ELECTION OF DIRECTORS

The Company's Board of Directors has fixed the number of directors at seven. Members of the Board of Directors are divided into three classes serving staggered three-year terms. The term of three of the Company's current directors, Maarten D. Hemsley, Marvin G. Schorr and David R. A. Steadman, expires at the annual meeting. Based on the recommendation of its Nominating and Governance Committee, the Board has nominated Mr. Hemsley, Dr. Schorr and Mr. Steadman for re-election to a new three-year term. Each nominee has consented to serve if elected, and the Company is not presently aware of any reason that would prevent any nominee from serving as a director. If a nominee should become unavailable for election, the proxies will be voted for another nominee selected by the Board.

Pursuant to the Company's by-laws, directors will be elected by a plurality of the votes properly cast at the annual meeting. Abstentions, votes withheld and broker non-votes will not be treated as votes cast and will not affect the outcome of the election. A "broker non-vote" occurs when a broker holding a customer's shares indicates on the proxy that the broker has not received voting instructions on a matter from the customer and is barred by applicable rules from exercising discretionary authority to vote on the matter.

The following table contains information on the nominees for election at the annual meeting and each other person whose term of office as a director will continue after the meeting. The nominees for election at the meeting are indicated by an asterisk.

Board of Directors Independence and Meetings

The Board has determined that all directors, other than Mr. Boyle, are independent under the American Stock Exchange rules, based on information known to the Company and on the annual questionnaire completed by each director. The Board regularly schedules meetings at which only independent directors are present.

During the fiscal year ended September 30, 2006, the Board of Directors held a total of seven meetings. Each director attended at least 75% of the total number of meetings of the Board of Directors and all committees of the Board on which the director served. All Board members are expected to attend the annual meeting of stockholders, subject to special circumstances. All of the Board members attended the annual meeting of stockholders in 2006.

Communications to the Board

Stockholders may communicate with the Board of Directors by mailing a communication to the entire Board or to one or more individual directors, in care of the Corporate Secretary, Tech/Ops Sevcon, Inc., 155 Northboro Road, Southborough, Massachusetts 01772. All communications from stockholders to Board members (other than communications soliciting the purchase of products and services) will be promptly relayed to the Board members to whom the communications are addressed.

Committees of the Board

The Board of Directors has an Audit Committee, a Compensation Committee and a Nominating and Governance Committee, all the members of which are independent, as defined by Securities and Exchange Commission rules and American Stock Exchange listing standards, as applicable. In addition to the meetings described below, the members of each committee communicate regularly amongst themselves and with management on Company matters.

The charters of the Audit Committee, the Compensation Committee and the Nominating and Governance Committee are available on the Company's web site: www.techopssevcon.com.

Audit Committee. The Audit Committee is composed of four directors. The Board has determined that at least one of the members of the Committee, Mr. Rosenberg, is an "audit committee financial expert," as defined by the Securities and Exchange Commission. The Committee selects, evaluates and oversees the Company's independent auditors, approves any engagement of the independent auditors to perform non-audit services, reviews the audited financial statements and discusses the adequacy and quality of the Company's financial reporting principles and procedures and its internal controls with management and the auditors. The Committee, which met five times during the fiscal year ended September 30, 2006, operates under a written charter which was last revised by the Board in July 2006. The Audit Committee's report appears on page 12.

Compensation Committee. The Compensation Committee reviews and approves generally all compensation and fringe benefit programs of the Company, and also reviews and determines the base salary and incentive compensation of the executive officers, as well as grants of equity compensation to all employees. All compensation actions taken by the Committee are reported to the full Board of Directors, which, excluding employee directors, approves the actions of the Committee. The Committee also reviews and makes recommendations to the Board on director compensation and on policies and programs for the development of management personnel, as well as management structure and organization. The Compensation Committee met twice during the fiscal year ended September 30, 2006. Its report appears on page 10.

Nominating and Governance Committee. The Nominating and Governance Committee approves nominations to the Board and recommends to the Board of Directors' action related to Board composition, size and effectiveness and management succession plans for the positions of Chairman of the Board and Chief Executive Officer. The

Committee operates under a written charter. The Nominating and Governance Committee met twice during the fiscal year ended September 30, 2006.

-6 -

In identifying potential candidates and selecting nominees for directors, the Nominating and Governance Committee does not foreclose any sources. The Committee reviews candidates recommended by stockholders in the same manner and using the same general criteria as candidates recruited by the Committee or recommended by the Board.

The Nominating and Governance Committee does not rely on a fixed set of qualifications for director nominees. The Committee's primary objective for director nominees is to create a Board with a broad range of skills and attributes that is aligned with the Company's strategic needs.

The minimum qualifications for director nominees are that they:

- a) be able to dedicate time and resources sufficient for the diligent performance of the duties required of a member of the Board,
- b) not hold positions or interests that conflict with their responsibilities to the Company,
- c) comply with any other minimum qualifications for either individual directors or the Board as a whole mandated by applicable laws or regulations.

Additionally, at least a majority of members of the Board of Directors must qualify as independent directors in accordance with American Stock Exchange independence rules.

The Nominating and Governance Committee's process for evaluating nominees for director, including nominees recommended by stockholders, is to consider their skills, character and professional ethics, judgment, leadership experience, business experience and acumen, familiarity with relevant industry issues, national and international experience, and other relevant criteria as they may contribute to the Company's success. This evaluation is performed in light of the Committee's views as to what skill set and other characteristics would most complement those of the current directors, including the diversity, age, skills and experience of the Board as a whole.

In order to recommend a candidate for consideration by the Nominating and Governance Committee, a stockholder must provide the Committee with the candidate's name, background and relationship with the proposing stockholder, a brief statement outlining the reasons the candidate would be an effective director of the Company and information relevant to the considerations described above. Such information should be sent to the Nominating and Governance Committee of Tech/Ops Sevcon, Inc., 155 Northboro Road, Southborough, Massachusetts 01772, Attention: Corporate Secretary. The Committee may seek further information from or about the candidate, or the stockholder making the recommendation, including information about all business and other relationships between the candidate and the stockholder.

Director Compensation; Stock Ownership Policy

Directors of the Company (except Mr. Boyle) are each paid \$16,000 per year for their services. Mr. Steadman, the Chairman of the Board of Directors and committee chairmen, Mr. Rosenberg (Chairman of the Audit Committee), Mr. Hemsley (Chairman of the Compensation Committee) and Dr. Schorr (Chairman of the Nominating and Governance Committee) each receive an additional \$3,000 per year.

Each director (except Mr. Boyle and Mr. Stump) currently in office has previously received an option under the 1998 Director Stock Option Plan to purchase 5,000 shares of Common Stock at the fair market value of the Common Stock on the date of grant. All of these options become exercisable in equal 500 share amounts on each of the first ten anniversaries of the date of grant or, if earlier, in the event of a change in control of the Company and will expire 90 days after the tenth anniversary of the date of grant. In January 2004 the stockholders approved the discontinuance of

any future grants under the 1998 Director Stock Option Plan and that any future grants of options or other equity to non-employee directors would be under the 1996 Equity Incentive Plan, as revised in January 2004.

-7 -

The Compensation Committee granted 2,000 shares of restricted stock to each non-employee director who was elected at the 2006 annual meeting of stockholders or whose term in office continued after the 2006 annual meeting. Restricted shares may not be sold, assigned, transferred, pledged or otherwise disposed of by the recipient until they vest. Such restricted shares will fully vest the day before the 2007 annual meeting of stockholders or, if earlier, upon the recipient's death or disability or upon a change in control of the Company. If the recipient's service as a director of the Company is terminated for any reason other than the recipient's death or disability, any unvested shares will be forfeited and returned to the Company, unless the Committee determines otherwise in its discretion.

In 2004, the Board adopted Equity Compensation Guidelines in which it established a target level of stock ownership for directors of twice the level of annual cash compensation. Grants of restricted stock will be intended in part to assist in reaching these levels of ownership over time. Shares held by members of a person's immediate family or a trust for his or their sole benefit may be counted towards the ownership requirement. Each director will be required to refrain from selling Company stock acquired as restricted stock (other than to make required tax payments related to a grant) if the value, based on current market price, of his Company stock after the sale would be below his designated ownership level. The Committee has discretion to make exceptions in extraordinary circumstances where not contrary to Company goals, such as cases of significant personal hardship. January 2004.

Retirement Plan

Mr. Boyle and Mr. McPartlin participate in the Company's U.K. Retirement Plan, a defined benefit plan, under which benefits at age 65 are based upon 1/60th of final U.K. - base salary (as defined in the Plan) for each year of service, subject to a maximum of 2/3rds of final U.K. - base salary. The employee contributes 6% of base salary, with the balance of the cost being met by the Company. The following table sets forth information concerning the annual benefits payable to the employee pursuant to the U.K. Retirement Plan upon retirement at age 65 for specified compensation levels and years of service classifications.

U.K. Retirement Plan Table

Credited years of service at September 30, 2006 were 10 for Mr. Boyle and 30 for Mr. McPartlin. Benefits under the U.K. Retirement Plan are computed solely on the U.K. base salary of participants, exclusive of bonuses, incentive and other compensation, and are not reduced on account of U.K. Social Security entitlement. The compensation of Mr. Boyle and Mr. McPartlin is entirely U.K. based. A spouse's pension of 50% of the employee's pension is payable beginning at the death of the employee either before or during retirement. Pension payments escalate by at least 3% per year, compounded, and at a higher rate in certain circumstances.

COMPENSATION COMMITTEE REPORT

The Company's compensation program is designed to motivate and retain employees by encouraging and rewarding performance. The program is administered by the Compensation Committee of the Board of Directors (the "Committee").

The Committee believes that the combination of salary and incentive compensation is the best method for compensating its executive officers and senior managers to promote uniform excellence, long-term commitment and team performance. Management salaries are determined based upon individual performance, level of responsibility, experience and industry comparables. The Committee reviews these salaries annually and may measure them against compensation data obtained from published compensation surveys and surveys of peer companies. The Committee believes that the salaries of the Company's executive officers are within the range of these surveys. The peer companies are generally of about the same size as the Company and are in technical, rather than consumer or distribution fields. The Company believes that its competitors for executive talent are not necessarily companies which engage in the same business as the Company and, therefore, the companies used for comparative compensation purposes differ from the companies included in the Electric Industrial Apparatus Index. Incentive compensation includes grants of restricted stock and cash bonuses which are awarded at year-end in the discretion of the Committee to reward particular performance. The cash bonuses may include an element to cover the tax obligations arising on vesting of restricted stock. The Committee has awarded bonuses for performance with respect to fiscal 2006 of 37% of base salary for Mr. Boyle and an average of 19% of base salary for the senior managers other than Mr. Boyle.

Prior to 2004, the Company used stock options as an important incentive to motivate executive officers and other key employees for improved long-term performance of the Company and to align their interests with those of the stockholders. In 2004, the Company modified its approach to providing equity incentives in response to changing business needs and financial accounting requirements, and obtained stockholder approval to amend the 1996 Equity Incentive Plan to provide for awards of restricted stock and other forms of equity compensation.

The Equity Compensation Guidelines adopted by the Board articulate the goals and considerations the Committee takes into account in determining equity compensation awards. The Guidelines recognize that equity awards may play a purely compensatory role and they may also provide an incentive for future individual achievement. The incentive function may be implemented through performance vesting or, more simply, through making grants of equity in recognition for the achievement of desired performance. The Guidelines provide that, in general, the incentive component of compensation for senior executives should have a high proportion of equity in order to promote longer-term thinking and to align the benefits gained by the executives to those attained by stockholders in both good and bad times. One aim of the Guidelines, over the long term, is to target the equity holdings of the chief executive and chief financial officers at greater than twice their annual cash compensation. In adopting the Equity Compensation Guidelines, the Board also established a target level of stock ownership for other senior managers equal to annual cash compensation. Grants of restricted stock will be intended in part to assist in reaching these levels of ownership over time. Shares held by members of a person's immediate family or a trust for his or their sole benefit may be counted towards the ownership requirement.

The recommended base salary and any incentive compensation award for the President are determined each year by the Committee based upon its subjective assessment of the overall financial performance of the Company and the performance of the President relative to corporate objectives and other factors. In the light of the Company's financial performance during the prior year, Mr. Boyle's base salary during fiscal 2006 was increased by 4.1% from 2005. Mr. Boyle is a resident of the United Kingdom and receives his base salary in British Pounds. Measured in United States Dollars, Mr. Boyle's 2006 base salary was 1.6% higher than in 2005.

PERFORMANCE GRAPH

The following graph compares the cumulative total return (change in stock price plus reinvested dividends) assuming \$100 invested in the Common Stock of the Company, in the American Stock Exchange ("AMEX") Market Value Index, in the Hemscoff Electric Industrial Apparatus Index and in the Hemscoff Industrial Controls Sector Index during the period from September 30, 2001 through September 30, 2006. For many years the Company has used an index of peer issuers based on the Company's SIC code (3625: Relays and Industrial Controls). In 2005 this index comprised six peer companies; however, by September 2006 only one of these peer companies remained in this index. The Company has now selected a new index of peer issuers based on a wider-based SIC code (362: Electric Industrial Apparatus). The table and performance graph below include both the new and old peer company indices.

AUDITORS

The Audit Committee of the Board of Directors has appointed Vitale, Caturano & Company, Ltd. (VCC) as the Company's independent registered public accounting firm to conduct the audit of the Company's financial statements for 2007.

In 2005, the Audit Committee of the Board of Directors reviewed the Company's independent auditors as part of its ongoing efforts to reduce operating costs and expenses. As a result, on September 1, 2005, the Audit Committee voted to replace Grant Thornton LLP (Grant Thornton) with Vitale, Caturano & Company, Ltd. as the Company's independent registered public accounting firm.

Grant Thornton's audit reports on the consolidated financial statements of the Company and subsidiaries for the fiscal years ended September 30, 2004 and 2003 did not contain any adverse opinion or disclaimer of opinion, and were not qualified or modified as to uncertainty, audit scope or accounting principles. During those years and through the date of the Audit Committee's action, there were no disagreements between the Company and Grant Thornton on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure, which disagreements, if not resolved to the satisfaction of Grant Thornton, would have caused Grant Thornton to make reference to the matter in its audit report.

During fiscal 2004 and fiscal 2005 (through the date of VCC's engagement), neither the Company nor anyone on behalf of the Company consulted with VCC in any matter regarding either (A) the application of accounting principles to a specified transaction, either completed or proposed, or the type of audit opinion that might be rendered on the Company's financial statements, and neither was a written report nor oral advice provided to the Company by VCC that was an important factor considered by the Company in reaching a decision as to the accounting, auditing or financial reporting issue, or (B) any matter that was the subject of either a disagreement or a reportable event, as each are defined in Items 304(a)(1)(iv) and (v) of SEC Regulation S-K, respectively.

Representatives of VCC are expected to be present at the meeting with an opportunity to make a statement if they desire to do so and are expected to be available to respond to appropriate questions.

The fees billed by VCC, the Company's principal accountant for 2006 and the 2005 year-end audit, and the fees billed by Grant Thornton, the principal accountant up to September 2005, for each of the last two fiscal years are set out below:

The tax fees are for the filing of the Company's tax returns in both the United States and the United Kingdom and in both years also include fees for tax advice on employee benefits.

All of the above fees were approved by the Audit Committee before the respective engagements were undertaken. The Company has not adopted pre-approval policies and procedures relating to non-audit services.
