PART I

This Form 10-K of Grand Toys International, Inc. (the "Company") contains forward-looking statements within the meaning of the Securities Exchange Act of 1934, which statements are subject to risks and uncertainties. Statements indicating that the Company "expects", "estimates" or "believes" are forward-looking, as are all other statements concerning future financial results, product offerings or other events that have not yet occurred. There are many important factors that could cause actual results or events to differ materially from those anticipated by the

forward-looking statements contained in this Form 10-K.

On September 4, 2001, the Company undertook a one-for-four reverse split of its common stock. All disclosures concerning shares of common stock have been adjusted to give effect to the reverse split.

Item 1.

Description of Business:

Introduction

The Company is a Nevada corporation which, by itself and through its subsidiaries, Grand Toys Ltd. and Grand Concepts Inc. (collectively "Grand Canada") has been engaged in the toy business for over 42 years and currently develops and distributes a wide variety of toys and fashion accessories throughout Canada and, to a lesser extent, the United States. Grand Canada's business consists of four areas of operation: (i) importing and distributing throughout Canada, on an exclusive and non-exclusive basis, of a wide variety of well-known toy and leisure products and fashion accessories including, party goods, stationery and accessories; (ii) selling toy products and fashion accessories featuring popular characters licensed to the Company; (iii) earning commissions on the sale of products, represented by Grand Canada and shipped directly from the overseas vendor to Canadian customers; and (iv) selling proprietary products, such as puzzles, mobiles, and gift-related items.

On January 29, 2002, the Company consolidated all of its Canadian operations into Grand Toys Ltd., and Grand Concepts ceased to exist as an independent entity.

The Company's United States subsidiary, Sababa Toys Inc., which was organized in 2000, distributes proprietary products and develops product concepts to be sold to third parties or developed and distributed by the Company.

Unless the context otherwise requires, references herein to "Grand Toys" or the "Company" include Grand Toys International, Inc. and its operating subsidiaries, Grand Toys Ltd., Grand Concepts Inc., and Sababa Toys Inc. The Company's revenues are primarily derived from the operations of Grand Canada. The Company's other United States subsidiary, Ark Creations, Inc., which developed a proprietary line of puzzles, ceased operations during the fiscal year ended December 31, 2000.

Products

Grand Canada imports into Canada for distribution select toys and fashion accessories from vendors who typically design, develop and sell their products in other countries.

In determining which items to import, Grand Canada examines such factors as consumer acceptance of the particular products in other countries, and Canadian consumer tastes for such products based on similar products distributed previously in Canada. In addition, prior to ordering a product, Grand Canada attempts to predict the potential demand for such product by exhibiting it to Grand Canada's existing customers.

The following table sets forth certain vendors whose products Grand Canada distributes in Canada, the type of products they manufacture, and the price range at which Grand Canada sells such products to retailers.

	Products Distributed by the Company	Product Price Range (\$)

Vendor (Head Office)		
Barter (H.K.)	Proprietary Arts & Crafts & licensed products	0.61 - 77.51
Intex Corporation (Taiwan)	Inflatable water toys (licensed & non-licensed)	0.27 - 451.14
Kid Galaxy (U.S.)	'Bendos' figurines	1.78 - 6.46
P & M Products (U.S.)	Arts & Crafts	1.08 - 15.48
Processed Plastic (U.S.)	Plastic toys, ride-on vehicles, and etc.	0.37 - 31.85
Pyramid (U.S.)	Stationery	0.74 - 1.52
Spectra Star Toys (U.S.)	Kites	0.59 - 12.66
Toy Biz (U.S.)	Male action figures	3.36 - 95.73
Unice S.A. (Spain)	Balls	1.11 - 1.86
Wah Lung (H.K.)	Proprietary dolls, key chains and games	1.50 - 9.00

Our business and operating results depend largely upon the appeal of our toy products. A decline in the popularity of our existing products and product lines or the failure of new products and product lines to achieve and sustain market acceptance could result in reduced overall revenues and margins, which could have a material adverse effect on our business, financial condition and results of operations. Our continued success will depend on our ability to redesign, restyle and extend our existing toy products and fashion accessories and to develop, introduce and gain customer acceptance of new toy product. However consumer preferences with respect to toy products and fashion accessories are continuously changing and are difficult to predict.

Design and Development

As is common in the toy and fashion accessory industries, Grand Canada receives numerous concepts from unaffiliated third parties for new products. Grand Canada does not employ its own inventors of new concepts but if it accepts and develops an inventor's concept for a new product, it will pay royalties to the inventor on sales from that product.

Grand's staff reviews trade and product developments within the recreational sector and determines if there is an opportunity that could be put into development. The Company sources ideas internally. Grand's staff develops the new concepts by attending tradeshows worldwide, reading industry publications and communicating with our existing vendors and customers.

The Company, through its US subsidiary, Sababa Toys Inc., develops new concepts to be developed internally or by the other subsidiaries within the corporate group, to be sold to third parties.

Grand Toys International, Inc. develops proprietary products and uses internal staff to develop the design and development of these products, to be sold to third parties.

All safety testing of the Company's products is done by the manufacturers at the manufacturers' factories and is designed to meet safety regulations imposed by the Canadian and United States governmental authorities. The Company also monitors quality assurance procedures of the vendors for the Company's products for safety purposes at its warehouse facilities.

Sources of Product

Approximately 77% of the Company's gross sales in 2001 were from products supplied by the following five vendors: Toy Biz, P&M Products, Intex Corporation, Barter and Wah Lung. These products accounted for 45%, 15%, 7%, 5% and 5% respectively of 2001 gross sales. Other than the products from the above-mentioned vendors, no products from any other vendor or from the Company's proprietary products accounted for more than 5% of the Company's gross sales in 2001.

Products (stationery and electronics) from Pyramid and Toymax that accounted for 7% of sales in 2001 are no longer a part of the Company's product line, as a result of the Company's decision to focus on more profitable lines. The Company is sourcing new products and looking at potential acquisitions, although no specific acquisition candidates have been specified. If one or more of the remaining suppliers identified above were to terminate their relationship with the Company, such termination may have a material adverse effect on the Company.

The Company's products are manufactured for the Company by unaffiliated third parties principally located in China, Hong Kong, Mexico, Spain, the United States and the United Kingdom. The manufacturers are chosen by the vendor on the basis of price, payment terms, product quality, reliability and the ability of a manufacturer to meet delivery requirements. For licensed products, the licensors may have the right to approve the selected manufacturers. The use of third-party manufacturers enables the Company to avoid incurring fixed manufacturing costs, but also reduces its ability to control the timing and quality of the manufacturing process.

The Company does not supervise the day-to-day manufacturing of its products. However, prior to the commencement of manufacturing, the Company, the vendor and the manufacturer work together to design a prototype of the specific product and its packaging. The manufacturer is contractually obligated to manufacture the products in accordance with those prototype specifications. For licensed products, some licensors may be required to approve the prototype prior to production.

All manufacturing services performed overseas are generally paid for by either letter of credit or wire transfer. Payment for such manufacturing is made only upon the proper fulfillment of terms established by the Company, such as adherence to product quality, design, packaging and shipping standards, as well as proper documentation relating thereto. Most product purchases are paid for in U.S. dollars.

Grand Canada is not a party to any long-term supply or requirements agreements with any specific manufacturer. All of the Company's manufacturers may subcontract the manufacture of components of their products to third parties who are not affiliated with the Company.

Materials

The principal raw materials used in the production and sale of the Company products are plastic, printed fabrics and paper products. These are all currently available at reasonable prices from a variety of sources. Because the Company does not manufacture any of its products on site, it does not own any specialized tools or other production equipment.

Location

Grand Canada leases a building in suburban Montreal, Quebec, Canada, where the Company's executive and administrative offices are located as well as its distribution center. The Company also has a sales office and showroom

in Mississauga, Ontario, Canada. Sababa Toys Inc. occupies office premises in New York.

Licensing and Distribution Agreements

Character Licenses

The Company's product line includes products featuring well-known character properties created by others. In order to obtain the right to manufacture and sell products featuring such character properties, Grand Canada enters into license agreements with the owners of such properties. Under the terms of the character property license agreements, Grand Canada pays royalties to licensors that generally range from 10% to 21% of net sales of the products carrying these character properties. To the extent that competition increases among companies to obtain character property licenses, Grand Canada may encounter increased difficulty in obtaining certain character licenses and may be required to pay greater minimum guaranteed royalty amounts.

Generally, the Company's character property license agreements provide the Company with the exclusive or non-exclusive right to sell only specific products featuring the particular character. These agreements typically limit the sale of such products to Canada. However, certain agreements allow distribution in the United States. They generally have terms of one to three years and may be renewed upon payment of certain minimum guarantees or the attainment of specified sales levels.

The following table sets forth some of the Company's character licenses, the licensor for these character properties, the territory of sale, and the types of products that the Company markets featuring these character properties.

No one particular character property license resulted in sales in excess of 4% of Grand Canada's sales revenues for the year ended December 31, 2001, and the loss of any one such license would not have a material adverse effect on Grand Canada's operations.

All costs associated with licensing and distribution are expensed in the period incurred and are shown as royalties expense in the Company's Statements of Operations which constitute a part of the Company's Consolidated Financials Statements for the Year Ended December 31, 2001 which are included with this report. Total expense for the year ended December 31, 2001 is \$252,506 (2000 - \$250,523, 1999 - \$280,782).

One of these contracts has a keyman clause tied to one of Grand's employees.

License and Distribution Arrangements with Toy Vendors

Grand Canada has entered into distribution agreements with two of its approximately eighteen vendors. Grand Canada selects products from a master product list provided to it by the vendor. The purchase price, depending on the arrangement with the supplier, may consist of a fixed payment per item, specified minimum quantities to be purchased and other conditions, and occasionally a royalty fee.

Pursuant to these agreements, Grand Canada obtains either the exclusive and non-exclusive right to import and distribute throughout Canada the products selected by it. These agreements generally have terms of one to five years and are usually exclusive for a specified product or product line within a specific territory.

Generally, under these agreements, Grand Canada is responsible for paying shipping and other related costs and expenses. If Grand Canada were to be in default under a license or distribution agreement it may cause such agreement to be terminated as well as result in liability for certain costs and penalties.

Grand Canada's distribution agreement with its largest vendor, Toy Biz Inc, accounting for 45% of the Company's 2001 sales volume, terminated on December 31, 2001. At this time, Grand Canada continues to sell Toy Biz products in accordance with its historical practice. The Company is discussing renewal terms and is currently purchasing and selling their product line with orders placed well into the fall of 2002.

As a result of changing consumer preferences, many toy products are successfully marketed for only one or two years. There can be no assurances that any of our current products or product lines will continue to be popular for any significant period of time; any new products or product lines introduced by us will achieve an adequate degree of market acceptance; or any new product's life cycle will be sufficient to permit us to recover development, manufacturing, marketing or other costs of the product. In the event a new product does not receive sufficient market acceptance, we may be required to sell inventory of such products at a substantial discount. Accordingly, our success is dependent in large part on our ability to secure the rights to distribute new products and to secure new character and well-known brand name licenses for existing or new product lines, which cannot be assured. Therefore, we cannot assume that any new products will be successful or meet with the same success as existing products.

Marketing, Sales and Distribution

Grand Canada markets its products throughout Canada via its own sales representatives as well as independent sales agents. Purchasers of the products include retail chain stores, department stores, toy specialty stores and wholesalers.

Grand Canada's four largest customers are: Walmart, Toys 'R' Us, Costco and Zellers, which for the year ended December 31, 2001, accounted for approximately 35%, 11%, 10% and 7%, respectively, of the gross sales for this period. No other customer accounted for more than 7% of gross sales in 2001.

Other than purchase orders from its customers, Grand Canada does not have written agreements with its customers, but rather sells products to customers on open account, with payment terms typically varying from 30 to 90 days. If one or more of the four customers identified above terminated its relationship with Grand Canada, a material adverse effect on the Company may occur.

In addition, pressure by large customers seeking a reduction in prices, financial incentives, a change in other terms of sale or for us to bear the risks and the cost of carrying inventory could also adversely affect our business, financial condition and results of operations.

Grand Canada employs a sales and marketing staff of eight people, including two of its senior managers and six sales persons who make on-site visits to customers for the purpose of soliciting orders for products. It markets products at major and regional toy trade shows in Canada. In addition, Grand Canada maintains showrooms in its suburban Montreal and Mississauga facilities.

Grand Canada directly, or through its salespersons, takes written orders for its products from its customers and arranges for the manufacture of its products. Cancellations are generally made in writing and appropriate steps are taken to notify its manufacturers of such cancellations.

Sababa Toys Inc. had modest sales in 2001, to several retail outlets in the United States.

Returns are generally not accepted, although consistent with industry practices, exceptions to this policy are made on a case-by-case negotiated basis.

Seasonality

Our business is seasonal and therefore our annual operating results will depend, in large part, on our sales during the relatively brief holiday season. Further, this seasonality is increasing as large retailers become more efficient in their control of inventory levels through quick response management techniques. Sales of our toy products at retail are seasonal, with a majority of retail sales occurring during the period from September through December in anticipation of the holiday season.

These customers are timing reorders so that they are being filled by suppliers closer to the time of purchase by consumers, which to a large extent occur during September through December, rather than maintaining large on-hand inventories throughout the year to meet consumer demand. While these techniques reduce a retailer's investment in inventory, they increase pressure on suppliers like us to fill orders promptly and shift a significant portion of inventory risk and carrying costs to the supplier. The limited inventory carried by retailers may also reduce or delay retail sales. Additionally, the logistics of supplying more and more product within shorter time periods will increase the risk that we fail to achieve tight and compressed shipping schedules.

This seasonal pattern requires significant use of working capital mainly to manufacture inventory during the year, prior to the holiday season, and requires accurate forecasting of demand for products during the holiday season. Our failure to accurately predict and respond to consumer demand could result in our underproducing popular items and overproducing less popular items.

Product Liability

The Company maintains product liability coverage for the Company's operations in the aggregate amount of Canadian \$15,000,000. The Company has not been the subject of any product liability litigation.

Competition

Many other companies involved in the toy distribution industry in Canada and the United States have greater financial resources, larger sales forces, greater name recognition, larger facilities for product development and products that may be more competitively priced than our products. As a result, some of our competitors may be able to obtain a greater volume of and more lucrative distribution contracts than we can. The Company competes with, among others Mattel Inc., Hasbro Inc. and Irwin Toys Ltd. (Canada).

Government Regulation

The Company is subject to the provisions of various laws, certain of which have been enacted by the Federal Government of Canada and others which have been enacted by the Government of the Province of Quebec and other Canadian provinces

, and the various states in the U.S.

Federal

The laws of the Government of Canada to which the Company is subject include the *Hazardous Products Act* which empowers the Government to protect children from hazardous toys and other articles. Under that legislation the Government has the authority to exclude from the market those articles, which are found to be hazardous. Grand Canada is also subject to the *Consumer Packaging and Labeling Act* enacted by the Government of Canada, whose legislation prohibits the importation of prepackaged items into Canada, as well as the sale, importation, or advertising in Canada of items which have misleading information on their label.

Provincial

The legislation enacted by the Government of the Province of Quebec to which Grand Canada is subject includes the *Consumer Protection Act* which prohibits the sale of hazardous toys and other articles, and also requires proper labeling and instructions to be included with the item being sold.

Grand Canada is also subject to the *Charter of the French Language*, which requires that all labeling and instructions appear in the French language, as well as the *Upholstery and Stuffed Articles Act*, which requires that stuffed articles conform to hygienic norms, and obligates companies to take measures against contamination during transportation and storage. Similar laws exist in several cities and provinces throughout Canada and in many jurisdictions throughout the world.

The Company maintains a quality control program to ensure compliance with all applicable laws.

Employees

As of December 31, 2001, the Company employed 42 full-time persons, including three executive officers. The Company believes that its relations with its employees are satisfactory.

Item 2.

Description Of Property:

The Company's principal executive offices are located in an approximately 105,000 square foot facility located at 1710 Route Trans-Canada, Dorval, Quebec, Canada, a suburb of Montreal. The Company uses the facility for offices, showroom, warehousing and distribution.

The lease for the premises expires on September 1, 2004 but Grand Canada has the right to extend the lease for an additional five-year period. The current monthly rent is \$21,000 and during the extension period shall be increased each year by a percentage that is equal to 75% of the percentage increase in the consumer price index for the greater Montreal, Canada area.

Grand Canada also leases, pursuant to a lease expiring on January 1, 2005, approximately 9,000 square feet of showroom and office space at 6427 Northam Drive, Mississauga, Ontario, Canada, a suburb of Toronto, at a current rental rate of approximately \$2,700 per month.

Edgar Filing: GRAND TOYS INTERNATIONAL INC - Form 10-K/A

Sababa Toys Inc. leases 1,610 square feet of office space at 119 W. 23rd Street, Suite 505, New York, N.Y., pursuant to a lease expiring November 1, 2003, at a current rental rate of \$4,900 per month.

The Company believes that its current facilities are satisfactory for its present needs and that insurance coverage is adequate for the premises.

Item 3.

Legal Proceedings:

On November 30, 1995, an involuntary petition under Chapter 7 of the United States Bankruptcy Code was filed against Grand Group Inc, a U.S. subsidiary, in the United States Bankruptcy Court for the Southern District of New York (the "Bankruptcy Proceeding"). On January 4, 1996, the Court entered an order for relief under Chapter 7 of the United States Bankruptcy Code and a trustee was appointed to supervise the liquidation of Grand Group Inc. To date, no other proceedings have occurred in connection with the Bankruptcy.

During the third quarter of 2001, the Company settled the class action lawsuit at a minimal cost to the Company. The parties' settlement in the action of Robert R. Van Dyke v. Grand Toys International, Inc., Stephen Altro, David Mars, Ron Goldenberg, Elliot L. Bier and James B. Rybakoff, 00 Civ. 2710, was approved by the United States District Court for the Southern District of New York on September 24, 2001.

During the quarter ended December 31, 2001, there were no material developments to any legal proceedings, which have been previously reported by the Company. See Note 16 of the Company's Consolidated Financial Statements for the year ended December 31, 2001, which is an exhibit to this report for a complete description of material legal proceedings to which the Company is presently a party.

Other than discussed above or in Note 16 to the Company's Consolidated Financial Statements included elsewhere herein, the Company is not a party to, nor is it aware of, any other pending litigation of a material nature.

Item 4.

PART II

Item 5.

Market For Common Equity and Related Stockholder Matters:

The Company's Common Stock is traded on the NASDAQ Small Cap Stock Market (NASDAQ) under the symbol "GRIN".

The following table sets forth the range of high and low closing representative bid prices for the Company's Common Stock from January 1, 2000 through December 31, 2001 as reported by Nasdaq.

The figures represent prices between dealers, do not include retail mark-ups, mark-downs or commissions and may not represent actual transactions. In addition, the figures reflect the impact of the one-for-four reverse split of September 4, 2001.

Common Stock	Representative Bid Prices	
	High (\$)	Low (\$)
2000		
First Quarter	27 1/2	10 -
Second Quarter	14 5/8	5/8
Third Quarter	21 1/2	5 -
Fourth Quarter	8 1/4	1/2
2001		
First Quarter	2 3/4	1 -
Second Quarter	3 5/32	1 3/4
Third Quarter	2 1/5	1 3/32
Fourth Quarter	4 5/16	3/4

On March 20, 2002, the last reported sales price for the Common Stock on the Nasdaq SmallCap Market was \$2.50 per share.

On January 12, 2001, the Company was advised by Nasdaq that it had failed to meet the requirements for continued listing on the SmallCap market because the stock traded below \$1.00 for a 30-day period.

On April 9, 2001, the Company received a Nasdaq Staff Determination indicating that the Company had failed to comply with each of the net tangible asset, market capitalization and net income requirements for continued listing. The Company further received a Nasdaq Staff Determination on April 16, 2001 indicating that the Company had failed to comply with the \$1.00 minimum bid price requirement for continued listing and that its securities were, therefore, subject to delisting from the Nasdaq SmallCap Market.

The Company requested a hearing before the Nasdaq panel to appeal the delisting determination. This hearing was held on June 6, 2001. As a result of this hearing, on August 2, 2001, the Company was advised by Nasdaq that it would continue to be listed via an exception from the net tangible assets, market capitalization, net income, market value of public float and minimum bid price requirements.

The Company was given a temporary exception from these standards subject to Grand Toys International, Inc. meeting the following conditions by November 15, 2001:

- Grand's closing bid price had to be at least \$1.00 per share on or before September 4, 2001 and for a minimum of ten consecutive trading days thereafter.
 - ◆ The market value of the public float had to be at least \$1,000,000 on or before September 4, 2001 and for a minimum of ten consecutive trading days thereafter.
 - ◆ On or before August 15, 2001, Grand had to demonstrate that it had net tangible assets of at least \$2,000,000 or total shareholders' equity of at least \$2,500,000. Grand had to also continue to demonstrate compliance with this requirement on November 15, 2001.

On September 4, 2001, The Company undertook a one-for-four reverse split of the Company's Common Stock in order to regain compliance with the minimum bid price required Grand had complied with the net tangible asset requirements on August 15, 2001 and November 15, 2001, however on November 27, 2001, Nasdaq advised that it would be extending this exception to April 1, 2002 to include the fourth quarter of 2001.

On January 30, 2002, a "C" was added to the Company's trading symbol as a result of the Company's failure to solicit proxies and hold its 2000 Annual Meeting of Shareholders. The exception was removed after March 15, 2002. Grand held its Annual Meeting on March 14, 2002.

There can be no assurance that we will be able to meet the requirements for continued listing or that we could successfully appeal a delisting determination. If our shares were delisted, we might be able to have our shares listed for quotation on the OTC Bulletin Board. However, the failure to have our shares quoted on the SmallCap market would likely have an adverse impact on the price and liquidity of our shares and our ability to obtain financing in the future.

At February 28, 2002 there were approximately 192 record holders of the Company's Common Stock, however those shares being held at various clearing houses, including Cede & Company have not been broken down. Accordingly, the Company believes there are many more beneficial owners of the Company's Common Stock whose shares are held in "street name", not in the name of the individual shareholder.

Management's Discussion and Analysis:

The following should be read in conjunction with the consolidated financial statements included in this Annual Report.

Overview

In our audited financial statements for the years ended December 31, 2001 and 2000 we recognized that we had certain issues which raised substantial doubt about the Company's ability to continue as a going concern. The reasons cited were our recurring losses and the cancellation of our line of credit in 2000. This was noted in KPMG's audit report on those financial statements. In 2001, we implemented a plan to stem our losses and return to profitability and secured lines of credit. However, these lines of credit are not sufficient to meet all of our financial needs and we might not be able to successfully implement our new operational plan. If doubts about our ability to continue as a going concern persist, it may have an adverse impact on investors' willingness to invest in our stock which would negatively impact the price and liquidity of our shares.

We incurred net losses of \$10,156,713 for the year ended December 31, 2000, \$709,466 for the year ended December 31, 1999. We have not reported an annual profit since December 31, 1997. We have recently begun to implement a plan to return to profitability. Over the course of 2001 we have focused on products with higher profit margins and have reduced expenses. This has resulted in improved performance but we have not achieved profitability for the year ending December 31, 2001 and, in spite of these efforts, there can be no assurance that we will become profitable on an annual basis.

Net sales consist of sales of products to customers after deduction of customer cash discounts, freight and warehouse allowances, and volume rebate allowances. Sales are recorded when the merchandise is shipped.

The cost of goods sold for products imported as finished goods includes the cost of the product in the appropriate domestic currency, duty and other taxes, and freight and brokerage charges. Royalties to Grand Canada suppliers not contingent upon the subsequent sales of the suppliers' products are included in the price paid for such products.

Major components of selling, general and administrative expenses include: payroll and fringe benefits; advertising expense, which includes the cost of production of television commercials and the cost of air time; advertising allowances paid to customers for cooperative advertising programs; and royalty expense. Royalties include payments by Grand Canada to licensors of character properties and to manufacturers of toy products if such payments are contingent upon subsequent sales of the products. Royalties are usually a percentage of the price at which the product is sold and are payable once a sale is made.

The pricing of our goods is affected by the price we obtain from our vendors (Cost of Goods Sold) and therefore dictates the selling price we can charge our customers. Other factors that influence our setting of the selling price is the condition of the current market and the nature of the item itself.

From a selling, general and administrative aspect, the pricing will impact selling (commission expense) and general and administrative (advertising expense). In addition, if a lower selling price is set then the related margin on the product will be reduced and therefore the Company will look to rationalize other expenses, i.e. customer packages.

Accounts receivable are receivables net of an allowance for doubtful accounts. The allowance is adjusted periodically to reflect the current status of receivables. Management believes that current reserves for doubtful accounts are adequate. Sales of products to retailers and distributors are on an irrevocable basis. Consistent with industry practices, Grand Canada may make exceptions to this policy on a case-by-case negotiated basis. Inventory is comprised of finished goods at landed cost.

All amounts are in US Dollars (\$) unless otherwise noted.

On a quarterly basis management reviews its inventory of products and makes an assessment of its realizable value. The factors considered include current market prices, the demand for and the seasonality of its products. If circumstances change (i.e. unexpected shift in market demand, pricing, trends etc.) there could be a material impact on the net realizable value of inventory.

Comparison of the year ended December 31, 2001 to the year ended December 31, 2000

Net Loss:

Edgar Filing: GRAND TOYS INTERNATIONAL INC - Form 10-K/A

Net loss for 2001 was \$1,371,492 or \$1.16 loss per share as compared to a net loss of \$10,156,713 or \$12.70 loss per share in 2000.

Increased gross profit, a total dollar decrease in operating expenses and the recognition of the gain on the forgiveness of debt resulted in the significant decrease in the net loss for the year as compared to 2000. The net loss was increased by the write-off of deferred income taxes in 2001. The Company will have until 2007 to be able to apply unutilized tax losses against future taxable income.

Net Sales:

Net sales decreased by \$3,130,318 or by 26.05% to \$8,887,567 from \$12,017,885 for 2000. For the year 2001, the decrease in Grand's net sales resulted from the termination by Grand of its distribution of the Toymax product line. This line represented 12% of 2000 Net Sales.

During the year, net sales decreased, however gross profit increased, as a result of the Company's emphasis on profitable sales and tighter inventory control. The current economic environment and retailers' just in time inventory practices contributed to the decrease in sales in 2001.

Gross Profit:

Gross profit for the Company increased by \$2,462,353. As a percentage of sales, gross profit increased from 3.00% to 31.76%. Despite the decrease in net sales, gross profit increased as a result of the sales mix in the product line.

The increased gross profit in 2001 resulted from the Company's continued emphasis on higher margin sales and minimized sales of discontinued products by tighter inventory control. In addition commissions on FOB sales increased as compared to the same period of 2000. In 2000, the lower gross profit percentage was associated with the recording of significant inventory write-downs.

General and Administrative Expenses:

The decrease in general and administrative expenses of \$576,005 to \$3,595,413 in 2001, from \$4,171,418 in 2000, was due to an overall decrease in the expenses in this category, as a result of Company efforts to reduce expenses. However, the following non-recurring expenses offset the overall reduction:

Expense category:

Legal fees \$	\$ 318,536
Financing charges	203,080
Severance & placement fees	137,777
Consulting	92,790
Other	86,379
Total Non-Recurring expenses	\$ 838,562

Due to the fact that the Company faced several legal issues (refer to Note 15 of the 2000 consolidated financial statements) at the beginning of 2001, legal expense was higher than the Company experienced in prior years. In

addition, as a result of the Company's recurring losses, the financing charges are higher since the Company has only been able to obtain financing from a high risk lender which charges high rates. In an effort to down-size the organization, the Company was required to make severance payments. During March 2001, the Company engaged consultants to assist in the reorganization of the Company.

Selling, general and administrative expenses as a percentage of sales, were higher in 2001, a 7.83% increase, as compared to 2000 as a result of the lower sales base. The Company continues to conduct reviews of all aspects of its operations to reduce costs and improve profitability.

Unusual Items:

- a) The Company, as a result of receiving a favorable court judgment in March 2001, reversed the accrual of \$550,000 set up in December 31, 2000. (see note 16 of the Consolidated Financial Statement)
- b) The Company was successful in obtaining a settlement of litigation against Limited Treasures, Inc. in June 2001, and has reduced the provision against the receivable by \$288,102. At December 31, 2000, the Company had recorded a provision against the receivable of \$434,371. (See Note 3 of the consolidated financial statements).

Gain on forgiveness of debt:

As a result of the cessation of the business of the Company's subsidiary, Ark Creations and the foreclosure of shares of The Company's common stock which were pledged to secure Ark Creation's indebtedness to the sellers of the assets of Ark Creations, the Company eliminated the liability associated with the promissory note in June 2001. The Company recognized \$1,195,123 as a gain on forgiveness of the debt equal to the difference between the principal amount of the promissory note and the value of the pledged shares. See Note 7 of the consolidated financial statements.

Income Taxes

(a) Current recovery:

The Company reversed \$149,538 in the third quarter of 2001 as a result of the determination that only one tax jurisdiction could recover taxes owing from the Company in a tax case which began in 1996. In the fourth quarter, the Company reversed the accrual of \$159,807 as a result of the successful resolution, in the Company's favor, of this tax case.

The Company recorded an expense of \$13,713 for U.S. tax liability.

(b) Deferred

The Company wrote off the following amounts during the year:

- ◆ June 2001 - \$499,585, presented as an offset to the Gain on forgiveness of debt
- ◆ September 2001 - \$ 185,411, written off due to recurring losses in the US companies.

Comparison of the year ended December 31, 2000 to the year ended December 31, 1999:

Net Loss

Net loss for 2000 was \$10,187,963 or \$12.70 loss per share as compared to a net loss of \$759,466 or \$1.42 loss per share in 1999. The decrease was mainly due to the unusual charge of \$3,625,055 consisting mainly of prepaid and

intangible write-offs and the decrease in sales and the reduced margins on those sales during the year. In addition, while the Company did endeavor to reduce selling, general and administrative expenses for the year, those deductions did not match, as a percentage, the reduction of the sales volume.

The net loss was further increased by the restriction of income tax recoveries of a subsidiary to the amount that can be recovered from taxes paid in prior years. The Company will have until 2007 to be able to apply unutilized tax losses against future taxable income.

Net Sales

Net sales in 2000 decreased to \$12,017,885 from \$37,260,250 for 1999. The lower net sales volume was attributed to the loss, in 2000, of two significant product lines, Tiger Electronics and Majorette. Hasbro acquired Tiger Electronics Inc. in February, 1999 and terminated the distribution of Tiger products by Grand Canada effective December 31, 1999. Grand Canada discontinued its distribution of the Majorette products line due to the non-performance of the product line.

The significant softening of the retail market for the types of products distributed by the Company resulted in significantly higher customer markdowns, which negatively impacted net sales. Further, a decrease in the Company's commission revenue contributed to the decrease.

Gross Profit

Due to the loss of two significant product lines, the lower margins relating to the 2000 sales volume, and the recording of \$1,861,681 as an inventory reserve, of which \$263,497 was recorded in the fourth quarter, due to the decline in market demand for such items as WWF, WCW, Star Wars and Pokemon products, the gross profit decreased significantly.

General and Administrative

General and administrative expenses in 2000 decreased to \$4,171,418 from \$5,937,093 in 1999. However, these costs, as a percentage of sales, were significantly higher compared to 1999 due to the much lower sales base. The Company, in anticipation of the sales volume decline, implemented a cost control program during the year. Decreases in salary expense, cooperative advertising rebates to customers, and administrative expense comprised the majority of the total decrease.

Unusual Items

These expenses are comprised of the following items:

- a. The Company settled a lawsuit by a lessor of certain real estate for \$264,000.
- b. The Company recognized the permanent impairment in value of goodwill and patents from the acquisition of the assets by its Ark Creations subsidiary of \$2,253,516, as a result of its decision to cease operations of its subsidiary. The purpose of Grand's acquisition of Ark Foundation LLC by its subsidiary, Ark Creations Inc., was to give Grand direct access to the US market by acquiring an existing US operating company. Due to disappointing sales results in 2000, Grand closed this operation and transferred the product line to its head office.
- c. The company's credit line, which was scheduled to expire in 2001, was terminated in January 2001. As a result, the Company has taken a charge against earnings of the full amount of the deferred financing charges of \$535,109, which is included in other interest expense.

- d. The Company has written off \$557,539 as a result of its decision to abandon its proposed acquisition of Limited Treasures, Inc. and providing for an allowance on a loan receivable from Limited Treasures.
- e. The Company has reserved \$550,000 to cover a lawsuit commenced by a supplier against Grand Canada for breach of contract.

Liquidity and Capital Resources

The Company generally finances its operations through borrowings with its Montcap Financial Inc., by cash flow from operations, and sales of equity securities. The inflow of funds in 1999, due to options and warrants being exercised resulted in virtually all short-term bank debt being eliminated by December 31, 1999 and a cash position maintained through June 30, 2001, as a result of a private sale of common stock and the receipt of income taxes recoverable.

In March 2001, the Company received gross proceeds of \$500,000 from a private sale of its Common Stock and warrants.

In June 2001, the Company secured a line of credit up to \$627,825 with drawdowns based upon specified percentages of its accounts receivable. The line of credit was secured by the accounts receivable of the Company.

In October 2001, the Company increased its credit facility up to \$1,569,563 with drawdowns based upon specified percentages of accounts receivable and inventory and the value of its equipment. All the assets of the Company secure the line of credit.

In December 2001, the Company issued Series B convertible redeemable preferred stock for a total of \$915,000 of which \$800,000 was received in December 2001, and the balance in January 2002.

During 2001, we secured a new line of credit to finance our inventory and accounts receivable and we also realized net proceeds from the sale of our common stock and warrants. This source of financing, however, will not be sufficient to fully implement our business plan. To the extent that we will be required to fund operating losses, our financial position will deteriorate. There can be no assurance that we will be able to find significant additional financing at all or on terms favorable to us. If equity securities are issued in connection with a financing, dilution to our stockholders may result, and if additional funds are raised through the incurrence of debt, we may be subject to restrictions on our operations and finances. Furthermore, if we do incur additional debt, we may be limiting our ability to repurchase capital stock, engage in mergers, consolidations, acquisitions and asset sales, or alter our lines of business or accounting methods, even though these actions would otherwise benefit our business.

Accounts receivable at December 31, 2001 were \$1,386,333 compared to \$1,498,999 at December 31, 2000. The sales were mainly to mass retailers. Inventory at December 31, 2001 decreased to \$1,838,770 from \$1,991,918 at December 31, 2000. Management's focus on maintaining manageable and current inventory levels led to a lower inventory value as at December 31, 2001.

Working capital decreased from \$2,804,596 at December 31, 2000 to \$1,111,171 at December 31, 2001. Net cash used for operating activities was \$1,622,103 in 2001 compared to net cash provided by operating activities of \$2,275,773 in 2000. Cash for additions to equipment and leasehold improvements was \$47,433 in 2001 compared to \$140,586 for 2000.

The Company's accounts receivable level is subject to significant seasonal variations due to the seasonality of sales. As a result, the Company's working capital requirements are greatest during its third and fourth quarters. In addition, to the extent accounts receivable, inventories, guarantees and advance payments increase as a result of growth of the Company's business, the Company could require additional working capital to fund its operations.

Sources of such funding include cash flow from operations, drawings on the financing facilities, or sales of additional equity or debt securities by the Company.

If the funds available to the Company for current cash and cash equivalents are not sufficient to meet the Company's cash needs, the Company may from time to time seek to raise capital from additional sources, including project-specific financing, additional public or private debt or equity financing.

We believe that in order to achieve our long-term expansion objectives and to enhance our competitive position in the U.S. market, we will need additional financial resources over the next several years. The precise amount and timing of our future financing needs cannot be determined at this time and will depend upon a number of factors, including the demand for our products and the management of our working capital. We may not be able to obtain additional financing on acceptable terms or at all. If we are unable to obtain sufficient capital, we could be required to curtail our expansion.

Effects Of Inflation

The Company does not believe that inflation has had a significant impact on its financial position or results of operations in the past three years

.

New Accounting Pronouncements

The Company has determined that the new pronouncements that will come into effect in the year 2002 will not have an impact on the financial statements.

Item 7a.

Quantitative and Qualitative Disclosures About Market Risk:

The Company is exposed to certain market risks, which arise from transactions entered into in the normal course of business. The Company's primary exposures are changes in interest rates with respect to its debt and foreign currency exchange fluctuations.

INTEREST RATE RISK The interest payable on the Company's revolving lines-of-credit are variable based on the prime rate, and therefore, affected by changes in market interest rates. The Company does not use derivative financial instruments.

FOREIGN CURRENCY RISK While the Company's product purchases are transacted in U.S. dollars, most transactions among the suppliers and subcontractors are effected in HK dollars. Accordingly, fluctuations in Hong Kong monetary rates may have an impact on the Company's cost of goods. Furthermore, appreciation of Chinese currency values relative to the Hong Kong dollar could increase the cost to the Company of the products manufactured in the People's Republic of China, and thereby have a negative impact on the Company. Since the majority of the Company's sales are in Canadian dollars, the Company is at risk with regards to the conversion of Canadian dollars to US dollars to pay its suppliers. Therefore, fluctuations in the conversion rate may have an impact on the Company. The Company may use derivative financial instruments solely to hedge the effects of such currency fluctuations.

Each of Messrs. Altro and Mars were executive officers of Grand Group Inc., the Company's former United States Operating Company ("Grand Group"). On January 4, 1996, an order for relief under Chapter 7 of the United States Bankruptcy Code was entered against Grand Group, at which time a trustee was appointed to supervise its liquidation.

Directors do not get paid any compensation for attendance at directors' meetings or for attending or participating in any committee meetings, but are eligible to participate in our Stock Option Plan. Directors who are also officers are not paid any compensation for attendance at directors' meetings or for attending or participating in any committee meetings. Non-employee directors are compensated for their services and attendance at meetings through the automatic quarterly grant of 125 options pursuant to our Stock Option Plan.

In 2001, Elliot Bier received \$42,000 as compensation for performing his duties of Chairman, and 36,000 options granted in October 2001.

Board Compensation Committee Report on Executive Compensation

General.

The Compensation Committee is composed of non-employee Directors who review recommendations as to senior executive officer compensation which, upon the approval of the Compensation Committee, are submitted to the Board of Directors. The members of the Compensation Committee also administer the Stock Option Plan of the Company under which options have been granted on a discretionary basis to senior executive officers. The Compensation Committee's overall compensation policy applicable to executive officers is to provide a compensation package that is intended to attract and retain qualified executives for us and to provide them with incentives to achieve our goals and

increase shareholder value. The Compensation Committee implements this policy through salaries, bonuses, stock options, a retirement savings plan, and employment agreements and miscellaneous personal benefits.

CEO Compensation

. Mr. Bradley is employed as Chief Executive Officer and President, and has agreed to devote his full time and efforts to our business. We agreed to pay Mr. Bradley a base salary of Canadian \$182,500 (approximately U.S. \$118,000 as of December 31, 2001).

Salaries

. The Compensation Committee's policy is to provide salaries (i) that are approximately at the median of the salaries paid to similar executive officers in similar companies, adjusted in the Compensation Committee's subjective judgment to reflect differences in duties of the officers and differences in the size and stage of development of the companies, in order to attract and retain qualified executives and (ii) that compensate individual employees for their individual contributions and performance.

The Compensation Committee determines comparable salaries paid by other companies similar to us through its subjective evaluation of its members' knowledge of salaries paid by other companies, salary requests of individuals interviewed by us for open positions and recommendations of management.

Bonuses.

The Compensation Committee's policy is to recommend bonuses that compensate executive officers for achieving our goals. In addition, the Compensation Committee's policy is to pay discretionary bonuses, determined near the end of the fiscal year, to compensate executive officers for performance or achievements during the fiscal year not covered by bonuses paid earlier in the year.

Stock Options.

The Compensation Committee's policy is to award stock options to each of our officers, employees and directors in amounts reflecting the participant's position and ability to influence our overall performance, determined based on the Committee's subjective judgment after reviewing the number of options previously granted to such person, the number of options granted to persons in similar positions both with us and at other companies deemed comparable to us (based on the members' knowledge of options granted by other companies), the number of options remaining available for grant and management's recommendations.

Options are intended to provide participants with an increased incentive to make contributions to our long-term performance and growth, to join the interests of participants with the interests of our shareholders and to attract and retain qualified employees. The number of options granted to an executive in 2001 were granted as an inducement for employment.

The Compensation Committee's policy is to grant options with a term of ten years to provide a long-term incentive and to fix the exercise price of the options at the fair market value of the underlying shares on the date of grant. Such options only provide compensation if the price of the underlying shares increases. The Committee's policy is also to provide new executives with options to attract them to us based on negotiations with new executives, management's recommendations and the Committee's subjective judgment primarily after reviewing the number of options granted to similar executives.

Generally, the Compensation Committee reserves the right to pay compensation to our executives in amounts it deems appropriate regardless of whether such compensation is deductible for federal income tax purposes. Options granted to

executives in fiscal 1997 are potentially subject to limits on permitted federal income tax deductions upon exercise of such options, including under current treasury regulations concerning the \$1,000,000 cap on executive compensation deductions under Section 162(m) of the Internal Revenue Code of 1986, as amended. The Committee determined to recommend the grants of options to executives in July 1997 despite such options potentially being subject to the \$1,000,000 cap on executive compensation. The Committee determined that such grants were more important to us than the potential loss of related compensation deductions upon exercise of the options.

Retirement Savings Plan

. We have adopted a group retirement savings plan for our Canadian employees. We contribute to this plan the lesser of (a) 50% of the employee's contribution to this plan; (b) 3% of the employee's gross earnings; or (c) Canadian \$3,000 per employee. During the year ended December 31, 2001, we contributed approximately \$17,000 to the plan.

Employment Agreements and Miscellaneous Personal Benefits.

The Compensation Committee's policy has been to have employment agreements with each of its executive officers to provide them with specified minimum positions, periods of employment, salaries, fringe benefits and severance benefits. These benefits are intended to permit the executive officer to focus his attention on performing his duties to us, rather than on the security of his employment, and to provide the officer with benefits deemed by the Compensation Committee to be suitable for the executive's office.

This report is provided in accordance with federal securities law requirements and is not intended to create any contractually binding employment rights for the benefit of any employee of the Company or its subsidiaries.

INDEPENDENT AUDITORS' REPORT

The Board of Directors and Stockholders
Grand Toys International, Inc.

We have audited the consolidated balance sheets of Grand Toys International, Inc. as at December 31, 2001 and 2000 and the consolidated statements of operations, stockholders' equity and comprehensive income and cash flows for each of the years in the three-year period ended December 31, 2001. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated

financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Grand Toys International, Inc. and subsidiaries as at December 31, 2001 and 2000 and the results of its operations and its cash flows for each of the years in the three-year period ended December 31, 2001, in conformity with accounting principles generally accepted in the United States.

The accompanying consolidated financial statements have been prepared assuming the Company will continue as a going concern. As discussed in note 1 (a) to the consolidated financial statements, the Company has suffered recurring losses, which raise substantial doubt about its ability to continue as a going concern. These consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.
