## Edgar Filing: NUVEEN CALIFORNIA MUNICIPAL VALUE FUND INC - Form N-CSRS

BE IMPORTANT BUILDING BLOCKS IN A WELL-BALANCED PORTFOLIO.

Dear  
SHAREHOLDER

By coincidence, this letter is dated April 15 - the one day every year when the value of tax-free income may be the most obvious.

So on this date in particular, I am very pleased to report that for the period ended February 29, 2004, your Nuveen California Fund continued to provide you with attractive monthly tax-free income.

While tax-free income always is welcome, many of you may have begun to wonder whether interest rates will rise, and whether that possibility should cause you to adjust your holdings of tax-free municipal bond investments. We believe that these are questions that should be thought through with a focus on your long-term financial goals and not on day-to-day market movements. By maintaining a carefully balanced portfolio with the help of a trusted investment professional, you may be able to reduce your overall investment risk over the long term, and give yourself a better chance to meet your ultimate financial goals. We think that municipal bond investments like your Nuveen Fund can be important building blocks in a well-balanced portfolio - not only on April 15, but on every other day of the year as well.

As you read through this report, please don't skip the inside front cover. I urge you to consider receiving future Fund reports and other Fund information by e-mail and the Internet. Not only will you be able to receive the information faster, but this also may help lower your Fund's expenses. Sign up is quick and easy.

Since 1898, Nuveen Investments has offered financial products and solutions that incorporate careful research, diversification and the application of conservative risk-management principles. We are grateful that you have chosen us as a partner as you pursue your financial goals. We look forward to continuing to earn your trust in the months and years ahead.

Sincerely,

/s/ Timothy R. Schwertfeger

Portfolio Manager's  
COMMENTS

Portfolio manager Scott Romans reviews national and state economic and market conditions, key investment strategies, and the six-month performance of Funds. Scott, who joined Nuveen in 2000, assumed portfolio management responsibility for these six Funds in January 2003.

WHAT FACTORS AFFECTED THE NATIONAL ECONOMY AND MUNICIPAL MARKET DURING THE

## Edgar Filing: NUVEEN CALIFORNIA MUNICIPAL VALUE FUND INC - Form N-CSRS

SIX-MONTH REPORTING PERIOD ENDED FEBRUARY 29, 2004?

During this reporting period, the greatest influences on the national economy and the municipal market continued to be historically low interest rates, little movement in the reported rate of inflation, and growing evidence of economic improvement. Since its last credit easing in June 2003, the Federal Reserve has maintained the fed funds rate at 1.0%, the lowest level since 1958. This accommodative monetary policy helped to spur economic growth of 4.1% (annualized) in the fourth quarter of 2003, bringing the growth in the gross domestic product (GDP) for all of 2003 to a solid 3.1%. Over the six-month reporting period, inflation remained under control, with the increase in the core CPI averaging 1.2% year-over-year.

In this generally favorable environment, many municipal bonds performed well during the six months ended February 29, 2004. Although municipal supply nationally in 2003 reached \$382.7 billion, breaking the record set in 2002, issuance slowed somewhat during the last half of 2003. Tighter supply continued into the first two months of 2004, with national issuance totaling \$42.5 billion, a decrease of 26% from January-February 2003. For the entire six-month period ended February 2004, we saw \$26 billion less in new bonds coming to market than in the preceding six months.

HOW WERE ECONOMIC AND MARKET CONDITIONS IN CALIFORNIA?

Despite a period of enormous political and financial uncertainty, California generally managed to track the national economic recovery over the six months ended February 29, 2004. While the state economy remained hindered by the slow recovery of the technology sector, a strong housing market helped to fuel growth in construction, financial services (driven by demand for mortgage financing), and consumer spending. Increased defense spending also had positive implications for the state's aerospace industry. In addition, California's \$100 billion export industry, covering agricultural, computer, and electronic products, was aided by the decline in the U.S. dollar. In general, the Bay Area and Silicon Valley remained the weakest areas in the aftermath of the technology downturn, while other parts of the state, especially Riverside County in southern California, showed stronger economic growth. Although the state continued to lose jobs in the government, manufacturing, and business services sectors, the educational and health services, the leisure and hospitality and construction industries all experienced recent gains.

Following the October 2003 governor's recall election, attention turned to developing potential solutions to the state's fiscal crisis. Legal challenges to two bond proposals (\$1.9 billion in pension obligation bonds and \$10.7 billion in fiscal recovery bonds) caused both Moody's and Fitch to downgrade California's general obligation debt to Baa1/BBB from A3/A in December 2003. Standard

2

& Poor's, which had downgraded the state in July 2003, kept its rating at BBB, and all three agencies maintained negative outlooks for the state. In January 2004, the governor proposed a \$79 billion budget for fiscal 2005. The budget proposal avoids tax increases, and includes expenditure cuts and spending deferrals, among other measures. To take effect, this budget must be passed by a two-thirds legislative majority before June 30, 2004. We believe a punctual budget agreement would send a strong positive signal to investors, facilitate the issuance of future bonds at more cost-effective yields for the state, and strengthen California's credit outlook.

## Edgar Filing: NUVEEN CALIFORNIA MUNICIPAL VALUE FUND INC - Form N-CSRS

On March 2, 2004 (following the close of this reporting period), California voters approved the issuance of \$15 billion in economic recovery bonds (ERBs), as well as a resolution calling for future limits on spending and borrowing. Moody's and S&P subsequently revised their outlooks for California to stable and positive, respectively.

California in 2003, continued to rank as the nation's largest issuer of municipal bonds, with \$57.9 billion in new bonds up 18% over 2002. In the first two months of 2004, however, supply fell 57% from January-February 2003 levels, as state issuance totaled \$5.4 billion. This decline was due primarily to delays while issuing authorities waited for the outcome of the March 2004 referenda.

IN THIS ENVIRONMENT, WHAT KEY STRATEGIES WERE USED TO MANAGE THESE FUNDS DURING THE SIX MONTHS ENDED FEBRUARY 29, 2004?

Over this reporting period, our major focus continued to be on careful management of the Funds' durations<sup>1</sup> as a way to mitigate some of the inherent interest rate risk within each Fund's portfolio and become better positioned to produce potentially more consistent returns over time. Interest rate risk is the risk that the value of a Fund's portfolio will decline if market interest rates rise (since bond prices move in the opposite direction of interest rates). The longer the duration of a Fund's portfolio, the greater its interest rate risk. Overall, we were able to shorten the durations of all of these Funds during the course of the six-month period.

Given the steepness of the municipal bond yield curve during this period, the majority of our purchase activity focused on finding securities in the long-intermediate part of the yield curve (i.e., bonds that mature in 15 to 20 years). In many cases, bonds in this part of the curve offered yields similar to those of longer-term bonds and less inherent interest rate risk.

As noted earlier, the supply of new issue municipal bonds in California began to soften during the course of this six-month reporting period. This presented some challenges in finding issues that we believed had the potential to add value and carried the types of structures and features we prefer. In all of these Funds, one of our strategies over the longer term centered on purchasing and selling California general obligation bonds (GOs) to take advantage of general market moves. In February 2004, we bought part of the \$2 billion issuance of state GOs for each of these Funds with the goal of modestly increasing their GO holdings. As the state continues to work its way out of its current credit problems, we anticipate that the yield spreads on these bonds relative to national AAA credits with similar maturities may narrow. If this occurs, it may provide us with the opportunity to sell some of these GO holdings at attractive prices in the future.

<sup>1</sup> Duration is a measure of a Fund's NAV volatility in reaction to interest rate movements. Fund duration, also known as leverage-adjusted duration, takes into account the leveraging process for a Fund and therefore is generally longer than the duration of the actual portfolio of individual bonds that make up the Fund. With the exception of NCA, which is unleveraged, references to duration in this commentary are intended to indicate Fund duration unless otherwise noted.

For additional information, see the individual Performance Overview for your Fund in this report.

For the six months ended February 29, 2004, the total returns of all six of the Funds in this report outperformed the Lehman Brothers California Tax-Exempt Municipal Bond Index. NCP, NCO, NQC, NVC and NUC are all leveraged, and this was the primary factor that influenced their six-month cumulative returns relative to both the unmanaged, unleveraged Lehman California index and NCA, the one unleveraged Fund covered here. While leveraging can add volatility to net asset value and share price, this strategy also can provide opportunities for additional income and total return for common shareholders during periods of low or falling interest rates, which was the case during this relatively short reporting period.

In addition to leverage, the returns of all six of these Funds were helped by the Funds' holdings of bonds backed by revenues from the 1998 master tobacco settlement agreement. During the reporting period, in the wake of some favorable legal developments, the market took a more optimistic view of these securities. As a result, over the six-month period, tobacco bonds generally appreciated. In NQC, however, we had sold some tobacco holdings in August 2003 as part of an effort to minimize capital gains distributions and enhance the Fund's long-term tax position. This reduced allocation to tobacco bonds hindered this Fund's ability to benefit fully from the price appreciation within this sector over the reporting period.

In addition, NCA benefited during the six-month reporting period from the performance of its toll road and water and sewer bond positions, and from its relatively large holding of BBB rated bonds, which performed well in the period's falling interest rate environment. NCP and NCO both were helped by their industrial revenue bond and toll road holdings. NQC benefited from some of

## Edgar Filing: NUVEEN CALIFORNIA MUNICIPAL VALUE FUND INC - Form N-CSRS

its holdings in long-term care facilities, but saw some of its healthcare and public power bonds underperform the market over the reporting period. NVC's performance was helped by its toll road position, but the Fund had a relatively short duration over much of the reporting period, which constrained its performance during a period that tended to favor longer duration investments. NUC benefited from its toll road bonds.

### WHAT ABOUT THE FUNDS' DIVIDENDS AND SHARE PRICES?

With short-term interest rates remaining at historically low levels, the dividend-paying capabilities of NCP, NCO, NQC, NVC, and NUC benefited from their leveraged structure over the six months ended February 29, 2004. The extent of

- 2 The Lehman Brothers California Tax-Exempt Municipal Bond Index is an unleveraged, unmanaged index comprised of a broad range of investment-grade California municipal bonds. Results for the Lehman index do not reflect any expenses.
- 3 The Lipper California Municipal Debt Funds category average for periods shown is calculated using all the California leveraged and unleveraged closed-end exchange-traded funds in the Lipper peer group for the respective periods. Lipper returns assume reinvestment of dividends.

4

this benefit is tied in part to the short-term rates the Funds pay their MuniPreferred(R) shareholders. During periods of low short-term rates, the Funds generally pay relatively low dividends to their MuniPreferred shareholders, which can leave more earnings to support common share dividends. Continued low short-term rates enabled us to increase NCO's dividend in December 2003, in addition to a dividend increase implemented just before the start of this six-month reporting period. NVC raised its dividend in September 2003. Leverage also helped to support the dividends of NCP, NQC, and NUC, which (as of February 29, 2004) had offered shareholders 39, 51, and 45 consecutive months of steady or increasing dividends, respectively. The one unleveraged Fund, NCA, had reduced its dividend at the start of the period due to the reinvestment of bond call proceeds at lower interest rates.

All of these Funds seek to pay stable dividends at rates that reflect each Fund's past results and projected future performance. During certain periods, each Fund may pay dividends at a rate that may be more or less than the amount of net investment income actually earned by the Fund during the period. If a Fund has cumulatively earned more than it has paid in dividends, it holds the excess in reserve as undistributed net investment income (UNII) as part of the Fund's net asset value. Conversely, if a Fund has cumulatively paid dividends in excess of its earnings, the excess constitutes negative UNII that is likewise reflected in the Fund's NAV. Each Fund will, over time, pay all of its net investment income as dividends to shareholders. As of February 29, 2004, all of the Funds in this report had positive UNII.

As of February 29, 2004, all six Funds were trading at discounts to their common share NAVs (see charts on individual Performance Overview pages).

### HOW WERE THE FUNDS POSITIONED IN TERMS OF CREDIT QUALITY AND BOND CALLS AS OF FEBRUARY 29, 2004?

We believed that, given the current geopolitical and economic climate, maintaining strong credit quality was a vital requirement. As of February 29,

## Edgar Filing: NUVEEN CALIFORNIA MUNICIPAL VALUE FUND INC - Form N-CSRS

2004, these Nuveen Funds offered excellent credit quality, with allocations of bonds rated AAA/U.S. guaranteed and AA ranging from 57% in NCA to 67% in NUC, 69% in NVC, 72% in NCO, 75% in NCP and 77% in NQC. At the same time, all of these Funds had modest increases in their holdings rated BBB or lower over the course of the reporting period, due in part to the downgrade of California general obligation bonds by Moody's in December 2003.

Looking at bond calls, potential exposure as of February 29, 2004, during 2004-2005 ranged from 11% in NCA to 12% in NUC, 13% in NCP, NQC and NVC, and 16% in NCO. The number of actual bond calls in all of these Funds will depend largely on market interest rates.

In general, we believe that these Funds continued to serve as attractive sources of tax-free income, while simultaneously offering the potential for beneficial portfolio diversification. In our opinion, the Funds represent a quality component of a well-balanced core investment portfolio that can continue to benefit shareholders over time.

FINANCIAL STATEMENTS (Unaudited)

1. GENERAL INFORMATION AND SIGNIFICANT ACCOUNTING POLICIES

The California Funds (the "Funds") covered in this report and their corresponding Common share New York Stock Exchange symbols are Nuveen California Municipal Value Fund, Inc. (NCA), Nuveen California Performance Plus Municipal Fund, Inc. (NCP), Nuveen California Municipal Market Opportunity Fund, Inc. (NCO), Nuveen California Investment Quality Municipal Fund, Inc. (NQC), Nuveen California Select Quality Municipal Fund, Inc. (NVC) and Nuveen California Quality Income Municipal Fund, Inc. (NUC). The Funds are registered under the Investment Company Act of 1940, as amended, as closed-end, diversified management investment companies.

Each Fund seeks to provide current income exempt from both regular federal and California state income taxes by investing primarily in a diversified portfolio of municipal obligations issued by state and local government authorities within the state of California.

The following is a summary of significant accounting policies followed by the Funds in the preparation of their financial statements in accordance with accounting principles generally accepted in the United States.

Securities Valuation

The prices of municipal bonds in each Fund's investment portfolio are provided by a pricing service approved by the Fund's Board of Directors. When price quotes are not readily available (which is usually the case for municipal securities), the pricing service establishes fair market value based on yields

## Edgar Filing: NUVEEN CALIFORNIA MUNICIPAL VALUE FUND INC - Form N-CSRS

or prices of municipal bonds of comparable quality, type of issue, coupon, maturity and rating, indications of value from securities dealers, evaluations of anticipated cash flows or collateral and general market conditions. If it is determined that market prices for a security are unavailable or inappropriate, the Board of Directors of the Funds, or its designee, may establish a fair value for the security. Temporary investments in securities that have variable rate and demand features qualifying them as short-term securities are valued at amortized cost, which approximates market value.

### Securities Transactions

Securities transactions are recorded on a trade date basis. Realized gains and losses from such transactions are determined on the specific identification method. Securities purchased or sold on a when-issued or delayed delivery basis may have extended settlement periods. The securities so purchased are subject to market fluctuation during this period. The Funds have instructed the custodian to segregate assets with a current value at least equal to the amount of the when-issued and delayed delivery purchase commitments. At February 29, 2004, there were no such outstanding purchase commitments in any of the Funds.

### Investment Income

Interest income, which includes the amortization of premiums and accretion of discounts for financial reporting purposes, is recorded on an accrual basis.

### Income Taxes

Each Fund is a separate taxpayer for federal income tax purposes. Each Fund intends to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute all of its net investment income to its shareholders. Therefore, no federal income tax provision is required. Furthermore, each Fund intends to satisfy conditions which will enable interest from municipal securities, which is exempt from regular federal and California state income taxes, to retain such tax-exempt status when distributed to shareholders of the Funds.

### Dividends and Distributions to Common Shareholders

Dividends from tax-exempt net investment income are declared monthly. Net realized capital gains and/or market discount from investment transactions, if any, are distributed to shareholders not less frequently than annually. Furthermore, capital gains are distributed only to the extent they exceed available capital loss carryforwards.

### Notes to

#### FINANCIAL STATEMENTS (Unaudited) (continued)

Distributions to Common Shareholders of tax-exempt net investment income, net realized capital gains and/or market discount, if any, are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from accounting principles generally accepted in the United States.

### Preferred Shares

## Edgar Filing: NUVEEN CALIFORNIA MUNICIPAL VALUE FUND INC - Form N-CSRS

California Value (NCA) is not authorized to issue Preferred shares. The Funds below have issued and outstanding \$25,000 stated value Preferred shares. Each Fund's Preferred shares are issued in more than one Series. The dividend rate on each Series may change every seven days, as set pursuant to a dutch auction process by the auction agent, and is payable at or near the end of each rate period. The number of Preferred shares outstanding, by Series and in total, for each Fund is as follows:

	CALIFORNIA PERFORMANCE PLUS (NCP)	CALIFORNIA OPPORTUNITY (NCO)	CALIFORNIA INVESTMENT QUALITY (NQC)	CALIFORNIA SELECT QUALITY (NVC)	
-----					
Number of shares:					
Series M	--	--	3,600	--

Series F	1,800	520	--	--	
-----					
Total	4,240	2,720	4,480	7,680	
=====					

### Derivative Financial Instruments

The Funds may invest in certain derivative financial instruments including futures, forward, swap and option contracts, and other financial instruments with similar characteristics. Although the Funds are authorized to invest in such financial instruments, and may do so in the future, they did not make any such investments during the six months ended February 29, 2004.

### Custodian Fee Credit

Each Fund has an arrangement with the custodian bank whereby certain custodian fees and expenses are reduced by credits earned on each Fund's cash on deposit with the bank. Such deposit arrangements are an alternative to overnight investments.

### Indemnifications

Under the Funds' organizational documents, its Officers and Directors are indemnified against certain liabilities arising out of the performance of their duties to the Funds. In addition, in the normal course of business the Funds enter into contracts that provide general indemnifications to other parties. The Funds' maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred.

### Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets applicable to Common shares from operations during the reporting period. Actual results may differ from those estimates.

### 4. INCOME TAX INFORMATION

The following information is presented on an income tax basis. Differences between amounts for financial statement and federal income tax purposes are primarily due to timing differences in recognizing income on taxable market discount securities and timing differences in recognizing certain gains and losses on security transactions.

At February 29, 2004, the cost of investments were as follows:

	CALIFORNIA VALUE (NCA)	CALIFORNIA PERFORMANCE PLUS (NCP)	CALIFORNIA OPPORTUNITY (NCO)	CALIFORNIA INVESTMENT QUALITY (NQC)	CALIFORNIA SELECT QUALITY (NVC)
Cost of investments	\$237,614,697	\$285,575,479	\$177,866,634	\$299,696,518	\$512,440,899

Gross unrealized appreciation and gross unrealized depreciation of investments at February 29, 2004, were as follows:

	CALIFORNIA VALUE (NCA)	CALIFORNIA PERFORMANCE PLUS (NCP)	CALIFORNIA OPPORTUNITY (NCO)	CALIFORNIA INVESTMENT QUALITY (NQC)	CALIFORNIA SELECT QUALITY (NVC)
Gross unrealized:					
Appreciation	\$23,418,683	\$25,024,981	\$19,729,199	\$25,745,416	\$43,550,131

Distributions from net long-term capital gains	235,826	1,019	--	277,923	367,326	

\* Net ordinary income consists of taxable market discount income and net short-term capital gains, if any.

At August 31, 2003, the Funds' last fiscal year end, California Opportunity (NCO) had an unused capital loss carryforward of \$908,397 available for federal income tax purposes to be applied against future capital gains, if any. If not applied, the carryforward will expire in the year 2011.

California Opportunity (NCO) elected to defer \$2,302,131 of net realized losses from investments incurred from November 1, 2002 through August 31, 2003 ("post-October losses") in accordance with Federal income tax regulations. Post-October losses were treated as having arisen on the first day of the current fiscal year.

5. MANAGEMENT FEE AND OTHER TRANSACTIONS WITH AFFILIATES

Under California Value's (NCA) investment management agreement with Nuveen Advisory Corp. (the "Adviser"), a wholly owned subsidiary of Nuveen Investments, Inc., the Fund pays an annual management fee, payable monthly of .35% of the average daily net assets of the Fund, as well as 4.125% of the gross interest income of the Fund.

Under the Funds' (excluding California Value (NCA)) investment management agreements with the Adviser, each Fund pays an annual management fee, payable

## Edgar Filing: NUVEEN CALIFORNIA MUNICIPAL VALUE FUND INC - Form N-CSRS

monthly, at the rates set forth below, which are based upon the average daily net assets (including net assets attributable to Preferred shares) of each Fund as follows:

AVERAGE DAILY NET ASSETS (INCLUDING NET ASSETS ATTRIBUTABLE TO PREFERRED SHARES)	MANAGEMENT FEE
For the first \$125 million	.6500%
For the next \$125 million	.6375
For the next \$250 million	.6250
For the next \$500 million	.6125
For the next \$1 billion	.6000
For the next \$3 billion	.5875
For net assets over \$5 billion	.5750

The management fee compensates the Adviser for overall investment advisory and administrative services and general office facilities. The Funds pay no compensation directly to those of its Directors who are affiliated with the Adviser or to their officers, all of whom receive remuneration for their services to the Funds from the Adviser or its affiliates.

### 6. SUBSEQUENT EVENT - DISTRIBUTIONS TO COMMON SHAREHOLDERS

Build Your Wealth  
AUTOMATICALLY

Sidebar text: NUVEEN MAKES REINVESTING EASY. A PHONE CALL IS ALL IT TAKES TO SET UP YOUR REINVESTMENT ACCOUNT.

### NUVEEN CLOSED-END EXCHANGE-TRADED FUNDS DIVIDEND REINVESTMENT PLAN

Your Nuveen Closed-End Exchange-Traded Fund allows you to conveniently reinvest dividends and/or capital gains distributions in additional fund shares.

By choosing to reinvest, you'll be able to invest money regularly and automatically, and watch your investment grow through the power of tax-free compounding. Just like dividends or distributions in cash, there may be times when income or capital gains taxes may be payable on dividends or distributions that are reinvested.

It is important to note that an automatic reinvestment plan does not ensure a profit, nor does it protect you against loss in a declining market.

### EASY AND CONVENIENT

To make recordkeeping easy and convenient, each month you'll receive a statement showing your total dividends and distributions, the date of investment, the shares acquired and the price per share, and the total number of shares you own.

### HOW SHARES ARE PURCHASED

The shares you acquire by reinvesting will either be purchased on the open market or newly issued by the Fund. If the shares are trading at or above net asset value at the time of valuation, the Fund will issue new shares at the then-current market price. If the shares are trading at less than net asset

## Edgar Filing: NUVEEN CALIFORNIA MUNICIPAL VALUE FUND INC - Form N-CSRS

value, shares for your account will be purchased on the open market. Dividends and distributions received to purchase shares in the open market will normally be invested shortly after the dividend payment date. No interest will be paid on dividends and distributions awaiting reinvestment. Because the market price of shares may increase before purchases are completed, the average purchase price per share may exceed the market price at the time of valuation, resulting in the acquisition of fewer shares than if the dividend or distribution had been paid in shares issued by the Fund. A pro rata portion of any applicable brokerage commissions on open market purchases will be paid by Plan participants. These commissions usually will be lower than those charged on individual transactions.

### FLEXIBILITY

You may change your distribution option or withdraw from the Plan at any time, should your needs or situation change. Should you withdraw, you can receive a certificate for all whole shares credited to your reinvestment account and cash payment for fractional shares, or cash payment for all reinvestment account shares, less brokerage commissions and a \$2.50 service fee.

You can reinvest whether your shares are registered in your name, or in the name of a brokerage firm, bank, or other nominee. Ask your investment advisor if his or her firm will participate on your behalf. Participants whose shares are registered in the name of one firm may not be able to transfer the shares to another firm and continue to participate in the Plan.

The Fund reserves the right to amend or terminate the Plan at any time. Although the Fund reserves the right to amend the Plan to include a service charge payable by the participants, there is no direct service charge to participants in the Plan at this time.

For more information on the Nuveen Automatic Reinvestment Plan or to enroll in or withdraw from the Plan, speak with your financial advisor or call us at (800) 257-8787.

### POLICY CHANGE

On February 25, 2004, the Board approved policies that would allow each Fund, at the discretion of the Adviser, to engage in certain types of derivative transactions for the purpose of hedging interest rate risk. There is no guarantee that the Adviser will cause a Fund to enter into such transactions. If a Fund were to engage in hedging, there is no guarantee that such hedging will be successful or that it will not reduce the Fund's total return.

### PROXY VOTING POLICIES AND PROCEDURES

A description of the policies and procedures that the Funds use to determine how to vote proxies relating to portfolio securities is available (i) without charge, upon request, by calling Nuveen Investments at (800) 257-8787; and (ii) on the Commission's website at <http://www.sec.gov>.

### GLOSSARY OF TERMS USED IN THIS REPORT

**Average Annual Total Return:** This is a commonly used method to express an investment's performance over a particular, usually multi-year time period. It expresses the return (including change in NAV and reinvested dividends) that would have been necessary on an annual basis to equal the investment's actual performance over the time period being considered.

**Average Duration:** Duration is a measure of a bond or bond fund's sensitivity to changes in interest rates. Generally, the longer a bond or fund's duration, the more the price of the bond or fund will change as interest rates change.

**Average Effective Maturity:** The average of all the maturities of the bonds in a fund's portfolio, computed by weighting each maturity date (the date the security comes due) by the market value of the security. This figure does not account for the likelihood of prepayments or the exercise of call provisions.

**Leverage-Adjusted Duration:** Duration is a measure of a bond or bond fund's sensitivity to changes in interest rates. Generally, the longer a bond or fund's duration, the more the price of the bond or fund will change as interest rates change. Leverage-adjusted duration takes into account the leveraging process for a Fund and therefore is generally longer than the duration of the actual portfolio of individual bonds that make up the Fund.

## Edgar Filing: NUVEEN CALIFORNIA MUNICIPAL VALUE FUND INC - Form N-CSRS

Market Yield (also known as Dividend Yield or Current Yield): An investment's current annualized dividend divided by its current market price.

Net Asset Value (NAV): A fund's NAV is calculated by subtracting the liabilities of the fund from its total assets and then dividing the remainder by the number of shares outstanding. Fund NAVs are calculated at the end of each business day.

Taxable-Equivalent Yield: The yield necessary from a fully taxable investment to equal, on an after-tax basis, the yield of a municipal bond investment.

-----

Each Fund intends to repurchase shares of its own common or preferred stock in the future at such times and in such amounts as is deemed advisable. No shares were repurchased during the period ended February 29, 2004. Any future repurchases will be reported to shareholders in the next annual or semiannual report.

FOR GENERATIONS

Since 1898, financial advisors and their clients have relied on Nuveen Investments to provide dependable investment solutions. For the past century, Nuveen Investments has adhered to the belief that the best approach to investing is to apply conservative risk-management principles to help minimize volatility.

Building on this tradition, we today offer a range of high quality equity and fixed-income solutions that are integral to a well-diversified core portfolio. Our clients have come to appreciate this diversity, as well as our continued adherence to proven, long-term investing principles.

Managing \$90 billion in assets, Nuveen Investments offers access to a number of different asset classes and investing solutions through a variety of products. Nuveen Investments markets its capabilities under four distinct brands: Nuveen, a leader in tax-free investments; NWQ, a leader in value-style equities; Rittenhouse, a leader in growth-style equities; and Symphony, a leading institutional manager of market-neutral alternative investment portfolios.

To learn more about the products and services Nuveen Investments offers and for a prospectus, where applicable, talk to your financial advisor, or call us at (800) 257-8787. Please read the information carefully before you invest.
