ITEM 2.01 COMPLETION OF ACQUISITION OR DISPOSITION OF ASSETS

During the period from January 1, 2007 through November 30, 2007, we acquired 13 retail shopping centers and eight industrial projects. Also, we invested in five unconsolidated real estate joint ventures and partnerships to acquire seven retail and seven industrial properties. Our ownership interest ranges from 10% to 25% in these unconsolidated real estate joint ventures and partnerships.

Material factors considered by us in evaluating acquisition opportunities include the prospective financial performance of the center, credit quality of the tenancy, local and regional demographics, location and competition, ad valorem tax rates, condition of the property and the related anticipated level of capital expenditures required. We are not aware of any other material factors other than those listed above that would cause the reported financial information not to be necessarily indicative of future operating results.

Our total investment in acquisitions and unconsolidated real estate joint ventures and partnerships during 2007 was approximately \$525 million. Audited financial statements for approximately \$285 million of those purchases (the "Acquired Properties") are submitted in ITEM 9.01 below. Unaudited pro forma financial information of the Acquired Properties and other acquisitions ("Other Acquisitions") are also included in ITEM 9.01 below.

INDEPENDENT AUDITORS' REPORT

To the Board of Trust Managers and Shareholders of Weingarten Realty Investors:

We have audited the accompanying combined statement of revenues and certain expenses (the "Historical Summary") of the Bourn Properties Portfolio (the "Portfolio") for the year ended December 31, 2006. This Historical Summary is the responsibility of the Portfolio's management. Our responsibility is to express an opinion on the Historical Summary based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the Historical Summary is free of material misstatement. An audit includes consideration of internal control over financial reporting as it relates to the Historical Summary as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Portfolio's internal control over financial reporting as it relates to the Historical Summary. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the Historical Summary, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the Historical Summary. We believe that our audit provides a reasonable basis for our opinion.

The accompanying Historical Summary was prepared for the purpose of complying with the rules and regulations of the Securities and Exchange Commission (for inclusion in the Current Report on Form 8-K of Weingarten Realty Investors) as discussed in Note 2 to the Historical Summary and is not intended to be a complete presentation of the Portfolio's revenues and expenses.

In our opinion, such Historical Summary presents fairly, in all material respects, the combined revenues and certain expenses discussed in Note 2 to the Historical Summary of the Bourn Properties Portfolio for the year ended December 31, 2006, in conformity with accounting principles generally accepted in the United States of America.

The accompanying combined statement of revenues and certain expenses (the "Historical Summary") includes the operations of the Bourn Properties Portfolio (the "Portfolio"). The Portfolio was purchased by Weingarten Realty Investors (the "Company") in two components; four of the properties were acquired on January 22, 2007 and the remaining two properties were acquired on March 13, 2007. The Company's investment in the Portfolio was approximately \$140 million.

The Company is a Texas real estate investment trust, which is primarily involved in the acquisition, development and management of real estate, consisting mostly of neighborhood and community shopping centers and, to a lesser extent, industrial properties.

2. Summary of Significant Accounting Policies

Basis of Presentation - The accompanying Historical Summary has been prepared for the purpose of complying with the provisions of Article 3-14 of Regulation S-X promulgated by the Securities and Exchange Commission (the "SEC"), which requires certain information with respect to real estate acquisitions to be included with certain filings with the SEC. The Historical Summary for the year ended December 31, 2006 includes the historical revenues and certain operating expenses of the Portfolio, exclusive of interest, management fees, corporate level general and administrative expenses and depreciation and amortization, which may not be comparable to the future operations of the Portfolio.

Revenue Recognition - Rental revenue is generally recognized on a straight-line basis over the life of the lease. An adjustment for straight line rent increased rental revenue by \$683,000 for the year ended December 31, 2006. Rental revenue includes revenue based on a percentage of tenants' sales, which is recognized only after the tenant exceeds their sales breakpoint. All leases have been accounted for as operating leases. Tenant reimbursements represent revenues from tenants for reimbursements of taxes, maintenance expenses and insurance, which are recognized in the period the related expenses are recognized.

Certain Expenses - Repairs and maintenance expenditures are expensed as incurred. Ad valorem taxes are capitalized if costs are attributable to construction activity. Capitalization of such costs ceases at the earlier of one year from the completion of major construction or when the property, or any completed portion, becomes available for occupancy. For the year ended December 31, 2006, ad valorem taxes capitalized totaled \$68,000.

Use of Estimates - The preparation of the financial statement in conformity with accounting principles generally accepted in the United States of America requires the Portfolio's management to make estimates and assumptions that affect amounts reported in the financial statement as well as certain disclosures. Actual results could differ from those estimates.

3. Rentals Under Operating Leases

Future minimum rental revenue from non-cancelable operating leases at December 31, 2006 is as follows:

2007	\$ 8,033,949
2008	\$ 8,031,519
2009	\$ 7,396,134
2010	\$ 7,028,080
2011	\$ 6,919,149
Thereafter	\$ 81,693,035

The future minimum lease payments do not include estimates for tenant reimbursements nor amounts based on a percentage of the tenants' sales. Percentage rental income and tenant reimbursements totaled \$54,000 and \$1.2 million, respectively, for the year ended December 31, 2006.

4. Tenant Concentration

Each of the six properties has at least one anchor tenant. The anchor tenants include Wal-Mart, Home Depot, PetSmart, Walgreen's, Kohl's, Circuit City and Safeway. The largest tenant represented approximately 12% of the total rental revenue recorded by the Portfolio for the year ended December 31, 2006.

INDEPENDENT AUDITORS' REPORT

To the Board of Trust Managers and Shareholders of Weingarten Realty Investors:

We have audited the accompanying combined statement of revenues and certain expenses (the "Historical Summary") of the Devon Properties Portfolio (the "Portfolio") for the year ended December 31, 2006. This Historical Summary is the responsibility of the Portfolio's management. Our responsibility is to express an opinion on the Historical Summary based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the Historical Summary is free of material misstatement. An audit includes consideration of internal control over financial reporting as it relates to the Historical Summary as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Portfolio's internal control over financial reporting as it relates to the Historical Summary. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the Historical Summary, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the Historical Summary. We believe that our audit provides a reasonable basis for our opinion.

The accompanying Historical Summary was prepared for the purpose of complying with the rules and regulations of the Securities and Exchange Commission (for inclusion in the Current Report on Form 8-K of Weingarten Realty Investors) as discussed in Note 2 to the Historical Summary and is not intended to be a complete presentation of the Portfolio's revenues and expenses.

In our opinion, such Historical Summary presents fairly, in all material respects, the combined revenues and certain expenses discussed in Note 2 to the Historical Summary of the Devon Properties Portfolio for the year ended December 31, 2006, in conformity with accounting principles generally accepted in the United States of America.

Note 1. Bourn, Devon and Prudential Properties Portfolios

The aggregate investment for the acquisitions described below was approximately \$285 million and was allocated among land, buildings on an “as if vacant” basis, and other identifiable intangibles. Other identifiable intangible assets and liabilities include the effect of out-of-market leases, the value of having leases in place (lease origination and absorption costs), out-of-market assumed mortgages and tenant relationships. At the date of acquisition, these purchases were funded either using our revolving line of credit, an assumed mortgage, the available cash generated from dispositions of properties or cash flow generated by our operating properties. Pro forma revenues and expenses, other than interest and depreciation, are based on the historical amounts of the Acquired Properties.

The Bourn Properties Portfolio consists of six shopping centers in Arizona totaling 781,000 square feet and was acquired for a total investment of approximately \$140 million. This purchase transaction includes an earnout provision of approximately \$29 million, which is contingent upon the subsequent development of space by the seller. This contingency agreement expires in 2010. As of September 30, 2007, \$5.2 million of this obligation has been paid and \$4.2 million has been accrued. The centers are leased to a diverse mix of strong national retailers as described in the table below:

Note 3. Interest, Depreciation and Intangibles

The buildings are being depreciated over a period of 40 years. Other identifiable intangible assets and liabilities include the effect of out-of-market leases, the value of having leases in place (lease origination and absorption costs), out-of-market assumed mortgages and tenant relationships. The identified intangible assets and liabilities are amortized over the terms of the acquired leases or the remaining lives of the assumed mortgages. The weighted average lease term of the leases in place ranges from 17 months to 236 months.

Interest expense was calculated as if the properties were acquired as of January 1, 2006 by first considering the interest rate of any mortgages secured by the related properties. After consideration of any mortgages, a ratio of revolver debt to total Property, net and Investment in Real Estate Joint Ventures and Partnerships as of December 31, 2006 and September 30, 2007 was applied to the remaining purchase price balance.

The remaining term of the assumed mortgages ranged from 37 months to 101 months and had stated rates that ranged from 5.0% to 7.1%. The weighted average number of months remaining was 75 months at a weighted average stated rate of 5.7%.

The revolver debt ratio equated to 74% and 69% at December 31, 2006 and September 30, 2007, respectively. The weighted average interest rate of the revolver for the year ended December 31, 2006 and the nine months ended September 30, 2007 was 6.1% and 7.1%, respectively.
