NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

(except where otherwise noted, all tabular amounts in millions, except share and per share amounts)

Item 1. Financial Statements

1. DESCRIPTION OF BUSINESS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Revlon, Inc. ("Revlon" and together with its subsidiaries, the "Company") conducts its business exclusively through its direct wholly-owned operating subsidiary, Revlon Consumer Products Corporation ("Products Corporation"), and its subsidiaries. Revlon is an indirect majority-owned subsidiary of MacAndrews & Forbes Incorporated (together with certain of its affiliates other than the Company, "MacAndrews & Forbes"), a corporation wholly-owned by Ronald O. Perelman.

The Company is a leading global beauty company with an iconic portfolio of brands that develops, manufactures, markets, distributes and sells an extensive array of color cosmetics; hair color, hair care and hair treatments; fragrances; skin care; beauty tools; men's grooming products; anti-perspirant deodorants; and other beauty care products across a variety of distribution channels.

Effective January 1, 2018, the Company implemented the brand-centric organizational structure previously announced in the Current Report on Form 8-K filed with the Securities and Exchange Commission ("SEC") on January 17, 2017. The new structure is built around four global brand teams: Revlon; Elizabeth Arden; Portfolio; and Fragrances, which represent the Company's four new reporting segments. As a result, prior period information for certain amounts has been reclassified to conform with the current period's presentation. For further information, refer to Note 13, "Segment Data and Related Information."

The accompanying Consolidated Financial Statements are unaudited. In management's opinion, all adjustments necessary for a fair presentation have been made. The Unaudited Consolidated Financial Statements include the Company's accounts after the elimination of all material intercompany balances and transactions. Certain prior year amounts have been reclassified to conform to the current year presentation.

The preparation of the Company's Unaudited Consolidated Financial Statements in conformity with U.S. generally accepted accounting principles ("U.S. GAAP") requires management to make estimates and assumptions that affect amounts of assets and liabilities and disclosures of contingent assets and liabilities as of the date of the financial statements and reported amounts of revenues and expenses during the periods presented. Actual results could differ from these estimates. Estimates and assumptions are reviewed periodically and the effects of revisions are reflected in the Unaudited Consolidated Financial Statements in the period they are determined to be necessary. Significant estimates made in the accompanying Unaudited Consolidated Financial Statements include, but are not limited to: allowances for doubtful accounts; inventory valuation reserves; expected sales returns and allowances; trade support costs; certain assumptions related to the valuation of acquired intangible and long-lived assets and the recoverability of goodwill, intangible and long-lived assets; income taxes, including deferred tax valuation allowances and reserves for estimated tax liabilities; restructuring costs; and certain estimates and assumptions used in the calculation of the net periodic benefit (income) costs and the projected benefit obligations for the Company's pension and other post-retirement plans, including the expected long-term return on pension plan assets and the discount rate used to value the Company's pension benefit obligations. The Unaudited Consolidated Financial Statements should be read in conjunction with the consolidated financial statements and related notes contained in Revlon's 2017 Form 10-K. The Company's results of operations and financial position for interim periods are not necessarily indicative of those to be expected for the full year.

Recent Transactions

The Company, through a subsidiary, had a minority investment in a third party whose subsidiaries licensed certain brand names from the Company for use in their operations. The Company's investment was in the form of a collateralized convertible note, was accounted for using the cost method and was included in other assets on the Company's consolidated balance sheet. In June 2018, the Company entered into an agreement to terminate the

arrangement with the unrelated third party. After a brief transition period, the right to use the licensed brand names will revert to the Company. As a result of this termination, the Company recognized a loss on investment of approximately \$20.1 million comprised of a one-time \$1.5 million cash termination payment and non-cash charges of \$18.6 million, primarily related to the write-off of the investment's carrying value.

Recently Adopted Accounting Pronouncements

Revenue Recognition

In May 2014, the FASB issued Accounting Standards Update ("ASU") No. 2014-09, "Revenue from Contracts with Customers." This new standard replaced most existing revenue recognition guidance in U.S. GAAP and codified guidance under FASB Topic 606. The underlying principle of this new guidance is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration that the entity expects to be entitled to receive in exchange for those goods or services.

The Company adopted ASU No. 2014-09 as of January 1, 2018 using the modified retrospective method. Results for the reporting period beginning after January 1, 2018 are presented under Topic 606, while prior period amounts continue to be reported in accordance with the Company's historic accounting practices under previous guidance. However, given the nature of the Company's products and the terms and conditions applicable to sales to its customers, the timing and amount of revenue recognized based on the underlying principles of ASU No. 2014-09 are consistent with the Company's revenue recognition policy under previous guidance.

In accordance with the new guidance, the Company recognizes revenue at an amount that reflects the consideration that the Company expects to be entitled to receive in exchange for transferring goods or services to its customers. The Company's policy is to record revenue when control of the goods transfers to the customer. Net sales are comprised of gross revenues from sales of products less expected product returns, trade discounts and customer allowances, which include costs associated with off-invoice mark-downs and other price reductions, as well as trade promotions and coupons.

The Company allows customers to return their unsold products if and when they meet certain Company-established criteria as set forth in the Company's trade terms. The Company regularly reviews and revises, when deemed necessary, its estimates of sales returns based primarily upon the historical rate of actual product returns, planned product discontinuances, new product launches and estimates of customer inventory and promotional sales. For returned products that the Company expects to resell at a profit, the Company records, in addition to sales returns as a reduction to sales and cost of sales and an increase to accrued liabilities for the amount expected to be refunded to the customer, an increase to the asset account used to reflect the Company's right to recover products. The amount of the asset account is valued based upon the former carrying amount of the product (i.e., inventory), less any expected costs to recover the products. As the estimated product returns that are expected to be resold at a profit do not comprise a significant amount of the Company's net sales or assets, the Company does not separately report these amounts.

The Company's revenues are also net of certain marketing arrangements with its retail customers. Pursuant to its trade terms with these retail customers, the Company reimburses them for a portion of their advertising costs, which provide advertising benefits to the Company. These arrangements are in the form of marketing development funds and/or cooperative advertising and are used by the Company to drive sales. The advertising programs follow an annual schedule of planned events that is continually updated based on the Company's needs and contractual terms. As these marketing expenditures cannot be directly linked to product sales, the Company records these expenses as a reduction of revenue at the higher of actual spend or estimated costs based on a reserve rate methodology. This did not result in any impact to the Company's financial statements in any of the periods presented.

In limited instances when products are sold under consignment arrangements, the Company does not recognize revenue until control over such products has transferred to the end consumer.

Other revenues, primarily royalties, do not comprise a material amount of the Company's net sales.

The Company incurs costs associated with product distribution, such as freight and handling costs. The Company has elected to treat these costs as fulfillment activities and recognizes these costs at the same time that it recognizes the underlying product revenue. As this policy election is in line with the Company's previous accounting practices, the treatment of shipping and handling activities under Topic 606 did not have any impact on the Company's results of operations, financial condition and/or financial statement disclosures.

As a result, the adoption of the new guidance under ASU No. 2014-09 did not have a material impact on the Company's revenues, results of operations or financial condition. The Company has expanded its financial statement disclosures as required by this new standard. See Note 13, "Segment Data and Related Information," for additional disclosures provided as a result of this ASU.

REVLON, INC. AND SUBSIDIARIES

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

(except where otherwise noted, all tabular amounts in millions, except share and per share amounts)

Other

In March 2017, the FASB issued ASU No. 2017-07, "Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost," which changes the way that employers present net periodic pension cost ("NPPC") and net periodic postretirement benefit cost ("NPPBC") within the income statement. The amendment requires an employer to present the service cost component of NPPC and NPPBC in the same income statement line item(s) as other employee compensation costs arising from services rendered during the period. The other components of NPPC and NPPBC would be presented separately from this line item and below any subtotal of operating income; companies will need to disclose the line items used to present these other components of NPPC and NPPBC, if not separately presented in the statement of operations. In addition, only the service cost component would be eligible for capitalization in assets. The Company adopted ASU No. 2017-07 as of January 1, 2018 and while the adoption did not have a material impact on the Company's results of operations, financial condition and/or financial statement disclosures, it did result in net periodic benefit cost (income) of \$0.5 million and \$(0.1) million for the three and six months ended June 30, 2017, respectively, previously reported in cost of sales and selling, general and administrative ("SG&A") expenses in the Company's Unaudited Consolidated Statement of Operations and Comprehensive (Loss) Income, being reclassified below operating income in the miscellaneous, net line item. See Note 10, "Pension and Post-Retirement Benefits" for more information.

Recently Issued Accounting Pronouncements

In February 2016, the FASB issued ASU No. 2016-02, "Leases (Topic 842)," which requires lessees to recognize a right-of-use asset and a related lease liability on the balance sheet for all leases, with the exception of short-term leases. The lease liability will be equal to the present value of lease payments and the right-of-use asset will be based on the lease liability, subject to certain adjustments, such as initial direct costs. Leases will continue to be classified as either operating or finance leases in the income statement. This guidance is effective for annual periods beginning after December 15, 2018, with early adoption permitted. The Company will adopt ASU No. 2016-02 beginning as of January 1, 2019. Upon initial evaluation, the Company believes that the main change as a result of the adoption will be the recognition of its lease liabilities and corresponding right-of-use assets on the Company's balance sheet, but expects minimal impact to its statement of operations or cash flows. The Company continues to assess the impact that the adoption of this new guidance will have on its financial statements.

2. RESTRUCTURING CHARGES

EA Integration Restructuring Program

In December 2016, in connection with integrating the Elizabeth Arden and Revlon organizations, the Company began the process of implementing certain integration activities, including consolidating offices, eliminating certain duplicative activities and streamlining back-office support (the "EA Integration Restructuring Program"). The EA Integration Restructuring Program is designed to reduce the Company's cost of goods sold and SG&A expenses. As a result of the EA Integration Restructuring Program, the Company expects to eliminate approximately 425 positions worldwide.

In connection with implementing the EA Integration Restructuring Program, the Company expects to recognize approximately \$90 million to \$95 million of total pre-tax restructuring charges (the "EA Integration Restructuring Charges"), consisting of: (i) approximately \$70 million to \$75 million of employee-related costs, including severance, retention and other contractual termination benefits; (ii) approximately \$10 million of lease termination costs; and (iii) approximately \$10 million of other related charges.

A summary of the EA Integration Restructuring Charges incurred through June 30, 2018 is presented in the following table:

	Restructuring Charges and Other, Net	Employee Severance and Other Personals Benefits	Lease Termination and Other Costs	Total Restructuring Charges	Inventory Adjustments ^(b)	Other Related Charges ^(c)	Total Restructuring and Related Charges

(b) Consists primarily of: (i) costs related to the program that Elizabeth Arden commenced prior to the Company's acquisition of Elizabeth Arden, Inc. ("Elizabeth Arden" and the "Elizabeth Arden Acquisition") on September 7, 2016 (the "Elizabeth Arden Acquisition Date") to further align their organizational structure and distribution arrangements for the purpose of improving their go-to-trade capabilities and execution and to streamline their organization (the "Elizabeth Arden 2016 Business Transformation Program"); and (ii) costs related to the Company's September 2015 restructuring actions taken to drive certain organizational efficiencies, including reducing general and administrative expenses, within the Company's Revlon and Portfolio segments (the "2015 Efficiency Program"). Actions under the 2015 Efficiency Program were substantially completed by the end of 2017. Total restructuring and related charges incurred for the 2015 Efficiency Program were \$7.6 million, of which \$7.2 million resulted in cash payments. At June 30, 2018 and December 31, 2017, all of the restructuring reserve balances were included within accrued expenses and other current liabilities in the Company's Consolidated Balance Sheets.

3. DISCONTINUED OPERATIONS

In December 2013, the Company announced restructuring actions that primarily included exiting its direct manufacturing, warehousing and sales business operations in mainland China within the Revlon segment (the "December 2013 Program"). The December 2013 Program resulted in the elimination of approximately 1,100 positions in 2014, primarily in China. With the implementation of the December 2013 Program, the results of the China discontinued operations, which relate entirely to the Revlon segment, are included within income from discontinued operations, net of taxes. The summary comparative financial results of discontinued operations were as follows for the periods presented:

	Three Months Ended June 30, 2018		Six Months Ended June 30, 2017	
Net sales	\$ —	\$ —	\$ —	\$ —
(Loss) income from discontinued operations, before taxes	(1.1)	0.6	0.3	0.9

(e) Includes \$15 million of borrowings at June 30, 2018 under the 2018 Senior Line of Credit Facility between Products Corporation and MacAndrews & Forbes Incorporated, a related party, discussed below.

Amendment to 2016 Revolving Credit Facility

In April 2018, Products Corporation entered into an amendment and restatement to the Original 2016 Revolving Credit Agreement with Citibank, N.A., acting as administrative agent, collateral agent, issuing lender, local fronting lender and swingline lender and the other issuing lenders (the "Revolver Amendment," and the Original 2016 Revolving Credit Agreement as amended by the Revolver Amendment, the "2016 Revolving Credit Agreement," and together with the 2016 Term Loan Agreement being the "2016 Credit Agreements"). Pursuant to the Revolver Amendment, a new \$41.5 million senior secured first in, last out tranche (the "Tranche B") was established under the 2016 Revolving Credit Agreement and the existing \$400 million tranche under the Original 2016 Revolving Credit Facility (and as in effect after the Revolver Amendment, the "2016 Revolving Credit Facility," and together with the 2016 Term Loan Facility, being the "2016 Senior Credit Facilities") became a senior secured last in, first out tranche (the "Tranche A," and together with the Tranche B, the "Tranches").

The Revolver Amendment provided for the availability and repayment terms of each Tranche, as well as terms governing the payment priorities between the Tranches. Other amendments to the Original 2016 Revolving Credit Facility under the Revolver Amendment included (i) an increase of \$15 million to the cap on amounts eligible for inclusion in the borrowing base relating to certain assets located in jurisdictions other than the U.S., Puerto Rico, Canada, and the U.K.; (ii) a reduction to the amount of additional debt generally permitted to be incurred; (iii) a reduction in the amount of incremental debt under 2016 Term Loan Agreement permitted to be incurred pursuant to the 2016 Revolving Credit Agreement; (iv) the removal of temporary increases to the borrowing base between August 15th and October 31st of each year; (v) an increase to threshold conditions in respect of the ability to make certain dividends and distributions on equity during the term of the Tranche B; and (vi) an amendment to the calculation of the financial covenant.

As a result of the Revolver Amendment, the borrowing base under the 2016 Revolving Credit Facility was increased to approximately \$385 million, compared to a borrowing base of approximately \$350 million at March 31, 2018, and provided the Company with an additional \$35 million of available borrowing capacity upon entering into the Revolver Amendment, which availability increased to \$40.1 million as of June 30, 2018, which was fully drawn at such date. Following is an updated description of Products Corporation's 2016 Senior Credit Facilities, after giving effect to the April 2018 Revolver Amendment:

2016 Senior Credit Facilities

In connection with and substantially concurrently with the closing of the Elizabeth Arden Acquisition, Products Corporation entered into: (i) the 7-year \$1.8 billion 2016 Term Loan Facility (the "2016 Term Loan Facility" and such agreement being the "2016 Term Loan Agreement"); and (ii) the 5-year \$400 million 2016 Revolving Credit Facility (the "Original 2016 Revolving Credit Facility" and such agreement being the "Original 2016 Revolving Credit Agreement"). Products Corporation also completed the issuance of \$450 million aggregate principal amount of its 6.25% Senior Notes due 2024. The proceeds of Products Corporation's issuance of the 6.25% Senior Notes and the 2016 Term Loan Facility, together with approximately \$35 million of borrowings under the Original 2016 Revolving

Credit Facility and approximately \$126.7 million of cash on hand, were used: (A) to fund the Elizabeth Arden Acquisition, including: (i) repurchasing the entire \$350 million aggregate principal amount outstanding of the then-existing Elizabeth Arden Senior Notes (the "Elizabeth Arden Senior Notes"); (ii) repaying the entire \$142 million aggregate principal amount of borrowings outstanding as of the Elizabeth Arden Acquisition Date under Elizabeth Arden's \$300 million revolving credit facility (which facility was terminated upon such repayment); (iii) repaying the entire \$25 million aggregate principal amount of borrowings outstanding as of the Elizabeth Arden Acquisition Date under Elizabeth Arden's second lien credit facility (which facility was terminated upon such repayment); and (iv) retiring the entire \$55 million liquidation preference of all 50,000 shares of Elizabeth Arden's then-issued and outstanding preferred stock (which amount included a \$5 million change of control premium); and (B) to completely refinance and repay all of the \$651.4 million in aggregate principal balance outstanding

under Products Corporation's then-existing 2011 Term Loan (the "2011 Term Loan") and all of the \$658.6 million in aggregate principal balance outstanding under Products Corporation's Old Acquisition Term Loan (each of which facilities were terminated upon such repayment) (together with the 2011 Term Loan, the "Old Term Loan Agreement" and the "Old Term Loan Facility," respectively). The Company did not incur any material early termination penalties in connection with repaying the Old Term Loan Facility or the Elizabeth Arden indebtedness and preferred stock. See Note 17, "Subsequent Events" for discussion of the euro-denominated senior secured asset-based term loan facility in an aggregate principal amount of €77 million that various foreign subsidiaries of Products Corporation entered into in July 2018.

2016 Term Loan Facility

Principal and Maturity: On the Elizabeth Arden Acquisition Date, Products Corporation entered into the 2016 Term Loan Agreement, for which Citibank, N.A. acts as administrative and collateral agent and which has an initial aggregate principal amount of \$1.8 billion and matures on the earlier of: (x) September 7, 2023; and (y) the 91st day prior to the maturity of Products Corporation's 5.75% Senior Notes if, on that date (and solely for so long as), (i) any of Products Corporation's 5.75% Senior Notes remain outstanding and (ii) Products Corporation's available liquidity does not exceed the aggregate principal amount of its then outstanding 5.75% Senior Notes by at least \$200 million. The loans under the 2016 Term Loan Facility were borrowed at an original issue discount of 0.5% to their principal amount. The 2016 Term Loan Facility may be increased by an amount equal to the sum of (x) the greater of \$450 million and 90% of Products Corporation's pro forma consolidated EBITDA, plus (y) an unlimited amount to the extent that (1) the first lien leverage ratio (defined as the ratio of Products Corporation's net senior secured funded debt that is not junior or subordinated to the liens of the Senior Facilities to EBITDA) is less than or equal to 3.5 to 1.0 (for debt secured pari passu with the 2016 Term Loan Facility) or (2) the secured leverage ratio (defined as the ratio of Products Corporation's net senior secured funded debt to EBITDA) is less than or equal to 4.25 to 1.0 (for junior lien or unsecured debt), plus (z) up to an additional \$400 million if the 2016 Revolving Credit Facility has been repaid and terminated.

Guarantees and Security: Products Corporation and the restricted subsidiaries under the 2016 Term Loan Facility, which include Products Corporation's subsidiaries, including Elizabeth Arden and its subsidiaries (collectively, the "Restricted Group"), are subject to the covenants under the 2016 Term Loan Agreement. The 2016 Term Loan Facility is guaranteed by each of Products Corporation's existing and future direct or indirect wholly-owned domestic restricted subsidiaries (subject to various exceptions), certain foreign subsidiaries, as well as by Revlon, on a limited recourse basis. The obligations of Revlon, Products Corporation and the subsidiary guarantors under the 2016 Term Loan Facility are secured by pledges of the equity of Products Corporation held by Revlon and the equity of the Restricted Group held by Products Corporation and each subsidiary guarantor (subject to certain exceptions, including equity of first-tier foreign subsidiaries in excess of 65% of the voting equity interests of such entity) and by substantially all tangible and intangible personal and real property of Products Corporation and the subsidiary guarantors (subject to certain exclusions). The obligors and guarantors under the 2016 Term Loan Facility and the 2016 Revolving Credit Facility are identical. The liens securing the 2016 Term Loan Facility on the accounts, inventory, equipment, chattel paper, documents, instruments, deposit accounts, real estate and investment property and general intangibles (other than intellectual property) related thereto (the "Revolving Facility Collateral") rank second in priority to the liens thereon securing the 2016 Revolving Credit Facility. The liens securing the 2016 Term Loan Facility on all other property, including capital stock, intellectual property and certain other intangible property (the "Term Loan Collateral"), rank first in priority to the liens thereon securing the 2016 Revolving Credit Facility, while the liens thereon securing the 2016 Revolving Credit Facility rank second in priority to the liens thereon securing the 2016 Term Loan Facility.

Interest and Fees: Interest accrues on term loans under the 2016 Term Loan Facility at a rate per annum of Adjusted LIBOR (which has a floor of 0.75%) plus a margin of 3.5% or an alternate base rate plus a margin of 2.5%, at

Products Corporation's option, and is payable quarterly, at a minimum. Products Corporation is obligated to pay certain fees and expenses in connection with the 2016 Term Loan Facility.

Affirmative and Negative Covenants: The 2016 Term Loan Agreement contains certain affirmative and negative covenants that, among other things, limit the Restricted Group's ability to: (i) incur additional debt; (ii) incur liens; (iii) sell, transfer or dispose of assets; (iv) make investments; (v) make dividends and distributions on, or repurchases of, equity; (vi) make prepayments of contractually subordinated or junior lien debt; (vii) enter into certain transactions with their affiliates; (viii) enter into sale-leaseback transactions; (ix) change their lines of business; (x) restrict dividends from their subsidiaries or restrict liens; (xi) change their fiscal year; and (xii) modify the terms of certain debt. The negative covenants are subject to various exceptions, including an "available amount basket" based on 50% of Products Corporation's cumulative consolidated net income, plus a "starter" basket of \$200 million, subject to Products Corporation's compliance with a 5.0 to 1.0 ratio of Products Corporation's net debt to Consolidated EBITDA (as defined in the 2016 Term Loan Agreement), except such compliance is not required when such baskets are used to make investments. While the 2016 Term Loan Agreement contains certain customary representations, warranties and events of default, it does not contain any financial maintenance covenants.

(except where otherwise noted, all tabular amounts in millions, except share and per share amounts)

Prepayments: The 2016 Term Loan Facility is subject to mandatory prepayments from: (i) the net proceeds from the issuance by Products Corporation or any of its restricted subsidiaries of certain additional debt; (ii) 50% of excess cash flow for fiscal years ending December 31st, with step-downs to 25% and 0% upon achievement of certain first lien leverage ratios and reduced by voluntary prepayments of loans under the 2016 Term Loan Facility and revolving loans under the 2016 Revolving Credit Facility to the extent commitments thereunder are permanently reduced; and (iii) asset sale proceeds of certain non-ordinary course asset sales or other dispositions of property that have not been reinvested to the extent in excess of certain minimum amounts. Products Corporation may voluntarily prepay the 2016 Term Loan Facility without premium or penalty.

2016 Revolving Credit Facility

Principal and Maturity: On the Elizabeth Arden Acquisition Date, Products Corporation entered into the Original 2016 Revolving Credit Agreement, which was amended and restated on April 12, 2018 pursuant to the Revolver Amendment, and for which Citibank, N.A. acts as administrative agent and collateral agent. After giving effect to the Revolver Amendment, the 2016 Revolving Credit Facility has an aggregate maximum availability of \$441.5 million (with a \$100 million sublimit for letters of credit and up to \$70 million available for swing line loans), which availability is subject to the amount of the borrowing base. The 2016 Revolving Credit Facility may be increased by the greater of (x) \$33.5 million and (y) the excess of the borrowing base over the amounts of then-effective commitments. The 2016 Revolving Credit Facility permits certain non-U.S. subsidiaries to borrow in local currencies. The borrowing base calculation in respect of the Tranche A under the 2016 Revolving Credit Facility continues to be based on the sum of: (i) 85% of eligible accounts receivable; (ii) the lesser of 85% of the net orderly liquidation value and a percentage of the value specified in respect of different types of eligible inventory; (iii) the lesser of (A) the sum of (x) 75% of the net orderly liquidation value in respect of eligible equipment and (y) 75% of the mortgage value of eligible real property and (B) \$40 million and (iv) qualified restricted cash (capped at \$75 million), which are collectively subject to certain availability reserves set by the administrative agent. The borrowing base calculation in respect of the Tranche B under the 2016 Revolving Credit Facility is based on the sum of: (i) 10% of eligible accounts receivable and (ii) the lesser of 10% of the net orderly liquidation value and a percentage of the value specified in respect of different types of eligible inventory, which are collectively subject to certain availability reserves set by the administrative agent. Tranche B under the 2016 Revolving Credit Facility matures on April 17, 2019. Tranche A under the 2016 Revolving Credit Facility continues to mature on the earlier of: (x) September 7, 2021; and (y) the 91st day prior to the maturity of Products Corporation's 5.75% Senior Notes if, on that date (and solely for so long as), (i) any of Products Corporation's 5.75% Senior Notes remain outstanding and (ii) Products Corporation's available liquidity does not exceed the aggregate principal amount of its then outstanding 5.75% Senior Notes by at least \$200 million.

Guarantees and Security: The Restricted Group under the 2016 Revolving Credit Agreement (which is the same as the Restricted Group under the 2016 Term Loan Agreement) is subject to the covenants under the 2016 Revolving Credit Agreement. The 2016 Revolving Credit Facility is guaranteed by each of Products Corporation's existing and future direct or indirect wholly-owned domestic restricted subsidiaries (subject to various exceptions), certain foreign subsidiaries, as well as by Revlon on a limited recourse basis. The obligations of Revlon, Products Corporation and the subsidiary guarantors under the 2016 Revolving Credit Facility are secured by pledges of the equity of Products Corporation held by Revlon and the equity of Products Corporation's restricted subsidiaries held by Products Corporation and each subsidiary guarantor (subject to certain exceptions, including equity of first-tier foreign subsidiaries in excess of 65% of the voting equity interests of such entity) and by substantially all tangible and intangible personal and real property of Products Corporation and the subsidiary guarantors (subject to certain exclusions). The obligors and guarantors under the 2016 Revolving Credit Facility and the 2016 Term Loan Facility are identical. The liens on the 2016 Revolving Facility Collateral securing the 2016 Revolving Credit Facility rank first in priority to the liens thereon securing the 2016 Term Loan Facility, which rank second in priority on such

collateral. The liens on the Term Loan Collateral securing the 2016 Revolving Credit Facility rank second in priority to the liens thereon securing the 2016 Term Loan Facility, which rank first in priority on such collateral.

Interest and Fees: Under the 2016 Revolving Credit Facility, interest is payable quarterly and accrues on borrowings under such facility at a rate per annum equal to either: (i) the alternate base rate plus an applicable margin equal to (A) in the case of the Tranche A, 0.25%, 0.50% or 0.75%, or (B) in the case of the Tranche B, 1.50%, 1.75% or 2.00%, in each case depending on the average excess availability (based on the borrowing base as most recently reported by Products Corporation to the administrative agent from time-to-time); or (ii) the Eurocurrency rate plus an applicable margin equal to (A) in the case of the Tranche A, 1.25%, 1.50% or 1.75%, or (B) in the case of the Tranche B, 2.50%, 2.75% or 3.00%, in each case depending on the average excess availability (based on the borrowing base as most recently reported by Products Corporation to the administrative agent from time-to-time), at Products Corporation's option. The applicable margin decreases as average excess availability under the 2016 Revolving Credit Facility increases.

REVLON, INC. AND SUBSIDIARIES

(except where otherwise noted, all tabular amounts in millions, except share and per share amounts)

Products Corporation is obligated to pay certain fees and expenses in connection with the 2016 Revolving Credit Facility, including a commitment fee of 0.25% for any unused amounts under the Tranche A and 0.50% for any unused amounts under the Tranche B. Loans under the 2016 Revolving Credit Facility may be prepaid without premium or penalty.

Affirmative and Negative Covenants: The 2016 Revolving Credit Agreement contains affirmative and negative covenants that are similar to those in the 2016 Term Loan Agreement, other than the "available amount basket" (as described above in the description of the 2016 Term Loan Facility); provided, however, under the 2016 Revolving Credit Agreement the Restricted Group will be able to incur unlimited additional junior secured debt and unsecured debt, make unlimited asset sales and dispositions, make unlimited investments and acquisitions, prepay junior debt and make unlimited restricted payments to the extent that certain "payment conditions" for asset-based credit facilities are satisfied. The 2016 Revolving Credit Agreement contains certain customary representations, warranties and events of default. If Products Corporation's "Liquidity Amount" (defined in the 2016 Revolving Credit Agreement as the Borrowing Base less the sum of (x) the aggregate outstanding extensions of credit under the 2016 Revolving Credit Facility, and (y) any availability reserve in effect on such date) falls below the greater of \$35 million and 10% of the maximum availability under the 2016 Revolving Credit Facility (a "Liquidity Event Period"), then the Restricted Group will be required to maintain a consolidated fixed charge coverage ratio (the ratio of Products Corporation's EBITDA minus capital expenditures to cash interest expense and scheduled principal payments under the 2016 Term Loan Agreement for such period) of a minimum of 1.0 to 1.0 until the first date after 20 consecutive business days for which the Liquidity Amount is equal to or greater than such threshold. If Products Corporation is in default under the consolidated fixed charge coverage ratio under the 2016 Revolving Credit Agreement, Products Corporation may cure such default by Products Corporation and/or Revlon issuing certain equity securities and Products Corporation receiving capital contributions from Revlon, with such cash being deemed to increase EBITDA for the purpose of calculating the applicable ratio. Products Corporation may exercise this cure right no more than two times in any four-quarter period, and no more than five times in total during the term of the 2016 Revolving Credit Facility. As Products Corporation's consolidated fixed charge coverage ratio at June 30, 2018 was less than 1.0 to 1.0, it was required to maintain availability under the 2016 Revolving Credit Facility in an amount in excess of the \$43.7 million Liquidity Amount at such date, as a result of which the Company had approximately \$6.5 million in available borrowing capacity under the 2016 Revolving Credit Facility as of June 30, 2018.

Prepayments: Products Corporation must prepay (i) Tranche A borrowings under the 2016 Revolving Credit Facility to the extent that outstanding loans thereunder and letters of credit exceed the Tranche A availability and (ii) Tranche B borrowings under the 2016 Revolving Credit Facility to the extent that outstanding loans thereunder exceed the Tranche B availability; provided, that the Tranche A borrowings are required to be repaid prior to the repayment of the Tranche B borrowings. During a Liquidity Event Period, the administrative agent may apply amounts collected in controlled accounts for the repayment of loans under the 2016 Revolving Credit Facility. The above descriptions of the terms of the 2016 Term Loan Facility and the 2016 Revolving Credit Facility and the related security and collateral agreements are qualified in their entirety by reference to such agreements, which are attached as exhibits to this Form 10-Q and Revlon's 2017 Form 10-K.

2018 Senior Line of Credit Facility

In June 2018, Products Corporation entered into a 2018 Senior Unsecured Line of Credit Agreement (the "2018 Senior Line of Credit Agreement") providing Products Corporation with a \$50 million senior unsecured line of credit (the "2018 Senior Line of Credit Facility") from MacAndrews & Forbes Incorporated, Revlon's majority stockholder. At such time, MacAndrews & Forbes Incorporated, together with its affiliates, beneficially owned 44,573,187 shares of Revlon's Class A common stock, representing approximately 84.4% of Revlon's outstanding shares of voting capital stock. The 2018 Senior Line of Credit Facility allows Products Corporation to request loans thereunder and to use the

proceeds of such loans for working capital and other general corporate purposes until the facility matures on December 31, 2018.

Any loans outstanding under the 2018 Senior Line of Credit Facility bear interest at an annual rate of 8%, which is payable quarterly in arrears in cash on September 30, 2018 and at maturity. Products Corporation may, at its option, prepay any borrowings under the 2018 Senior Line of Credit Facility, in whole or in part (together with accrued and unpaid interest), at any time prior to maturity, without premium or penalty. Products Corporation is required to repay any outstanding loans under the 2018 Senior Line of Credit Facility, together with accrued interest thereon, if and to the extent that: (i) Products Corporation or any of its subsidiaries enters into a new financing agreement under which it or any of its subsidiaries is then able to draw; or (ii) for any reason Products Corporation or any of its subsidiaries has available unrestricted cash that Products Corporation determines, in its reasonable judgment, is not required to run their operations in the ordinary course of business, provided that such repayment under this clause (ii) would not result in material adverse tax consequences.

The 2018 Senior Line of Credit Agreement includes customary events of default, including a cross default provision making it an event of default under the 2018 Senior Line of Credit Agreement if there exists and continues an event default under Products

Corporation's existing bank term loan and revolver credit agreements or the indentures for Products Corporation's 5.75% Senior Notes or 6.25% Senior Notes. If any such event of default occurs, MacAndrews & Forbes Incorporated may declare all outstanding loans under the 2018 Senior Line of Credit Facility to be due and payable immediately.

Covenants

Products Corporation was in compliance with all applicable covenants under the 2016 Senior Credit Facilities and the 2018 Senior Line of Credit Facility as of June 30, 2018. At June 30, 2018, the aggregate principal amounts outstanding and availability under Products Corporation's various credit facilities were as follows:

	Aggregate principal amount outstanding at June 30, 2018	Availability at June 30, 2018*
Tranche A of the 2016 Revolving Credit Facility ^(a)	\$ 336.6	\$ 50.2
Tranche B of the 2016 Revolving Credit Facility ^(b)	40.1	—
2018 Senior Line of Credit Facility	15.0	35.0

^(a) Based upon the calculated borrowing base of \$396.6 million, less \$9.8 million of outstanding undrawn letters of credit and \$336.6 million then drawn. As Products Corporation's consolidated fixed charge coverage ratio at June 30, 2018 was less than 1.0 to 1.0, it was required to maintain availability under the 2016 Revolving Credit Facility in an amount in excess of the \$43.7 million Liquidity Amount at such date, as a result of which the Company had approximately \$6.5 million in available borrowing capacity under the 2016 Revolving Credit Facility as of June 30, 2018.

^(b) Based upon the calculated borrowing base of \$40.1 million, which was fully drawn at June 30, 2018.

Products Corporation was in compliance with all applicable covenants under its Senior Notes Indentures as of June 30, 2018.

8. FAIR VALUE MEASUREMENTS

Assets and liabilities are required to be categorized into three levels of fair value based upon the assumptions used to value the assets or liabilities. Level 1 provides the most reliable measure of fair value, whereas Level 3, if applicable, generally would require significant management judgment. The three levels for categorizing the fair value measurement of assets and liabilities are as follows:

Level 1: Fair valuing the asset or liability using observable inputs, such as quoted prices in active markets for identical assets or liabilities;

Level 2: Fair valuing the asset or liability using inputs other than quoted prices that are observable for the applicable asset or liability, either directly or indirectly, such as quoted prices for similar (as opposed to identical) assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in markets that are not active; and

Level 3: Fair valuing the asset or liability using unobservable inputs that reflect the Company's own assumptions regarding the applicable asset or liability.

As of June 30, 2018, the fair values of the Company's financial assets and liabilities that were required to be measured at fair value are categorized in the table below:

^(a) The fair value of the Company's foreign currency forward exchange contracts ("FX Contracts") was measured based on observable market transactions for similar transactions in actively quoted markets of spot and forward rates on the respective dates. See Note 9, "Financial Instruments."

^(b) The fair value of Products Corporation's 2013 Interest Rate Swap (as hereinafter defined), which expired in May 2018, was measured based on the implied forward rates from the U.S. Dollar three-month LIBOR yield curve on the respective dates. See Note 9, "Financial Instruments."

As of June 30, 2018, the fair value and carrying value of the Company's long-term debt, including the current portion of long-term debt, are categorized in the table below:

	June 30, 2018			
	Fair Value			Carrying Value
	Level 1	Level 2	Level 3	
Liabilities:				
Long-term debt, including current portion	\$-\$2,271.8	\$	-\$2,271.8	\$3,037.3

As of December 31, 2017, the fair value and carrying value of the Company's long-term debt, including the current portion of long-term debt, are categorized in the table below:

	December 31, 2017			
	Fair Value			Carrying Value
	Level 1	Level 2	Level 3	
Liabilities:				
Long-term debt, including current portion	\$-\$2,131.5	\$	-\$2,131.5	\$2,823.9

The fair value of the Company's long-term debt, including the current portion of long-term debt, is based on quoted market prices for similar issuances and maturities.

The carrying amounts of the Company's cash and cash equivalents, trade receivables, notes receivable, accounts payable and short-term borrowings approximate their respective fair values.

9. FINANCIAL INSTRUMENTS

Letters of Credit

Products Corporation maintains standby and trade letters of credit for various corporate purposes under which Products Corporation is obligated, of which \$9.8 million and \$10.1 million (including amounts available under credit agreements in effect

at that time) were maintained at June 30, 2018 and December 31, 2017, respectively. Included in these amounts are approximately \$7 million and \$7.3 million in standby letters of credit that support Products Corporation's self-insurance programs as of June 30, 2018 and December 31, 2017, respectively. The estimated liability under such programs is accrued by Products Corporation.

Derivative Financial Instruments

The Company uses derivative financial instruments, primarily FX Contracts, intended for the purpose of managing foreign currency exchange risk by reducing the effects of fluctuations in foreign currency exchange rates on the Company's net cash flows. Prior to its expiration in May 2018, the Company used interest rate hedging transactions intended for the purpose of managing interest rate risk associated with Products Corporation's variable rate indebtedness. At June 30, 2018, the accumulated deferred losses related to the 2013 Interest Rate Swap have been fully amortized into earnings. The Company does not hold or issue financial instruments for speculative or trading purposes.

Foreign Currency Forward Exchange Contracts

The FX Contracts are entered into primarily to hedge the anticipated net cash flows resulting from inventory purchases and intercompany payments denominated in currencies other than the local currencies of the Company's foreign and domestic operations and generally have maturities of less than one year. The Company did not enter into any FX contracts during the six months ended June 30, 2018. The U.S. Dollar notional amounts of the FX Contracts outstanding at June 30, 2018 and December 31, 2017 were nil and \$147.1 million, respectively.

Interest Rate Swap Transaction

In November 2013, Products Corporation executed a forward-starting floating-to-fixed interest rate swap transaction (the "2013 Interest Rate Swap") that, at its inception, was based on a notional amount of \$400 million in respect of indebtedness under Products Corporation's 2013 bank term loan, that was incurred in connection with completing the October 2013 acquisition of The Colomer Group (the "Old Acquisition Term Loan" and the "Colomer Acquisition," respectively). The 2013 Interest Rate Swap, which initially had a floor of 1.00% that in December 2016 was amended to 0.75%, expired in May 2018. In connection with entering into the 2016 Term Loan Facility, the 2013 Interest Rate Swap was carried over to apply to a notional amount of \$400 million in respect of indebtedness under such loan for the remaining balance of the term of such swap. The Company initially designated the 2013 Interest Rate Swap as a cash flow hedge of the variability of the forecasted three-month LIBOR interest rate payments initially related to the \$400 million notional amount under the Old Acquisition Term Loan over the three-year term of the 2013 Interest Rate Swap (and subsequently to the \$400 million notional amount under the 2016 Term Loan Facility). Under the terms of the 2013 Interest Rate Swap, Products Corporation received from the counterparty a floating interest rate based on the higher of the three-month U.S. Dollar LIBOR or the floor percentage in effect, while paying a fixed interest rate payment to the counterparty equal to 2.0709% (which, with respect to the 2016 Term Loan Facility, effectively fixed the interest rate on such notional amount at 5.5709% through May 2018).

As a result of completely refinancing the Old Acquisition Term Loan with a portion of the proceeds from Product's Corporation's consummation of the 2016 Senior Credit Facilities and the issuance of its 6.25% Senior Notes in connection with consummating the Elizabeth Arden Acquisition, the critical terms of the 2013 Interest Rate Swap no longer matched the terms of the underlying debt under the 2016 Term Loan Facility. At the refinancing date, which was the same as the September 7, 2016 Elizabeth Arden Acquisition Date (the "De-designation Date"), the 2013 Interest Rate Swap was determined to no longer be highly effective and the Company discontinued hedge accounting for the 2013 Interest Rate Swap. Following the de-designation of the 2013 Interest Rate Swap, changes in fair value of such swap were accounted for as a component of other non-operating expenses. Accumulated deferred losses of \$6.3 million, or \$3.9 million net of tax, at the De-designation Date, that were previously recorded as a component of accumulated other comprehensive loss, were fully amortized into earnings over the remaining term of the 2013 Interest Rate Swap, which expired in May 2018. See "Quantitative Information – Derivative Financial Instruments"

below for additional information on the balance sheet balances related to this swap.

Credit Risk

Exposure to credit risk in the event of nonperformance by any of the counterparties to the Company's derivative instruments is limited to the gross fair value of these derivative instruments in asset positions, which totaled \$0.3 million at June 30, 2018 and \$0.6 million at December 31, 2017. The Company attempts to minimize exposure to credit risk by generally entering into derivative contracts with counterparties that have investment-grade credit ratings and are major financial institutions. The Company also periodically monitors any changes in the credit ratings of its counterparties. Given the current credit standing of the Company's counterparties to its derivative instruments, the Company believes that the risk of loss under these derivative instruments arising from any non-performance by any of the counterparties is remote.

10. PENSION AND POST-RETIREMENT BENEFITS

The components of net periodic benefit costs (income) for the Company's pension and the other post-retirement benefit plans were as follows for the second quarter of 2018 and 2017, respectively:

	Pension Plans		Other Post-Retirement Benefit Plans	
	Three Months Ended June 30,			
	2018	2017	2018	2017

Total net periodic benefit costs (income)	\$0.4	\$1.0	\$ 0.2	\$ 0.2

In the three months ended June 30, 2018, the Company recognized net periodic benefit cost of \$0.6 million, compared to net periodic benefit cost of \$1.2 million in the three months ended June 30, 2017. The decrease was primarily due to lower service costs and interest costs during the second quarter of 2018, partially offset by higher expected return on plan assets during the second quarter of 2017.

The components of net periodic benefit costs (income) for the Company's pension and other post-retirement benefit plans for the first six months of 2018 and 2017, respectively, were as follows:

	Pension Plans		Other Post-Retirement Benefit Plans	
	Six Months Ended June 30,

^(a) As a result of the Elizabeth Arden Acquisition, the Company recognized \$0.8 million in curtailment gains related to a foreign non-qualified defined benefit plan of Elizabeth Arden for the six months ended June 30, 2017.

In the six months ended June 30, 2018, the Company recognized net periodic benefit cost of \$1.2 million, compared to net periodic benefit cost of \$1.1 million in the six months ended June 30, 2017, primarily due to the curtailment gain recognized during the first six months of 2017, partially offset by lower service costs and interest costs during the first six months of 2018.

^(a) As a result of the Company's adoption of ASU No. 2017-07 in 2018, the Company presents the service cost component of NPPC and NPPBC in the same income statement line item(s) as other employee compensation costs arising from services rendered during the period (i.e., in cost of sales and SG&A) and presents the other components of NPPC and NPPBC below operating income, in miscellaneous, net.

The Company expects that it will have net periodic benefit cost of approximately \$2.4 million for its pension and other post-retirement benefit plans for all of 2018, compared with net periodic benefit cost of \$1.5 million in 2017. During the second quarter of 2018, \$1.8 million and \$0.2 million were contributed to the Company's pension plans and other post-retirement benefit plans, respectively. During the first six months of 2018, \$3.4 million and \$0.4 million were contributed to the Company's pension plans and other post-retirement benefit plans, respectively. During 2018, the Company expects to contribute approximately \$10 million in the aggregate to its pension and other post-retirement benefit plans.

Relevant aspects of the qualified defined benefit pension plans, non-qualified pension plans and other post-retirement benefit plans sponsored by Products Corporation are disclosed in Note 14, "Pension and Post-Retirement Benefits," to the Consolidated Financial Statements in Revlon's 2017 Form 10-K.

11. INCOME TAXES

The Company's provision for income taxes represents federal, foreign, state and local income taxes. The Company's effective tax rate differs from the applicable federal statutory rate due to the effect of state and local income taxes, tax rates and income in foreign jurisdictions, foreign earnings taxable in the U.S., non-deductible expenses and other items. The Company's tax provision changes quarterly based on various factors including, but not limited to, the geographical level and mix of earnings; enacted tax legislation; foreign, state and local income taxes; tax audit settlements and the interaction of various global tax strategies.

The Company recorded a benefit from income taxes of \$2.8 million for the second quarter of 2018 and a provision for income taxes of \$11.9 million for the second quarter of 2017. The \$14.7 million decrease in the provision for income taxes was primarily due to the increased loss from continuing operations before income taxes, partially offset by changes resulting from the enactment of the Tax Cuts and Jobs Act of 2017 (the "Tax Act"), including the reduction of the U.S. federal income tax rate (which provided for less of a benefit on the Company's year-to-date loss), the U.S. tax on the Company's foreign earnings under the GILTI provisions of the Tax Act, and a reduced deduction for executive compensation under Section 162(m) of the Internal Revenue Code ("Section 162(m)").

The Company recorded a benefit from income taxes of \$4.4 million for the six months ended June 30, 2018 and a benefit from income taxes of \$27 million for the six months ended June 30, 2017. The \$22.6 million reduction in the benefit from income taxes was primarily due to the mix and level of earnings, as well as changes resulting from the enactment of the Tax Act, including the reduction of the U.S. federal income tax rate (which provided for less of a benefit on the Company's year-to-date loss), the U.S. tax on the Company's foreign earnings under the GILTI

provisions of the Tax Act, and a reduced deduction for executive compensation under Section 162(m), partially offset by a reduction in the liability that had been established in prior periods pursuant to Accounting Principles Board 23, "Indefinite Reinvestment Assertion" ("APB 23").

The Company's effective tax rate for the three months ended June 30, 2018 was lower than the federal statutory rate of 21% as a result of nondeductible expenses for interest and executive compensation, as well as the U.S. taxation of the Company's foreign earnings under the GILTI provisions of the Tax Act.

The Company's effective tax rate for the six months ended June 30, 2018 was lower than the federal statutory rate of 21% as a result of nondeductible expenses for interest and executive compensation, as well as the U.S. taxation of the Company's foreign earnings under the GILTI provision of the Tax Act, partially offset by the reduction in liability under APB 23.

In December 2017, with the enactment of the Tax Act, the U.S. government enacted comprehensive tax reform that made broad and complex changes to the U.S. tax code that affected the Company by, among other things:

- reducing the U.S. federal corporate tax rate;
- requiring a one-time transition tax on certain unrepatriated earnings of foreign subsidiaries;
- imposing a new limitation on the deductibility of interest;
- a general elimination of U.S. federal income taxes on dividends from foreign subsidiaries;
- a new provision designed to tax global intangible low-taxed income ("GILTI");
- increased limitations on the deductibility of certain executive compensation; and
- changes to net operating loss carry-forward periods and annual utilization.

In accordance with the SEC Staff Accounting Bulletin No. 118, *Income Tax Accounting Implications of the Tax Cut and Jobs Act* ("SAB 118"), which provides guidance on accounting for the tax effects of the Tax Act, the Company has recorded provisional adjustments in cases where the Company was able to make reasonable estimates of the effects of elements of the Tax Act for which its analysis is not yet complete. The Company has not recorded any adjustments for elements of the Tax Act for which the Company was not yet able to make reasonable estimates of the impact of those elements, and has continued accounting for such elements under ASC 740, *Income Taxes* ("ASC 740"), on the basis of the tax laws in effect before the Tax Act, in accordance with the guidance provided by SAB 118. As a result of the enactment of the Tax Act, in the year ended December 31, 2017 the Company reduced the carrying value of its federal deferred tax assets to reflect the reduction from 35% to 21% in the U.S. federal income tax rate. As a result, the Company recorded a one-time, non-cash charge of \$47.9 million in the year ended December 31, 2017. No adjustment was made to this provisional amount during the first six months of 2018. In addition, the Company estimated that it had a net deficit in its non-U.S. earnings subject to the transition tax as of the applicable measurement dates, so in the year ended December 31, 2017 the Company did not record a liability for the transition tax. No adjustment was made to this provisional amount during the first six months of 2018.

While the Company continues to assess the impact on its financial statements of the following elements of the Tax Act, it did record a provisional amount for the impact of these items in the first six months of 2018:

- Limitation on the deductibility of interest: Starting in 2018, the Tax Act limits the Company's deduction for interest to:
 - interest income plus 30% of taxable income before interest, tax, depreciation and amortization for years through 2021; and
 - interest income plus 30% of taxable income before interest and taxes for years 2022 and thereafter.

While any reduction in deductible interest in any year can be carried forward indefinitely and added to the potential interest deduction in subsequent years, the Company has concluded that it is more likely than not that it will not be able to realize a benefit for this carry-forward interest deduction in future years, so it has established a full valuation allowance for the associated deferred tax asset.

GILTI: The Tax Act creates a new requirement that certain income earned by controlled foreign corporations ("CFC") must be included currently in the taxable income of the CFC's U.S. shareholder. GILTI is the excess of the shareholder's "net CFC tested income" over the net deemed tangible income return, which is currently defined as the excess of: (1) 10% of the aggregate of the U.S. shareholder's pro rata share of the qualified business asset investment of each CFC with respect to which it is a U.S. shareholder over (2) the amount of certain interest expense taken into account in the determination of net CFC-tested income. The Company became subject to the GILTI provisions beginning in 2018.

Because of the complexity of the new GILTI tax rules, the Company is continuing to evaluate this provision of the Tax Act and the application of ASC 740. Under U.S. GAAP, the Company is allowed to make an accounting policy choice of either: (1) treating taxes due on future U.S. inclusions in taxable income related to GILTI as a current-period expense when incurred (the "period cost method"); or (2) factoring such amounts into the Company's measurement of its deferred taxes (the "deferred method"). The Company's selection of an accounting policy with respect to the new GILTI tax rules will depend, in part, on analyzing the Company's global income to determine whether the Company expects to have future U.S. inclusions in taxable income related to GILTI and, if so, what the impact is expected to be. For purposes of the provisional calculations through the first six months of 2018, the Company has used the period

cost method. The Company will continue to assess the appropriateness of this method during the period allowed for under SAB 118.

Executive Compensation Limitation: The Tax Act expands the definition of covered employee under Section 162(m) and provides that the status as a covered employee continues for all subsequent tax years, including years after the death of the individual, and, among other modifications, repeals the exception for performance-based compensation and commissions from the \$1 million deduction limitation, subject to certain transitional "grandfathering" provisions. The Tax Act's transitional guidance allows certain payments made under written and binding agreements entered into prior to November 2, 2017 to be treated as if they were made under the provisions of Section 162(m) that were in effect prior to enactment of the Tax Act. While the Company is in the process of gathering information on existing compensation arrangements for covered employees, as well as assessing the impact of

REVLON, INC. AND SUBSIDIARIES

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

(except where otherwise noted, all tabular amounts in millions, except share and per share amounts)

transitional guidance on the realizability of existing deferred tax assets related to compensation arrangements of its covered employees, the tax provision for the first six months of 2018 included a provisional estimate of the impact of Section 162(m), as adjusted in the Tax Act.

APB 23 Indefinite Reinvestment Assertion: The Company is in the process of assessing the impact of the Tax Act on its indefinite reinvestment assertion and any associated impact on its financial statements. Based on the analysis to date, the Company has concluded that a provisional adjustment can be made to reduce the liability that was established under APB 23 in prior periods. As the Company concludes its analysis, changes to this provisional adjustment may be appropriate.

Net Operating Loss Carry-forward rules: The Company had \$519.3 million of federal net operating loss carry-forwards as of December 31, 2017. These carry-forwards have a life of up to 20 years and can be used to reduce the Company's federal taxable income to zero, potentially eliminating any federal income tax liability for the periods in which they are used. If the Company incurs federal net operating losses in 2018 or subsequent years, such losses would have an unlimited carry-forward period, but they would only be available to offset 80% of the Company's taxable income in any given year.

While the Company has calculated and recorded provisional adjustments for the above items, there are certain aspects of the Tax Act for which the Company's accounting is incomplete, and for which no provisional adjustments have been recorded. The provisional amounts included in tax expense and the associated balance sheet accounts (and related disclosures), as well as the amounts that have not been recorded, are subject to modification within the measurement period provided for in SAB 118.

12. ACCUMULATED OTHER COMPREHENSIVE LOSS

A roll-forward of the Company's accumulated other comprehensive loss as of June 30, 2018 is as follows:

13. SEGMENT DATA AND RELATED INFORMATION

Operating Segments

Operating segments include components of an enterprise about which separate financial information is available that is evaluated regularly by the chief operating decision maker (the Company's "Chief Executive Officer") in deciding how to allocate resources and in assessing the Company's performance. As a result of the similarities in the procurement, manufacturing and distribution processes for the Company's products, much of the information provided in the Unaudited Consolidated Financial Statements and provided in the segment table below is similar to, or the same as, that reviewed on a regular basis by the Company's Chief Executive Officer. As noted in Note 1, "Description of Business and Summary of Significant Accounting Policies," effective January 1, 2018, the Company operates in four new brand-centric reporting segments, in line with its new organizational structure that is operated based on four global brand teams. As a result, segment financial data for the three and six months ended June 30, 2017 has been

recast from what was presented in previous filings and presented under the new organizational structure.

At June 30, 2018, the Company's operations are organized into the following reportable segments:

Revlon - The Revlon segment is comprised of the Company's flagship Revlon brands. Revlon segment products are primarily marketed, distributed and sold in the mass retail channel, large volume retailers, chain drug and food stores, chemist shops, hypermarkets, general merchandise stores, e-commerce sites, television shopping, department stores, professional hair and nail salons, one-stop shopping beauty retailers, specialty cosmetic stores and perfumeries in the U.S. and internationally under brands such as Revlon in color cosmetics; Revlon ColorSilk and Revlon Professional in hair color; Revlon in beauty tools; and Revlon in nail color.

Elizabeth Arden - The Elizabeth Arden segment is comprised of the Company's Elizabeth Arden branded products. The Elizabeth Arden segment markets, distributes and sells fragrances, skin care and color cosmetics primarily to prestige retailers, department and specialty stores, perfumeries, boutiques, e-commerce sites, the mass retail channel, travel retailers and distributors, as well as direct sales to consumers via its Elizabeth Arden branded retail stores and ElizabethArden.com e-commerce business, in the U.S. and internationally, under brands such as Elizabeth Arden Ceramide, Prevage, Eight Hour, SUPERSTART, Visible Difference and Skin Illuminating in the Elizabeth Arden skin care brands; and Elizabeth Arden White Tea, Elizabeth Arden Red Door, Elizabeth Arden 5th Avenue and Elizabeth Arden Green Tea in Elizabeth Arden fragrances.

(except where otherwise noted, all tabular amounts in millions, except share and per share amounts)

Portfolio - The Company's Portfolio segment markets, distributes and sells a comprehensive line of premium, specialty and mass products primarily to the mass retail channel, hair and nail salons and professional salon distributors in the U.S. and internationally and large volume retailers, specialty and department stores under brands such as Almay and SinfulColors in color cosmetics; CND in nail polishes and nail enhancements, including CND Shellac and CND Vinylux nail polishes; Cutex nail care products; Pure Ice in nail polishes; American Crew in men's grooming products; and Mitchum in anti-perspirant deodorants. The Portfolio segment also includes a multi-cultural hair care line consisting of Creme of Nature hair care products, which are sold in both professional salons and in large volume retailers and other retailers, primarily in the U.S.; and a body care line under the Natural Honey brand and hair color line under the Llongueras brand (licensed from a third party) that are both sold in the mass retail channel, large volume retailers and other retailers, primarily in Spain.

Fragrances - The Fragrances segment includes the development, marketing and distribution of certain owned and licensed fragrances as well as the distribution of prestige fragrance brands owned by third parties. These products are typically sold to retailers in the U.S. and internationally, including prestige retailers, specialty stores, e-commerce sites, the mass retail channel, travel retailers and other international retailers. The owned and licensed fragrances include brands such as Juicy Couture, John Varvatos, All Saints, La Perla, Wildfox, Charlie, Curve, Elizabeth Taylor, Britney Spears, Christina Aguilera, Shawn Mendes, Halston, Ed Hardy, Geoffrey Beene, Alfred Sung, Giorgio Beverly Hills, Lucky Brand, Paul Sebastian, White Shoulders and Jennifer Aniston.

The Company's management evaluates segment profit for each of the Company's reportable segments. Effective January 1, 2018, the Company allocates corporate expenses to each reportable segment to arrive at segment profit as these expenses are now included in the internal measure of segment operating performance. The Company defines segment profit as income from continuing operations before interest, taxes, depreciation, amortization, gains/losses on foreign currency fluctuations, gains/losses on the early extinguishment of debt and miscellaneous expenses. Segment profit also excludes the impact of certain items that are not directly attributable to the reportable segments' underlying operating performance. Such items are shown below in the table reconciling segment profit to consolidated income from continuing operations before income taxes. The Company does not have any material inter-segment sales. The accounting policies for each of the reportable segments are the same as those described in Note 1, "Description of Business and Summary of Significant Accounting Policies." The Company's assets and liabilities are managed centrally and are reported internally in the same manner as the Unaudited Consolidated Financial Statements; thus, no additional information regarding assets and liabilities of the Company's reportable segments is produced for the Company's Chief Executive Officer or included in these Unaudited Consolidated Financial Statements.

14. BASIC AND DILUTED EARNINGS PER COMMON SHARE

Shares used in basic (loss) earnings per share are computed using the weighted-average number of common shares outstanding during each period. Shares used in diluted (loss) earnings per share include the dilutive effect of unvested restricted stock under the Company's Stock Plan using the treasury stock method. For the three and six months ended June 30, 2018, diluted loss per share equals basic loss per share as the assumed vesting of restricted stock would have an anti-dilutive effect. At June 30, 2018 and 2017, there were no outstanding stock options under the Company's Stock Plan.

Following are the components of basic and diluted (loss) earnings per common share for the periods presented:

15. CONTINGENCIES

As previously disclosed, following the announcement of the execution of the Elizabeth Arden Merger Agreement, several putative shareholder class action lawsuits and a derivative lawsuit were filed challenging the Merger. In addition to the complaints filed on behalf of plaintiffs Parker, Christiansen, Ross and Stein on July 25, 2016, a lawsuit (Hutson v. Elizabeth Arden, Inc., et al., Case No. CACE-16-013566) (referred to as the "Hutson complaint") was filed in the Seventeenth Judicial Circuit in and for Broward County, Florida (the "Court") against Elizabeth Arden, the members of the board of directors of Elizabeth Arden, Revlon, Products Corporation and Acquisition Sub. In general, the Hutson complaint alleges that: (i) the members of Elizabeth Arden's board of directors breached their fiduciary duties to Elizabeth Arden's shareholders with respect to the Merger, by, among other things, approving the Merger pursuant to an unfair process and at an inadequate and unfair price; and (ii) Revlon, Products Corporation and Acquisition Sub aided and abetted the breaches of fiduciary duty by the members of Elizabeth Arden's board of directors. The plaintiff seeks relief similar to that sought in the Parker case.

By Order dated August 4, 2016, all five cases were consolidated by the Court into a Consolidated Amended Class Action. Thereafter, on August 11, 2016, a Consolidated Amended Class Action Complaint was filed, seeking to enjoin defendants from consummating the Merger and/or from soliciting shareholder votes. To the extent that the Merger was consummated, the Consolidated Amended Class Action Complaint seeks to rescind the Merger or recover rescissory or other compensatory damages, along with costs and fees. The grounds for relief set forth in the Consolidated Amended Class Action Complaint in large part track those grounds as asserted in the five individual complaints, as previously disclosed. Class counsel advised that post-consummation

of the Merger they were going to file a Second Consolidated Amended Class Action Complaint. The Second Consolidated Amended Class Action Complaint (which superseded the Consolidated Amended Class Action Complaint) was ultimately filed on or about January 26, 2017. Like the Consolidated Amended Class Action complaint, the grounds for relief set forth in the Second Consolidated Amended Class Action Complaint in large part track those grounds as asserted in the five individual complaints.

The defendants' motions to dismiss the Second Consolidated Amended Class Action Complaint were filed on March 28, 2017. Plaintiffs' response was filed on June 6, 2017 and defendants' replies were filed on July 13, 2017. A hearing on the defendants' motion to dismiss was held on September 19, 2017 and on November 20, 2017, the defendants' motion was granted and the case was dismissed, with leave to amend under limited circumstances. On December 8, 2017, plaintiffs filed a Third Amended Complaint, seeking relief on the same grounds sought in the First and Second Amended Complaints, but alleged as direct, as opposed to derivative, claims. On January 12, 2018, the defendants once again moved to dismiss. The motion was heard on March 29, 2018 and the parties await a decision. The Company believes the allegations contained in the Third Consolidated Amended Class Action Complaint are without merit and intends to continue to vigorously defend against them. Additional lawsuits arising out of or relating to the Merger Agreement or the Merger may be filed in the future.

The Company is involved in various other routine legal proceedings incidental to the ordinary course of its business. The Company believes that the outcome of all pending legal proceedings in the aggregate is not reasonably likely to have a material adverse effect on the Company's business, prospects, results of operations, financial condition and/or cash flows. However, in light of the uncertainties involved in legal proceedings generally, the ultimate outcome of a particular matter could be material to the Company's operating results for a particular period depending on, among other things, the size of the loss or the nature of the liability imposed and the level of the Company's income for that particular period.

16. RELATED PARTY TRANSACTIONS

Reimbursement Agreements

Revlon, Products Corporation and MacAndrews & Forbes have entered into reimbursement agreements (the "Reimbursement Agreements") pursuant to which: (i) MacAndrews & Forbes is obligated to provide (directly or through its affiliates) certain professional and administrative services, including, without limitation, employees, to the Company, and to purchase services from third-party providers, such as insurance, legal, accounting and air transportation services, on behalf of the Company, to the extent requested by Products Corporation; and (ii) Products Corporation is obligated to provide certain professional and administrative services, including, without limitation, employees, to MacAndrews & Forbes and to purchase services from third-party providers, such as insurance, legal and accounting services, on behalf of MacAndrews & Forbes, to the extent requested by MacAndrews & Forbes, provided that in each case the performance of such services does not cause an unreasonable burden to MacAndrews & Forbes or Products Corporation, as the case may be.

The Company reimburses MacAndrews & Forbes for the allocable costs of the services that MacAndrews & Forbes purchases for or provides to the Company and for the reasonable out-of-pocket expenses that MacAndrews & Forbes incurs in connection with the provision of such services. MacAndrews & Forbes reimburses Products Corporation for the allocable costs of the services that Products Corporation purchases for or provides to MacAndrews & Forbes and for the reasonable out-of-pocket expenses incurred by Products Corporation in connection with the purchase or provision of such services. Each of the Company, on the one hand, and MacAndrews & Forbes, on the other, has agreed to indemnify the other party for losses arising out of the services provided by it under the Reimbursement Agreements, other than losses resulting from its willful misconduct or gross negligence.

The Reimbursement Agreements may be terminated by either party on 90 days' notice. The Company does not intend to request services under the Reimbursement Agreements unless their costs would be at least as favorable to the Company as could be obtained from unaffiliated third parties.

The Company participates in MacAndrews & Forbes' directors and officers liability insurance program (the "D&O Insurance Program"), as well as its other insurance coverages, such as property damage, business interruption, liability and other coverages, which cover the Company, as well as MacAndrews & Forbes and its subsidiaries. The limits of coverage for certain of the policies are available on an aggregate basis for losses to any or all of the participating companies and their respective directors and officers. The Company reimburses MacAndrews & Forbes from time-to-time for their allocable portion of the premiums for such coverage or the Company pays the insurers directly, which premiums the Company believes are more favorable than the premiums that the Company would pay were it to secure stand-alone coverage. Any amounts paid by the Company directly to MacAndrews & Forbes in respect of premiums are included in the amounts paid under the Reimbursement Agreements.

The net activity related to services purchased under the Reimbursement Agreements during the six months ended June 30, 2018 and 2017 was nil and \$4.0 million, respectively. The purchases during the first six months of 2017 primarily included partial payments made by the Company to MacAndrews & Forbes for premiums related to the Company's allocable portion of the 5-year

renewal of the D&O Insurance Program for the period from January 31, 2017 through January 2020. As of June 30, 2018 and December 31, 2017 a receivable balance of \$0.1 million and a payable balance of \$0.3 million, respectively, to MacAndrews & Forbes was included in the Company's Consolidated Balance Sheet for transactions subject to the Reimbursement Agreements.

2018 Senior Line of Credit Facility

See Note 7, "Long-term Debt," regarding the 2018 Senior Line of Credit Agreement between Products Corporation and MacAndrews & Forbes Incorporated.

Other

During the six months ended June 30, 2018 and 2017, the Company engaged several companies in which MacAndrews & Forbes had a controlling interest to provide the Company with various ordinary course business services. These services included processing approximately \$13 million and \$18.5 million of coupon redemptions for the Company's retail customers for the six months ended June 30, 2018 and 2017, respectively, for which the Company paid fees of approximately \$0.1 million and \$0.2 million for the six months ended June 30, 2018 and 2017, respectively, and other similar advertising, coupon redemption and raw material supply services, for which the Company paid fees aggregating to approximately \$0.2 million for each of the six months ended June 30, 2018 and 2017. The Company believes that its engagement of each of these affiliates was on arm's length terms, taking into account each firm's expertise in its respective field, and that the fees paid were at least as favorable as those available from unaffiliated parties.

17. SUBSEQUENT EVENTS

July 2018 Foreign Asset-Based Term Loan Credit Agreement

In July 2018, Revlon Holdings B.V. (the "Dutch Borrower"), a wholly owned indirect foreign subsidiary of Products Corporation, Revlon Finance LLC, a wholly owned direct subsidiary of the Dutch Borrower (the "U.S. Co-Borrower" and, together with the Dutch Borrower, the "Borrowers"), the other loan parties, the lenders party thereto and Citibank, N.A., acting as administrative agent and collateral agent (the "Agent"), entered into an Asset-Based Term Loan Credit Agreement (the "Asset-Based Term Facility" and the "Asset-Based Term Agreement," respectively) and related guarantee and security agreements.

Principal and Maturity

The Asset-Based Term Facility provides for a euro-denominated senior secured asset-based term loan facility in an aggregate principal amount of €77 million, the full amount of which was funded on the closing of the facility. The Asset-Based Term Facility has an uncommitted incremental facility pursuant to which it may be increased from time to time by up to €43 million, subject to certain conditions and the agreement of the lenders providing such increase. The proceeds of the loans under the Asset-Based Term Facility will be used for working capital and other general corporate purposes. The Asset-Based Term Facility matures on July 9, 2021.

The Asset-Based Term Agreement requires the maintenance of a borrowing base supporting the borrowing thereunder, to be evidenced with the delivery of monthly borrowing base certificates customary for facilities of this type, with more frequent reporting required upon the triggering of certain events. The borrowing base calculation under the Asset-Based Term Facility is based on the sum of: (i) 85% of eligible accounts receivable; and (ii) 90% of the net orderly liquidation value of eligible inventory, in each case with respect to certain of Products Corporation's subsidiaries organized in Australia, Bermuda, Germany, Italy, Spain and Switzerland (the "Borrowing Base

Guarantors" and, together with the Borrowers, the "Loan Parties"). The borrowing bases in each jurisdiction are subject to certain customary availability reserves set by the Agent.

Guarantees and Security

The Asset-Based Term Facility is guaranteed by the Borrowing Base Guarantors, as well as by the direct parent entities of each Borrowing Base Guarantor (not including Revlon or Products Corporation) on a limited recourse basis (the "Parent Guarantors"). The obligations of the Loan Parties and the Parent Guarantors under the Asset-Based Term Facility are secured by first-ranking pledges of the equity of each Loan Party, the inventory and accounts receivable of the Borrowing Base Guarantors, the material bank accounts of each Loan Party, the material intercompany indebtedness owing to any Loan Party (including any intercompany loans made with the proceeds of the Asset-Based Term Facility) and certain other material assets of the Borrowing Base Guarantors. The Asset-Based Term Facility includes a cash dominion feature customary for transactions of this type.

(except where otherwise noted, all tabular amounts in millions, except share and per share amounts)

Interest and Fees

Interest is payable on each interest payment date as set forth in the Asset-Based Term Agreement, and in any event at least quarterly, and accrues on borrowings under the Asset-Based Term Facility at a rate per annum equal to the EURIBOR rate plus an applicable margin equal to 6.50%. The Borrowers are obligated to pay certain fees and expenses in connection with the Asset-Based Term Facility, including a fee payable to Citibank, N.A. for its services as Agent. Voluntary prepayments and certain mandatory prepayments of the loans under the Asset-Based Term Facility made prior to January 9, 2019 are subject to a 1.0% premium. Loans under the Asset-Based Term Facility may be prepaid without premium or penalty after January 9, 2019.

Affirmative and Negative Covenants

The Asset-Based Term Agreement contains certain affirmative and negative covenants that, among other things, limit the Loan Parties' ability to, subject to various exceptions and qualifications: (i) incur additional debt; (ii) incur liens; (iii) sell, transfer or dispose of assets; (iv) make investments; (v) make dividends and distributions on, or repurchases of, equity; (vi) make prepayments of contractually subordinated or junior lien debt; (vii) enter into certain transactions with their affiliates, including amending certain material intercompany agreements or trade terms; (viii) enter into sale-leaseback transactions; (ix) change their lines of business; (x) restrict dividends from their subsidiaries or restrict liens; (xi) change their fiscal year; and (xii) modify the terms of certain debt. The Parent Guarantors are subject to certain customary holding company covenants. The ability of the Loan Parties to make certain intercompany asset sales, investments, restricted payments and prepayments of intercompany debt is contingent on certain "cash movement conditions" or "payment conditions" being met, which among other things, require a certain level of liquidity for the applicable Loan Party to effect such type of transactions. The Asset-Based Term Agreement also contains certain customary representations, warranties and events of default.

Prepayments

The Borrowers must prepay loans under the Asset-Based Term Facility to the extent that outstanding loans exceed the borrowing base. In lieu of a mandatory prepayment, the Loan Parties may deposit cash in an amount not to exceed 10% of the borrowing base into a designated U.S. bank account with the Agent that is subject to a control agreement (such cash, the "Qualified Cash"). If any such over-advance has not been cured within 60 days, the Qualified Cash may be applied, at the Agent's option, to prepay the loans under the Asset-Based Term Facility. To the extent certain levels of availability are obtained during a certain period of time, the Borrowers can withdraw the Qualified Cash from such bank account. In addition, the Asset-Based Term Facility is subject to mandatory prepayments from the net proceeds from the incurrence by the Loan Parties of debt not permitted thereunder.

Classification of Argentina's Economy as Highly Inflationary

In May 2018, the International Practices Task Force of the Center for Audit Quality issued a discussion document, which notes that the three-year cumulative inflation rate in Argentina exceeded 100%. As a result, the country was considered highly inflationary in accordance with U.S. GAAP by no later than June 30, 2018. Consequently, the Company will begin to account for the operations of its Argentinian affiliate as highly inflationary and treat the U.S. dollar as the functional currency of this affiliate, effective July 1, 2018. As the net assets of the Company's Argentinian affiliate are not significant to the Company, the change in functional currency is not expected to have a material impact on the Company's results of operations, financial condition and/or financial statement disclosures.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

Overview of the Business

Revlon, Inc. ("Revlon" and together with its subsidiaries, the "Company") conducts its business exclusively through its direct wholly-owned operating subsidiary, Revlon Consumer Products Corporation ("Products Corporation"), and its subsidiaries. Revlon is an indirect majority-owned subsidiary of MacAndrews & Forbes Incorporated (together with certain of its affiliates other than the Company, "MacAndrews & Forbes"), a corporation wholly-owned by Ronald O. Perelman.

Effective January 1, 2018, the Company operates in four new brand-centric reporting segments, that are aligned with its new organizational structure based on four global brand teams: Revlon; Elizabeth Arden; Portfolio; and Fragrances. The Company manufactures, markets and sells an extensive array of beauty and personal care products worldwide, including color cosmetics; fragrances; skin care; hair color, hair care and hair treatments; beauty tools; men's grooming products; anti-perspirant deodorants; and other beauty care products.

Overview of Net Sales and Earnings Results

Consolidated net sales in the second quarter of 2018 were \$606.8 million, a \$38.9 million decrease, or 6.0%, as compared to \$645.7 million in the second quarter of 2017. Excluding the \$8.2 million favorable impact of foreign currency fluctuations (referred to herein as "FX", "XFX" or on an "XFX basis"), consolidated net sales decreased by \$47.1 million, or 7.3%, during the second quarter of 2018. The XFX decrease in the second quarter of 2018 was due to: a \$33.6 million, or 11.6%, decline in Revlon segment net sales; and a \$18.2 million, or 16.3%, decline in Fragrances segment net sales; partially offset by a \$2.8 million, or 2.0%, increase in Portfolio segment net sales; and a \$1.9 million, or 1.9%, increase in Elizabeth Arden segment net sales.

Consolidated net sales in the first six months of 2018 were \$1,167.5 million, a \$73.1 million decrease, or 5.9%, compared to \$1,240.6 million in the first six months of 2017. Excluding the \$28.2 million favorable impact of foreign currency fluctuations, consolidated net sales decreased by \$101.3 million, or 8.2%, during the first six months of 2018. The XFX decrease in the first six months of 2018 was due to: a \$56.4 million, or 10.6%, decline in Revlon segment net sales; a \$38.3 million, or 17.4%, decline in Fragrances segment net sales; and a \$13.4 million, or 4.6%, decline in Portfolio segment net sales; partially offset by a \$6.8 million, or 3.5%, increase in Elizabeth Arden segment net sales.

Consolidated loss from continuing operations, net of taxes, in the second quarter of 2018 was \$121.4 million, compared to consolidated loss from continuing operations, net of taxes, of \$37.1 million in the second quarter of 2017. The \$84.3 million increase in consolidated loss from continuing operations, net of taxes, in the second quarter of 2018 was primarily due to:

\$30.1 million of lower gross profit, primarily due to lower net sales;

\$29.6 million of unfavorable variance in foreign currency, resulting from \$20.2 million in foreign currency losses during the second quarter of 2018, as compared to \$9.4 million of foreign currency gains during the second quarter of 2017;

a \$20.1 million loss, of which \$18.6 million was non-cash, related to the write-off of the Company's minority investment in a licensee after agreeing to wind-down the contract and revert the trademark rights to the Company following a brief transition period;

•

\$16.2 million of higher SG&A expenses, primarily driven by higher incentive compensation mainly due to timing, higher severance costs, unfavorable currency translation, higher costs related to product displays and higher distribution costs due to geographic mix; and

a \$6.1 million increase in interest expense, primarily due to higher borrowings under the 2016 Revolving Credit Facility;

with the foregoing partially offset by:

\$14.7 million decrease in the provision for income taxes, primarily due to the increased loss from continuing operations before income taxes, partially offset by changes resulting from the enactment of the Tax Cuts and Jobs Act of 2017 (the "Tax Act"), including the reduction of the U.S. federal income tax rate (which provided for less of a benefit on the Company's year-to-date loss), the U.S. tax on the Company's foreign earnings under the GILTI provisions of the Tax Act, and a reduced deduction for executive compensation under Section 162(m) of the Internal Revenue Code ("Section 162(m)").

REVLON, INC AND SUBSIDIARIES

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(all tabular amounts in millions, except share and per share amounts)

Consolidated loss from continuing operations, net of taxes, in the first six months of 2018 was \$213.1 million, compared to consolidated loss from continuing operations, net of taxes, of \$74.8 million in the first six months of 2017. The \$138.3 million increase in consolidated loss from continuing operations, net of taxes, in the first six months of 2018 was primarily due to:

\$41.4 million of lower gross profit, primarily due to lower net sales;

\$34.1 million of higher SG&A expenses, primarily driven by unfavorable currency translation, higher costs related to product displays, higher severance due to changes in senior executive management and higher distribution costs due to geographic mix;

\$23.3 million of unfavorable variance in foreign currency, resulting from \$9.6 million in foreign currency losses during the first six months of 2018, compared to \$13.7 million in foreign currency gains during the first six months of 2017;

\$22.6 million decrease in the benefit from income taxes, primarily due to the mix and level of earnings, as well as changes resulting from the enactment of the Tax Act, including the reduction of the U.S. federal income tax rate (which provided for less of a benefit on the Company's year-to-date loss), the U.S. tax on the Company's foreign earnings under the GILTI provisions of the Tax Act, and a reduced deduction for executive compensation under Section 162(m), partially offset by a reduction in the liability that had been established in prior periods pursuant to Accounting Principles Board 23, "Indefinite Reinvestment Assertion" ("APB 23").

a \$20.1 million loss, of which \$18.6 million was non-cash, related to the write-off of the Company's minority investment in a licensee after agreeing to wind-down the contract and revert the trademark rights to the Company following a brief transition period; and

a \$11 million increase in interest expense, primarily due to higher borrowings under the 2016 Revolving Credit Facility;

with the foregoing partially offset by:

a \$18.9 million decrease in acquisition and integration costs.

Net sales in the first six months of 2018 were negatively impacted by service level disruptions that occurred at the Company's Oxford, N.C. manufacturing facility resulting from the launch of a new SAP enterprise resource planning ("ERP") system, as previously disclosed in the Revlon's 2017 Form 10-K. This launch impacted the Company's ability to manufacture certain quantities of finished goods and fulfill shipments to retail customers in the U.S. and internationally and is estimated to have resulted in approximately \$50 million of lower net sales during the first six months of 2018 particularly internationally, as well as approximately \$33 million of incremental charges incurred mainly related to actions that the Company has implemented to remediate the decline in customer service levels. As of June 30, 2018, the Oxford, N.C. manufacturing facility was operating at full capacity and the Company is continuing to re-fill inventories across its retail partners, particularly internationally.

Recent Developments

Foreign Asset-Based Term Loan Credit Agreement

In July 2018, several subsidiaries of Products Corporation entered into an Asset-Based Term Loan Credit Agreement ("Asset-Based Term Facility" and the "Asset-Based Term Agreement," respectively) with Citibank, N.A., acting as administrative agent and collateral agent (the "Agent"). The Asset-Based Term Facility provided the Company with a euro-denominated senior secured asset-based term loan in an aggregate principal amount of €77 million. The Asset-Based Term Agreement requires the maintenance of a borrowing base, calculated based on the sum of: (i) 85% of eligible accounts receivable; and (ii) 90% of the net orderly liquidation value of eligible inventory, in each case

with respect to certain of Products Corporation's subsidiaries organized in Australia, Bermuda, Germany, Italy, Spain and Switzerland. To the extent that loans outstanding under the Asset-Based Term Facility exceed the borrowing base, the borrowers must prepay loans, subject to certain conditions. See Note 17, "Subsequent Events" for additional information regarding the Asset-Based Term Facility.

Classification of Argentina's Economy as Highly Inflationary

In May 2018, the International Practices Task Force of the Center for Audit Quality issued a discussion document, which notes that the three-year cumulative inflation rate in Argentina exceeded 100%. As a result, the country was considered highly inflationary in accordance with U.S. GAAP by no later than June 30, 2018. 2018 Senior Line of Credit Facility

In June 2018, Products Corporation entered into a 2018 Senior Unsecured Line of Credit Agreement (the "2018 Senior Line of Credit Agreement") providing Products Corporation with a \$50 million senior unsecured line of credit facility (the "2018 Senior Line of Credit Facility") from MacAndrews & Forbes Incorporated, Revlon's majority stockholder. At such time, MacAndrews & Forbes Incorporated, together with its affiliates, beneficially owned 44,573,187 shares of Revlon's Class A common stock, representing approximately 84.4% of Revlon's outstanding shares of voting capital stock. The 2018 Senior Line of Credit Facility allows Products Corporation to request loans thereunder and to use the proceeds of such loans for working capital and other general corporate purposes until the facility matures on December 31, 2018.

Any loans outstanding under the 2018 Senior Line of Credit Facility bear interest at an annual rate of 8%, which is payable quarterly in arrears in cash on September 30, 2018 and at maturity. Products Corporation may, at its option, prepay any borrowings under the 2018 Senior Line of Credit Facility, in whole or in part (together with accrued and unpaid interest), at any time prior to maturity, without premium or penalty. Products Corporation is required to repay any outstanding loans under the 2018 Senior Line of Credit Facility, together with accrued interest thereon, if and to the extent that: (i) Products Corporation or any of its subsidiaries enters into a new financing agreement under which it or any of its subsidiaries is then able to draw; or (ii) for any reason Products Corporation or any of its subsidiaries has available unrestricted cash that Products Corporation determines, in its reasonable judgment, is not required to run their operations in the ordinary course of business, provided that such repayment under this clause (ii) would not result in material adverse tax consequences.

The 2018 Senior Line of Credit Agreement includes customary events of default, including a cross default provision making it an event of default under the 2018 Senior Line of Credit Agreement if there exists and continues an event of default under Products Corporation's existing bank term loan and revolver credit agreements or the indentures for Products Corporation's 5.75% Senior Notes or 6.25% Senior Notes. If any such event of default occurs, MacAndrews & Forbes Incorporated may declare all outstanding loans under the 2018 Senior Line of Credit Facility to be due and payable immediately. See Note 7, "Long Term Debt" for additional information regarding the 2018 Senior Line of Credit Facility.

April 2018 Amendment to 2016 Revolving Credit Facility

In April 2018, Products Corporation entered into an amendment and restatement to the Original 2016 Revolving Credit Agreement with Citibank, N.A., acting as administrative agent, collateral agent, issuing lender, local fronting lender and swingline lender and the other issuing lenders (the "Revolver Amendment," and the Original 2016 Revolving Credit Agreement as amended by the Revolver Amendment, the "2016 Revolving Credit Agreement," and together with the 2016 Term Loan Agreement being the "2016 Credit Agreements"). Pursuant to the Revolver Amendment, a new \$41.5 million senior secured first in, last out tranche (the "Tranche B") was established under the 2016 Revolving Credit Agreement and the existing \$400 million tranche under the Original 2016 Revolving Credit Facility (and as in effect after the Revolver Amendment, the "2016 Revolving Credit Facility," and together with the 2016 Term Loan Facility, being the "2016 Senior Credit Facilities") became a senior secured last in, first out tranche (the "Tranche A," and together with the Tranche B, the "Tranches"). As a result of the Revolver Amendment, the borrowing base under the 2016 Revolving Credit Facility was increased to approximately \$385 million, compared to a borrowing base of approximately \$350 million at March 31, 2018, and provided the Company with an additional \$35 million of available borrowing capacity upon entering into the Revolver Amendment, which increased to \$40.1

million as of June 30, 2018, which was fully drawn at such date.

The Revolver Amendment provided for the availability and repayment terms of each Tranche, as well as terms governing the payment priorities between the Tranches. Other amendments to the Original 2016 Revolving Credit Facility under the Revolver Amendment included (i) an increase of \$15 million to the cap on amounts eligible for inclusion in the borrowing base relating to certain assets located in jurisdictions other than the U.S., Puerto Rico, Canada, and the U.K.; (ii) a reduction to the amount of additional debt generally permitted to be incurred; (iii) a reduction in the amount of incremental debt under 2016 Term Loan Agreement permitted to be incurred pursuant to the 2016 Revolving Credit Agreement; (iv) the removal of temporary increases to the borrowing base between August 15th and October 31st of each year; (v) an increase to threshold conditions in respect of the ability to make certain dividends and distributions on equity during the term of the Tranche B; and (vi) an amendment to the calculation of the financial covenant. See Note 7, "Long Term Debt" for additional information regarding the Revolver Amendment.

Operating Segments

The Company operates in four new reporting segments: Revlon; Elizabeth Arden; Portfolio; and Fragrances:

Revlon - The Revlon segment is comprised of the Company's flagship Revlon brands. Revlon segment products are primarily marketed, distributed and sold in the mass retail channel, large volume retailers, chain drug and food stores, chemist shops, hypermarkets, general merchandise stores, e-commerce sites, television shopping, department stores, professional hair and nail salons, one-stop shopping beauty retailers, specialty cosmetic stores and perfumeries in the U.S. and internationally under brands such as Revlon in color cosmetics; Revlon ColorSilk and Revlon Professional in hair color; Revlon in beauty tools; and Revlon in nail color.

Elizabeth Arden - The Elizabeth Arden segment is comprised of the Company's Elizabeth Arden branded products. The Elizabeth Arden segment markets, distributes and sells fragrances, skin care and color cosmetics primarily to prestige retailers, department and specialty stores, perfumeries, boutiques, e-commerce sites, the mass retail channel, travel retailers and distributors, as well as direct sales to consumers via its Elizabeth Arden branded retail stores and ElizabethArden.com e-commerce business under brands such as Elizabeth Arden Ceramide, PreVage, Eight Hour, SUPERSTART, Visible Difference and Skin Illuminating in the Elizabeth Arden skin care brands; and Elizabeth Arden White Tea, Elizabeth Arden Red Door, Elizabeth Arden 5th Avenue and Elizabeth Arden Green Tea in Elizabeth Arden fragrances.

Portfolio - The Company's Portfolio segment markets, distributes and sells a comprehensive line of premium, specialty and mass products primarily to the mass retail channel, hair and nail salons and professional salon distributors in the U.S. and internationally and large volume retailers, specialty and department stores under brands such as Almay and SinfulColors in color cosmetics; CND in nail polishes and nail enhancements, including CND Shellac and CND Vinylux nail polishes; Cutex in nail care products; Pure Ice in nail polishes; American Crew in men's grooming products; and Mitchum in anti-perspirant deodorants. The Portfolio segment also includes a multi-cultural hair care line consisting of Creme of Nature hair care products, which are sold in both professional salons and in large volume retailers and other retailers, primarily in the U.S.; and a body care line under the Natural Honey brand and hair color line under the Llongueras brand (licensed from a third party) that are both sold in the mass retail channel, large volume retailers and other retailers, primarily in Spain.

Fragrances - The Fragrances segment includes the development, marketing and distribution of certain owned and licensed fragrances, as well as the distribution of prestige fragrance brands owned by third parties. These products are typically sold to retailers in the U.S. and internationally, including prestige retailers, specialty stores, e-commerce sites, the mass retail channel, travel retailers and other international retailers. The owned and licensed fragrances include brands such as Juicy Couture, John Varvatos, All Saints, La Perla, Wildfox, Charlie, Curve, Elizabeth Taylor, Britney Spears, Christina Aguilera, Shawn Mendes, Halston, Ed Hardy, Geoffrey Beene, Alfred Sung, Giorgio Beverly Hills, Lucky Brand, Paul Sebastian, White Shoulders and Jennifer Aniston.

Second quarter results:

Consolidated net sales in the second quarter of 2018 were \$606.8 million, a \$38.9 million decrease, or 6.0%, compared to \$645.7 million in the second quarter of 2017. Excluding the \$8.2 million favorable FX impact, consolidated net sales decreased by \$47.1 million, or 7.3%, during the second quarter of 2018. The XFX decrease in the second quarter of 2018 was due to: a \$33.6 million, or 11.6%, decline in the Revlon segment net sales; and a \$18.2

million, or 16.3%, decline in the Fragrances segment net sales; partially offset by a \$2.8 million, or 2.0%, increase in Portfolio segment net sales; and a \$1.9 million, or 1.9%, increase in Elizabeth Arden segment net sales.

Year-to-date-results:

Consolidated net sales in the first six months of 2018 were \$1,167.5 million, a \$73.1 million decrease, or 5.9%, compared to \$1,240.6 million in the first six months of 2017. Excluding the \$28.2 million favorable FX impact, consolidated net sales decreased by \$101.3 million, or 8.2%, during the first six months of 2018. The XFX decrease in the first six months of 2018 was due to: a \$56.4 million, or 10.6%, decline in the Revlon segment net sales; a \$38.3 million, or 17.4%, decline in the Fragrances segment net sales; and a \$13.4 million, or 4.6%, decline in the Portfolio segment net sales; partially offset by a \$6.8 million, or 3.5%, increase in the Elizabeth Arden segment net sales.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(all tabular amounts in millions, except share and per share amounts)

See "Segment Results" below for further discussion of net sales by segment.

Segment Results:

The Company's management evaluates segment profit for each of the Company's reportable segments. Effective January 1, 2018, the Company allocates corporate expenses to each reportable segment to arrive at segment profit, as these expenses are now included in the internal measure of segment operating performance. The Company defines segment profit as income from continuing operations before interest, taxes, depreciation, amortization, gains/losses on foreign currency fluctuations, gains/losses on the early extinguishment of debt and miscellaneous expenses. Segment profit also excludes the impact of certain items that are not directly attributable to the segments' underlying operating performance. The Company does not have any material inter-segment sales. For a reconciliation of segment profit to income from continuing operations before income taxes, see Note 13, "Segment Data and Related Information," to the Unaudited Consolidated Financial Statements in this Form 10-Q.

The following tables provide a comparative summary of the Company's segment results for the periods presented.

Revlon Segment

Second quarter results:

Revlon segment net sales in the second quarter of 2018 were \$258.3 million, a \$31.2 million, or 10.8%, decrease compared to \$289.5 million in the second quarter of 2017. Excluding the \$2.4 million favorable FX impact, total Revlon segment net sales in the second quarter of 2018 decreased by \$33.6 million, or 11.6%, compared to the second quarter of 2017. This decrease was driven by lower net sales of Revlon color cosmetics and Revlon ColorSilk hair color, primarily internationally due to the Oxford, N.C. service level disruptions, in addition to consumption declines in North America.

Revlon segment profit in the second quarter of 2018 was \$36.5 million, a \$17.4 million, or 32.3%, decrease compared to \$53.9 million in the second quarter of 2017. This decrease was primarily driven by lower net sales.

REVLON, INC AND SUBSIDIARIES

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(all tabular amounts in millions, except share and per share amounts)

Year-to-date results:

Revlon segment net sales in the first six months of 2018 were \$487.4 million, a \$45.9 million, or 8.6%, decrease compared to \$533.3 million in the first six months of 2017. Excluding the \$10.5 million favorable FX impact, total Revlon segment net sales in the first six months of 2018 decreased by \$56.4 million, or 10.6%, compared to the first six months of 2017. This decrease was driven by lower net sales of Revlon color cosmetics and Revlon ColorSilk hair color, primarily internationally due to the Oxford, N.C. service level disruptions, in addition to consumption declines in North America.

Revlon segment profit in the first six months of 2018 was \$38.8 million, a \$36.9 million, or 48.7%, decrease compared to \$75.7 million in the first six months of 2017. Excluding the \$0.5 million favorable FX impact, Revlon segment profit in the first six months of 2018 decreased by \$37.4 million, or 49.4%, compared to the first six months of 2017. This decrease was primarily driven by lower net sales.

Elizabeth Arden Segment

Second quarter results:

Elizabeth Arden segment net sales in the second quarter of 2018 were \$106.1 million, a \$5.0 million, or 4.9%, increase compared to \$101.1 million in the second quarter of 2017. Excluding the \$3.1 million favorable FX impact, total Elizabeth Arden net sales in the second quarter of 2018 increased by \$1.9 million, or 1.9%, compared to the second quarter of 2017. This increase was primarily driven primarily by higher net sales of Elizabeth Arden skin care products, including Ceramide and Prevenge, internationally.

Elizabeth Arden segment loss in the second quarter of 2018 was \$5.8 million, compared to a profit of \$1.1 million in the second quarter of 2017. Excluding the \$0.1 million favorable FX impact, Elizabeth Arden segment profit in the second quarter of 2018 decreased by \$7.0 million, compared to the second quarter of 2017. This decrease was primarily driven by higher distribution costs associated with geographic mix and brand support expenses, partially offset by the higher net sales.

Year-to-date results:

Elizabeth Arden segment net sales in the first six months of 2018 were \$211.8 million, a \$15 million, or 7.6%, increase compared to \$196.8 million in the first six months of 2017. Excluding the \$8.2 million favorable FX impact, Elizabeth Arden net sales in the first six months of 2018 increased by \$6.8 million, compared to the first six months of 2017. This increase was primarily driven by higher net sales of Elizabeth Arden skin care products, including Ceramide and Prevenge, internationally.

Elizabeth Arden segment loss in the first six months of 2018 was \$4.3 million, compared to a segment profit of \$0.7 million in the first six months of 2017. Excluding the \$0.6 million favorable FX impact, Elizabeth Arden segment profit in the first six months of 2018 decreased by \$5.6 million, compared to the first six months of 2017. This decrease was primarily driven by higher distribution costs associated with geographic mix and brand support expenses, partially offset by higher net sales and lower costs of sales.

Portfolio Segment

Second quarter results:

Portfolio segment net sales in the second quarter of 2018 were \$147.6 million, a \$4.2 million, or 2.9%, increase compared to \$143.4 million in the second quarter of 2017. Excluding the \$1.4 million favorable FX impact, total Portfolio segment net sales in the second quarter of 2018 increased by \$2.8 million, or 2.0%, compared to the second quarter of 2017. This increase was driven primarily by higher net sales of Almay color cosmetics following the relaunch of the brand and lower sales incentives, as well as higher net sales of CND nail products as a result of Shellac nail polish innovation.

Portfolio segment loss in the second quarter of 2018 was \$5.1 million, a \$3.6 million decrease compared to \$1.5 million of Portfolio segment loss in the second quarter of 2017. This decrease was primarily driven by higher brand support expenses, partially offset by higher net sales.

Year-to-date results:

Portfolio segment net sales in the first six months of 2018 were \$282.1 million, a \$7.9 million, or 2.7%, decrease compared to \$290 million in the first six months of 2017. Excluding the \$5.5 million favorable FX impact, total Portfolio segment net sales in the first six months of 2018 decreased by \$13.4 million, compared to the first six months of 2017. This decrease was driven primarily by lower net sales of Cutex nail care products, Mitchum anti-perspirant deodorant products and American Crew men's grooming products.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(all tabular amounts in millions, except share and per share amounts)

Portfolio segment loss in the first six months of 2018 was \$7.9 million. Excluding the \$0.4 million favorable FX impact, Portfolio segment profit in the first six months of 2018 decreased by \$8.3 million compared to the first six months of 2017. This decrease was primarily driven by the segment's lower net sales and higher brand support expenses, partially offset by lower cost of sales and distribution expenses.

Fragrances Segment

Second quarter results:

Fragrance segment net sales in the second quarter of 2018 were \$94.8 million, a \$16.9 million, or 15.1%, decrease compared to \$111.7 million in the second quarter of 2017. Excluding the \$1.3 million favorable FX impact, total Fragrance segment net sales in the second quarter of 2018 decreased by \$18.2 million, or 16.3%, compared to the second quarter of 2017. This decrease was driven primarily by the loss of certain licenses in 2018 and lower net sales of other licensed fragrances within the mass retail channel.

Fragrance segment profit in the second quarter of 2018 was \$11.1 million, a \$3.1 million, or 38.8%, increase compared to \$8.0 million in the second quarter of 2017. Excluding the \$0.1 million favorable FX impact, Fragrance segment profit in the second quarter of 2018 increased by \$3.0 million, or 37.5%, compared to the second quarter of 2017. This increase was primarily driven by the realization of cost reductions principally associated with insourcing production capabilities, partially offset by the segment's lower net sales.

Year-to-date results:

Fragrance segment net sales in the first six months of 2018 were \$186.2 million, a \$34.3 million, or 15.6%, decrease compared to \$220.5 million in the first six months of 2017. Excluding the \$4.0 million favorable FX impact, total Fragrance segment net sales in the first six months of 2018 decreased by \$38.3 million, or 17.4%, compared to the first six months of 2017. This decrease was driven primarily by the loss of certain licenses in 2018 and lower net sales of other licensed fragrances within the mass retail channel.

Fragrance segment profit in the first six months of 2018 was \$14.3 million, a \$2.4 million, or 15.6%, decrease compared to \$16.7 million in the first six months of 2017. Excluding the \$0.2 million favorable FX impact, Fragrance segment profit in the first six months of 2018 decreased by \$2.6 million, or 15.6%, compared to the first six months of 2017. This decrease was primarily driven by the segment's lower net sales, partially offset by the realization of cost reductions associated with insourcing production capabilities.

Revlon Segment

Second quarter results:

North America

In North America, Revlon segment net sales in the second quarter of 2018 decreased by \$12.0 million, or 7.5%, to \$148.9 million, compared to \$160.9 million in the second quarter of 2017. Excluding the \$0.4 million favorable FX impact, Revlon segment net sales in North America in the second quarter of 2018 decreased by \$12.4 million, or 7.7%, compared to the second quarter of 2017. This decrease was primarily due to lower net sales of Revlon color cosmetics due to consumption declines within the U.S. mass retail channel and lower net sales of Revlon ColorSilk hair color.

In North America, Revlon segment net sales in the first six months of 2018 decreased by \$30.0 million, or 10.2%, to \$265.1 million, compared to \$295.1 million in the first six months of 2017. Excluding the \$0.8 million favorable FX impact, Revlon segment net sales in North America in the first six months of 2018 decreased by \$30.8 million, or 10.4%, compared to the first six months of 2017. This decrease was primarily due to lower net sales of Revlon color cosmetics as a result of consumption declines within the U.S. mass retail channel, as well as declines in net sales of Revlon ColorSilk hair color.

International

Internationally, Revlon segment net sales in the first six months of 2018 decreased by \$15.9 million, or 6.7%, to \$222.3 million, compared to \$238.2 million in the first six months of 2017. Excluding the \$9.7 million favorable FX impact, Revlon segment International net sales in the first six months of 2018 decreased by \$25.6 million, or 10.7%, compared to the first six months of 2017. This decrease was driven primarily by lower net sales of Revlon color cosmetics, primarily resulting from the Oxford, N.C. service level disruptions discussed above.

Elizabeth Arden Segment

Second quarter results:

North America

In North America, Elizabeth Arden segment net sales in the second quarter of 2018 decreased by \$2.1 million, or 7.2%, to \$27 million, compared to \$29.1 million in the second quarter of 2017. Excluding the \$0.3 million favorable FX impact, Elizabeth Arden segment net sales in North America in the second quarter of 2018 decreased by \$2.4 million, or 8.2%, compared to the second quarter of 2017. This decrease was primarily due to decreases in net sales of Elizabeth Arden branded color cosmetics driven primarily by store closures for certain of the Company's retail customers.

International

Internationally, Elizabeth Arden segment net sales in the second quarter of 2018 increased by \$7.1 million, or 9.9%, to \$79.1 million, compared to \$72.0 million in the second quarter of 2017. Excluding the \$2.8 million favorable FX

impact, Elizabeth Arden segment International net sales in the second quarter of 2018 increased by \$4.3 million, or 6.0%, compared to the second quarter of 2017. This increase was driven primarily by higher net sales of skin care products within the Company's EMEA and Asia regions.

Gross profit:

The table below shows the Company's gross profit and gross margin for the periods presented:

	Three Months			Six Months Ended		
	Ended June 30,		Change	June 30,		Change
	2018	2017		2018	2017	
Gross profit	\$347.2	\$377.3	\$(30.1)	665.3	\$706.7	\$(41.4)
Percentage of net sales	57.2 %	58.4 %	(1.2)%	57.0 %	57.0 %	— %

Second quarter results:

Gross profit decreased by \$30.1 million in the second quarter of 2018, as compared to the second quarter of 2017.

Gross profit decreased as a percentage of net sales in the second quarter of 2018 by 1.2 percentage points, compared to the second quarter of 2017. The drivers of the decrease in gross margin in the second quarter of 2018, as compared to the second quarter of 2017, primarily included:

the impact of additional costs related to the service level disruptions at the Company's Oxford, N.C. manufacturing facility, which decreased gross margin by 5.6 percentage points;

higher sales allowances, which decreased gross margin by 1.6 percentage points; and

higher inventory obsolescence reserves, which decreased gross margin by 1.3 percentage points;

with the foregoing offset by:

cost reductions associated with insourcing of production capabilities, which increased gross margin by 2.7 percentage points;

favorable foreign currency fluctuations, which increased gross margin by 2.0 percentage points; and

lower sales returns reserves, which increased gross margin by 1.6 percentage points.

Unfavorable sales volume decreased gross profit in the second quarter of 2018 by approximately \$35 million, compared to the second quarter of 2017, with no impact on gross margin.

Year-to-date results:

Gross profit decreased by \$41.4 million in the first six months of 2018, as compared to the first six months of 2017. Gross profit as a percentage of net sales in the first six months of 2018 was essentially flat compared to the first six months of 2017, driven primarily by:

- favorable foreign currency fluctuations, which increased gross margin by 4.5 percentage points;
- additional inventory costs in the first half of 2017 related to the increase in the fair value of inventory acquired in the

Elizabeth Arden Acquisition, that did not recur in the first half of 2018, resulting in an increase in gross margin of 4.3 percentage points; and

- cost reductions associated with insourcing of production capabilities, which increased gross margin by 3.9 percentage points;

with the foregoing offset by:

- the impact of additional costs related to the service level disruptions at the Company's Oxford, N.C. manufacturing facility, which decreased gross margin by 8.3 percentage points;
- higher inventory obsolescence reserves, which decreased gross margin by 2.9 percentage points; and
- higher sales allowances, which decreased gross margin by 1.6 percentage points.

Unfavorable sales volume decreased gross profit in the first six months of 2018 by approximately \$75 million, compared to the first six months of 2017, with no impact on gross margin.

SG&A expenses:

The table below shows the Company's SG&A expenses for the periods presented:

	Three Months Ended June 30,			Six Months Ended June 30,		
	2018	2017	Change	2018	2017	Change

SG&A expenses	\$374.6	\$358.4	\$ 16.2	746.3	712.2	\$ 34.1
---------------	---------	---------	---------	-------	-------	---------

SG&A expenses increased by \$16.2 million in the second quarter of 2018, compared to the second quarter of 2017, primarily driven by:

- higher general and administrative expenses of approximately \$6 million, primarily driven by higher incentive compensation mainly due to timing and higher severance, partially offset by lower professional and legal fees;
- \$5.6 million of unfavorable FX impacts;
- higher product display costs, primarily within the Revlon segment;
- and

higher distribution costs, primarily due to geographic mix.

SG&A expenses increased by \$34.1 million in the first six months of 2018, compared to the first six months of 2017, primarily driven by:

- \$17.6 million of unfavorable FX impacts;
- higher product display costs, primarily within the Revlon segment;
- higher general and administrative expenses of approximately \$10 million, primarily driven by higher severance due to changes in senior executive management and higher professional and legal fees; and
- higher distribution costs, primarily due to geographic mix.

Acquisition and Integration Costs:

The table below shows the Company's acquisition and integration costs for the periods presented:

	Three Months Ended June 30,			Six Months Ended June 30,		
	2018	2017	Change	2018	2017	Change
Acquisition Costs	\$—	\$1.4	\$(1.4)	\$0.1	\$2.0	\$(1.9)

Total acquisition and integration costs	\$4.6	\$10.0	\$(5.4)	\$8.6	\$27.5	\$(18.9)

The Company incurred \$4.6 million of integration costs in the second quarter of 2018, as a result of the Company's integration of Elizabeth Arden's operations into the Company's business, including professional fees and employee-related costs.

The Company incurred \$10.0 million of acquisition and integration costs in the second quarter of 2017, primarily related to the Elizabeth Arden Acquisition.

The Company incurred \$8.6 million of acquisition and integration costs in the first six months of 2018, consisting primarily of \$8.5 million of integration costs related to the integration of Elizabeth Arden and \$0.1 million of acquisition costs. The integration

costs consisted of non-restructuring costs related to the Company's integration of Elizabeth Arden's operations into the Company's business, including professional fees and employee related costs.

The Company incurred \$27.5 million of acquisition and integration costs in the first six months of 2017, primarily related to the Elizabeth Arden Acquisition.

EA Integration Restructuring Program

During the second quarter of 2018, the Company recorded \$3.9 million of charges related to restructuring and related actions under the EA Integration Restructuring Program. Of these charges, \$4.7 million reflect additional charges related to severance and other personnel costs, which were offset by a \$0.8 million reduction recorded in cost of sales. During the first six months of 2018, the Company recorded \$8.4 million of charges related to restructuring and related actions under the EA Integration Restructuring Program. Of these charges: (a) \$8.1 million were recorded in restructuring charges and included \$9.9 million of severance and other personnel costs, offset by a \$1.8 million reduction in lease termination costs; and (b) \$0.3 million were recorded in cost of sales.

As of June 30, 2018, to further implement the EA Integration Restructuring Program, the Company anticipates recognizing approximately \$90 million to \$95 million of total pre-tax restructuring and related charges consisting of: (i) approximately \$70 million to \$75 million of employee-related costs, including severance, retention and other contractual termination benefits; (ii) approximately \$10 million of lease termination costs; and (iii) approximately \$10 million of other related charges.

For further discussion on the EA Integration Restructuring Program and the Company's other restructuring initiatives, see Note 2, "Restructuring Charges," to the Unaudited Consolidated Financial Statements in this Form 10-Q.

Loss on disposal of minority investment:

Loss on disposal of minority investment	\$20.1	\$ -20.1	\$ 20.1	\$ 20.1	\$ -20.1	\$ 20.1

The \$20.1 million loss on disposal of minority investment in the three and six months ended June 30, 2018, of which \$18.6 million was non-cash, related to the write-off of the Company's minority investment in a licensee after agreeing to wind-down the contract and revert the trademark rights to the Company following a brief transition period. See Note 1, "Description of Business and Summary of Significant Accounting Policies," for further information.

Interest expense:

Interest expense	\$42.8	\$36.7	\$ 6.1	\$82.7	\$71.7	\$ 11.0

The \$6.1 million increase in interest expense in the second quarter of 2018, as compared to the second quarter of 2017, and the \$11 million increase in interest expense in the first six months of 2018, as compared to the first six months of 2017, were primarily due to higher average interest rates on the 2016 Term Loan Facility and higher average borrowings under the 2016 Revolving Credit Facility.

Foreign currency losses (gains), net	\$20.2	\$(9.4)	\$ 29.6	\$9.6	\$(13.7)	\$ 23.3

The \$20.2 million in foreign currency losses, net, during the second quarter of 2018, compared to \$9.4 million in foreign currency gains, net, during the second quarter of 2017, was primarily driven by the net unfavorable impact of the revaluation of certain U.S. Dollar denominated intercompany payables and foreign currency denominated receivables.

The \$9.6 million in foreign currency losses, net, during the first six months of 2018, compared to \$13.7 million in foreign currency gains, net, during the first six months of 2017, was primarily driven by the net unfavorable impact of the revaluation of certain U.S. Dollar denominated intercompany payables and foreign currency denominated receivables.

(Benefit from) provision for income taxes:

The table below shows the Company's (benefit from) provision for income taxes for the periods presented:

	Three Months Ended June 30,			Six Months Ended June 30,		
	2018	2017	Change	2018	2017	Change
(Benefit from) provision for income taxes	\$(2.8)	\$11.9	\$(14.7)	\$(4.4)	\$(27.0)	\$ 22.6

The \$14.7 million decrease in the Company's provision for income taxes in the second quarter of 2018, as compared to the second quarter of 2017, was primarily due to the increased loss from continuing operations before income taxes, partially offset by changes resulting from the enactment of the Tax Act, including the reduction of the U.S. federal income tax rate (which provided for less of a benefit on the Company's year-to-date loss), the U.S. tax on the Company's foreign earnings under the GILTI provisions of the Tax Act and a reduced deduction for executive compensation under Section 162(m).

The \$22.6 million reduction in the Company's benefit from income taxes in the first six months of 2018, as compared to the first six months of 2017, was primarily due to the mix and level of earnings, as well as changes resulting from the Tax Act, including the reduction of the U.S. federal income tax rate (which provided for less of a tax benefit on the Company's year to date loss), the limitation on interest deductions (which resulted in a deferred deduction on which the Company has a full valuation allowance), the U.S. tax on the Company's foreign earnings under the GILTI provisions of the Tax Act, and a reduced deduction for executive compensation under Section 162(m), partially offset by the impact of reducing the Company's liability under APB 23.

The Company's effective tax rate for the three months ended June 30, 2018 was lower than the federal statutory rate of 21% as a result of nondeductible expenses for interest and executive compensation, as well as the U.S. taxation of the Company's foreign earnings under the GILTI provisions of the Tax Act. See Note 11, "Income Taxes," for a further discussion of the impact of the Tax Act on the Company's provision for income taxes.

The Company's effective tax rate for the six months ended June 30, 2018 was lower than the federal statutory rate of 21% as a result of nondeductible expenses for interest and executive compensation, as well as the U.S. taxation of the Company's foreign earnings under the GILTI provisions of the Tax Act, partially offset by the impact of reducing the Company's liability under APB 23. See Note 11, "Income Taxes," for a further discussion of the impact of the Tax Act on the Company's provision for income taxes.

The Company expects that its tax provision and effective tax rate in any individual quarter and year-to-date period will vary and may not be indicative of the Company's tax provision and effective tax rate for the full year.

Financial Condition, Liquidity and Capital Resources

At June 30, 2018, the Company had a liquidity position of \$106.5 million, consisting of: (i) \$81.6 million of unrestricted cash and cash equivalents; (ii) \$35.0 million in available borrowing capacity under the 2018 Senior Line of Credit Facility, which had \$15 million outstanding at such date; (iii) \$6.5 million in available borrowing capacity under Products Corporation's 2016 Revolving Credit Facility, based upon the borrowing base of \$436.7 million, less \$9.8 million of outstanding undrawn letters of credit and \$376.7 million of borrowings outstanding under the 2016 Revolving Credit Facility at such date; and less (iv) \$16.6 million of outstanding checks. Under the 2016 Revolving Credit Facility, as Products Corporation's consolidated fixed charge coverage ratio at June 30, 2018 was less than 1.0 to 1.0, it was required to maintain, out of the \$50.2 million of availability, a \$43.7 million Liquidity Amount (as defined in Note 7, "Long-Term Debt") at such date.

In April 2018, Products Corporation amended the 2016 Revolving Credit Facility (the "Revolver Amendment"), as a result of which the borrowing base under the 2016 Revolving Credit Facility was increased to approximately \$385 million, compared to a borrowing base of approximately \$350 million at March 31, 2018, and provided the Company with an additional \$35 million of available borrowing capacity upon entering into the Revolver Amendment, which availability increased to \$40.1 million as of June 30, 2018, which was fully drawn at such date. In June 2018, Products Corporation obtained the \$50 million Senior Line of Credit Facility from MacAndrews & Forbes Incorporated. See Note 7, "Long Term Debt" for information regarding the April 2018 Revolver Amendment to the 2016 Revolving Credit Facility and the 2018 Senior Line of Credit Facility.

In July 2018, certain of the Company's subsidiaries entered into the Asset-Based Term Agreement with Citibank, N.A., acting as administrative agent and collateral agent, which provides the Company with a euro-denominated senior secured asset-based term loan facility in an aggregate principal amount of €77 million, which was fully drawn on the closing date. The Asset-Based Term Agreement requires the maintenance of a borrowing base, calculated based on the sum of: (i) 85% of eligible accounts receivable; and (ii) 90% of the net orderly liquidation value of eligible inventory, in each case with respect to certain of Products Corporation's subsidiaries organized in Australia, Bermuda, Germany, Italy, Spain and Switzerland. To the extent that loans outstanding under the Asset-Based Term Facility exceed the borrowing base, the borrowers must prepay loans, subject to certain conditions. The Asset-Based Term Facility has an uncommitted incremental facility pursuant to which it may be increased from time to time by up to €43 million, subject to certain conditions and the agreement of the lenders providing such increase. See Note 17, "Subsequent Events," for additional information regarding the Asset-Based Term Facility.

After giving effect to this transaction, the Company's available liquidity as of July 31, 2018 was approximately \$163.7 million, consisting of: (i) \$81.3 million of unrestricted cash and cash equivalents (including, without limitation, the cash available from the Asset-Based Term Loan Facility); (ii) \$50 million in available borrowing capacity under the 2018 Senior Line of Credit Facility; (iii) \$46.5 million in available borrowing capacity under the 2016 Revolving Credit Facility (which had \$362.8 million drawn at such date); and less (iv) \$14.1 million of outstanding checks. The Company has continued to repatriate cash to the U.S. using tax-effective methods as part of continuing to effectively manage its working capital needs.

The Company's foreign operations held \$75.8 million out of its total \$81.6 million in cash and cash equivalents as of June 30, 2018. The cash held by the Company's foreign operations is primarily used to fund such operations. The Company regularly assesses its cash needs and the available sources of cash to fund these needs. As part of this assessment, the Company determines the amount of foreign earnings, if any, that it intends to repatriate to help fund its domestic cash needs, including for the Company's debt service obligations, and pays applicable U.S. income and

foreign withholding taxes, if any, on such earnings to the extent repatriated, and otherwise records a tax liability for the estimated cost of repatriation in a future period. During 2018, the Company has continued to repatriate funds to the U.S. through the settlement of historical loans and payables due from certain foreign subsidiaries. The Company believes that the cash generated by its domestic operations, cash on hand, (including, without limitation, cash provided by the Asset-Based Term Facility), availability under the 2016 Revolving Credit Facility, the 2018 Senior Line of Credit Facility and other permitted lines of credit, as well as the option to further settle intercompany loans and payables with certain foreign subsidiaries, should be sufficient to meet its domestic liquidity needs for at least the next 12 months. Therefore, the Company currently anticipates that restrictions and/or taxes on repatriation of foreign earnings will not have a material effect on the Company's liquidity during such period.

In December 2017, the U.S. government enacted the Tax Act, which made broad and complex changes to the U.S. tax code, including a one-time transition tax on certain non-U.S. earnings, the current U.S. taxation of certain foreign earnings in 2018 and following years and limitations on tax deductions for interest expense in 2018 and following years. The Company currently expects that it will not have a transition tax liability due to its deficit in foreign earnings as of the applicable measurement dates, and that the limitation on interest deductibility will not impact the Company's 2018 federal cash taxes due to its net operating loss carryover position. As a result, the Company currently expects that the Tax Act will not have a material impact on its cash taxes or liquidity in 2018. See Note 11, "Income Taxes" in this Form 10-Q, as well as Note 16, "Income Taxes," to the Consolidated Financial Statements and Item 1A. Risk Factors - "U.S. income tax reform efforts could have a material impact on the Company's financial condition, results of operations and/or cash flows" in Revlon's 2017 Form 10-K for a further discussion.

Changes in Cash Flows

At June 30, 2018, the Company had cash, cash equivalents and restricted cash of \$82.3 million, compared with \$87.4 million at December 31, 2017. The following table summarizes the Company's cash flows from operating, investing and financing activities for the periods presented:

	Six Months Ended	
	June 30,	
	2018	2017
Net cash used in operating activities	\$(190.1)	\$(139.2)
Net cash used in investing activities	(29.8)	(39.6)
Net cash provided by financing activities	216.9	67.4
Effect of exchange rate changes on cash and cash equivalents	(2.1)	8.3
Net decrease in cash, cash equivalents and restricted cash	(5.1)	(103.1)
Cash, cash equivalents and restricted cash at beginning of period	87.4	186.8
Cash, cash equivalents and restricted cash at end of period	\$82.3	\$83.7

Operating Activities

Net cash used in operating activities was \$190.1 million and \$139.2 million for the first six months of 2018 and 2017, respectively. The increase in cash used in the first six months of 2018, compared to the first six months of 2017, was primarily driven by a higher net loss as a result of lower net sales, partially offset by favorable working capital changes compared to the prior year period.

Investing Activities

Net cash used in investing activities was \$29.8 million and \$39.6 million for the first six months of 2018 and 2017, respectively, which was entirely comprised of capital expenditures. Capital expenditures in the first six months of 2018 included approximately \$8.3 million for Elizabeth Arden integration-related investments.

Financing Activities

Net cash provided by financing activities was \$216.9 million and \$67.4 million for the first six months of 2018 and 2017, respectively.

Net cash provided by financing activities for the first six months of 2018 primarily included: \$219.7 million of borrowings under the 2016 Revolving Credit Facility; and

a \$13.2 million net increase in short-term borrowings, primarily driven by \$15 million in borrowings under the 2018 Senior Line of Credit Facility;
 with the foregoing partially offset by:
 \$9.0 million of repayments under the 2016 Term Loan Facility.
 Net cash provided by financing activities for the first six months of 2017 primarily included:
 \$87.5 million of borrowings under the 2016 Revolving Credit Facility;
 with the foregoing partially offset by:
 \$9.0 million of repayments under the 2016 Term Loan Facility; and
 a \$6.7 million decrease in short-term borrowings and overdraft.

Long-Term Debt Instruments

See discussion above regarding the Revolver Amendment, the 2018 Senior Line of Credit Facility and the Asset-Based Term Facility. See also Note 7, "Long Term Debt" and Note 17, "Subsequent Events" for information regarding these facilities. For further detail regarding Products Corporation's long-term debt instruments, see Note 11, "Long-Term Debt," to the Consolidated Financial Statements, as well as "Management's Discussion and Analysis of Financial Condition and Results of Operations - Financial Condition, Liquidity and Capital Resources," in Revlon's 2017 Form 10-K.

Covenants

Products Corporation was in compliance with all applicable covenants under the 2016 Credit Agreements and the 2018 Senior Line of Credit Agreement as of June 30, 2018. At June 30, 2018, the aggregate principal amounts outstanding and availability under Products Corporation's various credit facilities were as follows:

	Aggregate principal amount outstanding at June 30, 2018	Availability at June 30, 2018*
Tranche A of the 2016 Revolving Credit Facility*	\$ 336.6	\$ 50.2
Tranche B of the 2016 Revolving Credit Facility**	40.1	—
2018 Senior Line of Credit Facility	15.0	35.0

(*) Based upon the calculated borrowing base of \$396.6 million, less \$9.8 million of outstanding undrawn letters of credit and \$336.6 million then drawn. As Products Corporation's consolidated fix charge coverage ratio at June 30, 2018 was less than 1.0 to 1.0, it was required to maintain availability under the 2016 Revolving Credit Facility in an amount in excess of the \$43.7 million Liquidity Amount at such date, as a result of which the Company had approximately \$6.5 million in available borrowing capacity under the 2016 Revolving Credit Facility as of June 30, 2018.

(**) Based upon the calculated borrowing base of \$40.1 million, which was fully drawn at June 30, 2018.

Products Corporation was in compliance with all applicable covenants under its Senior Notes Indentures as of June 30, 2018, with there being \$500 million and \$450 million in aggregate principal amount outstanding under the 5.75% Senior Notes and 6.25% Senior Notes, respectively, as of June 30, 2018. As Products Corporation's consolidated fixed charge coverage ratio at June 30, 2018 was less than 1.0 to 1.0, it was required to maintain availability under the 2016 Revolving Credit Facility in an amount in excess of the \$43.7 million Liquidity Amount at such date, as a result of which the Company had approximately \$6.5 million in available borrowing capacity under the 2016 Revolving Credit Facility as of June 30, 2018.

Sources and Uses

The Company's principal sources of funds are expected to be operating revenues, cash on hand (including, without limitation, cash provided by the Asset-Based Term Facility) and funds that may be available from time to time for borrowing under the 2016 Revolving Credit Facility, the 2018 Senior Line of Credit Facility and other permitted lines of credit. The 2016 Credit Agreements, the Senior Notes Indentures and the Asset-Based Term Agreement contain

certain provisions that by their terms limit Products Corporation's and its subsidiaries' ability to, among other things, incur additional debt.

The Company's principal uses of funds are expected to be the payment of operating expenses, including payments in connection with the Company's synergy and integration programs related to the Elizabeth Arden Acquisition (including, without limitation, for the EA Integration Restructuring Program); purchases of permanent wall displays; capital expenditure requirements; debt service payments and costs; cash tax payments; pension and other post-retirement benefit plan contributions; payments in connection with the Company's restructuring programs; severance not otherwise included in the Company's restructuring programs; business and/or brand acquisitions (including, without limitation, through licensing transactions), if any; debt and/or equity repurchases, if any; costs related to litigation; and payments in connection with discontinuing non-core business lines and/or exiting and/or entering certain territories and/or channels of trade.

The Company's cash contributions to its pension and post-retirement benefit plans in the first six months of 2018 were \$3.8 million. The Company expects that cash contributions to its pension and post-retirement benefit plans will be approximately \$10 million in the aggregate for 2018. The Company's cash taxes paid in the first six months of 2018 were \$6.5 million. The Company expects to pay cash taxes of approximately \$15 million to \$20 million in the aggregate during 2018. In December 2017, the U.S. government enacted the Tax Act, which made broad and complex changes to the U.S. tax code, including a one-time transition tax on certain non-U.S. earnings, the current U.S. taxation of certain foreign earnings in 2018 and following years, and limitations on tax deductions for interest expense in 2018 and following years. The Company currently expects that it will not have a transition tax liability due to its deficit in foreign earnings as of the applicable measurement dates, and that the limitation on interest deductibility will not impact the Company's 2018 federal cash taxes due to its net operating loss carryover position. As a result, the Company currently expects that the Tax Act will not have a material impact on its cash taxes or liquidity in 2018. See Note 11, "Income Taxes" in this Form 10-Q, as well as Note 16, "Income Taxes," to the Consolidated Financial Statements and Item 1A. Risk Factors - "U.S. income tax reform efforts could have a material impact on the Company's financial condition, results of operations and/or cash flows" in Revlon's 2017 Form 10-K for a further discussion.

The Company's purchases of permanent wall displays and capital expenditures in the first six months of 2018 were \$35.6 million and \$29.8 million, respectively. Capital expenditures for the first six months of 2018 included approximately \$8.3 million of spend for the EA Integration Restructuring Program. The Company expects that purchases of permanent wall displays will be approximately \$55 million to \$70 million during 2018 and expects that capital expenditures will be approximately \$90 million to \$110 million during 2018.

The Company has undertaken, and continues to assess, refine and implement, a number of programs to efficiently manage its working capital, including, among other things, initiatives intended to optimize inventory levels over time; centralized procurement to secure discounts and efficiencies; prudent management of trade receivables and accounts payable; and controls on general and administrative spending. In the ordinary course of business, the Company's source or use of cash from operating activities may vary on a quarterly basis as a result of a number of factors, including the timing of working capital flows.

During February 2018, the Company launched its new ERP system in the U.S., which caused its Oxford, N.C. manufacturing facility to experience service level disruptions that had impacted the Company's ability to manufacture certain quantities of finished goods and fulfill shipments to retail customers in the U.S. In response, the Company implemented a robust service recovery plan and is continuing to resolve the customer service level disruptions resulting from the launch of the new ERP system. As of June 30, 2018, the Oxford, N.C. manufacturing facility was operating at full capacity and the Company is continuing to re-fill inventories across its retail partners, particularly internationally. The Company continues to believe that its current sources of liquidity, consisting of operating revenues, cash on hand (including, without limitation, cash provided by the Asset-Based Term Facility) and funds that may be available from time to time for borrowing under the 2016 Revolving Credit Facility, the 2018 Senior Line of Credit and other permitted lines of credit, are sufficient. See Note 7, "Long Term Debt" for information regarding the 2016 Revolving Credit Facility, the 2018 Senior Line of Credit Facility and the April 2018 Revolver Amendment to the 2016 Revolving Credit Facility. See Note 17, "Subsequent Events" for additional information regarding the Asset-Based Term Facility. See also Item 1A. "Risk Factors" in Revlon's 2017 Form 10-K for further discussion regarding the Company's implementation of its new ERP system and those related to the Company's substantial

indebtedness.

Continuing to execute the Company's business initiatives could include taking advantage of additional opportunities to reposition, repackage or reformulate one or more brands or product lines, launching additional new products, acquiring businesses or brands (including, without limitation, through licensing transactions), divesting or discontinuing non-core business lines (which may include exiting certain territories), further refining the Company's approach to retail merchandising and/or taking further actions to optimize its manufacturing, sourcing and organizational size and structure, including optimizing the Elizabeth Arden Acquisition. Any of these actions, the intended purpose of which would be to create value through improving the Company's financial performance, could result in the Company making investments and/or recognizing charges related to executing against such opportunities. Any such activities may be funded with operating revenues, cash on hand (including, without limitation, cash provided by the Asset-Based Term Facility), funds that may be available from time to time under the 2016 Revolving Credit Facility, the 2018 Senior Line of Credit, other permitted lines of credit and/or other permitted additional sources of capital, which actions could increase the Company's total debt.

The Company may also, from time-to-time, seek to retire or purchase its outstanding debt obligations and/or equity in open market purchases, block trades, privately negotiated purchase transactions or otherwise and may seek to refinance some or all of its indebtedness based upon market conditions. Any such retirement or purchase of debt and/or equity may be funded with operating cash flows of the business or other sources and will depend upon prevailing market conditions, liquidity requirements, contractual restrictions and other factors, and the amounts involved may be material.

The Company expects that operating revenues, cash on hand (including, without limitation, cash provided by the Asset-Based Term Facility) and funds that may be available from time-to-time for borrowing under the 2016 Revolving Credit Facility, the 2018 Senior Line of Credit and other permitted lines of credit will be sufficient to enable the Company to pay its operating expenses for 2018, including payments in connection with the Company's synergy and integration programs related to the Elizabeth Arden Acquisition, purchases of permanent wall displays, capital expenditures, debt service payments and costs, cash tax payments, pension and other post-retirement plan contributions, payments in connection with the Company's restructuring programs, severance not otherwise included in the Company's restructuring programs, business and/or brand acquisitions (including, without limitation, through licensing transactions), if any, debt and/or equity repurchases, if any, costs related to litigation, discontinuing non-core business lines and/or entering and/or exiting certain territories and/or channels of trade.

There can be no assurance that available funds will be sufficient to meet the Company's cash requirements on a consolidated basis, as, among other things, the Company's liquidity can be impacted by a number of factors, including its level of sales, costs and expenditures, as well as accounts receivable and inventory, which serve as the principal variables impacting the amount of liquidity available under Products Corporation's 2016 Revolving Credit Facility and the Asset-Based Term Facility. For example, subject to certain exceptions, loans under the Asset-Based Term Facility must be prepaid to the extent that outstanding loans exceed the borrowing base, consisting of accounts receivable and inventory.

If the Company's anticipated level of revenues is not achieved because of, among other things, decreased consumer spending in response to weak economic conditions or weakness in the consumption of beauty care products in one or more of the Company's segments; adverse changes in foreign currency exchange rates, foreign currency controls and/or government-mandated pricing controls; decreased sales of the Company's products as a result of increased competitive activities by the Company's competitors and/or decreased performance by third-party suppliers; changes in consumer purchasing habits, including with respect to retailer preferences and/or sales channels, such as due to the consumption declines in core beauty categories in the mass retail channel in North America, which continues to have a negative impact on net sales of Revlon color cosmetics, Almay color cosmetics, SinfulColors color cosmetics and Mitchum anti-perspirant deodorant products; inventory management by the Company's customers; space reconfigurations or reductions in display space by the Company's customers; store closures in the brick-and-mortar channels where the Company sells its products, as consumers continue to shift purchases to online and e-commerce channels; changes in pricing, marketing, advertising and/or promotional strategies by the Company's customers; or less than anticipated results from the Company's existing or new products or from its advertising, promotional, pricing and/or marketing plans; or if the Company's expenses, including, without limitation, for synergy and integration programs related to the Elizabeth Arden Acquisition, capital expenditures, restructuring and severance costs,

acquisition and integration costs, costs related to litigation, advertising, promotional and marketing activities or for sales returns related to any reduction of space by the Company's customers, product discontinuances or otherwise, exceed the anticipated level of expenses, the Company's current sources of funds may be insufficient to meet the Company's cash requirements.

Any such developments, if significant, could reduce the Company's revenues and operating income and could adversely affect Products Corporation's ability to comply with certain financial and/or other covenants under the 2016 Credit Agreements, the Senior Notes Indentures, the 2018 Senior Line of Credit Agreement and/or the Asset-Based Term Agreement and in such event the Company could be required to take measures, including, among other things, reducing discretionary spending. (See Item 1A. "Risk Factors" in Revlon's 2017 Form 10-K for further discussion of certain risks associated with the Company's business and indebtedness.)

Derivative Financial Instruments

Foreign Currency Forward Exchange Contracts

Products Corporation enters into FX Contracts from time-to-time primarily for the purpose of hedging anticipated inventory purchases and certain intercompany payments denominated in currencies other than the local currencies of the Company's foreign and domestic operations and generally have maturities of less than one year. At June 30, 2018 and December 31, 2017, the U.S. Dollar notional amount of the FX Contracts outstanding was nil and \$147.1 million, respectively. The FX Contracts outstanding had a net liability fair value of \$0.1 million at June 30, 2018.

Interest Rate Swap Transaction

In November 2013, Products Corporation executed a forward-starting floating-to-fixed interest rate swap transaction (the "2013 Interest Rate Swap") that, at its inception, was based on a notional amount of \$400 million in respect of indebtedness under the Old Acquisition Term Loan. The 2013 Interest Rate Swap, which initially had a floor of 1%, that in December 2016 was amended to 0.75%, expired in May 2018. Refer to Note 9, "Financial Instruments" for more information on this interest rate swap transaction.

Credit Risk

Exposure to credit risk in the event of nonperformance by any of the counterparties to the Company's outstanding hedging instruments is limited to the gross fair value of the derivative instruments in asset positions, which totaled \$0.3 million and \$0.6 million as of June 30, 2018 and December 31, 2017, respectively. The Company attempts to minimize exposure to credit risk by generally entering into derivative contracts with counterparties that have investment-grade credit ratings and are major financial institutions. The Company also periodically monitors any changes in the credit ratings of its counterparties. Given the current credit standing of the counterparties to the Company's derivative instruments, the Company believes the risk of loss arising from any non-performance by any of the counterparties under these derivative instruments is remote.

Disclosures about Contractual Obligations and Commercial Commitments

As of June 30, 2018, there were no material changes to the Company's total contractual cash obligations, as set forth in the contractual obligations and commercial commitments disclosure included in Revlon's 2017 Form 10-K, with the exception of the Company's amendment to the 2016 Revolving Credit Facility in April 2018 and the 2018 Senior Line of Credit Facility entered into with MacAndrews & Forbes in June 2018. See Note 7, "Long Term Debt" for information regarding the April 2018 Revolver Amendment to the 2016 Revolving Credit Facility and the 2018 Senior Line of Credit Facility and also see Note 17, "Subsequent

Interest on long-term debt	831.0	88.6	345.0	275.7	121.7

Off-Balance Sheet Transactions

The Company does not maintain any off-balance sheet transactions, arrangements, obligations or other relationships with unconsolidated entities or others that are reasonably likely to have a material current or future effect on the Company's financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Interest Rate Sensitivity

The Company has exposure to changing interest rates, primarily under Products Corporation's 2016 Senior Credit Facilities, as well as the Asset-Based Term Facility entered into in July 2018. The Company manages interest rate risk through a combination of fixed-and-floating rate debt. From time-to-time, the Company makes use of derivative financial instruments to adjust its fixed-and-floating rate ratio. The Company does not hold or issue financial instruments for speculative or trading purposes.

The qualitative and quantitative information presented in Item 7A of Revlon's 2017 Form 10-K ("Item 7A") describes significant aspects of the Company's financial instrument program that have material market risk as of December 31, 2017. The following tables present this information as required by Item 7A as of June 30, 2018.

Expected Maturity Date for the Year Ended December 31,
(dollars in millions, except for rate information)

^(a) Weighted average variable rates are based upon implied forward rates from the U.S. Dollar LIBOR and Euribor yield curves at June 30, 2018.

Includes \$15 million of borrowings at June 30, 2018 under the 2018 Senior Line of Credit Agreement between

^(b) Products Corporation and MacAndrews & Forbes Incorporated, a related party. See Note 7, "Long-term Debt," for more information.

^(c) Includes total quarterly amortization payments required for each year under the 2016 Term Loan Facility and borrowings under the 2016 Revolving Credit Facility.

^(d) At June 30, 2018, the interest rate for the 2016 Term Loan Facility was the Eurodollar Rate (as defined in the 2016 Term Loan Agreement) plus 3.5% per annum (with the Eurodollar Rate not to be less than 0.75%). At June 30,

2018, the weighted average interest rate for outstanding Tranche A and Tranche B loans under the 2016 Revolving Credit Facility was 4.3% per annum, which is based primarily on the Eurodollar Rate plus the applicable margins. See Revlon's 2017 Form 10-K for information on the 2016 Revolving Credit Facility and Note 7, "Long Term Debt" in this Form 10-Q for information regarding the April 2018 Revolver Amendment to the 2016 Revolving Credit Facility.

If any of LIBOR, Euribor, the base rate, the U.S. federal funds rate or such equivalent local foreign currency rate increases, Products Corporation's debt service costs will increase to the extent that Products Corporation has elected such rates for its outstanding loans. Based on the amounts outstanding under the 2016 Senior Credit Facilities and other short-term borrowings (which, in the aggregate, are Products Corporation's only debt subject to floating interest rates as of June 30, 2018), a 1% increase in both the LIBOR and Euribor rates would increase the Company's annual interest expense by approximately \$21.8 million as of June 30, 2018.

Item 4. Controls and Procedures

(a) Disclosure Controls and Procedures. The Company maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in the Company's reports under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to management, including the Company's Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. The Company's management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the Company's disclosure controls and procedures as of the end of the fiscal period covered by this Quarterly Report on Form 10-Q. Based upon such evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of such period, the Company's disclosure controls and procedures were effective.

(b) Changes in Internal Control Over Financial Reporting ("ICFR"). There have not been any changes in the Company's internal control over financial reporting during the quarter ended June 30, 2018 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting. During February 2018, the Company implemented its new ERP system that supports a significant portion of the Company's business in North America, which resulted in certain changes to the Company's processes and procedures. While this new ERP implementation has resulted in service level disruptions in the Company's Oxford, N.C. manufacturing facility, the ERP implementation has not materially affected, nor is it reasonably likely to materially affect, the Company's ICFR.

Forward-Looking Statements

This Quarterly Report on Form 10-Q for the interim period ended June 30, 2018, as well as the Company's other public documents and statements, may contain forward-looking statements that involve risks and uncertainties, which are subject to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. These forward-looking statements are based on the beliefs, expectations, estimates, projections, assumptions, forecasts, plans, anticipations, targets, outlooks, initiatives, visions, objectives, strategies, opportunities, drivers, focus and intents of the Company's management. While the Company believes that its estimates and assumptions are reasonable, the Company cautions that it is very difficult to predict the impact of known and unknown factors, and, of course, it is impossible for the Company to anticipate all factors that could affect its results. The Company's actual results may differ materially from those discussed in such forward-looking statements. Such statements include, without limitation, the Company's expectations, plans and estimates (whether qualitative or quantitative) as to:

- (i) the Company's future financial performance and/or sales growth;
 - the effect on sales of decreased consumer spending in response to weak economic conditions or weakness in the consumption of beauty care products in one or more of the Company's segments; adverse changes in foreign currency exchange rates, foreign currency controls and/or government-mandated pricing controls; decreased sales of the Company's products as a result of increased competitive activities by the Company's competitors and/or decreased performance by third-party suppliers, changes in consumer purchasing habits, including with respect to retailer preferences and/or among sales channels, such as due to the consumption declines in core beauty categories in the mass retail channel in North America; inventory management by the Company's customers; inventory de-stocking by certain retail customers; space reconfigurations or reductions in display space by the Company's
- (ii) customers; store closures in the brick-and-mortar channels where the Company sells its products, as consumers continue to shift purchases to online and e-commerce channels; changes in pricing, marketing, advertising and/or promotional strategies by the Company's customers; less than anticipated results from the Company's existing or new products or from its advertising, promotional, pricing and/or marketing plans; or if the Company's expenses, including, without limitation, for pension expense under its benefit plans, acquisition and acquisition-related integration costs, capital expenditures, costs related to the Company's synergy and integration programs in connection with the Elizabeth Arden Acquisition, restructuring and severance costs, costs related to litigation, advertising, promotional and marketing activities, or for sales returns related to any reduction of space by the Company's customers, product discontinuances or otherwise, exceed the anticipated level of expenses;
 - the Company's belief that continuing to execute its business initiatives could include taking advantage of additional opportunities to reposition, repackage or reformulate one or more brands or product lines, launching additional new products, acquiring businesses or brands (including through licensing transactions, if any), divesting or discontinuing non-core business lines (which may include exiting certain territories), further refining its approach to retail merchandising and/or taking further actions to optimize its manufacturing, sourcing and
- (iii) organizational size and structure, including optimizing the Elizabeth Arden Acquisition, any of which, the intended purpose would be to create value through improving the Company's financial performance, could result in the Company making investments and/or recognizing charges related to executing against such opportunities, which activities may be funded with operating revenues, cash on hand, funds available under the 2016 Revolving Credit Facility, the 2018 Senior Line of Credit Facility and/or other permitted additional sources of capital, which actions could increase the Company's total debt;
 - certain beliefs and expectations regarding actions that the Company is pursuing to implement a robust service
- (iv) recovery plan and that it is making significant progress in resolving the customer service level disruptions resulting from the launch of its new ERP system;
- (v) the effect of restructuring activities, restructuring costs and charges, the timing of restructuring payments and the benefits from such activities, including, without limitation: in connection with implementing the EA Integration Restructuring Program: (1) consolidating offices, eliminating certain duplicative activities and streamlining back-office support (which are designed to reduce the Company's SG&A expenses) and (2) recognizing

approximately \$90 million to \$95 million of the EA Integration Restructuring Charges (all of which are expected to be cash payments), consisting of: (i) approximately \$70 million to \$75 million of employee-related costs, including severance, retention and other contractual termination benefits; (ii) approximately \$10 million of lease termination costs; and (iii) approximately \$10 million of other related charges;

the Company's expectation that operating revenues, cash on hand (including, without limitation, cash provided by the Asset-Based Term Facility) and funds that may be available from time to time for borrowing under Products Corporation's 2016 Revolving Credit Facility, the 2018 Senior Line of Credit Facility and other permitted lines of credit will be sufficient to enable the Company to cover its operating expenses for 2018, including the cash requirements referred to in item (ix) below, and the Company's belief that (a) the cash generated by its domestic (vi) operations, cash on hand (including, without limitation, cash provided by the Asset-Based Term Facility), availability under the 2016 Revolving Credit Facility, the 2018 Senior Line of Credit Facility and other permitted lines of credit, as well as the option to further settle intercompany loans and payables with certain foreign subsidiaries, should be sufficient to meet its domestic liquidity needs for at least the next 12 months and (b) restrictions and/or taxes on repatriation of foreign earnings will not have a material effect on the Company's liquidity during such period;

the Company's expected principal sources of funds, including operating revenues, cash on hand (including, without limitation, cash provided by the Asset-Based Term Facility) and funds available for borrowing under (vii) Products Corporation's 2016 Revolving Credit Facility, the 2018 Senior Line of Credit Facility and other permitted lines of credit, as well as the availability of funds from the Company taking certain measures, including, among other things, reducing discretionary spending;

the Company's expected principal uses of funds, including amounts required for payments in connection with the Company's synergy and integration programs related to the Elizabeth Arden Acquisition (including, without limitation, for the EA Integration Restructuring Program); payments in connection with the Company's purchases of permanent wall displays; capital expenditure requirements; debt service payments and costs; cash tax payments; pension and other post-retirement benefit plan contributions; payments in connection with the Company's restructuring programs; severance not otherwise included in the Company's restructuring programs; business and/or brand acquisitions (including, without limitation, through licensing transactions, if any); debt (viii) and/or equity repurchases, if any; costs related to litigation; and payments in connection with discontinuing non-core business lines and/or exiting and/or entering certain territories and/or channels of trade (including, without limitation, that the Company may also, from time-to-time, seek to retire or purchase its outstanding debt obligations and/or equity in open market purchases, block trades, privately negotiated purchase transactions or otherwise and may seek to refinance some or all of its indebtedness based upon market conditions and that any such retirement or purchase of debt and/or equity may be funded with operating cash flows of the business or other sources and will depend upon prevailing market conditions, liquidity requirements, contractual restrictions and other factors, and the amounts involved may be material); and its estimates of the amount and timing of such operating and other expenses;

(ix) matters concerning the Company's market-risk sensitive instruments, including that any risk of loss under its derivative instruments arising from any non-performance by any of the counterparties is remote;

the Company's expectation to efficiently manage its working capital, including, among other things, initiatives intended to optimize inventory levels over time; centralized procurement to secure discounts and efficiencies; prudent management of trade receivables, accounts payable and controls on general and administrative spending; (x) the effects of service level disruptions to the Company's manufacturing operations as a result of the launch of its new ERP system and actions that the Company is taking to implement a service recovery plan; and the Company's belief that in the ordinary course of business, its source or use of cash from operating activities may vary on a quarterly basis as a result of a number of factors, including the timing of working capital flows;

(xi) the Company's expectations regarding its future net periodic benefit cost for its U.S. and international defined benefit plans;

(xii) the Company's expectation that its tax provision and effective tax rate in any individual quarter and year-to-date period will vary and may not be indicative of the Company's tax provision and effective tax rate for the full year and, with respect to the Tax Act, the Company's expectation that it will not have a transition tax liability due to its deficit in foreign earnings as of the applicable measurement dates, that the Tax Act's limitation on interest

deductibility will not impact the Company's 2018 federal cash taxes due to its net operating loss position, and that the Tax Act will not have a material impact on its cash taxes or liquidity in 2018;

- the Company's belief that the allegations contained in the Third Consolidated Amended Class Action Complaint are without merit and its plans to continue to vigorously defend against them and its belief that the outcome of all pending legal proceedings in the aggregate is not reasonably likely to have a material adverse effect on the
- (xiii) Company's business, prospects, results of operations, financial condition and/or cash flows, but that in light of the uncertainties involved in legal proceedings generally, the ultimate outcome of a particular matter could be material to the Company's operating results for a particular period depending on, among other things, the size of the loss or the nature of the liability imposed and the level of the Company's income for that particular period;
 - (xiv) certain estimates used by management in estimating the fair value of the assets acquired in the Elizabeth Arden Acquisition and in valuing other assets and liabilities; and
 - (xv) the Company's expected benefits and other impacts from the Elizabeth Arden Acquisition.

Statements that are not historical facts, including statements about the Company's beliefs and expectations, are forward-looking statements. Forward-looking statements can be identified by, among other things, the use of forward-looking language such as "estimates," "objectives," "visions," "projects," "forecasts," "focus," "drive towards," "plans," "targets," "strategies," "opportunities," "assumptions," "drivers," "believes," "intends," "outlooks," "initiatives," "expects," "scheduled to," "anticipates," "seeks," "may," "will" or "should" or the negative of those terms, or other variations of those terms or comparable language, or by discussions of strategies, targets, long-range plans, models or intentions. Forward-looking statements speak only as of the date they are made, and except for the Company's ongoing obligations under the U.S. federal securities laws, the Company undertakes no obligation to publicly update any forward-looking statements, whether as a result of new information, future events or otherwise. Investors are advised, however, to consult any additional disclosures the Company made or may make in its 2017 Form 10-K and in its Quarterly Reports on Form 10-Q and Current Reports on Form 8-K, in each case filed with the SEC in 2018 and 2017 (which, among other places, can be found on the SEC's website at <http://www.sec.gov>, as well as on the Company's corporate website at www.revloninc.com). Except as expressly set forth in this Form 10-Q, the information available from time-to-time on such websites shall not be deemed incorporated by reference into this Form 10-Q. A number of important factors could cause actual results to differ materially from those contained in any forward-looking statement. (See also Item 1A. "Risk Factors" in Revlon's 2017 Form 10-K for further discussion of risks associated with the Company's business). In addition to factors that may be described in the Company's filings with the SEC, including this filing, the following factors, among others, could cause the Company's actual results to differ materially from those expressed in any forward-looking statements made by the Company:

- (i) unanticipated circumstances or results affecting the Company's financial performance and or sales growth, including: greater than anticipated levels of consumers choosing to purchase their beauty products through e-commerce and other social media channels and/or greater than anticipated declines in the brick-and-mortar retail channel, or either of those conditions occurring at a rate faster than anticipated; the Company's inability to address the pace and impact of the new commercial landscape, such as its inability to enhance its e-commerce and social media capabilities and/or increase its penetration of e-commerce and social media channels; the Company's inability to drive a successful long-term omni-channel strategy and significantly increase its e-commerce penetration; difficulties, delays and/or the Company's inability to (in whole or in part) develop and implement effective content to enhance its online retail position, improve its consumer engagement across social media platform and/or transform its technology and data to support efficient management of its digital infrastructure; the Company incurring greater than anticipated levels of expenses and/or debt to facilitate the foregoing objectives, which could result in, among other things, less than anticipated revenues and/or profitability; decreased consumer spending in response to weak economic conditions or weakness in the consumption of beauty care products in one or more of the Company's segments; adverse changes in foreign currency exchange rates, foreign currency controls and/or government-mandated pricing controls; decreased sales of the Company's products as a result of increased competitive activities by the Company's competitors; decreased performance by third-party suppliers; and/or supply disruptions at the Company's manufacturing facilities; changes in consumer preferences, such as reduced consumer demand for the Company's color cosmetics and other current products, including new product launches; changes in consumer purchasing habits, including with respect to retailer preferences and/or among sales channels, such as due

to the consumption declines in core beauty categories in the mass retail channel in North America; lower than expected customer acceptance or consumer acceptance of, or less than anticipated results from, the Company's existing or new products; higher than expected store closures in the brick-and-mortar channels where the Company sells its products, as consumers continue to shift purchases to online and e-commerce channels; higher than expected restructuring or severance costs, acquisition costs and/or acquisition-related integration costs and capital expenditures, including, without limitation, costs and expenses related to the EA Integration Restructuring Program; higher than expected pension expense and/or cash contributions under its benefit plans, costs related to litigation, advertising, promotional and/or marketing expenses or lower than expected results from the Company's advertising, promotional, pricing and/or marketing plans; higher than expected sales returns related to any reduction of space by the Company's customers, product discontinuances or otherwise or decreased sales of the Company's existing or new products; actions by the Company's customers, such as greater than expected inventory management and/or de-stocking, and greater than anticipated space reconfigurations or reductions in display space and/or product discontinuances or a greater than expected impact from pricing, marketing, advertising and/or promotional strategies by the Company's customers; and changes in the competitive environment and actions by the Company's competitors, including, among other things, business combinations, technological breakthroughs, implementation of new pricing strategies, new product offerings, increased advertising, promotional and marketing spending and advertising, promotional and/or marketing successes by competitors;

- in addition to the items discussed in (i) above, the effects of and changes in economic conditions (such as volatility in the financial markets, inflation, monetary conditions and foreign currency fluctuations, foreign currency controls and/or government-mandated pricing controls, as well as in trade, monetary, fiscal and tax policies in international markets) and political conditions (such as military actions and terrorist activities);
- (ii) unanticipated costs or difficulties or delays in completing projects associated with continuing to execute the Company's business initiatives or lower than expected revenues or the inability to create value through improving our financial performance as a result of such initiatives, including lower than expected sales, or higher than expected costs, including as may arise from any additional repositioning, repackaging or reformulating of one or more brands or product lines, launching of new product lines, including higher than expected expenses, including for sales returns, for launching its new products, acquiring businesses or brands (including through licensing transactions, if any), divesting or discontinuing non-core business lines (which may include exiting certain territories or converting the Company's go-to-trade structure in certain countries to other business models), further refining its approach to retail merchandising and/or difficulties, delays or increased costs in connection with
- (iii) taking further actions to optimize the Company's manufacturing, sourcing, supply chain or organizational size and structure, including optimizing the Elizabeth Arden Acquisition (including difficulties or delays in and/or the Company's inability to optimally integrate the Elizabeth Arden business, more than expected costs to fully implement such integration or delays in fully implementing the integration and/or less than expected benefits from the EA Integration Restructuring Program, more than expected costs in implementing such program and/or difficulties or delays, in whole or in part, in executing the EA Integration Restructuring Program), as well as the unavailability of cash generated by operations, cash on hand (including, without limitation, cash provided by the Asset-Based Term Facility) and/or funds under the 2016 Revolving Credit Facility, the 2018 Senior Line of Credit Facility or from other permitted additional sources of capital to fund such potential activities;
- difficulties, delays in and/or less than expected results from the Company's efforts to resolve the customer service level disruptions resulting from the launch of its new ERP system, such as the Company's inability to remedy the ERP systems issues in time to recover lost sales; the ERP implementation continuing to disrupt the Company's
- (iv) operations and its ability to fulfill customer orders; the Company incurring greater than expected expedited shipping fees and other unanticipated expenses in connection with the remedial actions; and/or greater than expected customer reaction to the service level disruptions that could lead to decreased shelf space or loss of sales;
- (v) difficulties, delays or unanticipated costs or charges or less than expected cost reductions and other benefits resulting from the Company's restructuring activities, such as (a) difficulties, delays or the inability of the Company to successfully complete the EA Integration Restructuring Program, in whole or in part, which could result in less than expected operating and financial benefits from such actions; (b) difficulties, delays or the inability of the Company to realize, in whole or in part, the anticipated benefits from the EA Integration Restructuring Program, such as difficulties with, delays in or the Company's inability to generate certain reductions

in its SG&A and/or eliminate certain positions; (c) delays in completing the EA Integration Restructuring Program, which could reduce the benefits realized from such activities; (d) higher than anticipated restructuring charges and/or payments in connection with completing the EA Integration Restructuring Program and/or changes in the expected timing of such charges and/or payments; and/or (e) greater than anticipated costs or charges or less than anticipated cost reductions or other benefits from the EA Integration Restructuring Program; and/or (g) the risk that such program may not satisfy the Company's objectives;

lower than expected operating revenues, cash on hand (including, without limitation, cash provided by the Asset-Based Term Facility) and/or funds available under the 2016 Revolving Credit Facility, the 2018 Senior Line of Credit Facility and/or other permitted lines of credit or higher than anticipated operating expenses, such as referred to in clause (ix) below, and/or less than anticipated cash generated by the Company's domestic operations or unanticipated restrictions or taxes on repatriation of foreign earnings;

(vi) the unavailability of funds under Products Corporation's 2016 Revolving Credit Facility, the 2018 Senior Line of Credit Facility or other permitted lines of credit; the unavailability of funds under the Asset-Based Term Facility, (vii) such as due to reductions in the applicable borrowing base that could require certain mandatory prepayments; or the unavailability of funds from difficulties, delays in or the Company's inability to take other measures, such as reducing discretionary spending;

higher than expected operating expenses, sales returns, working capital expenses, integration and/or synergy costs related to the Elizabeth Arden Acquisition, permanent wall display costs, capital expenditures, debt service payments, cash tax payments, cash pension plan contributions, other post-retirement benefit plan contributions and/or net periodic benefit costs for the pension and other post-retirement benefit plans, restructuring costs, (viii) (including, without limitation, in connection with implementing the EA Integration Restructuring Program), severance and discontinued operations not otherwise included in the Company's restructuring programs, debt and/or equity repurchases, costs related to litigation and/or payments in connection with business and/or brand acquisitions (including, without limitation, through licensing transactions, if any), and discontinuing non-core business lines and/or exiting and/or entering certain territories and/or channels of trade;

(ix) interest rate or foreign exchange rate changes affecting the Company and its market-risk sensitive financial instruments and/or difficulties, delays or the inability of the counterparty to perform such transactions;

(x) difficulties, delays or the inability of the Company to efficiently manage its cash and working capital;

lower than expected returns on pension plan assets and/or lower discount rates, which could result in higher than (xi) expected cash contributions, higher net periodic benefit costs and/or less than expected net periodic benefit income;

unexpected significant variances in the Company's tax provision, effective tax rate and/or unrecognized tax benefits, whether due to the enactment of the Tax Act or otherwise, such as due to the issuance of unfavorable (xii) guidance, interpretations, technical clarifications and/or technical corrections legislation by the U.S. Congress, the U.S. Treasury Department or the IRS, unexpected changes in foreign, state or local tax regimes in response to the Tax Act, and/or changes in estimates that may impact the calculation of the Company's tax provisions;

(xiii) unanticipated adverse effects on the Company's business, prospects, results of operations, financial condition and/or cash flows as a result of unexpected developments with respect to the Company's legal proceedings;

(xiv) changes in the fair values of the assets acquired in the Elizabeth Arden Acquisition due to, among other things, unanticipated future performance of the acquired licenses and/or other brands; and/or

(xv) difficulties with, delays in and/or the Company's inability to achieve, in whole or in part, or within the expected timeframe the expected benefits from the Elizabeth Arden Acquisition, such as the Company being unable to successfully implement, in whole or in part, its integration strategies.

Factors other than those listed above could also cause the Company's results to differ materially from expected results. This discussion is provided pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings

The Company is involved in various routine legal proceedings incidental to the ordinary course of its business. The Company believes that the outcome of all pending legal proceedings in the aggregate is not reasonably likely to have a material adverse effect on the Company's business, prospects, results of operations, financial condition and/or cash flows. However, in light of the uncertainties involved in legal proceedings generally, the ultimate outcome of a particular matter could be material to the Company's operating results for a particular period depending on, among other things, the size of the loss or the nature of the liability imposed and the level of the Company's income for that particular period. See Note 21, "Commitments and Contingencies" to the Consolidated Financial Statements in Revlon's 2017 Form 10-K, for further discussion.

As previously disclosed, following the announcement of the execution of the Elizabeth Arden Merger Agreement, several putative shareholder class action lawsuits and a derivative lawsuit were filed challenging the Merger. In addition to the complaints filed on behalf of plaintiffs Parker, Christiansen, Ross and Stein on July 25, 2016, a lawsuit (Hutson v. Elizabeth Arden, Inc., et al., Case No. CACE-16-013566) (referred to as the "Hutson complaint") was filed in the Seventeenth Judicial Circuit in and for Broward County, Florida (the "Court") against Elizabeth Arden, the members of the board of directors of Elizabeth Arden, Revlon, Products Corporation and Acquisition Sub. In general, the Hutson complaint alleges that: (i) the members of Elizabeth Arden's board of directors breached their fiduciary duties to Elizabeth Arden's shareholders with respect to the Merger, by, among other things, approving the Merger pursuant to an unfair process and at an inadequate and unfair price; and (ii) Revlon, Products Corporation and Acquisition Sub aided and abetted the breaches of fiduciary duty by the members of Elizabeth Arden's board of directors. The plaintiff seeks relief similar to that sought in the Parker case.

By Order dated August 4, 2016, all five cases were consolidated by the Court into a Consolidated Amended Class Action. Thereafter, on August 11, 2016, a Consolidated Amended Class Action Complaint was filed, seeking to enjoin defendants from consummating the Merger and/or from soliciting shareholder votes. To the extent that the Merger was consummated, the Consolidated Amended Class Action Complaint seeks to rescind the Merger or recover rescissory or other compensatory damages, along with costs and fees. The grounds for relief set forth in the Consolidated Amended Class Action Complaint in large part track those grounds as asserted in the five individual complaints, as previously disclosed. Class counsel advised that post-consummation of the Merger they were going to file a Second Consolidated Amended Class Action Complaint. The Second Consolidated Amended Class Action Complaint (which superseded the Consolidated Amended Class Action Complaint) was ultimately filed on or about January 26, 2017. Like the Consolidated Amended Class Action complaint, the grounds for relief set forth in the Second Consolidated Amended Class Action Complaint in large part track those grounds as asserted in the five individual complaints.

The defendants' motions to dismiss the Second Consolidated Amended Class Action Complaint were filed on March 28, 2017. Plaintiffs' response was filed on June 6, 2017 and defendants' replies were filed on July 13, 2017. A hearing on the defendants' motion to dismiss was held on September 19, 2017 and on November 20, 2017, the defendants' motion was granted and the case was dismissed, with leave to amend under limited circumstances. On December 8, 2017, plaintiffs filed a Third Amended Complaint, seeking relief on the same grounds sought in the First and Second Amended Complaints, but alleged as direct, as opposed to derivative, claims. On January 12, 2018, the defendants once again moved to dismiss. The motion was heard on March 29, 2018 and the parties await a decision. The Company believes the allegations contained in the Third Consolidated Amended Class Action Complaint are without merit and intends to continue to vigorously defend against them. Additional lawsuits arising out of or relating to the Merger Agreement or the Merger may be filed in the future.

The Company believes that the outcome of all pending legal proceedings in the aggregate is not reasonably likely to have a material adverse effect on the Company's business, prospects, results of operations, financial condition and/or cash flows. However, in light of the uncertainties involved in legal proceedings generally, the ultimate outcome of a particular matter could be material to the Company's operating results for a particular period depending on, among

other things, the size of the loss or the nature of the liability imposed and the level of the Company's income for that particular period.
