BNP RESIDENTIAL PROPERTIES, INC.

Notes to Consolidated Financial Statements - September 30, 2003
(Unaudited)

Note 1. Interim financial statements

Our independent accountants have not audited the accompanying financial statements of BNP Residential Properties, Inc., except for the balance sheet at December 31, 2002. We derived the amounts in the balance sheet at December 31, 2002, from the financial statements included in our 2002 Annual Report on Form 10-K. We believe that we have included all adjustments (consisting of normal recurring accruals) necessary for a fair presentation of the financial position and results of operations for the periods presented.

We have condensed or omitted certain notes and other information from the interim financial statements presented in this Quarterly Report on Form 10-Q. You should read these financial statements in conjunction with our 2002 Annual Report on Form 10-K.

Note 2. Basis of Presentation

The consolidated financial statements include the accounts of BNP Residential Properties, Inc. (the "company") and BNP Residential Properties Limited Partnership (the "Operating Partnership"). The company is the general partner and owns a majority interest in the Operating Partnership. All significant intercompany balances and transactions have been eliminated in the consolidated financial statements.

Stock-Based Compensation

The company has one employee Stock Option and Incentive Plan in place. We account for this plan using the intrinsic value method, under the recognition and measurement principles of APB Opinion No. 25, Accounting for Stock Issued to Employees, and related Interpretations. No stock-based employee compensation cost is reflected in net income, as all options granted under this plan had an exercise price equal to the market value of the underlying common stock on the date of grant. If we had applied the fair value recognition provisions of FASB

Edgar Filing: BNP RESIDENTIAL PROPERTIES INC - Form 10-Q

Statement No. 123, Accounting for Stock-Based Compensation, to stock-based employee compensation, the effect would be to reduce net income as reported by approximately \$240 in 2003 and \$5,000 in 2002, with no impact on basic and diluted earnings per share amounts as reported.

Reclassifications

We adopted Statement of Financial Accounting Standards No. 145, "Rescission of FASB Statements No. 4, 44, and 62, Amendment of FASB Statement No. 13, and Technical Corrections," effective January 1, 2003. Statement 145 generally requires gains and losses on extinguishments of debt to be classified as income or loss from continuing operations, rather than as extraordinary items as previously required under Statement 4. We have reclassified the extraordinary item for loss on early extinguishment of debt in the first quarter of 2002 to conform to Statement 145. While adoption of Statement 145 has no impact on net income, it reduces income before extraordinary items and eliminates extraordinary items as previously reported. We have adjusted the 2002 comparative amounts in our consolidated financial statements to conform to the 2003 presentation as follows:

7

	2002 as Currently Presented	Adjustments	2002 as Previously Reported
Nine months ended September 30, 2002			
Revenues	\$27,978,928	\$ -	\$27,978,928
Expenses	26,259,435	95,032	26,354,467
Income before minority interest and extraordinary item	1,719,493	(95,032)	1,624,461
Minority interest in Operating Partnership	355,186	(21,735)	333,451
Income before extraordinary item	1,364,307	(73,297)	1,291,010
Extraordinary item - loss on early extinguishment of debt	-	(73,297)	-
Net income	\$ 1,364,307	\$ -	\$ 1,364,307

Note 3. Apartment property acquisitions

Effective August 28, 2003, we acquired The Harrington Apartments for approximately \$18.0 million in cash, less credits of \$108,000 for exterior painting and approximately \$200,000 for accrued expenses. Through September 30, 2003, we have incurred and capitalized other direct costs of this acquisition totaling approximately \$12,000. We funded this acquisition by the placement of a \$14.4 million first deed of trust loan together with draws of approximately \$3.4 million on our existing line of credit. In conjunction with this acquisition, we paid lender fees and costs totaling approximately \$118,000.

Effective March 13, 2003, we acquired The Place Apartments for approximately \$5.6 million in cash. Through September 30, 2003, we have incurred and capitalized other direct costs of this acquisition totaling approximately \$20,000. We funded this acquisition by the placement of a \$4.56 million first deed of trust loan together with draws of approximately \$1.1 million on our

Edgar Filing: BNP RESIDENTIAL PROPERTIES INC - Form 10-Q

existing line of credit. In conjunction with this acquisition and financing, we funded repair escrows of approximately \$65,000 and paid lender fees and costs totaling approximately \$61,000.

Note 4. Restaurant property sales

Effective August 19, 2003, we sold one restaurant property to the lessee for its net carrying value of approximately \$656,000. Effective February 21, 2003, we sold one restaurant property to the lessee for its net carrying value of approximately \$588,000. We applied approximately \$426,000 of the proceeds from each of these sales to reduce our line of credit secured by the restaurant properties.

Note 5. Shareholders' Equity

Effective September 5, 2003, we issued 454,545 shares of the Company's Series B Cumulative Convertible Preferred Stock for \$5.0 million to a single accredited investor. This private placement is an expansion of the original offering in December 2001. The preferred shares have a purchase price and liquidation preference of \$11.00 per share, and an initial dividend yield of 10%. The investor will have the right to convert each Series B share into one share of the Company's common stock beginning in December 2004, or in certain circumstances such as a change of control or the Company's calling the Series B stock for redemption. Through September 30, 2003, we have incurred costs related to this placement totaling approximately

8

\$30,000. We applied proceeds of the placement to reduce the outstanding amount of our existing lines of credit.

In August 2003, we issued 19,068 shares of our common stock through our Dividend Reinvestment and Stock Purchase Plan for proceeds of approximately \$199,000. During the first nine months of 2003, we have issued a total of 53,383 shares of our common stock through this Plan.

In addition, during the third quarter of 2003, we issued 3,166 shares of our common stock in exchange for Operating Partnership units formerly held by minority unitholders.

We calculated basic and diluted earnings per common share using the following amounts:

- (1) Assumes conversion of Operating Partnership units to common shares; minority interest in Operating Partnership income has been eliminated.
- (2) We excluded options to purchase 140,000 shares of common stock at \$12.50, 110,000 shares at \$12.25, and 120,000 shares at \$13.125 from the calculation of diluted earnings per share

9

for the three and nine months ended September 30, 2003 and 2002. We also excluded additional options to purchase 60,000 shares of common stock at \$11.25 from the calculation of diluted earnings per share for the three and nine months ended September 30, 2003, and from the three months ended September 30, 2002. The exercise price of these options was greater than the average market price of the common shares for those periods, and the effect would be anti-dilutive.

Note 6. Subsequent event

On October 23, 2003, the Board of Directors declared a regular quarterly cash dividend of \$0.25 per share to be paid on November 17, 2003, to common shareholders of record on November 3, 2003. The Board of Directors also authorized the payment of dividends totaling \$160,616 to the Series B Preferred shareholder in accordance with the investment agreement for those shares.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

This Quarterly Report contains forward-looking statements within the meaning of federal securities law. You can identify such statements by the use

Edgar Filing: BNP RESIDENTIAL PROPERTIES INC - Form 10-Q

of forward-looking terminology, such as "may," "will," "expect," "anticipate," "estimate," "continue" or other similar words. These statements discuss future expectations, contain projections of results of operations or of financial condition or state other "forward-looking" information.

Although we believe that our plans, intentions and expectations reflected in or suggested by these forward-looking statements are reasonable, we cannot assure you that we will achieve our plans, intentions or expectations. When you consider such forward-looking statements, you should keep in mind the following important factors that could cause our actual results to differ materially from those contained in any forward-looking statement:

- o Our markets could suffer unexpected increases in the development of apartment, other rental or competitive housing alternatives;
- o our markets could suffer unexpected declines in economic growth or an increase in unemployment rates;
- o general economic conditions could cause the financial condition of a large number of our tenants to deteriorate;
- o we may not be able to lease or re-lease apartments quickly or on as favorable terms as under existing leases;
- o revenues from our third-party apartment property management activities could decline, or we could incur unexpected costs in performing these activities;
- o we may have incorrectly assessed the environmental condition of our properties;
- o an unexpected increase in interest rates could increase our debt service costs;
- o we may not be able to meet our long-term liquidity requirements on favorable terms; and
- o we could lose key executive officers.

Given these uncertainties, we caution you not to place undue reliance on forward-looking statements. We undertake no obligation to publicly release the results of any revision to these forward-looking statements that may be made to reflect any future events or circumstances or to reflect the occurrence of unanticipated events.

You should read the discussion in conjunction with the financial statements and notes thereto included in this Quarterly Report and our Annual Report on Form 10-K.

Company Profile

BNP Residential Properties, Inc. is a self-administered and self-managed real estate investment trust with operations in North Carolina, South Carolina and Virginia. Our primary activity is the ownership and operation of apartment communities. We currently own 20 apartment communities containing 4,859 units and provide third-party management services for 8 communities containing a total of 2,061 units. In addition to our apartment communities, we own 40 properties that we lease on a triple-net basis to a restaurant operator.

We are structured as an UpREIT, or umbrella partnership real estate investment trust. The company is the sole general partner and owns a controlling interest in BNP Residential

Properties Limited Partnership, through which we conduct all of our operations. We refer to this partnership as the Operating Partnership. We refer to the limited partners of the Operating Partnership as minority unitholders or as the minority interest.

Our executive offices are located at 301 South College Street, Suite 3850, Charlotte, North Carolina 28202-6024, telephone 704/944-0100.

Results of Operations

Overall, we were pleased with the operating results for the third quarter of 2003. Operating results for both the quarter and year-to-date periods were in line with our expectations. We saw improvement in apartment occupancy and revenue per occupied unit during the quarter as compared to the second quarter of 2003. On a same-units basis, occupancy and revenue per occupied unit returned to third quarter of 2002 levels and reflect a significant improvement over the first and second quarters of 2003. Whether this is the beginning of a long-awaited improvement in our apartment markets remains to be seen. In any case, we are confident in the long-term outlook for both our apartment properties and our apartment markets.

The lessee of our restaurant properties pays us annual rent equal to the greater of a specified minimum rent or 9.875% of food sales. During the third quarter of 2003, we saw a significant improvement in sales at our restaurant properties. While this improvement did not result in any additional restaurant rental income, it did mark a significant departure from several years of declining sales.

Overall, we are positive about the future. We have a portfolio of well-maintained apartment properties with excellent locations in markets with good long-term growth prospects. We believe we are well positioned to benefit from any improvement in our apartment markets.

Revenues

Total revenues in the third quarter of 2003 were \$10.9 million, an increase of 9.5% compared to the third quarter of 2002. Total revenues through the first nine months of 2003 were \$31.3 million, an increase of 11.9% compared to the first nine months of 2002. Apartment related income (apartment rental income plus income from apartment management and investment activities) accounted for approximately 91.1% of total revenues in the third quarter of 2003, compared to 89.9% in the third quarter of 2002. Through the first nine months of 2003, apartment related income accounted for approximately 90.6% of total revenues, compared to 89.2% in the first nine months of 2002.

Apartment rental income totaled \$9.7 million in the third quarter of 2003, an increase of 11.6% compared to the third quarter of 2002. Through the first nine months of 2003, apartment rental income totaled \$27.5 million, an increase of 14.6% compared to the first nine months of 2002. These increases are primarily attributable to the acquisition of three apartment communities in 2002 and two apartment communities in 2003. For the third quarter of 2003, overall average economic occupancy increased by 0.2% while average revenue per occupied unit declined by 0.5%, compared to the third quarter of 2002. For the first nine months of 2003, overall average economic occupancy declined by 1.0% while average revenue per occupied unit declined by 1.1%, compared to the first nine months of 2002.

On a "same-units" basis (the 15 apartment communities that we owned throughout the first nine months of both years), apartment rental income

Edgar Filing: BNP RESIDENTIAL PROPERTIES INC - Form 10-Q

decreased by 0.1% in the third quarter

12

of 2003 compared to the third quarter of 2002, and by 1.9% for the first nine months of 2003 compared to the first nine months of 2002. These decreases were generally attributable to declines in both average economic occupancy and average revenue per occupied unit. For the third quarter of 2003, same-units average economic occupancy was flat while average revenue per occupied unit declined by 0.1%, compared to the third quarter of 2002. For the first nine months of 2003, same-units average economic occupancy declined by 1.1% while average revenue per occupied unit declined by 0.8%, compared to the first nine months of 2002.

Summary amounts for our apartment communities' occupancy and revenue per occupied unit for the third quarter and first nine months of 2003 follow:

	Number of apartment units	Three months ended September 30		Nine months September

Restaurant rental income was \$1.0 million in the third quarters of both 2003 and 2002, and \$3.0 million in the first nine months of both 2003 and 2002. A slight decline in 2003 restaurant rental income, as compared to 2002, was the result of the sale of two restaurant properties in 2003 (one in first quarter, and one in third quarter). Restaurant rental income for both 2003 and 2002 was equal to the minimum rent under the master lease agreement with our lessee. "Same-store" (those 40 restaurant properties that operated throughout the first nine months of both 2003 and 2002) sales at our restaurant properties increased by 7.4% in the third quarter and declined by 0.8% in the first nine months of 2003 compared to these periods in 2002.

Through September 30, 2003, we have sold seven of the original 47 restaurants to Boddie-Noell Enterprises, Inc. ("Enterprises"), the lessee, under the non-economic clause of the agreement that allows Enterprises to close up to seven restaurants and buy them back from us for no less than net carrying value. Under our master lease with Enterprises, restaurant rental income payments are the greater of a specified minimum rent or 9.875% of food sales. The minimum rent is reduced by approximately \$8,000 per month, or \$96,000 per year, for each restaurant that is sold. Going forward, minimum rent for our remaining restaurant properties will be approximately \$319,000 per month, or \$3.8 million per year.

Management fee income for the third quarter of 2003 decreased to \$229,000, compared to \$258,000 in 2002. For the first nine months of 2003, management fee income decreased to \$679,000 from \$839,000 for the same period in 2002. These decreases are primarily attributable to our acquisitions of two previously managed properties in May 2002, as well as the termination of management contracts for several smaller properties in the first quarter of 2003. Going forward, we expect management fee income to decline further, reflecting our acquisition of The Harrington Apartments in August 2003; third-party management services for this property from March through August 2003 generated \$41,000 in management fee income.

Expenses

Effective January 1, 2003, in accordance with current accounting guidance, we report the loss on extinguishment of debt as an operating expense, rather than as an extraordinary item as previously required. Accordingly, we have reclassified the write-off of unamortized loan costs at refinance in the first quarter of 2002 to conform to the 2003 presentation in our financial statements. This reclassification has no impact on net income; however, it reduces income before extraordinary items and eliminates extraordinary items as previously reported. A more detailed description of the reclassification adjustments is included in the notes to the financial statements included in this Quarterly Report.

Total expenses, including non-cash charges for depreciation, amortization and write-off of unamortized loan costs, were \$10.7 million in the third quarter of 2003, an increase of 13.2% compared to the third quarter of 2002. Through the first nine months of 2003, total expenses were \$31.6 million, an increase of 20.2% compared to the first nine months of 2002.

Apartment operations expense (the direct costs of on-site operations at our apartment communities) in the third quarter of 2003 was \$4.0 million, a 21.0% increase compared to the third quarter of 2002. In the first nine months of 2003, apartment operations expense totaled \$11.3 million, a 25.3% increase compared to the first nine months of 2002. These increases reflect the addition of three apartment communities during 2002 and two communities during 2003, as

Edgar Filing: BNP RESIDENTIAL PROPERTIES INC - Form 10-Q

well as significant increases in compensation, contracted services and apartment redecoration costs. On a same-units basis, apartment operations expense increased by 6.5% in the

14

third quarter and 5.0% in the first nine months of 2003 as compared to the comparable periods in 2002.

Operating expenses for restaurant properties are insignificant because the triple-net lease arrangement requires the lessee to pay virtually all of the expenses associated with the restaurant properties.

Apartment administration expense (the costs associated with oversight, accounting and support of our apartment management activities for both owned and third party properties) was \$414,000 in the third quarter of 2003, a 32.9% increase compared to the third quarter of 2002. In the first nine months of 2003, apartment administration expense totaled \$1.2 million, an increase of 24.0% compared to the first nine months of 2002. These increases are primarily attributable to increased compensation and costs arising from implementation of new property management software.

Corporate administration expense was \$445,000 in the third quarter of 2003, an increase of 11.4% compared to the third quarter of 2002. In the first nine months of 2003, corporate administration expense totaled \$1.8 million, a 20.2% increase compared to the first nine months of 2002. This increase was primarily attributable to increases in compensation and insurance expense. In January 2003, we added an in-house general counsel position to our executive team.

Depreciation expense totaled \$2.5 million in the third quarter of 2003, a 7.7% increase compared to the third quarter of 2002. In the first nine months of 2003, depreciation expense totaled \$7.3 million, a 16.4% increase compared to the first nine months of 2002. This increase is attributable to the addition of apartment communities, as well as the impact of additions and replacements at other apartment communities.

Amortization expense (of deferred loan costs) was \$81,000 in the third quarter of 2003, compared to \$82,000 in the third quarter of 2002. In the first nine months of 2003, amortization expense totaled \$236,000, compared to \$180,000 in the first nine months of 2002. These increases are primarily attributable to the impact of loan costs associated with financing transactions in 2002 and 2003.

Interest expense totaled \$3.3 million in the third quarter of 2003, a 7.5% increase compared to the third quarter of 2002. In the first nine months of 2003, interest expense totaled \$9.7 million, an 18.3% increase compared to the first nine months of 2002. This increase reflects the impact of approximately \$70 million in new debt related to apartment acquisitions in 2002 and 2003, reduced by the effect of lower interest rates on our lines of credit. Overall, weighted average interest rates were 5.9% for the third quarter and 6.0% for the first nine months of 2003, compared to 6.2% for the third quarter and first nine months of 2002.

During the first quarter of 2002, we refinanced long-term debt related to Oakbrook Apartments. In conjunction with this transaction, we wrote off unamortized loan costs of \$95,000. As discussed above, we have reclassified the write-off of unamortized loan costs at the date of the refinance in the first quarter of 2002 to conform to the 2003 presentation in our financial statements. We previously reflected this write-off, net of minority interests' share, with a charge of \$73,000 as an extraordinary item in the financial statements.

Edgar Filing: BNP RESIDENTIAL PROPERTIES INC - Form 10-Q

In late December 2001, we issued 227,273 shares of Series B Cumulative Convertible Preferred Stock. We sold an additional 227,272 shares in September 2002 and an additional 454,545 shares in September 2003. Because preferred shareholders have priority over common

15

shareholders for receipt of dividends, we deduct the amount of net income that will be paid to preferred shareholders in calculating net income available to common shareholders. The dividend on the Series B shares is \$1.10 per share per year. The cumulative preferred dividend totaled approximately \$161,000 for the third quarter and \$411,000 for the first nine months of 2003, compared to approximately \$73,000 for the third quarter and \$197,000 for the first nine months of 2002.

Net income/loss

Net income (before the cumulative preferred dividend) for the third quarter of 2003 was \$137,000, compared to net income of \$354,000 for the third quarter of 2002. For the first nine months of 2003, the net loss was \$110,000, compared to \$1.4 million net income for the first nine months of 2002. These comparisons reflect the impact of decline in apartments operating results.

Funds from Operations

Funds from operations is frequently referred to as "FFO." FFO is defined by the National Association of Real Estate Investment Trusts ("NAREIT") as "net income (computed in accordance with generally accepted accounting principles), excluding gains (losses) from sales of property, plus depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures." Our calculation of FFO is consistent with FFO as defined by NAREIT. Because we hold all of our assets in and conduct all of our operations through the Operating Partnership, we measure FFO at the operating partnership level (i.e., before minority interest).

Historical cost accounting for real estate assets implicitly assumes that the value of real estate assets diminishes predictably over time. In fact, real estate values have historically risen or fallen with market conditions. FFO is intended to be a standard supplemental measure of operating performance that excludes historical cost depreciation from - or "adds it back" to - GAAP net income. We consider FFO to be useful in evaluating potential property acquisitions and measuring operating performance.

We calculate funds available for distribution as FFO plus non-cash expense for amortization and write-off of unamortized loan costs, less recurring capital expenditures. We believe that, together with net income and cash flows, funds available for distribution provides investors with an additional measure to evaluate the ability of the Operating Partnership to incur and service debt, to fund acquisitions and other capital expenditures, as well as to fund distributions to shareholders and minority unitholders.

Funds from operations and funds available for distribution do not represent net income or cash flows from operations as defined by generally accepted accounting principles. You should not consider funds from operations or funds available for distribution:

- o to be alternatives to net income as reliable measures of the company's operating performance, or
- o to be alternatives to cash flows as measures of liquidity.

Edgar Filing: BNP RESIDENTIAL PROPERTIES INC - Form 10-Q

Funds from operations and funds available for distribution do not measure whether cash flow is sufficient to fund all of our cash needs, including principal amortization, capital improvements and distributions to shareholders. Funds from operations and funds available for distribution do not represent cash flows from operating, investing or financing activities as

16

defined by generally accepted accounting principles. Further, funds from operations and funds available for distribution as disclosed by other REITs might not be comparable to our calculation of funds from operations or funds available for distribution.

Funds from operations of the Operating Partnership totaled \$2.5 million in the third quarter of 2003, an 8.1% decrease compared to the third quarter of 2002. For the first nine months of 2003, funds from operations totaled \$6.7 million, a 14.9% decrease compared to the first nine months of 2002. This comparison reflects the impact of decline in apartment operating results and the increased cumulative preferred dividend.

We calculated funds from operations of the Operating Partnership as follows (all amounts in thousands, except per share amounts):

Capital Resources and Liquidity

Capital Resources

On August 28, 2003, we acquired The Harrington Apartments for approximately \$18.0 million in cash, less credits of \$108,000 for exterior painting and approximately \$200,000 for accrued expenses. We financed this acquisition through the issuance of a first deed of trust note in the amount of \$14.4 million together with draws of approximately \$3.4 million on our line of credit secured by Latitudes Apartments. The variable rate deed of trust provides for interest at LIBOR plus 1.75%, payable monthly, for a three-year term, with an optional two-year extension. In conjunction with this acquisition and financing, we paid lender fees and costs totaling approximately \$118,000. Through September 30, 2003, we have incurred and capitalized other direct costs of this acquisition totaling approximately \$12,000.

On March 13, 2003, we acquired The Place Apartments for approximately \$5.6 million in cash. We financed this acquisition through the issuance of a first deed of trust note in the amount of \$4.56 million together with draws of approximately \$1.1 million on our line of credit secured by Latitudes Apartments. The fixed-rate deed of trust loan provides for interest at 5.06% and monthly payments including principal and interest of approximately \$33,000, with maturity in 2013. In conjunction with this acquisition and financing, we funded repair escrows of approximately \$65,000 and paid lender fees and costs totaling approximately \$61,000. Through September 30, 2003, we have incurred and capitalized other direct costs of this acquisition totaling approximately \$20,000.

Effective August 19, 2003, we sold one restaurant property to the lessee for its net carrying value of approximately \$656,000. Effective February 21, 2003, we sold one restaurant property to the lessee for its net carrying

Edgar Filing: BNP RESIDENTIAL PROPERTIES INC - Form 10-Q

value of approximately \$588,000. We applied approximately \$426,000 of the proceeds from each of these sales to reduce our line of credit secured by the restaurant properties.

Through the first nine months of 2003, we have made draws on our variable-rate lines of credit totaling approximately \$6.0 million to fund acquisition activities and capital replacements and improvements. We currently have approximately \$5.9 million available under our lines of credit.

As of September 30, 2003, total long-term debt was \$230.0 million, including \$168.5 million of notes payable at fixed interest rates ranging from 5.06% to 8.55%, and \$61.5 million at variable rates indexed on 30-day LIBOR rates. The weighted average interest rate on debt outstanding was 5.8% at September 30, 2003, compared to 6.1% at December 31, 2002. At our current level of variable-rate debt, a 1% fluctuation in variable interest rates would increase or decrease our annual interest expense by approximately \$625,000.

Effective September 5, 2003, we issued 454,545 shares of our Series B Cumulative Convertible Preferred Stock for \$5.0 million to a single investor. This placement is an expansion of the original offering in December 2001. The preferred shares have a purchase price and liquidation preference of \$11.00 per share, and an initial dividend yield of 10%. The investor will have the right to convert each Series B share into one share of the Company's common stock beginning in December 2004, or in certain circumstances such as a change of control or the Company's calling the Series B stock for redemption. Through September 30, 2003, we have incurred costs related to this placement totaling approximately \$30,000. We applied proceeds of

19

the placement to reduce the outstanding amount of our existing line of credit secured by Latitudes Apartments.

In August 2003, we issued 19,068 shares of our common stock through our Dividend Reinvestment and Stock Purchase Plan for proceeds of approximately \$199,000. During the first nine months of 2003, we have issued a total of 53,383 shares of our common stock through this Plan.

In addition, during the third quarter of 2003, we issued 3,166 shares of our common stock in exchange for Operating Partnership units formerly held by minority unitholders.

Cash flows and liquidity

Net cash flows from operating activities were \$2.5 million in the third quarter of 2003, compared to \$2.7 million in the third quarter of 2002. Through the first nine months of 2003, net cash flows from operating activities were \$6.7 million, compared to \$7.1 million in the first nine months of 2002. Investing and financing activities, other than those described under "Capital Resources" above, consisted of capital expenditures at apartment communities, along with payment of dividends and distributions.

We have announced that the company will pay a regular quarterly dividend of \$0.25 per share on November 17, 2003, to shareholders of record of our common stock on November 3, 2003; in addition, the company will pay a preferred dividend of \$0.275 per share, or approximately \$160,000, to the preferred shareholder on November 17, 2003.

We generally expect to meet our short-term liquidity requirements through net cash provided by operations and utilization of credit facilities. We believe that net cash provided by operations is, and will continue to be,

Edgar Filing: BNP RESIDENTIAL PROPERTIES INC - Form 10-Q

adequate to meet our operating requirements for both the short term and the long term. We anticipate funding our future acquisition activities primarily by using short-term credit facilities as an interim measure, to be replaced by funds from equity offerings, long-term debt or joint venture investments. We expect to meet our long-term liquidity requirements, such as scheduled debt maturities and repayment of short-term financing of possible property acquisitions, through long-term secured and unsecured borrowings and the issuance of debt securities or additional equity securities. We do not intend to reserve funds to retire existing long-term debt upon maturity. We believe we have sufficient resources to meet our short-term liquidity requirements. However, if these sources of funds are insufficient or unavailable, our ability to continue to make distributions to shareholders may be adversely affected.

Critical Accounting Policies - Capital expenditures and depreciation

Our critical accounting policies are identified and discussed in our Annual Report on Form 10-K under "Management's Discussion and Analysis of Financial Condition and Results of Operations - Critical Accounting Policies." Our policy and practice regarding capital expenditures and depreciation, which may be of particular interest to readers of this Quarterly Report, are further discussed below.

In general, for acquired apartment properties, we compute depreciation using the straight-line method over composite estimated useful lives of the related assets, generally 40 years for buildings, 20 years for land improvements, 10 years for fixtures and equipment, and five years for floor coverings.

20

For the acquisitions of Barrington Place, Brookford Place and Alta Harbour Apartments in 2002, and The Place Apartments in 2003, we performed detailed analyses of components of the real estate assets acquired. For these properties, we assigned estimated useful lives as follows: land improvements, 7-20 years; short-lived building components, 5-20 years; base building structure, 60 years (45 years for The Place); and fixtures, equipment and floor coverings, 5-10 years. We expect to complete a detailed analysis of components for The Harrington Apartments in the near future.

We generally complete and capitalize acquisition improvements (expenditures that have been identified at the time the property is acquired, and which are intended to position the property consistent with our physical standards) within one to two years of acquisition. We capitalize non-recurring expenditures for additions and betterments to buildings and land improvements. In addition, we generally capitalize recurring capital expenditures for exterior painting, roofing, and other major maintenance projects that substantially extend the useful life of existing assets. For financial reporting purposes, we depreciate these additions and replacements on a straight-line basis over estimated useful lives of 5-20 years. We retire replaced assets with a charge to depreciation for any remaining carrying value. We capitalize all floor covering, appliance and HVAC replacements, and depreciate them using a straight-line, group method over estimated useful lives of 5-10 years.

Capital expenditures at our apartment communities during the third quarter of 2003 totaled approximately \$1.0 million, including \$295,000 for acquisition improvements, \$79,000 for additions and betterments, and \$662,000 for recurring capital expenditures.

We expense ordinary repairs and maintenance costs at apartment communities. Repairs and maintenance at our apartment communities during the third quarter of 2003 totaled approximately \$1.5 million. Through the first nine

Edgar Filing: BNP RESIDENTIAL PROPERTIES INC - Form 10-Q

months of 2003, repairs and maintenance at our apartment communities totaled \$4.1 million, including \$1.5 million in compensation of service staff and \$2.6 million in payments for materials and contracted services.

A summary of capital expenditures at our apartment communities through September 30, 2003, in aggregate and per apartment unit, follows:

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There have been no material changes in information that would be provided under Item 305 of Regulation S-K since December 31, 2002. See "Management's Discussion and Analysis of Financial Condition and Results of Operations - Capital Resources and Liquidity" above for a discussion of our exposure to interest rate risks.

Item 4. Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our annual and periodic reports filed with the SEC is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. These disclosure controls and procedures are further designed to ensure that this information is accumulated and communicated to our management, including our chief executive officer and chief financial officer, to allow timely decisions regarding required disclosures.

Based on our most recent evaluation, which was completed as of the end

Edgar Filing: BNP RESIDENTIAL PROPERTIES INC - Form 10-Q

of the third quarter of 2003, our chief executive officer and chief financial officer believe that our disclosure controls and procedures are effective. There have been no significant changes in our internal controls or in other factors that could significantly affect the internal controls subsequent to the completion of this evaluation.
