GRANITE CONSTRUCTION INCORPORATED  
NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
(Unaudited)

1. Basis of Presentation

The condensed consolidated financial statements included herein have been prepared by Granite Construction Incorporated (“we,” “us,” “our,” “Company” or “Granite”) without audit, pursuant to the rules and regulations of the Securities and Exchange Commission (“SEC”) and should be read in conjunction with our Annual Report on Form 10-K for the year ended December 31, 2009. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”) have been condensed or omitted, although we believe the disclosures made are adequate to make the information presented not misleading. Further, the condensed consolidated financial statements reflect, in the opinion of management, all normal recurring adjustments necessary to present fairly our financial position at September 30, 2010 and 2009 and the results of our operations and cash flows for the periods presented. In preparing these financial statements, we have evaluated events and transactions for potential recognition or disclosure through the date the financial statements were issued. The December 31, 2009 condensed consolidated balance sheet data was derived from audited consolidated financial statements, but does not include all disclosures required by U.S. GAAP.

We prepared the accompanying condensed consolidated financial statements on the same basis as our annual consolidated financial statements, except for the change in our reportable business segments described in Note 17, “Business Segment Information” and the adoption of two new accounting standards. We adopted Accounting Standards Codification (“ASC”) Topic 820, Fair Value Measurements and Disclosures, which clarified fair value disclosure requirements for assets and liabilities measured on a recurring basis, effective as of March 31, 2010 (see Note 5). Additionally, we adopted the new consolidation requirements applicable to our construction and real estate joint ventures that are considered variable interest entities (“VIEs”) as defined by ASC Topic 810, Consolidation, effective as of January 1, 2010. To ascertain if we are required to consolidate a VIE, we determine whether we are the VIE’s primary beneficiary. This new accounting standard changes the method used to determine the primary beneficiary of a VIE and requires the following:

- determination of the VIE’s primary beneficiary using a qualitative approach based on:
  - i) the power to direct the activities that most significantly impact the economic performance of the VIE; and
  - ii) the obligation to absorb losses or right to receive benefits of the VIE that could be significant.
    - ongoing evaluation of the VIE’s primary beneficiary; and
- disclosures about a company’s involvement with the VIE including separate presentation on the condensed consolidated balance sheets of a consolidated VIE’s non-recourse debt.

Prior to the adoption of this accounting standard, determination of the VIE’s primary beneficiary was based on a quantitative and qualitative analysis and was reconsidered only upon the occurrence of specific triggering events. The adoption of this new accounting standard resulted in the consolidation of one construction joint venture (see Note 7) and did not have a material impact on our consolidation of real estate entities (see Note 8).

Interim results are subject to significant seasonal variations and the results of operations for the three and nine months ended September 30, 2010 are not necessarily indicative of the results to be expected for the full year.

Reclassifications of certain costs between cost of revenue and selling, general and administrative expenses have been made to prior year’s condensed consolidated financial statements and footnote disclosures to conform to current year presentation. These reclassifications did not have a significant impact on our previously reported net operating results.

2.

Recently Issued Accounting Pronouncement

In January 2010, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2010-06. This ASU amends the accounting guidance in ASC Topic 820, Fair Value Measurements and Disclosures, regarding assets and liabilities measured at fair value using significant unobservable inputs (Level 3 fair value measurements). This ASU requires separate disclosures about purchases, sales, issuances and settlements and will be effective in 2011. We do not expect the adoption of this ASU to have a material impact on our consolidated financial statements.

(Unaudited)

3. Revisions in Estimates

Our profit recognition related to construction contracts is based on estimates of costs to complete each project. These estimates can vary in the normal course of business as projects progress and uncertainties are resolved. We do not recognize revenue on contract change orders or claims until we have a signed agreement; however, we do recognize costs as incurred and revisions to estimated total costs as soon as the obligation to perform is determined. Approved change orders and claims, as well as changes in related estimates of costs to complete, are considered revisions in estimates. We use the cumulative catch-up method applicable to construction contract accounting to account for revisions in estimates. Under this option, revisions in estimates are accounted for in their entirety in the period of change. As of September 30, 2010, we had no revisions in estimates that are reasonably certain to impact future periods.

Construction

The net change in project profitability from revisions in estimates, both increases and decreases, that individually had an impact of \$1.0 million or more on gross profit was a net increase of \$0.7 million and a net decrease of \$0.4 million for the three and nine months ended September 30, 2010, respectively. The net change for the three and nine months ended September 30, 2009 was a net decrease in gross profit of \$0.8 million and a net increase in gross profit of \$24.2 million, respectively. The projects are summarized as follows:

Increases

(dollars in millions)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2010	2009	2010	2009
Number of projects with upward estimate changes	2	2	3	16
Range of increase in gross profit from each project, net	\$ 2.2 - 2.9	\$ 1.5 - 3.8	\$ 1.0 - 2.9	\$ 1.0 - 5.6
Increase on project profitability	\$ 5.1	\$ 5.3	\$ 6.5	\$ 32.0

The increases during the three and nine months ended September 30, 2010 were due to the resolution of certain project uncertainties and owner directed scope changes. The increases during the three and nine months ended September 30, 2009 were due to the resolution of certain project uncertainties, higher productivity than originally anticipated and the settlement of outstanding issues with contract owners.

Decreases

(dollars in millions)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2010	2009	2010	2009
Number of projects with downward estimate changes	2	1	3	2
Range of reduction in gross profit from each project, net	\$ 2.2 - 4.4	\$ 6.1 - 6.1	\$ 1.9 - 2.7	\$ 1.7 - 6.1
Decrease on project profitability	\$ 4.4	\$ 6.1	\$ 6.9	\$ 7.8

The downward estimate changes during the three and nine months ended September 30, 2010 were due to lower productivity than originally anticipated, disputed materials performance issues and rework costs to meet contract specifications. The decreases during the three and nine months ended September 30, 2009 were due to unanticipated costs, disputed materials performance issues, owner directed scope changes and rework costs to meet contract specifications.

There were no amounts attributable to noncontrolling interests included in these revisions in estimates during the three and nine months ended September 30, 2010 or 2009.

Table of Contents

GRANITE CONSTRUCTION INCORPORATED  
NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
(Unaudited)

## Large Project Construction

The net changes in project profitability from revisions in estimates, both increases and decreases, that individually had an impact of \$1.0 million or more on gross profit was a net decrease of \$0.1 million and a net increase of \$6.5 million for the three and nine months ended September 30, 2010, respectively. The net changes for the three and nine months ended September 30, 2009 were net increases of \$4.1 million and \$33.3 million, respectively. These revisions in estimates included amounts attributable to noncontrolling interests of \$0.1 million and \$1.5 million for the three and nine months ended September 30, 2010, respectively, and \$0.6 million and \$2.9 million for the three and nine months ended September 30, 2009, respectively. The projects are summarized as follows:

## Increases

(dollars in millions)	Three Months		Nine Months	
	Ended September 30,		Ended September 30,	
	2010	2009	2010	2009
Number of projects with upward estimate changes	2	3	6	9
Range of increase in gross profit from each project, net	\$ 1.4 - 2.8	\$ 1.4 - 2.4	\$ 1.0 - 4.2	\$ 1.5 - 18.0
Increase on project profitability	\$ 4.2	\$ 6.1	\$ 11.6	\$ 37.2

The increases during the three and nine months ended September 30, 2010 were due to settlement of design issues with a subcontractor, resolution of project uncertainties, owner directed scope changes and improved productivity. The increases during the three and nine months ended September 30, 2009 included resolution of project uncertainties, the settlement of outstanding revenue issues with various contract owners and improved productivity on certain projects. Gross profit for the nine months ended September 30, 2009 included a negotiated claims settlement with the owner on a project in the Northeast for approximately \$17.3 million.

## Decreases

(dollars in millions)	Three Months		Nine Months	
	Ended September 30,		Ended September 30,	
	2010	2009	2010	2009
Number of projects with downward estimate changes	2	1	2	2
Range of reduction in gross profit from each project, net	\$ 1.9 - 2.4	\$ 2.0	\$ 2.2 - 2.9	\$ 1.9 - 2.0
Decrease on project profitability	\$ 4.3	\$ 2.0	\$ 5.1	\$ 3.9

The downward estimate changes during the three and nine months ended September 30, 2010 were due to lower productivity than originally anticipated as well as site conditions that were different than anticipated. The decreases during the three and nine months ended September 30, 2009 were due to issues with contract owners as well as job level productivity.

On a large highway project in mountainous terrain in Oregon, several hillsides have experienced unanticipated ground movement. In some locations, the ground movements have caused damage to completed portions of bridge structures. The Company and the project owner, the Oregon Department of Transportation, are discussing the technical issues associated with these ground movements and identifying and analyzing possible remedial work plans

to address these developments. At this time, the Company cannot reasonably estimate the impact, if any, these developments may have on the projected financial results for this project. Therefore, no revisions in estimates were made in the three and nine months ended September 30, 2010 in relation to these developments.

<b>Total</b>	<b>\$ 223,739</b>	<b>\$ -</b>	<b>\$ -</b>	<b>\$ 223,739</b>

1 Quoted prices in active markets for identical assets or liabilities.

2 Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

We believe the carrying values of receivables, other current assets, and other current liabilities approximate their fair values. The fair value of the senior notes payable was based on borrowing rates available to us for bank loans with similar terms, average maturities, and credit risk. The carrying amount and estimated fair value of senior notes payable were:

(in thousands)	September 30, 2010	December 31, 2009	September 30, 2009
<b>Carrying amount:</b>			
Senior notes payable (including current maturities)	\$ 225,000	\$ 240,000	\$ 240,000

Fair value:

Senior notes payable (including current maturities)	\$	256,556	\$	249,159	\$	254,423

Less: allowance for doubtful accounts	3,331	3,917	4,348
Total net receivables	\$ 375,914	\$ 280,252	\$ 382,572

Included in other receivables at September 30, 2010, December 31, 2009 and September 30, 2009 were items such as notes receivable, interest receivable, fuel tax refunds and income tax refunds.

## 7. Construction and Line Item Joint Ventures

We participate in various construction joint venture partnerships. We also participate in various "line item" joint ventures under which each partner is responsible for performing certain discrete items of the total scope of contracted work.

Our agreements with our joint venture partners for both construction joint ventures and line item joint ventures provide that each party will assume and pay for any losses it is responsible for under the joint venture agreement. Circumstances that could lead to a loss under our joint venture arrangements beyond our stated ownership interest include the failure of a partner to contribute additional funds to the venture in the event the project incurs a loss or additional costs that we could incur should a partner fail to provide the services and resources toward project completion that had been committed to in the joint venture agreement. Due to the joint and several nature of the obligations under our joint venture arrangements, if one of our joint venture partners fails to perform, we and the remaining joint venture partners would be responsible for performance of the outstanding work.

At September 30, 2010, there was approximately \$1.9 billion of construction revenue to be recognized on unconsolidated construction joint venture contracts of which \$648.6 million represented our share and the remaining \$1.3 billion represented our partners' share. We are not able to estimate other amounts that may be required beyond the remaining cost of the work to be performed. These costs could be offset by billings to the customer or by proceeds from our partner's corporate and/or other guarantees.

Table of Contents

GRANITE CONSTRUCTION INCORPORATED  
NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
(Unaudited)

## Construction Joint Ventures

Generally, each construction joint venture is formed to complete a specific contract and is jointly controlled by the joint venture partners. The joint venture agreements typically provide that our interests in any profits and assets, and our respective share in any losses and liabilities resulting from the performance of the contract are limited to our stated percentage interest in the project. We have no significant commitments beyond completion of the contracts. Under our contractual arrangements, we provide capital to these joint ventures in return for an ownership interest. In addition, partners dedicate resources to the ventures necessary to complete the contracts and are reimbursed for their cost. The operational risks of each construction joint venture are passed along to the joint venture partners. As we absorb our share of these risks, our investment in each venture is exposed to potential losses.

As discussed in Note 1, effective in 2010 we adopted an accounting standard that provides a new approach for determining a VIE's primary beneficiary and requires continual evaluation of the primary beneficiary. The factors we consider in determining whether we are a construction joint venture's primary beneficiary include the decision making authority of each partner, which partner manages the day-to-day operations of the project and the amount of our equity investment in relation to that of our partners. The adoption of the new accounting standard resulted in the consolidation of one construction joint venture in our condensed consolidated financial statements on March 31, 2010 that was previously reported on a pro rata basis. This consolidation resulted in increases of \$2.4 million in assets, \$1.7 million in liabilities and \$0.8 million in noncontrolling interests in our condensed consolidated financial statements.

As part of our ongoing primary beneficiary evaluations, we determined that decision making responsibility was shared between the venture partners for one joint venture. Therefore, this joint venture did not have an identifiable primary beneficiary partner and we continue to report the pro rata results. All other joint ventures were assigned one primary beneficiary partner.

## Consolidated Construction Joint Ventures

The carrying amounts and classification of assets and liabilities of construction joint ventures we are required to consolidate are included in our condensed consolidated financial statements as follows:

(in thousands)	September 30, 2010	December 31, 2009	September 30, 2009
Cash and cash equivalents	\$ 103,367	\$ 122,438	\$ 121,136
Other current assets	19,006	3,220	20,928
Total current assets	122,373	125,658	142,064
Noncurrent assets	894	1,443	2,099
Total assets <sup>1</sup>	\$ 123,267	\$ 127,101	\$ 144,163
Accounts payable	\$ 33,934	\$ 23,057	\$ 27,355
Billings in excess of costs and estimated earnings	63,783	69,354	83,983
Accrued expenses and other current liabilities	11,195	11,834	12,508
Total current liabilities	108,912	104,245	123,846
Noncurrent liabilities	5	3	1
Total liabilities <sup>1</sup>	\$ 108,917	\$ 104,248	\$ 123,847

The assets and liabilities of each joint venture relate solely to that joint venture. The decision to distribute joint venture cash and assets must generally be made jointly by all of the partners and, accordingly, these cash and assets generally are not available for the working capital needs of Granite.

At September 30, 2010, our consolidated construction joint ventures were engaged in two active projects with total contract values of \$113.9 million and \$473.4 million and our proportionate share of the equity in these joint ventures was 45.0% and 57.3%, respectively.

Table of Contents

GRANITE CONSTRUCTION INCORPORATED  
NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
(Unaudited)

## Unconsolidated Construction Joint Ventures

We account for our share of construction joint ventures that we are not required to consolidate on a pro rata basis in the condensed consolidated statements of operations and as a single line item on the condensed consolidated balance sheets. As of September 30, 2010, these unconsolidated joint ventures were engaged in nine active construction projects with total contract values ranging from \$39.7 million to \$973.7 million. Our proportionate share of the equity in these unconsolidated joint ventures ranged from 20.0% to 42.5%.

Following is summary financial information related to unconsolidated construction joint ventures:

(in thousands)	September 30, 2010	December 31, 2009	September 30, 2009
<b>Assets:</b>			
Total	\$ 465,779	\$ 337,959	\$ 303,345
Less partners' interest	287,616	219,777	200,797
Granite's interest	178,163	118,182	102,548
<b>Liabilities:</b>			
Total	275,426	168,114	155,569
Less partners' interest	177,759	117,625	111,471
Granite's interest	97,667	50,489	44,098
Equity in construction joint ventures	\$ 80,496	\$ 67,693	\$ 58,450

(in thousands)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2010	2009	2010	2009
<b>Revenue:</b>				
Total	\$ 168,981	\$ 118,995	\$ 427,379	\$ 311,270
Less partners' interest	120,790	90,378	300,425	242,602
Granite's interest	48,191	28,617	126,954	68,668
<b>Cost of revenue:</b>				
Total	157,932	99,827	386,316	272,051
Less partners' interest	111,578	75,498	261,508	210,166
Granite's interest	46,354	24,329	124,808	61,885
Granite's interest in gross profit	\$ 1,837	\$ 4,288	\$ 2,146	\$ 6,783

## Line Item Joint Ventures

The revenue for each line item joint venture partner's discrete items of work is defined in the contract with the project owner and each venture partner bears the profitability risk associated with its own work. There is not a single set of books and records for a line item joint venture. Each partner accounts for its items of work individually as it would for any self-performed contract. We account for our portion of these contracts as project revenues and costs in our accounting system and include receivables and payables associated with our work in our condensed consolidated financial statements. As of September 30, 2010, we had two active line item joint venture construction projects with a total contract value of \$51.9 million and \$146.6 million of which our portion was \$21.0 million and \$64.7 million, respectively. As of September 30, 2010, we had approximately \$13.0 million and \$21.0 million of revenue remaining to be recognized on these projects, respectively.

(Unaudited)

8. Real Estate Entities and Investments in Affiliates

The operations of our Real Estate segment are conducted through our wholly owned subsidiary, Granite Land Company (“GLC”). Generally, GLC participates together with third-party partners in entities that are formed to accomplish specific real estate development projects. The agreements with GLC’s partners in these real estate entities define each partner’s management role and financial responsibility in the project. If one of GLC’s partners is unable to fulfill its management role or make its required financial contribution, GLC may assume full management or financial responsibility for the project. This may result in the consolidation of entities that are accounted for under the equity method in our consolidated financial statements. The amount of GLC’s exposure is limited to GLC’s equity investment in the real estate joint venture.

As discussed in Note 1, effective in 2010 we adopted an accounting standard that provides a new approach for determining a VIE’s primary beneficiary and requires continual evaluation of the primary beneficiary. The adoption of the new accounting standard did not have a material impact on the treatment of any of our real estate entities or investments in affiliates.

Substantially all the assets of these real estate entities in which we are participants through our GLC subsidiary are classified as real estate held for sale or use. All outstanding debt of these entities is non-recourse to Granite. However, there is recourse to our real estate affiliates that incurred the debt. Our real estate affiliates include limited partnerships and limited liability companies of which we are a limited partner or member.

GLC routinely assists its real estate entities in securing debt financing from various sources. The amount of financial support to be provided by GLC to consolidated VIEs was increased by \$13.5 million in 2010 and by \$8.8 million in 2009 as a result of changes in the entities’ business plans. These amounts represent additional financial support in the form of current or future cash contributions to the consolidated entities, beyond what GLC had previously committed to provide. As of September 30, 2010, we had contributed \$12.9 million of the total increased commitment of \$22.3 million to the consolidated entities.

On a quarterly basis the carrying amount of each real estate development project is reviewed in accordance with ASC Topic 360, Property, Plant, and Equipment, to determine if impairment charges should be recognized. The review of each project includes an evaluation of entitlement status, market conditions, existing offers to purchase, cost of construction, debt load, development schedule, status of joint venture partners and other factors specific to each project to determine if events or changes in circumstances indicate that a project’s carrying amount may not be recoverable. If events or changes in circumstances indicate that a project’s carrying amount may not be recoverable, the undiscounted future cash flows are estimated and compared to the project’s carrying amount. In the event that the estimated undiscounted future cash flows are not sufficient to recover the carrying amount of a project, it is written down to its estimated fair value.

Based on our evaluation of each project’s business plan as of September 30, 2010, and our review of each project in accordance with ASC Topic 360, we recorded no impairment charges during the quarter ended September 30, 2010. During the nine months ended September 30, 2010 we recognized pretax, non-cash impairment charges of \$0.1 million on assets classified as real estate held for development and sale. During the three and nine months ended September 30, 2009, we recognized impairment charges of \$0.7 million and \$1.7 million, respectively. We recorded the charges in cost of revenue of our Real Estate segment in our condensed consolidated statements of operations.

In the fourth quarter of 2010, we publicly announced our work in progress on our Enterprise Improvement Plan which includes new business plans to orderly divest of our real estate investment business consistent with our business strategy to focus on our core competencies while enhancing operating efficiencies. We estimate that implementation of the Enterprise Improvement Plan will result in impairment charges related to approximately one-third of our real estate projects (see Note 18). An evaluation of entitlement status, market conditions, existing offers to purchase, cost of construction, debt load, development schedule, status of joint venture partners and other factors specific to the remaining two-thirds of the projects, is expected to result in no events or changes in circumstances that would indicate the carrying amounts of these projects may not be recoverable.

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
(Unaudited)

## Consolidated Real Estate Entities

The carrying amounts and classification of assets and liabilities of real estate entities we are required to consolidate are included in our condensed consolidated financial statements as follows:

(in thousands)	September 30, 2010	December 31, 2009	September 30, 2009
Real estate held for development and sale	\$ 151,638	\$ 139,449	\$ 135,306
Other current assets	2,858	5,477	5,234
Total current assets	154,496	144,926	140,540
Property and equipment, net	8,156	14,905	14,795
Other noncurrent assets	2,005	11,989	12,008
Total assets	\$ 164,657	\$ 171,820	\$ 167,343
Current maturities of non-recourse debt	\$ 39,157	\$ 43,961	\$ 53,177
Other current liabilities	3,083	5,845	6,678
Total current liabilities	42,240	49,806	59,855
Long-term non-recourse debt	16,420	19,485	8,363
Other noncurrent liabilities	443	553	551
Total liabilities	\$ 59,103	\$ 69,844	\$ 68,769

For our consolidated real estate entities, substantially all of the real estate held for development and sale as well as property and equipment are pledged as collateral for the debt of the real estate entities. All outstanding debt of the real estate entities is recourse only to the real estate affiliate that incurred the debt, the limited partnership or limited liability company, of which we are a limited partner or member. Our proportionate share of the results of these entities varies depending on the ultimate profitability of the entities.

Table of Contents

GRANITE CONSTRUCTION INCORPORATED  
 NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
 (Unaudited)

Included in current assets on our condensed consolidated balance sheets is real estate held for development and sale. The breakdown by type and location of our real estate held for development and sale is summarized below:

(dollars in thousands)	September 30, 2010		December 31, 2009		September 30, 2009	
	Amount	Number of Projects	Amount	Number of Projects	Amount	Number of Projects
Residential	\$ 129,618	6	\$ 121,101	6	\$ 117,888	6
Commercial	22,020	5	18,348	3	17,418	3
<b>Total</b>	<b>\$ 151,638</b>	<b>11</b>	<b>\$ 139,449</b>	<b>9</b>	<b>\$ 135,306</b>	<b>9</b>
Washington	\$ 87,194	2	\$ 80,703	2	\$ 78,803	2

California	25,815	7	20,848	5	19,589	5
Texas	8,716	1	8,618	1	8,458	1
<b>Total</b>	<b>\$ 151,638</b>	<b>11</b>	<b>\$ 139,449</b>	<b>9</b>	<b>\$ 135,306</b>	<b>9</b>

## Investments in Affiliates

We account for our share of unconsolidated real estate entities in which we have determined we are not the primary beneficiary in other income in the condensed consolidated statements of operations and as a single line item on our condensed consolidated balance sheets as Investments in Affiliates. At September 30, 2010, these entities were engaged in real estate development projects with total assets ranging from approximately \$6.3 million to \$50.3 million. Our proportionate share of the operating results of these entities varies depending on the ultimate profitability of the entities.

Additionally, we have investments in non-real estate affiliates that are accounted for using the equity method. The most significant of these investments is a 50% interest in a limited liability company which owns and operates an asphalt terminal in Nevada.

During the three months ended June 30, 2010, we entered into an agreement with a corporation that designs and manufactures power generation equipment to create a limited liability company whose purpose is to develop and construct power generation facilities in the western United States. Our investment in the newly formed limited liability company as of September 30, 2010 was \$1.3 million. Our share of profits and losses will vary depending on the operating results of the company. Although the company is a VIE, we are not the primary beneficiary and, accordingly, we account for it as an investment in affiliates.

We also have a cost method investment of \$6.4 million as of September 30, 2010 that represents a 3.6% interest in the preferred stock of a corporation that designs and manufactures power generation equipment.

## 10. Intangible Assets

The balances of the following intangible assets are included in other noncurrent assets on our condensed consolidated balance sheets:

## Indefinite-lived Intangible Assets:

(in thousands)	September 30, 2010	December 31, 2009	September 30, 2009
Goodwill <sup>1</sup>	\$ 9,900	\$ 9,900	\$ 9,900
Use rights and other	1,319	1,319	2,954
Total unamortized intangible assets	\$ 11,219	\$ 11,219	\$ 12,854

<sup>1</sup>Goodwill for all periods presented primarily relates to our Construction segment.

## Amortized Intangible Assets:

September 30, 2010

(in thousands)	Gross Value	Accumulated Amortization	Net Value
Permits	\$ 33,582	\$ (6,401)	\$ 27,181
Customer lists	2,198	(1,658)	540
Covenants not to compete	1,588	(1,286)	302
Other	1,082	(606)	476
Total amortized intangible assets	\$ 38,450	\$ (9,951)	\$ 28,499

December 31, 2009

(in thousands)

Permits	\$ 33,582	\$ (5,151)	\$ 28,431
Customer lists	2,198	(1,399)	799
Covenants not to compete	1,588	(1,106)	482
Other	1,082	(478)	604
Total amortized intangible assets	\$ 38,450	\$ (8,134)	\$ 30,316

September 30, 2009

(in thousands)

Permits	\$ 36,070	\$ (5,041)	\$ 31,029
Customer lists	2,198	(1,254)	944
Covenants not to compete	1,588	(1,003)	585
Other	1,082	(433)	649
Total amortized intangible assets	\$ 40,938	\$ (7,731)	\$ 33,207

Amortization expense related to these intangible assets for the three and nine months ended September 30, 2010 was approximately \$0.6 million and \$1.8 million, respectively, and approximately \$0.7 million and \$2.3 million for the three and nine months ended September 30, 2009, respectively. Based on the amortized intangible assets net value at September 30, 2010, amortization expense expected to be recorded in the future is as follows: \$0.6 million for the balance of 2010; \$2.2 million in 2011; \$2.1 million in 2012; \$1.8 million in 2013; \$1.7 million in 2014; and \$20.1 million thereafter.

Table of Contents

GRANITE CONSTRUCTION INCORPORATED  
NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
(Unaudited)

11. Line of Credit

Credit Agreement

On June 22, 2010, we refinanced our credit agreement (the "Credit Agreement"), which provides for a committed, unsecured revolving credit facility of \$150.0 million. Borrowings under the Credit Agreement bear interest at LIBOR plus an applicable margin based upon certain financial ratios calculated quarterly, which resulted in a margin of 3.0% at September 30, 2010. At September 30, 2010, there were no revolving loans outstanding under the Credit Agreement, but there were standby letters of credit totaling approximately \$4.2 million. The letters of credit will expire between March and October 2011.

The most significant restrictive covenants under the terms of our Credit Agreement require the maintenance of a minimum Consolidated Tangible Net Worth, a minimum Consolidated Interest Coverage Ratio and a maximum Consolidated Leverage Ratio, the calculations and terms of which are defined by the Credit Agreement filed as Exhibit 10.1 to our Form 10-Q filed August 2, 2010. As of September 30, 2010, our Consolidated Tangible Net Worth was \$773.7 million, which exceeded the minimum of \$670.7 million, the Consolidated Interest Coverage Ratio was 9.51, which exceeded the minimum of 4.00 and the Consolidated Leverage Ratio was 2.02, which did not exceed the maximum of 2.75.

Covenants and Events of Default

Our debt agreements require us to comply with various affirmative, restrictive and financial covenants, including the financial covenants described above. Our failure to comply with any of these covenants, or to pay principal, interest or other amounts when due thereunder, would constitute an event of default under the applicable debt agreements. Under certain circumstances, the occurrence of an event of default under one of our debt agreements (or the acceleration of the maturity of the indebtedness under one of our debt agreements) would constitute an event of default under one or more of our other debt agreements, and would permit the acceleration of our indebtedness under such other debt agreement or agreements.

As of September 30, 2010, we were in compliance with the covenants contained in our debt agreements, and we are not aware of any material non-compliance by any of our unconsolidated entities with the covenants contained in their debt agreements. Based on our current expectations with respect to our future results of operations, we believe that it is reasonably likely that, absent obtaining an amendment of our Credit Agreement or other relief from our lenders, we will cease to be in compliance with certain financial covenants contained in our Credit Agreement as early as the fourth quarter of 2010.

We are currently engaged in discussions with our lenders regarding an amendment of the Credit Agreement. However, we cannot provide assurance as to whether, when or the terms upon which we will reach an agreement with our lenders regarding amendment of the Credit Agreement.

If we are unable to successfully negotiate an amendment to the Credit Agreement prior to breaching any financial covenants, we may elect to terminate the Credit Agreement. If we were to terminate, we would no longer be entitled to borrow under the Credit Agreement and the lenders would require that any letters of credit under the Credit Agreement be cash collateralized. As of September 30, 2010, there were no revolving loans outstanding under the Credit Agreement. However, if there were amounts outstanding at the time of a breach, they would become immediately due and payable.

12. Weighted Average Shares Outstanding

A reconciliation of the weighted average shares outstanding used in calculating basic and diluted net income (loss) per share in the accompanying condensed consolidated statements of operations is as follows:

(in thousands)	Three Months		Nine Months	
	Ended September 30, 2010	2009	Ended September 30, 2010	2009
Weighted average shares outstanding:				
Weighted average common stock outstanding	38,773	38,672	38,747	38,560
Less: weighted average unvested restricted stock outstanding	908	1,077	945	1,008
Total basic weighted average shares outstanding	37,865	37,595	37,802	37,552
Diluted weighted average shares outstanding:				
Weighted average common stock outstanding, basic	37,865	37,595	37,802	37,552
Effect of dilutive securities:				
Common stock options and units <sup>1</sup>	206	114	-	118
Total weighted average shares outstanding assuming dilution	38,071	37,709	37,802	37,670

<sup>1</sup>Due to the net loss for the nine months ended September 30, 2010, stock options and units representing 146 shares have been excluded from the number of shares used in calculating diluted loss per share for that period, as their inclusion would be antidilutive.

 (Unaudited)

## 13. Earnings Per Share

We calculate earnings per share (“EPS”) under the two-class method by allocating earnings to both common shares and unvested restricted stock which are considered participating securities. However, net losses are not allocated to participating securities for purposes of computing EPS under the two-class method. The following is a reconciliation of net income (loss) attributable to Granite and related weighted average shares of common stock outstanding for purposes of calculating basic and diluted net income (loss) per share using the two-class method:

(in thousands, except per share amounts)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2010	2009	2010	2009
<b>Basic</b>				
Numerator:				
Net income (loss) attributable to Granite	\$38,681	\$ 30,598	\$(8,964 )	\$57,467
Less: net income allocated to participating securities	903	849	-	1,487
Net income (loss) allocated to common shareholders for basic calculation	\$37,778	\$ 29,749	\$(8,964 )	\$55,980
Denominator:				
Weighted average common shares outstanding, basic	37,865	37,595	37,802	37,552
Net income (loss) per share, basic	\$1.00	\$ 0.79	\$(0.24 )	\$1.49
<b>Diluted</b>				
Numerator:				
Net income (loss) attributable to Granite	\$38,681	\$ 30,598	\$(8,964 )	\$57,467
Less: net income allocated to participating securities	898	846	-	1,482
Net income (loss) allocated to common shareholders for diluted calculation	\$37,783	\$ 29,752	\$(8,964 )	\$55,985
Denominator:				
Weighted average common shares outstanding, diluted	38,071	37,709	37,802	37,670
Net income (loss) per share, diluted	\$0.99	\$ 0.79	\$(0.24 )	\$1.49

## 14. Income Taxes

During the current quarter, the statute of limitations for the 2005 tax year lapsed, and we reached an agreement with the Internal Revenue Service (“IRS”) for tax examinations for the 2006 and 2007 tax years, resulting in the recognition of \$3.3 million in previously unrecognized tax benefits. Our 2005 tax year remains under audit by the IRS for research and development credits. Our 2005 through 2007 tax years remain open to audit by state taxing authorities.

We are unable to make a reliable estimate of our annual effective tax rate (“ETR”) because we are anticipating marginal 2010 pre-tax income (“PTI”) for the year, excluding any restructuring charges (see Note 18) which are considered discrete to the fourth quarter, and have significant permanent differences (e.g. non-controlling interests). Insignificant changes in our forecasted 2010 PTI result in wide variability of our calculated annual ETR due to the relationship of PTI and permanent differences. Therefore, we are unable to determine a reliable estimate of our 2010 annual ETR. As a result, we calculated our income tax (benefit) using the discrete method and computed our year-to-date ETR by utilizing actual results of operations.

For the three and nine months ended September 30, 2009, we calculated our income tax provision by estimating our annual effective tax rate and applying that rate to our year-to-date ordinary earnings. The effect of changes in enacted tax laws, tax rates or tax status was recognized in the interim period in which the change occurred.

16. Legal Proceedings

Hiawatha Project DBE Issues

The Hiawatha Light Rail Transit (“HLRT”) project was performed by Minnesota Transit Constructors (“MnTC”), a joint venture that consisted of our wholly owned subsidiary, Granite Construction Company (“GCCO”), and other unrelated companies. GCCO was the managing partner of the joint venture, with a 56.5% interest. The Minnesota Department of Transportation (“MnDOT”) is the contracting agency for this federally funded project. The Metropolitan Council is the local agency conduit for providing federal funds to MnDOT for the HLRT project. MnDOT and the U.S. Department of Transportation Office of Inspector General (“OIG”) each conducted a review of the Disadvantaged Business Enterprise (“DBE”) program maintained by MnTC for the HLRT project. In addition, the U.S. Department of Justice (“USDOJ”) is conducting an investigation into compliance issues with respect to MnTC’s DBE Program for the HLRT project. MnDOT and the OIG (collectively, the “Agencies”) have initially identified certain compliance issues in connection with MnTC’s DBE Program and, as a result, have determined that MnTC failed to meet the DBE utilization criteria as represented by MnTC. Although there has been no formal administrative subpoena issued, nor has a civil complaint been filed in connection with the administrative reviews or the investigation, MnDOT has proposed a monetary sanction of \$4.3 million against MnTC and specified DBE training for personnel from the members of the MnTC joint venture as a condition of awarding future projects to joint venture members of MnTC on MnDOT and Metropolitan Council work. MnTC and its members are fully cooperating with the Agencies and the USDOJ. MnTC has presented its detailed written responses to the initial determinations of the Agencies as well as the investigation by the USDOJ. MnTC, USDOJ, and the Agencies are continuing to engage in informal discussions in an attempt to resolve this matter. Such discussions, if successful, are expected to include resolution of issues with the USDOT and with the state agencies. We cannot, however, rule out the possibility of civil or criminal actions or administrative sanctions being brought against MnTC or one or more of its members which could result in civil and criminal penalties.

US Highway 20 Project

GCCO and our wholly-owned subsidiary, Granite Northwest, Inc., are the members of a joint venture known as Yaquina River Constructors (“YRC”) which is currently constructing a new road alignment of US Highway 20 near Eddyville, Oregon under contract with the Oregon Department of Transportation (“ODOT”). The project involves constructing seven miles of new road through steep and forested terrain in the Coast Range Mountains. During the fall and winter of 2006, extraordinary rain events produced runoff that overwhelmed erosion control measures installed at the project and resulted in discharges to surface water in alleged violations of YRC’s stormwater permit. In June 2009, YRC was informed that the USDOJ had assumed the criminal investigation that the Oregon Department of Justice conducted in connection with stormwater runoff from the project. YRC and its members are fully cooperating in the investigation. We do not know whether any criminal charges or civil lawsuits will be brought or against whom, as a result of the USDOJ’s continuing investigation. Therefore, we cannot estimate what, if any, criminal or civil penalty or conditional assessment may result from this investigation.

(Unaudited)

City of San Diego Fire Debris Cleanup

In the aftermath of the 2007 San Diego County wildfires, GCCO bid for and was awarded a fixed unit price, variable quantity contract with the City of San Diego (the “City”) to perform specified debris cleanup work. GCCO began work in November 2007 and completed the work in April 2008. In August 2008, the City announced that it would conduct an independent audit of the project. In December 2008, the City’s audit report was released with findings that, while some GCCO billings contained mistakes, rates paid to GCCO appear to be generally reasonable. GCCO has reimbursed the City for the undisputed overbilled amount of less than \$3,000. The former San Diego City Attorney, after conducting a separate investigation of GCCO’s work on the project, filed a civil lawsuit in California Superior Court, County of San Diego on October 17, 2008 against GCCO and another contractor that had been awarded a similar cleanup contract with the City. In the complaint, the City alleges that both contractors knowingly presented to the City false claims for payment in violation of the California False Claims Act. The City seeks trebled damages in an amount to be determined, and a civil penalty in the amount of \$10,000 for each false claim made. After the November 2008 election in which a new City Attorney was elected, GCCO and the City Attorney agreed to stay the lawsuit in order to allow the City Attorney time to complete its investigation and present to the City Council its findings and recommendations. GCCO was informed by the City Attorney that the City will retain outside counsel to pursue the lawsuit but GCCO has not been formally notified in the lawsuit of the City’s decisions. GCCO believes the allegations in the City’s complaint to be without factual or legal basis and, therefore, we believe the City’s entitlement to relief sought under the California False Claims Act is remote.

Grand Avenue Project DBE Issues

On March 6, 2009, the U.S. Department of Transportation, Office of Inspector General (“OIG”) served upon our wholly-owned subsidiary, Granite Construction Northeast, Inc. (“Granite Northeast”), a United States District Court Eastern District of New York subpoena to testify before a grand jury by producing documents. The subpoena seeks all documents pertaining to the use of a Disadvantaged Business Enterprise (“DBE”) firm (the “Subcontractor”), and the Subcontractor’s use of a non-DBE lower tier subcontractor/consultant, on the Grand Avenue Bus Depot and Central Maintenance Facility for the Borough of Queens Project (the “Grand Avenue Project”), a Granite Northeast project. The subpoena also seeks any documents regarding the use of the Subcontractor as a DBE on any other projects and any other documents related to the Subcontractor or to the lower-tier subcontractor/consultant. We have complied with the subpoena and are fully cooperating with the OIG’s investigation. To date, Granite Northeast has not been notified that it is either a subject or target of the OIG’s investigation. Accordingly, we do not know whether any criminal charges or civil lawsuits will be brought or against whom, as a result of the investigation. Therefore, we cannot estimate what, if any, criminal or civil penalty or conditional assessment may result from this investigation.

Other Legal Proceedings/Government Inquiries

We are a party to a number of other legal proceedings arising in the normal course of business. From time to time, we also receive inquiries from public agencies seeking information concerning our compliance with government construction contracting requirements and related laws and regulations. We believe that the nature and number of these proceedings and compliance inquiries are typical for a construction firm of our size and scope. Our litigation typically involves claims regarding public liability or contract related issues. While management currently believes, after consultation with counsel, that the ultimate outcome of pending proceedings and compliance inquiries, individually and in the aggregate, will not have a material adverse affect on our financial position or overall trends in results of operations or cash flows, litigation is subject to inherent uncertainties. Were one or more unfavorable rulings to occur, there exists the possibility of a material adverse effect on our financial position, results of operations, cash flows and/or liquidity for the period in which the ruling occurs. In addition, our government contracts could be terminated, we could be suspended or debarred, or payment of our costs disallowed. While any one of our pending legal proceedings is subject to early resolution as a result of our ongoing efforts to settle, whether or when any legal

proceeding will be resolved through settlement is neither predictable nor guaranteed.

17. Business Segment Information

On August 31, 2009, we announced changes in our organizational structure. In conjunction with the restructuring, we changed our reportable business segments to reflect our lines of business rather than geographies, on which our segment reporting was previously based. Effective January 1, 2010, our new reportable segments are: Construction, Large Project Construction, Construction Materials and Real Estate. The prior period segment information presented below has been reclassified to conform to our new reportable segments.

The Construction segment performs various heavy civil construction projects with a large portion of the work focused on new construction and improvement of streets, roads, highways, bridges, site work and other infrastructure projects. These projects are typically bid-build projects completed within two years with a contract value of less than \$75 million.

The Large Project Construction segment focuses on large, complex infrastructure projects which are long-term in nature. These projects include major highways, mass transit facilities, bridges, tunnels, waterway locks and dams, pipelines, canals and airport infrastructure. This segment primarily includes bid-build, design-build and construction management/general contractor contracts, generally with contract values in excess of \$75 million.

The Construction Materials segment mines and processes aggregates and operates plants that produce construction materials for internal use and for sale to third parties.

The Real Estate segment purchases, develops, operates, sells and invests in real estate related projects and provides real estate services for the Company's operations.

The accounting policies of the segments are the same as those described in the Summary of Significant Account Policies contained in our 2009 Annual Report on Form 10-K. We evaluate segment performance based on gross profit or loss, and do not include overhead and non-operating income or expense. Segment assets include property and equipment, intangibles, inventory, equity in construction joint ventures and real estate held for development and sale.

(Unaudited)

18. Subsequent Events

On October 25, 2010, we publicly announced our work in progress on an Enterprise Improvement Plan that includes continued actions to reduce our cost structure, enhance operating efficiencies and strengthen our business to achieve long term profitable growth. During the fourth quarter of 2010, we initiated a reduction in force that affected approximately 13% of our salaried workforce and implemented several cost saving initiatives. We expect the cost savings from these efforts to benefit 2011 pre-tax income between \$36 million and \$40 million.

The Enterprise Improvement Plan also includes new business plans to orderly divest of our real estate investment business and certain fixed assets consistent with our business strategy to focus on our core competencies while enhancing operating efficiencies. During the fourth quarter of 2010, we will finalize business plans that are expected to result in changes to estimated cash flows of certain real estate projects and in commitments to divest of certain fixed assets.

The Company anticipates recognizing restructuring and impairment charges between \$99 million and \$145 million, the majority of which will be incurred during the fourth quarter of 2010. Of the total, approximately \$89 million to \$133 million are primarily related to non-cash impairment charges associated with the revision of estimated cash flows in certain projects of GLC's real estate portfolio and the expectation that certain materials related fixed assets will be sold within the next 12 months. The balance is associated with severance-related costs that will primarily be paid during the fourth quarter of 2010. The portions of the impairment charges allocable to noncontrolling interests on real estate projects are expected to be between \$19 million and \$23 million. The decision to sell these assets in future periods, and thus the amount and timing of the related impairment charges, is highly dependent upon market conditions and the Company's ability to optimize the return on sale of these assets.

We estimate the related tax benefits on our restructuring charges net of noncontrolling interests to be recognized at our combined federal and state statutory tax rate of approximately 40%.

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward-Looking Disclosure

From time to time, Granite makes certain comments and disclosures in reports and statements, including in this Quarterly Report on Form 10-Q, or statements made by its officers or directors, that are not based on historical facts, including statements regarding future events, occurrences, circumstances, activities, performance, outcomes and results, that may constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements are identified by words such as "future," "outlook," "assumes," "believes," "expects," "estimates," "anticipates," "intends," "plans," "appears," "may," "will," "should," "could," "would," "continue," and thereof or other comparable terminology or by the context in which they are made. In addition, other written or oral statements which constitute forward-looking statements have been made and may in the future be made by or on behalf of Granite. These forward-looking statements are estimates reflecting the best judgment of senior management and reflect our current expectations regarding future events, occurrences, circumstances, activities, performance, outcomes and results. These expectations may or may not be realized. Some of these expectations may be based on beliefs, assumptions or estimates that may prove to be incorrect. In addition, our business and operations involve numerous risks and uncertainties, many of which are beyond our control, which could result in our expectations not being realized or otherwise materially affect our business, financial condition, results of operations, cash flows and liquidity. Such risks and uncertainties include, but are not limited to, those more specifically described in our Annual Report on Form 10-K under "Item 1A. Risk Factors." Due to the inherent risks and uncertainties associated with our forward-looking statements, the reader is cautioned not to place undue reliance on them. The reader is also cautioned that the forward-looking statements contained herein speak only as of the date of this Quarterly Report on Form 10-Q and, except as required by law, we undertake no obligation to revise or update any forward-looking statements for any reason.

## Table of Contents

### Overview

We are one of the largest heavy civil contractors in the United States, engaged in the construction and improvement of streets, roads, highways, mass transit facilities, airport infrastructure, bridges, dams and other infrastructure-related projects. We produce construction materials for use and for sale to third parties through the use of our aggregate reserves and plant facilities. We also operate a real estate investment and development company. Our permanent offices are located in Alaska, Arizona, California, Florida, Nevada, New York, Texas, Utah and Washington.

Our construction contracts are obtained through competitive bidding in response to advertisements and other general solicitations by both public agencies and private parties and on a negotiated basis as a result of direct solicitation by private parties. Our bidding activity is affected by such factors as the nature and volume of advertising and other solicitations, contract backlog, available personnel, current utilization of equipment and other resources, our ability to obtain necessary surety bonds and competitive considerations. Bidding activity, contract backlog and revenue resulting from the award of new contracts may vary significantly from period to period.

The three primary economic drivers of our business are (1) the overall health of the economy, (2) federal, state and local public funding levels, and (3) population growth resulting in public and private development. A stagnant or declining economy will generally result in reduced demand for construction and construction materials in the private sector. This reduced demand increases competition for private sector projects and will ultimately also increase competition in the public sector as companies migrate from bidding on scarce private sector work to projects in the public sector. Greater competition can reduce our revenues and/or have a downward impact on our gross profit margins. In addition, a stagnant or declining economy tends to produce less tax revenue for public agencies, thereby decreasing a source of funds available for spending on public infrastructure improvements. Some funding sources that have been specifically earmarked for infrastructure spending, such as diesel and gasoline taxes, are not as directly affected by a stagnant or declining economy, unless actual consumption is reduced. However, even these can be temporarily at risk as state and local governments struggle to balance their budgets. Additionally, high fuel prices can have a dampening effect on consumption, resulting in overall lower tax revenue. Conversely, increased levels of public funding as well as an expanding or robust economy will generally increase demand for our services and provide opportunities for revenue growth and margin improvement.

### New Reporting Structure

On August 31, 2009, we announced changes in our organizational structure designed to improve operating efficiencies and better position the Company for long-term growth. In conjunction with the restructuring, we changed our reportable business segments to align with our lines of business rather than geographies, on which our segment reporting was previously based. Effective January 1, 2010 our new reportable segments are: Construction, Large Project Construction, Construction Materials and Real Estate. Additionally, we reclassified certain costs between cost of revenue and selling, general and administrative expenses to better represent our direct cost of revenue. These reclassifications did not have a significant impact on our previously reported net operating results.

Our market sector information reflects three regions defined as follows: 1) California; 2) West, excluding California, which includes our offices in Alaska, Nevada, Utah and Washington; and 3) East which includes our offices in Arizona, Florida, New York and Texas. Each of these regions includes operations from our Construction, Large Project Construction, and Construction Materials lines of business.

### Enterprise Improvement Plan

On October 25, 2010, we publicly announced our work in progress on an Enterprise Improvement Plan that includes continued actions to reduce our cost structure, enhance operating efficiencies and strengthen our business to achieve long term profitable growth. During the fourth quarter of 2010, we initiated a reduction in force that affected approximately 13% of our salaried workforce and implemented several cost saving initiatives. We expect the cost savings from these efforts to benefit 2011 pre-tax income between \$36 million and \$40 million.

The Enterprise Improvement Plan also includes new business plans to orderly divest of our real estate investment business and certain fixed assets consistent with our business strategy to focus on our core competencies while enhancing operating efficiencies. During the fourth quarter of 2010, we will finalize business plans that are expected to result in changes to estimated cash flows of certain real estate projects and in commitments to divest of certain fixed assets. We estimate that implementation of the Enterprise Improvement Plan will result in impairment charges related to approximately one-third of our real estate projects. An evaluation of entitlement status, market conditions, existing offers to purchase, cost of construction, debt load, development schedule, status of joint venture partners and other factors specific to the remaining two-thirds of the projects, is expected to result in no events or changes in circumstances that would indicate the carrying amounts of these projects may not be recoverable (see Note 8 of the "Notes to the Condensed Consolidated Financial Statements").

The Company anticipates recognizing restructuring and impairment charges between \$99 million and \$145 million, the majority of which will be incurred during the fourth quarter of 2010. Of the total, approximately \$89 million to \$133 million are primarily related to non-cash impairment charges associated with the revision of estimated cash flows in certain projects of GLC's real estate portfolio and the expectation that certain materials related fixed assets will be sold within the next 12 months. The balance is associated with severance-related costs that will primarily be paid during the fourth quarter of 2010. The portions of the impairment charges allocable to noncontrolling interests on real estate projects are expected to be between \$19 million and \$23 million. The decision to sell these assets in future periods, and thus the amount and timing of the related impairment charges, is highly dependent upon market conditions and the Company's ability to optimize the return on sale of these assets.

Table of Contents

## Current Economic Environment and Outlook

Market conditions remained very challenging during the third quarter of 2010. Weak demand for both public sector infrastructure projects and private sector commercial and residential development continued to create intense competition for construction contracts and sales of construction materials in both sectors. The recent recession, credit crisis and related turmoil in the global financial system has had, and is expected to continue to have, an adverse effect on our business, financial position, results of operations, cash flows and liquidity. In particular, declining tax revenues, budget deficits, financing constraints and competing priorities have resulted in significant cutbacks in new infrastructure projects in the public sector. In addition, levels of new commercial and residential construction projects have declined significantly due to an oversupply of existing inventories of commercial and residential properties, declining property values and a restrictive financing environment.

This reduction in demand for construction and construction materials in both the public and private sector has resulted in intensified competition in both sectors, which has adversely affected both our revenues and profit margins. These factors have also adversely affected the financial position, results of operations and cash flows of our real estate investment and development business. We expect these challenging conditions to persist into 2011, and possibly beyond, pending improvement in the overall level of economic activity, the level of tax revenue collected by public agencies, the oversupply of existing commercial and residential properties in the market and the availability of financing to both the public and private sectors.

Although the procurement of Large Project Construction projects is competitive, the scale and complexity of the large jobs precludes many smaller contractors from bidding such work. Efforts made to increase our revenues from the Large Project Construction segment have resulted in an increase in backlog when compared to June 30, 2010. We are currently tracking over \$10 billion of Large Project bidding opportunities.

Pent-up demand for construction materials resulting from the wet weather experienced early in the season contributed to improved revenues and profits in the third quarter. However, the slow pace of residential and commercial development activity is expected to have a continued dampening impact on our Construction Materials segment.

## Results of Operations

Interim results are subject to significant seasonal variations and the results of operations for the three and nine months ended September 30, 2010 are not necessarily indicative of the results to be expected for the full year.

Comparative Financial Summary (in thousands)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2010	2009	2010	2009
Total revenue	\$ 670,850	\$720,284	\$1,345,737	\$ 1,528,731
Gross profit	76,155	105,657	131,567	258,288

West, excluding California:								
Public sector	199,711	48.7	255,012	54.7	339,419	46.6	417,100	45.7
Private sector	10,005	2.4	9,443	2.0	17,419	2.4	25,114	2.8
East:								
Public sector	28,603	7.0	34,503	7.4	72,963	10.0	94,771	10.4
Private sector	534	0.1	1,082	0.2	1,877	0.3	3,588	0.4
Total	\$409,989	100.0 %	\$ 466,605	100.0%	\$ 729,118	100.0 %	\$ 912,110	100.0 %

Revenue for the three and nine months ended September 30, 2010 decreased by \$56.6 million, or 12.1%, and \$183.0 million, or 20.1%, respectively, compared to the same periods in 2009. These decreases were due to reductions in available work in both the public and private sectors caused by the weak demand and a highly competitive bidding environment for available work. As a result, we were engaged in fewer public sector projects during the nine months ended September 30, 2010 than in the comparable period of 2009. In addition, 2009 revenue included \$82.9 million from federally funded security projects that were substantially completed in 2009.

## Large Project

Construction Revenue <sup>1</sup> (dollars in thousands)	Three Months Ended September 30,				Nine Months Ended September 30,			
	2010		2009		2010		2009	
California	\$ 11,305	6.7%	\$ 13,933	7.7%	\$38,103	8.9 %	\$ 39,797	8.7 %
West, excluding California								
	17,940	10.6	26,958	14.9	37,928	8.8	44,131	9.7
East	140,727	82.7	140,280	77.4	353,594	82.3	372,073	81.6
Total	\$ 169,972	100.0 %	\$ 181,171	100.0 %	\$ 429,625	100.0 %	\$ 456,001	100.0 %

<sup>1</sup>All revenue is earned from the public sector.

Revenue for the three and nine months ended September 30, 2010 decreased by \$11.2 million, or 6.2%, and \$26.4 million, or 5.8%, respectively, compared to the same periods in 2009. Revenue for the three months ended September 30, 2010 decreased primarily due to lower production levels on a project in Oregon that slowed to address site condition issues and a project in Missouri that is nearing completion. Additionally, revenue for the nine months ended September 30, 2009 included the positive impact of a \$17.3 million settlement related to a project in the Northeast. We did not benefit from a similar settlement in 2010. Lower ratios of consolidated to unconsolidated joint ventures adversely affected revenue by approximately \$8.6 million and \$26.7 million for the three and nine months ended September 30, 2010, respectively, compared to the prior year. Only Granite's pro rata share of revenues from unconsolidated joint ventures is included in revenue.

Table of Contents

## Construction

## Materials

Revenue (dollars in thousands)	Three Months Ended September 30,				Nine Months Ended September 30,			
	2010		2009		2010		2009	
California	\$ 45,491	51.6%	\$ 40,477	56.6%	\$105,737	60.3 %	\$ 97,214	61.3 %
West, excluding California	35,440	40.2	28,379	39.7	53,581	30.5	50,140	31.6
East	7,197	8.2	2,671	3.7	16,063	9.2	11,334	7.1
Total	\$ 88,128	100.0 %	\$ 71,527	100.0 %	\$ 175,381	100.0 %	\$ 158,688	100.0 %

Revenue for the three and nine months ended September 30, 2010 increased by \$16.6 million, or 23.2%, and \$16.7 million, or 10.5%, respectively, compared to the same periods in 2009. The quarter-over-quarter increases were due to fulfilling pent-up demand for materials created by the wet weather conditions experienced in the first half of the year. Additionally, we generated sales from new facilities in 2010 that were not operational in 2009.

## Real Estate Revenue

Real Estate revenue for the three and nine months ended September 30, 2010 increased by \$1.8 million and \$9.7 million, respectively, compared with the same periods in 2009. The increase during the three months was due to the completion of a sales transaction and the recognition of deferred revenue on projects in Texas. The increase for the nine months was due to the Texas transactions and the sale of a commercial property in California. We continue to experience limited sales activity due to the slow recovery of the real estate market.

## Contract Backlog

Our contract backlog consists of the remaining unearned revenue on awarded contracts, including 100% of our consolidated joint venture contracts and our proportionate share of unconsolidated joint venture contracts. We include a construction project in our contract backlog at such time as a contract is awarded and funding is in place, with the exception of certain federal government contracts for which funding is appropriated on a periodic basis. Substantially all of the contracts in our contract backlog may be canceled or modified at the election of the customer; however, we have not been materially adversely affected by contract cancellations or modifications in the past.

The following tables illustrate our contract backlog as of the respective dates:

## Total Contract Backlog

## by Segment

(dollars in thousands)	September 30, 2010		June 30, 2010		September 30, 2009	
Construction	\$ 497,089	30.3%	\$ 594,214	38.3%	\$ 439,226	27.2 %
Large Project Construction	1,141,453	69.7	957,080	61.7	1,173,042	72.8
Total	\$ 1,638,542	100.0%	\$ 1,551,294	100.0%	\$ 1,612,268	100.0%

Table of Contents

## Construction Contract

## Backlog

(dollars in thousands)	September 30, 2010		June 30, 2010		September 30, 2009	
California:						
Public sector	\$ 194,889	39.2%	\$ 241,761	40.7%	\$ 162,659	37.0%
Private sector	9,488	1.9	10,043	1.7	10,219	2.3
West, excluding California:						
Public sector	205,992	41.5	272,565	45.9	217,084	49.4
Private sector	9,611	1.9	6,465	1.1	7,220	1.7
East:						
Public sector	75,416	15.2	61,922	10.4	39,850	9.1
Private sector	1,693	0.3	1,458	0.2	2,194	0.5
Total	\$ 497,089	100.0%	\$ 594,214	100.0%	\$ 439,226	100.0%

Contract backlog of \$497.1 million at September 30, 2010 was \$97.1 million, or 16.3%, lower than at June 30, 2010 and \$57.9 million, or 13.2%, higher than at September 30, 2009. The decrease from June 30, 2010 was primarily due to progress on existing projects offset by an improved success rate on bidding activity in California and Arizona including two highway improvement projects totaling \$43.6 million. The increase from September 30, 2009 was primarily driven by an improved success rate on bidding activity in California and Arizona, offset by lower beginning backlog coming into the year.

## Large Project Contract

Backlog<sup>1</sup>

(dollars in thousands)	September 30, 2010		June 30, 2010		September 30, 2009	
California	\$ 176,189	15.4%	\$ 32,568	3.4%	\$ 60,747	5.2%
West, excluding California						
California	138,138	12.1	53,868	5.6	72,068	6.1
East	827,126	72.5	870,644	91.0	1,040,227	88.7
Total	\$ 1,141,453	100.0%	\$ 957,080	100.0%	\$ 1,173,042	100.0%

<sup>1</sup>All contract backlog is related to contracts with public agencies.

Contract backlog of \$1.1 billion at September 30, 2010 was \$184.4 million, or 19.3%, higher than at June 30, 2010, and \$31.6 million, or 2.7%, lower than at September 30, 2009. The increase in backlog from June 30, 2010 was primarily due to an improved success rate on bidding activity for work in the west, including awards of \$77.7 million for a rail project in California and \$47.7 million for our portion of the work on a new freeway, transit and trail system in Utah. During the three months ended September 30, 2010, we were also awarded a new auxiliary spillway control structure project in California, that is an internal partnership with \$75.5 million and \$50.4 million included in California and East contract backlog, respectively. The decrease in backlog from September 30, 2009 reflects progress made on large construction projects during the year. In October 2010 we received a notice to proceed for approximately \$23.0 million for our portion of a light rail project in Houston and an award for approximately \$306 million for a highway expansion and reconstruction project in Washington, both of which will be booked into contract backlog in the fourth quarter of 2010.

Included in contract backlog as of September 30, 2010, June 30, 2010, and September 30, 2009 is \$98.0 million, \$69.7 million and \$133.2 million, respectively, associated with noncontrolling interests.

Table of Contents

## Gross Profit (Loss)

The following table presents gross profit (loss) by business segment for the respective periods:

(dollars in thousands)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2010	2009	2010	2009
Construction	\$ 44,666	\$ 72,635	\$ 69,413	\$ 160,612
Percent of segment revenue	10.9%	15.6%	9.5 %	17.6 %
Large Project Construction	18,316	25,221	49,634	81,396
Percent of segment revenue	10.8	13.9	11.6	17.8
Construction Materials	12,137	8,351	9,492	17,620
Percent of segment revenue	13.8	11.7	5.4	11.1
Real Estate	1,036	(550)	3,028	(1,340 )
Percent of segment revenue	37.5	-56.1	26.1	-69.4
Total gross profit	\$ 76,155	\$ 105,657	\$ 131,567	\$ 258,288
Percent of total revenue	11.4%	14.7%	9.8 %	16.9 %

We defer profit recognition until a project reaches 25% completion. In the case of large, complex design/build projects, we may defer profit recognition beyond the point of 25% completion until such time as we believe we have enough information to make a reasonably dependable estimate of contract revenue and cost. Because we have a large number of smaller projects at various stages of completion in our Construction segment, this policy generally does not impact gross profit significantly on a quarterly or annual basis. However, our Large Project Construction segment has fewer projects in process at any given time and gross profit as a percent of revenue can vary significantly in periods where one or several projects reach our percentage of completion threshold and the deferred profit is recognized or, conversely, in periods where contract backlog is growing rapidly and a higher percentage of projects are in their early stages with no associated gross profit recognition.

Revenue from projects that have not yet reached our profit recognition threshold is as follows:

(in thousands)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2010	2009	2010	2009
Construction	\$ 20,434	\$ 13,018	\$21,176	\$ 14,804
Large Project Construction	44,069	20,817	105,589	31,883
Total revenue from contracts with deferred profit	\$ 64,503	\$ 33,835	\$126,765	\$ 46,687

We do not recognize revenue from contract claims until we have a signed agreement and payment is assured, nor do we recognize revenue from contract change orders until the owner has agreed to the change order in writing. However, we do recognize the costs related to any contract claims or pending change orders in our forecasts when costs are incurred, and revisions to estimated total costs are reflected as soon as the obligation to perform is determined. As a result, our gross profit as a percent of revenue can vary depending on the magnitude and timing of settlement claims and change orders.

When we experience significant contract forecast changes, we undergo a process that includes reviewing the nature of the changes to ensure that there are no material amounts that should have been recorded in a prior period rather than as a change in estimate for the current period. In our review of these changes for the three and nine months ended September 30, 2010, we did not identify any material amounts that should have been recorded in a prior period.

Table of Contents

Construction gross profit for the three and nine months ended September 30, 2010 decreased \$28.0 million and \$91.2 million, respectively, compared to the same periods in 2009. The decreases were due to lower revenues, a highly competitive bidding environment and lower margins in beginning backlog. In addition, the decreases were due in part to the recognition, in 2009, of deferred profit on a design/build project that reached the point of profit recognition during the first nine months of 2009.

Large Project Construction gross profit for the three and nine months ended September 30, 2010 decreased \$6.9 million and \$31.8 million, respectively, compared to the same periods in 2009. Gross profit for the nine months ended September 30, 2010 was impacted by design issues and lower productivity than originally anticipated on two projects. During the nine months ended September 30, 2010, \$105.6 million of revenue was recognized on projects which have not yet reached the profit recognition threshold compared to \$31.9 million for the same period in 2009. Additionally, the net impact of a negotiated claims settlement on a project in the Northeast added \$17.3 million to gross profit during 2009. On a large highway project in mountainous terrain in Oregon, several hillsides have experienced unanticipated ground movement. In some locations, the ground movements have caused damage to completed portions of bridge structures. The Company and the project owner, the Oregon Department of Transportation, are discussing the technical issues associated with these ground movements and identifying and analyzing possible remedial work plans to address these developments. At this time, the Company cannot reasonably estimate the impact, if any, these developments may have on the projected financial results for this project. Therefore, no revisions in estimates were made in the three and nine months ended September 30, 2010 in relation to these developments.

Construction Materials gross profit increased \$3.8 million for the three months ended September 30, 2010 and decreased \$8.1 million for the nine months ended September 30, 2010 compared to the same periods in 2009. The increase for the three months was due to higher demand and higher sales volume for construction materials resulting from the pent-up demand created by wet weather earlier in the year. The decrease in the nine months was due primarily to higher fixed costs related to new facilities that became operational late in 2009 without a corresponding increase in sales.

Real Estate gross profit was \$1.0 million and \$3.0 million for the three and nine months ended September 30, 2010, respectively, compared to gross losses of \$0.6 million and \$1.3 million in the same periods of 2009. Gross profit during the first nine months of 2010 increased primarily due to the completion of a sales transaction and the recognition of deferred revenue on projects in Texas, and the sale of a commercial property in California.

Table of Contents

## Selling, General and Administrative Expenses

The following table presents the components of selling, general and administrative expenses for the respective periods:

(in thousands)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2010	2009	2010	2009
<b>Selling</b>				
Salaries and related expenses	\$ 9,671	\$ 11,823	\$ 35,925	\$ 36,603
Other selling expenses	3,428	6,290	8,850	13,534
Total selling	13,099	18,113	44,775	50,137
<b>General and administrative</b>				
Salaries and related expenses	13,556	17,357	51,090	57,231
Incentive compensation and discretionary profit sharing	2,701	8,436	5,985	16,153
Restricted stock amortization	3,210	3,148	9,589	7,577
(Recovery of) provision for doubtful accounts, net	(270)	(458)	136	(3,844 )
Other general and administrative expenses	14,864	14,354	42,234	44,370
Total general and administrative	34,061	42,837	109,034	121,487
Total selling, general and administrative	\$ 47,160	\$ 60,950	\$ 153,809	\$ 171,624
Percent of revenue	7.0%	8.5%	11.4 %	11.2 %

Selling, general and administrative expenses for the three and nine months ended September 30, 2010 decreased \$13.8 million, or 22.6% and \$17.8 million, or 10.4%, respectively, compared to the same periods in 2009.

**Selling Expenses**

Selling expenses include the costs of business and aggregate resource development, estimating and bidding. Selling compensation can vary due to the number of project employees assigned to estimating and bidding activities. As projects are completed or the level of work slows down, we temporarily redeploy project employees to work on bidding activities of new projects, moving their salaries and related costs from cost of revenues to selling expenses.

Total selling expenses for the three and nine months ended September 30, 2010 decreased \$5.0 million, or 27.7%, and \$5.4 million, or 10.7%, respectively, compared to the same periods in 2009, as 2009 included costs for consulting services related to bidding activity that were not incurred in 2010.

**General and Administrative Expenses**

General and administrative expenses include costs related to our operational offices that are not allocated to direct contract costs and expenses related to our corporate offices. Total general and administrative expenses for the three and nine months ended September 30, 2010 decreased \$8.8 million and \$12.5 million, respectively, compared to the same periods in 2009 as we continue to reduce our overall cost structure. Incentive compensation for the three and nine months ended September 30, 2010 decreased \$5.7 million and \$10.2 million, respectively, due to lower profits. In addition, 2009 included the recovery of \$0.4 million and \$4.2 million, respectively, on an account that had been reserved for in previous years.

Other general and administrative expenses include information technology, occupancy, office supplies, depreciation, travel and entertainment, outside services, training, other miscellaneous expenses and restructuring charges none of

which individually exceeded 10% of total selling, general and administrative expenses. During the three months ended September 30, 2010, we recorded restructuring charges of approximately \$2.0 million associated with a reduction in force. The reduction in force occurred in July 2010 and has been fully paid as of September 30, 2010.

Table of Contents

## Other Income

The following table presents the components of other income for the respective periods:

(in thousands)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2010	2009	2010	2009
Interest income	\$ 2,110	\$ 744	\$ 4,147	\$ 3,914
Interest expense	(547)	(4,245)	(7,294)	(10,586)
Equity in income (loss) of affiliates	529	4,021	(177)	4,360
Other income, net	1,023	3,062	5,854	8,278
Total other income	\$ 3,115	\$ 3,582	\$ 2,530	\$ 5,966

Interest expense decreased during the three and nine months ended September 30, 2010 primarily due to a decrease in federal and state look back interest expense of \$2.5 million. Look back interest is the interest due or receivable on income tax related to revisions in estimated profitability on long-term construction projects. The changes in equity in income (loss) of affiliates during the three and nine months ended September 30, 2010 were primarily due to decreases in income earned on our investment in an entity that owns and operates an asphalt terminal in Nevada. Other income, net during the nine months ended September 30, 2010 consisted primarily of \$2.9 million of previously deferred income related to the sale of an investment in an affiliate in 2008. Other income, net during the three and nine months ended September 30, 2009 consisted primarily of a gain of approximately \$1.7 million and \$6.1 million, respectively, related to the sale of gold, a by-product of one of our aggregate extraction operations.

## Income Taxes

The following table presents the (benefit from) provision for income taxes for the respective periods:

(dollars in thousands)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2010	2009	2010	2009
(Benefit from) provision for income taxes	\$ (8,026)	\$ 13,300	\$ (11,233)	\$ 26,316
Effective tax rate	(22.8)%	26.7%	135.4%	26.4%

We are unable to make a reliable estimate of our annual effective tax rate (“ETR”) because we are anticipating marginal 2010 pre-tax income (“PTI”) for the year, excluding any restructuring charges (See Note 18 of “Notes to the Condensed Consolidated Financial Statements”) which are considered discrete to the fourth quarter, and have significant permanent differences (e.g. non-controlling interests). Insignificant changes in our forecasted 2010 PTI result in wide variability of our calculated annual ETR due to the relationship of PTI and permanent differences. Therefore, we are unable to determine a reliable estimate of our 2010 annual ETR. As a result, we calculated our income tax (benefit) using the discrete method and computed our year-to-date ETR by utilizing actual results of operations.

Our ETR decreased to (22.8)% for the three months ended September 30, 2010 from 26.7% and increased to 135.4% for the nine months ended September 30, 2010 from 26.4% for the same periods in 2009, respectively. The change for the three and nine months ended September 30, 2010 from the corresponding periods in 2009 was primarily due to the effect from non-controlling interests as a percent of PTI, as non-controlling interests are not subject to income taxes on a stand-alone basis.

For the three and nine months ended September 30, 2009, we calculated our income tax provision by estimating our annual effective tax rate and applying that rate to our year-to-date ordinary earnings. The effect of changes in enacted tax laws, tax rates or tax status was recognized in the interim period in which the change occurred.

#### Noncontrolling Interests

The following table presents the amount attributable to noncontrolling interests in consolidated subsidiaries for the respective periods:

(in thousands)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2010	2009	2010	2009
Amount attributable to noncontrolling interests	\$ (4,620)	\$ (5,940)	\$ (11,902 )	\$ (15,725)

The amount attributable to noncontrolling interests represents the noncontrolling owners' share of the income or loss of our consolidated construction joint ventures and real estate development entities. The balance for the three and nine months ended September 30, 2010 decreased compared to the same periods in 2009 as activity on joint venture projects neared completion.

Table of Contents

## Liquidity and Capital Resources

We believe our cash and cash equivalents, short-term investments and cash generated from operations will be sufficient to meet our expected working capital needs, capital expenditures, financial commitments, cash dividend payments, and other liquidity requirements associated with our existing operations through the next twelve months. If we experience a prolonged change in our business operating results or make a significant acquisition, we may need to acquire additional sources of financing, which, if available, may be limited by the terms of our existing debt covenants, or may require the amendment of our existing debt agreements.

The following table presents our cash, cash equivalents and marketable securities, including amounts from our consolidated joint ventures, as of the respective dates:

(in thousands)	September 30, 2010	December 31, 2009	September 30, 2009
Cash and cash equivalents excluding consolidated joint ventures	\$ 154,487	\$ 216,518	\$250,298
Consolidated joint venture cash and cash equivalents	103,367	122,438	121,136
Total consolidated cash and cash equivalents	257,854	338,956	371,434
Short-term and long-term marketable securities <sup>1</sup>	130,464	119,385	90,410
Total cash, cash equivalents and marketable securities	\$ 388,318	\$ 458,341	\$ 461,844

<sup>1</sup>See Note 4 of “Notes to the Condensed Consolidated Financial Statements” for the composition of our marketable securities.

Our primary sources of liquidity are cash and cash equivalents and marketable securities. We may also from time to time issue and sell equity, debt or hybrid securities or engage in other capital markets transactions.

Our cash and cash equivalents consisted of commercial paper, deposits and money market funds held with established national financial institutions. Marketable securities consist of municipal bonds, commercial paper, U.S. government and agency obligations, and mutual funds. Cash and cash equivalents held by our consolidated joint ventures represents the working capital needs of each joint venture’s project. The decision to distribute joint venture cash must generally be made jointly by all of the partners and, accordingly, these funds generally are not available for the working capital or other liquidity needs of Granite.

Our principal uses of liquidity are paying the costs and expenses associated with our operations, servicing outstanding indebtedness, making capital expenditures and paying dividends on our capital stock. We may also from time to time prepay or repurchase outstanding indebtedness, and acquire assets or businesses that are complementary to our operations.

Table of Contents

Cash Flows (in thousands)	Nine Months Ended September 30,	
	2010	2009
Net cash provided by (used in):		
Operating activities	\$ 10,566	\$ 58,253
Investing activities	(34,405)	(103,837)
Financing activities	(57,263)	(43,825)

Cash provided by operating activities for the nine months ended September 30, 2010 decreased \$47.7 million when compared to the same period in 2009. This decrease was primarily driven by our low net income and was partially offset by a more favorable change in working capital items in 2010 as compared to 2009.

Cash used in investing activities for the nine months ended September 30, 2010 was \$69.4 million lower than the same period in 2009. The change was primarily due to a \$45.6 million decrease in purchases of property and equipment related to the completion of two aggregate and asphalt plants in 2009, an \$11.9 million increase in net maturities of marketable securities and a \$7.1 million increase in proceeds from the sales of property and equipment. These increases were partially offset by a \$6.4 million investment in a corporation that designs and manufactures power generation and equipment systems during 2010.

Cash used in financing activities for the nine months ended September 30, 2010 increased \$13.4 million compared to the same period in 2009. The primary reasons for this change were a \$4.7 million increase in distributions to noncontrolling partners, net and a \$7.8 million decrease in long-term debt borrowings as a result of a reduction in real estate development activity.

#### Capital Expenditures

During the nine months ended September 30, 2010, we had capital expenditures of \$30.2 million compared to \$75.8 million during the same period in 2009. Major capital expenditures are typically for aggregate and asphalt production facilities, aggregate reserves, construction equipment, buildings and leasehold improvements and investments in our information technology systems. The timing and amount of such expenditures can vary based on the progress of planned capital projects, the type and size of construction projects, changes in business outlook and other factors. We currently anticipate investing up to \$40.0 million in capital expenditures during 2010.

## Table of Contents

### Credit Agreement

On June 22, 2010, we refinanced our credit agreement (the "Credit Agreement"), which provides for a committed, unsecured revolving credit facility of \$150.0 million. Borrowings under the Credit Agreement bear interest at LIBOR plus an applicable margin based upon certain financial ratios calculated quarterly, which resulted in a margin of 3.0% at September 30, 2010. At September 30, 2010, there were no revolving loans outstanding under the Credit Agreement, but there were standby letters of credit totaling approximately \$4.2 million. The letters of credit will expire between March and October 2011.

The most significant restrictive covenants under the terms of our Credit Agreement require the maintenance of a minimum Consolidated Tangible Net Worth, a minimum Consolidated Interest Coverage Ratio and a maximum Consolidated Leverage Ratio, the calculations and terms of which are defined by the Credit Agreement filed as Exhibit 10.1 to our Form 10-Q filed August 2, 2010. As of September 30, 2010, our Consolidated Tangible Net Worth was \$773.7 million, which exceeded the minimum of \$670.7 million, the Consolidated Interest Coverage Ratio was 9.51, which exceeded the minimum of 4.00 and the Consolidated Leverage Ratio was 2.02, which did not exceed the maximum of 2.75.

### Senior Notes Payable

As of September 30, 2010, senior notes payable in the amount of \$25.0 million were due to a group of institutional holders in nine equal annual installments which began in 2005 and bear interest at 6.96% per annum. The most significant covenants under the terms of the related agreement require the maintenance of a minimum Consolidated Net Worth, the calculations and terms of which are defined by the related agreement filed as Exhibit 10.3 to our Form 10-Q filed August 14, 2001. As of September 30, 2010, our Consolidated Net Worth was \$813.5 million, which exceeded the minimum of \$656.4 million.

In addition, as of September 30, 2010, senior notes payable in the amount of \$200.0 million were due to a second group of institutional holders in five equal annual installments beginning in 2015 and bear interest at 6.11% per annum. The most significant covenants under the terms of the related agreement require the maintenance of a minimum Consolidated Net Worth, the calculations and terms of which are defined by the related agreement filed as Exhibit 10.1 to our Form 8-K filed January 31, 2008. As of September 30, 2010, our Consolidated Net Worth was \$813.5 million, which exceeded the minimum of \$667.3 million.

### Surety Bonds and Real Estate Mortgages

We are generally required to provide various types of surety bonds that provide an additional measure of security under certain public and private sector contracts. At September 30, 2010, approximately \$1.6 billion of our contract backlog was bonded. Performance bonds do not have stated expiration dates; rather, we are generally released from the bonds after the owner accepts the work performed under contract. The ability to maintain bonding capacity to support our current and future level of contracting requires that we maintain cash and working capital balances satisfactory to our sureties.

A significant portion of our real estate held for development and sale is secured by mortgages. All of this indebtedness is non-recourse to Granite, but is recourse to the real estate entities that incurred the indebtedness. These mortgages are typically renegotiated to reflect the evolving nature of the real estate projects as they progress through acquisition, entitlement and development. Modification of mortgage terms may include changes in loan-to-value ratios requiring the real estate entities to repay portions of the debt. During the three and nine months ended September 30, 2010, we provided additional funding of \$0.2 million and \$3.0 million, respectively, to these real estate entities to facilitate mortgage refinancing. As of September 30, 2010, the principal amount of debt of our real estate entities secured by

mortgages was \$55.6 million of which \$39.2 million was included in current liabilities and \$16.4 million was included in long-term liabilities on our condensed consolidated balance sheet.

#### Covenants and Events of Default

Our debt agreements require us to comply with various affirmative, restrictive and financial covenants, including the financial covenants described above. Our failure to comply with any of these covenants, or to pay principal, interest or other amounts when due thereunder, would constitute an event of default under the applicable debt agreements. Under certain circumstances, the occurrence of an event of default under one of our debt agreements (or the acceleration of the maturity of the indebtedness under one of our debt agreements) would constitute an event of default under one or more of our other debt agreements, and would permit the acceleration of our indebtedness under such other debt agreement or agreements.

As of September 30, 2010, we were in compliance with the covenants contained in our debt agreements, and we are not aware of any material non-compliance by any of our unconsolidated entities with the covenants contained in their debt agreements. Based on our current expectations with respect to our future results of operations, we believe that it is reasonably likely that, absent obtaining an amendment of our Credit Agreement or other relief from our lenders, we will cease to be in compliance with certain financial covenants contained in our Credit Agreement as early as the fourth quarter of 2010.

We are currently engaged in discussions with our lenders regarding an amendment of the Credit Agreement. However, we cannot provide assurance as to whether, when or the terms upon which we will reach an agreement with our lenders regarding amendment of the Credit Agreement.

If we are unable to successfully negotiate an amendment to the Credit Agreement prior to breaching any financial covenants, we may elect to terminate the Credit Agreement. If we were to terminate, we would no longer be entitled to borrow under the Credit Agreement and the lenders would require that any letters of credit under the Credit Agreement be cash collateralized. As of September 30, 2010, there were no revolving loans outstanding under the Credit Agreement. However, if there were amounts outstanding at the time of a breach, they would become immediately due and payable.

## Table of Contents

### Share Purchase Program

In 2007, our Board of Directors authorized us to purchase up to \$200.0 million of our common stock at management's discretion. As of September 30, 2010, \$64.1 million was available for purchase. We did not purchase shares under the share purchase program in any of the periods presented, and we do not intend to purchase shares under the program in the foreseeable future.

### Recent Accounting Pronouncements

See Note 2 of the "Notes to the Condensed Consolidated Financial Statements" for a description of recent accounting pronouncements, including the expected dates of adoption and effects on our condensed consolidated balance sheets, statements of operations and statements of cash flows.

### Website Access

Our website address is [www.graniteconstruction.com](http://www.graniteconstruction.com). On our website we make available, free of charge, our annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and all amendments to those reports as soon as reasonably practicable after such material is electronically filed with or furnished to the US Securities and Exchange Commission. The information on our website is not incorporated into, and is not part of, this report. These reports, and any amendments to them, are also available at the website of the US Securities and Exchange Commission, [www.sec.gov](http://www.sec.gov).

### Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

3.

There was no significant change in our exposure to market risks since December 31, 2009.

### Item 4. CONTROLS AND PROCEDURES

4.

Our management carried out, as of September 30, 2010, with the participation of our Chief Executive Officer and our Chief Financial Officer, an evaluation of the effectiveness of our disclosure controls and procedures, as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Based on this evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as of September 30, 2010, our disclosure controls and procedures were effective to provide reasonable assurance that material information required to be disclosed by us in reports we file under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC rules and forms and that information required to be disclosed by us in the reports we file or submit under the Exchange Act is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

During the third quarter of 2010, there were no changes in our internal controls over financial reporting that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

## Item OTHER INFORMATION

5.

On July 21, 2010, the Dodd-Frank Wall Street Reform and Consumer Protection Act (the “Dodd-Frank Act”) was enacted. Pursuant to Section 1503 of the Dodd-Frank Act, operators of a coal or other mine that are also required to file reports under Section 13(a) of the Exchange Act must include in each periodic report filed with the SEC certain information regarding health and safety violations at its mines. The requirements of Section 1503 of the Dodd-Frank Act became effective for us during the quarter ended September 30, 2010.

We operate forty-four surface mines in the western United States to produce construction aggregates. The operation of our mines is subject to regulation by the federal Mine Safety and Health Administration (“MSHA”) under the Federal Mine Safety and Health Act of 1977 (the “Mine Act”). During the third quarter of 2010, MSHA conducted seventeen inspections at fifteen of our mines. There were no reportable citations or orders following nine of those inspections. The chart below contains information (dollars in thousands) regarding certain mining safety and health citations or orders that MSHA issued during the quarter ended September 30, 2010 with respect to our mining operations. With respect to this information, it should be noted that: (i) the number of citations and orders will vary depending on the size of the mine, (ii) the number of citations issued will vary from inspector to inspector and mine to mine, and (iii) citations and orders can be contested and appealed, and in that process, may be reduced in severity and amount, and are sometimes dismissed.

Name of Mine	Section 1041	Section 104(d)2	Proposed Assessments <sup>3</sup>
Bradshaw Pit	2	-	\$ 1

Edgar Filing: GRANITE CONSTRUCTION INC - Form 10-Q

Felton Quarry	2	-	-
Fountain Springs	3	-	1
Highway 175 Aggregate	2	-	-
Lockwood Quarry	1	1	2
Alaska Portable Crusher #1	2	-	-
Sacramento Portable Crusher #1	1	-	1
Wade Sand Pit	1	-	-
Total	14	1	\$ 5

1The total number of violations of mandatory health or safety standards that could significantly and substantially contribute to the cause and effect of a coal or other mine safety or health hazard under Section 104 of the Mine Act for which the operator received a citation from the MSHA.

2The total number of citations and orders for unwarrantable failure of the mine operator to comply with mandatory health or safety standards under Section 104(d) of the Mine Act.

3The total dollar value of proposed assessments from the MSHA under such Mine Act.

During the third quarter of 2010, with respect to our mines, MSHA did not issue any orders under Section 104(b) of the Mine Act, did not identify any flagrant violations under Section 110(b)(2) of the Mine Act and did not issue any imminent danger orders under Section 107(a) of the Mine Act. We did not experience any mining-related fatalities in the third quarter of 2010. Furthermore, during the third quarter of 2010, we did not receive written notice of a pattern of violations of mandatory health or safety standards from MSHA or of the potential to have a pattern of violations of mandatory health or safety standards from MSHA. Three of the citations issued during the third quarter of 2010 are the subject of a formal appeal before the Federal Mine Safety and Health Review Commission.
