value of the option. The Binomial Lattice option valuation model will be used to

- (3) estimate the fair value of the option. This model requires the input of certain assumptions, including risk-free interest rate, volatility, dividend yield, and expected life. The formula for determining the number of options granted is: number of options = % of base pay / option fair value. This Form 4 will be amended to report the number of options granted when that number has been calculated.

Note: File three copies of this Form, one of which must be manually signed. If space is insufficient, *see* Instruction 6 for procedure.

Potential persons who are to respond to the collection of information contained in this form are not required to respond unless the form displays a currently valid OMB number.
