Chairman's  
LETTER TO SHAREHOLDERS

Once again, I am pleased to report that over the most recent reporting period your Fund continued to provide you with monthly tax-free income and an attractive total return. For more specific information about the performance of your Fund, please see the Portfolio Manager's Comments and Performance Overview sections of this report.

With longer-term interest rates still relatively low, many investors have begun to wonder whether these rates will soon begin to rise, and whether that makes this the time to adjust their holdings of fixed-income investments. No one knows what the future will bring, which is why we think a well-balanced portfolio that is structured and carefully monitored with the help of an investment professional is an

-----  
"OUR MISSION CONTINUES TO BE TO ASSIST YOU AND YOUR FINANCIAL ADVISOR BY OFFERING THE INVESTMENT SERVICES AND PRODUCTS THAT CAN HELP YOU TO SECURE YOUR FINANCIAL OBJECTIVES."  
-----

important component in achieving your long-term financial goals. A well-diversified portfolio that includes fixed-income investments with a variety of maturities may actually help to reduce your overall investment risk. We believe that a municipal bond investment with intermediate-term characteristics like this Nuveen Fund can be an important building block in a portfolio designed to perform well through a variety of market conditions.

As in past reports, I'd also like to direct your attention to the inside front cover, which explains the quick and easy process to begin receiving Fund reports via e-mail and the internet. Thousands of Nuveen Fund shareholders have already signed-up, and they are getting their Fund information faster and more conveniently than ever. I urge you to consider joining them.

At Nuveen Investments, our mission continues to be to assist you and your financial advisor by offering the investment services and products that can help you to secure your financial objectives. We are grateful that you have chosen us as a partner as you pursue your financial goals, and we look forward to continuing to earn your trust in the months and years ahead.

Sincerely,

/s/ Timothy R. Schwertfeger

Nuveen Select Maturities Municipal Fund  
NIM

Portfolio Manager's  
PERSPECTIVE

Portfolio manager John Miller reviews the economy and market environment, key investment strategies and the performance of the Fund. With 11 years of municipal market experience, including 8 years with Nuveen, John has managed NIM since 2001.

WHAT FACTORS AFFECTED THE U.S. ECONOMY AND MUNICIPAL MARKET DURING THE SEMIANNUAL REPORTING PERIOD ENDED SEPTEMBER 30, 2004?

During this six-month period, the U.S. economy demonstrated improvement in a number of key areas, although the pace of recovery slowed compared with that of the previous six months. After posting GDP (gross domestic product) annualized growth above 4% in the previous two quarters, economic growth in the second quarter of 2004 moderated to 3.3% (annualized). Slower job growth and higher oil prices held GDP growth to an annualized rate of 3.7% in the third quarter of 2004.

Higher energy costs were also partially responsible for some increased speculation about a rise in the rate of inflation. The Consumer Price Index rose at a 4.8% annualized rate in the second quarter of 2004 before slowing to a 0.6% annual growth rate in the third quarter. These inflation concerns, along with the pace of economic recovery and continued geopolitical uncertainty, acted as catalysts for heightened volatility in the fixed-income markets during this reporting period.

As one example, the yield on the Bond Buyer 25 Revenue Bond Index (BB25), a widely followed municipal bond index, stood at 4.91% when this reporting period began on April 1, 2004. As a series of improved employment reports sparked increased anticipation that the Federal Reserve might move to raise short-term interest rates, the index yield began to climb, rising to 5.45% by May 13, 2004. By the end of September 2004, more bond-friendly news--including indications of slower economic growth and relatively benign inflation--had prompted a retreat to 5.02%.

While intermediate and long-term interest rates were moving up and then down, short-term rates rose. The Federal Reserve introduced three one-quarter-point increases in the fed funds rate between June and September 2004, raising the target rate by a total of 75 basis points to 1.75%. As a result, we saw some flattening of the yield curve (i.e., short-term rates started to approach the much-higher long-term rates). The Fed continued to

4

note that it anticipated taking a "measured" approach to further tightening as a way to promote a sustainable recovery without increasing inflationary pressures.

During this six-month period, municipal bond supply nationwide remained relatively strong despite a decline in year-to-year issuance. More than \$180

## Edgar Filing: NUVEEN SELECT MATURITIES MUNICIPAL FUND - Form N-CSRS

billion in new bonds came to market in the second and third quarters of 2004, a decrease of 10% when compared with April-September 2003. In contrast to 2003, when many states were issuing bonds to bridge budget gaps and fund operations, an improving economy and higher tax revenues have, in general, lessened the states' need to borrow. In September 2004 alone, national volume was down 24% from one year earlier.

IN THIS ENVIRONMENT, WHAT KEY STRATEGIES WERE USED TO MANAGE NIM DURING THE SIX MONTHS ENDED SEPTEMBER 30, 2004?

In keeping with the investment parameters of this Fund, the majority of our purchase activity during this period focused on finding attractive securities in the intermediate part of the yield curve (i.e., bonds that mature in about 10 years). Whenever possible, we sought bonds with coupons that were higher than the prevailing market rates. We believed these so-called premium bonds offered attractive current income and might help to moderate the risks inherent in a rise in intermediate-term interest rates (since bond prices decline when interest rates rise). To accommodate these purchases, we sold holdings of some bonds with shorter maturities or relatively short call dates.

In addition to our emphasis on bonds that could provide current income and a measure of downside protection, we also selectively looked for opportunities to upgrade NIM's credit quality. As a result, we sold some BBB rated holdings at what we thought were favorable prices and used the proceeds to purchase A rated bonds. From a sector perspective, we continued to find healthcare attractive, particularly hospital bonds. Among the additions to NIM's portfolio during this period were A1 rated bonds issued by the Iowa Finance Authority for Genesis Medical Center.

HOW DID THE FUND PERFORM?

Results for NIM, as well as for relevant benchmarks, are presented in the accompanying table.

## Edgar Filing: NUVEEN SELECT MATURITIES MUNICIPAL FUND - Form N-CSRS

For the six months ended September 30, 2004, NIM's cumulative return on net asset value (NAV) outperformed the return of the unmanaged Lehman Brothers index. The Fund slightly underperformed the average of the Lipper peer group, which is comprised primarily of Funds holding longer-term bonds.

Some of NIM's relatively strong performance during this period was due to the returns provided by specific securities within the portfolio. For example, the Fund held \$3.2 million (representing 3% of the portfolio) in bonds issued by the Piedmont Municipal Power Agency, a South Carolina public electric power facility. These bonds were pre-refunded during this period, which benefited the Fund through price appreciation as well as enhancing the Fund's overall credit quality.

Even though we were attempting to improve the credit quality of the Fund over this period, NIM did benefit to a degree from its holdings of lower quality bonds. Lower-rated bonds generally outperformed higher-quality securities as the economic outlook improved over this period and demand for these bonds increased. Among the lower-rated bonds making positive contributions to NIM's six-month return were those issued within the healthcare sector, especially hospital bonds. NIM's return was also helped by its holdings of bonds backed by revenues from the 1998 master tobacco settlement agreement.

### HOW ABOUT NIM'S DIVIDEND AND SHARE PRICE?

As noted earlier, our key goals over the past six months included income-oriented strategies designed to support and potentially enhance NIM's income stream. This emphasis helped to maintain the stability of NIM's dividend throughout this period.

- 1 The Lehman Brothers 7-Year Municipal Bond Index is an unleveraged, unmanaged index comprising a broad range of investment-grade municipal bonds with maturities ranging from six to eight years. Results for the Lehman index do not reflect any expenses.
- 2 The Lipper General and Insured Unleveraged Municipal Debt Funds category average is calculated using the returns of all unleveraged closed-end exchange-traded funds in this category for each period as follows: 6 months, 9 funds; 1 year, 9 funds; 5 years, 8 funds; and 10 years, 8 funds. Fund and Lipper returns assume reinvestment of dividends.

6

NIM seeks to pay stable dividends at rates that reflect the Fund's past results and projected future performance. During certain periods, NIM may pay dividends at a rate that may be more or less than the amount of net investment income actually earned by the Fund during the period. If a Fund has cumulatively earned more than it has paid in dividends, it holds the excess in reserve as undistributed net investment income (UNII) as part of the Fund's NAV. Conversely, if a Fund has cumulatively paid dividends in excess of its earnings, the excess constitutes negative UNII that is likewise reflected in the Fund's NAV. NIM will, over time, pay all of its net investment income as dividends to shareholders. As of September 30, 2004, NIM had a negative UNII balance for purposes of its financial statements.

As of September 30, 2004, NIM was trading at a discount to its NAV. This

## Edgar Filing: NUVEEN SELECT MATURITIES MUNICIPAL FUND - Form N-CSRS

discount was roughly in line with the Fund's average discount over the entire six-month reporting period.

HOW WAS NIM POSITIONED IN TERMS OF CREDIT QUALITY AND BOND CALLS AS OF SEPTEMBER 30, 2004?

Given the current geopolitical and economic climate, we continued to believe that maintaining strong credit quality within part of the portfolio was a good counterbalance to the Fund's exposure to lower-rated securities. As of the end of September 2004, 58% of NIM's portfolio was rated AAA/U.S. guaranteed and AA.

At the end of September 2004, NIM's potential call exposure during 2004-2005 was 11%. The number of actual bond calls in this Fund depends largely on market interest rates.

### Notes to FINANCIAL STATEMENTS (Unaudited)

#### 1. GENERAL INFORMATION AND SIGNIFICANT ACCOUNTING POLICIES

The Fund covered in this report and its corresponding Common share New York Stock Exchange symbol is Nuveen Select Maturities Municipal Fund (NIM) (the "Fund"). The Fund is registered under the Investment Company Act of 1940, as amended, as a closed-end, diversified management investment company.

The Fund seeks to provide current income exempt from regular federal income tax, consistent with the preservation of capital by investing in a diversified, investment-grade quality portfolio of municipal obligations with intermediate characteristics. In managing its portfolio, the Fund has purchased municipal obligations having remaining effective maturities of no more than fifteen years with respect to 80% of its total assets that, in the opinion of Nuveen Advisory Corp. (the "Adviser"), a wholly owned subsidiary of Nuveen Investments, Inc., represent the best value in terms of the balance between yield and capital preservation currently available from the intermediate sector of the municipal market. The Adviser will actively monitor the effective maturities of the Fund's investments in response to prevailing market conditions, and will adjust its portfolio consistent with its investment policy of maintaining an average effective remaining maturity of twelve years or less.

The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements in accordance with U.S. generally accepted accounting principles.

#### Securities Valuation

The prices of municipal bonds in the Fund's investment portfolio are provided by a pricing service approved by the Fund's Board of Trustees. When price quotes are not readily available (which is usually the case for municipal securities), the pricing service establishes fair market value based on yields or prices of

## Edgar Filing: NUVEEN SELECT MATURITIES MUNICIPAL FUND - Form N-CSRS

municipal bonds of comparable quality, type of issue, coupon, maturity and rating, indications of value from securities dealers, evaluations of anticipated cash flows or collateral and general market conditions. If it is determined that market prices for a security are unavailable or inappropriate, the Board of Trustees of the Fund, or its designee, may establish a fair value for the security. Temporary investments in securities that have variable rate and demand features qualifying them as short-term securities are valued at amortized cost, which approximates market value.

### Securities Transactions

Securities transactions are recorded on a trade date basis. Realized gains and losses from such transactions are determined on the specific identification method. Securities purchased or sold on a when-issued or delayed delivery basis may have extended settlement periods. The securities so purchased are subject to market fluctuation during this period. The Fund has instructed the custodian to segregate assets with a current value at least equal to the amount of the when-issued and delayed delivery purchase commitments. At September 30, 2004, the Fund had an outstanding when-issued purchase commitment of \$1,082,144.

### Investment Income

Interest income, which includes the amortization of premiums and accretion of discounts for financial reporting purposes, is recorded on an accrual basis. Investment income also includes paydown gains and losses, if any.

### Income Taxes

The Fund intends to distribute all net investment income and net capital gains to shareholders and to otherwise comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies. Therefore, no federal income tax provision is required. Furthermore, the Fund intends to satisfy conditions which will enable interest from municipal securities, which is exempt from regular federal income tax, to retain such tax-exempt status when distributed to shareholders of the Fund. Net realized capital gains and ordinary income distributions made by the Fund are subject to federal taxation.

18

### Dividends and Distributions to Shareholders

Dividends from tax-exempt net investment income are declared monthly. Net realized capital gains and/or market discount from investment transactions, if any, are distributed to shareholders not less frequently than annually. Furthermore, capital gains are distributed only to the extent they exceed available capital loss carryforwards.

Distributions to shareholders of tax-exempt net investment income, net realized capital gains and/or market discount, if any, are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from U.S. generally accepted accounting principles.

### Derivative Financial Instruments

The Fund may invest in certain derivative financial instruments including futures, forward, swap and option contracts, and other financial instruments with similar characteristics. Although the Fund is authorized to invest in such

## Edgar Filing: NUVEEN SELECT MATURITIES MUNICIPAL FUND - Form N-CSRS

financial instruments, and may do so in the future, it did not make any such investments during the six months ended September 30, 2004.

### Custodian Fee Credit

The Fund has an arrangement with the custodian bank whereby certain custodian fees and expenses are reduced by credits earned on the Fund's cash on deposit with the bank. Such deposit arrangements are an alternative to overnight investments.

### Indemnifications

Under the Fund's organizational documents, its Officers and Trustees are indemnified against certain liabilities arising out of the performance of their duties to the Fund. In addition, in the normal course of business, the Fund enters into contracts that provide general indemnifications to other parties. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred. However, the Fund has not had prior claims or losses pursuant to these contracts and expects the risk of loss to be remote.

### Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results may differ from those estimates.

## 2. FUND SHARES

The Fund did not engage in transactions in its own shares during the six months ended September 30, 2004, nor during the fiscal year ended March 31, 2004.

## 3. SECURITIES TRANSACTIONS

Purchases and sales (including maturities) of investments in long-term municipal securities during the six months ended September 30, 2004, aggregated \$8,471,065 and \$9,726,225, respectively.

## 4. INCOME TAX INFORMATION

The following information is presented on an income tax basis. Differences between amounts for financial statement and federal income tax purposes are primarily due to the treatment of paydown gains and losses on investments, timing differences in recognizing income on taxable market discount securities and timing differences in recognizing certain gains and losses on security transactions.

At September 30, 2004, the cost of investments owned was \$121,314,642.

The net unrealized appreciation of investments at September 30, 2004, aggregated \$4,810,793 of which \$5,266,057 related to appreciated securities and \$455,264 related to depreciated securities.

# Edgar Filing: NUVEEN SELECT MATURITIES MUNICIPAL FUND - Form N-CSRS

FINANCIAL STATEMENTS (Unaudited) (continued)

The tax components of undistributed net investment income and net realized gains at March 31, 2004, the Fund's last fiscal year end, were as follows:

Undistributed net tax-exempt income	\$77,372
Undistributed net ordinary income *	1,427
Undistributed net long-term capital gains	--

\* Net ordinary income consists of taxable market discount income and net short-term capital gains, if any.

The tax character of distributions paid during the fiscal year ended March 31, 2004, the Fund's last fiscal year end, was designated for purposes of the dividends paid deduction as follows:

2004

Distributions from net tax-exempt income	\$6,265,664
Distributions from net ordinary income *	24,790
Distributions from net long-term capital gains	--

\* Net ordinary income consists of taxable market discount income and net short-term capital gains, if any.

At March 31, 2004, the Fund's last fiscal year end, the Fund had unused capital loss carryforwards of \$15,276,106 available for federal income tax purposes to be applied against future capital gains, if any. If not applied, \$14,922 of the carryforward will expire in the year 2010, \$6,523,386 will expire in 2011 and \$8,737,798 will expire in 2012.

The Fund elected to defer net realized losses from investments incurred from November 1, 2003 through March 31, 2004 ("post-October losses") in accordance with Federal income tax regulations. Post-October losses of \$24,091 were treated as having arisen on the first day of the current fiscal year.

## 5. MANAGEMENT FEE AND OTHER TRANSACTIONS WITH AFFILIATES

As approved by the Board of Trustees, effective August 1, 2004, a complex-wide management fee structure was adopted for all funds sponsored by Nuveen Advisory Corp. (the "Adviser"), a wholly owned subsidiary of Nuveen Investments, Inc. and its affiliates. This fee structure separates each fund's management fee into two components - a complex-level component, based on the aggregate amount of all funds assets managed by the Adviser and its affiliates, and a specific fund-level component, based only on the amount of assets within each individual fund. This pricing structure enables Nuveen fund shareholders to benefit from growth in the assets within each individual fund as well as from growth in the amount of complex-wide assets managed by the Adviser and its affiliates. Under no circumstances will this pricing structure result in a fund paying management fees at a rate higher than would otherwise have been applicable had the complex-wide management fee structure not been implemented. As a consequence of this new management fee structure, the funds' effective management fees were reduced by approximately .007% as of October 31, 2004.

Effective August 1, 2004, the annual fund-level fee, payable monthly, is based upon the average daily net assets of the Fund as follows:

AVERAGE DAILY NET ASSETS	FUND-LEVEL FEE RATE

Effective August 1, 2004, the annual complex-level fee, payable monthly, which is additive to the fund-level fee, for all Nuveen sponsored funds in the U.S., is based on the aggregate amount of total fund assets managed as follows:

COMPLEX-LEVEL ASSETS (1)	COMPLEX-LEVEL FEE RATE
For the first \$55 billion	.2000%
For the next \$1 billion	.1800
For the next \$1 billion	.1600
For the next \$3 billion	.1425
For the next \$3 billion	.1325
For the next \$3 billion	.1250
For the next \$5 billion	.1200
For the next \$5 billion	.1175
For the next \$15 billion	.1150
For Managed Assets over \$91 billion(2)	.1400

=====

(1) The complex-level fee component of the management fee for the funds is calculated based upon the aggregate Managed Assets ("Managed Assets" means the average daily net assets of each fund including assets attributable to all types of leverage used by the Nuveen funds) of Nuveen-sponsored funds in the U.S.

(2) With respect to the complex-wide Managed Assets over \$91 billion, the fee rate or rates that will apply to such assets will be determined at a later date. In the unlikely event that complex-wide Managed Assets reach \$91 billion prior to a determination of the complex-level fee rate or rates to be applied to Managed Assets in excess of \$91 billion, the complex-level fee rate for such complex-wide Managed Assets shall be .1400% until such time as a different rate or rates is determined.

The Fund paid through July 31, 2004, an annual management fee, payable monthly, at the rates set forth below, which were based upon the average daily net assets of the Fund as follows:

AVERAGE DAILY NET ASSETS	MANAGEMENT FEE RATE
For the first \$125 million	.5000%
For the next \$125 million	.4875
For the next \$250 million	.4750
For the next \$500 million	.4625
For the next \$1 billion	.4500
For net assets over \$2 billion	.4375

Adviser or to its officers, all of whom receive remuneration for their services to the Fund from the Adviser or its affiliates. The Board of Trustees has adopted a deferred compensation plan for independent Trustees that enables Trustees to elect to defer receipt of all or a portion of the annual compensation they are entitled to receive from certain Nuveen advised Funds. Under the plan, deferred amounts are treated as though equal dollar amounts had been invested in shares of select Nuveen advised Funds.

NUVEEN CLOSED-END EXCHANGE-TRADED FUNDS DIVIDEND REINVESTMENT PLAN

Your Nuveen Closed-End Exchange-Traded Fund allows you to conveniently reinvest dividends and/or capital gains distributions in additional fund shares.

By choosing to reinvest, you'll be able to invest money regularly and automatically, and watch your investment grow through the power of tax-free compounding. Just like dividends or distributions in cash, there may be times

## Edgar Filing: NUVEEN SELECT MATURITIES MUNICIPAL FUND - Form N-CSRS

when income or capital gains taxes may be payable on dividends or distributions that are reinvested.

It is important to note that an automatic reinvestment plan does not ensure a profit, nor does it protect you against loss in a declining market.

### EASY AND CONVENIENT

To make recordkeeping easy and convenient, each month you'll receive a statement showing your total dividends and distributions, the date of investment, the shares acquired and the price per share, and the total number of shares you own.

### HOW SHARES ARE PURCHASED

The shares you acquire by reinvesting will either be purchased on the open market or newly issued by the Fund. If the shares are trading at or above net asset value at the time of valuation, the Fund will issue new shares at the then-current market price. If the shares are trading at less than net asset value, shares for your account will be purchased on the open market. Dividends and distributions received to purchase shares in the open market will normally be invested shortly after the dividend payment date. No interest will be paid on dividends and distributions awaiting reinvestment. Because the market price of shares may increase before purchases are completed, the average purchase price per share may exceed the market price at the time of valuation, resulting in the acquisition of fewer shares than if the dividend or distribution had been paid in shares issued by the Fund. A pro rata portion of any applicable brokerage commissions on open market purchases will be paid by Plan participants. These commissions usually will be lower than those charged on individual transactions.

### FLEXIBILITY

You may change your distribution option or withdraw from the Plan at any time, should your needs or situation change. Should you withdraw, you can receive a certificate for all whole shares credited to your reinvestment account and cash payment for fractional shares, or cash payment for all reinvestment account shares, less brokerage commissions and a \$2.50 service fee.

You can reinvest whether your shares are registered in your name, or in the name of a brokerage firm, bank, or other nominee. Ask your investment advisor if his or her firm will participate on your behalf. Participants whose shares are registered in the name of one firm may not be able to transfer the shares to another firm and continue to participate in the Plan.

The Fund reserves the right to amend or terminate the Plan at any time. Although the Fund reserves the right to amend the Plan to include a service charge payable by the participants, there is no direct service charge to participants in the Plan at this time.

For more information on the Nuveen Automatic Reinvestment Plan or to enroll in or withdraw from the Plan, speak with your financial advisor or call us at (800) 257-8787.

### GLOSSARY OF TERMS USED IN THIS REPORT

**AVERAGE ANNUAL TOTAL RETURN:** This is a commonly used method to express an investment's performance over a particular, usually multi-year time period. It expresses the return that would have been necessary each year to equal the investment's actual cumulative performance (including change in NAV or market price and reinvested dividends and capital gains distributions, if any) over the time period being considered.

**AVERAGE EFFECTIVE MATURITY:** The average of all the maturities of the bonds in a fund's portfolio, computed by weighting each maturity date (the date the security comes due) by the market value of the security. This figure does not account for the likelihood of prepayments or the exercise of call provisions.

**MODIFIED DURATION:** Duration is a measure of the sensitivity of a bond or bond fund's value to changes when interest rates change. Generally, the longer a bond or fund's duration, the more the price of the bond or fund will change as interest rates change.

**MARKET YIELD (ALSO KNOWN AS DIVIDEND YIELD OR CURRENT YIELD):** An investment's current annualized dividend divided by its current market price.

**NET ASSET VALUE (NAV):** A fund's NAV is calculated by subtracting the liabilities of the fund from its total assets and then dividing the remainder by the number of shares outstanding. Fund NAVs are calculated at the end of each business day.

**TAXABLE-EQUIVALENT YIELD:** The yield necessary from a fully taxable investment to equal, on an after-tax basis, the yield of a municipal bond investment.

### ITEM 11. CONTROLS AND PROCEDURES.

- (a) The registrant's principal executive and principal financial officers, or persons performing similar functions, have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the "1940 Act") (17 CFR 270.30a-3(c))) are effective, as of a date within 90 days of the filing date of this report that includes the disclosure required by this paragraph, based on their evaluation of the controls and procedures required by Rule 30a-3(b) under the 1940 Act (17 CFR 270.30a-3(b)) and Rules 13a-15(b) or 15d-15(b) under the Securities Exchange Act of 1934, as amended (the "Exchange Act") (17 CFR 240.13a-15(b) or 240.15d-15(b)).
- (b) There were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act (17 CFR 270.30a-3(d))) that occurred during the registrant's last fiscal half-year (the registrant's second fiscal half-year in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

### ITEM 12. EXHIBITS.

File the exhibits listed below as part of this Form.

(a)(1) Any code of ethics, or amendment thereto, that is the subject of the disclosure required by Item 2, to the extent that the registrant intends to satisfy the Item 2 requirements through filing of an exhibit: Not applicable to this filing.

(a)(2) A separate certification for each principal executive officer and principal financial officer of the registrant as required by Rule 30a-2(a) under the 1940 Act (17 CFR 270.30a-2(a)) in the exact form set forth below: Ex-99.CERT attached hereto.

(a)(3) Any written solicitation to purchase securities under Rule 23c-1 under the 1940 Act (17 CFR 270.23c-1) sent or given during the period covered by the report by or on behalf of the registrant to 10 or more persons: Not applicable.

(b) If the report is filed under Section 13(a) or 15(d) of the Exchange Act, provide the certifications required by Rule 30a-2(b) under the 1940 Act (17 CFR 270.30a-2(b)); Rule 13a-14(b) or Rule 15d-14(b) under the Exchange Act (17 CFR 240.13a-14(b) or 240.15d-14(b)), and Section 1350 of Chapter 63 of Title 18 of the United States Code (18 U.S.C. 1350) as an exhibit. A certification furnished pursuant to this paragraph will not be deemed "filed" for purposes of Section 18 of the Exchange Act (15 U.S.C. 78r), or otherwise subject to the liability of that section. Such certification will not be deemed to be incorporated by reference into any filing under the Securities Act of 1933 or the Exchange Act, except to the extent that the registrant specifically incorporates it by reference.
