GENERAL CABLE CORPORATION REPORTS FIRST QUARTER RESULTS AND DECLARES DIVIDEND ON PREFERRED STOCK

HIGHLAND HEIGHTS, Ky.--(BUSINESS WIRE)--May 3, 2005--General Cable Corporation (NYSE:BGC) reported net income after preferred stock dividends for the first quarter ended April 1, 2005 of \$7.5 million, which was \$0.18 on a diluted per share basis. These results were up from a net loss of \$(3.4) million in the first quarter of 2004.

HIGHLIGHTS

- Net sales of \$554.2 million were up 7% versus metal-adjusted sales in the first quarter of 2004. All three reporting segments reported positive sales growth versus prior year.
- Gross margin increased by 290 basis points in the first quarter of 2005 versus the metal-adjusted gross margin, excluding rationalization charges, in the first quarter of 2004.
- Completed the acquisition of certain assets of Draka Comteq's business in North America.
- Earnings per share forecast for the second quarter of 2005 is between \$0.20 and \$0.25 per share on approximately \$580 to \$600 million in revenues.

In accordance with the terms of the Company's 5.75% Series A Convertible Redeemable Preferred Stock, the Board of Directors has declared a preferred stock dividend of approximately \$0.72 per share for the three-month period

Edgar Filing: GENERAL CABLE CORP /DE/ - Form 8-K

ending May 24, 2005. The dividend is payable on May 24, 2005 to preferred stockholders of record as of April 29, 2005.

"The pricing actions we implemented in the second half of 2004 have been effective, allowing us to make significant progress towards recovering the inflation in our raw materials and increasing our operating margin on metal-adjusted sales by about 260 basis points versus the operating margin, excluding rationalization charges, in the first quarter of 2004," commented Gregory B. Kenny, President and Chief Executive Officer of General Cable. "Additionally, this is the eighth consecutive quarter in which we have reported positive year-over-year metal-adjusted revenue growth, indicating the recovery which began in 2003 in the wire and cable industry is continuing into 2005. We do, however, continue to cautiously monitor the underlying demand from our traditional RBOC telecom cable customers and the rate of incursion of fiber into the telecom network."

FIRST QUARTER RESULTS

Net sales for the first quarter of 2005 were \$554.2 million, an increase of 7% versus metal-adjusted net sales in the 2004 first quarter. The average price per pound of copper and aluminum increased \$0.23 and \$0.14, respectively, from the first quarter of 2004 to the first quarter of 2005. The 2004 net sales have been increased in this comparison to put them on a consistent metal-adjusted basis with 2005 net sales. Overall net sales for the quarter were positively affected by about 2% as a result of favorable year-over-year changes in foreign currency exchange rates for the Company's international operations and by increased pricing across all segments.

GENERAL CABLE REPORTS FIRST QUARTER RESULTS

PAGE 2

Contributing to the 7% increase in metal-adjusted net sales was a 10% increase in Energy cables, where North American sales increased due to strong demand for both transmission and distribution cables. International sales were also up due to demand for distribution cables and favorable foreign currency exchange rates. Industrial & Specialty cables revenue was up 3% due to continuing strong demand for zero halogen cables in Europe and favorable foreign currency exchange rates. Revenue for Communications cables increased 12% reflecting increased sales in all product segments, including telephone exchange cables, LAN cables, electronics and OEM assemblies.

Selling, general and administrative expenses were \$43.2 million in the first quarter of 2005, up from \$38.7 million in the first quarter of 2004. The increase was in large measure due to the Company's Sarbanes-Oxley compliance activities and changes in foreign currency exchange rates. Reported SG&A was 7.8% of net sales in the first quarter of 2005, up from the 7.5% of metal-adjusted net sales reported in the first quarter of 2004.

The first quarter 2005 operating income of \$24.2 million was up from \$6.7 million in the first quarter of 2004. The 2004 results included a \$2.7 million charge related to the rationalization of certain industrial cable manufacturing facilities. Operating income for the first quarter of 2005 included approximately \$0.8 million of strike related costs and benefited from the price increases implemented in the second half of 2004 to recover rapidly increasing raw material costs.

Net interest expense was \$9.9 million for the first quarter of 2005, up from \$9.3 million in the same period in 2004 as a result of a higher level of debt. The Company's debt level has increased over the prior year due to higher working capital requirements as a result of increased sales volumes

Edgar Filing: GENERAL CABLE CORP /DE/ - Form 8-K

and pricing as the Company passed through significantly higher raw material costs to its customers. During the first quarter of 2005, the Company accrued approximately \$1.5 million in dividends on its preferred stock.

SECOND QUARTER 2005 OUTLOOK

"For the second quarter of 2005, we are estimating that revenue should be in the \$580 to \$600 million range, up approximately 5% from metal-adjusted revenues in the second quarter of 2004," said Kenny. "With the expectation that copper will average between \$1.45 and \$1.50 per pound, diluted earnings per share should be in the \$0.20 to \$0.25 range."

General Cable (NYSE:BGC), headquartered in Highland Heights, Kentucky, is a leader in the development, design, manufacture, marketing and distribution of copper, aluminum and fiber optic wire and cable products for the energy, industrial, specialty and communications markets. Certain statements in this press release, including without limitation, statements regarding future financial results and performance, plans and objectives, capital expenditures and the Company's or management's beliefs, expectations or opinions, are forward-looking statements. Actual results may differ materially from those statements as a result of factors, risks and uncertainties over which the Company has no control. Such factors include economic and political consequences resulting from the September 2001 terrorist attack and the war with Iraq, domestic and local country price competition, particularly in certain segments of the power cable market and other competitive pressures; general economic conditions, particularly in construction; changes in customer or distributor purchasing patterns in our business segments; the Company's ability to increase manufacturing capacity and productivity; the financial impact of any future plant closures; the Company's ability to successfully complete and integrate acquisitions and divestitures; the Company's ability to negotiate extensions of labor agreements on acceptable terms; the Company's ability to service debt requirements and maintain adequate domestic and international credit facilities and credit lines; the Company's ability to pay dividends on its preferred stock; the impact of unexpected future judgments or settlements of claims and litigation; the Company's ability to achieve target returns on investments in its defined benefit plans; the Company's ability to avoid limitations on utilization of net losses for income tax purposes; the cost of raw materials, including copper and aluminum; the Company's ability to increase its selling prices during periods of increasing raw material costs; the impact of foreign currency fluctuations; the impact of technological changes; and other factors which are discussed in the Company's Report on Form 10-K filed with the Securities and Exchange Commission on March 30, 2005, as well as periodic reports filed with the Commission.
