

BofA Finance LLC  
Form 424B2  
November 29, 2017

**Filed Pursuant to Rule 424(b)(2)**

**Registration Statement No. 333-213265**

Pricing Supplement dated November 27, 2017.

**BofA Finance LLC**

\$8,628,000

Leveraged Buffered Basket-Linked Notes due December 3, 2019

**Fully and Unconditionally Guaranteed by**

**Bank of America Corporation**

**The notes do not bear interest.** The amount that you will be paid on your notes on the stated maturity date (December 3, 2019) is based on the performance of a weighted basket comprised of the EURO STOXX 50<sup>®</sup> Index (37% weighting), the FTSE<sup>®</sup> 100 Index (23% weighting), the TOPIX<sup>®</sup> (23% weighting), the Swiss Market Index (9% weighting) and the S&P<sup>®</sup>/ASX 200 Index (8% weighting), as measured from the trade date (November 27, 2017) to and including the determination date (November 27, 2019, subject to adjustment). The initial basket level is 100 and the final basket level will equal the sum of the products, as calculated for each basket underlier, of: (i) the final index level divided by (ii) the initial index level (EURO STOXX 50<sup>®</sup> Index (3,564.02), the FTSE<sup>®</sup> 100 Index (7,383.90), the TOPIX<sup>®</sup> (1,776.73), the Swiss Market Index (9,264.39) and the S&P<sup>®</sup>/ASX 200 Index (5,988.773)) multiplied by (iii) the applicable initial weighted value for the basket underlier. If the final basket level on the determination date is greater than the initial basket level, the return on your notes will be positive, subject to the maximum settlement amount (\$1,247.50 for each \$1,000 face amount of your notes). If the final basket level declines by up to 10.00% from the initial basket level, you will receive the face amount of your notes. If the final basket level declines by more than 10.00% from the initial basket level, you will be exposed on a leveraged basis to any decrease in the final basket level beyond 10.00%. In this case, the return on your notes will be negative. You may lose some or all of your investment in the notes.

To determine your payment at maturity, we will calculate the basket return, which is the percentage increase or decrease in the final basket level from the initial basket level. On the stated maturity date, for each \$1,000 face amount of your notes, you will receive an amount in cash equal to:

if the basket return is positive (the final basket level is greater than the initial basket level), the sum of (i) \$1,000 plus (ii) the product of (a) \$1,000 times (b) 3.0 times (c) the basket return, subject to the maximum settlement amount; or

if the basket return is *zero* or *negative* but *not below* -10.00% (the final basket level is *equal to* the initial basket level or is *less than* the initial basket level, but not by more than 10.00%), \$1,000; or

if the basket return is *negative* and is *below* -10.00% (the final basket level is *less than* the initial basket level by more than 10.00%), the *sum* of (i) \$1,000 *plus* (ii) the *product* of (a) approximately 1.1111 *times* (b) the *sum* of the basket return *plus* 10.00% *times* (c) \$1,000.

**Declines in one basket underlier may offset increases in the other basket underliers. Due to the unequal weighting of each basket underlier, the performances of the EURO STOXX 50<sup>®</sup> Index, the FTSE<sup>®</sup> 100 Index and the TOPIX<sup>®</sup> will have a significantly larger impact on your return on the notes than the performance of the Swiss Market Index or the S&P<sup>®</sup>/ASX 200 Index.**

**The notes will not be listed on any securities exchange. Investment in the notes involves certain risks, including the credit risk of BofA Finance LLC (“BofA Finance”), as issuer of the notes, and the credit risk of Bank of America Corporation (“BAC” or the “Guarantor”), as guarantor of the notes. Potential purchasers of the notes should consider the information in “Risk Factors” beginning on page PS-19 of this pricing supplement, page PS-5 of the accompanying product supplement, page S-4 of the accompanying prospectus supplement, and page 7 of the accompanying prospectus.**

*As of the trade date, the initial estimated value of the notes is \$974.50 per \$1,000 in face amount. See “Summary Information” beginning on page PS-6 of this pricing supplement, “Risk Factors” beginning on page PS-19 of this pricing supplement and “Structuring the Notes” on page PS-47 of this pricing supplement for additional information. The actual value of your notes at any time will reflect many factors and cannot be predicted with accuracy.*

Selling Agent

The price to public, underwriting discount and net proceeds listed above relate to the notes we sell initially. We may decide to sell additional notes after the date of this pricing supplement, at prices to public with underwriting discounts and net proceeds that differ from the amounts set forth above. The return (whether positive or negative) on your investment in notes will depend in part on the price to public you pay for such notes.

MLPF&S and any of our other broker-dealer affiliates may use this pricing supplement in the initial sale of the notes. In addition, MLPF&S and any of our other broker-dealer affiliates may use this pricing supplement in a market-making transaction in a note after its initial sale. ***Unless MLPF&S or any of our other broker-dealer affiliates informs the purchaser otherwise in the confirmation of sale, this pricing supplement is being used in a market-making transaction.***

### About Your Prospectus

**INVESTMENT  
THESIS**

You should be  
willing to:

forgo gains  
greater than a  
Maximum  
Settlement  
Amount of  
124.75% of the  
face amount in  
exchange for (i)  
3.0x leveraged  
upside  
participation if the  
Basket Return is  
positive and (ii) a  
buffer against loss  
of principal in the  
event of a decline  
of up to 10.00%  
in the Final  
Basket Level  
relative to the  
Initial Basket  
Level.

forgo interest  
payments and  
accept the risk of  
losing your entire  
investment in  
exchange for the  
potential to earn  
300% of any  
positive Basket  
Return up to a  
Maximum  
Settlement  
Amount of

124.75% of the face amount.

Your maximum return on your notes will not be greater than the return represented by the Maximum Settlement Amount, which such return is 24.75%. You could lose all or a portion of your investment if the Basket Return is less than -10.00%.

**DETERMINING  
THE CASH  
SETTLEMENT  
AMOUNT**

At maturity, for each \$1,000 face amount, the investor will receive (in each case as a percentage of the face amount):

if the Final Basket Level is greater than 100.00% of the Initial Basket Level, 100.00% *plus* 300.00% *times* the Basket Return, subject to a Maximum Settlement Amount of

124.75%;

if the Final Basket Level is between 90.00% and 100.00% of the Initial Basket Level, 100.00%;  
or

if the Final Basket Level is less than 90.00% of the Initial Basket Level, 100.00% *minus* approximately 1.1111% for every 1.00% that the Final Basket Level has declined below 90.00% of the Initial Basket Level.

**If the Final Basket Level declines by more than 10.00% from the Initial Basket Level, the return on the notes will be negative, and the investor could lose their entire investment in the notes.**

## SUMMARY INFORMATION

*We refer to the notes we are offering by this pricing supplement as the “offered notes” or the “notes”. Each of the offered notes has the terms described below. Capitalized terms used but not defined in this pricing supplement have the meanings set forth in the accompanying product supplement, prospectus supplement and prospectus. Unless otherwise indicated or unless the context requires otherwise, all references in this pricing supplement to “we,” “us,” “our,” or similar references are to BofA Finance, and not to BAC (or any other affiliate of BofA Finance).*

*This section is meant as a summary and should be read in conjunction with the accompanying product supplement, prospectus supplement and prospectus. This pricing supplement supersedes any conflicting provisions of the documents listed above.*

### Key Terms

<b>Issuer:</b>	BofA Finance LLC (“BofA Finance”)
<b>Guarantor:</b>	Bank of America Corporation (“BAC”)
<b>Basket Underliers:</b>	The EURO STOXX 50 <sup>®</sup> Index (Bloomberg symbol, “SX5E Index”), as published by STOXX Limited (“STOXX”); the FTSE100 Index (Bloomberg symbol, “UKX Index”), as published by FTSE Russell (“FTSE”); the TOPIX (Bloomberg symbol, “TPX Index”), as maintained by the Tokyo Stock Exchange, Inc. (“TSE”); the Swiss Market Index (Bloomberg symbol, “SMI Index”), as published by SIX Group Ltd. (“SIX Group”); and the S&P ASX 200 Index (Bloomberg symbol, “AS51 Index”), as published by S&P Dow Jones Indices LLC (“S&P”); see “The Basket and the Basket Underliers” below.
<b>Specified Currency:</b>	U.S. dollars (“\$”)
<b>Face Amount:</b>	Each note will have a face amount of \$1,000; \$8,628,000 in the aggregate for all the offered notes; the aggregate face amount of the offered notes may be increased if we, at our sole option, decide to sell an additional amount of the offered notes on a date subsequent to the date of this pricing supplement.
<b>Purchase at Amount Other Than the Face Amount:</b>	The amount we will pay you at the stated maturity date for your notes will not be adjusted based on the price to public you pay for your notes, so if you acquire notes at a premium (or discount) to face amount and hold them to the stated maturity date, it could affect your investment in a number of ways. The return on your investment in such notes will be lower (or higher) than it would have been had you purchased the notes at face amount. Also, the stated Buffer Level would not offer the same measure of protection to your investment as would be the case if you had purchased the notes at face amount. Additionally, the Cap Level would be triggered at a lower (or higher) percentage return than indicated below, relative to your initial investment. See “Risk Factors — If You Purchase Your Notes at a Premium to Face Amount, the Return on Your Investment Will Be Lower Than the Return on Notes Purchased at Face Amount and the Impact of Certain Key Terms of the Notes Will Be Negatively Affected” on page PS-22 of this pricing supplement.
<b>Cash Settlement Amount:</b>	For each \$1,000 face amount of your notes, we will pay you on the stated maturity date an amount in cash equal to:

if the Final Basket Level is *greater than or equal to* the Cap Level, the Maximum Settlement Amount;

if the Final Basket Level is *less than* the Cap Level but *greater than* the Initial Basket Level, the *sum* of (1) \$1,000 *plus* (2) the *product* of (i) \$1,000 *times* (ii) the Upside Participation Rate *times* (iii) the Basket Return;

if the Final Basket Level is *equal to or less than* the Initial Basket Level but *greater than or equal to* the Buffer Level, \$1,000; or

if the Final Basket Level is *less than* the Buffer Level, the *sum* of (1) \$1,000 *plus* (2) the *product* of (i) \$1,000 *times* (ii) the Buffer Rate *times* (iii) the *sum* of the Basket Return *plus* the Buffer Amount. In this case, the cash settlement amount will be less than the face amount of the notes, and you will lose some or all of the

	face amount.
<b>Upside Participation Rate:</b>	300.00%
<b>Maximum Settlement Amount:</b>	\$1,247.50 per \$1,000 face amount of the notes
<b>Cap Level:</b>	108.25% of the Initial Basket Level
<b>Buffer Level:</b>	90.00% of the Initial Basket Level
<b>Buffer Amount:</b>	10.00%
<b>Buffer Rate:</b>	The <i>quotient</i> of the Initial Basket Level <i>divided</i> by the Buffer Level, which equals approximately 111.11%
<b>Trade Date:</b>	November 27, 2017
<b>Original Issue Date (Settlement Date):</b>	December 4, 2017
<b>Determination Date:</b>	November 27, 2019, subject to postponement of up to five scheduled trading days, as set forth in the section “Description of the Notes—Certain Terms of the Notes—Events Relating to Calculation Days” of the accompanying product supplement
<b>Stated Maturity Date:</b>	December 3, 2019, subject to postponement as set forth below and in the section “Description of the Notes—Certain Terms of the Notes—Events Relating to Calculation Days” of the accompanying product supplement
<b>Initial Basket Level:</b>	100
<b>Initial Weighted Value:</b>	The Initial Weighted Value for each of the Basket Underliers is equal to the product of the initial weight of that Basket Underlier times the Initial Basket Level. The initial weight and Initial Index Level of each Basket Underlier is shown in the table below:

<b>Basket Underlier</b>	<b>Initial Weight in Basket</b>	<b>Initial Index Level</b>
EURO STOXX 50 <sup>®</sup> Index	37%	3,564.02
FTSE <sup>®</sup> 100 Index	23%	7,383.90
TOPIX <sup>®</sup>	23%	1,776.73
Swiss Market Index	9%	9,264.39
S&P <sup>®</sup> /ASX 200 Index	8%	5,988.773

**Final Index Level:** The closing level of each Basket Underlier on the Determination Date, except in the limited circumstances described under “—Market Disruption Events” below and “Description of the Notes – Certain Terms of the Notes – Events Relating to Calculation Days,” “– Adjustments to an Index” and “– Discontinuance of an Index” in the accompanying product supplement.

**Final Basket Level:** The *sum* of the following: (1) the Final Index Level of the EURO STOXX 50<sup>®</sup> Index *divided* by the Initial Index Level of the EURO STOXX 50<sup>®</sup> Index, *multiplied* by the Initial Weighted Value of the EURO STOXX 50<sup>®</sup> Index *plus* (2) the Final Index Level of the FTSE<sup>®</sup> 100 Index *divided* by the Initial Index Level of the FTSE<sup>®</sup> 100 Index, *multiplied* by the Initial Weighted Value of the FTSE<sup>®</sup> 100 Index *plus* (3) the Final Index Level of the TOPIX<sup>®</sup> *divided* by the Initial Index Level of the TOPIX<sup>®</sup>, *multiplied* by the Initial Weighted Value of the TOPIX<sup>®</sup> *plus* (4) the Final Index Level of the Swiss Market Index *divided* by the Initial Index Level of the Swiss Market Index, *multiplied* by the Initial Weighted Value of the Swiss Market Index *plus* (5) the Final Index Level of the S&P<sup>®</sup>/ASX 200 Index *divided* by the Initial Index Level of the S&P<sup>®</sup>/ASX 200 Index, *multiplied* by the Initial Weighted Value of the S&P<sup>®</sup>/ASX 200

PS-7

<b>Closing Level of the Basket Underliers:</b>	Index. The closing level of a Basket Underlier on any trading day will be the official closing level of that Basket Underlier or any successor index (as defined in the accompanying product supplement) on any trading day for the that Basket Underlier, published by the corresponding Basket Underlier Sponsor on such trading day for such underlier.
<b>Basket Return:</b>	The <i>quotient</i> of (1) the Final Basket Level <i>minus</i> the Initial Basket Level <i>divided</i> by (2) the Initial Basket Level, expressed as a positive or negative percentage
<b>Market Disruption Events:</b>	The following replaces in its entirety the section entitled “Description of the Notes—Market Disruption Events—Indices” in the accompanying product supplement:

With respect to any given trading day, any of the following will be a Market Disruption Event with respect to a Basket Underlier:

a suspension, absence or material limitation of trading in Basket Underlier Stocks (as defined below) constituting 20% or more, by weight, of that Basket Underlier on their respective primary markets, in each case for more than two consecutive hours of trading or during the one-half hour before the close of trading in that market, as determined by the calculation agent in its sole discretion,

a suspension, absence or material limitation of trading in option or futures contracts, if available, relating to that Basket Underlier or to Basket Underlier Stocks constituting 20% or more, by weight, of that Basket Underlier in their respective primary markets for those contracts, in each case for more than two consecutive hours of trading or during the one-half hour before the close of trading in that market, as determined by the calculation agent in its sole discretion, or

Basket Underlier Stocks constituting 20% or more, by weight, of that Basket Underlier, or option or futures contracts, if available, relating to that Basket Underlier or to Basket Underlier Stocks constituting 20% or more, by weight, of that Basket Underlier do not trade on what were the respective primary markets for those Basket Underlier Stocks or contracts, as determined by the calculation agent in its sole discretion,

and, in the case of any of these events, the calculation agent determines in its sole discretion that the event could materially interfere with the ability of us or any of our affiliates or a similarly situated party to unwind all or a material portion of a hedge that could be effected with respect to the notes. For more information about hedging by us and/or any of our affiliates, see “Supplemental Use of Proceeds” on page PS-16 of product supplement EQUITY-1.

The following events will not be Market Disruption Events with respect to the Basket Underliers:

a limitation on the hours or numbers of days of trading, but only if the limitation results from an announced change in the regular business hours of the relevant market, and

a decision to permanently discontinue trading in the option or futures contracts relating to a Basket Underlier or to any Basket Underlier Stock.

For this purpose, an “absence of trading” in the primary securities market on which a Basket Underlier Stock, or on which option or futures contracts, if available, relating to a Basket Underlier or to any Basket Underlier Stock are traded will not include any time when that market is itself closed for trading under ordinary circumstances. In contrast, a suspension or limitation of trading in a Basket Underlier Stock or in option or futures contracts, if available, relating to a Basket Underlier or to any Basket Underlier Stock in the primary market for that stock or those contracts, by reason of:

a price change exceeding limits set by that market,

an imbalance of orders relating to that Basket Underlier Stock or those contracts, or

a disparity in bid and ask quotes relating to that Basket Underlier Stock or those contracts,

will constitute a suspension or material limitation of trading in the Basket Underliers or those contracts in that market.

If a Market Disruption Event occurs or is continuing with respect to a Basket Underlier on the Determination Date, the calculation agent will postpone the determination of the Final Index Level for that Basket Underlier up to five scheduled trading days, but will determine the Final Index Level for any other Basket Underlier for which a Market Disruption Event does not occur on the originally scheduled Determination Date. If the Determination Date is postponed due to a Market Disruption Event, the payment due at maturity may be postponed by the same number of business days, as set forth in the section “Description of the Notes—Certain Terms of the Notes—Events Relating to Calculation Days” of the accompanying product supplement.

- Business Day:** As described under “Description of the Notes—Certain Terms of the Notes—Business Days” in the accompanying product supplement  
(i) with respect to the EURO STOXX 50<sup>®</sup> Index, a day on which the EURO STOXX 50<sup>®</sup> Index is scheduled to be calculated and published by the Basket Underlier Sponsor and (ii) with respect to each other Basket Underlier, a day on which (a) the respective principal securities markets for all of the
- Trading Day:** Basket Underlier Stocks that comprise such Basket Underlier are open for trading, (b) the Basket Underlier Sponsor for such Basket Underlier is open for business and (c) such Basket Underlier is calculated and published by the applicable Basket Underlier Sponsor
- No Listing:** The notes will not be listed on any securities exchange or interdealer quotation system
- No Interest:** The notes do not bear interest
- No Redemption:** The notes will not be subject to any optional redemption right or price dependent redemption right
- Events of Default:** If an Event of Default, as defined in the Senior Indenture and in the section entitled “Events of Default and Rights of Acceleration” beginning on page 35 of the accompanying prospectus, with respect to the notes occurs and is continuing, the amount payable to a holder of the notes upon any acceleration permitted under the Senior Indenture will be equal to the amount described under the caption “—Cash Settlement Amount,” calculated as though the date of acceleration were the maturity date of the notes and as though the determination date were the fifth trading day prior to the date of acceleration. In case of a default in the payment of the notes, the notes will not bear a default interest rate.
