DIGITAL IMPACT, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1. THE COMPANY

Digital Impact, Inc. ("Digital Impact" or the "Company") is one of the premier providers of online direct marketing solutions for enterprises. The Company was incorporated in California in October 1997 and reincorporated in Delaware in October 1999. Digital Impact's solutions -- Strategy, Customer Acquisition and Customer Marketing -- enable corporations to create and deliver marketing programs that drive revenue, influence behavior and deepen customer relationships. Digital Impact solutions provide deeper customer insight and powerful program execution through a combination of hosted web applications, messaging technology infrastructure and professional services.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF PRESENTATION AND LIQUIDITY

The accompanying interim consolidated financial statements are unaudited, but in the opinion of management, contain all the adjustments (consisting of those of a normal, recurring nature) considered necessary to present fairly the financial position, results of operations and cash flows for the periods presented in conformity with generally accepted accounting principles applicable

Edgar Filing: DIGITAL IMPACT INC /DE/ - Form 10-Q

to interim periods. Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted under the Securities and Exchange Commission's ("SEC") rules and regulations. Results of operations are not necessarily indicative of the results expected for the full fiscal year or any other future period.

The accompanying interim condensed consolidated financial statements should be read in conjunction with the audited financial statements and the notes thereto included in Digital Impact's Annual Report on Form 10-K for the fiscal year ended March 31, 2001.

The Company has incurred recurring losses from operations and has an accumulated deficit of approximately \$94.9 million as of September 30, 2001. The Company has incurred substantial losses and negative cash flows from operations since inception. For the six months ended September 30, 2001, the Company incurred a loss from operations of approximately \$13.5 million and negative cash flows from operations of approximately \$5.0 million. Management expects operating losses and negative cash flows to continue for the next several quarters and anticipates that losses will decrease from its historic levels due to a reduction of costs and expenses related to its workforce following the 10% reduction in force in September, consultants and other discretionary spending and an increase in its customer revenues and expansion of product offerings and development of relationships with other businesses. Failure to generate sufficient revenues, raise additional capital or reduce certain discretionary spending could have a material adverse effect on the Company's ability to achieve its intended business objectives.

The Company believes it has sufficient cash and cash equivalents to fund operations for the next twelve months.

PRINCIPLES OF CONSOLIDATION

The accompanying interim consolidated financial statements include the accounts of Digital Impact, Inc. and its wholly owned subsidiaries. All significant intercompany transactions and balances have been eliminated on consolidation.

COMPREHENSIVE INCOME

Comprehensive income is defined as the change in equity of a business enterprise during a period from transactions and other events and circumstances from non-owner sources. Other comprehensive loss, a component of stockholders' equity, recorded by the Company for the six months ended September 30, 2001

DIGITAL IMPACT, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS -- (CONTINUED)

was attributable to an unrealized loss on cash equivalents. The Company did not have any additional transactions that were required to be reported in other comprehensive income during the six months ended September 30, 2001.

CONCENTRATION OF CREDIT RISK AND OTHER RISKS AND UNCERTAINTIES

Financial instruments subjecting the Company to concentration of credit risk consist primarily of cash and cash equivalents and trade accounts receivable. The Company's cash and cash equivalents are maintained at a major U.S. financial institution. Deposits in this institution may exceed the amount of insurance provided on such deposits.

Edgar Filing: DIGITAL IMPACT INC /DE/ - Form 10-Q

The Company's customers are primarily concentrated in the United States. The Company performs ongoing credit evaluations and establishes an allowance for doubtful accounts based upon factors surrounding the credit risk of customers, historical trends and other information.

NOTE 3. RECENT ACCOUNTING PRONOUNCEMENTS

In June 1998, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards No. 133, or SFAS 133, "Accounting for Derivative Instruments and Hedging Activities." SFAS 133 establishes new standards of accounting and reporting for derivative instruments and hedging activities. SFAS 133 requires that all derivatives be recognized at fair value in the statement of financial position, and that the corresponding gains or losses be reported either in the statement of operations or as a component of comprehensive income, depending on the type of hedging relationship that exists. In July 1999, the FASB issued SFAS 137, "Accounting for Derivative Instruments and Hedging Activities -- Deferral of the Effective Date of SFAS 133". SFAS 137 deferred the date of SFAS 133 until the first fiscal year beginning after June 15, 2001. In June 2000, the FASB issued SFAS 138, "Accounting for Certain Derivative Instruments and Certain Hedging Activities -- an Amendment of SFAS 133." SFAS 138 amends SFAS 133 to permit limited use of central treasury offsetting of net exposures of intercompany derivatives for foreign currency cash flow hedges. SFAS 138 must be adopted concurrently with SFAS 133. The Company does not currently hold derivative instruments or engage in hedging activities and hence the implementation of SFAS 133 did not have a material impact upon the financial statements of the Company.

In July 2001, the Financial Accounting Standards Board issued SFAS No. 141 "Business Combinations," which established financial accounting and reporting for business combinations and superseded APB Opinion No. 16, Business Combinations, and FASB Statement No. 38, Accounting for Preacquisition Contingencies of Purchased Enterprises. It requires that all business combinations in the scope of this Statement are to be accounted for using one method, the purchase method. The provisions of this Statement apply to all business combinations initiated after June 30, 2001, and also apply to all business combinations accounted for using the purchase method for which the date of acquisition is July 1, 2001, or later.

In July 2001, the Financial Accounting Standards Board issued SFAS No. 142 "Goodwill and Other Intangible Assets," which established financial accounting and reporting for acquired goodwill and other intangible assets and supersedes APB Opinion No. 17, Intangible Assets. It addresses how intangible assets that are acquired individually or with a group of other assets (but not those acquired in a business combination) should be accounted for in financial statements upon their acquisition and after they have been initially recognized in the financial statements. The provisions of this Statement are effective starting with fiscal years beginning after December 15, 2001. Early adoption is permitted for entities with fiscal years beginning after March 15, 2001, provided that the first interim financial statements have not previously been issued. Accordingly, the Company has elected not to early adopt SFAS No. 142 beginning with the first quarter of fiscal 2002. Upon adoption of FAS 142, the Company will reclassify the amount relating to assembled workforce (currently \$1.6 million) from intangible assets to goodwill and will no longer amortize goodwill.

DIGITAL IMPACT, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS -- (CONTINUED)

On October 3, 2001, the FASB issued SFAS No. 144, "Accounting for the

Edgar Filing: DIGITAL IMPACT INC /DE/ - Form 10-Q

Impairment or Disposal of Long-Lived Assets." SFAS No. 144 supercedes SFAS No. 121 "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to Be Disposed Of." SFAS No. 144 applies to all long-lived assets (including discontinued operations) and consequently amends APB Opinion No. 30, "Reporting the Results of Operations, Reporting the Effects of Disposal of a Segment of a Business, and Extraordinary, Unusual and Infrequently Occurring Events and Transactions." SFAS No. 144 develops one accounting model for long-lived assets that are to be disposed of by sale. SFAS No. 144 requires that long-lived assets that are to be disposed of by sale be measured at the lower of book value or fair value less cost to sell. Additionally SFAS No. 144 expands the scope of discontinued operations to include all components of an entity with operations that (1) can be distinguished from the rest of the entity and (2) will be eliminated from the ongoing operations of the entity in a disposal transaction. SFAS No. 144 is effective for the Company for all financial statements issued in 2002. The adoption of SFAS No. 144 is not expected to have a material impact on the Company's financial statements.

NOTE 4. NET LOSS PER SHARE

Basic net loss per share is computed using the weighted-average number of outstanding shares of common stock, excluding common stock subject to repurchase. Diluted net loss per share is computed using the weighted-average number of outstanding shares of common stock and, when dilutive, potential common shares from options and warrants to purchase common stock and common stock subject to repurchase using the treasury stock method. The following table presents the calculation of basic and diluted net loss per share:

	THREE MONTHS ENDED SEPTEMBER 30,		SIX MONTHS ENDED SEPTEMBER 30,	
	2001	2000	2001	2000
Numerator:				
Net loss.....	\$ (6,551)	\$ (13,141)	\$ (13,166)	\$ (19,197)
	=====	=====	=====	=====
Denominator:				
Weighted average common shares outstanding.....	28,060	26,030	27,980	25,330
Weighted average unvested common shares subject to repurchase.....	(450)	(2,020)	(641)	(2,240)
	-----	-----	-----	-----
Denominator for basic and diluted calculation.....	27,610	24,010	27,340	23,090
	=====	=====	=====	=====
Net loss per common share -- basic and diluted.....	\$ (0.24)	\$ (0.55)	\$ (0.48)	\$ (0.83)
	=====	=====	=====	=====

The following warrants, outstanding stock options, and shares subject to repurchase by the Company have been excluded from the calculation of diluted net loss per common share because all such securities are antidilutive for all periods presented:

SIX MONTHS ENDED SEPTEMBER 30,	
2001	2000
-----	-----

Edgar Filing: DIGITAL IMPACT INC /DE/ - Form 10-Q

Options.....	6,585,000	6,624,000
Shares.....	270,042	1,810,000
Warrants.....	--	38,000

NOTE 5. STOCK-BASED COMPENSATION

During the six months ended September 30, 2001, the Company reduced unearned stock-based compensation, a component of stockholders' equity, by approximately \$1.7 million. This reduction was the

7

DIGITAL IMPACT, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS -- (CONTINUED)

result of amortization of stock-based compensation of approximately \$2.2 million and a reduction of approximately \$823,000 related primarily to stock option forfeitures and the revaluation of options granted to consultants, offset by the recording of approximately \$1.3 million of deferred compensation related to the issuance of restricted stock in exchange for the cancellation of options. Unearned stock-based compensation is amortized to expense over the period during which the options and restricted stock vest, generally three to four years, in accordance with FASB Interpretation No. 28.

In March 2001, the Company issued approximately 548,000 shares of restricted stock with a fair value of \$1.34 as part of a retention program designed to retain key executives. The restricted stock was issued with a purchase price of \$0.001 with half the stock vesting on the date of issuance and the remaining half vesting in the quarter ended September 30, 2001. As a result, the Company recognized approximately \$361,000 of compensation expense in the fiscal year ended March 31, 2001 and \$375,000 in the six months ended September 30, 2001. This amount is included in the \$2.2 million of deferred compensation reported above.

In May 2001, the Company issued approximately 797,500 shares of restricted stock with a fair value of \$1.17 in exchange for the cancellation of approximately 737,500 options. The restricted stock was issued with a purchase price of \$0.001 with one sixth of the stock vesting on the grant date and the remainder vesting over three years. As a result, the Company recognized approximately \$921,000 of compensation expense in the six months ended September 30, 2001 for the shares that vested immediately and the shares that vested in the first and second quarters. The remainder of the unearned stock-based compensation will be recognized over the period which the restricted stock vests in accordance with FASB Interpretation No. 28.

NOTE 6. RESTRUCTURING CHARGES

In September 2001, management took additional steps to further increase operational efficiencies and to bring costs in line with revenues. These measures included the involuntary termination of approximately 30 employees, approximately 10% of the Company's workforce. As a result, Digital Impact recorded a charge of approximately \$100,000 to operations for the quarter ended September 30, 2001. As of September 30, 2001, all of the \$100,000 charge had been paid.

NOTE 7. CONTINGENCIES

On June 5, 2001, a putative securities class action, captioned Stein v. Digital Impact, Inc., et al., Civil Action No. 01-CV-4942, was filed against Digital Impact, two of its officers (William Park and David Oppenheimer), and

Edgar Filing: DIGITAL IMPACT INC /DE/ - Form 10-Q

Credit Suisse First Boston Corporation ("CSFB"), an underwriter in Digital Impact's initial public offering, in the United States District Court for the Southern District of New York. The complaint alleges violations of Section 11 of the Securities Act of 1933 (the "Securities Act") against all defendants, a violation of Section 15 of the Securities Act against William Park and David Oppenheimer, and violations of Section 12(a)(2) of the Securities Act and Section 10(b) of the Securities Exchange Act of 1934 (and Rule 10b-5, promulgated thereunder) against CSFB. The complaint seeks unspecified damages on behalf of a purported class of purchasers of common stock between November 22, 1999 and December 6, 2000. On June 19, 2001, a similar complaint, captioned *Dramm v. Digital Impact et al.*, Civil Action No. 01-CV-5103, was filed in the United States District Court for the Southern District of New York. The complaint is substantially identical to the Stein complaint: it names the same defendants, contains virtually identical claims, and seeks unspecified damages on behalf of a purported class of purchasers of common stock during an identical class period.

On June 29, 2001, another similar complaint, captioned *Martin v. Digital Impact et al.*, Civil Action No. 01-CV-5963, was filed in the United States District Court for the Southern District of New York. The complaint is substantially identical to the Stein complaint: it contains virtually identical claims and seeks unspecified damages on behalf of a purported class of purchasers of common stock during an identical class period. In addition to the defendants named in Stein, the Martin complaint names Gerardo Capiel, a Digital

8

DIGITAL IMPACT, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS -- (CONTINUED)

Impact officer and director, as well as J.P. Morgan Chase, U.S. Bancorp Piper Jaffray, Inc. and Bear Stearns, co-underwriters in Digital Impact's initial public offering. The Martin complaint also alleges violations of Section 10(b) of the Securities Exchange Act of 1934 (and Rule 10b-5 promulgated thereunder) against Digital Impact, William Park, David Oppenheimer and Gerardo Capiel. The Company anticipates that additional, substantially similar lawsuits may be brought.

Various plaintiffs have filed similar actions in the United States District Court for the Southern District of New York asserting virtually identical allegations against more than 180 other issuers. These cases have all been assigned to the Hon. Shira Scheindlin for coordination and decisions on pretrial motions, discovery, and related matters other than trial. The Company believes that it has meritorious defenses to these lawsuits and will defend itself vigorously in the litigation. In the opinion of management, after consultation with legal counsel and based on currently available information, the ultimate disposition of these matters is not expected to have a material adverse effect on our business, financial condition or results of operations, and hence no amounts have been accrued for these cases.

9

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

You should read the following discussion of our financial condition and results of operations in conjunction with our financial statements and related notes. This discussion contains forward-looking statements that involve risks and uncertainties. Our actual results may differ materially from those anticipated in these forward-looking statements as a result of factors including those discussed in "Certain Factors Which May Impact Future Operating Results,"

Edgar Filing: DIGITAL IMPACT INC /DE/ - Form 10-Q

starting on page 15, as well as factors set forth in Digital Impact's Annual Report on Form 10-K for the fiscal year ended March 31, 2001. Any forward-looking statements speak only as of the date such statements are made.

OVERVIEW

Digital Impact, Inc. is one of the premier providers of online direct marketing solutions for enterprises. We were incorporated in California in October 1997 and reincorporated in Delaware in October 1999. Digital Impact's solutions -- Strategy, Customer Acquisition and Customer Marketing -- enable corporations to create and deliver marketing programs that drive revenue, influence behavior and deepen customer relationships. Digital Impact solutions provide deeper customer insight and powerful program execution through a combination of hosted web applications, messaging technology infrastructure and professional services.

In July 2000, we acquired MineShare, Inc. ("MineShare"), a customer intelligence and analysis company based in Santa Monica, California. The transaction was accounted for using the purchase method of accounting.

Digital Impact generates revenues from the sale of solutions that enable businesses to proactively communicate with their customers online. Historically, these solutions have primarily consisted of the design and execution of online direct marketing campaigns, the development and execution of customer acquisition programs, and additional services delivered by our professional services organization. In accordance with Staff Accounting Bulletin No. 101, "Revenue Recognition in Financial Statements," revenue is recognized when online direct marketing campaigns are delivered, provided that there are no remaining significant obligations and collection of the resulting receivable is reasonably assured. Revenue generated from our acquisition services group, which assists clients in growing their email lists through the use of third party list rentals, is recognized when the campaigns are delivered, provided there are no significant remaining obligations and the collection of receivables is reasonably assured. The cost of renting the list is passed through to our clients and hence is offset against the corresponding revenue. Revenue generated from our professional services is recognized as the services are provided.

Cost of revenues consists primarily of expenses relating to the delivery of online direct marketing services, including personnel costs, primarily consisting of our production services and customer service staff, the amortization of equipment, purchased and licensed technology, and data center expenses.

Our operating expenses are classified into three general categories: research and development, sales and marketing, and general and administrative. We classify all charges to these operating expense categories based on the nature of the expenditures. Although each category includes expenses that are unique to the category, some expenditures, such as compensation, employee benefits, recruiting costs, equipment costs, travel and entertainment costs, facilities costs and third-party professional service fees, occur in each of these categories.

We allocate the total cost for information services and facilities to each functional area that uses the information services and facilities based on its relative headcount. These allocated charges include rent and other facility-related costs, communication charges and depreciation expense for furniture and equipment.

Total operating expenses also include non-cash expenses related to stock-based compensation and amortization of goodwill and purchased intangibles.

As of September 30, 2001 we had 304 full-time employees. In April and

Edgar Filing: DIGITAL IMPACT INC /DE/ - Form 10-Q

September 2001 we realigned our organization with a workforce reduction of approximately 60 and 30 employees, respectively, in order to streamline operations, reduce costs and bring our staffing structure in line with current economic conditions. As a result, costs associated with the April workforce reduction, including severance and other employee-

10

related costs, were accrued in the balance sheet for the fiscal year ended March 31, 2001. Expenses related to the September work force reduction, including severance and other employee expenses, were expensed in the quarter ended September 30, 2001.

RESULTS OF OPERATIONS

The following table sets forth selected data for the periods indicated as a percentage of total revenues. These operating results are not necessarily indicative of results for any future periods.

	THREE MONTHS ENDED SEPTEMBER 30,		SIX MONTHS ENDED SEPTEMBER 30,	
	2001	2000	2001	2000

THREE MONTHS ENDED SEPTEMBER 30, 2001 AND 2000

Revenues. Total revenues decreased 10% to \$8.4 million for the three months ended September 30, 2001 from \$9.4 million for the three months ended September 30, 2000. The decrease was primarily due to a decline in clients and spending from certain continuing clients from September 2000 through September 2001 as well as a temporary decline in email volume related to the events of September 11th, partially offset by increased message volume and revenue from other continuing clients, and the expansion of our core service offerings.

Cost of Revenues. Total cost of revenues were flat at \$4.2 million for the three months ending September 30, 2000 and 2001. Gross margins declined to 50%

Edgar Filing: DIGITAL IMPACT INC /DE/ - Form 10-Q

for the quarter ended September 30, 2001 from 56% for the quarter ended September 30, 2000, largely due to continued investment in our data center infrastructure, resulting in excess capacity that when spread over our revenue base resulted in slightly lower margins.

Research and Development. Research and development expenses consist primarily of personnel and related costs, consultants and outside contractor costs, and software and hardware maintenance costs for our development efforts. To date, all research and development costs have been expensed as incurred. Research and development expenses declined by 35% to \$3.0 million for the quarter ended September 30, 2001 from \$4.6 million for the quarter ended September 30, 2000. The decline is primarily a result of a decrease in personnel costs of approximately \$1.1 million, largely related to the decrease in engineering staff related to our April and September realignment initiatives, and a \$900,000 reduction in outside consulting expenses related to continuing efforts to meet development needs with internal resources, offset by a \$161,000 increase in amortized tangible purchased technology expense related to our MineShare acquisition. We expect to continue to make investments in research and development.

11

Sales and Marketing. Sales and marketing expenses consist of personnel and related costs primarily for our direct sales force and marketing staff, as well as marketing programs, which include trade shows, advertisements, promotional activities and media events. Sales and marketing expenses increased 12% to \$4.4 million for the three months ended September 30, 2001 from \$3.9 million for the three months ended September 30, 2000. The increase was primarily due to an increase in personnel costs of \$200,000 related to expansion of our sales organization and an increase in marketing costs of \$200,000 related to expanded advertising and promotional activities.

General and Administrative. General and administrative expenses consist primarily of personnel and related costs for general corporate purposes, including information services, finance, accounting, human resources, facilities and legal. General and administrative expenses declined by 17% to \$2.3 million for the three months ended September 30, 2001 from \$2.8 million for the three months ended September 30, 2000. The overall decrease was primarily the result of a reduction in professional service fees of \$100,000, a decrease in travel and entertainment expenses of \$50,000 and a decline in bad debt expense of \$50,000.

Stock-based Compensation. In connection with the granting of stock options to our employees and the assumption of options related to the acquisition of MineShare, we recorded unearned stock based compensation totaling approximately \$19.1 million, net of forfeitures, from inception through September 30, 2001. This amount represents the total difference between the exercise prices of the stock options or purchase price of restricted stock and the deemed fair market value of the underlying common stock for accounting purposes on the date these stock options were granted. This amount is included as a component of stockholders' equity and is being amortized on an accelerated basis by charges to operations over the vesting period of the options, consistent with the methods described in FASB Interpretation No. 28.

Stock-based compensation, a noncash expense, decreased 53% to \$816,000 for the three months ended September 30, 2001 from \$1.7 million for the three months ended September 30, 2000. Unearned stock based compensation is recognized over the period during which the underlying stock options vest, generally four years.

Amortization of Goodwill and Purchased Intangibles. During the quarter ended September 30, 2001, we recorded amortization of goodwill and purchased

Edgar Filing: DIGITAL IMPACT INC /DE/ - Form 10-Q

intangibles of \$375,000. The goodwill and purchased intangibles relate to the July 31, 2000 acquisition of MineShare and are being amortized over three years.

Write-off of Acquired In-process Research and Development and Fixed Assets. Nonrecurring charges recorded during the quarter ended September 30, 2000 (\$4.6 million) consisted primarily of the write-off of purchased in-process research and development and fixed assets associated with the acquisition of MineShare.

Interest Income, Net. Interest income decreased to \$141,000 for the quarter ended September 30, 2001 from \$868,000 for the quarter ended September 30, 2000. The decrease is largely due to lower average cash and cash equivalents balances resulting from the use of cash to fund current operations and lower prevailing interest rates.

SIX MONTHS ENDED SEPTEMBER 30, 2001 AND 2000

Revenues. Total revenues increased 3% to \$18.4 million for the six months ended September 30, 2001 from \$17.8 million for the six months ended September 30, 2000. The increase was primarily due to increased volume and revenue from continuing clients, partially offset by a decline in total clients from September 2000 through September 2001 as well as a temporary decline in email volume related to the events of September 11th.

Cost of Revenues. Total cost of revenues increased to \$8.8 million for six months ended September 30, 2001 from \$7.9 million for the six months ended September 30, 2000. The increase was primarily due to higher costs of campaign creation and delivery associated with supporting a higher volume of campaigns, and the expansion of our data center infrastructure. Gross margins declined to 52% for the six months ended September 30, 2001 from 56% for the six months ended September 30, 2000, largely due to continued investment in our data center infrastructure, resulting in excess capacity that when spread over our revenue base resulted in slightly lower margins.

12

Research and Development. Research and development expenses consist primarily of personnel and related costs, consultants and outside contractor costs, and software and hardware maintenance costs for our development efforts. To date, all research and development costs have been expensed as incurred. Research and development expenses declined by 15% to \$6.7 million for the six months ended September 30, 2001 from \$7.9 million for the six months ended September 30, 2000. The decline is primarily a result of a decrease in personnel costs of approximately \$800,000, largely related to the decrease in engineering staff associated with our April and September realignment initiatives, and a \$1.3 million reduction in outside consulting expenses related to continuing efforts to meet development needs with internal resources. This was offset by a \$322,000 increase in amortized tangible purchased technology expense related to our MineShare acquisition and a \$400,000 increase in allocated corporate overhead. We expect to continue to make investments in research and development.

Sales and Marketing. Sales and marketing expenses consist of personnel and related costs primarily for our direct sales force and marketing staff, as well as marketing programs, which include trade shows, advertisements, promotional activities and media events. Sales and marketing expenses increased 9% to \$8.9 million for the six months ended September 30, 2001 from \$8.2 million for the six months ended September 30, 2000. The increase was primarily due to an increase in personnel costs of \$100,000 related to expansion of our sales organization and an increase in marketing costs of \$500,000 related to expanded advertising and promotional activities.

Edgar Filing: DIGITAL IMPACT INC /DE/ - Form 10-Q

General and Administrative. General and administrative expenses consist primarily of personnel and related costs for general corporate purposes, including information services, finance, accounting, human resources, facilities and legal. General and administrative expenses declined by 9% to \$4.6 million for the six months ended September 30, 2001 from \$5.1 million for the six months ended September 30, 2000. The decrease was primarily the result of a decrease in travel and entertainment expenses and a reduction in bad debt expense.

Stock-based Compensation. In connection with the granting of stock options to our employees and the assumption of options related to the acquisition of MineShare, we recorded unearned stock based compensation totaling approximately \$19.1 million, net of forfeitures, from inception through September 30, 2001. This amount represents the total difference between the exercise prices of the stock options or purchase price of restricted stock and the deemed fair market value of the underlying common stock for accounting purposes on the date these stock options were granted. This amount is included as a component of stockholders' equity and is being amortized on an accelerated basis by charges to operations over the vesting period of the options, consistent with the methods described in FASB Interpretation No. 28.

Stock-based compensation, a noncash expense, decreased 43% to \$2.2 for the six months ended September 30, 2001 from \$3.8 million for the six months ended September 30, 2000. Unearned stock based compensation is recognized over the period during which the underlying stock options vest, generally four years.

Amortization of Goodwill and Purchased Intangibles. During the six months ended September 30, 2001, we recorded amortization of goodwill and purchased intangibles of \$750,000. The goodwill and purchased intangibles relate to the July 31, 2000 acquisition of MineShare and are being amortized over three years.

Write-off of Acquired In-process Research and Development. Nonrecurring charges recorded during the six months ended September 30, 2000 (\$4.6 million) consisted primarily of the write-off of purchased in-process research and development and fixed assets associated with the acquisition of MineShare.

Interest Income, Net. Interest income decreased to \$325,000 for the six months ended September 30, 2001 from \$1.8 million for the six months ended September 30, 2000. The decrease is largely due to lower average cash and cash equivalents balances resulting from the use of cash to fund current operations and lower prevailing interest rates.

13

LIQUIDITY AND CAPITAL RESOURCES

Net cash used in operating activities was \$5.0 million for the six months ended September 30, 2001, which was due primarily to a net loss of \$13.2 million, a \$2.2 decline in accounts payable and an increase in prepaid expenses and other current assets of \$263,000. This was partially offset by noncash charges including the amortization of stock-based compensation (\$2.2 million) and depreciation and amortization (\$3.8 million), as well as a decrease of \$5.0 million in accounts receivable related to aggressive collection efforts and tighter credit standards. Net cash used in operating activities for the six months ended September 30, 2000 was \$11.9 million.

Our investing activities used \$1.3 million during the six months ended September 30, 2001, which was attributable primarily to the acquisition of property and equipment related to investments in our data center infrastructure. Cash used in investing activities for the six months ended September 30, 2000 was \$4.8. million.

Edgar Filing: DIGITAL IMPACT INC /DE/ - Form 10-Q

Financing activities used \$780,000 during the six months ended September 30, 2001, which was attributable primarily to payments on long-term debt. This was partially offset by proceeds from the exercise of stock options and the purchase of shares through our employee stock purchase plan. During the six months ended September 30, 2000, cash provided by financing activities was \$621,000.

At September 30, 2001, we had \$28.0 million in cash and cash equivalents and availability of \$160,000 under a leasing line of credit. Amounts borrowed under this leasing line of credit totaled approximately \$531,000 at September 30, 2001 and bear interest at rates of between 6.2% and 10.1%. We had \$625,000 outstanding under an equipment leasing line, which is secured by the leased assets and bears interest at a rate of 9.5%. We also had \$2.6 million outstanding under a term loan. The loan bears interest at the three-year Treasury rate plus 950 basis points (12.72% as of September 30, 2001) and is secured by the leased assets. Our MineShare subsidiary had approximately \$41,000 outstanding under a \$50,000 revolving line of credit that bears interest at prime plus 3% (9.0% as of September 30, 2001). We have an equipment loan facility with a maximum borrowing limit of \$800,000, which is secured by the equipment of our MineShare subsidiary and bears interest at a rate of 10%. As of September 30, 2001, approximately \$271,000 was outstanding under this facility. We have a second equipment loan facility with a borrowing limit of \$1,000,000, which is secured by the equipment of our MineShare subsidiary, and bears interest at a rate of 10%. As of September 30, 2001, approximately \$66,000 was outstanding under this facility.

Our other principal commitments at September 30, 2001 consisted of obligations under operating leases for facilities and our pledge of \$1.9 million of cash as collateral for an outstanding letter of credit. For additional information, see the financial statements. We believe that our existing cash and cash equivalents will be sufficient to satisfy our currently anticipated cash requirements for the next twelve months.

RECENT ACCOUNTING PRONOUNCEMENTS

In June 1998, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards No. 133, or SFAS 133, "Accounting for Derivative Instruments and Hedging Activities." SFAS 133 establishes new standards of accounting and reporting for derivative instruments and hedging activities. SFAS 133 requires that all derivatives be recognized at fair value in the statement of financial position, and that the corresponding gains or losses be reported either in the statement of operations or as a component of comprehensive income, depending on the type of hedging relationship that exists. In July 1999, the FASB issued SFAS 137, "Accounting for Derivative Instruments and Hedging Activities -- Deferral of the Effective Date of SFAS 133". SFAS 137 deferred the date of SFAS 133 until the first fiscal year beginning after June 15, 2001. In June 2000, the FASB issued SFAS 138, "Accounting for Certain Derivative Instruments and Certain Hedging Activities -- an Amendment of SFAS 133." SFAS 138 amends SFAS 133 to permit limited use of central treasury offsetting of net exposures of intercompany derivatives for foreign currency cash flow hedges. SFAS 138 must be adopted concurrently with SFAS 133. The Company does not currently hold derivative instruments or engage in hedging activities and hence the implementation of SFAS 133 did not have a material impact upon the financial statements of the Company.

In July 2001, the Financial Accounting Standards Board issued SFAS No. 141 "Business Combinations," which establishes financial accounting and reporting for business combinations and supersedes APB Opinion No. 16, Business Combinations, and FASB Statement No. 38, Accounting for Preacquisition

Edgar Filing: DIGITAL IMPACT INC /DE/ - Form 10-Q

Contingencies of Purchased Enterprises. It requires that all business combinations in the scope of this Statement are to be accounted for using one method, the purchase method. The provisions of this Statement apply to all business combinations initiated after June 30, 2001, and also applies to all business combinations accounted for using the purchase method for which the date of acquisition is July 1, 2001, or later.

In July 2001, the Financial Accounting Standards Board issued SFAS No. 142 "Goodwill and Other Intangible Assets," which establishes financial accounting and reporting for acquired goodwill and other intangible assets and supersedes APB Opinion No. 17, Intangible Assets. It addresses how intangible assets that are acquired individually or with a group of other assets (but not those acquired in a business combination) should be accounted for in financial statements upon their acquisition, and after they have been initially recognized in the financial statements. The provisions of this Statement are effective starting with fiscal years beginning after December 15, 2001. Early adoption is permitted for entities with fiscal years beginning after March 15, 2001, provided that the first interim financial statements have not previously been issued. Accordingly, the Company has elected not to early adopt SFAS No. 142 beginning with the first quarter of fiscal 2002. Upon adoption of FAS 142, the Company will reclassify the amount relating to assembled workforce (currently \$1.6 million) from intangible assets to goodwill and will no longer amortize goodwill.

On October 3, 2001, the FASB issued SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets." SFAS No. 144 supercedes SFAS No. 121 "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to Be Disposed Of." SFAS No. 144 applies to all long-lived assets (including discontinued operations) and consequently amends APB Opinion No. 30, "Reporting the Results of Operations, Reporting the Effects of Disposal of a Segment of a Business, and Extraordinary, Unusual and Infrequently Occurring Events and Transactions." SFAS No. 144 develops one accounting model for long-lived assets that are to be disposed of by sale. SFAS No. 144 requires that long-lived assets that are to be disposed of by sale be measured at the lower of book value or fair value less cost to sell. Additionally SFAS No. 144 expands the scope of discontinued operations to include all components of an entity with operations that (1) can be distinguished from the rest of the entity and (2) will be eliminated from the ongoing operations of the entity in a disposal transaction. SFAS No. 144 is effective for the Company for all financial statements issued in 2002. The adoption of SFAS No. 144 is not expected to have a material impact on the Company's financial statements.

CERTAIN FACTORS WHICH MAY IMPACT FUTURE OPERATING RESULTS

Our future operating results may vary substantially from period to period due to a number of factors, many of which are beyond our control. The following discussion highlights some of these factors and the possible impact of these factors on future results of operations. If any of the following factors actually occur, our business, financial condition or results of operations could be harmed. In that case, the price of our common stock could decline, and investors could experience losses on their investment.

BECAUSE OF OUR LIMITED OPERATING HISTORY AND THE EMERGING NATURE OF THE ONLINE DIRECT MARKETING INDUSTRY, ANY PREDICTIONS ABOUT OUR FUTURE REVENUES AND EXPENSES MAY NOT BE AS ACCURATE AS THEY WOULD BE IF WE HAD A LONGER BUSINESS HISTORY, AND WE CANNOT DETERMINE TRENDS THAT MAY AFFECT OUR BUSINESS.

We were incorporated in October 1997 in California and reincorporated in Delaware in October 1999. Our limited operating history makes financial forecasting and evaluation of our business difficult. Since we have limited financial data, any predictions about our future revenues and expenses may not be as accurate as they would be if we had a longer business history. Because of

Edgar Filing: DIGITAL IMPACT INC /DE/ - Form 10-Q

the emerging nature of the online direct marketing industry, we cannot determine trends that may emerge in our market or affect our business. The revenue and income potential of the online direct marketing industry, and our business, are unproven.

15

OUR OPERATING RESULTS HAVE VARIED SIGNIFICANTLY IN THE PAST AND ARE LIKELY TO VARY SIGNIFICANTLY FROM PERIOD TO PERIOD, AND OUR STOCK PRICE MAY DECLINE IF WE FAIL TO MEET THE EXPECTATIONS OF ANALYSTS AND INVESTORS.

Our operating results have varied significantly in the past and are likely to vary significantly from period to period. As a result, our operating results are difficult to predict and may not meet the expectations of securities analysts or investors. If this occurs, the price of our common stock would likely decline.

SEASONAL TRENDS MAY CAUSE OUR QUARTERLY OPERATING RESULTS TO FLUCTUATE, WHICH MAY ADVERSELY AFFECT THE MARKET PRICE OF OUR COMMON STOCK.

The traditional direct marketing industry has typically generated lower revenues during the summer months and higher revenues during the calendar year-end months. Because we do experience these effects, analysts and investors may not be able to predict our quarterly or annual operating results. If we fail to meet expectations of analysts and investors, our stock price could decline.

IF BUSINESSES AND CONSUMERS FAIL TO ACCEPT ONLINE DIRECT MARKETING AS A MEANS TO ATTRACT NEW CUSTOMERS, DEMAND FOR OUR SERVICES MAY NOT DEVELOP AND THE PRICE OF OUR STOCK COULD DECLINE.

The market for online direct marketing services is relatively new and rapidly evolving, and our business may be harmed if sufficient demand for our services does not develop. Our current and planned services are very different from the traditional methods that many of our clients have historically used to attract new customers and maintain customer relationships.

THE LOSS OF A MAJOR CLIENT COULD RESULT IN LOWER THAN EXPECTED REVENUES.

The loss of a major client could harm our business. While no single client accounted for more than 10% of our revenues for the quarter ended September 30, 2001, the loss of a major client could have a material adverse effect on our business and results of operations. Additionally, some Internet-based businesses have recently been experiencing financial problems. While the majority of our clients are not Internet-based businesses, the loss of a number of these clients could have a material adverse effect on our business and our results of operations.

THE ONLINE DIRECT MARKETING INDUSTRY IS HIGHLY COMPETITIVE, AND IF WE ARE UNABLE TO COMPETE EFFECTIVELY, THE DEMAND FOR, OR THE PRICES OF, OUR SERVICES MAY DECLINE.

The market for online direct marketing is highly competitive, rapidly evolving and experiencing rapid technological change. Intense competition may result in price reductions, reduced sales, gross margins and operating margins, and loss of market share. Our principal competitors include providers of online direct marketing solutions such as Exactis.com (recently acquired by Experian, DoubleClick (through its acquisition of FloNetwork and its proposed acquisition of MessageMedia), Responsys.com, Netcentives Inc. (through its subsidiary Post Communications), and Annuncio Software, Inc., as well as the in-house information technology departments of our existing and prospective clients.

Edgar Filing: DIGITAL IMPACT INC /DE/ - Form 10-Q

In addition, we expect competition to persist and intensify in the future, which could harm our ability to increase sales and maintain our prices. In the future, we may experience competition from Internet service providers, advertising and direct marketing agencies and other large established businesses such as America Online, Microsoft, IBM, AT&T, Yahoo!, ADVO, CMGI, Inc., and the Interpublic Group of Companies. Each of these companies possesses large, existing customer bases, substantial financial resources and established distribution channels and could develop, market or resell a number of online direct marketing solutions. These potential competitors may also choose to enter, or have already entered, the market for online direct marketing by acquiring one of our existing competitors or by forming strategic alliances with a competitor.

Many of these potential competitors have broad distribution channels and they may bundle competing products or services. As a result of future competition, the demand for our services could substantially decline. Any of these occurrences could harm our ability to compete effectively.

16

IF WE DO NOT ATTRACT AND RETAIN ADDITIONAL HIGHLY-SKILLED PERSONNEL, WE MAY BE UNABLE TO EXECUTE OUR BUSINESS STRATEGY.

Our business depends on the continued technological innovation of our core services and our ability to provide comprehensive online direct marketing expertise. Our main offices are located in the San Francisco Bay Area, where competition for personnel with Internet-related technology and marketing skills is intense. If we fail to identify, attract, retain and motivate these highly skilled personnel, we may be unable to successfully introduce new services or otherwise implement our business strategy. As a public company we face greater difficulty attracting and retaining personnel than we did as a private company.

WE RELY ON THE SERVICES OF OUR FOUNDERS AND OTHER KEY PERSONNEL, WHOSE KNOWLEDGE OF OUR BUSINESS AND TECHNICAL EXPERTISE WOULD BE EXTREMELY DIFFICULT TO REPLACE.

Our future success depends to a significant degree on the skills, experience and efforts of our senior management. In particular, we depend upon the continued services of our co-founders William Park, our Chief Executive Officer, and Gerardo Capiel, our Chief Technology Officer, whose vision for our company, knowledge of our business and technical expertise would be extremely difficult to replace. In addition, we have not obtained life insurance benefiting Digital Impact covering any of our key employees. If any of our key employees left or was seriously injured and unable to work and we were unable to find a qualified replacement, the level of services we are able to provide could decline or we could be otherwise unable to execute our business strategy.

IF THE DELIVERY OF OUR EMAILS IS LIMITED OR BLOCKED, THEN OUR CLIENTS MAY DISCONTINUE THEIR USE OF OUR SERVICES.

Our business model relies on our ability to deliver emails over the Internet through Internet service providers and to recipients in major corporations. In particular, a significant percentage of our emails are sent to recipients who use America Online. We do not have, and we are not required to have, an agreement with America Online to deliver emails to their customers. America Online uses a proprietary set of technologies to handle and deliver email and the value of our services will be reduced if we are unable to provide emails compatible with these technologies. In addition, America Online and other Internet service providers are able to block unwanted messages to their users. If these companies limit or halt the delivery of our emails, or if we fail to deliver emails in such a way as to be compatible with these companies' email

Edgar Filing: DIGITAL IMPACT INC /DE/ - Form 10-Q

handling technologies, then our clients may discontinue their use of our services.

OUR FACILITIES AND SYSTEMS ARE VULNERABLE TO NATURAL DISASTERS AND OTHER UNEXPECTED EVENTS, AND ANY OF THESE EVENTS COULD RESULT IN AN INTERRUPTION OF OUR ABILITY TO EXECUTE OUR CLIENTS' ONLINE DIRECT MARKETING CAMPAIGNS.

We depend on the efficient and uninterrupted operations of our data center and hardware systems. Our data center and hardware systems are located in Northern California, an area susceptible to earthquakes. Our data center and hardware systems are also vulnerable to damage from fire, floods, power loss, telecommunications failures, and similar events. If any of these events results in damage to our data center or systems, we may be unable to execute our clients' online direct marketing campaigns until the damage is repaired, and may accordingly lose clients and revenues. In addition, we may incur substantial costs in repairing any damage.

OUR DATA CENTER IS LOCATED AT FACILITIES PROVIDED BY A THIRD PARTY, AND IF THIS PARTY IS UNABLE TO ADEQUATELY PROTECT OUR DATA CENTER, OUR REPUTATION MAY BE HARMED AND WE MAY LOSE CLIENTS.

Our data center, which is critical to our ongoing operations, is located at facilities provided by a third party. Our operations depend on this party's ability to protect our data center from damage or interruption from human error, break-ins, sabotage, computer viruses, intentional acts of vandalism and similar events. If this party is unable to adequately protect our data center and information is lost or our ability to deliver our services is interrupted, our reputation may be harmed and we may lose clients.

17

IF WE ARE UNABLE TO ADEQUATELY PROTECT OUR INTELLECTUAL PROPERTY, THIRD PARTIES COULD USE OUR INTELLECTUAL PROPERTY WITHOUT OUR CONSENT.

Our ability to successfully compete is substantially dependent upon our internally developed technology and intellectual property, which we protect through a combination of copyright, trade secret and trademark law, and contractual obligations. We have no issued patents and have two U.S. patent applications pending. We have nine registered U.S. trademarks and have three trademark applications pending in the U.S. and Europe. We may not be able to adequately protect our proprietary rights. Unauthorized parties may attempt to obtain and use our proprietary information. Policing unauthorized use of our proprietary information is difficult, and we cannot be certain that the steps we have taken will prevent misappropriation, particularly in foreign countries where the laws may not protect our proprietary rights as fully as in the United States.

IF WE ARE UNABLE TO SAFEGUARD THE CONFIDENTIAL INFORMATION IN OUR DATA WAREHOUSE, OUR REPUTATION MAY BE HARMED AND WE MAY BE EXPOSED TO LIABILITY.

We currently store confidential customer information in a secure data warehouse. We cannot be certain, however, that we will be able to prevent unauthorized individuals from gaining access to this data warehouse. If any compromise or breach of security were to occur, it could harm our reputation and expose us to possible liability. Any unauthorized access to our servers could result in the misappropriation of confidential customer information or cause interruptions in our services. It is also possible that one of our employees could attempt to misuse confidential customer information, exposing us to liability. In addition, our reputation may be harmed if we lose customer information maintained in our data warehouse due to systems interruptions or other reasons.

Edgar Filing: DIGITAL IMPACT INC /DE/ - Form 10-Q

ACTIVITIES OF OUR CLIENTS COULD DAMAGE OUR REPUTATION OR GIVE RISE TO LEGAL CLAIMS AGAINST US.

Our clients' promotion of their products and services may not comply with federal, state and local laws, including but not limited to laws and regulations surrounding the Internet. We cannot predict whether our role in facilitating these marketing activities would expose us to liability under these laws. Any claims made against us could be costly and time-consuming to defend. If we are exposed to this kind of liability, we could be required to pay substantial fines or penalties, redesign our business methods, discontinue some of our services or otherwise expend resources to avoid liability.

Our services involve the transmission of information through the Internet. Our services could be used to transmit harmful applications, negative messages, unauthorized reproduction of copyrighted material, inaccurate data or computer viruses to end-users in the course of delivery. Any transmission of this kind could damage our reputation or could give rise to legal claims against us. We could spend a significant amount of time and money defending against these legal claims.

NEW REGULATION OF, AND UNCERTAINTIES REGARDING THE APPLICATION OF EXISTING LAWS AND REGULATIONS TO, ONLINE DIRECT MARKETING AND THE INTERNET COULD PROHIBIT, LIMIT OR INCREASE THE COST OF OUR BUSINESS.

Legislation has been enacted in several states restricting the sending of unsolicited commercial email. We cannot assure you that existing or future legislation regarding commercial email will not harm our business. The federal government, foreign governments and several other states are considering, or have considered, similar legislation. These provisions generally limit or prohibit both the transmission of unsolicited commercial emails and the use of forged or fraudulent routing and header information. Some states, including California, require that unsolicited emails include opt-out instructions and that senders of these emails honor any opt-out requests.

Our business could be negatively impacted by new laws or regulations applicable to online direct marketing or the Internet, the application of existing laws and regulations to online direct marketing or the Internet or the application of new laws and regulations to our business as we expand into new jurisdictions. There is a growing body of laws and regulations applicable to access to or commerce on the Internet. Moreover, the applicability to the Internet of existing laws is uncertain and may take years to resolve. Due to the increasing popularity and use of the Internet, it is likely that additional laws and regulations will be

18

adopted covering issues such as privacy, pricing, content, copyrights, distribution, taxation, antitrust, characteristics and quality of services and consumer protection. The adoption of any additional laws or regulations may impair the growth of the Internet or online direct marketing, which could, in turn, decrease the demand for our services and prohibit, limit or increase the cost of our doing business.

INTERNET-RELATED STOCK PRICES ARE ESPECIALLY VOLATILE AND THIS VOLATILITY MAY DEPRESS OUR STOCK PRICE.

The stock market and specifically the stock prices of Internet-related companies have been very volatile. Because we are an Internet-related company, we expect our stock price to be similarly volatile. As a result of this volatility, the market price of our common stock could significantly decrease. This volatility is often not related to the operating performance of the

Edgar Filing: DIGITAL IMPACT INC /DE/ - Form 10-Q

companies and may accordingly reduce the price of our common stock without regard to our operating performance.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

For the period from our inception through September 30, 2001, we provided our services to clients primarily in the United States. As a result, our financial results have not been directly affected by factors such as changes in foreign currency exchange rates or weak economic conditions in foreign markets. The majority of our sales are currently denominated in U.S. dollars. During the quarter ended June 30, 2000, we established a subsidiary in the United Kingdom which has had minimal operations to date. As the operations of this subsidiary expand, our future operating results could be directly impacted by changes in foreign currency exchange rates or economic conditions in this region. Our exposure to market risk for changes in interest rates relates primarily to the increase or decrease in the amount of interest income we can earn on our investment portfolio and on the increase or decrease in the amount of interest expense we must pay on our outstanding debt instruments. The risk associated with fluctuating interest expense is limited, however, to the exposure related to those debt instruments and credit facilities which are tied to market rates. We do not plan to use derivative financial instruments in our investment portfolio. We plan to ensure the safety and preservation of our invested principal funds by limiting default risk, market risk and reinvestment risk. We plan to mitigate default risk by investing in high-credit quality securities.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

On June 5, 2001, a putative securities class action, captioned Stein v. Digital Impact, Inc., et al., Civil Action No. 01-CV-4942, was filed against Digital Impact, two of its officers (William Park and David Oppenheimer), and Credit Suisse First Boston Corporation ("CSFB"), an underwriter in Digital Impact's initial public offering, in the United States District Court for the Southern District of New York. The complaint alleges violations of Section 11 of the Securities Act of 1933 (the "Securities Act") against all defendants, a violation of Section 15 of the Securities Act against William Park and David Oppenheimer, and violations of Section 12(a)(2) of the Securities Act and Section 10(b) of the Securities Exchange Act of 1934 (and Rule 10b-5, promulgated thereunder) against CSFB. The complaint seeks unspecified damages on behalf of a purported class of purchasers of common stock between November 22, 1999 and December 6, 2000. On June 19, 2001, a similar complaint, captioned Dramn v. Digital Impact et al., Civil Action No. 01-CV-5103, was filed in the United States District Court for the Southern District of New York. The complaint is substantially identical to the Stein complaint: it names the same defendants, contains virtually identical claims, and seeks unspecified damages on behalf of a purported class of purchasers of common stock during an identical class period.

On June 29, 2001, another similar complaint, captioned Martin v. Digital Impact et al., Civil Action No. 01-CV-5963, was filed in the United States District Court for the Southern District of New York. The complaint is substantially identical to the Stein complaint: it contains virtually identical claims and seeks unspecified damages on behalf of a purported class of purchasers of common stock during an identical class period. In addition to the defendants named in Stein, the Martin complaint names Gerardo Capiel, a Digital

public offering. The Martin complaint also alleges violations of Section 10(b) of the Securities Exchange Act of 1934 (and Rule 10b-5 promulgated thereunder) against Digital Impact, William Park, David Oppenheimer and Gerardo Capiel. The Company anticipates that additional, substantially similar lawsuits may be brought.

Various plaintiffs have filed similar actions in the United States District Court for the Southern District of New York asserting virtually identical allegations against more than 180 other issuers. These cases have all been assigned to the Hon. Shira Scheindlin for coordination and decisions on pretrial motions, discovery, and related matters other than trial. The Company believes that it has meritorious defenses to these lawsuits and will defend itself vigorously in the litigation. In the opinion of management, after consultation with legal counsel and based on currently available information, the ultimate disposition of these matters is not expected to have a material adverse effect on our business, financial condition or results of operations, and hence, no amounts have been accrued for these cases.

ITEM 2. CHANGE IN SECURITIES AND USE OF PROCEEDS

In November 1999, we completed our initial public offering of 5,175,000 shares of our common stock, which included 675,000 shares in connection with the exercise of the underwriters' overallotment option, at \$15 per share. The managing underwriters in the offering were Credit Suisse First Boston; Hambrecht & Quist; Donaldson, Lufkin & Jenrette; and U.S. Bancorp Piper Jaffray. The sale of our shares of common stock in the offering was registered under the Securities Act of 1933, as amended, on a Registration Statement on Form S-1 (Reg. No. 333-87299) that was declared effective by the Securities and Exchange Commission on November 22, 1999. The aggregate offering amount including the overallotment exercise was approximately \$77.6 million. We incurred expenses of approximately \$6.8 million, of which approximately \$5.4 million represented underwriting discounts and commissions and approximately \$1.4 million represented other expenses related to the offering.

Currently, we have placed the remaining net proceeds (approximately \$28 million) from the offering in short-term, interest bearing, investment grade securities. During the six months ended September 30, 2001, we used approximately \$7.0 million of the net proceeds to fund our general operations. We expect to use the remaining offering net proceeds for working capital and general corporate purposes, including continued investment in the development of our current and future online direct marketing services, the expansion of our sales and marketing activities, and investment in our infrastructure. Additionally, we may use a portion of the net proceeds to acquire or invest in complementary products, technologies, or businesses.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

At the Company's Annual Meeting of Stockholders ("Annual Meeting") held on July 31, 2001, the following individual was re-elected to the Board of Directors as a Class II director for the term of three years:

	VOTES FOR -----	VOTES WITHHELD -----
Ruthann Quindlen.....	23,184,508	34,093

William Park, Gerardo Capiel, Warren Packard and Michael Brown continue as either Class I, Class II or Class III directors of the Company.

Edgar Filing: DIGITAL IMPACT INC /DE/ - Form 10-Q

Additionally, at the Company's Annual Meeting, the following proposal was adopted by the margin indicated:

1. To ratify the appointment of PricewaterhouseCoopers LLP as our independent accountants for the fiscal year ending March 31, 2002. The votes cast for and against this action were 23,196,262 and 14,291, respectively, with 8,048 abstaining.
