Dear Fellow Stockholders,

You are cordially invited to attend our 2016 Annual Meeting of Stockholders (which we refer to as the “Annual Meeting” in the Proxy Statement), which will be held on Tuesday, June 28, 2016 at 10:30 a.m. Pacific Time, at our corporate headquarters located at 11500 South Eastern Avenue, Suite 240, Henderson, Nevada 89052. In the following pages, you will find the Notice of Annual Meeting and Proxy Statement describing the business to be conducted at the Annual Meeting.

At the Annual Meeting, we are asking you to elect our board of director nominees for the coming year and vote on the other matters described in the accompanying notice. We believe that our director nominees will continue to add value through their strategic guidance as we move forward with the commercialization of our six marketed drugs and development of our clinical drug portfolio.

We believe we stand at the crossroads of major transformation at Spectrum. While we have historically focused on building the Company through niche cancer drugs, we are now focusing on multiple late-stage drugs targeting large indications such as breast cancer and bladder cancer. We are really excited about our portfolio of late-stage drugs, which we believe have blockbuster potential. In my opinion, if any of these drugs are successful, it could transform Spectrum. In the coming year, we plan to aggressively advance our late-stage assets and continue to enroll patients in trials, launch new products from our co-promotion agreement with Eagle Pharmaceuticals, and launch our sixth anti-cancer drug, EVOMELA™ (melphalan) for Injection.

Whether or not you plan to attend the Annual Meeting in person, we encourage you to access the proxy materials and cast your vote using the instructions provided so that your shares are represented at the Annual Meeting. If you have any questions, please contact our Chief Financial Officer, Kurt A. Gustafson, at (702) 835-6300 or (949) 788-6700. We thank you for your ongoing support of Spectrum Pharmaceuticals.

Sincerely,

RAJESH C. SHROTRIYA, M.D.

Chairman of the Board and Chief Executive Officer

The Board of Directors recommends that you vote “FOR” each of the director nominees named in Proposal 1, “FOR” Proposals 2 and 3 and “AGAINST” Proposal 4.

The Board of Directors has fixed the close of business on April 29, 2016, as the Record Date for determining the holders of our Common Stock and Series E Convertible Voting Preferred Stock entitled to notice of and to vote at the Annual Meeting and any postponements or adjournments thereof. Cautionary Note Concerning Forward-Looking Statements

This proxy statement contains “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements include, without limitation, statements regarding our future product development activities and costs, the revenue potential of our products and product candidates, the success, safety and efficacy of our drug products, development timelines, liquidity and capital resources and trends, and other statements containing forward-looking words, such as, “believes,” “may,” “could,” “will,” “expects,” “intends,” “estimates,” “anticipates,” “seeks,” “continues,” or the negative thereof or variation thereon or similar terminology (although not all forward-looking statements contain these words). Such forward-looking statements are based on the reasonable beliefs of our management as well as assumptions made by and information currently available to our management. Readers should not put undue reliance on these forward-looking statements. These forward-looking statements are subject to certain risks and uncertainties, which could cause actual results to differ materially from the results, performance or achievements expressed or implied thereby. For a detailed discussion of these risks and uncertainties see the sections entitled “Risk Factors” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in our 2015 Annual Report on Form 10-K, filed on March 14, 2016 with the SEC. Except as required by law, we do not undertake to update any such forward-looking statements.

PROXY STATEMENT

The enclosed Proxy Statement is solicited on behalf of the Board of Directors of Spectrum Pharmaceuticals, Inc., which we refer to as “Spectrum,” the “Company,” “we,” “us,” or “our,” for use at the 2016 Annual Meeting of Stockholders to be held on June 28, 2016 at 10:30 a.m. Pacific Time, or the Annual Meeting, or at any postponements or adjournments thereof. The Annual Meeting is being held for the purposes described in this Proxy Statement and in the accompanying Notice of Annual Meeting of Stockholders.

QUESTIONS AND ANSWERS ABOUT THE ANNUAL MEETING AND VOTING

The following questions and answers are intended to briefly address potential questions that our stockholders may have regarding this Proxy Statement and the Annual Meeting. They are also intended to provide our stockholders with certain information that is required to be provided under the rules and regulations of the Securities and Exchange Commission, or the SEC. These questions and answers may not address all of the questions that are important to you as a stockholder. If you have additional questions about the Proxy Statement or the Annual Meeting, please see “Whom should I contact with other questions?” below.

1. What is the purpose of the Annual Meeting?

At the Annual Meeting, our stockholders will be asked to consider and vote upon the matters described in this Proxy Statement and in the accompanying Notice of Annual Meeting, and any other matters that properly come before the Annual Meeting.

2. When and where will the Annual Meeting be held?

You are invited to attend the Annual Meeting on Tuesday, June 28, 2016 at 10:30 a.m. Pacific Time at our corporate headquarters located at 11500 South Eastern Avenue, Suite 240, Henderson, Nevada 89052.

3. Why am I receiving these proxy materials?

We are providing these proxy materials in connection with the solicitation by the Board of Directors of the Company, or the Board, of proxies to be voted at the Annual Meeting, and at any adjournment or postponement thereof. This Proxy Statement contains important information for you to consider when deciding how to vote on the matters brought before the Annual Meeting. You are invited to attend the Annual Meeting in person to vote on the proposals described in this Proxy Statement. However, you do not need to attend the Annual Meeting to vote your shares. Instead, you may vote your shares using one of the other voting methods described in this Proxy Statement. Whether or not you expect to attend the Annual Meeting, please vote your shares as soon as possible in order to ensure your representation at the Annual Meeting and to minimize the cost to the Company of proxy solicitation.

4. Why did I receive a notice in the mail regarding the Internet availability of proxy materials?

Instead of mailing printed copies to each of our stockholders, we have elected to provide access to our proxy materials over the Internet under the SEC’s “notice and access” rules. These rules allow us to make our stockholders aware of the Annual Meeting and the availability of our proxy materials by sending a Notice of Internet Availability of Proxy Materials, or a Notice, which provides instructions for how to access the full set of proxy materials through the Internet or make a request to have printed proxy materials delivered by mail. Accordingly, on or about May 6, 2016, we mailed a Notice to each of our stockholders who held shares as of April 29, 2016, which is the Record Date for the Annual Meeting. The Notice contains instructions on how to access our

proxy materials, including our Proxy Statement and our Annual Report on Form 10-K for the fiscal year ended December 31, 2015, or the Annual Report. The Notice also provides instructions on how to vote your shares.

5. What is the purpose of complying with the SEC's "notice and access" rules?

We believe compliance with the SEC's "notice and access" rules will allow us to provide our stockholders with the materials they need to make informed decisions about the matters to be voted upon at the Annual Meeting, while lowering the costs of printing and delivering those materials and reducing the environmental impact of our Annual Meeting. However, if you would prefer to receive printed proxy materials, please follow the instructions included in the Notice. If you have previously elected to receive our proxy materials electronically, you will continue to receive these materials via e-mail unless you elect otherwise.

6. What am I being asked to vote upon at the Annual Meeting?

At the Annual Meeting, you will be asked to:

• Elect seven director nominees to serve until the Annual Meeting to be held in 2017, or until their successors are elected and duly qualified (Proposal 1);

• Approve, on a non-binding advisory basis, the compensation of our named executive officers, as disclosed in the Compensation Discussion and Analysis section of this Proxy Statement (Proposal 2);

• Ratify the selection of Deloitte & Touche LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2016 (Proposal 3);

• Vote on a stockholder proposal regarding proxy access if properly presented (Proposal 4); and

• Consider and act upon such other matters as may properly come before the Annual Meeting or any postponements or adjournments thereof.

7. What are the voting options for each Proposal?

In the election of directors (Proposal 1), you may vote "FOR" all of the nominees, you may "WITHHOLD" your vote with respect to all of the nominees, or you may vote "FOR ALL EXCEPT" with respect to any one or more nominees. On the approval, on a non-binding advisory basis, of the compensation of our named executive officers as disclosed in the Compensation Discussion and Analysis section of this Proxy Statement (Proposal 2), on the ratification of the appointment of Deloitte & Touche LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2016 (Proposal 3), and on the stockholder proposal regarding proxy access (Proposal 4), you may vote "FOR," "AGAINST" or "ABSTAIN."

8. How does the Board recommend that I vote?

Our Board recommends that you vote your shares:

• "FOR" the election of each of the seven director nominees named in this Proxy Statement to serve until the Annual Meeting of Stockholders to be held in 2017, or until their successors are elected and duly qualified (Proposal 1);

• "FOR" the approval, on a non-binding advisory basis, of the compensation of our named executive officers, as disclosed in the Compensation Discussion and Analysis section of this Proxy Statement (Proposal 2);

• "FOR" the ratification of the appointment of Deloitte & Touche LLP as our independent registered public accounting firm for fiscal year ending December 31, 2016 (Proposal 3); and

• "AGAINST" the stockholder proposal on proxy access (Proposal 4).

Unless you give other instructions on your proxy card, the persons named as proxy holders on the proxy card, who are persons designated by the Board and are members of our management team, will vote in accordance with the

recommendations of the Board. Management does not know of any matters which will be brought before the Annual Meeting other than those specifically set forth in this Proxy Statement. However, if any other business properly comes before the Annual Meeting, the proxy holders or their substitutes will vote as recommended by our Board or, if no recommendation is given, in their own discretion.

9. Who can vote at the Annual Meeting?

If you were a holder of our common stock or Series E Convertible Voting Preferred Stock, which we refer to as the Series E Preferred Stock, as a “stockholder of record,” or if you are the “beneficial owner” of our common stock held in “street name,” as of the close of business on the Record Date, you may vote your shares at the Annual Meeting, and at any postponements or adjournments of the Annual Meeting. As of the Record Date, there were 69,220,610 shares of our common stock outstanding and 20 shares of our Series E Preferred Stock outstanding. Each stockholder has one vote for each share of common stock held as of the Record Date.

Holders of our Series E Preferred Stock as of the Record Date are entitled to vote on any matter on which holders of our common stock have the right to vote, voting together with the holders of common stock as one class. Each holder of our Series E Preferred Stock is entitled to the number of votes equal to the number of shares of common stock into which such shares of Series E Preferred Stock could be converted on the Record Date, as determined pursuant to the Certificate of Designations, Rights and Preferences of the Series E Preferred Stock, or the Certificate of Designations. As of the Record Date, each share of Series E Preferred Stock was entitled to 2,000 votes on each matter to be voted upon at the Annual Meeting. Consequently, the holders of our Series E Preferred Stock have a total of 40,000 votes on each matter at the Annual Meeting.

Including both the outstanding common stock and the Series E Preferred Stock, voting together as one class, a total of 69,260,610 votes may be cast at the Annual Meeting. A list of our stockholders will be available for examination by any stockholder at the Annual Meeting and at our corporate headquarters, located at 11500 South Eastern Avenue, Suite 240, Henderson, Nevada 89052, for a period of ten days prior to the Annual Meeting.

10. What does it mean to be a “stockholder of record”?

If, on the Record Date, your shares were registered directly in your name with our transfer agent, Computershare, then you are a “stockholder of record.” As a “stockholder of record,” you may vote in person at the Annual Meeting or vote by proxy. Whether or not you plan to attend the Annual Meeting, we urge you to vote your shares using one of the voting methods described in this Proxy Statement and the Notice.

11. What does it mean to be a “beneficial owner” of shares held in “street name”?

If, on the Record Date, your shares were held in an account at a broker, bank, or other financial institution (we refer to each of those organizations collectively as a “broker”), then you are the “beneficial owner” of shares held in “street name” and these proxy materials are being made available to you by that broker. The broker holding your account is considered the stockholder of record for purposes of voting at the Annual Meeting. You have the right to direct your broker on how to vote the shares in your account. As a beneficial owner, you are also invited to attend the Annual Meeting, but since you are not a stockholder of record, you may not vote your shares in person at the Annual Meeting unless you request and obtain a valid proxy from your broker giving you the legal right to vote the shares at the Annual Meeting. You must also satisfy the Annual Meeting admission criteria set out below.

Under the rules that govern brokers, your broker is not permitted to vote on your behalf on any matter to be considered at the Annual Meeting (other than the ratification of the appointment of Deloitte & Touche LLP as our independent registered public accounting firm for 2016) unless you provide specific instructions to the broker as to how to vote. As a result, we encourage you to communicate your voting decisions to your broker before the date of the Annual Meeting to ensure that your vote will be counted.

12. How many shares must be present or represented to conduct business at the Annual Meeting?

The presence at the Annual Meeting of the holders of a majority of the outstanding shares, as of the Record Date, of our common stock and our Series E Preferred Stock, considered together as a single class (and counting the Series E Preferred Stock as if converted into common stock), in person or by proxy and entitled to vote, will constitute a quorum, permitting us to conduct our business at the Annual Meeting. Proxies marked “withhold authority” as to any director nominee, “abstentions” and “broker non-votes” will each be counted as present at the Annual Meeting for purposes of determining the existence of a quorum at the Annual Meeting. “Broker non-votes” will result for shares that are not voted by the broker who is the record holder of the shares because the broker is not instructed to vote on such

matter by the beneficial owner of the shares and the broker does not have discretionary authority to vote on such matter. For further discussion on broker non-votes, please refer to “ What are the voting

3

requirements to approve the proposals?" below. If a quorum is not present, the Annual Meeting will be adjourned until a quorum is obtained.

13. How can I vote my shares of Spectrum stock?

Stockholders of record can vote by proxy or by attending the Annual Meeting and voting in person. The persons named as proxies on the proxy card were designated by the Board and are members of our management. If you vote by proxy, you can vote over the Internet, by telephone, or by mail as described below. If you are the beneficial owner of shares, please refer to the information forwarded by your broker to see which voting options are available to you and to see what steps you must follow if you choose to attend the Annual Meeting to vote your shares.

Vote by Internet: You can vote by proxy over the Internet by following the instructions provided in the Notice or the voting instruction card provided to you by your broker, if applicable. Internet voting is available 24 hours a day and will be accessible until 11:59 p.m. Eastern Time on June 27, 2016. Our Internet voting procedures are designed to authenticate stockholders by using individual control numbers, which are located on the Notice.

Vote by Telephone: If you requested to receive printed proxy materials, you can vote by telephone pursuant to the instructions provided on the proxy card or by following the voting instruction card provided to you by your broker, if applicable. Telephone voting is available 24 hours a day and will be accessible until 11:59 p.m. Eastern Time on June 27, 2016.

Vote by Mail: If you requested to receive printed proxy materials, you can vote by mail pursuant to the instructions provided on the proxy card or by following the voting instruction card provided to you by your broker, if applicable. In order to be effective, completed proxy cards must be received by 11:59 p.m. Eastern Time on June 27, 2016. If you choose to vote by mail, simply mark your proxy card, date and sign it, and return it in the postage-prepaid envelope. If you do not have the postage-prepaid envelope, please mail your completed proxy card to the following address: Spectrum Pharmaceuticals, Inc., c/o Computershare, Post Office Box 43078, Providence, Rhode Island 02940-3070.

Vote in Person at the Annual Meeting: If you satisfy the admission requirements to the Annual Meeting, as described in this Proxy Statement, you may vote your shares in person at the Annual Meeting. Even if you plan to attend the Annual Meeting, we encourage you to vote in advance by Internet, telephone or mail so that your vote will be counted in the event you later decide not to attend the Annual Meeting. The method you use to vote will not limit your right to vote at the Annual Meeting if you decide to attend in person. If you are the beneficial owner of your shares, you must obtain a proxy, executed in your favor by your broker, to be able to vote at the Annual Meeting. If you sign and return your proxy card but do not give voting instructions, the shares represented by that proxy will be voted as recommended by the Board.

YOUR VOTE IS VERY IMPORTANT. We encourage you to submit your proxy even if you plan to attend the Annual Meeting. If you properly give your proxy and submit it to us in time to vote, the individuals named as your proxy holders will vote your shares as you have directed. Whether or not you plan to attend the Annual Meeting, and regardless of the number of shares of our stock that you own, it is important that your shares be represented at the Annual Meeting.

14. How may I attend the Annual Meeting?

You are entitled to attend the Annual Meeting only if you were a stockholder of record as of the Record Date, or if you are a "beneficial owner" who holds a valid proxy for the Annual Meeting. Registration will begin at 9:30 a.m. Pacific Time and seating will begin immediately after. Since seating is limited, admission to the Annual Meeting will be on a first-come, first-served basis. If you attend, please note that you should be prepared to present government-issued photo identification for admittance, such as a passport or driver's license. If you are the "beneficial owner" of your shares, you will also need proof of ownership as of the Record Date, such as your most recent account statement prior to the Record Date, a copy of the voting instruction card provided by your broker, or similar evidence of ownership. If you do not have proof of ownership of our stock and a valid picture identification, you may be denied admission to the Annual Meeting. Please note that for security reasons, you and your bags may be subject to search prior to your admittance to the Annual Meeting. If you do not comply with each of the foregoing requirements, you

may not be admitted to the Annual Meeting.

15. Can I change my vote after I have submitted my vote?

Yes. You may change your vote at any time before your proxy is voted at the Annual Meeting. If you are a stockholder of record, you may change your vote by (i) providing written notice of revocation to the Secretary of the Company at our corporate

4

headquarters located at 11500 South Eastern Avenue, Suite 240, Henderson, Nevada 89052, (ii) by executing a subsequent proxy using any of the voting methods discussed above, or (iii) by attending the Annual Meeting and voting in person. However, simply attending the Annual Meeting will not, by itself, revoke your proxy. If you are a “beneficial owner” of shares and have previously instructed your broker to vote your shares, you must follow directions received from your broker to change those instructions. Subject to any such revocation, all shares represented by properly executed proxies will be voted in accordance with the specifications therein.

16. What are the voting requirements to approve the proposals?

Assuming that a quorum is present at the Annual Meeting, the voting requirements to approve each of the proposals to be voted upon at the Annual Meeting are as follows:

Election of Directors (Proposal 1) — Directors will be elected by a plurality of the votes cast at the Annual Meeting, in person or by proxy. This means that the director nominees who receive the most affirmative, or “FOR,” votes will be elected. In a contested election, where there are more nominees than open board positions, the nominees who received the most “FOR” votes will be elected. In an uncontested election, where the number of nominees is equal to the number of open board positions, as is the case for the Annual Meeting, the nominees who receive any votes will be elected. A properly executed proxy marked “WITHHOLD” or “FOR ALL EXCEPT” with respect to the election of one or more directors will not be voted with respect to the director or directors indicated. The election of directors is a “non-discretionary” matter under applicable stock exchange rules, meaning that if you are the beneficial owner of your shares and do not instruct your broker how to vote with respect to the election of directors, your broker is not permitted to vote on this Proposal and your votes will be counted as broker non-votes. Broker non-votes will have no effect in determining which directors are elected at the Annual Meeting.

Advisory Vote on the Compensation of Our Named Executive Officers (Proposal 2) — Approval of the non-binding advisory resolution regarding the compensation of our named executive officers, as disclosed in the Compensation Discussion and Analysis section of this Proxy Statement, will require the affirmative vote of a majority of the shares present in person or represented by proxy at the Annual Meeting and entitled to vote on the matter. A properly executed proxy marked “ABSTAIN” with respect to such matter will not be voted. Accordingly, an abstention will have the same effect as a vote “AGAINST” this Proposal. The advisory vote on compensation is a “non-discretionary” matter under applicable stock exchange rules, meaning that if you are the beneficial owner of your shares and do not instruct your broker how to vote with respect to the advisory vote on compensation, your broker is not permitted to vote on this Proposal and your votes will be counted as broker non-votes. Broker non-votes will have no effect on the outcome of the Proposal.

Ratification of Selection of Independent Registered Public Accounting Firm (Proposal 3) — Ratification of the selection of Deloitte & Touche LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2016 will require the affirmative vote of a majority of the shares present in person or represented by proxy at the Annual Meeting and entitled to vote on the matter. A properly executed proxy marked “ABSTAIN” with respect to such matter will not be voted. Accordingly, an abstention will have the same effect as a vote “AGAINST” this Proposal. The ratification of Deloitte & Touche LLP is a “discretionary” matter under applicable stock exchange rules, meaning that if you are the beneficial owner of your shares and do not instruct your broker how to vote with respect to the ratification of Deloitte & Touche LLP, your broker may use its discretion to vote your uninstructed shares on this Proposal.

Stockholder Proposal regarding Proxy Access (Proposal 4) — Approval of the stockholder proposal regarding a vote on proxy access will require the affirmative vote of a majority of the shares present in person or represented by proxy at the Annual Meeting and entitled to vote on the matter. A properly executed proxy marked “ABSTAIN” with respect to such matter will not be voted. Accordingly, an abstention will have the same effect as a vote “AGAINST” this Proposal. The vote on proxy access is a “non-discretionary” matter under applicable stock exchange rules, meaning that if you are the beneficial owner of your shares and do not instruct your broker how to vote with respect to the vote on proxy access, your broker is not permitted to vote on this Proposal and your votes will be counted as broker non-votes. Broker non-votes will have no effect on the outcome of the Proposal.

17. Could other matters be decided at the Annual Meeting?

As of the date this Proxy Statement was made available to stockholders, we did not know of any matters to be raised at the Annual Meeting other than those referred to in this Proxy Statement. However, if any other matters are presented for consideration at the Annual Meeting including, among other things, consideration of a motion to adjourn the Annual Meeting to another time or place in order to solicit additional proxies in favor of one or more of the proposals, the persons named as proxy holders and acting

5

thereunder will have discretion to vote on these matters according to their best judgment to the same extent as the person delivering the proxy would be entitled to vote.

18. Who is paying for the cost of this proxy solicitation?

The proxies being solicited hereby are being solicited by us, and the cost of soliciting proxies in the enclosed form will be borne by us. We have also retained Georgeson Inc., to aid in the solicitation. For these services, we will pay Georgeson Inc. a fee of approximately \$25,000 and reimburse them for certain out-of-pocket disbursements and expenses. Our officers and other employees may, without compensation other than their regular compensation, solicit proxies by further mailings, personal conversations, telephone, facsimile or other electronic means. We will, upon request, reimburse brokerage firms and others for their reasonable expenses in forwarding solicitation material to the beneficial owners of stock.

19. What is the deadline to submit stockholder proposals for our 2017 Annual Meeting of Stockholders?

Under Rule 14a-8 of the Securities Exchange Act of 1934, or the Exchange Act, any stockholder desiring to include a proposal in our Proxy Statement with respect to our 2017 Annual Meeting of Stockholders should arrange for such proposal to be delivered to us at our corporate headquarters no later than January 6, 2017, in order to be considered for inclusion in our proxy statement relating to such annual meeting. Matters pertaining to such proposals, and the eligibility of persons entitled to have such proposals included, are regulated by the Exchange Act and the rules of the SEC.

In addition, pursuant to our bylaws, any stockholder desiring to submit a proposal for action or nominate one or more persons for election as directors at our 2017 Annual Meeting of Stockholders must submit a notice of the proposal or nomination including the information required by our bylaws to us between February 28, 2017 and March 30, 2017, or else it will be considered untimely and ineligible to be properly brought before the Annual Meeting. PROPOSAL 2 — ADVISORY VOTE ON THE COMPENSATION OF OUR NAMED EXECUTIVE OFFICERS

The Board is committed to excellence in governance and recognizes the interest our stockholders have in our executive compensation program. Our stockholders are being asked to support, on an advisory basis, the compensation program and policies for our “named executive officers” for fiscal year 2015, as reported in the Compensation Discussion and Analysis section of this Proxy Statement.

The Company is undertaking significant changes in corporate governance and how executive compensation is administered. In recent years, we have added new Board members and Compensation Committee members, and appointed a new chair of the Compensation Committee. We also engaged an independent executive compensation firm, Exequity, to review current compensation practices and make recommendations to the Committee and the Board.

During 2015, we spoke with stockholders representing more than half of our outstanding shares of the Company and gathered feedback for, among other things, our executive compensation program. In response to stockholder feedback and in consultation with our independent compensation consultant, we have instituted changes to our compensation program including revising our peer group and apportioning a portion of equity compensation to performance based units which will vest based on relative total stockholder return to further align interests with stockholders as described in the Compensation Discussion and Analysis section of this Proxy Statement.

2015 was a very successful year for the Company. We advanced our portfolio of late-stage drugs, which we believe have blockbuster potential and can transform the Company: SPI-2012 (eflapregastim), poziotinib and apaziquone. Specifically, we submitted two New Drug Applications, in-licensed a late stage drug, poziotinib, targeting breast and other cancers, received two Special Protocol Assessments from the FDA, initiated pivotal clinical trials, established a multi-product co-promotion agreement with Eagle Pharmaceuticals, out-licensed drugs in select territories, and in early 2016, obtained FDA approval for our sixth anti-cancer drug, EVOMELA™. We believe we have established a solid basis for increasing stockholder value at Spectrum.

Stockholders are urged to read the Compensation Discussion and Analysis section of this Proxy Statement, which discusses in detail our fiscal year 2015 compensation program and moreover, decisions made by the Committee with respect to changes to our programs for compensation of our named executive officers.

“Say-on-Pay” Vote

This non-binding advisory stockholder vote gives you as a stockholder the opportunity to approve or not approve the compensation of the named executive officers that is disclosed in this Proxy Statement by voting for or against the following resolution (or by abstaining with respect to the resolution):

“RESOLVED, that the compensation policies applicable to the Company’s named executive officers, as disclosed pursuant to Item 402 of Regulation S-K, including the Compensation Discussion and Analysis, and the related compensation tables and narrative discussion, is hereby APPROVED.”

This vote is not intended to address any specific item of compensation, but rather the overall compensation of our named executive officers and the philosophy, policies and practices described in this Proxy Statement. Because your vote is advisory, it will not be binding on the Board of Directors, the Compensation Committee or Spectrum.

However, the Board of Directors and the Compensation Committee, which is comprised entirely of independent directors, values the opinions of our stockholders and will, in their discretion, consider your vote when making future executive compensation decisions.

Proxies received in response to this solicitation will be voted “FOR” the approval, on an advisory basis, of the compensation policies applicable to our named executive officers disclosed in this Proxy Statement unless otherwise specified in the proxy. Unless the Board modifies its determination on the frequency of future “say-on-pay” advisory votes, the next “say-on-pay” advisory vote will be held at the 2017 annual meeting of stockholders.

Board Recommendation

OUR BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE “FOR” THE APPROVAL, ON A NON-BINDING ADVISORY BASIS, OF THE COMPENSATION POLICIES APPLICABLE TO OUR NAMED EXECUTIVE OFFICERS AS DESCRIBED IN THE COMPENSATION DISCUSSION AND ANALYSIS SECTION OF THIS PROXY STATEMENT.

PROPOSAL 3 — RATIFICATION OF SELECTION OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Audit Committee of our Board is responsible for the appointment, compensation, retention and oversight of the work of our independent registered public accounting firm. The Audit Committee has selected Deloitte & Touche LLP, or D&T, as our independent registered public accounting firm for fiscal year 2016 and has further directed that management submit the selection of the independent registered public accounting firm for ratification by our stockholders at the Annual Meeting. D&T served as our independent registered public accounting firm for fiscal year 2015.

Although ratification by our stockholders is not a prerequisite to the Audit Committee's ability to select our independent registered public accounting firm, the Audit Committee believes that asking our stockholders to ratify the selection is advisable and in the best interests of our stockholders, and represents an important corporate governance practice. Accordingly, stockholders are being asked to ratify, confirm and approve the selection of D&T as our independent registered public accounting firm to conduct the annual audit of our consolidated financial statements and our internal controls over financial reporting for fiscal year 2016. If the stockholders do not ratify the selection of D&T, the selection of our independent registered public accounting firm will be reconsidered by the Audit Committee; provided, however, the Audit Committee may select D&T even if our stockholders do not ratify D&T's selection. If the appointment of D&T is ratified, the Audit Committee will continue to conduct an ongoing review of D&T's scope of engagement, pricing and work quality, among other factors, and will retain the right to replace D&T at any time.

There will be representatives from D&T present at the Annual Meeting. They may make a statement if they desire to do so and will be available to answer appropriate questions from stockholders.

Proxies received in response to this solicitation will be voted "FOR" the ratification of D&T unless otherwise specified in the proxy.

Board Recommendation

OUR BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT YOU VOTE "FOR" THE RATIFICATION OF DELOITTE & TOUCHE LLP AS OUR INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM FOR FISCAL YEAR 2016.

Change in Independent Registered Public Accountants (Fiscal Year 2014)

During the first half of fiscal 2014, the Audit Committee of our Board conducted a competitive process to select our independent registered public accounting firm for fiscal year 2014. The Audit Committee invited four national accounting firms, including Ernst & Young, LLP, or E&Y, our independent registered public accounting firm for fiscal year 2013, to participate in this process. On March 17, 2014, E&Y notified us that they would not participate in the process and resigned as our independent registered public accounting firm.

On April 5, 2014, the Audit Committee completed the competitive process and unanimously approved the appointment of D&T for the integrated audit for fiscal year 2014 and for the review of each of the fiscal quarters in fiscal year 2014. On April 9, 2014, the Audit Committee formally engaged D&T.

In connection with the audit of our financial statements during each of the two fiscal years ended December 31, 2013 and December 31, 2012, and in the subsequent interim period through March 17, 2014, the date of resignation by E&Y, there were no disagreements as that term is defined in Item 304(a)(1)(iv) of Regulation S-K and the related instructions to Item 304 of Regulation S-K, with E&Y on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedures, which disagreements, if not resolved to E&Y's satisfaction, would have caused E&Y to make reference to the subject matter of the disagreement in connection with its report.

In connection with the audit of our financial statements during each of the two fiscal years ended December 31, 2013 and December 31, 2012, and in the subsequent interim period through March 17, 2014, there was a "reportable event," as that term is described in Item 304(a)(1)(v) of Regulation S-K related to a material weakness in our internal control over financial reporting as disclosed in our Annual Report on Form 10-K for the fiscal year ended December 31, 2013. Our management concluded that as of December 31, 2013, our internal control over financial reporting was not effective because of the existence of a material weakness related to our controls over (i) the process of estimating the required period-end accruals for services performed under open purchase orders, which resulted in overstated operating expenses and accrued liabilities in multiple reporting periods in, and prior to, 2013; and (ii) the ineffective

design and operating effectiveness of controls over the process for identifying and recording liabilities for vendor invoices received subsequent to year end that related to 2013 activities, which would have resulted in understated operating expenses and accrued liabilities, if left uncorrected, as described in Item 9A of the Annual Report, which description is incorporated

20

herein by reference. Our management concluded that as of December 31, 2012, our internal control over financial reporting was not effective because of the existence of a material weakness related to the accurate and timely accounting for accruals identified in management's assessment of internal controls, which resulted in overstatement of expenses and accrued liabilities in such periods, as described in Item 9A of the Form 10-K/A for the fiscal year ended December 31, 2012, which description is incorporated herein by reference. The Audit Committee discussed the subject matter of the foregoing material weaknesses with E&Y.

E&Y's audit report on our financial statements as of and for the fiscal year ended December 31, 2013 did not contain an adverse opinion or disclaimer of opinion, and E&Y's audit report was not qualified or modified as to uncertainty, audit scope, or accounting principles. E&Y's audit report on our financial statements as of and for the fiscal year ended December 31, 2012 contained no adverse opinion or disclaimer of opinion, and was not qualified or modified as to uncertainty, audit scope, or accounting principles, except for the effects on the consolidated financial statements of the restatement described in Note 1A to the financial statements. The E&Y 2013 and 2012 audit reports reference the E&Y internal control over financial reporting adverse opinion on our internal control over financial reporting, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (1992 framework).

We previously reported the change in accounting firms on Current Reports on Form 8-K filed with the SEC on March 21, 2014 and April 10, 2014, respectively. We provided E&Y with a copy of the above disclosures, other than the engagement of D&T, and requested that E&Y furnish a letter addressed to the SEC stating whether or not it agrees with the foregoing statements. A copy of E&Y's letter dated March 17, 2014 was filed as Exhibit 16.1 to our Current Report on Form 8-K filed on March 21, 2014.

During the two fiscal years ended December 31, 2013 and 2012, and the subsequent interim period through April 5, 2014, neither we nor anyone on our behalf consulted with D&T with respect to (a) the application of accounting principles to a specified transaction, either completed or proposed, or the type of audit opinion that might be rendered on our consolidated financial statements, and no written report or oral advice of D&T was provided to us that D&T concluded was an important factor considered by us in reaching a decision as to the accounting, auditing or financial reporting issue; or (b) any matter that was either the subject of a "disagreement" (as defined in Item 304(a)(1)(iv) of Regulation S-K and the related instructions to Item 304 of Regulation S-K), or a "reportable event" (as defined in Item 304(a)(1)(v) of Regulation S-K).

E&Y served as our independent registered public accounting firm from December 3, 2009 to March 17, 2014. During such time, E&Y rendered audit opinions on our consolidated financial statements and our internal controls over financial reporting included in our Annual Reports on Form 10-K filed with the SEC for the fiscal years ended December 31, 2009 through December 31, 2013.

We provided E&Y and D&T with a copy of the foregoing disclosures and requested that E&Y and D&T each review such disclosures. In addition, E&Y and D&T were given an opportunity to furnish us with a letter addressed to the SEC containing any new information, clarifying our expression of their respective views, or stating the extent to which they do not agree with the foregoing statements. E&Y and D&T each informed us that it agreed with the foregoing statements and did not furnish such a letter to us or the SEC.

All Other Fees. We did not incur any other fees to D&T as our principal accountant during the fiscal years ended December 31, 2015 and 2014.

Policy on Audit Committee Pre-approval of Audit and Permissible Non-audit Services of Independent Auditor

All audit and non-audit services by our independent registered public accounting firm were pre-approved by our Audit Committee. For audit services, the independent accountant provides the Audit Committee with an audit plan, including proposed fees in advance of the annual audit. The Audit Committee approves the plan and fees for the audit. Pursuant to its charter, the Audit Committee may establish pre-approval policies and procedures, subject to SEC and NASDAQ rules and regulations, to approve audit and non-audit services; however, it has not yet done so.

PROPOSAL 4 — STOCKHOLDER PROPOSAL REGARDING PROXY ACCESS

The following stockholder proposal will be voted on at the Annual Meeting if properly presented by the proponent or one who is qualified under state law to present the proposal on such proponent's behalf. Approval of this proposal requires the affirmative vote of a majority of shares present in person or by proxy and entitled to vote at the Annual Meeting. We will provide the name, address and number of shares of Spectrum stock held by the proponent promptly upon written or oral request by any stockholder to our Secretary, c/o Spectrum Pharmaceuticals, Inc., 11500 South Eastern Avenue, Suite 240, Henderson, Nevada 89052, telephone number (702) 835-6300.

Following SEC rules, other than minor formatting changes, we are reprinting the proposal and supporting statement as they were submitted to us, and we take no responsibility for their content.

Resolution:

RESOLVED: Shareholders of Spectrum Pharmaceuticals, Inc. ("Spectrum") ask the board of directors ("Board") to adopt, and present for shareholder approval, a "proxy access" bylaw. The bylaw should require Spectrum to include in proxy materials prepared for a shareholder meeting at which directors are to be elected the name, Disclosure and Statement (defined below) of any person nominated for election to the board by a shareholder or group ("Nominator") satisfying the criteria established below. It should also allow shareholders to vote on such nominee on Spectrum's proxy card. The number of shareholder-nominated candidates appearing in proxy materials shall not exceed one quarter of the directors then comprising the Board. This bylaw, which would supplement existing rights, should provide that a Nominator must:

- a) have beneficially owned 3% or more of Spectrum's outstanding common stock continuously for at least three years;
- b) give Spectrum, within the time period identified in its bylaws, written notice of the information required by the bylaws and any Securities and Exchange Commission rules about (i) the nominee, including consent to being named in the proxy materials and to serving as director if elected; and (ii) the Nominator, including proof it owns the required shares (information required by this subsection (b) is the "Disclosure"); and
- c) certify that (i) it will assume liability stemming from any legal or regulatory violation arising out of the Nominator's communications with Spectrum shareholders, including the Disclosure and Statement; (ii) it will comply with all applicable laws and regulations if it uses soliciting material other than Spectrum's proxy materials; and (c) to the best of its knowledge, the required shares were acquired in the ordinary course of business and not to change or influence control at Spectrum.

The Nominator may submit a statement not exceeding 500 words in support of each nominee (the "Statement"). The Board shall adopt procedures for promptly resolving disputes over whether notice of a nomination was timely, whether the Disclosure and Statement satisfy the bylaw and applicable rules, and the priority to be given when nominations by multiple Nominators exceed the one-quarter limit.

Supporting Statement

We believe proxy access is a fundamental shareholder right that will make directors more accountable and enhance shareholder value. A 2014 study by the CFA Institute concluded that proxy access:

• Would "benefit both the markets and corporate boardrooms, with little cost or disruption"

• Has the potential to raise overall US market capitalization by up to \$140.3 billion if adopted market-wide.

(<http://www.cfapubs.org/doi/pdf/10.2469/ccb.v2014.n9.1>)

The proposed bylaw terms enjoy strong investor support. Votes on proxy access proposals averaged approximately 55% in 2015, as of July 26 (<http://corpgov.law.harvard.edu/2015/08/10/proxy-access-proposals/>)--and similar bylaws have been adopted by companies of various sizes across industries, including Chesapeake Energy, Hewlett-Packard, Western Union and Verizon. The Council of Institutional Investors recently issued best practices for proxy access endorsing the 3% ownership threshold (with no limit on the number of nominating shareholders in a group) we propose. (CII, "Proxy Access: Best Practices," at 3 (Aug. 2015))

SPECTRUM'S RESPONSE -- STATEMENT IN OPPOSITION TO PROPOSAL NO. 4

Spectrum's Board of Directors has considered the above proxy access proposal and UNANIMOUSLY recommends a vote AGAINST the proxy access proposal.

The Board has given careful consideration to this proposal and has concluded for the reasons described below that the adoption of this resolution is unnecessary and is not in the best interests of Spectrum and its stockholders.

The Board takes its accountability to stockholders very seriously. As the Board continues to monitor the corporate governance landscape for U.S. public companies, the Board has learned that while many investors have strong views on proxy access, those views vary widely and continue to evolve. In particular, while the Board recognizes that some institutional investors now view proxy access as an important stockholder right, there remain differences among those investors as to the appropriate thresholds and rules governing proxy access. In addition, other large investors continue to oppose the concept of proxy access altogether.

In light of the divergent views on proxy access, the Board believes that the need for proxy access should be evaluated in the context of Spectrum's overall corporate governance practices. In particular, the Board believes the proxy access proposal is not in the best interests of our stockholders because it (i) ignores the effective voice stockholders already have, (ii) undermines the critical role of the independent Nominating and Corporate Governance Committee, (iii) would increase Company costs, and (iv) could subject the Company to unintended negative consequences.

The proxy access proposal fails to recognize the effective voice that stockholders presently have in the Company's governance.

Our current corporate governance policies and practices ensure that the opinions of our stockholders are heard and considered by the Board, and that the Board is accountable to our stockholders. For example:

▲ All our directors are elected annually;

▲ Five of our seven directors are independent;

▲ Our governing documents do not contain any supermajority stockholder voting requirements;

▲ Our stockholders are able to communicate directly with one or more directors, including our Chairman;

▲ Our stockholders are able to propose director nominees to the Nominating and Corporate Governance Committee; and

▲ Our stockholders are able to submit proposals for consideration at an annual meeting and for inclusion in the Company's proxy statement for that meeting, subject to certain conditions and the rules and regulations of the SEC. The Board believes that the Company's existing corporate governance policies provide an appropriate balance between ensuring Board accountability to stockholders and enabling the Board to effectively oversee the Company's business and affairs for the long-term benefit of our stockholders.

The proxy access proposal undermines the effective framework currently in place for evaluating Board nominees. The proxy access proposal would undermine the important role of the independent Nominating and Corporate Governance Committee:

An effective board of directors is composed of individuals with a diverse and complementary blend of experiences, skills and perspectives. Our independent Nominating and Corporate Governance Committee is best situated to assess the particular qualifications of potential director nominees and determine whether they will contribute to an effective and well-rounded board of directors that operates openly and collaboratively and represents the interests of all stockholders, not just those with special interests.

Unlike a small group of stockholders, the Nominating and Corporate Governance Committee has a fiduciary duty to act in the best interests of all stockholders. The Nominating and Corporate Governance Committee has developed criteria and a process for identifying and recommending director candidates for election by our stockholders, which are described in our Corporate Governance Guidelines and discussed in our proxy statement under "Corporate Governance."

▲ As part of this process, stockholders may recommend prospective director candidates for the Nominating and Corporate Governance Committee's consideration, as discussed in our proxy statement under "Corporate Governance - Nominating and Corporate Governance Committee." Nominees proposed by stockholders for the Nominating and

Corporate Governance Committee's consideration are evaluated and considered in the same manner as nominees recommended by a Board member, management, search firm or other source.

As discussed above, stockholders already have a voice in the nomination process due to their ability to nominate potential directors for consideration by the Nominating and Corporate Governance Committee. Through this process, we believe that our Nominating and Corporate Governance Committee and Board achieve the optimal balance of directors who will contribute to our Board's effectiveness and best serve the Company and all of our stockholders. The proxy access proposal will increase Company costs.

Under our current corporate governance framework, stockholders who seek Board representation must solicit their own proxies on their nominee's behalf. While proxy solicitation is an expensive undertaking, stockholders holding 3% of our outstanding shares (which at the value of our 2015 fiscal year end share price would constitute approximately \$12.0 million worth of shares) should bear this expense if they have a legitimate interest in nominating a Board member. The proxy access proposal would shift this financial burden to the Company, and thus to all of our stockholders, while enabling a stockholder or group of stockholders owning as little as 3% of our outstanding shares to use the Company's proxy to promote a narrow and/or short-term agenda, rather than the long-term interests of all our stockholders. If a stockholder wishes to do this, the Company should not bear the costs.

Given the risks and potential for unintended consequences, it would be imprudent for the Company to adopt a proxy access bylaw without further evaluation.

There is conflicting research as to whether proxy access would positively affect corporate performance and long-term stockholder value. Given the Company's history and size, the adoption of proxy access should be done, if at all, only after extensive conversations with the Company's stockholders to determine the appropriate guidelines for proxy access.

The Board believes that proxy access, as presented in the proxy access proposal, may have a number of significant adverse consequences and could harm our Company, Board and stockholders by:

Significantly Disrupting Company and Board Operations. If proxy access is implemented, contested director elections could become routine. Divisive proxy contests would substantially disrupt Company affairs and the effectiveness of our Board, as the Board would have to divert its attention away from managing the Company and instead focus on more frequent proxy contests in director elections. Additionally, the potential for high director turnover could result in an inexperienced Board that lacks sufficient knowledge and understanding of our current and past business to provide meaningful and effective oversight of our operations and long-term strategies. These abrupt changes in the composition of our Board could impair our ability to develop, refine, monitor and execute our long-term plans.

Encouraging Short-Term Thinking. Dealing with contested elections every year would not only be highly distracting to the Board and management, but could also cause the Board and management to focus on the short-term, to the detriment of the interests of our stockholders.

Increasing the Influence of Special Interest Groups. Proxy access would allow stockholders to use the proxy access process to promote their specific agendas, rather than the interests of all stockholders and the Company's long-term business goals. The proxy access proposal is not appropriately tailored to the Company's size. Moreover, a stockholder could use the threat of a contested election, which could be expensive and disruptive to the Company but almost cost-free for the stockholder, to extract concessions from the Company relating to that stockholder's special interest.

Discouraging Highly Qualified Director Candidates from Serving. The prospect of routinely standing for election in a contested situation may deter highly qualified individuals from Board service.

The Board believes that the current procedures the Company employs for the nomination and election of members of the Board have resulted in a Board that is responsive to stockholder input and promotes a strategy of long-term value creation for the Company. Disruption of the Board's functioning could adversely affect the pursuit of our long-term strategies and put stockholder value at risk. For the foregoing reasons, we believe that this proposal is unnecessary, involves the risk of considerable harm to our Company and is not in the best interests of our stockholders.

For the reasons stated, the Board of Directors UNANIMOUSLY recommends a vote AGAINST this stockholder proposal. Proxies will be voted AGAINST the proxy access proposal unless otherwise specified.

CORPORATE GOVERNANCE

Corporate Governance Guidelines

We have adopted written corporate governance guidelines to assist the Board of Directors in carrying out its duties and responsibilities. A copy of the Corporate Governance Guidelines are posted on our website at www.sppirx.com.

Board Independence

In determining whether members of our Board of Directors are independent, the Board reviews a summary of the relationships of each director with Spectrum and other facts relevant to the analysis of whether the directors qualify as “independent directors” under the NASDAQ Listing Rules.

The Board of Directors has affirmatively determined that Drs. Krassner, Lenaz, Maida and Vyas, and Mr. Cohen, are independent directors pursuant to the NASDAQ Listing Rules. All members of the Audit, Compensation, and Nominating and Corporate Governance Committees are independent pursuant to the NASDAQ Listing Rules. In addition, the members of the Audit Committee are independent directors pursuant to the heightened independence criteria for members of Audit Committees set forth in SEC rules.

Board Meeting Attendance

Our Board of Directors met six times and acted by unanimous written consent three times during 2015. We expect each director to attend each meeting of the Board and of the committees on which he serves. Our policy is that every director is expected to attend the annual meeting of our stockholders in-person. If a director is unable to attend a meeting, he must notify the Board and attempt to participate in the meeting by telephone, if possible. All directors have attended at least 75% of the meetings of the full Board and the meetings of committees on which he served in 2015. Our Board of Directors met in executive sessions without management six times during 2015. All our Board members attended the 2015 Annual Meeting of Stockholders.

Committees of the Board

Our Board of Directors has five standing committees: Audit, Compensation, Nominating and Corporate Governance, Placement, and Product Acquisition.

Our Audit, Compensation, and Nominating and Corporate Governance Committees each act pursuant to a written charter. Copies of the Audit, Compensation, and Nominating and Corporate Governance Committee charters are posted on our website at <http://investor.sppirx.com/governance.cfm>. The Board intends to reevaluate the composition of each of the committees at its meeting immediately following the Annual Meeting.

Audit Committee. At December 31, 2015, the Audit Committee was comprised of Drs. Maida (Chair) and Krassner, and Mr. Cohen, each of whom satisfied the NASDAQ and SEC “independence” and other rules for Audit Committee membership. The Audit Committee held five meetings during 2015. Our Board of Directors determined that Drs. Maida and Krassner, and Mr. Cohen were Audit Committee “financial experts” within the meaning of SEC rules. Principal responsibilities of the Audit Committee include but are not limited to:

- Appointing, compensating, retaining and overseeing the work of the independent registered public accounting firm;
- Reviewing independence qualifications and quality controls of the independent registered public accounting firm;
- Overseeing and monitoring internal controls, procedures, the audit function, accounting procedures and financial reporting process; and
- Reading and discussing with management and the independent registered public accounting firm the annual audited, and quarterly unaudited, financial statements.

Compensation Committee. At December 31, 2015, the Compensation Committee was comprised of Mr. Cohen (Chair), and Drs. Krassner, Lenaz, and Vyas. The Compensation Committee held three meetings and acted by unanimous written consent twice during 2015. Our Board of Directors determined that each of the members was an “independent director” within the meaning of the NASDAQ Listing Rules.

For additional information about the role and responsibilities of the Compensation Committee, see the “Compensation Discussion and Analysis — Role of Compensation Committee” section of this Proxy Statement.

Placement Committee. At December 31, 2015, the Placement Committee was comprised of Drs. Shrotriya (Chair), Maida and Lenaz, and Messrs. Cohen and Gagnon. The Placement Committee has the authority to act on behalf of the Board with respect to approving and evaluating all issuances of our securities (other than stock options, restricted stock and other grants for compensation purposes, which is handled by the Compensation Committee, the Board or designees), including the authority to set the terms of each security being issued, including, without limitation, common stock, warrants, preferred stock or other securities convertible into common stock. The Placement Committee did not meet during 2015.

Nominating and Corporate Governance Committee. At December 31, 2015, the Nominating and Corporate Governance Committee was comprised of Drs. Krassner (Chair), Lenaz, and Vyas, Maida, and Mr. Cohen. Our Board of Directors determined that each of the members was an “independent director” under the NASDAQ Listing Rules. The Nominating and Corporate Governance Committee’s responsibilities include, but are not limited to: the identification and recommendation of nominees for election as directors by the stockholders; the identification and recommendation of candidates to fill any vacancies on our board; and the recommendation of policies and standards of corporate governance. The Nominating and Corporate Governance Committee acted by unanimous written consent once in 2015.

In selecting and making recommendations to the Board for director nominees, the Nominating and Corporate Governance Committee may consider suggestions from many sources, including our stockholders. Any such director nominations, together with appropriate biographical information and qualifications, should be submitted by the stockholder(s) to the Chairman of the Nominating and Corporate Governance Committee of our Board of Directors, c/o Spectrum Pharmaceuticals, Inc., 11500 South Eastern Avenue, Suite 240, Henderson, Nevada 89052. Director nominees submitted by stockholders are subject to the same review process as director nominees submitted from other sources, such as other Board members or senior management. No director nominations by stockholders have been received as of the filing of this Proxy Statement.

The Nominating and Corporate Governance Committee considers a number of factors when reviewing potential nominees for the Board. The factors which are considered by the Nominating and Corporate Governance Committee include the following: the candidate’s ability and willingness to commit adequate time to Board and committee matters; the fit of the candidate’s skills and personality with those of other directors and potential directors in building a Board that is effective, collegial and responsive to our needs; the candidate’s personal and professional integrity, ethics and values; the candidate’s experience in corporate management, such as serving as an officer or former officer of a publicly-held company; the candidate’s experience in our industry and with relevant social policy concerns; the candidate’s experience as a Board member of another publicly-held company; whether the candidate would be

“independent” under applicable standards; whether the candidate has practical and mature business judgment; and the candidate’s academic expertise in an area of our operations. In addition to the factors set forth above, the Nominating and Corporate Governance Committee also strives to create diversity in perspective, background and experience in the Board as a whole.

27

In identifying, evaluating and selecting future potential director nominees for election at each annual meeting of stockholders and nominees for directors to be elected by the Board to fill vacancies and newly created directorships, the Nominating and Corporate Governance Committee engages in a selection process. In identifying potential nominees, the Nominating and Corporate Governance Committee will consider as potential director nominees candidates recommended by various sources, including any member of the Board, any of our stockholders or senior management. In appropriate circumstances, the Nominating and Corporate Governance Committee may also hire a search firm to help locate qualified candidates. Once potential nominees are identified, they are initially reviewed by the Chairman of the Nominating and Corporate Governance Committee, or in the Chairman's absence, any other member of the Nominating and Corporate Governance Committee delegated to initially review director candidates. The reviewing member of the Nominating and Corporate Governance Committee will make an initial determination in his or her own independent business judgment as to the qualifications and fit of such director candidates based on the criteria set forth above. If the reviewing member determines that it is appropriate to proceed, the Chief Executive Officer and at least one member of the Nominating and Corporate Governance Committee will interview the prospective director candidate(s). The full Nominating and Corporate Governance Committee may interview the candidates as well. The Nominating and Corporate Governance Committee will provide informal progress updates to the Board and will meet to consider and recommend final director candidates to the entire Board of Directors. Our Board of Directors determines which candidates are nominated or elected to fill a vacancy.

Product Acquisition Committee. At December 31, 2015, the Product Acquisition Committee was comprised of Drs. Shrotriya (Chair), Lenaz, Maida and Vyas, and Mr. Gagnon. The Product Acquisition Committee is responsible for evaluating our product acquisition opportunities. The Product Acquisition Committee did not meet during 2015. Instead, the full Board previously considered and approved the 2015 investments and activities related to product acquisitions.

Board Leadership Structure

Currently, our Chief Executive Officer, Dr. Rajesh C. Shrotriya, serves as Chairman of our Board of Directors. The Board believes that Dr. Shrotriya is the director best situated to identify strategic opportunities for our Company and to focus the activities of the Board due to his full-time commitment to the business and his long tenure with Spectrum. The Board also believes that Dr. Shrotriya's dual roles as Chairman of the Board and Chief Executive Officer promotes effective execution of our business strategy and facilitates information flow between management and the Board. Our Board has determined that maintaining the independence of a majority of our directors helps maintain the Board's independent oversight of management and ensures that the appropriate level of independence is applied to all Board decisions. Our Audit, Compensation, and Nominating and Corporate Governance Committees, each consisting of independent Board members, oversee critical matters such as our accounting policies, financial reporting processes, internal control assessment over financial reporting, executive compensation program, and selection and evaluation of our directors and director nominees.

Risk Oversight

Management is responsible for identifying our risk exposures and communicating such exposures to our Board. Our Board is responsible for implementing our risk oversight responsibilities. The Board does not have a standing risk management committee, but administers this function directly through the Board as a whole, as well as through committees of the Board. For example, the Audit Committee assists the Board in its risk oversight function by reviewing and discussing with management our accounting principles and procedures, financial reporting processes and system of disclosure controls and internal controls over financial reporting. The Nominating and Corporate Governance Committee assists the Board in its risk oversight function by periodically reviewing and discussing with management important corporate governance principles and practices and by considering risks related to our director nominee evaluation process. The Compensation Committee assists the Board in its risk oversight function by overseeing compliance with our executive compensation programs and considering risks relating to the design of our executive compensation programs and arrangements. In addition, our compliance officer monitors our corporate compliance program and our compliance with applicable laws, rules and regulations and provides reports to our Board with respect to compliance matters and any related issues. The full Board considers strategic risks and opportunities and receives reports from the committees regarding risk oversight in their areas of responsibility as necessary. We believe our Board leadership structure facilitates the division of risk management oversight responsibilities among the

Board committees and enhances the Board's effectiveness in fulfilling its oversight function with respect to different areas of our business risks and our risk mitigation practices.

Communications with the Board of Directors

Stockholders who wish to contact members of our Board of Directors may send email correspondence to: ir@sppirx.com . If stockholders would like to write to the Board of Directors, they may also send written correspondence to the following address: Board of Directors, c/o Spectrum Pharmaceuticals, Inc., 11500 South Eastern Avenue, Suite 240, Henderson, Nevada 89052. Stockholders should provide proof of share ownership with their correspondence. It is suggested that stockholders also include contact information. All stockholder communications will be received and processed by the Investor Relations Office, and then

directed to the appropriate member(s) of the Board of Directors. In general, correspondence relating to accounting, internal accounting controls or auditing matters will be referred to the chairperson of the Audit Committee, with a copy to the Nominating and Corporate Governance Committee. All other correspondence that is directed to the Board of Directors generally will be referred to the chairperson of the Nominating and Corporate Governance Committee. To the extent correspondence is addressed to a specific director or requires a specific director's attention, it will be directed to that director.

Code of Business Conduct and Ethics

We have adopted a Code of Business Conduct and Ethics that applies to all of our directors, officers and employees, including the principal executive officer, principal financial officer, principal accounting officer, controller or persons performing similar functions. A copy of the Code of Business Conduct and Ethics will be provided to any person, without charge, upon request to (702) 835-6300 or to Investor Relations, Spectrum Pharmaceuticals, Inc., 11500 South Eastern Avenue, Suite 240, Henderson, Nevada 89052. Amendments to the Code of Business Conduct and Ethics that apply to our principal executive officer, principal financial officer, principal accounting officer, controller or persons performing similar functions, if any, will be posted on our website at www.sppirx.com. We will disclose any waivers of provisions of our Code of Business Conduct and Ethics that apply to our directors and principal executive, financial and accounting officers by disclosing such information on a Current Report on Form 8-K.

Stock Ownership Policy

We adopted a Stock Ownership Policy that applies to our Chief Executive Officer and our non-employee directors, effective as of April 1, 2015, to further align the interests of such individuals with those of our stockholders. Under the policy, the Chief Executive Officer and non-employee directors must hold and maintain, directly or indirectly (including through Company equity plans), shares of Company's common stock (including vested "in-the-money" options) equivalent to at least five times his or her annual base cash salary or three times the annual cash Board retainer fee (excluding any additional fees paid for committee assignments and service as the lead director or committee chair, if any), as applicable. The current Chief Executive Officer and non-employee directors have five years from the effective date of the policy (April 1, 2020) to reach the required ownership level, and any newly appointed or elected persons will have five years from the date on which he or she is appointed or elected to reach the required ownership level. Furthermore, within one year of his or her initial appointment or election, each such person must own and maintain some shares of Company stock. A copy of the Stock Ownership Policy is posted on our website at www.sppirx.com.

Anti-Hedging Policy

We have adopted an anti-hedging policy that prohibits any director, officer or other employee of the Company or its subsidiaries from, at any time, directly or indirectly, engaging in any kind of hedging transaction that could reduce or limit such person's holdings, ownership or interest in or to any common shares or other securities of the Company, including without limitation outstanding stock options, deferred share units, restricted share units, or other compensation awards the value of which are derived from, referenced to or based on the value or market price of securities of the Company. Prohibited transactions include the purchase by a director, officer or other employee of financial instruments, including, without limitation, prepaid variable forward contracts, instruments for short sale or purchase or sale of call or put options, equity swaps, collars, or units of exchangeable funds, that are designed to or that may reasonably be expected to have the effect of hedging or offsetting a decrease in the market value of any securities of the Company. A copy of the anti-hedging policy is posted on our website at www.sppirx.com.

REPORT OF THE AUDIT COMMITTEE

The Audit Committee of our Board of Directors is responsible for assisting our Board of Directors in fulfilling its oversight responsibilities regarding Spectrum's financial accounting and reporting process, system of internal control, audit process, and process for monitoring compliance with laws and regulations. The Audit Committee operates pursuant to a written charter, a copy of which is posted on our website at www.sppirx.com. The Audit Committee met five times during fiscal 2015. All members of the Audit Committee are non-employee directors and satisfy the current NASDAQ Global Market Listing Standards and SEC requirements with respect to independence, financial literacy and experience.

Management of Spectrum has the primary responsibility for Spectrum's consolidated financial statements as well as Spectrum's financial reporting process, accounting principles and internal controls. Deloitte & Touche, the independent registered public accounting firm for the Company in 2015, is responsible for performing an audit of Spectrum's consolidated financial statements and internal control over financial reporting, and expressing an opinion as to the conformity of such financial statements with generally accepted accounting principles and the effectiveness of Spectrum's internal control over financial reporting.

In this context, the Audit Committee has reviewed and discussed the audited consolidated financial statements of Spectrum as of and for the year ended December 31, 2015 with Spectrum's management and the independent registered public accounting firm. The Audit Committee has discussed with the independent registered public accounting firm the matters required to be discussed by Auditing Standard No. 16, "Communication with Audit Committees" (formerly known as Statement on Auditing Standards No. 16, which superseded Statement on Auditing Standards No. 61 for fiscal years beginning after December 15, 2012), as adopted by the Public Company Accounting Oversight Board, or PCAOB. The Audit Committee has also received the written disclosures and the letter from the independent registered public accounting firm required by applicable requirements of the PCAOB (Rule 3526) regarding the independent accountants' communications with the Audit Committee concerning independence, and has discussed with the independent registered public accounting firm the accounting firm's independence.

Based on the foregoing, the Audit Committee has recommended to our Board of Directors the inclusion of the audited consolidated financial statements in Spectrum's Annual Report on Form 10-K for the fiscal year ended December 31, 2015.

COMPENSATION DISCUSSION AND ANALYSIS

In this section we discuss and analyze the compensation paid to our “named executive officers” for the fiscal year ended December 31, 2015.

This section is divided into the following parts:

- Named Executive Officers
- Executive Summary
- Compensation Philosophy and Objectives
- Role of Compensation Committee
- Role of Executive Officers
- Compensation Consultant and Peer Group Data
- Key Elements of Executive Compensation
- Risk Assessment of Compensation Policies and Practices

Named Executive Officers

For the fiscal year ended December 31, 2015, the Compensation Committee, or the Committee, determined that our named executive officers were as follows:

Name	Title
Rajesh C. Shrotriya, M.D.	Chairman of the Board and Chief Executive Officer (Principal Executive Officer)
Joseph W. Turgeon	President and Chief Operating Officer
Kurt A. Gustafson	Executive Vice President and Chief Financial Officer (Principal Financial Officer)
Lee F. Allen, M.D. ⁽¹⁾	Former Senior Vice President and Chief Medical Officer

Dr. Allen ceased serving as our Senior Vice President and Chief Medical Officer on January 4, 2016. Dr. Allen is being included as a named executive officer for purposes of this Compensation Discussion and Analysis pursuant to applicable SEC rules. Dr. Allen did not receive any severance or other additional benefits from Spectrum in connection with his resignation.

Executive Summary

Our Company has an unwavering commitment to serve cancer patients and to build long-term value for our stockholders. We believe that we have a solid base of commercialized products, adequate capital, a robust research and development pipeline, and an accomplished team of executives to lead the execution of our strategy. As described below, during 2015 and into early 2016, we achieved various critical business objectives and further positioned our Company for future growth and success.

SPI-2012 (eflapegrastim): In March 2015, positive Phase 2 data for this drug was presented at our Analyst Day Conference, demonstrating superiority at the highest of the three doses tested, and non-inferiority at the middle dose tested, in decreasing the duration of severe neutropenia as compared to pegfilgrastim, a drug with sales in the billions of dollars. In December 2015, we reached an agreement with the FDA regarding our Phase 3 Special Protocol Assessment for SPI-2012 (eflapegrastim) and soon thereafter initiated the Phase 3 clinical study. Enrollment in this study is progressing and we have designated more than 100 sites for the study.

APAZIQUONE: In August 2015, we reached an agreement with the FDA on the Special Protocol Assessment of the planned Phase 3 clinical trial of apaziquone. This trial commenced with its first patient dosing in October 2015 and is designed to evaluate the intravesical use of apaziquone for the treatment of patients with non-muscle invasive bladder cancer (NMIBC) as one or two instillations, immediately following transurethral resection of bladder tumor (TURBT). Due to the high rate of recurrence for NMIBC, there is a significant unmet medical need and the overall cost of bladder cancer treatment in the U.S. is approximately \$3.4 billion annually, most of which is related to the direct treatment of this disease. Accordingly, we believe this drug represents a much-needed therapy for patients and provides a meaningful opportunity to reduce overall medical costs. In December 2015, we submitted our NDA for apaziquone with the FDA, and in February 2016, the FDA accepted this NDA for review with a target decision date of December 11, 2016.

POZIOTINIB: In February 2015, we entered into a global in-license agreement (excluding Korea and China) with Hanmi Pharmaceutical Co., Ltd for poziotinib, a pan-HER inhibitor in Phase 2 clinical trials in consideration for our upfront payment and future regulatory and sales-dependent milestone payments. Poziotinib has shown single agent activity in the treatment of various cancer types, including breast, gastric, colorectal and lung cancers. In the Phase 1 study for this drug, six of ten breast cancer patients demonstrated partial responses. We also believe the safety profile was consistent with similar drugs in this class, with four patients having a grade 3 diarrhea response

In November 2015, we submitted an Investigational New Drug (“IND”) application with the FDA. In March 2016, we initiated our Phase 2 Breast Cancer Trial. The Phase 2 study is an open-label study that we expect will enroll approximately 70 patients with HER-2 positive metastatic breast cancer, who have failed at least two HER-2 directed therapies. The dose and schedule of oral POZIOTINIB will be based on clinical experience from studies in South Korea, and in addition include the use of prophylactic therapies to help minimize known side-effects of HER-2 directed therapies. Our strategy is to first obtain drug approval in patients who have failed prior therapies and who therefore have few options left, and then continue to develop it for larger indications in combination with other therapeutics.

EVOMELA: On March 10, 2016, the FDA approved EVOMELA™ (melphalan) for Injection as a high-dose conditioning treatment prior to hematopoietic progenitor (stem) cell transplantation in patients with multiple myeloma (“MM”), and for the palliative treatment of patients with MM for whom oral therapy is not appropriate. In April 2016, we launched EVOMELA, our sixth anti-cancer drug, with our existing sales force.

Sales Force Contracting Arrangement: On November 4, 2015, we entered into an agreement with Eagle Pharmaceuticals, Inc. (“Eagle”) whereby designated members of our sales force will market up to six of Eagle's pharmaceutical products, along with our products, in return for aggregate fixed proceeds of \$12.8 million over an 18-month service period. We are also eligible to receive variable, performance-based payments for sales of Eagle's products that exceed certain thresholds.

ZEVALIN Ex-U.S. out-licenses:

In November 2015, we entered into an out-license agreement with Mundipharma International Corporation Limited for their commercialization of ZEVALIN in Asia (excluding India and Greater China), Australia, New Zealand, Africa, the Middle East, and Latin America (including the Caribbean). In return, we have received (i) \$18 million and (ii) unsecured notes aggregating \$3.1 million.

On January 8, 2016, we entered into a strategic partnership with Servier Canada, Inc. (“Servier”) for the out-licenses of ZEVALIN, FOLOTYN, BELEODAQ, and MARQIBO in the territory of Canada. Pursuant to the agreement, we received \$6 million in upfront payments from Servier, and expect to receive development milestone payments upon the achievement of certain targets, and a high single-digit royalty on Servier's sales of these products.

The Committee established goals for our Chief Executive Officer and our other named executive officers in the beginning of 2015, which were intended to have meaningful impact on stockholder value. The Committee believes the achievement of these goals is important to the continued growth and success of the Company.

These goals related to the:

- (i) Achievement of a revenue target;
- (ii) Aquisition of commercial products;

32

- (iii) Management of our product pipeline;
- (iv) Advancement of clinical studies; and
- (v) Maintaining appropriate level of expense control and cash management.

The total compensation paid to our named executive officers in 2015 as determined by the Committee, including Bonus amounts set forth in the Summary Compensation Table, was tied directly to the achievement of these financial and strategic goals.

Executive compensation for 2016 has been structured to encourage and reward performance. For 2016, our Chief Executive Officer's base salary remains at the same level as in 2015. In light of the Company's achievement of certain strategic milestones and in order to promote the retention of our key executives, annual base salaries for Mr. Turgeon and Mr. Gustafson, were increased by 4.3% and 6.4%, respectively, over 2015.

Our performance-based cash bonus awards for 2016 put a significant percentage of executive pay at-risk, and failure to achieve pre-established financial and strategic goals will significantly reduce total compensation for our named executive officers. We believe our "pay for performance" philosophy attracts, retains and motivates our named executive officers to be more fully aligned with the interests of our stockholders as well as our short and long-term strategic objectives.

Stockholder Advisory Vote on Executive Compensation

At our 2015 Annual Meeting, our advisory vote on executive compensation did not pass, with approximately 39.4% of votes cast for the proposal. Subsequent to the Annual Meeting, we spoke with stockholders representing more than half of our outstanding shares of the Company and gathered feedback for, among other things, our executive compensation program. In response to stockholder feedback and in consultation with our independent compensation consultant, we have instituted changes to our compensation program including revising our peer group and apportioning a portion of equity compensation to performance based units which will vest based on relative total stockholder return to further align interests with stockholders.

In the first quarter of 2016, the Committee retained an independent executive compensation firm, Exequity, to conduct a competitive review of our executive compensation program, as well as to provide guidance on our compensation practices as compared to our updated peer group of companies discussed below.

At the recommendation of Exequity, the Committee approved a new long-term incentive program that will apply to future grants, where:

Award sizes will be determined annually based on competitive benchmarking data.

One third of the target annual grant value will be in the form of performance based units (the "TSR Performance Based Units") tied to the Company's relative total stockholder return ("TSR") performance, one third of the value will be in stock options which will vest over time, and one third will be in restricted stock which will vest over time.

The number of TSR Performance Based Units earned will be tied to the Company's TSR as compared to the TSR of the peer group measured over a two-year performance period. To earn the target number of TSR Performance Based Units, the Company's relative TSR ranking for the two-year performance period must be at, or above the 50th percentile of the peer group. If the Company's relative TSR ranking is below the 30th percentile of the peer group, no TSR Performance Based Units will be earned. If the Company's relative TSR ranking is at, or above the 80th percentile of the peer group, a maximum of 200% of the target number of TSR Performance Based Units will be earned.

TSR Performance Based Units tied to the Company's relative TSR performance will be earned, if at all, following the end of the two-year performance period.

If a change in control occurs prior to the end of the two-year performance period, and the TSR Performance Based Units are not assumed by the acquirer, they will become immediately vested based on the Company's actual TSR ranking as compared to the peer group for the shortened performance period.

Compensation Philosophy and Objectives

Compensation Philosophy

The Committee's executive compensation philosophy is to attract and retain professionals of the highest caliber with highly sought-after skill sets, who are capable of leading the Company in fulfilling its ambitious business objectives. The Committee understands that competition for attracting talent in the pharmaceutical industry is very intense, and that such competition is local, national, and even international in scope.

As a result, the Committee seeks to design executive compensation packages that encourage exceptional candidates to make the decision to join and stay with us over other potential employers, including pharmaceutical, biotechnology, and other life sciences companies that may be larger and better known than Spectrum. As a result, the Committee seeks to implement this compensation philosophy by offering compensation opportunities that significantly reward executives for advancing our financial and strategic goals.

Compensation Objectives

When reviewing and approving our executive compensation program, the Committee is guided by the following five compensation objectives:

1. Attract the right executives:

Attract exceptional and accomplished executives with the relevant experience and skills that are required to direct our strategic objectives;

2. Motivate the right executives:

Provide a total compensation package that is highly competitive within the life sciences industry and, more specifically, within our peer group companies;

3. Have a significant portion of executive compensation be at-risk based on performance:

Condition a significant portion of potential total compensation on the achievement of Company and individual performance targets;

4. Align the financial interests of our executives and stockholders:

Provide a significant portion of total compensation through the grant of restricted stock awards and stock options, with performance based units tied to relative TSR, to more directly align the long-term interests of our executive officers with those of our stockholders; and

5. Retain the right executives:

Provide for time-based vesting of restricted stock and stock option awards to encourage our executive officers to remain with the Company over time.

Quantitative and Qualitative Performance Indicators

The Committee takes into account quantitative indicators such as financial metrics, as well as qualitative indicators of Company and individual performance in determining the level and structure of compensation for each of the named executive officers. Qualitative factors are intended to identify and reward achievements that the Committee believes are preparatory steps in the Company's achievement of meaningful growth and may include, among other things, the (i) completion of the acquisition of commercial or clinical-phase drugs at an advantageous cost structure, (ii) advancement of product candidates through clinical trials, (iii) obtaining regulatory approvals in the U.S. and abroad, and (iv) fostering a high-performance culture throughout the organization.

The Committee believes that the Company's success is dependent on these quantitative and qualitative performance indicators. As a result, the Committee seeks to ensure that the compensation of our named executive officers is aligned with the achievement

of each. The specific performance indicators for purposes of compensation paid in 2015 are discussed below. For additional information, see “Compensation Discussion and Analysis - Key Elements of Executive Compensation - Annual Cash Bonuses.”

Principal Compensation Elements

In furtherance of the Committee’s compensation philosophy, the Committee believes that using a combination of three principal compensation elements - base salary, annual cash bonus, and equity incentive awards - appropriately delivers on our executive compensation objectives. The Committee also uses other compensation elements, including standard benefits and perquisites, as well as change of control benefits for certain executives, which it views as necessary components of a competitive and effective program.

Mix of Compensation Elements

In assessing the “total compensation” opportunity for each named executive officer, and determining the value or amount paid with respect to each compensation element, the Committee generally seeks to weight the compensation mix heavily towards performance-based compensation (annual cash bonuses and equity awards), which we refer to as “at-risk” compensation, and seeks to limit the level of “guaranteed” compensation, such as cash compensation (base salary, benefits, and perquisites). In doing so, the Committee is mindful of the appropriate mix between guaranteed pay and at-risk pay so as to mitigate the potential for excessive risk taking.

The Committee also strives to provide a significant proportion of the total compensation opportunity in the form of non-cash (such as restricted stock and options) rather than cash components. The Committee does so to allow the named executive officers to be financially rewarded for exceptional Company performance that the Committee believes will advance our business objectives, and to further align the interests of the named executive officers with those of our stockholders.

However, in order to promote flexibility to appropriately award our key executives, the Committee has not established any formal policies for allocating between at-risk and guaranteed compensation, or cash and non-cash compensation. For additional information, see “Compensation Discussion and Analysis — Key Elements of Executive Compensation.”

“At-Risk” vs. “Guaranteed” Compensation

The following chart illustrates that the guaranteed pay (base salary, benefits and perquisites) of our Chief Executive Officer was only 27% of his total compensation for 2015 and approximately 73% represented at-risk pay (cash bonus, restricted stock awards and stock option awards). These amounts are based on the amounts set forth in the Summary Compensation Table for base salary, bonus, stock awards, option awards, and “all other compensation.”

As depicted in the above pie chart, the vast majority of our Chief Executive Officer’s compensation for 2015 was in the form of at-risk pay (i.e., not guaranteed to be earned).

“Cash” vs. “Non-Cash” Compensation

The following chart illustrates the various elements of the total compensation package paid to our Chief Executive Officer in 2015. The cash components (base salary, annual cash bonuses, benefits and perquisites) represented approximately 48% of his potential compensation for 2015, and approximately 52% was in the form of non-cash components (restricted stock and stock

options). These amounts are based on the amounts set forth in the Summary Compensation Table for base salary, bonus, stock awards, option awards, and “all other compensation.”

As depicted in above pie chart, the majority of the total compensation paid to our Chief Executive Officer in 2015 was in the form of non-cash equity awards. This is consistent with the Committee’s philosophy of providing a significant portion of total compensation through the grant of equity incentive awards (restricted stock and stock options) in order to properly align the long-term interests of our Chief Executive Officer with those of our stockholders. It is also consistent with the Committee’s philosophy of seeking to encourage skilled executives to remain with the Company since the restricted stock and stock option awards require time-based vesting over a period of several years.

Realized Pay

The following chart illustrates that 2015 Realized Pay* of our Chief Executive Officer decreased from the prior year 2014 by approximately 36%, and 2014 Realized pay decreased from the prior year 2013 by approximately 34%, or an aggregate decrease of approximately 58% between 2013 and 2015.

Realized Pay is compensation actually realized by our Chief Executive Officer during the year, including (i) salary, (ii) bonus, (iii) “all other compensation” reported under the Summary Compensation Table, (iv) net spread on stock option exercises and (v) the market value at vesting of previously granted restricted stock awards. Items (iv) and (v) above are detailed in the section titled “Options Exercised and Stock Vested in 2015” below.

Role of Compensation Committee

The Committee was appointed by the Board of Directors, and consists entirely of directors who are “independent directors” under the applicable NASDAQ Listing Rules, who are free from any relationship that, in the opinion of the Board of Directors, would interfere with the exercise of independent judgment as a member of the Committee. The Committee is responsible for, among other things:

- reviewing and approving the compensation of our named executive officers;
 - approving individual and Company performance targets that relate to the payment of annual cash bonuses and the grant of equity awards, assessing achievement with respect to the targets, and approving the payments or grants made to our named executive officers;
- administering the Company’s cash incentive plans, equity incentive plans, profit sharing plans, deferred compensation plans and similar programs (if any), and approving awards under such plans to our named executive officers;
- reviewing and approving offer letters, employment agreements, severance agreements, change of control agreements and other similar compensatory arrangements with our named executive officers;
- reviewing and discussing the Compensation Discussion and Analysis section of the Company’s annual proxy statement with management, including the related executive compensation information, and determining whether to recommend to the Board of Directors that such section be included in this Proxy Statement; and
- preparing and approving the Report of the Compensation Committee for inclusion in this Proxy Statement.

In performing its duties, the Committee, in its discretion, may retain or replace any independent counsel, compensation consultants or other outside expert or advisor that the Committee believes necessary or advisable, and the Committee has the sole authority to approve the compensation of such persons. The Committee held three meetings and acted by unanimous written consent twice during 2015.

Role of Executive Officers

While our Chief Executive Officer discusses his compensation recommendations with the Committee for other named executive officers, he does not participate in any Committee deliberation or determination with respect to his own compensation. The determination of the amount of compensation paid to the Chief Executive Officer is made by the Committee.

The Committee considers recommendations of our Chief Executive Officer when assessing individual performance of the other named executive officers. However, the determination of the amount of any cash or equity incentive awards payable to the other named executive officers is made by the Committee. The other named executive officers and other senior management personnel also are generally not present at meetings of the Committee and do not participate in its discussions regarding executive compensation decisions.

Compensation Consultant and Peer Group Data

During the first quarter of 2016, the Committee retained an independent executive compensation firm, Exequity, to conduct a competitive review of our executive compensation program, which included an evaluation of our peer group companies. Specifically, the Committee tasked Exequity with first identifying and selecting a comparably sized, industry-affiliated peer group of companies operating within the biotechnology or pharmaceutical industries, with 2015 revenues of between \$60 million and \$500 million with market capitalization of up to approximately \$1.0 billion. In the prior year, the peer group referenced had market capitalization of up to approximately \$1.5 billion. The peer group that Exequity selected in its report and which the Committee approved, consisted of the following 25 publicly traded pharmaceutical companies, which we refer to as our “Peer Group”:

AMAG Pharmaceuticals, Inc.	Enanta Pharmaceuticals, Inc.
Albany Molecular Research Inc.	Sequenom Inc.
Affymetrix, Inc.	Ariad Pharmaceuticals, Inc.
Sagent Pharmaceuticals, Inc	Fluidigm Corp.
Genomic Health Inc.	Harvard Bioscience Inc.
Aegerion Pharmaceuticals, Inc.	Vanda Pharmaceuticals Inc.
Luminex Corporation	Infinity Pharmaceuticals, Inc.
Amphastar Pharmaceuticals, Inc.	VIVUS, Inc.
Mimedx Group, Inc.	Merrimack Pharmaceuticals Inc.
Pernix Therapeutics Holdings, Inc.	NewLink Genetics Corporation
SciClone Pharmaceuticals Inc.	Eagle Pharmaceuticals, Inc.
Supernus Pharmaceuticals, Inc.	
Halozyme Therapeutics, Inc.	
Sucampo Pharmaceuticals, Inc.	

Once the Peer Group was selected, Exequity was tasked with reviewing and compiling data on the executive compensation practices of the Peer Group and to provide the Committee guidance on compensation practices. Exequity then presented recommendations for a new long-term incentive compensation program for named executive officers. Exequity’s report was presented to the Committee in the first quarter of 2016. The Committee reviewed and discussed the findings and recommendations at length.

The Exequity report was used by the Committee to review and understand the level of total compensation, and the level and mix of base salaries, annual cash bonuses, annual and long-term equity incentive awards, and other benefits

and perquisites provided to executives of companies within the Peer Group. The Committee reviewed compensation data from the Peer Group in an effort to obtain an understanding of current comparative compensation practices and as one of several components in making its executive compensation decisions. The Committee concluded that its named executive officers are reasonably compensated with an appropriate mix of guaranteed and at-risk pay in light of competitive pay practices of our Peer Group and the Company's 2015 performance.

Base Salary

We provide base salaries to attract and retain executives with the proper experiences and skill sets required to assist us in achieving our specific business objectives. Base salaries provide a guaranteed base level of compensation that comprises a standard element of executive compensation packages within our industry.

The base salaries of our named executive officers are established as part of an annual compensation review undertaken by the Committee. Base salaries for a particular fiscal year are generally established either at the end of the prior year or the beginning of the current year (in which case they are generally retroactive to the beginning of the year). Base salaries are intended to reflect the scope of each executive's responsibilities, as well as their qualifications, breadth of experience, functional expertise, recent individual performance, impact on Company results and overall Company performance. The base salary for our Chief Executive Officer for 2015 increased by \$45,000 as approved by the Committee in February 2015.

The Committee also approved increases in the base salaries for our other named executive officers of between 3.4% and 4.5% as compared to the prior year in order to maintain a competitive compensation program to promote retention and to reward

our executives in light of Company performance. The base salaries approved by the Committee for our named executive officers in 2014 and 2015 were as follows:

Executive	Base Salary	
	2014	2015
Rajesh C. Shrotriya, M.D.	\$900,000	\$945,000
Joseph W. Turgeon	\$550,000	\$575,000
Kurt A. Gustafson	\$450,000	\$470,000
Lee F. Allen, M.D.	\$445,000	\$460,000

Dr. Shrotriya's 2016 base salary remains at the same level as in 2015. Effective April 1, 2016, the Committee further determined to increase the base salaries of Messrs. Turgeon and Gustafson to \$600,000 and \$500,000, representing an increase of 4.3% and 6.4%, respectively.

Annual Cash Bonuses

As discussed above, the Committee believes it is important to tie a meaningful portion of the total compensation potential for the named executive officers to the achievement of specified quantitative and qualitative Company performance targets, as well as individual performance targets. The achievement of these targets advances our specific business objectives and result in long-term stockholder value. The Committee also seeks to limit guaranteed pay in favor of pay that is at-risk while encouraging retention. One compensation component that has historically been utilized to address these objectives is annual cash bonuses that are earned based on the achievement of pre-established Company and individual performance targets and which are subject to the executive's continued employment through the date of payment.

Chief Executive Officer. The Chief Executive Officer's 2015 target bonus opportunities were set at the same percentage of salary as in 2014 (100%). The cash bonus awarded to our Chief Executive Officer with respect to 2015 was determined by the Committee in March 2016 based on an assessment of the following objectives: revenues, cash management, development and regulatory goals with respect to SPI-2012 (eflapegrastim), Apaziquone and Evomela, and strategic goals with respect to in-licensing, out-licensing and/or co-promote transactions. The Committee determined that substantially all of these goals were met or exceeded.

In determining the amount of the annual cash bonus amount to award to our Chief Executive Officer and our other named executive officers, the Committee retains the discretion to consider additional qualitative factors beyond the achievement of the criteria noted above. We believe this provides our Committee with the flexibility to reward our executives for their performance when considered in the context of our dynamic industry and provides them with the incentive to pursue strategic objectives in addition to our pre-established goals.

Notably, while the annual cash bonuses paid by the Company have components of a non-equity incentive plan award since they are based, to a large extent, on actual performance with respect to pre-determined performance metrics, they also have a discretionary component to them because the actual targeted amount, as well as the precise correlation between the achievement of the performance targets and the annual cash bonus amount, is not pre-established and communicated by the Committee. For this reason, and in accordance with SEC rules, the annual cash bonus amounts are disclosed as "bonuses" in the Summary Compensation Table (rather than as "non-equity incentive plan awards"). For additional information, see "Compensation Discussion and Analysis - Summary Compensation Table."

As a result of the achievement of the goals described above, the Committee determined a 2015 annual cash bonus award for our Chief Executive Officer in the amount set forth in the table below:

Name	2015 Target Cash Bonus (as a Percentage of Base Salary)	2015 Actual Cash Bonus
Rajesh C. Shrotriya, M.D.	\$945,000 (100%)	\$945,000

Other Named Executive Officers. In determining the 2015 annual cash bonus awards for our other named executive officers, the Committee took into account the Company's performance with respect to the same financial and strategic performance goals discussed above for our Chief Executive Officer, as well as the individual performance of each of the other named executive officers. The Committee also considered the recommendations of our Chief Executive Officer in order to form a meaningful and comprehensive assessment of the capabilities and contributions of each named executive officer to the Company.

The named executive officers 2015 target bonus opportunities were set at the same percentage of salary as in 2014 (President & Chief Operating Officer 60% and Chief Financial Officer 50%). The Committee determined 2015 annual cash bonus awards for the other named executive officers in March 2016 in the amounts set forth in the table below:

Name	2015 Target Cash Bonus (as a Percentage of Base Salary)	2015 Actual Cash Bonus
Joseph W. Turgeon	\$345,000 (60%)	\$345,000
Kurt A. Gustafson	\$235,000 (50%)	\$235,000
Lee F. Allen, M.D.	\$—	\$—

Our cash bonus awards were paid in March, 2016. Dr. Allen did not receive an annual cash bonus in respect of his service during 2015 because he ceased employment with us prior to the payment date.

Equity Incentive Awards

In furtherance of the Committee's compensation philosophy, the Committee believes it is important to provide a significant portion of the named executive officers' total compensation opportunity through the grant of equity incentive awards in order to further align the interests of our named executive officers with those of our stockholders. Furthermore, the Committee believes granting equity incentive awards that vest over time encourages executives to remain with the Company. In order to accomplish these objectives, the Committee has historically granted the named executive officers a combination of options and restricted stock each year.

Stock Options. During the past several years, we have granted stock options to our named executive officers and other employees pursuant to the 2009 Plan, which was previously approved by our Board and stockholders. In accordance with the terms of the 2009 Plan, the exercise price of stock options granted pursuant to the 2009 Plan is set at the closing price of our common stock on the date immediately prior to the date of grant. We believe that stock options are an important element of total named executive officer compensation principally because stock options:

- Are consistent with our philosophy of aligning the interests of our named executive officers with those of our stockholders, because value is created for the executives only if the share price of our common stock increases during the stock option term, which in turn leads to increased stockholder value; and

- Help to retain executives through the use of time-based vesting provisions that provide for vesting over several years.

Restricted Stock. Over the past several years, we have also granted restricted stock pursuant to the 2009 Plan. We believe restricted stock is an important element of total named executive officer compensation because restricted stock:

- Results in immediate value to the recipients while still incentivizing the holders to maximize the value of our stock; and

- Helps to retain executives through the use of time-based vesting provisions that provide for vesting over several years.

In determining the number of restricted stock and/or stock options to grant to a particular named executive officer, the Committee takes into account numerous factors, including: the executive's role and level of responsibility within the Company, the Company's performance with respect to the pre-established financial and strategic objectives discussed above, the Company's overall financial performance and performance relative to the Peer Group and the NASDAQ Biotechnology Index, the Committee's assessment of the named executive officer's past performance and impact on Company performance, and the named executive officer's stock and option holdings at the time of grant. The Committee also considers information regarding equity grants made to, and the aggregate equity holdings of, executives with similar titles and levels of responsibility within the Peer Group and the NASDAQ Biotechnology Index generally, including information provided in the reports from its independent compensation consultants. Annual stock option and restricted stock awards for 2015 were determined by the Committee in December 2015 and March 2016, respectively, for our Chief Executive Officer and other named executive officers.

In determining the appropriate grant of restricted stock and stock options to be made to our Chief Executive Officer for 2015, the Committee relied on the framework described above. In doing so, the Committee recognized that:

our Chief Executive Officer accomplished the pre-established Company financial and strategic objectives (for additional information see “Compensation Discussion and Analysis — Key Elements of Executive Compensation — Annual Cash Bonuses” above);

the Company was able to meet important strategic objectives that the Committee believes are critical to the Company’s continued growth success; and

our Chief Executive Officer had the principal responsibility to execute our various financial and strategic goals and objectives.

The Committee believed that these accomplishments, in the aggregate, merited a grant of restricted stock and stock option awards. However, the grant date fair value of the stock option awards in 2015 was significantly lower than in each of the two prior years.

The Committee awarded restricted stock and stock options for performance in 2015 to the Chief Executive Officer in the amounts set forth in the table below. The restricted stock awards were granted in March 2016 and the stock options were granted in December 2015.

Name	Restricted Stock Awards (#) ⁽¹⁾	Stock Options (#) ⁽¹⁾
Rajesh C. Shrotriya, M.D.	100,000	550,000

(1) These awards vest as to 25% of the underlying shares on the date of grant, and the balance of the underlying shares vest in three equal annual installments on each of the first three anniversaries of the date of grant.

In determining the annual restricted stock awards and stock option grants made to our other named executive officers for 2015, the Committee took into account the Company’s performance with respect to the financial and strategic performance goals discussed above, as well as the individual performance of the other named executive officers. The Committee’s assessment of individual performance also considered the recommendations of the Chief Executive Officer.

The Committee awarded restricted stock and stock options for performance in 2015 to the other named executive officers in the amounts set forth in the table below. The restricted stock awards were granted in March 2016 and the stock options were granted in December 2015.

Name	Restricted Stock Awards (#) ⁽¹⁾	Stock Options (#) ⁽¹⁾
Joseph W. Turgeon	50,000	500,000
Kurt A. Gustafson	30,000	300,000
Lee F. Allen, M.D.	0	0

(1) These awards vest as to 25% of the underlying shares on the date of grant, and the balance of the underlying shares vest in three equal annual installments on each of the first three anniversaries of the date of grant.

Management Incentive Plan. With the goal of further encouraging long-term Company performance and further aligning the interests of the named executive officers with those of our stockholders, on April 22, 2011, the Board adopted a Long-Term Retention and Management Incentive Plan, or the Management Incentive Plan. The Management Incentive Plan terminated by its terms on April 22, 2016.

The Management Incentive Plan, as amended, provided that, upon the achievement by the Company of a \$750 million market capitalization target for at least 20 consecutive business days, referred to as the Initial Capitalization Target, and upon the achievement by the Company of a \$1 billion market capitalization target for at least 20 consecutive business days, referred to as the Subsequent Capitalization Target, our Chief Executive Officer was entitled to receive additional shares of common stock pursuant to the 2009 Plan. Any shares granted pursuant to the Management Incentive Plan were immediately vested.

In December 2011, the Initial Capitalization Target was achieved and 520,000 shares of our common stock were issued to our Chief Executive Officer under the Management Incentive Plan. In the event that the Subsequent Capitalization Target was achieved, our Chief Executive Officer was entitled to receive an additional 260,000 shares pursuant to the Management Incentive Plan, however this target was not achieved prior to its termination.

Benefits and Perquisites

The named executive officers are eligible to receive benefits that are generally available to each of our full-time employees, including health insurance, long-term disability insurance, life insurance and vacation pay. As with other employees, the named executive officers are required to make contributions to the Company to offset a portion of the cost of certain benefit plans.

We also maintain a 401(k) Plan and an Employee Stock Purchase Plan, each of which are generally available to all employees. The 401(k) Plan provides matching employee contributions in shares of our common stock up to applicable limits. The Employee Stock Purchase Plan provides employees with the opportunity to purchase our common stock through accumulated payroll deductions, at a 15% discount to the lesser of (i) the market price of the stock at the beginning of the designated period, and (ii) the market price of the stock at the end of the period. These plans are designed to encourage employees to save for retirement and to encourage ownership of shares of our common stock. We believe they provide an additional incentive for our employees to contribute towards our continued success and align the interests of our employees with those of our stockholders.

In addition, our Board of Directors approved the Nonqualified Deferred Compensation Plan in 2011. The Nonqualified Deferred Compensation Plan is administered by the Committee and is intended to be an unfunded plan. The Nonqualified Deferred Compensation Plan is maintained primarily to provide deferred compensation benefits for a select group of our employees, including our named executive officers. Under the Nonqualified Deferred Compensation Plan, we provide participants with the opportunity to make annual elections to defer up to a specified amount or percentage of their eligible cash compensation, as established by the Committee (in 2015, eligible participants could defer up to 75% of base salary and up to 100% of bonus). In addition, we have the option, but not the obligation, to make discretionary or matching cash contributions to employees under the Nonqualified Deferred Compensation Plan. During 2015, the Company matched each participant's contributions to the Nonqualified Deferred Compensation Plan up to 10% of the participant's eligible compensation under the Nonqualified Deferred Compensation Plan. For additional information, see "Compensation Discussion and Analysis — Nonqualified Deferred Compensation Plan."

Payments upon Termination of Employment or Change in Control

We have entered into an employment agreement with our Chief Executive Officer that provides for the payment of certain benefits upon separation of employment from us under specified circumstances. The benefits provided are designed to protect earned benefits in the case that our Chief Executive Officer is terminated without cause or as a result of a change in control of the Company, and to encourage our Chief Executive Officer to act in the best interests of the stockholders at all times during the course of a change in control transaction or other significant event involving our Company.

Under his employment agreement, our Chief Executive Officer will receive certain severance benefits, which differ depending on the circumstance, if he is terminated by us at the expiration of the term of the agreement (if not renewed), if his employment is terminated by us without cause, if his employment is terminated as a result of a change in control or his position is adversely affected due to a change in control and he resigns, or if he voluntarily terminates his employment with the Company.

Each of our named executive officers, other than our Chief Executive Officer, has entered into a Change in Control Severance Agreement that provides certain severance benefits to such named executive officers if, during the term of such agreement, and within 12 months after a change in control has occurred, the named executive officer's employment is terminated by the Company other than for cause or the named executive officer resigns for good reason. Additionally, each of the named executive officers are entitled to an acceleration of vesting of our matching contribution pursuant to the Nonqualified Deferred Compensation Plan.

For additional information, see "Compensation Discussion and Analysis — Employment, Severance and Change in Control Agreements."

Impact of Accounting and Tax Considerations on Compensation

Equity-Based Compensation

The fair value of equity-based compensation, which includes options and restricted shares, is measured in accordance with authoritative accounting guidance. We measure compensation cost for all equity-based awards at fair value on the date of grant and recognize compensation expense over the service period over which the awards are expected to vest.

Section 162(m)

43

Section 162(m) of the Code limits our ability to deduct compensation paid in any given year to a named executive officer in excess of \$1.0 million. Performance-based compensation plans are not subject to this restriction. In the event the proposed compensation for any of our named executive officers is expected to exceed the \$1.0 million limitation, the Committee will, in making a decision, balance the benefits of tax deductibility with its responsibility to hire, retain and motivate executive officers with competitive compensation programs.

Section 280G and Section 4999

Sections 280G and 4999 of the Code relate to a 20% excise tax that may be levied on a payment made to an executive as a result of a change in control if the payment exceeds 2.99 times the executive's base earnings (as defined by the applicable section). Our Chief Executive Officer's employment agreement provides that we will compensate him for any excise taxes that might arise upon a change in control of the Company. We do not currently provide similar tax protection to our other named executive officers.

Risk Assessment of Compensation Policies and Practices

The Committee has considered the concept of risk as it relates to our executive compensation program. The Committee believes that, for the reasons set forth below, although the majority of compensation provided to our named executive officers is at-risk, our executive compensation programs do not encourage excessive risk taking and encourage our executive officers to remain focused on appropriate short-term and long-term financial and strategic goals that are tied to the creation of long-term value for our stockholders.

Our executive compensation program consists of an appropriate mix of guaranteed pay (salary, benefits and perquisites) and at-risk pay (annual cash bonuses and equity incentive awards) and the Committee reviews this mix annually. The guaranteed portion is designed to provide a minimum compensation base that is necessary to attract and retain executives, as well as to provide meaningful income to the executives regardless of stock price performance so that executives do not feel pressured to focus exclusively on stock price performance and other financial performance targets to the detriment of other important business metrics.

Our program establishes appropriate financial and strategic performance goals that are designed to advance our business objectives and encourage the creation of long-term value for our stockholders (as opposed to just short-term increases in our stock price). These performance goals reflect a mix of Company financial and strategic goals, and individual performance goals, so as not to place too much emphasis on any particular type of objective at the expense of others.

Our program encourages executive retention through the time-based vesting provisions of our equity incentive awards. Our equity awards generally vest over three or four years after their initial grant.

A significant portion of our equity incentive awards are granted in the form of stock options, which are only valuable if our stock price increases over time. This serves to align the interests of our executives with those of our stockholders.

The Committee retains ultimate oversight over the compensation of our named executive officers and maintains the ability to use discretion where appropriate.

Our internal controls and procedures, as well as our codes of conduct and ethics, also help mitigate risks associated with our executive compensation program.

Based on these considerations, the Committee has concluded that any risks arising from our executive compensation program are not reasonably likely to have a material adverse effect on us and do not encourage or place incentives on excessive or inappropriate risk-taking by our named executive officers or other employees.

Summary Compensation Table

The following table sets forth summary information concerning the compensation we paid (or accrued) during 2015, 2014 and 2013 to the named executive officers. The amounts reflected in the columns entitled “Stock Awards” and “Option Awards” are estimated values as of the date of grant based on the applicable SEC rules, do not represent any cash payments or proceeds actually received by the named executive officers, and may be materially different from the amounts ultimately realized by the named executive officers upon the vesting and sale of the underlying shares.

The amounts in this column for 2015 reflect the annual cash bonuses paid with respect to 2015. For additional (1) information, see “Compensation Discussion and Analysis — Key Elements of Executive Compensation — Annual Cash Bonuses.”

The amounts in this column reflect the aggregate grant date fair value of the awards granted in each respective year in accordance with FASB ASC Topic 718. For fair value assumptions refer to Note 6 to our financial statements included in the Annual Report on Form 10-K for the fiscal year ended December 31, 2015, as filed with the SEC (2) on March 14, 2016. For additional information, see “Compensation Discussion and Analysis — Key Elements of Executive Compensation — Equity Incentive Awards.” Amounts with respect to stock awards for fiscal year 2014 have been revised to reflect stock awards granted in 2014, rather than awards earned for performance during 2014, as previously disclosed in our proxy statement in connection with the 2015 annual meeting of stockholders.

2015 amounts reflect; automobile allowances paid to each of Dr. Shrotriya and Messrs. Turgeon and Gustafson in the amounts of \$31,327, \$13,800 and \$12,000, respectively; annual 401(k) matching contributions of \$10,600 for (3) each of Drs. Shrotriya and Allen and Mr. Gustafson; premiums paid on healthcare and life insurance policies, which are benefits that are offered to all employees; and matching contributions paid by us to match employee deferrals under our Nonqualified Deferred Compensation Plan, as detailed in footnote (4) below. Perquisites and other personal benefits are valued on the basis of the aggregate incremental cost to the Company.

The matching contributions paid by us in 2015 to match named executive officer deferrals under our Nonqualified (4) Deferred Compensation Plan (up to 10% of eligible compensation) are as follows: Dr. Shrotriya — \$183,750; Mr. Turgeon — \$28,542; Mr. Gustafson — \$69,167; and Dr. Allen — \$72,750. These amounts are also reported in the column entitled “Company Contributions in 2015” in the “Nonqualified Deferred Compensation Table” below.

(5) The amount for our Chief Executive Officer also includes the economic benefit of \$10,601 for fiscal year 2015 related to life insurance policies covering his life and having as beneficiary his estate or other beneficiaries.

(6) Mr. Gustafson joined the Company in June 2013. The amounts reported for 2013 are pro-rated to reflect his service during that year.

Dr. Allen joined the Company in March 2013. The amounts for 2013 are pro-rated to reflect his service during that (7) year. Dr. Allen resigned from his employment with the Company on January 4, 2016 and received no severance benefits in connection with his resignation.

Grants of Plan-Based Awards in 2015

The following table provides information about equity incentive awards (restricted stock and stock options) granted to the named executive officers in 2015 (no “non-equity incentive plan” awards were granted in 2015). The following table provides information regarding the number of shares acquired upon exercise of options and vesting of restricted stock in 2015 and the resulting value deemed to have been realized by the named executive officers. However, the amounts reflected in the table do not represent cash payments to or proceeds received by the named executive officers. The shares acquired by the named executive officers, less any shares forfeited to pay for taxes, were retained by the named executive officers. The actual values that may be realized by the named executive officers in connection with these awards may be materially different from these amounts when ultimately realized upon sale of the shares.

Nonqualified Deferred Compensation Plan

In order to enhance our ability to attract and retain qualified employees, our Board has approved the Nonqualified Deferred Compensation Plan, which is intended to comply with the requirements of Section 409A of the Code. The Plan is administered by the Committee, and is intended to be an unfunded plan which is maintained primarily to provide deferred compensation benefits for a select group of our employees including the named executive officers. Under the Plan, we will provide the participants with the opportunity to make annual elections to defer up to a specified amount or percentage of their eligible cash compensation, as established by the administrator, and we have the option, but not the obligation, to make discretionary or matching cash contributions.

The Nonqualified Deferred Compensation Plan provides eligible participants the opportunity to defer up to 75% of base salary and up to 100% of bonus. We have the option, but not the obligation, to make discretionary or matching cash contributions. Deferral accounts will be credited with a rate of return (positive or negative) based on the performance of the deemed investment options selected by the participant. The value of the accounts may increase or decrease depending upon the performance of the selected investment options. For each annual deferral, the participant may designate a specific date distribution prior to separation from service (called an "In-Service" distribution account) or distribution upon separation from service. In-Service distribution account(s) are paid in the month following the month selected by the participant in the elected year that is at least three years after the plan year to which the deferral election relates.

In 2015, we matched participants' deferrals up to 10% of eligible compensation. The Company match generally vests three years after the date of deferral. However, contributions become 100% vested upon the occurrence of the earliest of: (i) retirement; (ii) death of the participant; (iii) disability of the participant; and (iv) change of control of the Company, each as defined in the Plan.

The following table summarizes activity under the Plan in 2015:

Employment, Severance and Change in Control Agreements

We have entered into an employment agreement with Dr. Rajesh C. Shrotriya, our President and Chief Executive Officer. We have also entered into employment arrangements and Change in Control Severance Agreements with our other named executive officers. The terms of the various agreements are discussed below.

Employment Agreement — Dr. Shrotriya

The Company entered into an employment agreement with Dr. Shrotriya on January 2, 2008, as amended April 17, 2014, which expires on January 2, 2017. The employment agreement automatically renews for subsequent one-year calendar terms unless either party gives written notice of such party’s intent not to renew the agreement at least 90 days prior to the commencement of the new term. The employment agreement requires Dr. Shrotriya to devote his full working time and effort to our business and affairs during the term of the agreement. The employment agreement provides for a minimum annual base salary, periodic bonuses and equity grants each in amounts to be recommended by the Committee.

Compensation and Benefits

Pursuant to the terms of the employment agreement, Dr. Shrotriya shall receive an annual base salary, which may be adjusted annually as determined by the Committee. The Committee has set Dr. Shrotriya’s annual base salary at \$945,000 for 2016.

Dr. Shrotriya shall also be paid an annual performance bonus in cash and/or equity based awards, no later than January 31 of the year following, each in amounts to be determined by the Committee.

Under the agreement, Dr. Shrotriya is entitled to receive additional employment benefits, including the right to participate in certain incentive plans, life, medical and dental benefits, the right to certain estate planning services, a leased vehicle and reimbursements for automobile related expenses, and other benefits.

For additional information, see “Compensation Discussion and Analysis — Summary Compensation Table.”

Termination

Dr. Shrotriya’s employment may be terminated due to non-renewal of the agreement by us, by mutual agreement of the parties, by us for cause (as that term is defined in the agreement) or without cause, on grounds of disability or death of Dr. Shrotriya, by Dr. Shrotriya for no reason or for good reason (as those terms are defined in the agreement), or by Dr. Shrotriya’s non-renewal of the agreement.

If (i) the agreement is not renewed by us, (ii) Dr. Shrotriya is terminated without cause, or (iii) Dr. Shrotriya resigns for good reason, then Dr. Shrotriya’s guaranteed severance payments include the right to receive (a) a lump sum payment equivalent to the aggregate of two years’ cash compensation (base salary, cash bonus and the vehicle allowance paid to Dr. Shrotriya pursuant to Dr. Shrotriya’s employment agreement); (b) Company-paid continued coverage for Dr. Shrotriya and his eligible dependents under our existing health and benefit plans for two years; and (c) immediate vesting of all options, restricted shares and other equity-based awards granted to Dr. Shrotriya.

Dr. Shrotriya shall have three years to exercise all vested equity based awards. Since options issued to Dr. Shrotriya pursuant to our 1997 Plan can only be exercised for ninety days after termination, a replacement option shall be granted to Dr. Shrotriya at termination to allow for three years’ of exercisability.

In the event Dr. Shrotriya voluntarily resigns for good reason, or is terminated by us without cause, we will pay or reimburse Dr. Shrotriya for reasonable relocation expenses up to \$75,000. The Company will also pay additional cash compensation to offset the taxes attributable to him as a result of such reimbursement. If Dr. Shrotriya informs the

Company that he does not wish to relocate, the Company will pay him \$75,000 in a single lump sum, less any relocation expenses already incurred or advanced.

50

If the agreement is terminated due to death or disability of Dr. Shrotriya, a lump sum equal to three months of base salary, at the time of his termination, shall be paid to Dr. Shrotriya, or his legal representative or estate, as applicable. All equity based awards, such as options and restricted shares, shall immediately vest and shall remain exercisable in accordance with the terms of the respective equity plan(s) and individual agreement(s) governing such options and restricted shares.

If Dr. Shrotriya voluntarily resigns his employment for no reason, any stock options or other equity based awards (except for restricted shares) shall immediately become fully vested upon the effective date of Dr. Shrotriya's resignation, and he shall have three years to exercise all such vested equity based awards. Dr. Shrotriya shall receive the same benefits for any unexpired options issued pursuant to our 1997 Plan as if he had been terminated without cause by us.

Upon a change of control of Spectrum, if (i) Dr. Shrotriya's employment is terminated (other than by Dr. Shrotriya) without cause within twelve months thereafter; or (ii) Dr. Shrotriya is adversely affected in certain terms outlined in the agreement, and Dr. Shrotriya, within twelve months after an event constituting a change of control, elects to resign his employment with us, then in either case, Dr. Shrotriya shall be provided with Company-paid senior executive outplacement (at a value of no less than \$40,000) at an outplacement or executive search firm of his selection, and shall receive the same severance benefits as he would receive if he was terminated by us without cause. However, instead of two years' cash compensation (comprised of his base salary, bonus and car allowance), Dr. Shrotriya shall receive three years cash compensation. In addition, upon a change of control, we shall pay Dr. Shrotriya a one-time payment of \$600,000 in recognition of his contributions to the development of the Company.

If the agreement is terminated due to mutual agreement, Dr. Shrotriya's non-renewal of the agreement, or by us for cause, Dr. Shrotriya shall not be entitled to any severance.

Other

If any payment or distribution by us to or for the benefit of Dr. Shrotriya is subject to the excise tax imposed by Section 4999 of the Code or any interest or penalties are incurred by the Dr. Shrotriya with respect to such excise tax, then Dr. Shrotriya shall be entitled to receive an additional payment in an amount such that after payment by Dr. Shrotriya of all taxes (including any interest and penalties imposed with respect thereto) and excise tax imposed upon such payment, Dr. Shrotriya retains an amount of the payment equal to the excise tax imposed upon the payment.

If we determine that any payments to Dr. Shrotriya under the agreement fail to satisfy the distribution requirement of Section 409A(a)(2)(A) of the Code, the payment schedule of that benefit shall be revised to the extent necessary so that the benefit is not subject to the provisions of Section 409A(a)(1) of the Code. We may attach conditions to or adjust the amounts so paid to preserve, as closely as possible, the economic consequences that would have applied in the absence of this adjustment; provided, however, that no such condition or adjustment shall result in the payments being subject to Section 409A(a)(1) of the Code.

Compensation and Benefits

Pursuant to the terms of each employment arrangement, the named executive officers shall receive an annual base salary as stated in the definitive document, subject to adjustment by the Compensation Committee. Each of the named executive officers, with the exception of Mr. Turgeon, is eligible for a performance bonus of up to 50% of his base salary. Mr. Turgeon's bonus is at the discretion of the Compensation Committee. The employment arrangements also provide for certain additional equity awards for each of the named executive officers. Our Compensation Committee may, at its sole discretion, award bonuses of cash, stock, or stock options from time to time to each of the named executive officers.

Under the employment arrangements, each named executive officer is entitled to receive additional employment benefits, including the right to participate in certain incentive plans, life, medical and dental benefits, and other standard benefits.

For additional information, see "Compensation Discussion and Analysis — Summary Compensation Table."

Termination

As discussed above, each of the named executive officer's employment arrangement is "at-will" for no specified term, and may be terminated by the named executive officer or us at any time for any reason or for no reason.

Change in Control Severance Agreements

In March 2014, we entered into a Change in Control Severance Agreement, referred to as the Severance Agreement, with each of our named executive officers other than our Chief Executive Officer. Under the Severance Agreement, severance benefits are payable to the eligible officers if, during the term of the Severance Agreement, and within 12 months after a Change of Control (as defined in the Severance Agreement) has occurred, the eligible officer's employment is terminated by us other than for Cause

51

or the eligible officer resigns for Good Reason (each as defined in the Severance Agreement). Severance benefits under the Severance Agreement include: (i) the continuation of current base salary for a period of 12 months following termination of employment (24 months in the case of Mr. Turgeon, in accordance with his first amendment entered into in February 2015), and (ii) the payment of accrued benefits. Additionally, pursuant to the terms of Mr. Turgeon's second amendment entered into in August 2015, his severance benefits also include (x) any earned and accrued but unpaid bonus with respect to fiscal years prior to the year of termination, and (y) a lump sum payment equal to one hundred twenty percent (120%) of his annual base salary. The purpose of the Severance Agreements is, among other things, to provide the eligible officers with enhanced financial security and sufficient incentive and encouragement to remain in the employ of the Company prior to and during the completion of a Change in Control. We do not intend to enter into a separate Severance Agreement with our Chief Executive Officer as his employment agreement already provides for the payment of severance benefits under circumstances and in amounts deemed appropriate by the Committee.

Potential Payments upon Termination or Following a Change in Control

The table below reflects the amount of compensation to be paid to or earned by each of our named executive officers in the event of the termination of such executive's employment with the Company under different circumstances. The table describes, for each named executive officer, the amount of compensation payable upon (i) resignation without reason, (ii) death, (iii) disability, (iv) involuntary termination without cause, non-renewal of Dr. Shrotriya's employment agreement by the Company, or resignation for good reason, (v) involuntary termination for cause or (vi) termination following a change of control of the Company (other than for cause or without good reason). Where applicable, the amounts shown assume that the termination was effective as of the last trading day of 2015, and use the closing price per share of our common stock on such date of \$6.03. The amounts set forth in the table only reflect estimates of the amounts that would actually be paid out in connection with a particular termination event. The actual amounts to be paid out with respect to any particular termination can only be determined at the time of an executive's termination from the Company.

We currently have two stock incentive plans: the 2003 Amended and Restated Incentive Award Plan, or the 2003 Plan, and the 2009 Plan, each of which have been approved by our Board and stockholders. Subsequent to the (1) adoption of the 2009 Plan, no new options have been granted pursuant the 2003 Plan, however awards outstanding under the 2003 Plan continued to be governed by its terms, and our Board may not grant additional awards under the 2003 Plan.

The Board and the stockholders initially approved 10,000,000 shares of common stock available for issuance under the 2009 Plan. Beginning on January 1, 2010, and on each January 1st thereafter during the term of the 2009 Plan, (2) the number of shares of common stock available for issuance under the 2009 Plan shall increase by the greater of (i) 2,500,000 and (ii) a number of shares such that the total number of shares of common stock available for issuance under the 2009 Plan shall equal 30% of the number of shares of common stock then issued and outstanding. As of March 31, 2016, a total of 29,677,894 shares were authorized for issuance under the 2009 Plan.

The amount in column (a) reflects the number of shares of our common stock that are issuable upon exercise of (3) warrants issued to certain non-employees under plans approved by our Board of Directors that are not required to be approved by our stockholders pursuant to the NASDAQ Listing Rules.
