FORWARD-LOOKING STATEMENTS

From time to time, we make oral and written forward-looking statements that reflect our current expectations regarding future results of operations, economic performance, financial condition and achievements of Jack in the Box Inc. (the "Company"). A forward-looking statement is neither a prediction nor a guarantee of future events or results. In some cases, forward-looking statements can be identified by words such as "anticipate," "assume," "believe," "estimate," "expect," "forecast," "goals," "guidance," "intend," "plan," "project," "may," "should," "will," "would," and similar expressions. Forward-looking statements are included in this Form 10-K, principally in the sections captioned "Business," "Legal Proceedings," "Consolidated Financial Statements" and "Management's Discussion and Analysis of Financial Condition and Results of Operations," including statements regarding our strategic plans and operating strategies. Although we believe that the expectations reflected in our forward-looking statements are based on reasonable assumptions, such expectations and forward-looking statements may prove to be materially incorrect due to known and unknown risks and uncertainties.

In some cases, information regarding certain important factors that could cause our actual results to differ materially from any forward-looking statement appears together with such statement. In addition, the factors described under "Risk Factors" and "Discussion of Critical Accounting Estimates" in this Form 10-K, as well as other possible factors not listed, could cause our actual results, economic performance, financial condition or achievements to differ materially from those expressed in any forward-looking statements. As a result, investors should not place undue reliance on such forward-looking statements, which speak only as of the date of this report. The Company is under no obligation to update forward-looking statements, whether as a result of new information or otherwise.

PART I

ITEM 1. BUSINESS

The Company

Overview. Jack in the Box Inc., based in San Diego, California, operates and franchises 2,954 Jack in the Box[®] quick-service restaurants (“QSRs”) and Qdoba Mexican Eats (“Qdoba”) fast-casual restaurants. References to the Company throughout this Annual Report on Form 10-K are made using the first person notations of “we,” “us” and “our.” Jack in the Box. Jack in the Box opened its first restaurant in 1951, and has since become one of the nation’s largest hamburger chains. Based on number of restaurants, our top 10 major markets comprise approximately 70% of the total system, and Jack in the Box is the second largest QSR hamburger chain in eight of those major markets. As of the end of our fiscal year on October 2, 2016, the Jack in the Box system included 2,255 restaurants in 21 states and Guam, of which 417 were company-operated and 1,838 were franchise-operated.

Qdoba. To supplement our core growth and balance the risk associated with growing solely in the highly competitive hamburger segment of the QSR industry, in 2003 we acquired Qdoba Restaurant Corporation, operator and franchisor of Qdoba Mexican Eats. Qdoba is the second largest fast-casual Mexican food brand in the United States. As of October 2, 2016, the Qdoba system included 699 restaurants in 47 states, the District of Columbia and Canada, of which 367 were company-operated and 332 were franchise-operated.

Strategic Plan. Our long-term strategic plan focuses on continued growth, increasing average unit volumes (“AUVs”), improving restaurant profitability and returns on invested capital, and returning cash to shareholders.

Through the execution of our refranchising strategy over the last five years, we have increased franchise ownership of the Jack in the Box system from 72% at the end of fiscal 2011 to 82% at the end of fiscal 2016. We plan to increase franchise ownership of the Jack in the Box system to over 90%. In fiscal 2016, our Jack in the Box franchisees independently developed 12 new franchise restaurants, and we expect the majority of Jack in the Box new unit growth will be through franchise restaurants.

Through new unit growth, acquisitions of franchised Qdoba restaurants in select markets, and the refranchising of Jack in the Box restaurants, Qdoba has become a more prominent part of our company restaurant operations. As of the end of fiscal 2016, Qdoba comprised approximately 47% of our total company-operated units as compared with approximately 28% at the end of fiscal 2011. We plan to continue to build out the number of Qdoba company locations at an accelerated pace over the next several years. Accelerating the growth of our Qdoba brand by increasing market penetration is anticipated to generate heightened brand awareness.

Restaurant Concepts

Jack in the Box. Jack in the Box restaurants offer a broad selection of distinctive products including classic burgers like our Jumbo Jack[®] burgers, and innovative new product lines such as Buttery Jack[™] burgers and our Brunchfast[™] menu. We also offer tacos, regular and curly fries, specialty sandwiches, salads and real ice cream shakes, among other items. We allow our guests to customize their meals to their tastes and order any product when they want it, including breakfast items any time of day (or night).

The Jack in the Box restaurant chain was the first major hamburger chain to develop and expand the concept of drive-thru restaurants. In addition to drive-thru windows, most of our restaurants have seating capacities ranging from 20 to 100 people and are open 18-24 hours a day. Drive-thru sales currently account for approximately 75% of sales at company-operated restaurants. The average check in fiscal year 2016 was \$7.38 for company-operated restaurants. With a presence in only 21 states, we believe Jack in the Box is a brand with significant growth opportunities. In fiscal 2016, we continued to expand in existing markets. We opened four company-operated restaurants and franchisees opened 12 Jack in the Box restaurants during the year. In fiscal 2017, we expect to open approximately 20-25 new Jack in the Box restaurants system-wide.

The following table summarizes the changes in the number of company-operated and franchise Jack in the Box restaurants over the past five years:

	Fiscal Year				
	2016	2015	2014	2013	2012
Company-operated restaurants:					
Beginning of period	413	431	465	547	629

System end of period total	2,255	2,249	2,250	2,251	2,250

Qdoba. Qdoba's menu features Mexican-themed food items including burritos, tacos, salads, and quesadillas. Guests can customize their meals by adding 3-cheese queso, guacamole, and a variety of sauces and salsas without paying an extra charge. Our new logo that debuted in fiscal 2016 modifies the full name of our brand from Qdoba Mexican Grill® to Qdoba Mexican Eats to better reflect the flavors and variety our menu offers.

Our restaurants also offer a variety of catering options that can be tailored to feed groups of ten to several hundred. While some of our restaurants serve breakfast, the majority generally operate from 10:30 a.m. to 10:00 p.m. Qdoba restaurants have a seating capacity that ranges from 60 to 80 people, and many locations include outdoor patio seating. In fiscal 2016, the average check for company-operated restaurants was \$11.75, which excludes catering sales. We currently estimate the long-term growth potential for Qdoba to be approximately 2,000 units across the United States. Our company-operated restaurants are generally located in larger market areas. Franchise development is more weighted towards traditional sites, but are also developed in non-traditional sites (airports, campuses, etc.) or areas where local franchisees can operate more efficiently. During fiscal 2016, we opened 35 company-operated restaurants and franchisees opened 18 Qdoba restaurants, including six non-traditional sites. In fiscal 2017, we expect to open 60-70 new Qdoba restaurants system-wide, of which we expect approximately 40 to be company-operated locations.

The following table summarizes the changes in the number of company-operated and franchise Qdoba restaurants over the past five years:

	Fiscal Year				
	2016	2015	2014	2013	2012
Company-operated restaurants:

% of system	47 %	51 %	51 %	52 %	50 %
System end of period total	699	661	638	615	627

Site Selection and Design

Site selections for all new company-operated Jack in the Box and Qdoba restaurants are made after an economic analysis and a review of demographic data and other information relating to population density, traffic, competition, restaurant visibility and access, available parking, surrounding businesses and opportunities for market penetration. Restaurants developed by franchisees are built to brand specifications on sites we have reviewed.

Each of our brands have multiple restaurant models with different seating capacities to improve our flexibility in selecting locations for our restaurants. Management believes that this flexibility enables the Company to match the restaurant configuration with the specific economic, demographic, geographic or physical characteristics of a particular site.

Typical costs to develop a traditional Jack in the Box restaurant, excluding the land value, range from \$1.2 million to \$2.0 million. The majority of our Jack in the Box restaurants are constructed on leased land or on land that we purchase and subsequently sell, along with the improvements, in sale and leaseback transactions. Upon completion of a sale and leaseback transaction, the Company's initial cash investment is reduced to the cost of equipment, which ranges from approximately \$0.3 million to \$0.5 million.

The majority of Qdoba restaurants are located in leased spaces ranging from conventional large-scale retail projects to smaller neighborhood retail strip centers as well as non-traditional locations such as airports, college campuses and food courts. Qdoba restaurant development costs generally range from \$0.8 million to \$1.5 million depending on the type, square footage, geographic region, and if the location includes an expanded alcohol offering. In fiscal 2015, we began testing new restaurant design elements as part of our brand evolution, and in fiscal 2016, we finalized our new restaurant design and approved remodel designs for existing restaurants.

Franchising Program

Jack in the Box. The Jack in the Box franchise agreement generally provides for an initial franchise fee of \$50,000 per restaurant for a 20-year term, royalty payments, and marketing fees at 5% of gross sales. Royalty rates, typically 5% of gross sales, can range from 1% to as high as 15% of gross sales, and some existing agreements provide for variable rates and/or royalty holidays. We may offer development agreements to franchisees for construction of one or more new restaurants over a defined period of time and in a defined geographic area. Developers may be required to

pay fees for certain company-sourced new sites. Developers may lose their rights to future development if they do not maintain the required opening schedule. To stimulate growth we have offered lower royalty rates to franchisees who opened restaurants within specified time frames.

In connection with the sale of a company-operated restaurant to a franchisee, we sell to the franchisee the restaurant equipment and the right to do business at that location for a specified term. The aggregate price is negotiated based upon the value of the restaurant as a going concern, which depends on various factors, including the sales and cash flows of the restaurant, as well as its location and history. In addition, the land and building are generally leased or subleased to the franchisee at a negotiated rent, typically equal to the greater of a minimum base rent or a percentage of gross sales. The franchisee is usually required to pay property taxes, insurance and ancillary costs, and is responsible for maintaining the restaurant.

Qdoba. Qdoba franchisees are generally charged an initial franchise fee of \$30,000 per restaurant for a 10-year franchise term with a 10-year option to extend at a fee of \$5,000, royalty payments, and marketing fees of 1.25% of gross sales. We also require franchisees to spend a minimum of 2% of gross sales on local marketing for their restaurants. Royalty rates are typically 5% of gross sales. We offer development agreements to franchisees for the construction of one or more new restaurants over a defined period of time and in a defined geographic area for a development fee, a portion of which may be credited against franchise fees due for restaurants when they are opened. If the developer does not maintain the required schedule of openings, they may forfeit such fees and lose their rights to future development. We continue to pursue non-traditional locations both through multi-location commitments and single unit franchise agreements. Currently, the non-traditional franchise agreements we offer provide for a \$15,000 initial franchise fee, and a 6% royalty rate. To enhance our multi unit non-traditional growth, we may offer agreements that provide for lower fees.

Restaurant Management and Operations

Jack in the Box and Qdoba restaurants are operated by a company manager or franchise operator who is directly responsible for the operations of the restaurant, including product quality, service, food safety, cleanliness, inventory, cash control and the conduct and appearance of employees. We focus on attracting, selecting, engaging and retaining employees and franchisees who share our passion for creating long-lasting, successful restaurants.

At both brands, company-operated restaurant managers are supervised by district managers, who are overseen by directors of operations, who report to vice presidents of operations. Under our performance system, vice presidents and directors are eligible for an annual incentive based on achievement of goals related to region level sales, profit, and company-wide performance. District managers and restaurant managers are eligible for quarterly incentives based on growth in restaurant sales and profit and/or certain other operational performance standards.

Jack in the Box. Company restaurant managers are required to attend extensive management training classes involving a combination of classroom instruction and on-the-job training in specially designated training restaurants. Restaurant managers and supervisory personnel train other restaurant employees in accordance with detailed procedures and guidelines using training aids available at each location.

Qdoba. The Qdoba Training System is used to provide employees with detailed training by position, from entry level to restaurant manager. Restaurant management are certified to train and develop team members through a series of on the job and workshop training that focus on knowledge, skills and behaviors. The Qdoba Training System certifies achievement for our cooks and line servers who showcase excellence in their positions. Team members must have, or acquire, specific technical and behavioral skills to become certified in all positions.

Customer Satisfaction

Company-operated and franchise-operated restaurants devote significant resources toward offering quality food and excellent service at all of our restaurants. One tool we use to help us maintain a high level of customer satisfaction is our Voice of Guest program, which provides restaurant managers, district managers, and franchise operators with ongoing feedback from guests who complete a short guest satisfaction survey via an invitation typically provided on the register receipt. In these surveys, guests rate their satisfaction with key elements of their restaurant experience, including friendliness, food quality, cleanliness, speed of service and order accuracy. In 2016, the Jack in the Box and Qdoba systems received approximately 2.1 million and 0.2 million guest survey responses, respectively. Our Guest Relations Department receives feedback that guests provide via our website, and communicates that feedback to restaurant managers and franchise operators. We also collect guest feedback through social media and other resources.

Food Safety and Quality

Our “farm-to-fork” food safety and quality assurance programs are designed to maintain high standards for the food products and food preparation procedures used by our vendors and in our restaurants. We maintain product specifications for our ingredients and our Food Safety and Regulatory Compliance Department must approve all suppliers of food products to our restaurants. We use third-party and internal audits to review the food safety management programs of our vendors. We manage food safety in our restaurants through a comprehensive food safety management program that is based on the Food and Drug Administration (“FDA”) Food Code requirements. The food safety management program includes employee training, ingredient testing, documented restaurant practices and attention to product safety at each stage of the food preparation cycle. In addition, our food safety management program uses American National Standards Institute certified food safety training programs to train our company and franchise restaurant management employees on food safety practices for our restaurants.

Supply Chain

Historically, we provided purchasing and distribution services for our company-operated restaurants and most of our franchise-operated restaurants. Our remaining franchisees purchased product from approved suppliers and distributors. In fiscal 2012, all of our company-operated Qdoba restaurants and approximately 90% of our Qdoba franchisees began utilizing the distribution services of a third-party distributor under a long-term contract, ending February 2017. Since December 2014, the remaining 10% of our Qdoba franchisees have utilized the same third-party distributor under the same long-term contract. We expect to enter into a new long-term agreement with a third-party distributor for all company and franchise Qdoba restaurants in the United States upon expiration of our current contract. In July 2012, all of our Jack in the Box company-operated restaurants and approximately 90% of our Jack in the Box franchisees entered into a long-term contract with another third-party distributor to provide distribution services to our Jack in the Box restaurants through August 2022. Beginning in June 2015, the remaining 10% of our Jack in the Box franchisees decided to use the services of the same third-party distributor under the same long-term contract. The primary commodities purchased by our restaurants are beef, poultry, pork, cheese and produce. We monitor the primary commodities we purchase in order to minimize the impact of fluctuations in price and availability, and we may enter into purchasing contracts and pricing arrangements when we consider them advantageous. However, certain commodities remain subject to price fluctuations. We believe all essential food and beverage products are available, or can be made available, upon short notice from alternative qualified suppliers.

Information Systems

At our shared services corporate support center, we have centralized financial accounting systems, human resources and payroll systems, and a communications and network infrastructure that supports both Jack in the Box and Qdoba corporate functions. Our restaurant software allows for daily polling of sales, inventory and other data from the restaurants directly. Our company restaurants and traditional site franchise restaurants use standardized Windows-based touch screen point-of-sale (“POS”) platforms. These platforms allow the restaurants to accept cash, credit cards and our re-loadable gift cards. Our Qdoba POS system is also enhanced with an integrated guest loyalty program as well as a takeout and delivery interface. The takeout and delivery interface is used to manage online and catering orders which are distributed to sites via a hosted online ordering website.

We have business intelligence systems that provide visibility to the key metrics in the operation of company and franchise restaurants. These systems play an integral role in accumulating and analyzing market information. Our company restaurants use labor scheduling systems to assist managers in managing labor hours based on forecasted sales volumes. We also have inventory management systems which enable timely and accurate deliveries of food and packaging to our restaurants. To support order accuracy and speed of service, our drive-thru Jack in the Box restaurants use color order confirmation screens. We have plans to consolidate our restaurant level technologies at Jack in the Box and Qdoba restaurants.

Advertising and Promotion

Jack in the Box. At Jack in the Box, we build brand awareness through our marketing and advertising programs and activities. These activities are supported primarily by financial contributions to a marketing fund from all company and franchise restaurants based on a percentage of gross sales. Activities to advertise restaurant products, promote

brand awareness and attract customers include, but are not limited to, system and regional campaigns on television, radio and print media, as well as digital and social media.

6

Qdoba. At Qdoba, our marketing and advertising programs are designed to build brand awareness, lift restaurant traffic, and increase brand advocacy. All company and franchise restaurants financially contribute a percentage of gross sales to fund the production and development of national and regional radio, print, and digital and social media. Advertising is created at the brand level and the system operators can utilize these assets, or tap into our in-house creative services group to create custom advertising that meets their particular communication objectives while adhering to brand standards. Additionally, the brand is piloting an affinity and mobile platform designed to inspire, motivate and reward increased frequency among Qdoba guests.

Employees

At October 2, 2016, we had approximately 22,200 employees, of whom 21,500 were restaurant employees, 500 were corporate personnel, and 200 were field management or administrative personnel. Employees are paid on an hourly basis, except certain restaurant management, operations and corporate management, and administrative personnel. We employ both full- and part-time restaurant employees in order to provide the flexibility necessary during peak periods of restaurant operations. We have not experienced any significant work stoppages, and we support our employees, including part-time workers, by offering industry competitive wages and benefits.

Executive Officers

The following table sets forth the name, age, position and years with the Company of each person who is an executive officer of Jack in the Box Inc. as of October 2, 2016:

Name	Age	Positions	Years with the Company
Leonard A. Comma	47	Chairman of the Board and Chief Executive Officer	15
Mark H. Blankenship, Ph.D.	55	Executive Vice President, Chief People, Culture and Corporate Strategy Officer	19
Jerry P. Rebel	59	Executive Vice President and Chief Financial Officer	13
Phillip H. Rudolph	58	Executive Vice President, Chief Legal and Risk Officer and Corporate Secretary	9
Frances L. Allen	54	President, Jack in the Box Brand	2
Keith M. Guilbault	53	President, Qdoba Brand	12
Paul D. Melancon	60	Senior Vice President of Finance, Controller and Treasurer	11
Vanessa C. Fox	43	Vice President, Chief Development Officer	19
Carol A. DiRaimo	55	Vice President of Investor Relations and Corporate Communications	8
Dean C. Gordon	54	Vice President of Supply Chain	7
Raymond Pepper	55	Vice President and General Counsel	19

The following sets forth the business experience of each executive officer for at least the last five years:

Mr. Comma has been Chairman of the Board and Chief Executive Officer since January 2014. From May 2012 until October 2014, he served as President, and from November 2010 through January 2014, as Chief Operating Officer.

Mr. Comma served as Senior Vice President and Chief Operating Officer from February 2010 to November 2010, Vice President Operations Division II from February 2007 to February 2010, Regional Vice President of the Company's Southern California region from May 2006 to February 2007 and Director of Convenience-Store & Fuel Operations for the Company's proprietary chain of Quick Stuff convenience stores from August 2001 to May 2006.

Mr. Comma has 24 years of retail and franchise experience.

Dr. Blankenship has been Executive Vice President, Chief People, Culture and Corporate Strategy Officer since November 2013. He was previously Senior Vice President and Chief Administrative Officer from October 2010 to November 2013, Vice President, Human Resources and Operational Services from October 2005 to October 2010 and Division Vice President, Human Resources from October 2001 to September 2005. Dr. Blankenship has 19 years of experience with the Company in various human resource and training positions.

Mr. Rebel has been Executive Vice President and Chief Financial Officer since October 2005. He was previously Senior Vice President and Chief Financial Officer from January 2005 to October 2005 and Vice President and Controller of the Company from September 2003 to January 2005. Prior to joining the Company in 2003, Mr. Rebel

held senior level positions with Fleming Companies and CVS Corporation. He has more than 35 years of corporate finance experience.

Mr. Rudolph has been Chief Legal and Risk Officer since October 2014, Executive Vice President since February 2010, and Corporate Secretary since November 2007. Before becoming Chief Legal and Risk Officer, he was General Counsel since November 2007. Prior to joining the Company, Mr. Rudolph was Vice President and General Counsel for Ethical Leadership Group. He was previously a partner in the Washington, D.C. office of Foley Hoag, LLP, and a Vice President at McDonald's Corporation where, among other roles, he served as U.S. and International General Counsel. Before joining McDonald's, Mr. Rudolph spent 15 years with the law firm of Gibson, Dunn & Crutcher, LLP, the last six of which he spent as a litigation partner in the firm's Washington, D.C. office. Mr. Rudolph has more than 30 years of legal experience.

Ms. Allen has served as President of the Jack in the Box brand since October 2014. She joined the Company with more than 30 years of branding and marketing experience, including senior leadership roles at such major organizations as Denny's, Dunkin' Brands, Sony Ericsson Mobile Communications, PepsiCo and Frito-Lay. From July 2010 to October 2014, Ms. Allen worked for Denny's Corp., most recently as its Chief Brand Officer and, previously, as its Chief Marketing Officer. From 2007 to 2009, she was Chief Marketing Officer of Dunkin' Donuts, from 2004 to 2007, she was Vice President of Marketing, North America at Sony Ericsson Mobile Communications, and from 1998 to 2004, she held several positions at PepsiCo, most recently as Vice President of Marketing. Prior to that, Ms. Allen served at Frito-Lay as Director of International Advertising, and worked for several advertising agencies.

Mr. Guilbault has served as President of Qdoba brand since June 2016. From March 2016 to June 2016, he served as Chief Operating Officer of Qdoba. Prior to that, Mr. Guilbault held several positions with the Jack in the Box brand, including: Senior Vice President and Chief Marketing Officer from November 2013 to March 2016; Vice President of Menu & Innovation from October 2012 to November 2013; Vice President of Franchising from October 2010 to October 2012; Division Vice President of Operations Initiatives from February 2010 to October 2010; and Division Vice President of Brand Innovation & Regional Marketing from February 2006 to February 2010. He joined the Company in 2004 as a Regional Vice President in Central California. Including his service with Jack in the Box Inc., Mr. Guilbault has more than 16 years of experience in management positions with several companies, including Mobil Oil Corporation, Priceline WebHouse Club and Freemarkets, Inc.

Mr. Melancon has been Senior Vice President of Finance, Controller and Treasurer since November 2013. He was previously Vice President of Finance, Controller and Treasurer from September 2008 to November 2013 and Vice President and Controller from July 2005 to September 2008. Before joining the Company, Mr. Melancon held senior financial positions at several major companies, including Guess?, Inc., Hyper Entertainment, Inc. (a subsidiary of Sony Corporation of America) and Sears, Roebuck and Company. Mr. Melancon has more than 35 years of experience in accounting and finance, including 11 years with Price Waterhouse.

Ms. Fox has been Vice President and Chief Development Officer overseeing development for the Jack in the Box and Qdoba brands since June 2016, and the Jack in the Box brand since March 2014. Previously, she held numerous positions for the Jack in the Box brand, including: Division Vice President of Franchise Business Development since September 2013 and Division Vice President of Franchise Sales & Development since June 2011. From February 2011 to June 2011, she was Director of Franchise Business Development, and she previously had the same title in Franchise Sales since October 2010. Ms. Fox served in other capacities since joining the Company in 1997. Before joining Jack in the Box Inc., she was a licensed real estate agent and worked for several companies in the residential real estate industry. Ms. Fox has 24 years of real estate and development experience.

Ms. DiRaimo has been Vice President of Investor Relations and Corporate Communications since July 2008. She previously spent 14 years at Applebee's International, Inc. where she held various positions including Vice President of Investor Relations from February 2004 to November 2007. Ms. DiRaimo has more than 30 years of corporate finance and public accounting experience, including positions with Gilbert/Robinson Restaurants, Inc. and Deloitte.

Mr. Gordon has been Vice President of Supply Chain since October 2012. He was previously Division Vice President of Purchasing from February 2009 to October 2012. Prior to joining the Company in February 2009, Mr. Gordon was Vice President of Supply Chain Management for Potbelly Sandwich Works from December 2005 to February 2009, and he held various positions with Applebee's International from August 2000 to December 2005, most recently as Executive Director of Procurement. Mr. Gordon also held a number of positions at Prandium, Inc., an operator of multiple restaurant concepts, from October 1994 to August 2000. Mr. Gordon has over 20 years of Supply Chain Management experience.

Mr. Pepper has been Vice President and General Counsel since September 2014. He was previously Vice President, Deputy General Counsel since September 2013, and Division Vice President, Deputy General Counsel from July 2009 to September 2013. Prior to that, Mr. Pepper held the positions of Division Vice President, Corporate Counsel from 2003 to 2009 and Director, Corporate Counsel from 1997 to 2003. Before joining the Company, Mr. Pepper spent 11 years with the law firm of Miller, Boyko and Bell, both as an associate and partner. Mr. Pepper has 30 years of legal experience.

Trademarks and Service Marks

The Jack in the Box, Qdoba Mexican Eats, Qdoba Mexican Grill and Qdoba names are of material importance to us, and each is a registered trademark and service mark in the United States and elsewhere. In addition, we have registered or applied to register numerous service marks and trade names for use in our businesses, including the Jack in the Box logo, Qdoba logos, Qdoba Mexican Grill mark and various product names and designs.

8

Seasonality

Restaurant sales and profitability are subject to seasonal fluctuations because of factors such as vacation and holiday travel and events, seasonal weather conditions, and crises, all of which affect the public's dining habits.

Competition and Markets

The restaurant business is highly competitive and is affected by local and national economic conditions, including unemployment levels, population and socioeconomic trends, traffic patterns, local and national competitive changes, changes in consumer dining habits and preferences, and new information regarding diet, nutrition and health, all of which may affect consumer spending habits. Key elements of competition in the industry are the quality and innovation in the food products offered, price and perceived value, quality of service experience (including technological and other innovations), speed of service, personnel, advertising and other marketing efforts, name identification, restaurant location, and image and attractiveness of the facilities.

Each Jack in the Box and Qdoba restaurant competes directly and indirectly with a large number of national and regional restaurant chains, some of which have significantly greater financial resources, as well as with locally-owned and/or independent restaurants in the quick-service and the fast-casual segments, and other consumer options including grocery and specialty stores, catering and delivery services. In selling franchises, we compete with many other restaurant franchisors, some of whom have substantially greater financial resources.

Available Information

The Company's primary website can be found at www.jackinthebox.com. We make available free of charge at this website (under the caption "Investors — SEC Filings") all of our reports filed or furnished pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934, including our Annual Report on Form 10-K, our Quarterly Reports on Form 10-Q, our Current Reports on Form 8-K, and amendments to those reports. These reports are made available on the website as soon as reasonably practicable after their filing with, or furnishing to, the Securities and Exchange Commission ("SEC"). You may read and copy any materials we file with the SEC at the SEC's Public Reference Room at 100 F Street, NE, Washington, DC 20549. You may obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330. The SEC also maintains an Internet site (www.sec.gov) that contains our reports, proxy and information statements, and other information.

Regulation

Each restaurant is subject to regulation by federal agencies, as well as licensing and regulation by state and local health, sanitation, safety, fire, zoning, building, taxing and other agencies and departments. Restaurants are also subject to rules and regulations imposed by owners and/or operators of shopping centers, college campuses, airports, military bases or other locations where a restaurant is located. Difficulties or failures in obtaining and maintaining any required permits, licenses or approvals, or difficulties in complying with applicable rules and regulations, could result in restricted operations, closures of existing restaurants, delays or cancellations in the opening of new restaurants, increased cost of operations or the imposition of fines and other penalties.

We are also subject to federal, state and international laws regulating the offer and sale of franchises, as well as judicial and administrative interpretations of such laws. Such laws impose registration and disclosure requirements on franchisors in the offer and sale of franchises, and may also apply substantive standards to the relationship between franchisor and franchisee, including limitations on the ability of franchisors to terminate franchises and alter franchise arrangements.

We are subject to the federal Fair Labor Standards Act and various state laws governing such matters as minimum wages, exempt status classification, overtime, breaks and other working conditions for company employees. Our franchisees are subject to these same laws. Many of our food service personnel are paid at rates set in relation to the federal and state minimum wage laws and, accordingly, changes in the minimum wage requirements may increase labor costs for us and our franchisees. Federal and state laws may also require us to provide paid and unpaid leave to our employees, or healthcare or other employee benefits, which could result in significant additional expense to us and our franchisees. We are also subject to federal immigration laws requiring compliance with work authorization documentation and verification procedures.

We are subject to certain guidelines under the Americans with Disabilities Act of 1990 and various state codes and regulations, which require restaurants to provide full and equal access to persons with physical disabilities. We are also subject to various federal, state and local laws regulating the discharge of materials into the environment. The cost of complying with these laws increases the cost of operating existing restaurants and developing new restaurants. Additional costs relate primarily to the necessity of obtaining more land, landscaping, storm drainage control and the cost of more expensive equipment necessary to decrease the amount of effluent emitted into the air, ground and surface waters.

Some of our Qdoba restaurants sell alcoholic beverages, which require licensing. The regulations governing licensing may impose requirements on licensees including minimum age of employees, hours of operation, and advertising and handling of alcoholic beverages. The failure of a Qdoba restaurant to obtain or retain a license could adversely affect the store's results of operations.

We have processes in place to monitor compliance with applicable laws and regulations governing our company operations.

ITEM 1A. RISK FACTORS

We caution you that our business and operations are subject to a number of risks and uncertainties. The factors listed below are important factors that could cause our actual results to differ materially from our historical results and from projections in the forward-looking statements contained in this report, in our other filings with the SEC, in our news releases and in oral statements by our representatives. However, other factors that we do not anticipate or that we do not consider significant based on currently available information may also have an adverse effect on our results.

Risks Related to the Food Service Industry. Food service businesses such as ours may be materially and adversely affected by changes in consumer preferences, national and regional economic, political and socioeconomic conditions, attitudes and changes in consumer dining habits (whether or not based on new information regarding diet, nutrition or health), as well as by the cost of food at home compared to food away from home, technological and other innovations, health-based regulations or other factors. Adverse economic conditions, such as higher levels of unemployment, lower levels of consumer confidence and decreased discretionary spending, may reduce restaurant traffic and sales and impose practical limits on pricing. If adverse or uncertain economic conditions persist for an extended period of time, consumers may make long-lasting changes to their spending behavior. The impact of these factors may be exacerbated by the geographic profile of our Jack in the Box brand. Specifically, nearly 70% of the restaurants in our Jack in the Box system are located in the states of California and Texas. Economic conditions, state and local laws, government regulations, weather conditions or natural disasters affecting those states may therefore more greatly impact our results than would similar occurrences in other locations.

The performance of our business may also be adversely affected by factors such as:

- seasonal sales fluctuations;
- severe weather and other natural disasters;
- unfavorable trends or developments concerning operating costs such as inflation, increased costs of food, fuel, utilities, technology, labor (including due to minimum wage increases or new administrative interpretations of regulations impacting labor costs), insurance, or employee benefits (including healthcare, workers' compensation and other insurance costs and premiums);
- the impact of initiatives by competitors and increased competition generally;
- lack of customer acceptance of new menu items, service initiatives or potential price increases necessary to cover higher input costs;
- customers trading down to lower priced items and/or shifting to competitive offerings with lower priced products;
- labor disruptions, unionization, labor shortages or other labor or employee relations issues, and the availability of qualified, experienced management and hourly employees at company and franchise locations; and
- failure to anticipate or respond quickly to relevant market trends or to implement successful advertising and marketing programs, including technology-based programs.

In addition, if economic conditions deteriorate or are uncertain for a prolonged period of time, or if our operating results decline unexpectedly, we may be required to record impairment charges, which will negatively impact our results of operations for the periods in which they are recorded. Due to the foregoing or other factors, results for any one quarter are not necessarily indicative of results to be expected for any other quarter or for a full fiscal year. These fluctuations may cause our operating results to be below the expectations of public market analysts and investors, and may adversely impact our stock price.

Risks Related to Food and Commodity Costs and Availability. We and our franchisees are subject to volatility in food and commodity costs and availability. Accordingly, our profitability depends in part on our ability to anticipate and

react to changes in food costs and availability. For example, the costs of feed ingredients used to produce beef, pork and chicken could be adversely affected by changes in worldwide supply or demand, or by regulatory or societal mandates, leading to higher prices for our products. In past years, food and commodity costs increased significantly, out-pacing general inflation and industry expectations. Looking forward, we anticipate volatile or uncertain price conditions to continue.

We seek to manage food and commodity costs, including through extended fixed price contracts, strong category and commodity management, and purchasing fundamentals. However, certain commodities such as beef and pork, which currently represent approximately 20% and 7%, respectively, of our consolidated commodity spend, do not lend themselves to fixed price contracts.

We cannot assure you that we will successfully enter into fixed price contracts on a timely basis or on commercially favorable pricing terms. In addition, although we have fixed price contracts for produce, we are subject to force majeure clauses resulting from weather or acts of God that may result in temporary spikes in costs.

Further, we cannot assure you that we or our franchisees will be able to successfully anticipate and react effectively to changing food and commodity costs by adjusting purchasing practices or menu offerings. We and our franchisees also may not be able to pass along price increases to our customers as a result of adverse economic conditions, competitive pricing or other factors. Therefore, variability of food and other commodity costs could adversely affect our profitability and results of operations.

Risk Related to Our Brands and Reputation. Multi-unit food service businesses such as ours can be materially and adversely affected by widespread negative publicity of any type, particularly regarding food quality, food safety, nutritional content, safety or public health issues (such as epidemics or the prospect of a pandemic), obesity or other health concerns, and employee relations issues, among other things. Adverse publicity in these areas could damage the trust customers place in our brands. The increasingly widespread use of mobile communications and social media applications has amplified the speed and scope of adverse publicity and could hamper our ability to promptly correct misrepresentations or otherwise respond effectively to negative publicity. To minimize the risk of food safety issues arising in our restaurants and at our vendors, we have restaurant Food Safety programs that include a daily restaurant Food Safety Checklist, and we use third-party and internal audits to review the Food Safety programs of our vendors. Nevertheless, food safety risks cannot be completely eliminated. Any outbreak of illness attributed to company or franchised restaurants, or within the food service industry, or any widespread negative publicity regarding our brands or the restaurant industry in general could cause a decline in company and franchise restaurant sales, and could have a material adverse effect on our financial condition and results of operations.

In addition, the success of our business strategy depends on the value and relevance of our brands and reputation, including implementation and success of brand strategies. If customers perceive that we and our franchisees fail to deliver a consistently positive and relevant experience, our brands could suffer. This could have a material adverse effect on our business. Moreover, while we devote considerable efforts and resources to protecting our trademarks and other intellectual property, if these efforts are not successful, the value of our brands may be harmed. This could also have a material adverse effect on our business.

Supply and Distribution Risks. Dependence on frequent deliveries of fresh produce and other food products subjects food service businesses such as ours to the risk that shortages or interruptions in supply could adversely affect the availability, quality or cost of ingredients or require us to incur additional costs to obtain adequate supplies. Deliveries of supplies may be affected by adverse weather conditions, natural disasters, distributor or supplier financial or solvency issues, product recalls, or other issues. Further, increases in fuel prices could result in increased distribution costs. In addition, if any of our distributors, suppliers, vendors or other contractors fail to meet our quality standards or otherwise do not perform adequately, or if any one or more of such entities seeks to terminate its agreement or fails to perform as anticipated, or if there is any disruption in any of our distribution or supply relationships or operations for any reason, our business, financial condition and results of operations may be materially affected.

Risks Associated with Severe Weather, Natural Disasters or Civil Unrest. Food service businesses such as ours can be materially and adversely affected by severe weather conditions, such as severe storms, hurricanes, flooding, prolonged drought or protracted heat or cold waves, and by natural disasters, such as earthquakes and wild fires, and their aftermath. Any of these, or civil disturbances or unrest, could result in:

- lost restaurant sales when consumers stay home or are physically prevented from reaching the restaurants;
- property damage, loss of product, and resulting lost sales when locations are forced to close for extended periods of time;
- interruptions in supply when distributors or vendors suffer damages or transportation is negatively affected; and
- increased costs if agricultural capacity is diminished or if insurance recoveries do not cover all of our losses.

If systemic or widespread adverse changes in climate or weather patterns occur, we could experience more of these losses, and such losses could have a material adverse effect on our results of operations and financial condition.

Growth and Development Risks. We intend to grow both Qdoba and Jack in the Box by developing additional company-owned restaurants and through new restaurant development by franchisees, both in existing markets and in new markets. Development involves substantial risks, including the risk of:

- the inability to identify suitable franchisees;
- limited availability of financing for the Company and for franchisees at acceptable rates and terms;
- development costs exceeding budgeted or contracted amounts;
- delays in completion of construction;
- the inability to identify, or the unavailability of suitable sites at acceptable cost and other leasing or purchase terms;
- developed properties not achieving desired revenue or cash flow levels once opened;

- the negative impact of a new restaurant upon sales at nearby existing restaurants;
- the challenge of developing in areas where competitors are more established or have greater penetration or access to suitable development sites;
- incurring substantial unrecoverable costs in the event a development project is abandoned prior to completion;
- impairment charges resulting from underperforming restaurants or decisions to curtail or cease investment in certain locations or markets;
- in new geographic markets where we have limited or no existing locations, the inability to successfully expand or acquire critical market presence for our brands, acquire name recognition, successfully market our products or attract new customers;
- operating cost levels that reduce the demand for, or raise the cost of, developing new restaurants;
- unique regulations or challenges applicable to operating in non-traditional locations, such as airports, college campuses, military or government facilities;
- the challenge of identifying, recruiting and training qualified restaurant management;
- the inability to obtain all required permits;
- changes in laws, regulations and interpretations, including interpretations of the requirements of the Americans with Disabilities Act; and
- general economic and business conditions.

Although we manage our growth and development activities to help reduce such risks, we cannot assure that our present or future growth and development activities will perform in accordance with our expectations. Our inability to expand in accordance with our plans or to manage the risks associated with our growth could have a material adverse effect on our results of operations and financial condition.

Risks Related to Franchisee Financial and Business Operations. The opening and continued success of franchise restaurants depends on various factors, including the demand for our franchises, the selection of appropriate franchisee candidates, the identification and availability of suitable sites, negotiation of acceptable lease or purchase terms for new locations, permitting and regulatory compliance, the ability to meet construction schedules, the availability of financing, and the financial and other capabilities of our franchisees and developers. See “Growth and Development Risks” above. Despite our due diligence performed during the recruiting process, we cannot assure you that franchisees and developers planning the opening of franchise restaurants will have the business abilities or sufficient access to financial resources necessary to open the restaurants required by their agreements, or will prove to be effective operators and remain aligned with us on operations, pricing, promotional or capital-intensive initiatives.

Our franchisees are contractually obligated to operate their restaurants in accordance with all applicable laws and regulations, as well as standards set forth in our agreements with them. However, franchisees are independent third parties whom we cannot and do not control beyond the terms of our agreements with them. If franchisees do not successfully operate restaurants in an effective or profitable manner or consistent with applicable laws and required standards, royalty, and in some cases rent, payments to us may be adversely affected. If customers have negative perceptions or experiences with the operational execution, food quality or safety at our franchised locations, the image and reputation of our brands could be harmed, which in turn could negatively impact our business and operating results. Also, if franchisee employees have negative experiences and stage work stoppages or otherwise produce bad publicity, this could negatively impact brand equity.

With an increase in the proportion of Jack in the Box franchised restaurants, the percentage of our revenues derived from royalties and rents at Jack in the Box franchise restaurants has increased and is anticipated to continue to increase, as has the risk that earnings could be negatively impacted by defaults in the payment of royalties and rents. As small businesses, some of our franchise operators may be negatively and disproportionately impacted by strategic initiatives, capital requirements, inflation, labor costs, employee relations issues or other causes. In addition, franchisees’ business obligations may not be limited to the operation of Jack in the Box or Qdoba restaurants, making them subject to business and financial risks unrelated to the operation of our restaurants. These unrelated risks could adversely affect a franchisee’s ability to make payments to us or to make payments on a timely basis. We cannot assure that franchisees will successfully participate in our strategic or marketing initiatives or operate their restaurants in a

manner consistent with our concepts and standards. As compared to some of our competitors, our Jack in the Box brand has relatively fewer franchisees who, on average, operate more restaurants per franchisee. There are significant risks to our business if a franchisee, particularly one who operates a large number of restaurants, encounters financial difficulties or fails to adhere to our standards and projects an image inconsistent with our brands.

Risk Relating to Competition, Menu Innovation and Successful Execution of our Operational Strategies and Initiatives. As part of our long term business plan, in addition to growth through development of new restaurants, we are focused on increasing same-store sales and average unit volumes. These plans are subject to a number of risks and uncertainties, including risks related to competition, menu innovation and identification and execution of successful operational strategies and initiatives. The restaurant industry is highly competitive with respect to price, service, location, personnel, advertising, brand identification and the type, quality and appeal of menu items and new and differentiated service offerings. There are many well-established competitors. Each of our restaurants competes directly and indirectly with a large number of national and regional restaurant chains, as well as with locally-owned and/or independent quick-service restaurants, fast-casual restaurants, casual dining restaurants, sandwich shops and similar types of businesses. The trend toward convergence in grocery, deli and restaurant services has and may continue to increase the number of our competitors. Such increased competition could decrease the demand for our products and negatively affect our sales and profitability. Some of our competitors have substantially greater financial, marketing, operating and other resources than we have, which may give them a competitive advantage. Certain of our competitors have introduced a variety of new products and service offerings and engaged in substantial price discounting, and may adopt similar strategies in the future. In an effort to increase same-store sales and AUVs, we continue to make improvements to our facilities, to implement new service and training initiatives, and to introduce new products and discontinue other menu items. However, there can be no assurance that our facility improvements will foster increases in sales and yield the desired return on investment, that our service initiatives or our overall strategies will be successful, that our menu offerings and promotions will generate sufficient customer interest or acceptance to increase sales, or that competitive product offerings, pricing and promotions will not have an adverse effect upon our margins, sales results and financial condition. In addition, the success of our strategy depends on, among other factors, our ability to motivate restaurant personnel and franchisees to execute our initiatives and achieve sustained high service levels.

Advertising and Promotion Risks. Some of our competitors have greater financial resources, which enable them to purchase significantly more advertising, particularly television and radio ads, than we are able to purchase. Should our competitors increase spending on advertising and promotion, or should the cost of advertising increase or our advertising funds decrease for any reason, including reduced sales or implementation of reduced spending strategies, or should our advertising and promotion be less effective than our competitors, there could be a material adverse effect on our results of operations and financial condition. The growing prevalence and importance of social media platforms, behavioral advertising and mobile technology also pose challenges and risks for our marketing, advertising and promotional strategies. Failure to effectively use these platforms or technology could cause our advertising to be less effective than our competitors. Moreover, improper or damaging use of social media or mobile technology, including by our employees, franchisees, or guests could increase the Company's costs, lead to litigation or result in negative publicity that could also have a materially adverse effect on our results.

Taxes. Our income tax provision is sensitive to expected earnings and, as those expectations change, our income tax provisions may vary from quarter-to-quarter and year-to-year. In addition, from time to time, we may take positions for filing our tax returns that differ from the treatment for financial reporting purposes. The ultimate outcome of such positions could have an adverse impact on our effective tax rate.

Risks Related to Reducing Operating Costs. During the current and recent years, we have identified strategies and taken steps to reduce operating costs to align with increased Jack in the Box franchise ownership and to further integrate Jack in the Box and Qdoba brand restaurant systems. These strategies include outsourcing certain functions, reducing headcount, relocating the Qdoba corporate support center to San Diego and integrating restaurant information systems between our brands. The ability to reduce our operating costs through these initiatives is subject to risks and uncertainties, and we cannot assure that these activities, or any other activities that we may undertake in the future, will achieve the desired cost savings and efficiencies. Failure to achieve such desired savings, or business disruption resulting from these strategies, could adversely affect our results of operations and financial condition.

Risks Related to Loss of Key Personnel. We believe that our success will depend, in part, on our ability to attract and retain the services of skilled personnel, including key executives. The loss of services of any such personnel could

have a material adverse effect on our business.

Risks Related to Government Regulations, Including Regulations Increasing Labor Costs. The restaurant industry is subject to extensive federal, state and local governmental regulations as described in Item 1 under “Regulation.” We are subject to rules and regulations including but not limited to those related to:

- the preparation, ingredients, labeling, packaging, advertising and sale of food and beverages;

- building and zoning requirements;

- sanitation and safety standards;

- employee healthcare, including the implementation and legal, regulatory and cost implications of the Affordable Care Act;

labor and employment, including minimum wage adjustments, overtime, working conditions, employment eligibility and documentation, sick leave, and other employee benefit and fringe benefit requirements, Service Contract Act requirements for restaurants located on military bases, and changing judicial, administrative or regulatory interpretations of federal or state labor laws;

the registration, offer, sale, termination and renewal of franchises;

truth-in-advertising, consumer protection and the security of information;

Americans with Disabilities Act;

payment cards;

alcohol sales; and

climate change, including regulations related to the potential impact of greenhouse gases, water consumption, or a tax on carbon emissions.

The increasing amount and complexity of regulations and their interpretation may increase the costs to us and our franchisees of labor and compliance, and increase our exposure to legal and regulatory claims which, in turn, could have a material adverse effect on our business. While we strive to comply with all applicable existing statutory and administrative rules, we cannot predict the effect on operations from issuance of additional requirements in the future.

Risks Related to Computer Systems, Information Technology and Cyber Security. We and our franchisees rely on computer systems and information technology to conduct our business. A material failure or interruption of service, or a breach in security of our computer systems caused by malware or other attack, could cause reduced efficiency in operations, loss or misappropriation of data, or business interruptions, or could impact delivery of food to restaurants or financial functions such as vendor payment or employee payroll. We have business continuity plans that attempt to anticipate and mitigate such failures, but it is possible that significant capital investment could be required to rectify these problems, or more likely that cash flows could be impacted.

We have instituted controls intended to protect our computer systems, our point of sale (“POS”) systems, and our information technology systems, to adhere to payment card industry data security standards and to limit third party access for vendors that require access to our restaurant networks. However, we cannot control every security risk, particularly those affecting our franchise locations which are independent businesses. Our security architecture is decentralized, such that payment card information is primarily confined to the restaurant where the specific transaction took place. However, a security breach involving our POS, personnel, franchise operations reporting or other systems could result in disclosure or theft of confidential customer or employee or other proprietary data, and potentially cause loss of consumer confidence or potential costs, fines and litigation, including costs associated with reputational damage, consumer fraud or privacy breach. These risks may be magnified by the increased use of mobile communications and other new technologies, and are subject to increased and changing regulations. The costs of compliance and risk mitigation planning, including increased investment in technology or personnel in order to protect valuable business or consumer information, may negatively impact our results of operations.

Risks Related to the Failure of Internal Controls Over Financial Reporting. We maintain a documented system of internal controls over financial reporting, which is reviewed and monitored by an Internal Controls Committee and tested by the Company’s full-time Internal Audit Department. The Internal Audit Department reports to the Audit Committee of the Board of Directors. We believe we have a well-designed system to maintain adequate internal controls over financial reporting; however, we cannot be certain that our controls will be adequate in the future or that adequate controls will be effective in preventing or detecting all error and all fraud. A control system, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that the control system’s objectives will be met. The design of any system of controls is based in part on certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. If our internal controls are ineffective, we may not be able to accurately report our financial results or prevent fraud. Any failures in the effectiveness of our internal controls could have a material adverse effect on our operating results or cause us to fail to meet reporting obligations.

Environmental and Land Risks and Regulations. We own or lease the real properties on which our Jack in the Box company-operated restaurants are located, and we either own or lease (and subsequently lease/sublease to the

franchisee) a majority of our Jack in the Box franchised restaurant sites. We also own or lease the real properties upon which our company-operated Qdoba restaurants are located, and lease (and subsequently sublease to the franchisee) one of our Qdoba franchised restaurant sites. Further, we own our principal executive offices, our Innovation Center and approximately four acres of undeveloped land directly adjacent to the Innovation Center, and lease the Qdoba corporate support center and some regional office space. We have engaged and continue to engage in real estate development projects. As is the case with any owner or operator of real property, we are subject to eminent domain proceedings that can impact the value of investments we have made in real property, and we are subject to other potential liabilities and damages arising out of owning, operating, leasing or otherwise having interests in real property. In addition, we are subject to a variety of federal, state and local governmental regulations relating to the use, storage, discharge, emission and disposal of hazardous materials. Failure to comply with environmental laws could result in the imposition by governmental agencies or courts of law of severe penalties or restrictions on our operations. We are unaware of any significant h

azards for which we are responsible on properties we own or have owned, or operate or have operated. Accordingly, we do not have environmental liability insurance for our restaurants, nor do we maintain a reserve to cover such events. In the event of the determination of contamination on such properties, the Company, as owner or operator, could be held liable for severe penalties and costs of remediation, and this could result in material liability.

Risks Related to Leverage. As of October 2, 2016, the Company has a credit facility comprised of a \$900.0 million revolving credit agreement and a \$700.0 million term loan. We may also request the issuance of up to \$75.0 million in letters of credit, the outstanding amount of which reduces our net borrowing capacity under the credit agreement. For additional information related to our credit facility, refer to Note 7, Indebtedness, of the notes to the consolidated financial statements. Increased leverage resulting from borrowings under our credit facility could have certain material adverse effects on the Company, including but not limited to the following:

- our ability to obtain additional financing in the future for working capital, capital expenditures, acquisitions and general corporate or other purposes could be impaired, or any such financing may not be available on terms favorable to us;

- a substantial portion of our cash flows could be required for debt service and, as a result, might not be available for our operations or other purposes;

- any substantial decrease in net operating cash flows or any substantial increase in expenses could make it difficult for us to meet our debt service requirements or could force us to modify our operations or sell assets;

- our ability to operate our business and our ability to repurchase stock or pay cash dividends to our stockholders may be restricted by the financial and other covenants set forth in the credit facility;

- our ability to withstand competitive pressures may be decreased; and

- our level of indebtedness may make us more vulnerable to economic downturns and reduce our flexibility in responding to changing business, regulatory and economic conditions.

Our ability to repay expected borrowings under our credit facility and to meet our other debt or contractual obligations (including compliance with applicable financial covenants) will depend upon our future performance and our cash flows from operations, both of which are subject to prevailing economic conditions and financial, business and other known and unknown risks and uncertainties, certain of which are beyond our control. In addition, to the extent that banks in our revolving credit facility become insolvent, our ability to borrow to the full level of our facility could be limited.

Risks of Market Volatility. Many factors affect the trading price of our stock, including factors over which we have no control, such as reports on the economy, the industry or the price of commodities, as well as negative or positive announcements by competitors, regardless of whether the report relates directly to our business. In addition to investor expectations about our prospects, trading activity in our stock can reflect the portfolio strategies and investment allocation changes of institutional holders and non-operating initiatives such as a share repurchase program. Any failure to meet market expectations whether for sales, growth rates, refranchising goals, earnings per share or other metrics could cause our share price to drop.

Risks of Changes in Accounting Policies and Assumptions. Changes in accounting standards, policies or related interpretations by accountants or regulatory entities may negatively impact our results. Many accounting standards require management to make subjective assumptions and estimates, such as those required for long-lived assets, retirement benefits, self-insurance, restaurant closing costs, goodwill and other intangibles, legal accruals, and income taxes. Changes in those underlying assumptions and estimates could significantly change our results.

Litigation. We are subject to complaints or litigation brought by former, current or prospective employees, customers, franchisees, vendors, landlords, shareholders or others. We assess contingencies to determine the degree of probability and range of possible loss for potential accrual in our financial statements. An estimated loss contingency is accrued if it is probable that a liability has been incurred and the amount of loss can be reasonably estimated. Because lawsuits are inherently unpredictable and unfavorable resolutions could occur, assessing contingencies is highly subjective and requires judgments about future events. We regularly review contingencies to determine the adequacy of the accruals and related disclosures. However, the amount of ultimate loss may differ from these estimates. A judgment that is not

covered by insurance or that is significantly in excess of our insurance coverage for any claims could materially adversely affect our financial condition or results of operations. In addition, regardless of whether any claims against us are valid or whether we are found to be liable, claims may be expensive to defend, and may divert management's attention away from operations and hurt our performance. Further, adverse publicity resulting from claims against us or our franchisees may harm our business or that of our franchisees.

ITEM 1B. UNRESOLVED STAFF COMMENTS

None.

15

ITEM 2. PROPERTIES

The following table sets forth information regarding our operating Jack in the Box and Qdoba restaurant properties as of October 2, 2016:

	Company- Operated	Franchise	Total
Company-owned restaurant buildings:			
On company-owned land	44	182	226
On leased land	135	506	641
Subtotal	179	688	867
Company-leased restaurant buildings on leased land	605	924	1,529
Franchise directly-owned or directly-leased restaurant buildings	—	558	558
Total restaurant buildings	784	2,170	2,954

Our restaurant leases generally provide for fixed rental payments (with cost-of-living index adjustments) plus real estate taxes, insurance and other expenses. In addition, approximately 15% of our leases provide for contingent rental payments between 1% and 15% of the restaurant's gross sales once certain thresholds are met. We have generally been able to renew our restaurant leases as they expire at then-current market rates. The remaining terms of ground leases range from approximately less than one year to 52 years, including optional renewal periods. The remaining lease terms of our other leases range from approximately less than one year to 41 years, including optional renewal periods. As of October 2, 2016, our restaurant leases had initial terms expiring as follows:

Fiscal Year	Number of Restaurants	
	Ground Leases	Land and Building Leases
2017 – 2021	295	758
2022 – 2026	219	542
2027 – 2031	111	166
2032 and later	16	63

Our principal executive offices are located in San Diego, California in an owned facility of approximately 150,000 square feet. We also own our 70,000 square foot Innovation Center and approximately four acres of undeveloped land directly adjacent to it. Qdoba's corporate support center is located in a leased facility in Lakewood, Colorado, that we plan to exit during the first quarter of 2017, relocating all operations to San Diego. We believe our principal executive offices and Innovation Center are suitable and adequate for our present purposes.

ITEM 3. LEGAL PROCEEDINGS

See Note 15, Commitments, Contingencies and Legal Matters, of the notes to the consolidated financial statements for a discussion of our legal proceedings.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

PART II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

Market Information. Our common stock is traded on the Nasdaq Global Select Market under the symbol "JACK." The following table sets forth the high and low sales prices for our common stock during the fiscal quarters indicated, as reported on the NASDAQ — Composite Transactions:

	13 Weeks Ended	12 Weeks Ended	16 Weeks Ended	
	October 2, 2016	July 3, 2016	April 10, 2016	January 17, 2016
High	\$102.68	\$88.65	\$78.87	\$82.20
Low	\$83.64	\$64.30	\$61.78	\$69.60
	12 Weeks Ended		16 Weeks Ended	
	September 7, 2015	July 5, 2015	April 12, 2015	January 18, 2015
High	\$98.26	\$96.40	\$99.99	\$87.50
Low	\$63.94	\$85.30	\$81.56	\$63.84

Dividends. During the third quarter of fiscal 2014, the Board of Directors approved the initiation of a regular quarterly cash dividend. In fiscal 2016, the Board of Directors declared four cash dividends of \$0.30 per share each. In fiscal 2015, we declared two cash dividends of \$0.20 per share each, and two cash dividends of \$0.30 per share each. In fiscal 2014, we declared two cash dividends of \$0.20 per share each. Our dividend is subject to the discretion and approval of our Board of Directors and our compliance with applicable law, and depends upon, among other things, our results of operations, financial condition, level of indebtedness, capital requirements, contractual restrictions, restrictions in our credit agreement and other factors that our Board of Directors may deem relevant.

Stock Repurchases. The following table summarizes shares repurchased during the quarter ended October 2, 2016. The average price paid per share in column (b) below does not include the cost of brokerage fees:

	(a) Total Number of Shares Purchased	(b) Average Price Paid Per Share	(c) Total Number of Shares Purchased as Part of Publicly Announced Programs	(d) Maximum Dollar Value That May Yet Be Purchased Under These Programs
July 4, 2016 - July 31, 2016	—	\$ —	—	\$150,025,646
August 1, 2016 - August 28, 2016	—	\$ —	—	\$150,025,646
August 29, 2016 - October 2, 2016	425,254	\$ 98.42	425,254	\$408,172,440
Total	425,254	\$ —	425,254	

Stockholders. As of November 18, 2016, there were 493 stockholders of record.

Securities Authorized for Issuance Under Equity Compensation Plans. The following table summarizes the equity compensation plans under which Company common stock may be issued as of October 2, 2016. Stockholders of the Company have approved all plans requiring such approval.

	(a) Number of securities to be issued upon exercise of outstanding options, warrants and rights (1)	(b) Weighted-average exercise price of outstanding options (1)	(c) Number of securities remaining for future issuance under equity compensation plans (excluding securities reflected in column (a))
Equity compensation plans approved by security holders (2)	965,160	\$61.73	2,465,612

Includes shares issuable in connection with our outstanding stock options, performance share awards, nonvested (1) stock awards and units, and non-management director deferred stock equivalents. The weighted-average exercise price in column (b) includes the weighted-average exercise price of stock options.

(2) For a description of our equity compensation plans, refer to Note 12, Share-Based Employee Compensation, of the notes to the consolidated financial statements.

Performance Graph. The following graph compares the cumulative return to holders of the Company's common stock at September 30th of each year to the yearly weighted cumulative return of a Peer Group Index and to the Standard & Poor's ("S&P") 500 Index for the same period. As it does every year, the Compensation Committee of the Board of Directors (the "Committee") reviews the make-up of the Peer Group as part of its process of setting the compensation of our executive officers. Working closely with its independent compensation consultant, and considering anticipated Company revenues, the Committee approved changes to the Peer Group to remove Ruby Tuesday, Inc. due to its size being relatively smaller than other members of the Peer Group based on defined criteria (i.e., revenue, market capitalization, and system-wide sales), and added Papa John's International, Inc, which more closely meets the established criteria for our Peer Group. The below comparison assumes \$100 was invested on September 30, 2011 in the Company's common stock and in the comparison groups and assumes reinvestment of dividends. The Company paid dividends beginning in fiscal 2014.

	2011	2012	2013	2014	2015	2016
Jack in the Box Inc.	\$100	\$141	\$201	\$345	\$394	\$498
S&P 500 Index	\$100	\$130	\$155	\$186	\$185	\$213
Old Peer Group (1)	\$100	\$130	\$174	\$219	\$257	\$219
New Peer Group (2)	\$100	\$132	\$177	\$224	\$266	\$232

The Old Peer Group Index comprises the following companies: Brinker International, Inc.; Buffalo Wild Wings, Inc.; Chipotle Mexican Grill Inc.; Cracker Barrel Old Country Store, Inc.; DineEquity, Inc.; Domino's Pizza, Inc.; (1) Panera Bread Company; Ruby Tuesday, Inc.; Sonic Corp.; The Cheesecake Factory Inc.; and The Wendy's Company.

The New Peer Group Index comprises the following companies: Brinker International, Inc.; Buffalo Wild Wings, Inc.; Chipotle Mexican Grill Inc.; Cracker Barrel Old Country Store, Inc.; DineEquity, Inc.; Domino's Pizza, Inc.; (2) Panera Bread Company; Papa John's Int'l, Inc.; Sonic Corp.; The Cheesecake Factory Inc.; and The Wendy's Company.

ITEM 6. SELECTED FINANCIAL DATA

Our fiscal year is 52 or 53 weeks, ending the Sunday closest to September 30. All years presented below include 52 weeks, except for 2016 which includes 53 weeks. The selected financial data reflects, as discontinued operations, 62 closed Qdoba stores and our distribution business for all years presented. This selected financial data should be read in conjunction with our audited consolidated financial statements and accompanying notes and Management's Discussion and Analysis of Financial Condition and Results of Operations included elsewhere in this Annual Report on Form 10-K. Our consolidated financial information may not be indicative of our future performance.

	Fiscal Year					
	2016	2015	2014	2013	2012

(1) Financial data was extracted or derived from our audited financial statements.

(2) Weighted-average shares reflect the impact of common stock repurchases under Board-approved programs.

Changes in same-store sales and average unit volumes are presented for franchise restaurants and on a system-wide basis, which includes company and franchise restaurants. Franchise sales represent sales at franchise restaurants and are revenues of our franchisees. We do not record franchise sales as revenues; however, our royalty revenues and percentage rent revenues are calculated based on a percentage of franchise sales. We believe franchise and

(3) system sales growth and average unit volume information is useful to investors as a significant indicator of the overall strength of our business as it incorporates our significant revenue drivers which are company and franchise same-store sales as well as net unit development. Company, franchise and system changes in same-store sales include the results of all restaurants that have been open more than one year.

(4) 2016 average unit volume is adjusted to exclude the 53rd week for the purpose of comparison to prior years.

(5) In 2016, the Company began to accumulate a stockholders' deficit related to the execution of our share repurchase programs authorized by our Board of Directors.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

GENERAL

For an understanding of the significant factors that influenced our performance during the past three fiscal years, we believe our Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A") should be read in conjunction with the consolidated financial statements and related notes included in this annual report as indexed on page F-1.

Comparisons under this heading refer to the 53-week period ended October 2, 2016, and 52-week periods ended September 27, 2015 and September 28, 2014 for fiscal years 2016, 2015 and 2014, respectively, unless otherwise indicated.

Our MD&A consists of the following sections:

• **Overview** — a general description of our business and fiscal 2016 highlights.

• **Financial reporting** — a discussion of changes in presentation, if any.

• **Results of operations** — an analysis of our consolidated statements of earnings for the three years presented in our consolidated financial statements.

• **Liquidity and capital resources** — an analysis of cash flows including pension and postretirement health contributions, capital expenditures, our credit facility, share repurchase activity, dividends, aggregate contractual obligations, known trends that may impact liquidity, and the impact of inflation, if applicable.

• **Discussion of critical accounting estimates** — a discussion of accounting policies that require critical judgments and estimates.

• **New accounting pronouncements** — a discussion of new accounting pronouncements, dates of implementation and the impact on our consolidated financial position or results of operations, if any.

We have included in our MD&A certain performance metrics that management uses to assess company performance and which we believe will be useful in analyzing and understanding our results of operations. These metrics include the following:

Changes in sales at restaurants open more than one year ("same-store sales") and average unit volumes ("AUVs") are presented for franchised restaurants and on a system-wide basis, which includes company and franchise restaurants.

• **Franchise sales** represent sales at franchise restaurants and are revenues of our franchisees. We do not record franchise sales as revenues; however, our royalty revenues and percentage rent revenues are calculated based on a percentage of franchise sales. We believe franchise and system same-store sales and AUV information is useful to investors as a significant indicator of the overall strength of our business.

• **Company restaurant margin** ("restaurant margin") is defined as company restaurant sales less expenses incurred directly by our restaurants in generating those sales (food and packaging costs, payroll and employee benefits costs, and occupancy and other costs). We also present restaurant margin as a percentage of company restaurant sales.

• **Franchise margin** is defined as franchise rental revenues and franchise royalties and other, less franchise occupancy expenses, and franchise support and other costs, and is also presented as a percentage of franchise revenues.

Same-store sales, AUVs, restaurant margin, and franchise margin are not measurements determined in accordance with generally accepted accounting principles ("GAAP") and should not be considered in isolation, or as an alternative to income from operations, or other similarly titled measures of other companies.

OVERVIEW

As of October 2, 2016, we operated and franchised 2,255 Jack in the Box quick-service restaurants, primarily in the western and southern United States, including one in Guam, and 699 Qdoba fast-casual restaurants operating primarily throughout the United States as well as the District of Columbia and Canada.

Our primary source of revenue is from retail sales at Jack in the Box and Qdoba company-operated restaurants. We also derive revenue from Jack in the Box and Qdoba franchise restaurants, including rental revenue, royalties (based upon a percent of sales) and franchise fees. In addition, we recognize gains or losses from the sale of company-operated restaurants to franchisees, which are included as a line item within operating costs and expenses,

net in the accompanying consolidated statements of earnings.

21

The following summarizes the most significant events occurring in fiscal 2016, and certain trends compared to prior years:

Same-Store Sales — Same-store sales were flat at company-operated Jack in the Box restaurants as the impact of menu price increases offset a decline in transactions. Qdoba's same-store sales increase of 1.7% at company-operated restaurants was driven primarily by transaction growth, menu price increases and catering.

Commodity Costs — Commodity costs decreased approximately 3.0% and 4.4% in 2016 at our Jack in the Box and Qdoba restaurants, respectively, compared with a year ago. Beef represents the largest portion, or approximately 20%, of the Company's overall commodity spend. We typically do not enter into fixed price contracts for our beef needs. In 2017, we currently expect our beef costs to be slightly deflationary as compared to fiscal 2016. We expect our overall commodity costs in fiscal 2017 to be approximately flat to down 1% at both our Jack in the Box and Qdoba restaurants.

Restaurant Margins — Our consolidated company-operated restaurant margin decreased in 2016 to 20.2% from 20.4% in 2015. Jack in the Box's company-operated restaurant margin improved in 2016 to 21.2% from 20.7% in 2015 due primarily to lower costs for food and packaging and benefits of refranchising, partially offset by minimum wage increases in California that went into effect in January 2016, and by higher costs for equipment upgrades. Restaurant margins at our Qdoba company-operated restaurants decreased in 2016 to 18.1% from 19.7% in 2015 primarily reflecting an increase in new restaurant activity, unfavorable product mix including higher levels of discounting, and higher costs for equipment upgrades.

Jack in the Box Franchising Program — In 2016, Jack in the Box franchisees opened a total of 12 restaurants. Our Jack in the Box system was 82% franchised at the end of fiscal 2016. We plan to increase franchise ownership of the system to over 90%. In fiscal 2017, we expect to open approximately 20-25 new Jack in the Box restaurants, the majority of which will be franchise locations.

Qdoba New Unit Growth — In 2016 we opened 35 company-operated restaurants and franchisees opened 18 restaurants of which six were in non-traditional locations such as airports and college campuses. In fiscal 2017, 60-70 new Qdoba restaurants are expected to open system-wide, of which approximately 40 are expected to be company-operated locations

Restructuring Costs — In 2016, we announced a plan to reduce our general and administrative costs. In connection with this plan, we have recorded \$10.1 million of restructuring charges which are included in impairment and other charges, net in the accompanying consolidated statements of earnings.

Pension Contribution — In September 2016, we made an \$80.0 million tax-deductible accelerated contribution to our qualified defined benefit pension plan to reduce future pension costs including our exposure to Pension Benefit Guaranty Corporation ("PBGC") variable-rate premiums that are paid on the unfunded portion of our pension liability, and to improve the funded status of the plan.

Credit Facility — In September 2016, we amended our existing credit facility to increase our overall borrowing capacity by \$400.0 million to \$1.6 billion, consisting of a \$900.0 million revolving credit agreement and a \$700.0 million term loan, both maturing in March 2019.

Return of Cash to Shareholders — During 2016, we continued to return cash to shareholders in the form of share repurchases and quarterly cash dividends. We repurchased 3.9 million shares of our common stock at an average price of \$75.29 per share, totaling \$291.9 million, including the cost of brokerage fees. We also declared dividends of \$1.20 per share totaling \$40.5 million.

FINANCIAL REPORTING

During fiscal 2012, we entered into an agreement to outsource our Jack in the Box distribution business. In fiscal 2013, we closed 62 Qdoba restaurants (the "2013 Qdoba Closures") as part of a comprehensive Qdoba market performance review. All charges related to our distribution business and the 2013 Qdoba Closures are reported as discontinued operations for all periods presented. Refer to Note 2, Discontinued Operations, in the notes to consolidated financial statements for additional information. Unless otherwise noted, amounts and disclosures throughout our MD&A relate to our continuing operations.

In 2016, we adopted an Accounting Standards Update which simplifies the presentation of deferred income taxes and requires deferred tax liabilities and assets to be classified as non-current in a classified statement of financial position. Upon adoption, we retrospectively applied the new standard which resulted in a \$40.0 million reclassification of current deferred income taxes to other assets, net on our September 27, 2015 consolidated balance sheet. Refer to Note 1, Nature of Operations and Summary of Significant Accounting Policies, in the notes to consolidated financial statements for more information.

RESULTS OF OPERATIONS

The following table presents certain income and expense items included in our consolidated statements of earnings as a percentage of total revenues, unless otherwise indicated. Percentages may not add due to rounding.

CONSOLIDATED STATEMENTS OF EARNINGS DATA

Jack in the Box Brand

Company Restaurant Operations

The following table presents Jack in the Box company restaurant sales, costs and margin, and restaurant costs and margin as a percentage of the related sales. Percentages may not add due to rounding (dollars in thousands):

	2016	2015	2014			
Company restaurant sales	\$789,040	\$782,525	\$782,461			
Company restaurant costs:						
Food and packaging	235,538	29.9%	247,931	31.7%	254,891	32.6%
Payroll and employee benefits	223,019	28.3%	215,598	27.6%	218,000	27.9%
Occupancy and other	162,869	20.6%	157,281	20.1%	164,433	21.0%
Total company restaurant costs	621,426	78.8%	620,810	79.3%	637,324	81.5%
Restaurant margin	\$167,614	21.2%	\$161,715	20.7%	\$145,137	18.5%

Company restaurant sales increased \$6.5 million in 2016 and \$0.1 million in 2015 as compared with the respective prior year. In 2016, higher AUVs and additional sales from a 53rd week in 2016 were partially offset by a decrease in sales attributable to the execution of our refranchising strategy which includes the sale of restaurants to franchisees. In 2015, higher AUV growth was offset by a decrease in the average number of company-operated restaurants related to the execution of our refranchising strategy. The following table presents the approximate impact of these increases (decreases) on Jack in the Box company restaurant sales (in millions):

	2016	2015
	vs.	vs.
	2015	2014
Decrease in the average number of restaurants	\$(13.9)	\$(68.7)
AUV increase	5.3	68.8
53rd week	15.1	—
Total increase in company restaurant sales	\$6.5	\$0.1

Same-store sales at Jack in the Box company-operated restaurants were flat in 2016 compared with 2015 as menu price increases were offset by a decline in transactions. In 2015, menu price increases, favorable product mix changes and an increase in transactions drove same-store sales 5.1% higher than the prior year. The following table summarizes the change in company-operated same-store sales:

	Increase/(Decrease)			
	2016 vs. 2015		2015 vs. 2014	
Average check (1)	2.9	%	4.2	%
Transactions	(2.9))%	0.9	%
Change in same-store sales	0.0	%	5.1	%

(1) Includes price increases of approximately 3.0% and 2.2% in 2016 and 2015, respectively.

Food and packaging costs as a percentage of company restaurant sales decreased to 29.9% in 2016 from 31.7% in 2015, and 32.6% in 2014. In 2016, the decrease was driven by lower commodity costs, favorable product mix, and menu price increases. In 2015, the benefits of menu price increases and product mix changes more than offset higher commodity costs.

In 2016, commodity costs decreased 3.0% as lower costs for beef were partially offset by higher costs for pork, poultry and produce. Beef decreased most significantly by approximately 18% in 2016 compared with a 10% increase in 2015 versus the prior year. In 2015, commodity costs increased 1.3% as higher costs for beef, eggs and produce were partially offset by lower costs for pork and shortening. For fiscal 2017, we currently expect commodity costs to be approximately flat to down 1% at Jack in the Box restaurants as compared with fiscal 2016.

Payroll and employee benefit costs as a percentage of company restaurant sales increased to 28.3% in 2016 from 27.6% in 2015, which decreased from 27.9% in 2014. In 2016, higher wages from minimum wage increases were partially offset by lower levels of incentive compensation driven by operating results, and by the benefits of refranchising. In 2015, sales leverage, the benefits of refranchising and lower costs for group insurance driven by favorable claim trends were partially offset by higher wages from minimum wage increases, unfavorable development trends associated with workers' compensation claims, and an increase in incentive compensation driven by strong operating performance.

As a percentage of company restaurant sales, occupancy and other costs increased to 20.6% in 2016 from 20.1% in 2015, which decreased from 21.0% in 2014. In 2016, the increase is related to higher costs for equipment upgrades, and maintenance and repair expenses, partially offset by lower costs for utilities and the benefits of refranchising. The decrease in 2015 was related to sales leverage and the benefits of refranchising, partially offset by higher costs for credit card fees, maintenance and repair expenses and equipment costs due to beverage and technology upgrades at our restaurants.

Jack in the Box Franchise Operations

The following table presents Jack in the Box franchise revenues, costs, and margin in each fiscal year and other information we believe is useful in analyzing the change in franchise operating results (dollars in thousands):

	2016	2015	2014	
Franchise rental revenues	\$232,794	\$226,494	\$216,944	
Royalties	138,424	133,726	124,538	
Re-image contributions to franchisees	—	—	(22)
Franchise fees and other	2,000	2,431	3,323	
Franchise royalties and other	140,424	136,157	127,839	
Total franchise revenues	373,218	362,651	344,783	
Rental expense	137,706	136,782	134,975	
Depreciation and amortization	32,344	33,128	33,844	
Franchise occupancy expenses	170,050	169,910	168,819	
Franchise support and other costs	11,107	11,726	10,052	
Total franchise costs	181,157	181,636	178,871	
Franchise margin	\$192,061	\$181,015	\$165,912	
Franchise margin as a % of franchise revenue	51.5	% 49.9	% 48.1	%
Average number of franchise restaurants	1,838	1,828	1,794	
% increase	0.5	% 1.9	% 4.2	%
Franchise restaurant AUV (1)	\$1,454	\$1,429	\$1,337	
Increase in franchise-operated same-store sales	1.6	% 7.0	% 2.0	%
Royalties as a percentage of franchise restaurant sales	5.1	% 5.1	% 5.2	%

(1) 2016 AUV is adjusted to exclude the 53rd week for the purpose of comparison to prior years.

Franchise rental revenues increased \$6.3 million, or 2.8%, in 2016, and \$9.6 million, or 4.4%, in 2015 as compared with the respective prior year, primarily reflecting higher AUVs resulting in an increase in revenues from percentage rent, and increased rental income due to routine rent increases. In 2016, additional rent revenue of approximately \$4.4 million from a 53rd week also contributed to the increase.

Franchise royalties and other increased \$4.3 million, or 3.1%, in 2016, and \$8.3 million, or 6.5%, in 2015 versus the respective prior year, primarily reflecting an increase in royalties driven by higher AUVs and, in 2016, additional royalties of approximately \$2.6 million from a 53rd week. These increases were partially offset by a reduction in franchise fees of \$0.1 million and \$0.7 million in 2016 and 2015, respectively.

Franchise occupancy expenses, principally rents and depreciation on properties subleased or leased to franchisees, increased \$0.1 million in 2016 and \$1.1 million in 2015. In 2016, the increase relates to routine rent increases contributing to higher rental expense, and additional expenses of approximately \$3.2 million from a 53rd week. These increases were partially offset by lower depreciation expense as our building assets become fully depreciated and favorable lease commitment adjustments of \$1.9 million related to previously refranchised markets based on sales performance over the first year resulting in higher rent. In 2015, the increase was due to higher rental expense related to customary rent increases partially offset by a decrease in depreciation expense related to building assets becoming fully depreciated, which more than offset the additional depreciation expense driven by our refranchising strategy. Franchise support and other costs decreased \$0.6 million in 2016, and increased \$1.7 million in 2015 as compared with the respective prior year. In 2016, costs decreased due to a decrease in bad debt expense and incentive compensation. In 2015, costs increased due to an increase in the average number of franchise restaurants and the

recognition of bad debt expense of \$0.8 million.

Qdoba Brand

Company Restaurant Operations

The following table presents Qdoba company restaurant sales, costs and margin, and restaurant costs and margin as a percentage of the related sales. Percentages may not add due to rounding (dollars in thousands):

	2016		2015		2014	
Company restaurant sales	\$415,495		\$374,338		\$338,451	
Company restaurant costs:						
Food and packaging	127,464	30.7%	114,057	30.5%	102,447	30.3%
Payroll and employee benefits	111,451	26.8%	97,704	26.1%	90,494	26.7%
Occupancy and other	101,289	24.4%	88,742	23.7%	83,428	24.6%
Total company restaurant costs	340,204	81.9%	300,503	80.3%	276,369	81.7%
Restaurant margin	\$75,291	18.1%	\$73,835	19.7%	\$62,082	18.3%

Company restaurant sales increased \$41.2 million in 2016 and \$35.9 million in 2015 as compared with the respective prior year. The increase in 2016 is primarily related to an increase in the average number of Qdoba company-operated restaurants, and to a lesser extent, growth in AUVs, and additional sales from a 53rd week. In 2015, the increase was driven by growth in AUVs, and to a lesser extent, to an increase in the average number of restaurants. The following table presents the approximate impact of these increases on company restaurant sales (in millions):

	2016	2015
	vs.	vs.
	2015	2014
Increase in the average number of restaurants	\$29.6	\$10.0
AUV increase	3.4	25.9
53rd week	8.2	—
Total increase in company restaurant sales	\$41.2	\$35.9

Same-store sales at Qdoba company-operated restaurants increased 1.7% in 2016 and 8.3% in 2015. In 2016, the increase was driven by transaction growth resulting from increased discounting, menu price increases and catering. In 2015, the increase in same-store sales was primarily driven by the new simplified menu pricing structure, and growth in catering sales. The following table summarizes the change in company-operated same-store sales:

	Increase/(Decrease)			
	2016 vs.	2015 vs.	2015	2014
	2015	2014		
Transactions	1.5 %	(0.1)%		
Average check (1)	(0.4)%	7.3 %		
Catering	0.6 %	1.1 %		
Increase in same-store sales	1.7 %	8.3 %		

(1)Includes price increases of approximately 1.0% and 0.2% in 2016 and 2015, respectively.

Food and packaging costs as a percentage of company restaurant sales increased to 30.7% in 2016 from 30.5% in 2015, and 30.3% in 2014. In 2016, unfavorable product mix and higher discounting were partially offset by the benefit of lower commodity costs. In 2015, higher commodity costs were partially offset by the benefits from the new pricing structure.

In 2016, commodity costs decreased 4.4% at our Qdoba company-operated restaurants primarily due to lower costs for beef and poultry. Beef costs decreased most significantly by approximately 12% in 2016 compared with a 12% increase in 2015 versus the respective prior year. In 2015, commodity costs increased 1.4% due to higher costs for beef, partially offset by lower costs for produce, pork and beans. For fiscal 2017, we currently expect Qdoba commodity costs to be approximately flat to down 1% compared with fiscal 2016.

Payroll and employee benefit costs as a percentage of company restaurant sales increased to 26.8% in 2016 from 26.1% in 2015, which decreased from 26.7% in 2014. The increase in 2016 is driven primarily by an increase in new restaurant openings and higher costs for workers' compensation insurance as well as increases in labor staffing. In 2015, the decline primarily relates to leverage from same-store sales increases and lower levels of incentive compensation, partially offset by increases in labor staffing.

As a percentage of company restaurant sales, occupancy and other costs increased to 24.4% in 2016, from 23.7% in 2015, which decreased from 24.6% in 2014. In 2016, the increase is related to higher costs for equipment upgrades, higher per store average property rents associated with new restaurants, and higher costs for uniforms, which were partially offset by lower costs for utilities. In 2015, the decrease was primarily due to sales leverage, partially offset by higher costs for credit card fees, property rent, and start up costs associated with a new catering call center.

Qdoba Franchise Operations

The following table presents Qdoba franchise revenues, costs, and margin in each fiscal year and other information we believe is useful in analyzing the change in franchise operating results (dollars in thousands):

	2016	2015	2014		
Franchise rental revenues	\$113	\$208	\$238		
Royalties	20,090	19,033	16,448		
Franchise fees and other	1,375	1,562	1,750		
Franchise royalties and other	21,465	20,595	18,198		
Total franchise revenues	21,578	20,803	18,436		
Rental expense (1)	102	192	215		
Franchise support and other costs	4,884	3,962	3,800		
Total franchise costs	4,986	4,154	4,015		
Franchise margin	\$16,592	\$16,649	\$14,421		
Franchise margin as a % of franchise revenue	76.9	% 80.0	% 78.2	%	
Average number of franchise restaurants	343	333	322		
% increase	3.0	% 3.4	% 3.5	%	
Franchise restaurant AUV (2)	\$1,150	\$1,140	\$1,028		
Increase in franchise-operated same-store sales	1.1	% 10.4	% 6.3	%	
Royalties as a percentage of franchise restaurant sales	5.0	% 5.0	% 5.0	%	

(1) Included in franchise occupancy expenses in the accompanying consolidated statements of earnings.

(2) 2016 AUV is adjusted to exclude the 53rd week for the purpose of comparison to prior years.

Franchise royalties and other increased \$0.9 million, or 4.2%, in 2016 and \$2.4 million, or 13.2%, in 2015 as compared with the respective prior year. Increases in both years primarily relate to an increase in the average number of franchise restaurants, and to a lesser extent, higher AUVs resulting in an increase in revenue from royalties. In 2016, additional revenues of approximately \$0.4 million from a 53rd week also contributed to the increase.

Franchise support and other costs increased \$0.9 million in 2016 and \$0.2 million in 2015 in comparison with the respective prior year. In 2016, the increase is primarily due to bad debt expense of \$0.2 million and an increase in franchise support costs.

Selling, general and administrative (“SG&A”) expenses

The following table presents the change in SG&A expenses in each fiscal year compared with the prior year (in thousands):

	(Decrease)/Increase	
	2016 vs. 2015	2015 vs. 2014
Incentive compensation (including share-based compensation and related payroll taxes)	\$(5,839)) \$3,851
Pension and postretirement benefits	(5,265)) 4,989
Cash surrender value of COLI policies, net	(3,486)) 3,833
Legal settlement	(2,543)) —

Edgar Filing: JACK IN THE BOX INC /NEW/ - Form 10-K

Insurance	3,423	(1,163)
Advertising	886	(982)
53rd week	2,970	—
Other	(3,992)	4,567
	\$(17,329)	\$14,357

28

In 2016, incentive compensation decreased due primarily to forfeitures related to workforce reductions associated with our restructuring plan, and to a lesser extent, lower levels of performance at both brands as compared to target bonus levels. In 2015, the higher levels of incentive compensation reflects improvements in the Company's results compared with performance goals. Higher incentive compensation in 2015 also relates to an increase in share-based compensation due to our annual grant of nonvested restricted stock units which vest over five years. As 2015 was our fifth year of offering such grants, we expensed one additional year of grants compared with the respective prior year. Pension and postretirement benefit costs decreased primarily due to the sunseting of our qualified pension plan on December 31, 2015, resulting in a decrease in the service cost component of our expense and a change in the amortization period for actuarial gains and losses from the average remaining service period to the average future lifetime of all participants. To a lesser extent, an increase in our discount rate also contributed to the decrease. These decreases were partially offset by an increase in PBGC premiums for 2016.

The cash surrender value of our Company-owned life insurance ("COLI") policies, net of changes in our non-qualified deferred compensation obligation supported by these policies, are subject to market fluctuations. The changes in market values had a positive impact of \$2.9 million in 2016, a negative impact of \$0.6 million in 2015 and a positive impact of \$3.2 million in 2014.

In 2016, we received notice that a claim we made in connection with the Deepwater Horizon Court Supervised Settlement Program was approved by the United States District Court for the Eastern District of Louisiana, resulting in a recovery of \$2.5 million. The program compensates businesses for economic damages they incurred in connection with the 2010 oil rig spill in the Gulf of Mexico. Our claim related to certain Jack in the Box restaurants in Louisiana and Texas.

Region administration costs decreased \$2.1 million in 2016 primarily related to a decrease in incentive compensation related to lower performance levels as compared to target bonus levels for our region administration personnel and to a lesser extent, workforce reductions related to our refranchising efforts.

Insurance costs in 2016 increased primarily due to unfavorable workers' compensation and general liability claim developments compared with a year ago. Insurance costs in 2015 decreased primarily due to an unfavorable \$1.0 million general liability legal settlement recognized in the prior year and favorable group insurance trends versus 2014.

In 2016, advertising costs associated with our Qdoba brand increased \$2.4 million versus 2015 primarily related to an increase in television and digital advertising, and was partially offset by a decrease in Jack in the Box brand advertising costs primarily due to a reduction in discretionary marketing fund contributions. Advertising costs in 2015 were impacted by our refranchising strategy at Jack in the Box, which resulted in a decrease in company-operated restaurants and the related overhead expenses to manage and support those restaurants, including advertising costs, which are primarily contributions to our marketing funds determined as a percentage of gross restaurant sales. As such, in 2015, advertising costs decreased at Jack in the Box and were partially offset by same-store sales growth at Jack in the Box and Qdoba restaurants.

Impairment and other charges, net

The following table presents the components of impairment and other charges, net in each fiscal year (in thousands):

	2016	2015	2014
Restructuring costs	\$10,067	\$29	\$8,621
Costs of closed restaurants (primarily lease obligations) and other	3,431	3,592	2,841
Losses on the disposition of property and equipment, net	2,801	1,319	1,674
Accelerated depreciation	2,214	6,260	1,202
Restaurant impairment charges	544	557	570
	\$19,057	\$11,757	\$14,908

Impairment and other charges, net increased \$7.3 million in 2016 versus 2015. The increase was primarily driven by \$10.1 million of restructuring charges recorded in 2016 related to a plan announced in 2016 to reduce our corporate general and administrative costs. These increases were partially offset by decreases in accelerated depreciation primarily resulting from a decrease in charges related to beverage equipment, outdoor lighting, and certain technology

upgrades at our Jack in the Box restaurants. Restructuring costs in 2016 included \$7.6 million of severance and related costs, \$2.0 million in accelerated depreciation related to the relocation of our Qdoba corporate support center in 2017, and \$0.5 million of other costs. Approximately \$2.0 million and \$6.3 million of the 2016 restructuring costs are related to our Jack in the Box and Qdoba restaurant operating segments, respectively, and approximately \$1.8 million is related to shared services functions.

In 2015, impairment and other charges, net decreased \$3.2 million as compared to 2014 due to a decrease in restructuring activities, partially offset by an increase in accelerated depreciation recognized in connection with various initiatives at our company-operated Jack in the Box restaurants. In 2015, accelerated depreciation included \$3.6 million recognized in connection with beverage equipment upgrades and \$1.5 million related to projects designed to upgrade outdoor lighting and certain technology at our restaurants.

In 2015, losses on the disposition of property and equipment, net included income of \$0.9 million in gains from the resolution of an eminent domain matter involving one Jack in the Box restaurant. For additional detail, refer to Note 9, Impairment and Other Charges, Net, of the notes to the consolidated financial statements.

Gains (losses) on the sale of company-operated restaurants

Gains (losses) on the sale of company-operated restaurants to franchisees, net are detailed in the following table (dollars in thousands):

	2016	2015	2014
Number of restaurants sold to franchisees	1	21	37
Gains (losses) on the sale of company-operated restaurants	\$1,230	\$(3,139)	\$(1,692)
Loss on the anticipated sale of a Jack in the Box market	—	—	(1,856)
Total gains (losses) on the sale of company-operated restaurants	\$1,230	\$(3,139)	\$(3,548)

Gains and losses are impacted by the number of restaurants sold and changes in average gains or losses recognized, which relate to specific sales and cash flows of those restaurants. In 2016, 2015 and 2014, gains (losses) on the sale of company-operated restaurants include additional gains of \$1.4 million, \$1.5 million and \$2.1 million, respectively, recognized upon the extension of the underlying franchise and lease agreements related to Jack in the Box restaurants sold in previous years. In 2014, the loss on the anticipated sale of a Jack in the Box market relates to 25 company-operated restaurants of which we sold 20, and closed the remaining five in fiscal 2015. For additional detail, refer to Note 3, Summary of Refranchisings, Franchisee Development and Acquisitions, of the notes to the consolidated financial statements.

Interest Expense, Net

Interest expense, net is comprised of the following (in thousands):

	2016	2015	2014
Interest expense	\$31,426	\$19,180	\$16,531
Interest income	(345)	(377)	(853)
Interest expense, net	\$31,081	\$18,803	\$15,678

Interest expense, net increased \$12.3 million in 2016 as compared to a year ago due to higher average borrowings and to a lesser extent, higher average interest rates. In 2015, interest expense increased due to higher average borrowings that were partially offset by a charge of \$0.8 million in 2014 to write-off deferred financing fees in connection with the refinancing of our credit facility.

Income Taxes

The income tax provisions reflect effective tax rates of 36.5%, 36.9% and 35.3% of pretax earnings from continuing operations in 2016, 2015 and 2014, respectively. In 2016, the major components of the year-over-year change in tax rates were an increase in the market performance of insurance products used to fund certain non-qualified retirement plans which are excluded from taxable income, the impact of which was partially offset by an increase in the Company's state tax rate. The tax rate change from 2015 versus 2014 was primarily related to a decrease in the market performance of insurance products used to fund certain non-qualified retirement plans which are excluded from taxable income.

Earnings from Continuing Operations

Earnings from continuing operations were \$126.3 million, or \$3.70 per diluted share, in 2016; \$112.6 million, or \$2.95 per diluted share, in 2015; and \$94.8 million, or \$2.26 per diluted share, in 2014. We estimate that the extra 53rd week benefited net earnings by approximately \$3.1 million, or \$0.09 per diluted share in fiscal 2016.

Losses from Discontinued Operations, Net

The losses from our distribution business and the 2013 Qdoba Closures have been reported as discontinued operations for all periods presented. Refer to Note 2, Discontinued Operations, in the notes to our consolidated financial statements for further information regarding our discontinued operations.

Losses from discontinued operations, net of income tax benefit, are as follows for each discontinued operation in each fiscal year (in thousands):

	2016	2015	2014
Distribution business	\$(235)	\$(430)	\$(790)
2013 Qdoba Closures	(1,962)	(3,359)	(5,104)
	\$(2,197)	\$(3,789)	\$(5,894)

These losses from discontinued operations reduced diluted earnings per share by the following in each fiscal year (amounts may not add due to rounding):

	2016	2015	2014
Distribution business	\$(0.01)	\$(0.01)	\$(0.02)
2013 Qdoba Closures	(0.06)	(0.09)	(0.012)
	\$(0.06)	\$(0.10)	\$(0.14)

LIQUIDITY AND CAPITAL RESOURCES**General**

Our primary sources of short-term and long-term liquidity are expected to be cash flows from operations and our revolving credit facility.

We generally reinvest available cash flows from operations to develop new restaurants or enhance existing restaurants, to reduce debt, to repurchase shares of our common stock, and to pay cash dividends. Our cash requirements consist principally of:

- working capital;
- capital expenditures for new restaurant construction and restaurant renovations;
- income tax payments;
- debt service requirements; and
- obligations related to our benefit plans.

Based upon current levels of operations and anticipated growth, we expect that cash flows from operations, combined with other financing alternatives in place or available, will be sufficient to meet our capital expenditure, working capital and debt service requirements for at least the next twelve months and the foreseeable future.

As is common in the restaurant industry, we maintain relatively low levels of accounts receivable and inventories, and our vendors grant trade credit for purchases such as food and supplies. We also continually invest in our business through the addition of new units and refurbishment of existing units, which are reflected as long-term assets and not as part of working capital. As a result, we may at times maintain current liabilities in excess of current assets, which results in a working capital deficit.

Cash Flows

The table below summarizes our cash flows from operating, investing and financing activities for each of the past three fiscal years (in thousands):

	2016	2015	2014
Total cash provided by (used in):			
Operating activities	\$134,182	\$226,875	\$201,022
Investing activities	(104,398)	(84,473)	(42,979)
Financing activities	(30,454)	(135,208)	(157,116)
Effect of exchange rate changes	(43)	(29)	7
Net (decrease) increase in cash	\$(713)	\$7,165	\$934

Operating Activities. Operating cash flows decreased \$92.7 million in 2016 compared with 2015 due primarily to an \$80.0 million accelerated contribution to our qualified defined benefit pension plan, as well as, higher interest expense and income tax payments, and the timing of working capital receipts and expenditures, partially offset by an increase in deferred tax asset utilization primarily related to additional pension contributions in 2016 and an increase in net earnings in 2016.

In 2015, operating cash flows increased \$25.9 million compared with 2014 due primarily to an increase in net earnings in fiscal 2015 and a reduction in prepaid income taxes of \$20.3 million, offset by an income tax refund of \$20.5 million received in the fourth quarter of 2014 as a result of a fixed asset cost segregation study.

Pension and Postretirement Contributions — Our policy is to fund our pension plans at or above the minimum required by law. As of January 1, 2016, the date of our last actuarial funding valuation, there was no minimum contribution funding requirement. In 2016, we contributed \$101.1 million to our pension and postretirement plans which includes an \$80.0 million accelerated contribution to our qualified defined benefit pension plan. The accelerated contribution was made to reduce future pension costs including our exposure to PBGC variable-rate premiums that are paid on the unfunded portion of our pension liability, and improve the funded status of the plan. We do not anticipate making any contributions to our qualified defined benefit pension plan in fiscal 2017.

Investing Activities. Cash flows used in investing activities increased \$19.9 million in 2016 compared with 2015 primarily due cash used to acquire 14 Qdoba franchise restaurants and an increase in capital expenditures, partially offset by an increase in proceeds from assets held for sale and leaseback. In 2015, cash flows used in investing activities increased \$41.5 million compared with 2014 due primarily to an increase in capital expenditures, cash used to acquire assets held for sale and leaseback, a decrease in proceeds from assets held for sale and leaseback and the sale of company-operated restaurants.

Capital Expenditures — The composition of capital expenditures in each fiscal year is summarized in the table below (in thousands):

	2016	2015	2014
Jack in the Box:			
Restaurant facility expenditures	\$25,985	\$36,062	\$22,680
New restaurants	11,526	2,402	3,533
Other, including information technology	1,096	3,464	4,645
	38,607	41,928	30,858
Qdoba:			
Restaurant facility expenditures	8,341	3,762	4,477
New restaurants	40,235	26,686	13,189
Other, including information technology	4,740	3,623	301
	53,316	34,071	17,967
Shared Services:			
Information technology	4,413	7,315	5,786
Other, including facility improvements	279	2,912	5,914
	4,692	10,227	11,700
Consolidated capital expenditures	\$96,615	\$86,226	\$60,525

Our capital expenditure program includes, among other things, investments in new locations and equipment, restaurant remodeling, and information technology enhancements. In 2016, capital expenditures increased \$10.4 million primarily resulting from an increase in spending related to building new Qdoba and Jack in the Box restaurants, and remodels at our Qdoba restaurants as we roll out our new restaurant designs. These increases were partially offset by a decrease in spending related to site enhancements at our Jack in the Box restaurants, as well as a decrease in spending related to Jack in the Box and Shared Services information technology. In 2015, capital expenditures increased \$25.7 million compared with 2014 due primarily to an increase in spending related to building new Qdoba restaurants, exterior lighting enhancements at our Jack in the Box restaurants, and information technology

infrastructure at both brands, partially offset by a decrease in spending related to Qdoba's corporate support center. In fiscal 2017, capital expenditures are expected to be approximately \$105-\$115 million. Increased spending in fiscal 2017 will primarily be related to remodels at Qdoba and Jack in the Box company-operated restaurants, as well as building new Qdoba company-operated restaurants, partially offset by decreases in spending for Jack in the Box company-operated restaurants. In 2017, we plan to open approximately four new Jack in the Box company-operated locations, and approximately 40 new Qdoba company-operated locations.

Assets Held for Sale and Leaseback — We use sale and leaseback financing to lower the initial cash investment in our restaurants to the cost of the equipment, whenever possible. During both 2016 and 2015, we exercised our right of first refusal related to five leased properties, which we intend to sell and leaseback within the next 12 months. The following table summarizes the cash flow activity related to sale and leaseback transactions in each fiscal year (dollars in thousands):

	2016	2015	2014
Number of restaurants sold and leased back	8	—	3
Proceeds from sale and leaseback of assets	\$17,123	\$—	\$5,698
Purchases of assets intended for sale and leaseback	\$(9,785)	\$(10,396)	\$(2,801)

As of October 2, 2016, we had investments of approximately \$14.3 million relating to six restaurant properties that we expect to sell and leaseback during fiscal 2017.

Sale of Company-Operated Restaurants — We have continued to expand franchise ownership in the Jack in the Box system primarily through the sale of company-operated restaurants to franchisees. The following table details proceeds received in connection with our refranchising activities in each fiscal year (dollars in thousands):

	2016	2015	2014
Number of restaurants sold to franchisees	1	21	37
Total proceeds	\$1,439	\$3,951	\$10,536

In 2016, 2015 and 2014, proceeds include \$1.4 million, \$1.5 million and \$2.1 million, respectively, recognized upon the extension of the underlying franchise and lease agreements related to Jack in the Box restaurants sold in previous years. For additional information, refer to Note 3, Summary of Refranchisings, Franchisee Development and Acquisitions, of the notes to the consolidated financial statements.

Acquisition of Franchise-Operated Restaurants — In 2016, 2015 and 2014, we acquired one, seven and four Jack in the Box franchise restaurants, respectively. In 2016, we also acquired 14 Qdoba franchise restaurants. The following table details franchise-operated restaurant acquisition activity in each fiscal year (dollars in thousands):

	2016	2015	2014
Number of restaurants acquired from franchisees	15	7	4
Cash used to acquire franchise-operated restaurants	\$19,816	\$—	-\$1,750

The purchase price was primarily allocated to property and equipment acquired and liabilities assumed in 2015, and primarily allocated to goodwill and property and equipment acquired in 2016 and 2014. For additional information, refer to Note 3, Summary of Refranchisings, Franchisee Development and Acquisitions, of the notes to the consolidated financial statements.

Financing Activities. Cash used in financing activities decreased \$104.8 million in 2016 and \$21.9 million in 2015 as compared with the respective prior year. The decrease in 2016 is primarily due to a net increase in borrowings under our credit facility and a decrease in cash used to repurchase our common stock, partially offset by a decrease in excess tax benefits from share-based compensation arrangements, a decrease in proceeds from the issuance of our common stock, and an increase in cash used to pay dividends. The decrease in 2015 is due primarily to an increase in borrowings under our credit facility, partially offset by an increase in cash used to pay dividends and a decrease in proceeds from the issuance of common stock.

Credit Facility — On September 16, 2016, the Company amended its credit facility to increase its overall borrowing capacity by \$400.0 million. The amended credit facility was increased to \$1.6 billion, consisting of (i) a \$900.0 million revolving credit agreement and (ii) a \$700.0 million term loan. Upon amendment, the Company borrowed \$417.6 million under the amended term loan and used the full amount to pay down our revolving credit agreement. We are subject to a number of customary covenants under our credit facility, including limitations on additional borrowings, acquisitions, loans to franchisees, lease commitments, stock repurchases, dividend payments and requirements to maintain certain financial ratios. We were in compliance with all covenants as of October 2, 2016. At October 2, 2016, we had \$694.1 million outstanding under the term loan, borrowings under the revolving credit agreement of \$282.4 million and letters of credit outstanding of \$25.1 million. For additional information related to our credit facility, refer to Note 7, Indebtedness, of the notes to the consolidated financial statements.

Interest Rate Swaps — To reduce our exposure to rising interest rates under our credit facility, we consider interest rate swaps. In April 2014, we entered into nine forward-starting interest rate swap agreements that effectively convert \$300.0 million of our variable rate borrowings to a fixed rate basis from October 2014 through October 2018. In June 2015, we entered into eleven forward-starting interest rate swap agreements that effectively convert an additional \$200.0 million of our variable rate borrowings and future expected variable rate borrowings to a fixed rate from October 2015 through October 2018, and \$500.0 million from October 2018 through October 2022. For additional information, refer to Note 6, Derivative Instruments, of the notes to the consolidated financial statements and Item 7A, Quantitative and Qualitative Disclosures about Market Risk, of this Report.

Repurchases of Common Stock — During fiscal 2016, we repurchased 3.9 million shares at an aggregate cost of \$291.9 million. As of October 2, 2016, there was approximately \$408.2 million remaining under the stock buyback programs, of which \$108.2 million expires in November 2017 and \$300.0 million expires in November 2018.

Repurchases of common stock included in our consolidated statements of cash flows for 2016 include \$7.2 million related to repurchase transactions traded in the current fiscal year that will settle in the subsequent year. Repurchases of common stock included in our statements of cash flows for 2015 and 2014 include \$3.1 million and \$7.3 million, respectively, related to repurchase transactions traded in the prior fiscal year and settled in the subsequent year. For additional information, refer to Note 13, Stockholders' Equity, of the notes to the consolidated financial statements and Item 5, Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities, of this Report.

Dividends — On May 9, 2014, the Board of Directors approved the initiation of a regular quarterly cash dividend. Two quarterly cash dividend payments of \$0.20 per share each were declared totaling \$15.9 million in fiscal 2014. In fiscal 2015, the Board of Directors declared two cash dividends of \$0.20 per share each, and two cash dividends of \$0.30 per share each, totaling \$37.6 million. In 2016, the Board of Directors declared four cash dividends of \$0.30 cents per share each, totaling \$40.5 million. Future dividends are subject to approval by our Board of Directors.

Off-Balance Sheet Arrangements

We have entered into certain off-balance sheet contractual obligations and commitments in the ordinary course of business, which are recognized in our consolidated financial statements in accordance with U.S. generally accepted accounting principles. The off-balance sheet arrangements that will have a material impact on our future results from operations are disclosed in the Contractual Obligations and Commitments table below. We are not a party to any other off-balance sheet arrangements that have, or are reasonably likely to have, a current or future material effect on our financial condition, changes in financial condition, results of operations, liquidity, capital expenditures or capital resources.

Contractual Obligations and Commitments

The following is a summary of our contractual obligations and commercial commitments as of October 2, 2016 (in thousands):

	Payments Due by Fiscal Year				
	Total	Less than 1 year	1-3 years	3-5 years	After 5 years
Contractual Obligations:					
Credit facility term loan (1)	\$733,912	\$71,771	\$662,141	\$—	\$—
Revolving credit agreement (1)	300,237	7,126	293,111	—	—
Capital lease obligations	22,354	3,423	6,206	5,618	7,107
Operating lease obligations	1,494,313	235,048	404,213	324,910	530,142
Purchase commitments (2)	3,633,400	993,500	1,010,100	728,500	901,300
Benefit obligations (3)	68,644	10,168	12,339	12,781	33,356
Total contractual obligations	\$6,252,860	\$1,321,036	\$2,388,110	\$1,071,809	\$1,471,905
Other Commercial Commitments:					
Stand-by letters of credit (4)	\$25,100	\$25,100	\$—	\$—	\$—

- (1) Includes estimated interest expense based on rates in effect on October 2, 2016.
- (2) Includes purchase commitments for food, beverage, and packaging items to support system-wide restaurant operations.
- (3) Includes expected payments associated with our non-qualified defined benefit plan, postretirement healthcare plans and our non-qualified deferred compensation plan through fiscal 2026.
- (4) Consists primarily of letters of credit for workers' compensation and general liability insurance.

We maintain a noncontributory defined benefit pension plan (“Qualified Plan”) covering substantially all full-time employees hired before January 1, 2011. Our policy is to fund our Qualified Plan at amounts necessary to satisfy the minimum amount required by law, plus additional amounts as determined by management to improve the plan’s funded status. Contributions beyond fiscal 2016 will depend on pension asset performance, future interest rates, future tax law changes, and future changes in regulatory funding requirements. Based on the funding status of our Qualified Plan as of our last measurement date, there was no minimum contribution required. For additional information related to our pension plans, refer to Note 11, Retirement Plans, of the notes to the consolidated financial statements.

35

DISCUSSION OF CRITICAL ACCOUNTING ESTIMATES

We have identified the following as our most critical accounting estimates, which are those that are most important to the portrayal of the Company's financial condition and results, and that require management's most subjective and complex judgments. Information regarding our other significant accounting estimates and policies are disclosed in Note 1, Nature of Operations and Summary of Significant Accounting Policies, of the notes to the consolidated financial statements.

Long-lived Assets — Property, equipment and certain other assets, including amortized intangible assets, are reviewed for impairment on an annual basis or whenever events or changes in circumstances indicate that their carrying value may not be recoverable. This review generally includes a restaurant-level analysis, except when we are actively selling a group of restaurants, in which case we perform our impairment evaluations at the group level. Impairment evaluations for individual restaurants take into consideration a restaurant's operating cash flows, the period of time since a restaurant has been opened or remodeled, refranchising expectations, and the maturity of the related market. Impairment evaluations for a group of restaurants take into consideration the group's expected future cash flows and sales proceeds from bids received, if any, or fair market value based on, among other considerations, the specific sales and cash flows of those restaurants. If the assets of a restaurant or group of restaurants subject to our impairment evaluation are not recoverable based upon the forecasted, undiscounted cash flows, we recognize an impairment loss as the amount by which the carrying value of the assets exceeds fair value. Our estimates of cash flows used to assess impairment are subject to a high degree of judgment and may differ from actual cash flows due to, among other things, economic conditions or changes in operating performance. During fiscal year 2016, we recorded impairment charges totaling \$0.5 million to write down one underperforming Qdoba restaurant to its estimated fair value.

Retirement Benefits — Our defined benefit and other postretirement plans' costs and liabilities are determined using several statistical and other actuarial factors, which attempt to anticipate future events, including assumptions about discount rates, expected return on plan assets, health care cost trend rates and mortality rates. The assumed discount rate and expected return on plan assets are the assumptions that generally have the most significant impact on our benefit costs and retirement obligations.

Our discount rate is set annually by us, with assistance from our actuaries, and is determined by considering the average of pension yield curves constructed of a population of high-quality bonds with a Moody's or Standard and Poor's rating of "AA" or better meeting certain other criteria. As of October 2, 2016, our discount rates were 3.85% for our Qualified Plan, 3.60% for our non-qualified defined benefit plan, and 3.64% for our postretirement health plans. Our expected long-term rate of return on assets is determined taking into consideration our projected asset allocation and economic forecasts prepared with the assistance of our actuarial consultants. As of October 2, 2016, our assumed expected long-term rate of return was 6.50% for our Qualified Plan.

The actuarial assumptions used may differ materially from actual results due to changing market and economic conditions, higher or lower turnover and retirement rates or longer or shorter life spans of participants. These differences may affect the amount of expense we record. A hypothetical 25 basis point reduction in the assumed discount rate and expected long-term rate of return on plan assets would have resulted in an estimated increase of \$0.5 million and \$0.8 million, respectively, in our fiscal 2016 pension and postretirement expense.

We expect our pension and postretirement expense to decrease \$9.3 million in fiscal 2017 principally due to an increase in fiscal 2016 contributions to our Qualified Plan which are expected to result in a higher return on plan assets in fiscal 2017, and a resulting decrease in our fiscal 2017 PBGC premiums, which is a component of our pension expense. To a lesser extent, the sunset of our Qualified Plan on December 31, 2015, at which time participants stopped accruing benefits, will result in a reduction of the service cost component of our expense.

Self-Insurance — We are self-insured for a portion of our losses related to workers' compensation, general liability and other legal claims and health benefits. In estimating our self-insurance accruals, we utilize independent actuarial estimates of expected losses, which are based on statistical analysis of historical data. These assumptions are closely monitored and adjusted when warranted by changing circumstances. Should a greater amount of claims occur compared to what was estimated, or should medical costs increase beyond what was expected, accruals might not be

sufficient, and additional expense may be recorded.

36

Restaurant Closing Costs — Restaurant closing costs include future lease commitments, net of anticipated sublease rentals and expected ancillary costs. We record a liability for the net present value of any remaining lease obligations, net of estimated sublease income, at the date we cease using a property. Subsequent adjustments to the liability as a result of changes in estimates of sublease income or lease cancellations are recorded in the period incurred. The estimates we make related to sublease income are subject to a high degree of judgment and may differ from actual sublease income due to changes in economic conditions, desirability of the sites and other factors. During fiscal year 2016, we recorded charges of \$0.9 million related to revised sublease assumptions and adjustments for lease terminations.

Goodwill and Other Intangibles — We evaluate goodwill and non-amortizing intangible assets annually, or more frequently if indicators of impairment are present. Our impairment analyses first include a qualitative assessment to determine whether events or circumstances indicate the carrying amount may not be recoverable. If this assessment results in a less-than 50% likelihood that impairment exists, then further analysis is not required. If the results of these analyses indicate otherwise, then we compare the fair value of the reporting unit for goodwill and the fair value of the intangible asset to their respective carrying values. If the determined fair values of the respective assets are less than the related carrying amounts, an impairment loss is recognized. The methods we use to estimate fair value include future cash flow assumptions, which may differ from actual cash flows due to, among other things, economic conditions or changes in operating performance. We performed our annual assessment of overall impairment of our goodwill and other intangibles assets during the fourth quarter of 2016, and qualitatively determined that no impairment existed as of October 2, 2016. As of the impairment testing date, the fair value of our reporting units significantly exceeded their carrying values.

Legal Accruals — The Company is subject to claims and lawsuits in the ordinary course of its business. A determination of the amount accrued, if any, for these contingencies is made after analysis of each matter. We continually evaluate such accruals and may increase or decrease accrued amounts as we deem appropriate. Because lawsuits are inherently unpredictable, and unfavorable resolutions could occur, assessing contingencies is highly subjective and requires judgment about future events. As a result, the amount of ultimate loss may differ from those estimates.

Income Taxes — We estimate certain components of our provision for income taxes. These estimates include, among other items, depreciation and amortization expense allowable for tax purposes, allowable tax credits, effective rates for state and local income taxes, and the tax deductibility of certain other items. We adjust our effective income tax rate as additional information on outcomes or events becomes available. Our estimates are based on the best available information at the time that we prepare the income tax provision. We generally file our annual income tax returns several months after our fiscal year-end. Income tax returns are subject to audit by federal, state and local governments, generally years after the returns are filed. These returns could be subject to material adjustments or differing interpretations of the tax laws.

NEW ACCOUNTING PRONOUNCEMENTS

See Note 1, Nature of Operations and Summary of Significant Accounting Policies, of the notes to the consolidated financial statements for a discussion of the impact of new accounting pronouncements on our consolidated financial statements.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our primary exposure to risks relating to financial instruments is changes in interest rates. Our credit facility is comprised of a revolving credit facility and a term loan, bearing interest at an annual rate equal to the prime rate or LIBOR plus an applicable margin based on a financial leverage ratio, with a 0% floor on the LIBOR. As of October 2, 2016, the applicable margin for the LIBOR-based revolving loans and term loan was set at 2.00%.

We use interest rate swap agreements to reduce exposure to interest rate fluctuations. In April 2014, we entered into nine forward-starting interest rate swap agreements that effectively convert \$300.0 million of our variable rate borrowings to a fixed rate basis from October 2014 through October 2018. In June 2015, we entered into eleven forward-starting interest rate swap agreements that effectively convert an additional \$200.0 million of our variable rate borrowings to a fixed rate from October 2015 through October 2018, and \$500.0 million from October 2018 through October 2022. Based on the applicable margin in effect as of October 2, 2016, these twenty interest rate swaps would

yield average fixed rates of 3.90%, 4.41%, 4.62%, 4.89%, 5.07% and 5.17% in fiscal years 2017 through 2022, respectively. For additional information related to our interest rate swaps, refer to Note 6, Derivative Instruments, of the notes to the consolidated financial statements.

A hypothetical 100 basis point increase in short-term interest rates, based on the outstanding unhedged balance of our revolving credit facility and term loan at October 2, 2016, would result in an estimated increase of \$4.8 million in annual interest expense.

We are also exposed to the impact of commodity and utility price fluctuations. Many of the ingredients we use are commodities or ingredients that are affected by the price of other commodities, weather, seasonality, production, availability and various other factors outside our control. In order to minimize the impact of fluctuations in price and availability, we monitor the primary commodities we purchase and may enter into purchasing contracts and pricing arrangements when considered to be advantageous. However, certain commodities remain subject to price fluctuations. We are exposed to the impact of utility price fluctuations related to unpredictable factors such as weather and various other market conditions outside our control. Our ability to recover increased costs for commodities and utilities through higher prices is limited by the competitive environment in which we operate. From time to time, we enter into futures and option contracts to manage these fluctuations. At October 2, 2016, we had no such contracts in place.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

The consolidated financial statements, related financial information, and the Report of Independent Registered Public Accounting Firm required to be filed are indexed on page F-1 and are incorporated herein.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 9A. CONTROLS AND PROCEDURES

Conclusion Regarding the Effectiveness of Disclosure Controls and Procedures

Based on an evaluation of the Company's disclosure controls and procedures (as defined in Rule 13(a)-15(e) of the Securities Exchange Act of 1934, as amended), as of the end of the Company's fiscal year ended October 2, 2016, the Company's Chief Executive Officer and Chief Financial Officer (its principal executive officer and principal financial officer, respectively) have concluded that the Company's disclosure controls and procedures were effective.

Changes in Internal Control Over Financial Reporting

There have been no significant changes in the Company's internal control over financial reporting that occurred during the Company's fiscal quarter ended October 2, 2016 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Management's Report on Internal Control Over Financial Reporting

Management, including our principal executive officer and principal financial officer, is responsible for establishing and maintaining adequate internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act). The Company's internal control over financial reporting is designed to provide reasonable assurance to the Company's management and Board of Directors regarding the preparation and fair presentation of published financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation.

Management assessed the effectiveness of the Company's internal control over financial reporting as of October 2, 2016. In making this assessment, our management used the criteria set forth in 2013 by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO") in Internal Control-Integrated Framework. Management has concluded that, as of October 2, 2016, the Company's internal control over financial reporting was effective, at a reasonable assurance level, based on these criteria.

The Company's independent registered public accounting firm, KPMG LLP, has issued an audit report on the effectiveness of our internal control over financial reporting, which follows.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Stockholders

Jack in the Box Inc.:

We have audited the internal control over financial reporting of Jack in the Box Inc. (the Company) as of October 2, 2016, based on criteria established in Internal Control — Integrated Framework (2013), issued by the Committee of Sponsoring Organizations of the Treadway Commission (“COSO”). The Company’s management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management’s Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Company’s internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audit also included performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company’s internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of October 2, 2016, based on criteria established in Internal Control — Integrated Framework (2013) issued by COSO. We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of Jack in the Box Inc. and subsidiaries as of October 2, 2016 and September 27, 2015, and the related consolidated statements of earnings, comprehensive income, cash flows, and stockholders’ (deficit) equity for the fifty-three weeks ended October 2, 2016, and the fifty-two weeks ended September 27, 2015 and September 28, 2014, and our report dated November 22, 2016, expressed an unqualified opinion on those consolidated financial statements.

ITEM 9B. OTHER INFORMATION

None.

PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

That portion of our definitive Proxy Statement appearing under the captions “Election of Directors,” “Directors Qualifications and Biographical Information,” “Committees of the Board” and “Section 16(a) Beneficial Ownership Reporting Compliance” to be filed with the Commission pursuant to Regulation 14A within 120 days after October 2, 2016 and to be used in connection with our 2017 Annual Meeting of Stockholders is hereby incorporated by reference. Information regarding our executive officers is set forth in Item 1 of Part I of this Report under the caption “Executive Officers.”

That portion of our definitive Proxy Statement appearing under the caption “Committees of the Board - Audit Committee,” relating to the members of the Company’s Audit Committee and the members of the Audit Committee who qualify as financial experts, is also incorporated herein by reference.

That portion of our definitive Proxy Statement appearing under the caption “Stockholder Proposals for the 2017 Annual Meeting,” relating to the procedures by which stockholders may recommend candidates for director to the Nominating and Governance Committee of the Board of Directors, is also incorporated herein by reference.

We have adopted a Code of Ethics, which applies to all Jack in the Box Inc. directors, officers and employees, including the Chief Executive Officer, Chief Financial Officer, Controller and all of the financial team. The Code of Ethics is posted on the Company’s website, www.jackinthebox.com (under the “Investors — Corporate Governance — Code of Conduct” caption) and in print free of charge to any stockholder upon request. We intend to satisfy the disclosure requirement regarding any amendment to, or waiver of, a provision of the Code of Ethics for the Chief Executive Officer, Chief Financial Officer and Controller or persons performing similar functions, by posting such information on our website. No such waivers have been issued during fiscal 2016.

We have also adopted a set of Corporate Governance Principles and Practices for our Board of Directors and charters for all of our Board Committees, including the Audit, Compensation, and Nominating and Governance Committees. The Corporate Governance Principles and Practices and committee charters are available on our website at www.jackinthebox.com and in print free of charge to any shareholder who requests them. Written requests for our Code of Business Conduct and Ethics, Corporate Governance Principles and Practices and committee charters should be addressed to Jack in the Box Inc., 9330 Balboa Avenue, San Diego, California 92123, Attention: Corporate Secretary.

ITEM 11. EXECUTIVE COMPENSATION

That portion of our definitive Proxy Statement appearing under the caption “Executive Compensation,” “Director Compensation,” “Compensation Committee Interlocks and Insider Participation” and “Compensation Committee Report” to be filed with the Commission pursuant to Regulation 14A within 120 days after October 2, 2016 and to be used in connection with our 2017 Annual Meeting of Stockholders is hereby incorporated by reference.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

That portion of our definitive Proxy Statement appearing under the caption “Security Ownership of Certain Beneficial Owners and Management” to be filed with the Commission pursuant to Regulation 14A within 120 days after October 2, 2016 and to be used in connection with our 2017 Annual Meeting of Stockholders is hereby incorporated by reference. Information regarding equity compensation plans under which Company common stock may be issued as of October 2, 2016 is set forth in Item 5 of this Report.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Stockholders

Jack in the Box Inc.:

We have audited the accompanying consolidated balance sheets of Jack in the Box Inc. and subsidiaries (the Company) as of October 2, 2016 and September 27, 2015, and the related consolidated statements of earnings, comprehensive income, cash flows, and stockholders' (deficit) equity for the fifty-three weeks ended October 2, 2016, and the fifty-two weeks ended September 27, 2015 and September 28, 2014. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Jack in the Box Inc. and subsidiaries as of October 2, 2016 and September 27, 2015, and the results of their operations and their cash flows for the fifty-three weeks ended October 2, 2016, and the fifty-two weeks ended September 27, 2015 and September 28, 2014, in conformity with U.S. generally accepted accounting principles.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the internal control over financial reporting of Jack in the Box Inc. as of October 2, 2016, based on criteria established in Internal Control - Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO), and our report dated November 22, 2016, expressed an unqualified opinion on the effectiveness of the Company's internal control over financial reporting.

JACK IN THE BOX INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of operations — Founded in 1951, Jack in the Box Inc. (the “Company”) operates and franchises Jack in the[®]Box quick-service restaurants and Qdoba Mexican Eats[®] (“Qdoba”) fast-casual restaurants. The following table summarizes the number of restaurants as of the end of each fiscal year:

	2016	2015	2014
Jack in the Box:			
Company-operated	417	413	431
Franchise	1,838	1,836	1,819
Total system	2,255	2,249	2,250
Qdoba:			
Company-operated	367	322	310
Franchise	332	339	328
Total system	699	661	638

References to the Company throughout these notes to the consolidated financial statements are made using the first person notations of “we,” “us” and “our.”

Basis of presentation — The accompanying consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles (“U.S. GAAP”) and the rules and regulations of the Securities and Exchange Commission (“SEC”). During fiscal 2012, we entered into an agreement to outsource our Jack in the Box distribution business. In fiscal 2013, we closed 62 Qdoba restaurants (the “2013 Qdoba Closures”) as part of a comprehensive Qdoba market performance review. The results of operations for our distribution business and for the 2013 Qdoba Closures are reported as discontinued operations for all periods presented. Refer to Note 2, Discontinued Operations, for additional information. Unless otherwise noted, amounts and disclosures throughout these notes to the consolidated financial statements relate to our continuing operations.

Reclassifications and adjustments — Certain prior year amounts have been reclassified in the table disclosing the fair values of our defined benefit pension plan’s assets within Note 11, Retirement Plans, to conform to the fiscal 2016 presentation.

Fiscal year — Our fiscal year is 53 or 52 weeks ending the Sunday closest to September 30. Comparisons throughout these notes to the consolidated financial statements refer to the 53-week period ended October 2, 2016 for the fiscal year 2016 and 52-week periods ended September 27, 2015 and September 28, 2014 for fiscal years 2015 and 2014, respectively.

Principles of consolidation — The consolidated financial statements include the accounts of the Company, its wholly-owned subsidiaries and the accounts of any variable interest entities (“VIEs”) where we are deemed the primary beneficiary. All significant intercompany accounts and transactions are eliminated.

The Financial Accounting Standards Board (“FASB”) authoritative guidance on consolidation requires the primary beneficiary of a VIE to consolidate that entity. The primary beneficiary of a VIE is an enterprise that has a controlling financial interest in the VIE. Controlling financial interest exists when an enterprise has both the power to direct the activities that most significantly impact the VIE’s economic performance and the obligation to absorb losses or the right to receive benefits of the VIE that could potentially be significant to the VIE.

The primary entities in which we possess a variable interest are franchise entities, which operate our franchise restaurants. We do not possess any ownership interests in franchise entities. We have reviewed these franchise entities and determined that we are not the primary beneficiary of the entities and therefore, these entities have not been consolidated. We hold and consolidate a variable interest in a subsidiary formed for the purpose of operating a franchisee lending program. The financial results and position of our VIE are immaterial to our consolidated financial statements.

Use of estimates — In preparing the consolidated financial statements in conformity with U.S. GAAP, management is required to make certain assumptions and estimates that affect reported amounts of assets, liabilities, revenues, expenses and the disclosure of contingencies. In making these assumptions and estimates, management may from time to time seek advice and consider information provided by actuaries and other experts in a particular area. Actual amounts could differ materially from these estimates.

F-8

JACK IN THE BOX INC. AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Accounts and other receivables, net is primarily comprised of receivables from franchisees, tenants and credit card processors. Franchisee receivables primarily include rents, royalties, and marketing fees associated with lease and franchise agreements. Tenant receivables relate to subleased properties where we are on the master lease agreement. We accrue interest on notes receivable based on the contractual terms. The allowance for doubtful accounts is based on historical experience and a review of existing receivables. Changes in accounts and other receivables are classified as an operating activity in the consolidated statements of cash flows.

Inventories consist principally of food, packaging and supplies, and are valued at the lower of cost or market on a first-in, first-out basis. Changes in inventories are classified as an operating activity in the consolidated statements of cash flows.

Assets held for sale typically represent the costs for new sites and existing sites that we plan to sell and lease back within the next year. Gains or losses realized on sale-leaseback transactions are deferred and amortized over the lease terms. If the determination is made that we no longer expect to sell an asset within the next year, the asset is reclassified out of assets held for sale. Assets held for sale also periodically includes the net book value of property and/or equipment we plan to sell within the next year. Assets held for sale consisted of the following at each fiscal year-end (in thousands):

	2016	2015
Assets held for sale and leaseback	\$14,259	\$15,216
Other property and equipment held for sale	—	300
Assets held for sale	\$14,259	\$15,516

Property and equipment, net — Expenditures for new facilities and equipment, and those that substantially increase the useful lives of the property, are capitalized. Facilities leased under capital leases are stated at the present value of minimum lease payments at the beginning of the lease term, not to exceed fair value. Maintenance and repairs are expensed as incurred. When property and equipment are retired or otherwise disposed of, the related cost and accumulated depreciation are removed from the accounts, and gains or losses on the dispositions are reflected in results of operations.

Buildings, equipment and leasehold improvements are generally depreciated using the straight-line method based on the estimated useful lives of the assets, over the initial lease term for certain assets acquired in conjunction with the lease commencement for leased properties, or the remaining lease term for certain assets acquired after the commencement of the lease for leased properties. In certain situations, one or more option periods may be used in determining the depreciable life of assets related to leased properties if we deem that an economic penalty would be incurred otherwise. In either circumstance, our policy requires lease term consistency when calculating the depreciation period, in classifying the lease and in computing straight-line rent expense. Building, leasehold improvement assets and equipment are assigned lives that range from 1 to 35 years. Depreciation expense related to property and equipment was \$92.1 million, \$88.8 million and \$90.7 million in 2016, 2015, and 2014, respectively.

Impairment of long-lived assets — We evaluate our long-lived assets, such as property and equipment, for impairment on an annual basis or whenever events or changes in circumstances indicate that their carrying value may not be recoverable. This review generally includes a restaurant-level analysis, except when we are actively selling a group of restaurants in which case we perform our impairment evaluations at the group level. Impairment evaluations for individual restaurants take into consideration a restaurant's operating cash flows, the period of time since a restaurant has been opened or remodeled, refranchising expectations, and the maturity of the related market, which are all significant unobservable inputs ("Level 3 Inputs"). Impairment evaluations for a group of restaurants take into consideration the group's expected future cash flows and sales proceeds from bids received, if any, or fair market value based on, among other considerations, the specific sales and cash flows of those restaurants. If the assets of a restaurant or group of restaurants subject to our impairment evaluation are not recoverable based upon the forecasted, undiscounted cash flows, we recognize an impairment loss by the amount which the carrying value of the assets exceeds fair value. Refer to Note 9, Impairment and Other Charges, Net, for additional information. Long-lived assets

that meet the held for sale criteria, which excludes assets intended to be sold and leased back, are held for sale and reported at the lower of their carrying value or fair value, less estimated costs to sell.

F-9

JACK IN THE BOX INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Goodwill and intangible assets — Goodwill is the excess of the purchase price over the fair value of identifiable net assets acquired, if any. We generally record goodwill in connection with the acquisition of restaurants from franchisees. Likewise, upon the sale of restaurants to franchisees, goodwill is decremented. The amount of goodwill written-off is determined as the fair value of the reporting unit disposed of as a percentage of the fair value of the reporting unit retained. Goodwill is evaluated for impairment annually, or more frequently if indicators of impairment are present. We first assess qualitative factors to determine whether the existence of events or circumstances leads to a determination that it is more likely than not that the fair value of a reporting unit is less than its carrying amount. If the qualitative factors indicate that it is more likely than not that the fair value of a reporting unit is less than its carrying amount, we perform a two-step impairment test of goodwill. In the first step, we estimate the fair value of the reporting unit using Level 3 Inputs and compare it to the carrying value of the reporting unit. If the carrying value exceeds the fair value of the reporting unit, the second step is performed to measure the amount of the impairment loss, if any. In the second step, the amount of the impairment loss is the excess of the carrying amount of the goodwill over its implied fair value.

Intangible assets, net is comprised primarily of our Qdoba trademark, acquired franchise contract costs, lease acquisition costs and reacquired franchise rights. Our Qdoba trademark and acquired franchise contract costs were recorded in connection with our acquisition of Qdoba Restaurant Corporation in fiscal 2003. Acquired franchise contract costs represent the acquired value of franchise contracts, which are amortized over the term of the franchise agreements plus options based on the projected royalty revenue stream. Our Qdoba trademark asset has an indefinite life and is not amortized. Lease acquisition costs primarily represent the fair values of acquired lease contracts having contractual rents lower than fair market rents and are amortized on a straight-line basis over the remaining initial lease term. Reacquired franchise rights are recorded in connection with our acquisition of franchised restaurants and are amortized over the remaining contractual period of the franchise contract in which the right was granted.

Our non-amortizing intangible asset is evaluated for impairment annually, or more frequently if indicators of impairment are present. We first assess qualitative factors to determine whether the existence of events or circumstances leads to a determination that it is more likely than not that the fair value of the intangible asset is less than its carrying amount. If the qualitative factors indicate that it is more likely than not that the fair value of the intangible asset is less than its carrying amount, we compare the fair value of the non-amortizing intangible asset, established using Level 3 Inputs, with its carrying amount. If the carrying amount of an intangible asset exceeds its fair value, an impairment loss is recognized equal to the excess.

Refer to Note 4, Goodwill and Intangible Assets, Net, for additional information.

Company-owned life insurance — We have purchased company-owned life insurance (“COLI”) policies to support our non-qualified benefit plans. The cash surrender values of these policies were \$106.0 million and \$99.5 million as of October 2, 2016 and September 27, 2015, respectively, and are included in other assets, net in the accompanying consolidated balance sheets. Changes in cash surrender values are included in selling, general and administrative expenses in the accompanying consolidated statements of earnings. These policies reside in an umbrella trust for use only to pay plan benefits to participants or to pay creditors if the Company becomes insolvent.

Leases — We review all leases for capital or operating classification at their inception under the FASB authoritative guidance for leases. Our operations are primarily conducted under operating leases. Within the provisions of certain leases, there are rent holidays and escalations in payments over the base lease term, as well as renewal periods. The effects of the holidays and escalations have been reflected in rent expense on a straight-line basis over the expected lease term. Differences between amounts paid and amounts expensed are recorded as deferred rent. The lease term commences on the date when we have the right to control the use of the leased property. Certain leases also include contingent rent provisions based on sales levels, which are accrued at the point in time we determine that it is probable such sales levels will be achieved. Refer to Note 8, Leases, for additional information.

Revenue recognition — Revenue from company restaurant sales is recognized when the food and beverage products are sold and are presented net of sales taxes.

Our franchise arrangements generally provide for franchise fees and continuing fees based upon a percentage of sales (“royalties”). In order to renew a franchise agreement upon expiration, a franchisee must obtain the Company’s approval and pay then current fees. Franchise development and license fees are recorded as deferred revenue until we have substantially performed all of our contractual obligations and the restaurant has opened for business. Franchise royalties are recorded in revenues on an accrual basis. Among other things, a franchisee may be provided the use of land and building, generally for a period of 20 years, and is required to pay negotiated rent, property taxes, insurance and maintenance. Franchise rents based on fixed rental payments are recognized as revenue over the term of the lease. Certain franchise rents, which are contingent upon sales levels, are recognized in the period in which the contingency is met.

F-10

JACK IN THE BOX INC. AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Gift cards — We sell gift cards to our customers in our restaurants and through selected third parties. The gift cards sold to our customers have no stated expiration dates and are subject to actual and/or potential escheatment rights in several of the jurisdictions in which we operate. We recognize income from gift cards when redeemed by the customer.

While we will continue to honor all gift cards presented for payment, we may determine the likelihood of redemption to be remote for certain card balances due to, among other things, long periods of inactivity. In these circumstances, to the extent we determine there is no requirement for remitting balances to government agencies under unclaimed property laws, card balances may be recognized as a reduction to selling, general and administrative expenses in the accompanying consolidated statements of earnings.

Income recognized on unredeemed gift card balances was \$1.0 million, \$1.0 million and \$0.8 million in fiscal 2016, 2015 and 2014, respectively.

Pre-opening costs associated with the opening of a new restaurant consist primarily of property rent and employee training costs, and are expensed as incurred in selling, general and administrative expenses in the accompanying consolidated statements of earnings.

Restaurant closure costs — All costs associated with exit or disposal activities are recognized when they are incurred. Restaurant closure costs, which are included in impairment and other charges, net and (gains) losses on the sale of company-operated restaurants in the accompanying consolidated statements of earnings, primarily consist of future lease commitments, net of anticipated sublease rentals, and expected ancillary costs.

Self-insurance — We are self-insured for a portion of our workers' compensation, general liability, employee medical and dental, and automotive claims. We utilize a paid-loss plan for our workers' compensation, general liability and automotive programs, which have predetermined loss limits per occurrence and in the aggregate. We establish our insurance liability (undiscounted) and reserves using independent actuarial estimates of expected losses for determining reported claims and as the basis for estimating claims incurred, but not reported. As of October 2, 2016 and September 27, 2015, our estimated liability for general liability and workers' compensation claims exceeded our self-insurance retention limits by \$8.6 million and \$25.8 million, respectively, which we expect our insurance providers to pay on our behalf in accordance with the contractual terms of our insurance policies.

Advertising costs — We administer marketing funds which include contractual contributions. In fiscal 2016 and 2015, the marketing funds at franchise and company-operated restaurants were generally 5% and 2% of gross revenues at Jack in the Box and Qdoba restaurants, respectively. In fiscal 2014 the marketing funds were approximately 5% and 1% of gross revenues at Jack in the Box and Qdoba restaurants, respectively. We record contributions from franchisees as a liability included in accrued liabilities in the accompanying consolidated balance sheets until such funds are expended. The contributions to the marketing funds are designated for sales driving and marketing-related initiatives and advertising, and we act as an agent for the franchisees with regard to these contributions. Therefore, we do not reflect franchisee contributions to the funds in our consolidated statements of earnings.

Production costs of commercials, programming and other marketing activities are charged to the marketing funds when the advertising is first used for its intended purpose, and the costs of advertising are charged to operations as incurred. Total contributions and other marketing expenses are included in selling, general, and administrative expenses in the accompanying consolidated statements of earnings. The following table provides a summary of advertising costs in each fiscal year (in thousands):

	2016	2015	2014
Jack in the Box	\$41,189	\$41,895	\$42,349
Qdoba	20,488	17,687	18,215
Total	\$61,677	\$59,582	\$60,564

Share-based compensation — We account for our share-based compensation under the FASB authoritative guidance on stock compensation, which generally requires, among other things, that all employee share-based compensation be measured using a fair value method and that the resulting compensation cost be recognized in the financial statements.

Compensation expense for our share-based compensation awards is generally recognized on a straight-line basis over the shorter of the vesting period or the period from the date of grant to the date the employee becomes eligible to retire. Refer to Note 12, Share-based Employee Compensation, for additional information.

Income taxes — Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases, as well as tax loss and credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. We recognize interest and, when applicable, penalties related to unrecognized tax benefits as a component of our income tax provision.

F-11

JACK IN THE BOX INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Authoritative guidance issued by the FASB prescribes a minimum probability threshold that a tax position must meet before a financial statement benefit is recognized. The minimum threshold is defined as a tax position that is more likely than not to be sustained upon examination by the applicable taxing authority, including resolution of any related appeals or litigation processes, based on the technical merits of the position. Refer to Note 10, Income Taxes, for additional information.

Derivative instruments — From time to time, we use interest rate swap agreements to manage interest rate exposure. We do not speculate using derivative instruments. We purchase derivative instruments only for the purpose of risk management.

All derivatives are recognized on the consolidated balance sheets at fair value based upon quoted market prices. Changes in the fair values of derivatives are recorded in earnings or other comprehensive income (“OCI”), based on whether or not the instrument is designated as a hedge transaction. Gains or losses on derivative instruments that qualify for hedge designation are reported in OCI and are reclassified to earnings in the period the hedged item affects earnings. If the underlying hedge transaction ceases to exist, any associated amounts reported in OCI are reclassified to earnings at that time. Any ineffectiveness is recognized in earnings in the current period. Refer to Note 5, Fair Value Measurements, and Note 6, Derivative Instruments, for additional information regarding our derivative instruments.

Contingencies — We recognize liabilities for contingencies when we have an exposure that indicates it is probable that an asset has been impaired or that a liability has been incurred and the amount of impairment or loss can be reasonably estimated. Our ultimate legal and financial liability with respect to such matters cannot be estimated with certainty and requires the use of estimates. When the reasonable estimate is a range, the recorded loss will be the best estimate within the range. We record legal settlement costs when those costs are probable and reasonably estimable. Refer to Note 15, Commitments, Contingencies and Legal Matters, for additional information.

Segment reporting — An operating segment is defined as a component of an enterprise that engages in business activities from which it may earn revenues and incur expenses, and about which separate financial information is regularly evaluated by our chief operating decision makers in deciding how to allocate resources. Similar operating segments can be aggregated into a single operating segment if the businesses are similar. We operate our business in two operating segments, Jack in the Box and Qdoba restaurant operations. Refer to Note 16, Segment Reporting, for additional discussion regarding our segments.

Effect of new accounting pronouncement adopted in fiscal 2016 — In November 2015, the FASB issued ASU No. 2015-17, Income Taxes (Topic 740): Balance Sheet Classification of Deferred Taxes, which simplifies the presentation of deferred income taxes. This standard requires deferred tax liabilities and assets to be classified as noncurrent in a classified statement of financial position. This standard is effective prospectively or retrospectively for all periods presented for annual and interim periods beginning after December 15, 2017, with early adoption permitted. We early adopted this standard in 2016 and the prior period was retrospectively adjusted, resulting in a \$40.0 million reclassification of current deferred income taxes to other assets, net on our September 27, 2015 consolidated balance sheet.

Effect of new accounting pronouncements to be adopted in future periods — In April 2015, the FASB issued Accounting Standards Update (“ASU”) No. 2015-03, Simplifying the Presentation of Debt Issuance Costs, which changes the presentation of debt issuance costs in financial statements. Under this ASU, an entity presents such costs on the balance sheet as a direct deduction from the related debt liability rather than as an asset. This new standard is effective for annual reporting periods beginning after December 15, 2015, including interim periods within that reporting period. As such, we will be required to adopt this standard in the first quarter of fiscal 2017 and will reclassify debt issuance costs from other assets, net to long-term debt within our consolidated balance sheets. As of October 2, 2016, the carrying amount of unamortized debt issuance costs totaled \$8.2 million. Other than this reclassification, the adoption of this ASU will not impact our consolidated financial statements.

In May 2014, the FASB issued ASU No. 2014-09, Revenue Recognition - Revenue from Contracts with Customers (Topic 606), which provides a comprehensive new revenue recognition model that requires an entity to recognize revenue in an amount that reflects the consideration the entity expects to receive for the transfer of promised goods or services to its customers. The standard also requires additional disclosure regarding the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers. Further, in March 2016, the FASB issued ASU No. 2016-08, Revenue from Contracts with Customers (Topic 606): Principal versus Agent Considerations (Reporting Revenue Gross versus Net), which clarifies the guidance in ASU No. 2014-09 when evaluating when another party, along with the entity, is involved in providing a good or service to a customer. In April 2016, the FASB issued ASU No. 2016-10, Revenue from Contracts with Customers (Topic 606): Identifying Performance Obligations and Licensing, which clarifies the guidance in ASU No. 2014-09 regarding assessing whether promises to transfer goods or services are distinct, and whether an entity's promise to grant a license provides a customer with a right to use, or right to access the entity's intellectual property. All standards are effective for annual periods beginning after December 15, 2017, and interim periods within that reporting period. As such, we will be required to adopt these standards in the first quarter of fiscal 2019.

F-12

JACK IN THE BOX INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

These standards are to be applied retrospectively or using a cumulative effect transition method, and early adoption is not permitted. We do not believe the new revenue recognition standard will impact our recognition of restaurant sales, rental revenues or royalty fees from franchisees. However, we are still evaluating the impact that this pronouncement will have on the recognition of transactions on our consolidated financial statements, including the initial franchise fees currently recognized upon the opening of a franchise restaurant and our advertising arrangements with franchisees currently reported on a net versus gross basis in our consolidated statements of earnings, and the effect it will have on our disclosures. We have not yet selected a transition method.

In August 2015, the FASB issued ASU No. 2015-15, "Interest-Imputation of Interest: Presentation and Subsequent Measurement of Debt Issuance Costs Associated with Line-of-Credit Arrangements," which addresses line-of-credit arrangements that were omitted from ASU No. 2015-03 (see below). This ASU states that the SEC staff would not object to an entity deferring and presenting debt issuance costs related to a line-of-credit arrangement as an asset and subsequently amortizing those costs ratably over the term of the arrangement, regardless of whether there are any outstanding borrowings on the line-of-credit arrangement. This new standard is effective for annual reporting periods beginning after December 15, 2015, including interim periods within that reporting period, with early adoption permitted. We do not expect that this standard will have a material impact on our consolidated financial statements or disclosures upon adoption in fiscal 2017.

In February 2016, the FASB issued ASU No. 2016-02, Leases (Topic 842), which requires a lessee to recognize assets and liabilities on the balance sheet for those leases classified as operating leases under previous guidance. This standard is effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. As such, we will be required to adopt this standard in the first quarter of fiscal 2020. This standard requires adoption based upon a modified retrospective transition approach, with early adoption permitted. Based on a preliminary assessment, we expect that most of our operating lease commitments will be subject to the new guidance and recognized as operating lease liabilities and right-of-use assets upon adoption, resulting in a significant increase in the assets and liabilities on our consolidated balance sheets. We are continuing our evaluation, which may identify additional impacts this standard will have on our consolidated financial statements and related disclosures.

In March 2016, the FASB issued ASU No. 2016-04, Liabilities-Extinguishment of Liabilities (Subtopic 405-20): Recognition of Breakage for Certain Prepaid Stored-Value Products, which is designed to provide guidance and eliminate diversity in the accounting for the derecognition of financial liabilities related to certain prepaid stored-value products using a revenue-like breakage model. This standard is effective for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years, with early adoption permitted. This standard is to be applied retrospectively or using a cumulative effect transition method as of the date of adoption. We are currently evaluating which transition method to use, but believe the impact this standard will have on our consolidated financial statements and related disclosures will be immaterial upon adoption.

In March 2016, the FASB issued ASU No. 2016-09, Compensation-Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting. This standard is intended to simplify various aspects of accounting for share-based compensation arrangements, including the income tax impact, classification on the statement of cash flows and forfeitures. This standard is effective for annual reporting periods beginning after December 15, 2016, and interim periods within that reporting period, with early adoption permitted. As such, we will be required to adopt this standard in fiscal 2018 and will classify the excess tax benefits from share-based compensation arrangements, which were \$7.5 million in fiscal 2016, as a discrete item within income tax expense on the consolidated statements of earnings, rather than recognizing such excess income tax benefits in capital in excess of par value on the consolidated statements of stockholders' (deficit) equity. This reclassification will be made on a prospective basis and will also impact the related classification on our consolidated statements of cash flows as excess tax benefits from share-based compensation arrangements are currently reported in cash flows from operating activities and cash flows used in investing activities. Other than these reclassifications, we do not believe the adoption of this ASU will materially impact our consolidated financial statements.

In August 2016, the FASB issued ASU 2016-15, Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments. This standard is intended to address eight classification issues related to the statement of cash flows to reduce diversity in practice in how certain transactions are classified. This standard is effective for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years, with early adoption permitted. This standard requires adoption based upon a retrospective transition method. We are currently evaluating this standard, but do not believe it will have a material impact on the classification of cash flows within our statement of cash flows.

JACK IN THE BOX INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

2. DISCONTINUED OPERATIONS

Distribution business — During fiscal 2012, we entered into an agreement with a third party distribution service provider pursuant to a plan approved by our board of directors to sell our Jack in the Box distribution business. During fiscal 2013, we completed the transition of our distribution centers. The operations and cash flows of the business have been eliminated and in accordance with the provisions of the FASB authoritative guidance on the presentation of financial statements, the results are reported as discontinued operations for all periods presented.

In 2016, 2015 and 2014, results of discontinued operations were immaterial to our consolidated results of operations. Our liability for lease commitments related to our distribution centers is immaterial to our consolidated balance sheets as of October 2, 2016 and September 27, 2015. The lease commitment balance relates to one distribution center lease that expires in fiscal 2017 and is currently subleased at a loss. The future minimum lease payments and receipts for the next fiscal year are included in the amounts disclosed in Note 8, Leases.

2013 Qdoba Closures — During fiscal 2013, we closed 62 Qdoba restaurants. The decision to close these restaurants was based on a comprehensive analysis that took into consideration levels of return on investment and other key operating performance metrics. Since the closed restaurants were not predominantly located near those remaining in operation, we did not expect the majority of cash flows and sales lost from these closures to be recovered. In addition, we did not anticipate any ongoing involvement or significant direct cash flows from the closed stores. Therefore, in accordance with the provisions of the FASB authoritative guidance on the presentation of financial statements, the results of operations for these restaurants are reported as discontinued operations for all periods presented.

The following table summarizes the results related to the 2013 Qdoba Closures for each fiscal year (in thousands):

	2016	2015	2014
Asset impairments	\$—	\$—	\$(2,170)
Unfavorable lease commitment adjustments	(2,818)	(4,594)	(4,536)
Bad debt expense related to subtenants	(234)	(366)	—
Brokers commissions	(58)	(234)	(652)
Ongoing facility related and other costs	(71)	(302)	(889)
Loss before income tax benefit	\$(3,181)	\$(5,496)	\$(8,247)

We do not expect the remaining costs to be incurred related to the closures to be material; however, the estimates we make related to our future lease obligations, primarily sublease income, are subject to a high degree of judgment and may differ from actual sublease income due to changes in economic conditions, desirability of the sites and other factors.

Our liability for lease commitments related to the 2013 Qdoba closures is included in accrued liabilities and other long-term liabilities in the accompanying consolidated balance sheets and has changed as follows during fiscal year 2016 (in thousands):

Balance at September 27, 2015	\$4,256
Adjustments (1)	2,818
Cash payments	(4,131)
Balance at October 2, 2016 (2)	\$2,943

(1) Adjustments relate to revisions to certain sublease and cost assumptions due to changes in market conditions, as well as a charge to terminate three lease agreements, and includes interest expense.

(2) The weighted average remaining lease term related to these commitments is approximately three years.

The balance at October 2, 2016 relates to six locations subleased at a loss and 16 locations we are marketing for sublease. The future minimum lease payments and receipts for the next five fiscal years and thereafter are included in the amounts disclosed in Note 8, Leases.

JACK IN THE BOX INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

3. SUMMARY OF REFRANCHISINGS, FRANCHISEE DEVELOPMENT AND ACQUISITIONS

Refranchisings and franchisee development — The following table summarizes the number of restaurants sold to franchisees, the number of restaurants developed by franchisees, and the related fees and gains (losses) recognized in each fiscal year (dollars in thousands):

	2016	2015	2014
Restaurants sold to franchisees	1	21	37
New restaurants opened by franchisees:			
Jack in the Box	12	16	11
Qdoba	18	22	22
Initial franchise fees	\$955	\$1,453	\$1,886
Proceeds from the sale of company-operated restaurants (1)	\$1,439	\$3,951	\$10,536
Net assets sold (primarily property and equipment)	(195)	(4,283)	(5,558)
Goodwill related to the sale of company-operated restaurants	(15)	(47)	(170)
Other (2)	1	(2,760)	(6,500)
Gains (losses) on the sale of company-operated restaurants	1,230	(3,139)	(1,692)
Loss on anticipated sale of a Jack in the Box company-operated market (3)	—	—	(1,856)
Gains (losses) on the sale of company-operated restaurants	\$1,230	\$(3,139)	\$(3,548)

Amounts in 2016, 2015 and 2014 include additional proceeds of \$1.4 million, \$1.5 million and \$2.1 million, (1) respectively, recognized upon the extension of the underlying franchise and lease agreements related to restaurants sold in a prior year.

Amounts in 2015 and 2014 primarily represent impairment and lease commitment charges related to restaurants (2) closed in connection with the sale of the related markets, and charges for operating restaurant leases with lease commitments in excess of our sublease rental income.

In 2014, the loss on the anticipated sale of a Jack in the Box market relates to 25 company-operated restaurants of (3) which we sold 20, and closed the remaining five, in fiscal 2015.

Franchise acquisitions — We acquired one, seven and four Jack in the Box franchise restaurants in 2016, 2015 and 2014, respectively. In 2016, we acquired 14 Qdoba franchise restaurants. We account for the acquisition of franchised restaurants using the acquisition method of accounting for business combinations. The purchase price allocations were based on fair value estimates determined using significant unobservable inputs (Level 3). The goodwill recorded primarily relates to the sales growth potential of the markets acquired and is expected to be deductible for income tax purposes. The following table provides detail of the combined acquisitions in each fiscal year (dollars in thousands):

	2016	2015	2014
Restaurants acquired from franchisees	15	7	4
Goodwill	\$17,034	\$ —	\$256
Property and equipment	2,954	646	1,398
Gains on the acquisition of franchise-operated restaurants	(289)	(33)	—
Liabilities assumed	(114)	(61)	—
Other	231	—	96
Total consideration	\$19,816	\$ —	\$1,750

4. GOODWILL AND INTANGIBLE ASSETS, NET

Edgar Filing: JACK IN THE BOX INC /NEW/ - Form 10-K

The changes in the carrying amount of goodwill during fiscal 2016 and 2015 by reportable segment were as follows (in thousands):

	Jack in the Box	Qdoba	Total
Balance at September 28, 2014	\$ 48,477	\$ 100,597	\$ 149,074
Sale of company-operated restaurants to franchisees	(47)	—	(47)
Balance at September 27, 2015	48,430	100,597	149,027
Acquisition of franchise-operated restaurants	—	17,034	17,034
Sale of company-operated restaurants to franchisees	(15)	—	(15)
Balance at October 2, 2016	\$ 48,415	\$ 117,631	\$ 166,046

F-15

JACK IN THE BOX INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Intangible assets, net consist of the following as of the end of each fiscal year (in thousands):

	2016	2015
Amortized intangible assets:		
Gross carrying amount	\$ 17,205	\$ 17,267
Less accumulated amortization	(11,963)	(11,302)
Net carrying amount	5,242	5,965
Non-amortized intangible assets:		
Trademark	8,800	8,800
Net carrying amount	\$ 14,042	\$ 14,765

Amortized intangible assets include acquired franchise contracts recorded in connection with our acquisition of Qdoba in 2003, lease acquisition costs and reacquired franchise rights. The weighted-average life of these amortized intangible assets is approximately 27 years. Total amortization expense related to intangible assets was \$0.8 million, \$0.8 million and \$0.9 million in fiscal 2016, 2015 and 2014, respectively.

The following table summarizes, as of October 2, 2016, the estimated amortization expense for each of the next five fiscal years (in thousands):

2017	\$777
2018	\$732
2019	\$671
2020	\$633
2021	\$592

5. FAIR VALUE MEASUREMENTS

Financial assets and liabilities — The following table presents the financial assets and liabilities measured at fair value on a recurring basis (in thousands):

	Total	Quoted Prices in Active Markets for Identical Assets (3) (Level 1)	Significant Other Observable Inputs (3) (Level 2)	Significant Unobservable Inputs (3) (Level 3)
Fair value measurements as of October 2, 2016:				
Non-qualified deferred compensation plan (1)	\$(36,933)	\$(36,933)	\$—	\$ —
Interest rate swaps (Note 6) (2)	(47,765)	—	(47,765)	—
Total liabilities at fair value	\$(84,698)	\$(36,933)	\$(47,765)	\$ —
Fair value measurements as of September 27, 2015:				
Non-qualified deferred compensation plan (1)	\$(35,003)	\$(35,003)	\$—	\$ —
Interest rate swaps (Note 6) (2)	(26,374)	—	(26,374)	—
Total liabilities at fair value	\$(61,377)	\$(35,003)	\$(26,374)	\$ —

(1) We maintain an unfunded defined contribution plan for key executives and other members of management. The fair value of this obligation is based on the closing market prices of the participants' elected investments.

(2) We entered into interest rate swaps to reduce our exposure to rising interest rates on our variable rate debt. The fair values of our interest rate swaps are based upon Level 2 inputs which include valuation models as reported by our counterparties. The key inputs for the valuation models are quoted market prices, discount

rates and forward yield curves.

(3) We did not have any transfers in or out of Level 1, 2 or 3.

The fair values of the Company's debt instruments are based on the amount of future cash flows associated with each instrument discounted using the Company's borrowing rate. At October 2, 2016, the carrying value of all financial instruments was not materially different from fair value, as the borrowings are prepayable without penalty. The estimated fair values of our capital lease obligations approximated their carrying values as of October 2, 2016.

F-16

JACK IN THE BOX INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Non-financial assets and liabilities — Our non-financial instruments, which primarily consist of property and equipment, goodwill and intangible assets, are reported at carrying value and are not required to be measured at fair value on a recurring basis. However, on an annual basis or whenever events or changes in circumstances indicate that their carrying value may not be recoverable, non-financial instruments are assessed for impairment. If the carrying values are not fully recoverable, they are written down to fair value.

In connection with our impairment reviews performed during fiscal 2016, we recorded an impairment charge of \$0.5 million related to an underperforming Qdoba restaurant which is currently held for use. No other fair value adjustments were required. Refer to Note 9, Impairment and Other Charges, Net, for additional information regarding impairment charges.

6. DERIVATIVE INSTRUMENTS

Objectives and strategies — We are exposed to interest rate volatility with regard to our variable rate debt. In April 2014, to reduce our exposure to rising interest rates, we entered into nine forward-starting interest rate swap agreements that effectively converted \$300.0 million of our variable rate borrowings to a fixed-rate basis from October 2014 through October 2018. Additionally, in June 2015, we entered into eleven forward-starting interest rate swap agreements that effectively convert an additional \$200.0 million of our variable rate borrowings to a fixed rate from October 2015 through October 2018, and \$500.0 million from October 2018 through October 2022.

These agreements have been designated as cash flow hedges under the terms of the FASB authoritative guidance for derivatives and hedging. To the extent that they are effective in offsetting the variability of the hedged cash flows, changes in the fair values of the derivatives are not included in earnings, but are included in OCI. These changes in fair value are subsequently reclassified into net earnings as a component of interest expense as the hedged interest payments are made on our variable rate debt.

Financial position — The following derivative instruments were outstanding as of the end of each fiscal year (in thousands):

	Balance Sheet Location	Fair Value October 2, September 27, 2016 2015	
Derivatives designated as hedging instruments:			
Interest rate swaps (Note 5)	Accrued liabilities	\$(5,857)	\$(3,379)
Interest rate swaps (Note 5)	Other long-term liabilities	(41,908)	(22,995)
Total derivatives		\$(47,765)	\$(26,374)

Financial performance — The following table summarizes the accumulated OCI activity related to our interest rate swap derivative instruments in each fiscal year (in thousands):

	Location of Loss	2016	2015	2014
Loss recognized in OCI	N/A	\$(25,439)	\$(26,596)	\$(1,890)
Loss reclassified from accumulated OCI into net earnings	Interest expense, net	\$4,048	\$2,011	\$1,291

Amounts reclassified from accumulated OCI into interest expense represent payments made to the counterparty for the effective portions of the interest rate swaps. During the fiscal years presented, our interest rate swaps had no hedge ineffectiveness.

7. INDEBTEDNESS

The detail of our long-term debt at the end of each fiscal year is as follows (in thousands):

Edgar Filing: JACK IN THE BOX INC /NEW/ - Form 10-K

	2016	2015
Revolver, variable interest rate based on an applicable margin plus LIBOR, 2.52% at October 2, 2016	\$282,422	\$395,000
Term loan, variable interest rate based on an applicable margin plus LIBOR, 2.53% at October 2, 2016	694,141	300,000
Capital lease obligations, 3.6% weighted average interest rate at October 2, 2016	18,523	20,256
	995,086	715,256
Less current portion	(57,574)	(26,677)
	\$937,512	\$688,579

F-17

JACK IN THE BOX INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

New credit facility — On September 16, 2016, the Company amended its credit facility to increase its overall borrowing capacity. The amended credit facility was increased to \$1.6 billion, consisting of (i) a \$900.0 million revolving credit agreement and (ii) a \$700.0 million term loan. The interest rate on the amended credit facility is based on the Company's leverage ratio and can range from the London Interbank Offered Rate ("LIBOR") plus 1.25% to 2.25% with a 0% floor on the LIBOR. The amendment also, among other things, amended certain covenants already contained in the credit agreement. Both the revolving credit agreement and the term loan have maturity dates of March 19, 2019 which did not change as part of the amendment. As part of the existing credit agreement, we may also request the issuance of up to \$75.0 million in letters of credit, the outstanding amount of which reduces our net borrowing capacity under the agreement. As of October 2, 2016, our unused borrowing capacity was \$592.5 million.

Use of proceeds — Upon amendment, the Company borrowed \$417.6 million under the amended term loan and used the full amount to pay down our revolving credit agreement.

Collateral — The Company's obligations under the credit facility are secured by first priority liens and security interests in the capital stock, partnership and membership interests owned by the Company and/or its subsidiaries, and any proceeds thereof, subject to certain restrictions set forth in the credit agreement. Additionally, there is a negative pledge on all tangible and intangible assets (including all real and personal property) with customary exceptions as reflected in the credit agreement.

Covenants — We are subject to a number of customary covenants under our credit facility, including limitations on additional borrowings, acquisitions, loans to franchisees, lease commitments, stock repurchases and dividend payments, and requirements to maintain certain financial ratios as defined in the credit agreement.

Future cash payments — Scheduled principal payments on our long-term debt outstanding at October 2, 2016 for each of the next five fiscal years and thereafter are as follows (in thousands):

2017	\$57,574
2018	66,633
2019	860,353
2020	2,371
2021	2,440
Thereafter	5,715
	\$995,086

We may make voluntary prepayments of the loans under the revolving credit agreement and term loan at any time without premium or penalty. Specific events such as asset sales, certain issuances of debt, and insurance and condemnation recoveries, may trigger a mandatory prepayment.

8. LEASES

As lessee — We lease restaurants and other facilities, which generally have renewal clauses of 1 to 20 years exercisable at our option. In some instances, these leases have provisions for contingent rentals based upon a percentage of defined revenues. Many of our restaurant and other facility leases also have rent escalation clauses and require the payment of property taxes, insurance and maintenance costs. We also lease certain restaurant and office equipment. Minimum rental obligations are accounted for on a straight-line basis over the term of the initial lease, plus lease option terms for certain locations.

The components of rent expense were as follows in each fiscal year (in thousands):

	2016	2015	2014
Minimum rentals	\$222,437	\$212,722	\$213,082
Contingent rentals	2,943	2,549	1,986
Total rent expense	225,380	215,271	215,068
Less rental expense on subleased properties	(145,173)	(141,946)	(139,976)
Net rent expense	\$80,207	\$73,325	\$75,092

F-18

JACK IN THE BOX INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

The following table presents as of October 2, 2016, future minimum lease payments under capital and operating leases, including leases recorded as lease obligations relating to continuing and discontinued operations (in thousands):

Fiscal Year	Capital Leases	Operating Leases
2017	\$3,423	\$235,048
2018	3,295	206,170
2019	2,911	198,043
2020	2,808	171,101
2021	2,810	153,809
Thereafter	7,107	530,142
Total minimum lease payments	22,354	\$1,494,313
Less amount representing interest, 3.6% weighted average interest rate	(3,831)	
Present value of obligations under capital leases	18,523	
Less current portion	(2,818)	
Long-term capital lease obligations	\$15,705	

Total future minimum lease payments of approximately \$1.0 billion included in the table above are expected to be recovered under our non-cancelable operating subleases.

Assets recorded under capital leases are included in property and equipment, and consisted of the following at each fiscal year-end (in thousands):

	2016	2015
Buildings	\$9,716	\$10,716
Equipment	17,855	16,770
Less accumulated amortization	(10,325)	(8,453)
	\$17,246	\$19,033

Amortization of assets under capital leases is included in depreciation and amortization expense in the consolidated statements of earnings.

As lessor — We lease or sublease restaurants to certain franchisees and others under agreements that generally provide for the payment of percentage rentals in excess of stipulated minimum rentals, usually for a period up to 20 years. Most of our leases have rent escalation clauses and renewal clauses of 5 to 20 years. The following table summarizes rents received under these agreements in each fiscal year (in thousands):

	2016	2015	2014
Total rental income (1)	\$238,375	\$232,264	\$222,443
Contingent rentals	\$31,632	\$28,348	\$19,551

(1) Includes contingent rentals.

The minimum rents receivable expected to be received under these non-cancelable operating leases and subleases, including leases recorded as lease obligations relating to continuing and discontinuing operations, and excluding contingent rentals, as of October 2, 2016 are as follows (in thousands):

Fiscal Year	
2017	\$207,754
2018	187,029
2019	202,471
2020	199,072
2021	210,909
Thereafter	1,200,831

Total minimum future rent receivable \$2,208,066

F-19

JACK IN THE BOX INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Assets held for lease and included in property and equipment consisted of the following at each fiscal year-end (in thousands):

	2016	2015
Land	\$73,527	\$72,248
Buildings	674,690	678,044
Equipment	4,382	4,374
	752,599	754,666
Less accumulated depreciation	(480,600)	(453,056)
	\$271,999	\$301,610

9. IMPAIRMENT AND OTHER CHARGES, NET

Impairment and other charges, net in the accompanying consolidated statements of earnings is comprised of the following (in thousands):

	2016	2015	2014
Restructuring costs	\$10,067	\$29	\$8,621
Costs of closed restaurants (primarily lease obligations) and other	3,431	3,592	2,841
Losses on disposition of property and equipment, net	2,801	1,319	1,674
Accelerated depreciation	2,214	6,260	1,202
Restaurant impairment charges	544	557	570
	\$19,057	\$11,757	\$14,908

Restructuring costs — Since the beginning of 2012, we have been engaged in a comprehensive review of our organization structure, including evaluating opportunities to decrease general and administrative expenses, as well as improve profitability across both brands. In 2016, management initiated a plan that includes cost saving initiatives from workforce reductions, the relocation of our Qdoba corporate support center, refranchising initiatives, and the consolidation of information technology across both brands.

The following is a summary of the costs incurred in connection with these activities during each fiscal year (in thousands):

	2016	2015	2014
Employee severance and related costs	\$7,583	\$29	\$2,141
Facility closing costs	2,004	—	—
Other (1)	480	—	6,480
	\$10,067	\$29	\$8,621

(1) Other primarily represents employee relocation costs in 2016, and in 2014, an impairment charge related to a restaurant software asset we no longer planned to place in service.

In 2016, approximately \$2.0 million and \$6.3 million of the restructuring costs are related to our Jack in the Box and Qdoba restaurant operating segments, respectively, and approximately \$1.8 million is related to shared services functions. At this time, we are unable to estimate additional charges to be incurred subsequent to fiscal 2016.

Total accrued severance costs related to our restructuring activities are included in accrued liabilities and changed as follows during fiscal 2016 (in thousands):

Balance as of September 27, 2015	\$—
Additions	7,583
Cash payments	(3,385)
Balance as of October 2, 2016	\$4,198

JACK IN THE BOX INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Restaurant closing costs — Costs of closed restaurants primarily consist of future lease commitments and expected ancillary costs, net of anticipated sublease rentals. Accrued restaurant closing costs, included in accrued liabilities and other long-term liabilities, changed as follows during fiscal 2016 (in thousands):

Balance as of September 27, 2015	\$9,707
Additions	464
Adjustments (1)	946
Interest expense	1,442
Cash payments	(5,328)
Balance as of October 2, 2016 (2)	\$7,231

Adjustments relate primarily to revisions of certain sublease and cost assumptions. Our estimates related to our future lease obligations, primarily the sublease income we anticipate, are subject to a high degree of judgment and (1) may differ from actual sublease income due to changes in economic conditions, desirability of the sites and other factors.

(2) The weighted average remaining lease term related to these commitments is approximately five years.

The future minimum lease payments and receipts for the next five fiscal years and thereafter are included in the amounts disclosed in Note 8, Leases. Our obligations under the leases included in the above table expire at various dates between fiscal 2017 and 2029.

Disposition of property and equipment — In 2015, losses on the disposition of property and equipment were offset by \$0.9 million in gains from the resolution of one eminent domain matter involving a Jack in the Box restaurant.

Accelerated depreciation — When a long-lived asset will be replaced or otherwise disposed of prior to the end of its estimated useful life, the useful life of the asset is adjusted based on the estimated disposal date and accelerated depreciation is recognized. In 2016 and 2015, accelerated depreciation primarily relates to expenses at our Jack in the Box company-operated restaurants for exterior facility enhancements and the replacement of technology equipment, and in 2015 it also includes a \$3.6 million charge related to the replacement of beverage equipment. In 2014, accelerated depreciation primarily relates to restaurant facility enhancements.

Restaurant impairment charges — When events and circumstances indicate that our long-lived assets might be impaired and their carrying amount is greater than the undiscounted cash flows we expect to generate from such assets, we recognize an impairment loss as the amount by which the carrying value exceeds the fair value of the assets.

Impairment charges in all years presented were not material to our consolidated financial statements.

10. INCOME TAXES

Income taxes consist of the following in each fiscal year (in thousands):

	2016	2015	2014
Current:			
Federal	\$32,276	\$59,362	\$43,864
State	5,315	9,598	3,770
	37,591	68,960	47,634
Deferred:			
Federal	29,975	(2,018)	3,700
State	4,998	(1,173)	452
	34,973	(3,191)	4,152
Income tax expense from continuing operations	\$72,564	\$65,769	\$51,786
Income tax benefit from discontinued operations	\$(1,365)	\$(2,410)	\$(3,629)

JACK IN THE BOX INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

A reconciliation of the federal statutory income tax rate to our effective tax rate for continuing operations is as follows:

	2016	2015	2014
Computed at federal statutory rate	35.0%	35.0%	35.0%
State income taxes, net of federal tax benefit	3.7	3.7	3.3
Benefit of jobs tax credits, net of valuation allowance	(1.0)	(1.1)	(1.2)
(Benefit) expense related to COLIs	(1.3)	0.3	(1.6)
Other, net	0.1	(1.0)	(0.2)
	36.5%	36.9%	35.3%

The tax effects of temporary differences that give rise to significant portions of deferred tax assets and deferred tax liabilities at each year-end are presented below (in thousands):

	2016	2015
Deferred tax assets:		
Accrued defined benefit pension and postretirement benefits	\$89,253	\$92,456
Impairment	21,904	23,982
Interest rate swaps	18,483	10,208
Accrued insurance	14,378	13,245
Tax loss and tax credit carryforwards	13,624	14,081
Leasing transactions	11,144	11,442
Share-based compensation	9,091	9,331
Lease commitments related to closed or refranchised locations	7,440	11,471
Accrued incentive compensation	5,536	6,412
Accrued vacation pay expense	2,137	2,193
Other reserves and allowances	1,935	1,584
Deferred income	1,887	1,417
Other, net	3,876	2,030
Total gross deferred tax assets	200,688	199,852
Valuation allowance	(11,365)	(11,563)
Total net deferred tax assets	189,323	188,289
Deferred tax liabilities:		
Property and equipment, principally due to differences in depreciation	(38,859)	(38,403)
Intangible assets	(31,827)	(30,132)
Other	(1,050)	(1,568)
Total gross deferred tax liabilities	(71,736)	(70,103)
Net deferred tax assets	\$117,587	\$118,186

Deferred tax assets as of October 2, 2016 include state net operating loss carry-forwards of approximately \$72.5 million expiring at various times between 2017 and 2036. At October 2, 2016 and September 27, 2015, we recorded a valuation allowance related to losses and state tax credits of \$11.4 million and \$11.6 million, respectively. We believe that it is more likely than not that these net operating loss and credit carry-forwards will not be realized and that the remaining deferred tax assets will be realized through future taxable income or alternative tax strategies.

Our gross unrecognized tax benefits associated with uncertain income tax positions decreased during fiscal 2015 due to the conclusion of an audit regarding a specific claim with California. A reconciliation of the beginning and ending amounts of unrecognized tax benefits follows (in thousands):

	2016	2015
Balance beginning of year	\$	—\$374

Change related to tax positions — (374)

Balance at end of year \$ —

From time to time, we may take positions for filing our tax returns which may differ from the treatment of the same item for financial reporting purposes. The ultimate outcome of these items will not be known until the Internal Revenue Service or state has completed its examination or until the statute of limitations has expired.

F-22

JACK IN THE BOX INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

The major jurisdictions in which the Company files income tax returns include the United States and states in which we operate that impose an income tax. The federal statutes of limitations have not expired for fiscal years 2013 and forward. The statutes of limitations for California and Texas, which constitute the Company's major state tax jurisdictions, have not expired for fiscal years 2012 and forward and 2011 and forward, respectively.

11. RETIREMENT PLANS

We sponsor programs that provide retirement benefits to our employees. These programs include defined contribution plans, defined benefit pension plans and postretirement healthcare plans.

Defined contribution plans — We maintain a qualified savings plan pursuant to Section 401(k) of the Internal Revenue Code ("IRC"). Effective January 1, 2016, the plan was amended and restated to incorporate Safe Harbor Plan design features which include changes to participant eligibility and company contribution amounts and vesting. The plan allows all employees who have satisfied the service requirements and reached age 21 to defer a percentage of their pay on a pre-tax basis. Beginning January 1, 2016, we match 100% of the first 4% of compensation deferred by the participant. Prior to January 1, 2016, we matched 50% of the first 4% of compensation deferred by the participant. Our contributions under this plan were \$3.8 million in fiscal 2016, and \$1.2 million and \$1.0 million in 2015 and 2014, respectively.

We also maintain an unfunded, non-qualified deferred compensation plan for key executives and other members of management whose compensation deferrals or company matching contributions to the qualified savings plan are limited due to IRC rules. Effective January 1, 2016, this non-qualified plan was amended to replace the company matching contribution with an annual restoration match that is intended to "restore" up to the full 4% match for participants whose elective deferrals (and related company matching contributions) to the qualified savings plan were limited due to IRC rules. Prior to January 1, 2016, we matched 100% of the first 3% contributed by the participant. This plan allows participants to defer up to 50% of their salary and 85% of their bonus, on a pre-tax basis. In addition, to compensate executives who were hired or promoted into an eligible position prior to May 7, 2015 and who may no longer participate in our supplemental defined benefit pension plan, we also contribute a supplemental amount equal to 4% of an eligible employee's salary and bonus for a period of 10 years in such eligible position. Our contributions under the non-qualified deferred compensation plan were \$0.3 million in fiscal 2016, and \$1.3 million and \$1.1 million in fiscal 2015 and 2014, respectively. A participant's right to Company contributions in the qualified plan vests immediately, and in the non-qualified plan vests at a rate of 25% per year of service.

Defined benefit pension plans — We sponsor two defined benefit pension plans, a "Qualified Plan" covering substantially all full-time employees hired prior to January 1, 2011, and an unfunded supplemental executive retirement plan ("SERP") which provides certain employees additional pension benefits and was closed to new participants effective January 1, 2007. In fiscal 2011, the Board of Directors approved changes to our Qualified Plan whereby participants will no longer accrue benefits effective December 31, 2015. This change was accounted for as a plan "curtailment" in accordance with FASB authoritative guidance. Benefits under both plans are based on the employees' years of service and compensation over defined periods of employment.

Postretirement healthcare plans — We also sponsor two healthcare plans, closed to new participants, that provide postretirement medical benefits to certain employees who have met minimum age and service requirements. The plans are contributory; with retiree contributions adjusted annually, and contain other cost-sharing features such as deductibles and coinsurance.

Prior service cost	—	153	—
Total	\$4,455	\$1,811	\$ 161

Additional year-end pension plan information — The projected benefit obligation (“PBO”) is the actuarial present value of benefits attributable to employee service rendered to date, including the effects of estimated future pay increases. The accumulated benefit obligation (“ABO”) also reflects the actuarial present value of benefits attributable to employee service rendered to date but does not include the effects of estimated future pay increases. Therefore, the ABO as compared to plan assets is an indication of the assets currently available to fund vested and nonvested benefits accrued through the end of the fiscal year. The funded status is measured as the difference between the fair value of a plan’s assets and its PBO.

F-24

JACK IN THE BOX INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

As of October 2, 2016 and September 27, 2015, the Qualified Plan's ABO exceeded the fair value of its plan assets. The SERP is an unfunded plan and, as such, had no plan assets as of October 2, 2016 and September 27, 2015. The following sets forth the PBO, ABO and fair value of plan assets of our pension plans as of the measurement date in each fiscal year (in thousands):

	2016	2015
Qualified Plan:		
Projected benefit obligation	\$522,459	\$442,264
Accumulated benefit obligation	\$522,459	\$441,451
Fair value of plan assets	\$438,402	\$332,657

SERP:

Projected benefit obligation	\$81,450	\$75,346
Accumulated benefit obligation	\$80,815	\$74,388
Fair value of plan assets	\$—	\$—

Net periodic benefit cost — The components of the fiscal year net periodic benefit cost were as follows (in thousands):

	2016	2015	2014
Qualified Plan:			
Service cost	\$4,479	\$7,592	\$7,633
Interest cost	20,926	19,750	20,196
Expected return on plan assets	(21,756)	(23,273)	(24,492)
Actuarial loss	2,828	8,278	3,575
Net periodic benefit cost	\$6,477	\$12,347	\$6,912
SERP:			
Service cost	\$773	\$676	\$490
Interest cost	3,253	2,945	3,049
Actuarial loss	1,259	1,134	859
Amortization of unrecognized prior service cost	240	269	269
Net periodic benefit cost	\$5,525	\$5,024	\$4,667
Postretirement health plans:			
Interest cost	\$1,263	\$1,196	\$1,639
Actuarial loss	219	182	542
Net periodic benefit cost	\$1,482	\$1,378	\$2,181

Prior service costs are amortized on a straight-line basis from date of participation to full eligibility. Unrecognized gains or losses are amortized using the "corridor approach" under which the net gain or loss in excess of 10% of the greater of the PBO or the market-related value of the assets, if applicable, is amortized. For our Qualified Plan in fiscal year 2016, actuarial losses were amortized over the average future expected lifetime of all participants expected to receive benefits, and in 2015 and 2014, actuarial losses were amortized on a straight-line basis over the expected remaining service period of plan participants. For our SERP, actuarial losses are amortized over the expected remaining future lifetime for inactive participants, and for our postretirement health plans, actuarial losses are amortized over the expected remaining future lifetime of inactive participants expected to receive benefits.

JACK IN THE BOX INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Assumptions — We determine our actuarial assumptions on an annual basis. In determining the present values of our benefit obligations and net periodic benefit costs as of and for the fiscal years ended October 2, 2016, September 27, 2015 and September 28, 2014, we used the following weighted-average assumptions:

	2016	2015	2014
Assumptions used to determine benefit obligations (1):			
Qualified Plan:			
Discount rate	3.85%	4.79%	4.60%
Rate of future pay increases	— %	3.50%	3.50%
SERP:			
Discount rate	3.60%	4.45%	4.36%
Rate of future pay increases	3.50%	3.50%	3.50%
Postretirement health plans:			
Discount rate	3.64%	4.47%	4.43%
Assumptions used to determine net periodic benefit cost (2):			
Qualified Plan:			
Discount rate	4.79%	4.60%	5.37%
Long-term rate of return on assets	6.50%	6.50%	7.25%
Rate of future pay increases	3.50%	3.50%	3.50%
SERP:			
Discount rate	4.45%	4.36%	4.88%
Rate of future pay increases	3.50%	3.50%	3.50%
Postretirement health plans:			
Discount rate	4.47%	4.43%	5.04%

(1) Determined as of end of year.

(2) Determined as of beginning of year.

The assumed discount rates were determined by considering the average of pension yield curves constructed of a population of high-quality bonds with a Moody's or Standard and Poor's rating of "AA" or better whose cash flow from coupons and maturities match the year-by-year projected benefit payments from the plans. As benefit payments typically extend beyond the date of the longest maturing bond, cash flows beyond 30 years were discounted back to the 30th year and then matched like any other payment.

The assumed expected long-term rate of return on assets is the weighted-average rate of earnings expected on the funds invested or to be invested to provide for the pension obligations. The long-term rate of return on assets was determined taking into consideration our projected asset allocation and economic forecasts prepared with the assistance of our actuarial consultants.

The assumed discount rate and expected long-term rate of return on assets have a significant effect on amounts reported for our pension and postretirement plans. A quarter percentage point decrease in the discount rate and long-term rate of return used would have decreased fiscal 2016 earnings before income taxes by \$0.5 million and \$0.8 million, respectively.

The assumed average rate of compensation increase is the average annual compensation increase expected over the remaining employment periods for the participating employees. For determining our Qualified Plan's projected benefit obligation as of October 2, 2016, no future pay increases were included in our assumptions as our plan participants no longer accrue benefits effective December 31, 2015.

JACK IN THE BOX INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

For measurement purposes, the weighted-average assumed health care cost trend rates for our postretirement health plans were as follows for each fiscal year:

	2016	2015	2014
Healthcare cost trend rate for next year:			
Participants under age 65	7.75 %	8.00 %	8.25 %
Participants age 65 or older	7.25 %	7.50 %	7.75 %
Rate to which the cost trend rate is assumed to decline:			
Participants under age 65	4.50 %	4.50 %	4.50 %
Participants age 65 or older	4.50 %	4.50 %	4.50 %
Year the rate reaches the ultimate trend rate:			
Participants under age 65	2030	2030	2030
Participants age 65 or older	2028	2028	2028

The assumed healthcare cost trend rate represents our estimate of the annual rates of change in the costs of the healthcare benefits currently provided by our postretirement plans. The healthcare cost trend rate implicitly considers estimates of healthcare inflation, changes in healthcare utilization and delivery patterns, technological advances and changes in the health status of the plan participants. The healthcare cost trend rate assumption has a significant effect on the amounts reported. For example, a 1.0% change in the assumed healthcare cost trend rate would have the following effect on the 2016 net periodic benefit cost and end of year PBO (in thousands):

	1% Point Increase	1% Point Decrease
--	----------------------	----------------------

Total interest and service cost	\$ 156	\$(132)
Postretirement benefit obligation	\$ 3,373	\$(2,875)

Plan assets — Our investment philosophy is to (1) protect the corpus of the fund; (2) establish investment objectives that will allow the market value to exceed the present value of the vested and unvested liabilities over time; while (3) obtaining adequate investment returns to protect benefits promised to the participants and their beneficiaries. Our asset allocation strategy utilizes multiple investment managers in order to maximize the plan's return while minimizing risk. We regularly monitor our asset allocation, and senior financial management and the Finance Committee of the Board of Directors review performance results quarterly. We continually review our target asset allocation for our Qualified Plan and when changes are made, we reallocate our plan assets over a period of time, as deemed appropriate by senior financial management, to achieve our target asset allocation. Our plan asset allocation at the end of fiscal 2016 and target allocations were as follows:

	2016	Target	Minimum	Maximum
Cash and cash equivalents	1 %	— %	— %	— %
Domestic equity	23	25	15 %	35 %
International equity	28	25	15 %	35 %
Core fixed funds	27	25	20 %	30 %
High yield	6	5	— %	10 %
Alternative investments	6	9	— %	20 %
Real estate	9	8	— %	10 %
Real return bonds	—	3	— %	10 %
	100%	100 %		

JACK IN THE BOX INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

The Company measures its defined benefit plan assets and obligations as of the month-end date closest to its fiscal year end, which is a practical expedient under FASB authoritative guidance. The fair values of the Qualified Plan's assets by asset category are as follows (in thousands):

	Total	Quoted Prices in Active Markets for Identical (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Items Measured at Fair Value at September 30, 2016:

	\$332,657	\$ 236,123	\$ 59,567	\$ 36,967

-
- (1) Cash and cash equivalents are comprised of commercial paper, short-term bills and notes, and short-term investment funds, which are valued at quoted prices in active markets for similar securities.
- (2) Cash and cash equivalents are comprised of commercial paper, short-term bills and notes, and short-term investment funds, which are valued at unadjusted quoted market prices.
- (3) U.S. equity securities are comprised of investments in common stock of U.S. companies for total return purposes. These investments are valued by the trustee at closing prices from national exchanges on the valuation date. International equity securities are comprised of investments in common stock of companies located outside of the U.S. for total return purposes. These investments are valued by the trustee at closing prices from national exchanges on the valuation date, or the values are adjusted as a result of market movements following the close of local trading using inputs to models that are observable either directly or indirectly.
- (4) Investment grade fixed income consists of debt obligations either issued by the US government or have a rating of BBB- / Baa or higher assigned by a major credit rating agency. These investments are valued based on unadjusted quoted market prices (Level 1), or based on quoted prices in inactive markets, or whose values are based on

models, but the inputs to those models are observable either directly or indirectly (Level 2).

- (6) High yield fixed income consists primarily of debt obligations that have a rating of below BBB- / Baa or lower assigned by a major credit rating agency. These investments are valued based on unadjusted quoted market prices. Alternative investments consists primarily of an investment in asset classes other than stocks, bonds, and cash.
- (7) Alternative investments can include commodities, hedge funds, private equity, managed futures, and derivatives. These investments are valued based on unadjusted quoted market prices.
- (8) Real estate is investments in a real estate collective trust for purposes of total return. These investments are valued based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement.

JACK IN THE BOX INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

The following table presents the changes in Level 3 investments for the Qualified Plan during 2015 and 2016 (in thousands):

	Real Estate
Balance at September 30, 2014	\$ 32,593
Actual return on plan assets:	
Relating to assets still held at the reporting date	4,665
Relating to assets sold during the period	40
Purchases, sales and settlements	(331)
Balance at September 30, 2015	\$ 36,967
Actual return on plan assets:	
Relating to assets still held at the reporting date	\$ 3,486
Relating to assets sold during the period	67
Purchases, sales and settlements	(374)
Balance at September 30, 2016	\$ 40,146

Future cash flows — Our policy is to fund our plans at or above the minimum required by law. As of the date of our last actuarial funding valuation, there was no minimum requirement. We do not anticipate making any contributions to our Qualified Plan in fiscal 2017. Contributions expected to be paid in the next fiscal year, the projected benefit payments for each of the next five fiscal years, and the total aggregate amount for the subsequent five fiscal years are as follows (in thousands):

	Defined Benefit Pension Plans	Postretirement Health Plans
Estimated net contributions during fiscal 2017	\$ 4,504	\$ 1,349
Estimated future year benefit payments during fiscal years:		
2017	\$ 15,413	\$ 1,349
2018	\$ 15,708	\$ 1,411
2019	\$ 16,455	\$ 1,471
2020	\$ 17,125	\$ 1,524
2021	\$ 17,651	\$ 1,625
2022-2026	\$ 106,805	\$ 8,564

We will continue to evaluate contributions to our Qualified Plan based on changes in pension assets as a result of asset performance in the current market and economic environment. Expected benefit payments are based on the same assumptions used to measure our benefit obligations at October 2, 2016 and include estimated future employee service, if applicable.

12. SHARE-BASED EMPLOYEE COMPENSATION

Stock incentive plans — We offer share-based compensation plans to attract, retain and motivate key officers, employees and non-employee directors to work toward the financial success of the Company.

Our stock incentive plans are administered by the Compensation Committee of the Board of Directors and have been approved by the stockholders of the Company. The terms and conditions of our share-based awards are determined by the Compensation Committee for each award date and may include provisions for the exercise price, expirations, vesting, restriction on sales and forfeitures, as applicable. We issue new shares to satisfy stock issuances under our stock incentive plans.

Our Amended and Restated 2004 Stock Incentive Plan authorizes the issuance of up to 11,600,000 common shares in connection with the granting of stock options, stock appreciation rights, restricted stock purchase rights, restricted

stock bonuses, restricted stock units or performance units to key employees, directors, and other designated employees. As of October 2, 2016, 2,322,490 shares of common stock were available for future issuance under this plan.

We also maintain a deferred compensation plan for non-management directors under which those who are eligible to receive fees or retainers may choose to defer receipt of their compensation. The deferred amounts are converted to stock equivalents. The plan requires settlement in shares of our common stock based on the number of stock equivalents and dividend equivalents at the time of a participant's separation from the Board of Directors. This plan provides for the issuance of up to 350,000 shares of common stock in connection with the crediting of stock equivalents. As of October 2, 2016, 143,122 shares of common stock were available for future issuance under this plan.

F-29

JACK IN THE BOX INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

We terminated our employee stock purchase plan (“ESPP”) on February 26, 2015. The ESPP plan was available for all eligible employees to purchase shares of common stock at 95% of the fair market value on the date of purchase. Employees could authorize us to withhold up to 15% of their base compensation during any offering period, subject to certain limitations.

Compensation expense — The components of share-based compensation expense recognized in each year are as follows (in thousands):

	2016	2015	2014
Nonvested stock units	\$5,520	\$4,989	\$3,247
Performance share awards	3,068	4,229	3,923
Stock options	2,509	2,782	2,660
Nonvested restricted stock awards	88	156	310
Deferred compensation for directors	270	264	218
Total share-based compensation expense	\$11,455	\$12,420	\$10,358

Nonvested restricted stock units — Nonvested restricted stock units (“RSUs”) are generally issued to executives, non-management directors and certain other members of management and employees. Prior to fiscal 2011, RSUs were granted to certain Executive and Senior Vice Presidents pursuant to our share ownership guidelines. These awards vest upon retirement or termination based on years of service. As of October 2, 2016, 60,272 of such RSUs were outstanding.

Beginning fiscal 2011, we replaced the ownership share grants with time-vested RSUs for certain Vice Presidents and Officers that vest ratably over four to five years and have a 50% or 100% holding requirement on settled shares, which must be held until termination. As of October 2, 2016, 146,063 of such RSUs were outstanding. RSUs issued to non-management directors vest 12 months from the date of grant, or upon termination of board service if the director elects to defer receipt, and totaled 48,456 units outstanding as of October 2, 2016. RSUs issued to certain other employees either cliff vest or vest ratably over three years and totaled 74,114 units outstanding as of October 2, 2016. These awards are amortized to compensation expense over the estimated vesting period based upon the fair value of our common stock on the award date discounted by the present value of the expected dividend stream over the vesting period.

The following is a summary of RSU activity for fiscal 2016:

	Shares	Weighted-Average Grant Date Fair Value
RSUs outstanding at September 27, 2015	332,973	\$ 44.34
Granted	140,794	\$ 72.06
Released	(105,254)	\$ 42.65
Forfeited	(39,608)	\$ 64.30
RSUs outstanding at October 2, 2016	328,905	\$ 54.05

As of October 2, 2016, there was approximately \$8.7 million of total unrecognized compensation cost related to RSUs, which is expected to be recognized over a weighted-average period of 2.9 years. The weighted-average grant date fair value of awards granted was \$72.06, \$75.07 and \$49.79 in 2016, 2015 and 2014, respectively. In 2016, 2015 and 2014, the total fair value of RSUs that vested and were released was \$4.5 million, \$2.4 million and \$3.5 million, respectively.

Performance share awards — Performance share awards, granted in the form of stock units, represent a right to receive a certain number of shares of common stock based on the achievement of corporate performance goals and continued employment during the vesting period. Performance share awards issued to executives vest at the end of a three-year

period and vested amounts may range from 0% to a maximum of 150% of targeted amounts depending on the achievement of performance measures at the end of a three-year period. The expected cost of the shares is based on the fair value of our stock on the date of grant and is reflected over the vesting period with a reduction for estimated forfeitures. These awards may be settled in cash or shares of common stock at the election of the Company on the date of grant. It is our intent to settle these awards with shares of common stock.

F-30

JACK IN THE BOX INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

The following is a summary of performance share award activity for fiscal 2016:

	Shares	Weighted-Average Grant Date Fair Value
Performance share awards outstanding at September 27, 2015	162,914	\$ 59.37
Granted	20,685	\$ 75.25
Issued	(63,708)	\$ 49.44
Forfeited	(11,632)	\$ 69.16
Performance adjustments	9,360	\$ 62.87
Performance share awards outstanding at October 2, 2016	117,619	\$ 62.13

As of October 2, 2016, there was approximately \$1.7 million of total unrecognized compensation cost related to performance share awards which is expected to be recognized over a weighted-average period of 1.5 years. The weighted-average grant date fair value of awards granted was \$75.25, \$73.53 and \$47.29 in 2016, 2015 and 2014, respectively. The total fair value of awards that became fully vested during 2016, 2015 and 2014 was \$3.5 million, \$3.5 million and \$3.6 million, respectively.

Stock options — Prior to fiscal 2007, options granted had contractual terms of 10 or 11 years and employee options generally vested over a four-year period. Beginning fiscal 2007, option grants have contractual terms of seven years and employee options vest over a three-year period. Options may vest sooner for employees meeting certain age and years of service thresholds. All option grants provide for an option exercise price equal to the closing market value of the common stock on the date of grant.

The following is a summary of stock option activity for fiscal 2016:

	Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term (Years)	Aggregate Intrinsic Value (in thousands)
Options outstanding at September 27, 2015	594,348	\$ 42.72		
Granted	99,923	\$ 75.24		
Exercised	(333,406)	\$ 31.68		
Forfeited	(22,408)	\$ 64.96		
Options outstanding at October 2, 2016	338,457	\$ 61.73	5.23	\$ 11,579
Options exercisable at October 2, 2016	113,880	\$ 50.25	4.20	\$ 5,203
Options exercisable and expected to vest at October 2, 2016	338,457	\$ 61.73	5.23	\$ 11,579

The aggregate intrinsic value in the table above is the amount by which the current market price of our stock on October 2, 2016 exceeds the weighted average exercise price.

We use a valuation model to determine the fair value of options granted which requires the input of highly subjective assumptions, including the expected volatility of the stock price. The following table presents the weighted-average assumptions used for stock option grants in each fiscal year, along with the related weighted-average grant date fair value:

	2016	2015	2014	
Risk-free interest rate	1.66	% 1.78	% 2.05	%
Expected dividends yield	1.59	% 1.09	% —	%
Expected stock price volatility	26.68	% 32.09	% 39.18	%

Expected life of options (in years)	4.90	6.00	6.50
Weighted-average grant date fair value	\$16.21	\$22.04	\$20.04

The risk-free interest rate was determined by a yield curve of risk-free rates based on published U.S. Treasury spot rates in effect at the time of grant and has a term equal to the expected life of the related options. The dividend yield assumption is based on the Company's history and expectations of dividend payouts at the grant date. We declared our first dividend on May 9, 2014. The expected stock price volatility in all years represents the Company's historical volatility. The expected life of the options represents the period of time the options are expected to be outstanding and is based on historical trends.

F-31

JACK IN THE BOX INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

As of October 2, 2016, there was approximately \$1.8 million of total unrecognized compensation cost, net of estimated forfeitures, related to stock options grants which is expected to be recognized over a weighted-average period of 1.3 years. The total intrinsic value of stock options exercised was \$18.6 million, \$41.8 million and \$42.4 million in 2016, 2015 and 2014, respectively.

Nonvested stock awards — We previously issued nonvested stock awards (“RSAs”) to certain executives under our share ownership guidelines. Effective fiscal 2009, we no longer issue RSA awards and have replaced them with grants of RSUs. The RSAs vest, subject to the discretion of our Board of Directors in certain circumstances, upon retirement or termination based upon years of service. These awards are amortized to compensation expense over the estimated vesting period based upon the fair value of our common stock on the award date. As of October 2, 2016, RSAs outstanding totaled 95,815 shares with a weighted average grant date fair value of \$20.56 per share.

In fiscal 2016, there was no activity related to RSAs. As of October 2, 2016, there was approximately \$0.1 million of total unrecognized compensation cost related to RSAs, which is expected to be recognized over a weighted-average period of 1.5 years.

Non-management directors’ deferred compensation — All awards outstanding under our directors’ deferred compensation plan are accounted for as equity-based awards and deferred amounts are converted into stock equivalents at the then-current market price of our common stock. During 2016 and 2015 no common stock was issued in connection with director retirements. In 2014, 10,616 shares of common stock were issued in connection with a director’s retirement with a fair value of \$0.6 million.

The following is a summary of the stock equivalent activity for fiscal 2016:

	Stock Equivalents	Weighted- Average Grant Date Fair Value
Stock equivalents outstanding at September 27, 2015	79,158	\$ 26.64
Deferred directors’ compensation	3,924	\$ 68.81
Dividend equivalents	1,282	\$ 80.57
Stock equivalents outstanding at October 2, 2016	84,364	\$ 29.43

Employee stock purchase plan — The ESPP plan was terminated during fiscal 2015. The following is a summary of shares issued pursuant to our ESPP in fiscal 2015 and 2014:

	2015	2014
Common stock issued	1,371	4,055
Fair value of common stock issued	\$70.78	\$49.25

13. STOCKHOLDERS’ EQUITY

Repurchases of common stock — In February and May 2016, the Board of Directors approved two stock buyback programs which provided repurchase authorizations for up to \$100.0 million each, in shares of our common stock, expiring November 2017. In September 2016, the Board of Directors approved an additional stock buyback program for up to \$300.0 million in shares of our common stock, expiring in November 2018. During fiscal 2016, we repurchased 3.9 million shares at an aggregate cost of \$291.9 million. As of October 2, 2016, there was approximately \$408.2 million remaining under the stock buyback programs, of which \$108.2 million expires in November 2017 and \$300.0 million expires in November 2018.

Dividends — In fiscal 2016, the Board of Directors declared four cash dividends of \$0.30 per share totaling \$40.5 million. Future dividends are subject to approval by our Board of Directors.

JACK IN THE BOX INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

14. AVERAGE SHARES OUTSTANDING

Our basic earnings per share calculation is computed based on the weighted-average number of common shares outstanding. Our diluted earnings per share calculation is computed based on the weighted-average number of common shares outstanding adjusted by the number of additional shares that would have been outstanding had the potentially dilutive common shares been issued. Potentially dilutive common shares include stock options, nonvested stock awards and units, and non-management director stock equivalents. Performance share awards are included in the average diluted shares outstanding each period if the performance criteria have been met at the end of the respective periods.

The following table reconciles basic weighted-average shares outstanding to diluted weighted-average shares outstanding (in thousands):

	2016	2015	2014
Weighted-average shares outstanding — basic	33,735	37,587	40,781
Effect of potentially dilutive securities:			
Stock options	150	274	641
Nonvested stock awards and units	188	199	281
Performance share awards	73	155	270
Weighted-average shares outstanding — diluted	34,146	38,215	41,973
Excluded from diluted weighted-average shares outstanding:			
Antidilutive	147	84	153
Performance conditions not satisfied at the end of the period	38	15	20

15. COMMITMENTS, CONTINGENCIES AND LEGAL MATTERS

Commitments — As of October 2, 2016, we had unconditional purchase obligations during the next five fiscal years as follows (in thousands):

2017	\$993,500
2018	554,900
2019	455,200
2020	369,600
2021	358,900
Total	\$2,732,100

These obligations primarily represent amounts payable under purchase contracts for goods related to system-wide restaurant operations.

Legal matters — The Company assesses contingencies, including litigation contingencies, to determine the degree of probability and range of possible loss for potential accrual in its financial statements. An estimated loss contingency is accrued in the financial statements if it is probable that a liability has been incurred and the amount of the loss can be reasonably estimated. Because litigation is inherently unpredictable, assessing contingencies is highly subjective and requires judgments about future events. When evaluating litigation contingencies, we may be unable to provide a meaningful estimate due to a number of factors, including the procedural status of the matter in question, the availability of appellate remedies, insurance coverage related to the claim or claims in question, the presence of complex or novel legal theories, and/or the ongoing discovery and development of information important to the matter. In addition, damage amounts claimed in litigation against us may be unsupported, exaggerated or unrelated to possible outcomes, and as such are not meaningful indicators of our potential liability or financial exposure. The Company regularly reviews contingencies to determine the adequacy of the accruals and related disclosures. The ultimate amount of loss may differ from these estimates.

JACK IN THE BOX INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Gessele v. Jack in the Box Inc. — In August 2010, five former employees instituted litigation in federal court in Oregon alleging claims under the federal Fair Labor Standards Act and Oregon wage and hour laws. The plaintiffs alleged that the Company failed to pay non-exempt employees for certain state-mandated breaks and improperly made payroll deductions for shoe purchases and for workers' compensation expenses, and later added additional claims relating to timing of final pay and related wage and hour claims involving employees of a franchisee. The most recent complaint seeks damages of \$45.0 million but does not provide a basis for that amount. In fiscal 2012, we accrued for a single claim for which we believe a loss is both probable and estimable; this accrued loss contingency did not have a material effect on our results of operations. We have not established a loss contingency accrual for those claims as to which we believe liability is not probable or estimable, and we plan to vigorously defend against this lawsuit. Nonetheless, an unfavorable resolution of this matter in excess of our current accrued loss contingencies could have a material adverse effect on our business, results of operations, liquidity or financial condition.

Other legal matters — In addition to the matter described above, the Company is subject to normal and routine litigation brought by former, current or prospective employees, customers, franchisees, vendors, landlords, shareholders or others. We intend to defend ourselves in any such matters. Some of these matters may be covered, at least in part, by insurance. Our insurance liability (undiscounted) and reserves are established in part by using independent actuarial estimates of expected losses for reported claims and expected losses for claims incurred but not reported. Our estimated liability for general liability and workers' compensation claims, which exceeded our self-insurance retention limits by \$25.8 million as of September 27, 2015, was reduced by \$21.7 million in 2016 due to a judgment paid by our insurance providers. We currently expect to be fully covered by our insurance providers for any amounts that may exceed our self-insurance retention limits. We believe that the ultimate determination of liability in connection with legal claims pending against us, if any, in excess of amounts already provided for such matters in the consolidated financial statements, will not have a material adverse effect on our business, our annual results of operations, liquidity or financial position; however, it is possible that our business, results of operations, liquidity, or financial condition could be materially affected in a particular future reporting period by the unfavorable resolution of one or more matters or contingencies during such period.

Lease guarantees — In connection with the sale of the distribution business, we have assigned the lease at one of our distribution centers to a third party. Under this agreement, which expires in 2017, the Company remains secondarily liable for the lease payments for which we were responsible under the original lease. As of October 2, 2016, the amount remaining under this lease guarantee totaled \$0.7 million. We have not recorded a liability for this guarantee as the likelihood of the third party defaulting on the assignment agreements was deemed to be less than probable.

JACK IN THE BOX INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

16. SEGMENT REPORTING

Our principal business consists of developing, operating and franchising our Jack in the Box and Qdoba restaurant concepts, each of which we consider reportable operating segments. This segment reporting structure reflects the Company's current management structure, internal reporting method and financial information used in deciding how to allocate the Company's resources. Based upon certain quantitative thresholds, each operating segment is considered a reportable segment.

We measure and evaluate our segments based on segment revenues and earnings from operations. The reportable segments do not include an allocation of the costs related to shared service functions, such as accounting/finance, human resources, audit services, legal, tax and treasury; nor do they include unallocated costs such as pension expense, share-based compensation and restructuring expense. These costs are reflected in the caption "Shared services and unallocated costs." The following table provides information related to our operating segments in each fiscal year (in thousands):

	2016	2015	2014
Revenues by segment:			
Jack in the Box restaurant operations	\$1,162,258	\$1,145,176	\$1,127,243
Qdoba restaurant operations	437,073	395,141	356,888
Consolidated revenues	\$1,599,331	\$1,540,317	\$1,484,131
Earnings from operations by segment:			
Jack in the Box restaurant operations	\$290,346	\$265,230	\$235,574
Qdoba restaurant operations	47,250	47,264	34,287
Shared services and unallocated costs	(108,911)	(112,182)	(104,005)
Gains (losses) on the sale of company-operated restaurants	1,230	(3,139)	(3,548)
Consolidated earnings from operations	229,915	197,173	162,308
Interest expense, net	31,081	18,803	15,678
Consolidated earnings from continuing operations and before income taxes	\$198,834	\$178,370	\$146,630
Total expenditures for long-lived assets by segment (including discontinued operations):			
Jack in the Box restaurant operations	\$38,607	\$41,928	\$30,858
Qdoba restaurant operations	53,316	34,071	17,967
Shared services and unallocated costs	4,692	10,227	11,700
Consolidated expenditures for long-lived assets	\$96,615	\$86,226	\$60,525
Total depreciation expense by segment:			
Jack in the Box restaurant operations	\$66,287	\$64,597	\$66,409
Qdoba restaurant operations	19,306	17,103	16,992
Shared services and unallocated costs	6,489	7,078	7,254
Consolidated depreciation expense	\$92,082	\$88,778	\$90,655

We do not evaluate, manage or measure performance of segments using asset, interest income and expense, or income tax information; accordingly, this information by segment is not prepared or disclosed.

17. SUPPLEMENTAL CONSOLIDATED CASH FLOW INFORMATION (in thousands)

	2016	2015	2014
Cash paid during the year for:			
Interest, net of amounts capitalized	\$28,576	\$16,233	\$13,754
