PROXY STATEMENT
December 29, 2002

The enclosed proxy is solicited by and on behalf of the Board of Directors of Chase Corporation (the "Company") for the annual meeting of the Company's shareholders to be held on January 28, 2003 at 9:30 a.m., and at any adjournment or adjournments thereof. The cost of solicitation will be borne by the Company. In addition to solicitation by mail, directors, officers and regular employees of the Company may solicit proxies personally or by telephone.

The authority granted by an executed proxy may be revoked at any time before it is exercised by filing with the Clerk of the Company a written revocation or a duly executed proxy bearing a later date or by voting in person at the meeting. Shareholders who attend the meeting in person will not be deemed thereby to have revoked their proxies unless they affirmatively indicate at the meeting their intention to vote their shares in person. Unless the proxy is revoked, the shares represented thereby will be voted as directed. If no specifications are made, proxies will be voted

"for" the election of the directors nominated by the Board of Directors.

On November 30, 2002, the Company had outstanding 4,047,317 shares of Common Stock, \$0.10 par value per share (the "Common Stock"), which is its only class of voting stock. Shareholders of record at the close of business on November 30, 2002 are entitled to vote at the meeting. With respect to all matters that will come before the meeting, each shareholder may cast one vote for each share of Common Stock registered in his or her name on the record date.

A majority in interest of the Company's Common Stock outstanding and entitled to vote represented at the meeting in person or by proxy constitutes a quorum for the transaction of business at the meeting. As long as a quorum is present, the nominees for election to the Board of Directors shall be elected by a plurality of the votes cast at the meeting by the holders of shares entitled to vote at the meeting. Votes may be cast in favor of the election of the nominees for director or withheld; votes that are withheld will have no effect of the outcome of the election of directors. A "broker non-vote" occurs when a registered broker holding a customer's shares in the name of the broker has not received voting instructions on a matter from the customer and is barred by applicable rules from exercising discretionary authority to vote on the matter and so indicates on the proxy.

The approximate date on which this proxy statement and form of proxy will be first sent or given to shareholders is December 29, 2002. The Company's annual report for fiscal year ended August 31, 2002 will be sent to shareholders on the same date.

Arrangements Regarding the Election of Directors

Despite his continued interest in the operation and management of the Company, Edward L. Chase, one of its founders was not physically able to attend any of the meeting of the Board of Directors in 2002. Because of his declining health, Edward L. Chase is not standing for re-election at the January 2003 Annual Meeting of the Company's shareholders. The Trustees of the Edward L. Chase Revocable Trust, other than Edward L. Chase, have now assumed the power to vote the Company's shares held by the Trust. The Trustees have had discussions with the Board of Directors regarding the Trust's representation on the Company's Board and have requested that Andrew Chase, currently the vice president and manager of the Company's electronic manufacturing services division and Peter R. Chase's brother, serve on the Board as a director. The agreement reached between the Board and the Trustees of the Trust is as follows: (1) nomination of Andrew Chase as a director and his election at the 2003 shareholders' meeting; (2) appointment of Andrew Chase as a corporate vice president at or prior to the 2003 annual meeting; (3) the entering into of a severance agreement for Andrew Chase providing 12 months of post-employment salary continuation; (4) Sarah Chase will not be nominated as a director for election at the 2003 annual meeting; (5) the execution by the Company and the Edward L. Chase Trust of a voting agreement requiring the Trustees of such Trust to vote for the nominees for Board membership as approved from time to time by the Company's Nominating Committee through the annual meeting in January 2008 so long as items 1, 2, and 3 are satisfied and Andrew Chase is nominated for election to the Board, and is elected to the Board by the stockholders of the company, at its January 2004-2007 annual meetings. The agreement referred to in (5) above has been executed.

In September 2002, upon a determination of incapacity of Edward L. Chase, Peter R. Chase, together with other family members, became a Trustee of the Edward L. Chase Revocable Trust which, as stated above, holds 1,496,556 shares of the Company's outstanding common stock (32.5%). Peter Chase resigned as a Trustee of the Trust in December 2002.

PROPOSAL NUMBER 1 Election of Directors

Seven directors are to be elected at the annual meeting. The Board of Directors recommends that the seven nominees named below be elected as directors. The directors elected at the meeting will hold office until the next annual meeting and until their successors are elected and qualified. When a proxy in the accompanying form is returned properly executed, unless marked to the contrary, all shares of Common Stock represented by such proxy will be voted for the election as director of the persons named in the table below, each to serve as directors until the next annual meeting of shareholders of the Company and until his or her successors shall have been duly elected and qualified. If any nominee should become unavailable for election, the persons voting the accompanying proxy may in their discretion vote for a substitute. The Board of Directors is not presently aware of any reason that would prevent any nominee from serving as a director if elected.

Other Compensation Matters

401 (k) Plan. The Company has a deferred compensation plan adopted pursuant to Section 401(k) of the Internal Revenue Code of 1986, as amended (the "Code"). Any eligible employee who has attained age 21 and has been employed by the Company for at least six months may defer receipt of a portion of his or her salary and have it contributed to the Plan. The Company will match, at the rate of 50% on the dollar, such deferral, subject to a maximum employer matching contribution equal to 3% of such employee's yearly salary. Amounts contributed to the plan are invested in accordance with the directions of participants. Income taxes on the amounts contributed and on the investment yield are deferred until such amounts are distributed to the employee.

Termination of Employment Arrangements. The Company entered into an agreement with Peter R. Chase pursuant to which the Company will continue to pay Mr. Chase the equivalent of his annual compensation for two years following the termination of his employment if such termination arises in connection with a change in control of the Company. Any payments made to Mr. Chase after the first year following his termination will be offset to the extent that he receives any other compensation, through new employment or otherwise.

Pension Plan. The Company maintains a tax-qualified defined benefit pension plan and a non-qualified excess benefit plan. The qualified pension plan covers substantially all of the Company's employees who have attained the age of 21 and have completed six months of service. The excess benefit plan covers those employees of the Company that from time to time may be designated by the Board of Directors. Currently, only the Company's Chief Executive Officer has been designated by the Board of Directors as being covered by the excess benefit plan. Benefits under the qualified pension plan are determined based on final average base earnings (subject to Code-imposed limits on covered compensation and excluding bonuses, overtime, and other extraordinary amounts) and total years service with the Company (up to a maximum of 40 years). Benefits under the excess benefit plan are determined based on final average earnings (including base salary and bonuses) and total years of service with the Company. Benefits are payable upon the retirement of a participant at age 65, or upon the fifth anniversary of employment, if later, or earlier if the participant is at least 55 years old and has completed at least five years of service. The plan offers the option for a participant to receive a lump sum distribution upon attainment of age 65 and five years of employment even if the employee elects to remain actively employed. Benefits may be paid in a variety of forms, including a lump sum, at the election of the participant.

The following Tables 1 and 2 show estimates of aggregate annual benefits payable under the qualified pension plan and excess benefit plan upon retirement at age 65 or upon the fifth anniversary of employment, if later. Table 1 relates to those participants who were employed prior to May 1, 1995 or are covered by a collective bargaining agreement and are in the specified compensation and years-of-service classifications before an offset of .6% of covered compensation at the time of retirement times the number of years-of-service (up to a maximum of 35 years).

Table 2 relates to those participants who became employed on or after May 1, 1995 and are not covered by a collective bargaining agreement and are in the specified compensation and years-of-service classifications before any offset of .3% of covered compensation at the time of retirement times the number of years-of-service (up to a maximum of 35 years).

For employees who are covered under the excess benefit plan, amounts above this maximum will be paid under the terms of the excess benefit plan up to the amounts shown in the table above. Pursuant to Section 401(a)(17) of the Code, annual compensation in excess of \$170,000 for 2001 and \$200,000 for 2002 cannot be taken into account in determining qualified plan benefits.

Mr. Chase and Mr. Chadwick have approximately 31 and 14 years of service, respectively.

Compensation of Directors. Directors who are not employees of the Company are paid an annual retainer of \$12,000 plus a fee of \$1,000 for each Board meeting they attend (\$1,500 if they attend a committee meeting on the same day). Non-employee directors who are committee members a fee of \$1,000 per committee meeting if the meeting is not held on the same day as a Board meeting. Non-employee directors also are eligible to receive stock options.

Recommendations on compensation for the Company's executive officers are made by the Compensation Committee of the Board of Directors (the "Committee"). A majority of the Committee is composed of independent non-employee directors who have no interlocking directorships as defined by the Securities and Exchange Commission. Committee decisions are reviewed and approved by the full Board of Directors.

The Company's executive compensation program is designed to accomplish the following objectives:

- Reward key executives at levels which are competitive with those of similar comparative companies.
- Provide incentives which are directly linked to the achievement of Company strategies, profits and enhancements of shareholder value.
- Ensure that the objectives for corporate and business unit performance are established and measured.
- Attract and retain executives who have the capabilities needed to ensure proper growth and profitability.

The Company, acting through the Committee, employed three programs to compensate its senior management. These included an annual base salary program, a stock option plan and a contingent compensation program based on selected financial performance measures. Following is a description of the manner in which each program was administered during the year, which includes an explanation of the rationale for the compensation paid to the Chief Executive Officer.

Annual Base Salary Program

Salary ranges are established for executive positions, including the named executive officers, with range midpoints equal to the median salary determined from appropriate comparative survey data provided by an independent consultant. The actual salary of each individual holding an executive position is determined using the established salary ranges and also by taking into consideration the individual's qualifications, sustained performance and level of responsibility, each as evaluated by the Committee. Adjustments in base salary are made after an analysis of the foregoing factors and any external trends in compensation reflected in the survey data discussed above.

The base salary for Peter R. Chase was set by the Committee using the same policies and criteria used for other executive officers of the Company. His base salary for the fiscal year ended 2002 was set at about the median salary level for chief executive officers in the Company's industry as reflected in the comparative survey data and adjusted based on the Committee's evaluation of the additional criteria discussed above. While corporate performance measures are used in determining bonuses, such corporate performance measures are not considered by the Committee in determining Mr. Chase's base salary.

Contingent Compensation Program

Under the Company's contingent compensation program, each executive officer, including the named executive officers, was eligible to earn additional contingent compensation in an amount equal to a designated percentage of annual base salary. In the 2002 fiscal year, the target percentage for achieving targeted operating profits set with reference to the three prior fiscal years was 50% of annual base salary for the Chief Executive Officer and 30% for the Chief Financial Officer. Potential incentive earnings could range from 0% to 100% of annual base salary, depending upon whether the Company's actual performance during the year met, exceeded or fell short of the operating profit goals. The Company exceeded the operating profit goals established for payment of the targeted incentive compensation in fiscal year 2002; therefore, in accordance with the plan, the Chief Executive Officer and the Chief Financial Officer received contingent compensation in an amount equal to 26% and 16% respectively, of their annual base salary for the last fiscal year.

2001 Senior Management Stock Plan

The review of the Company's compensation practices undertaken by the Committee during the fiscal year ended August 2000 with the assistance of Wm. H. Mercer, Inc. identified the absence of a long-term equity component to the Company's compensation program as a deficiency. In order to address this deficiency, the Committee and Board of

Directors, with the assistance of an independent compensation consultant, have developed long term equity incentive plans for the Company. The 2001 Senior Management Stock Plan is designed in part to retain and provide incentives to the Company's Chief Executive and Chief Financial Officers as well as other senior members of the Company's management. The Committee believes that these executives are in a position to make the most significant contribution to the Company's future success. The program is designed to recognize significant contributions and provide longer-term incentives to increase shareholder value. All options granted by the Company to its executives have been granted at an exercise price equal to or in excess of the market price of the Company's Common Stock on the date of grant. Consequently, these stock options will have value only if the price of the Company's Common Stock increases.

The Audit Committee, in accordance with its written charter, oversees the Company's financial reporting process on behalf of the Board of Directors. Management has the primary responsibility for the financial statements and the reporting process including the systems of internal controls. In fulfilling its oversight responsibilities, the Audit Committee reviewed the audited financial statements in the Annual Report with management including a discussion of the quality, not just the acceptability of the accounting principles, the reasonableness of significant judgments, and the clarity of disclosures in the financial statements.

The Audit Committee reviewed with the independent auditors, who are responsible for expressing an opinion on conformity of those audited financial statements with generally accepted accounting principles, their judgments as to the quality, not just the acceptability, of the Company's accounting principles and such other matters as are required to be discussed with the Audit Committee under generally accepted auditing standards. In addition, the Audit Committee has discussed with the independent auditors' independence from management and the Company including

the matters in the written disclosures required by the Independence Standard Board.

The Audit Committee discussed with the Company's independent auditors the overall scope and plans for their respective audits. The Audit Committee met with the independent auditors, with and without management present, to discuss the results of their examinations, their evaluations of the Company's internal controls and the overall quality of the Company's financial reporting. The Audit Committee held two meetings during fiscal 2002.

In reliance on the reviews and discussions referred to above, the Audit Committee recommended to the Board of Directors (and the Board has approved) that the audited financial statements be included in the Annual Report on Form 10-K for the year ended August 31, 2002 for filing with the Securities and Exchange Commission. The Audit Committee has also recommended, subject to Board and shareholder approval, the selection of the Company's independent auditors.
