Timothy R. Schwertfeger Chairman of the Board

> Chairman's Letter to Shareholders

I am pleased to report that for the year ended December 31, 2004, your Fund continued to provide you with attractive monthly income from a diversified portfolio of quality preferred securities, convertible securities and high-yield debt. The date of this report represents a change that aligns your Fund's fiscal year with the calendar year. We believe this change in your Fund's shareholder reporting cycle will lead to greater efficiencies and other benefits in the management and operation of your Fund.

"We continue to believe that your Fund provides a valuable source of regular monthly income, and that it also may provide an opportunity to reduce the overall risk of your entire investment portfolio."

As you'll see as you review this report, there has been no change in the objectives or management of your Fund. We continue to believe that your Fund provides a valuable source of regular monthly income, and that it also may provide an opportunity to reduce the overall risk of your entire investment portfolio. This is because the price of your Fund's shares may move differently than the prices of other investments that you may own. Your financial advisor can explain the advantages of portfolio diversification in more detail. I urge you to contact him or her soon for more information on this important investment strategy.

I also urge you to consider receiving future Fund reports and other Fund information faster by using e-mail and the Internet. Sign up is quick and easy - see the inside front cover of this report for instructions.

For more than 100 years, Nuveen has specialized in offering quality investments such as your Fund to those seeking to accumulate and preserve wealth. Our mission continues to be to assist you and your financial advisor by offering the investment solutions and services that can help you secure your long-term financial goals. We thank you for choosing us as a partner as you work toward that objective.

Sincerely,

/s/ Timothy R. Schwertfeger

Timothy R. Schwertfeger Chairman of the Board

Nuveen Preferred and Convertible Income Funds (JPC, JQC)

Portfolio Managers' Perspective

These Funds are subadvised by a team of specialists from Spectrum Asset Management, Inc., Froley, Revy Investment Co., Inc., and Symphony Asset Management, LLC.

Spectrum, an affiliate of Principal Capital(SM), manages the preferred securities portion of each Fund's portfolio. Mark Lieb, Bernie Sussman and Phil Jacoby, who have more than 50 years of combined experience in the preferred securities markets, lead the team.

Froley, Revy, one of the oldest firms specializing in convertible securities, manages that portion of each Fund's portfolio. Their investment team is led by Andrea Revy O'Connell and Michael Revy, who each have more than 10 years' experience in convertible securities investing.

The Symphony team managing the high yield securities and other debt instruments in both Funds is led by Gunther Stein and Lenny Mason. Gunther and Lenny have more than 25 years of combined investment management experience, much of it in evaluating and purchasing senior corporate loans and other high-yield debt.

Here representatives from Spectrum, Froley, Revy and Symphony talk about general economic conditions, their management strategies and the performance of both Funds for the 12-month period ended December 31, 2004.

What were the conditions in the fixed-income markets generally, and the preferred securities, convertible securities and high yield debt markets in particular, during the 12-month period December 31, 2004?

Generally, the U.S. economy presented a slowly improving picture in 2004. The Gross Domestic Product (GDP) grew at a preliminary estimate of 4.4% over the course of the full year. Inflation remained largely in check, as the Consumer Price Index rose 3.3% due primarily to increased energy costs. Corporate profits grew by an average of about 20%, and there was an increase of approximately 2 million jobs with the unemployment rate dropping to 5.4% at the end of 2004 from 5.7% at the beginning of the year. The fourth quarter stock market rally seemed to reflect a belief by some that the economic recovery had become more self-sustaining.

In the fixed-income markets, the Federal Reserve raised the fed funds rate five times between June 30 and December 14. At the close of the year, this benchmark rate stood at 2.25%, compared with 1.00% one year earlier. (On February 2, 2005, after the close of this reporting period, the Federal Reserve raised the fed funds rate by another 0.25% to 2.50%.) At the same time, rates remained essentially unchanged at the long end of the yield curve, with the yield on 10-year U.S. Treasuries standing at 4.22% on December 31, 2004, compared with 4.26% at the beginning of the year.

Despite this significant flattening of the yield curve, longer duration investments such as preferred securities continued to enjoy generally wide yield spreads over money market funds and other short-term instruments. The Merrill Lynch Preferred Stock Hybrid Securities Index returned 5.51% during 2004, one reason why individual investors remained aggressive buyers throughout the year in the \$25 par sector of the market. Within the \$1000 par capital securities sector, buying interest also was strong throughout the year as U.S. and European insurance companies joined other institutional investors who sought to garner incremental yield. Encouraging this demand was the continued improvement in the general credit quality of many issuers, especially among the financial-oriented companies that make up a large proportion of the holdings of these Funds. The ratio of upgrades to downgrades was more favorable over this one-year period than at any time since the Funds' inceptions.

The Merrill Lynch All U.S. Convertible Index returned 9.61% in 2004. The strong performance of the asset class was due in large part to double digit returns from the underlying equities into which the convertibles potentially convert. Convertibles that were more balanced or more yield sensitive (sensitive to interest rates or to the credit quality of a stable issuer) also performed solidly but did not offer quite as much upside return. In addition, convertible performance was influenced by interest rate movements, the volatilities and dividend policies of the underlying equities, and merger and acquisition activity. Interest rates were a modest negative influence on returns this year as the yield curve flattened. Equity volatilities also were a drag on convertible valuations as short-term volatilities contracted sharply to multi-year lows. Longer-term volatilities, which are more important for convertible valuations, fell more modestly but still had a negative effect on performance.

The CSFB High Yield Index returned 11.96% for the year, aided by an impressive performance during the fourth quarter of 2004. Investor sentiment generally remained upbeat, sustained by a steady flow of positive macroeconomic data. Lower-rated bonds tended to outperform the middle and upper ratings tiers due to the healthier economic environment and some investors' increased tolerance for risk. As the credit markets improved, default rates continued to drop. The 12-month rolling default rate reached 1.27% at the end of

5

2004, declining from 2.92% as of year end 2003. New issue volume was in-line with 2003 levels, totaling \$131.0 billion for the year.

What was your overall management strategy for the 12-month period ended December 31, 2004?

In the preferred securities portion of both Funds' portfolios, we continued to maintain a balance between the two major preferred sectors - the \$25 par and the \$1000 par capital securities. While both sectors presented attractive investment opportunities at particular points in time, by the end of 2004 the relative weighting between the two in each Fund was relatively unchanged from the beginning of the period. Over the course of 2004, our investment focus centered on buying high quality, higher coupon preferred issues that usually traded on the basis of their yield-to-call rather than their yield-to-maturity.

Within the \$25 par sector, this meant seeking securities with coupons of 7.00% or more and call dates two or three years in the future. In the \$1000 par capital securities sector, much of our investment focus was on "Yankee step-up" securities. These are \$US-denominated preferreds issued primarily by highly-rated European financial institutions. They pay a fixed rate for a period

of time and then move to a wide spread above LIBOR (London Interbank Offered Rate) if the issuer does not call the security. This step-up feature makes the exercise of the call option more likely and creates a shorter duration, less interest rate sensitive investment vehicle.

For the convertible securities portion of both portfolios, our overall strategy was to seek yield opportunities while investing in what we thought were undervalued or fairly-valued securities from stable issuers. In practice, this meant trying to find securities having market prices or characteristics that, in our opinion, did not reflect their true value. For instance, we did not find many utility company convertibles particularly attractive during this period. Since the high correlation of many utilities' equity performance with interest rates movements, utility-issued convertible bonds often will move in the same direction as interest rates both from a fixed-income perspective and from an equity perspective. To us, this reduces their attractiveness as convertibles. At the same time, we did invest in utility issues that were mandatory convertible preferreds. These securities tended to

6

offer much higher yields than more traditional utility convertibles with only modestly more risk.

For the high yield debt portion of both portfolios, we continued to employ a value-oriented strategy, focusing on relatively higher-quality credits with strong fundamental business models, diversified revenue streams, and relatively low earnings volatility. Investing our assets across a variety of industry sectors and rating tiers also remained a priority. We continued to evaluate the entire group of holdings, eliminating positions that we believed had escalating credit issues, limited upside potential or significant downside risk.

How did the Funds perform over this period?

Each of the Funds performed well during the 12 months ended December 31, 2004. Their performance, as well as the performance of several widely followed market indexes, is shown in the nearby chart.

Total Return on Net Asset Value For 12 months ended December 31, 2004

JPC	9.98%
JQC	10.31%
Comparative Benchmark(1)	7.77%

Past performance does not guarantee future results. Returns do not reflect the deduction of taxes that a shareholder may have to pay on Fund distributions or upon the sale of Fund shares.

For more information, please see the individual Performance Overview pages in this report.

For the 12 months ended December 31, 2004, both Funds outperformed their comparative benchmarks. One of the primary factors benefiting the performance of these Funds relative to that of the benchmark was the Funds' use of financial leverage. While leveraging can add volatility to a Fund's NAV and share price, especially during periods of rising interest rates, this strategy can also provide opportunities for additional income and total returns for common

shareholders when short-term interest rates remain relatively low and long-term rates fall or remain relatively constant, as they did during this reporting period.

(1) The Comparative Benchmark performance is a blend consisting: 1) 60% of the return of the Merrill Lynch Preferred Stock Hybrid Securities Index, an unmanaged index of investment-grade, exchange-traded preferred stocks with outstanding market values of at least \$30 million and at least one year to maturity; 2) 30% of the return of the Merrill Lynch All U.S. Convertibles Index, which consists of approximately 575 securities with par value greater than \$50 million that were issued by U.S. companies or non-U.S. based issuers that have a significant business presence in the U.S.; and 3) 10% of the return of the CSFB High Yield Index, which includes approximately \$375 billion of \$US-denominated high yield debt with a minimum of \$75 million in par value and at least one rating below investment-grade.

7

Within the preferred securities portions of both Funds' portfolios, individual security selection also played a prominent role in each Fund's strong relative performance for the year. Highly-rated preferreds issued by financial institutions, especially banks, were the mainstays. Over the course of the year, these securities often performed better than lower-rated securities. This was especially true for some of the securities issued by non-US companies that we were able to purchase at attractive yields relative to similarly rated preferreds from U.S. issuers.

Seasoned "repackaged preferreds" also provided some good returns for the Funds. These securities are created when an investment bank buys a specific tranche of bonds or \$1000 par preferred securities of a particular issuer, places them in a trust, and then issues \$25 par preferreds backed by this trust. The repackaged preferreds are often not widely followed in the secondary market, which can produce some very attractive pricing and yields. In addition to their attractive return potential, they also provided the Funds with exposure to some issuers who have little or no other preferreds outstanding, such as IBM, BellSouth and Safeco. This helped improve the overall diversification of each portfolio.

Within the \$1000 par capital securities sector, our increased focus on \$US-denominated preferreds from foreign issuers and on preferreds that trade in the "Euro listed" sector provided good returns to the portfolios as these two areas were among the best performing sectors in the overall corporate market.

Other actions that positively impacted Fund performance over this period included our participation in a tender offer for Safeco preferreds, opportunistic buying of some insurance company securities that we believed was unfairly discounted because of the ongoing investigations of the industry, and the year end purchase of a very attractively priced Fannie Mae floating rate preferred stock that appreciated 12% in two days.

While it was generally a very good year from a credit standpoint, there were a few blemishes in the preferred securities sleeves that hurt overall Fund performance. While we limited the Funds' exposure to the auto sector (and actually reduced it as the year went on), the prices on Ford and GM preferreds and bonds tended to weaken over the period, given concerns over eroding market share and unfunded pension and health care

obligations. Another position that negatively impacted performance was Converium. The Swiss reinsurance company surprised the markets with a large addition to reserves due to losses in their U.S. operations, and the company was subsequently downgraded to below investment grade. While we liquidated the entire position, the prices we were able to obtain were well below our costs.

In the convertible securities portions of both Funds, the Consumer Discretionary and Telecommunications sectors provided the greatest positive contribution to performance. Both of these areas performed well generally, and the Funds had higher weightings in them over this period than the Merrill Lynch index. In addition, the specific securities we held performed better than their sectors as a whole. Specific standouts from the Consumer Discretionary sector were Carnival Corporation and Royal Caribbean Cruises Ltd. Hotels as a group also performed very well. In the Telecommunications sector, the issues exchangeable into PCS shares were strong contributors to performance. NII Holdings (formerly Nextel International Holdings) and Alltel also performed well.

Other convertible securities which contributed positively to performance of JQC were Comcast into PCS, Lion's Gate Films, and Carnival Corp. In JPC, solid performers included Genenetech, Comcast into PCS, and Lion's Gate Films.

At the same time, both Funds were relatively underweighted in energy convertibles at the beginning of the year relative to the Merrill index. As a result, we missed a good portion of the upward stock movements that resulted from the surge in oil prices seen throughout the year. While we increased our energy weightings as the year went along, the lack of earlier participation cost the Funds some return potential.

As noted earlier, we found many Utility sector convertible bonds to be relatively unattractive. Nevertheless, this sector performed well in 2004. While the utility securities we did hold performed well, they did not do as well as the sector as a whole.

Individual convertible securities that hurt performance over this period were General Motors, Nortel and Nextel in JQC, and Allied Waste, Nortel and Delta Airlines in JPC.

9

Among each Fund's high yield holdings, strong performance came from the Consumer Products, Housing, and Food/Tobacco sectors. These sectors all outperformed the CSFB Index, posting 12-month returns of 14.73%, 12.80%, and 12.41%, respectively.

Over this twelve-month period, distressed and CCC-rated debt significantly outperformed all other rating tiers. Consequently, industries with many low credit-quality companies, such as the Metals/Minerals, Chemicals, and Utilities sectors, were among the top performing sectors in 2004. The JPC and JQC portfolios had minimal exposure to these volatile industries and negligible exposure to distressed and CCC-rated debt. As a result, the Fund's did not benefit as much from this performance as the CSFB index.

What about dividends and share price?

Both of these Funds use financial leverage in an effort to enhance their dividend-paying capabilities. While this strategy adds volatility to a Fund's net asset value and share price, it generally enhances the amount of income the Fund has to distribute to its common shareholders. The extent of this benefit is tied in part to the short-term rates these Funds pay their FundPreferred(TM)

shareholders. Even though short-term rates rose through the second half of this 12-month period, the Funds continued to benefit from their leveraging strategy. This is one reason why both Funds were able to maintain stable monthly dividends through the course of 2004.

Both Funds seek to pay stable dividends at rates that reflect each Fund's past results and projected future performance. During certain periods, each Fund may pay dividends at a rate that may be more or less than the amount of net investment income actually earned by the Fund during the period. If a Fund has cumulatively earned more than it has paid in dividends, it holds the excess in reserve as undistributed net investment income (UNII) as part of the Fund's NAV. Conversely, if a Fund has cumulatively paid dividends in excess of its earnings, the excess constitutes negative UNII that is likewise reflected in the Fund's NAV. Each Fund will, over time, pay all of its net investment income as dividends to shareholders. As of December 31, 2004, both Funds had negative UNII balances for financial statement purposes and positive UNII balances for tax purposes.

10

As of December 31, 2004, JPC was trading at a -6.46% discount to its net asset value, compared with a -4.82% average discount for the entire 12-month period. JQC was trading at an -8.63% discount, compared with an average discount of -5.41% for the full year.

Report of Independent Registered Public Accounting Firm

To the Shareholders and Board of Trustees of Nuveen Preferred and Convertible Income Fund Nuveen Preferred and Convertible Income Fund 2

We have audited the accompanying statements of assets and liabilities of Nuveen Preferred and Convertible Income Fund and Nuveen Preferred and Convertible Income Fund 2 (the "Funds"), including the portfolios of investments, as of December 31, 2004, and the related statements of operations and changes in net

assets, and the financial highlights for the periods indicated therein. These financial statements and financial highlights are the responsibility of the Funds' management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Funds' internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of December 31, 2004, by correspondence with the custodian and brokers or by other appropriate auditing procedures where replies from brokers were not received. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of Nuveen Preferred and Convertible Income Fund and Nuveen Preferred and Convertible Income Fund 2 at December 31, 2004, the results of their operations, the changes in their net assets and the financial highlights for the periods indicated therein, in conformity with U.S. generally accepted accounting principles.

Notes to Financial Statements

1. General Information and Significant Accounting Policies

The funds (the "Funds") covered in this report and their corresponding Common share New York Stock Exchange symbols are Nuveen Preferred and Convertible Income Fund (JPC) and Nuveen Preferred and Convertible Income Fund 2 (JQC). The Funds are registered under the Investment Company Act of 1940, as amended, as diversified, closed-end management investment companies.

Prior to the commencement of operations of the Funds, each Fund had no operations other than those related to organizational matters, the initial capital contribution of \$100,275 per Fund by Nuveen Institutional Advisory Corp. (the "Adviser"), a wholly owned subsidiary of Nuveen Investments, Inc., ("Nuveen") and the recording of the organization expenses (\$11,500 per Fund) and

their reimbursement by Nuveen Investments, LLC, also a wholly owned subsidiary of Nuveen.

Each Fund seeks to provide high current income by investing primarily in a portfolio of preferred securities, convertible securities and, to a lesser degree, high yield securities. Each Fund may also invest in other debt instruments and common stocks acquired upon conversion of a convertible security.

The Board of Trustees of the Funds approved a change in the Funds' fiscal year end from July 31 to December 31 upon completion of the Funds' July 31, 2004 fiscal year.

The following is a summary of significant accounting policies followed by the Funds in the preparation of their financial statements in accordance with U.S. generally accepted accounting principles.

Securities Valuation

Exchange-listed securities and instruments are generally valued at the last sales price on the exchange on which such securities or instruments are primarily traded. Securities or instruments traded on an exchange for which there are no transactions on a given day or securities or instruments not listed on an exchange are valued at the mean of the closing bid and asked prices. Futures contracts are valued using the closing settlement price or, in the absence of such a price, at the mean of the bid and asked prices. Securities traded on Nasdaq are valued at the Nasdaq Official Closing Price. The prices of fixed-income securities are generally provided by an independent pricing service approved by the Funds' Board of Trustees and based on the mean between the bid and asked prices. When price quotes are not readily available, the pricing service or, in the absence of a pricing service for a particular security or instrument, the Board of Trustees of the Funds, or its designee, may establish fair market value using a wide variety of market data including yields or prices of securities of comparable quality, type of issue, coupon, maturity and rating, market quotes or indications of value from security dealers, evaluations of anticipated cash flows or collateral, general market conditions and other information and analysis, including the obligor's credit characteristics considered relevant by the pricing service or the Board of Trustee's designee. Short-term securities are valued at amortized cost, which approximates market value.

Securities Transactions

Securities transactions are recorded on a trade date basis. Realized gains and losses from transactions are determined on the specific identification method. Securities purchased on a when-issued or delayed delivery basis may have extended settlement periods. Any securities so purchased are subject to market fluctuation during this period. The Funds have instructed the custodian to segregate assets with a current value at least equal to the amount of the when-issued and delayed delivery purchase commitments. At December 31, 2004, Preferred and Convertible Income 2 (JQC) had an outstanding delayed delivery purchase commitments in Preferred and Convertible Income (JPC).

Investment Income

Dividend income on securities purchased and dividend expense on securities sold short are recorded on the ex-dividend date or, for foreign securities, when information is available. Interest income, which includes the amortization of premiums and accretion of discounts for financial reporting purposes, is recorded on an accrual basis.

Income Taxes

Each Fund is a separate taxpayer for federal income tax purposes. Each Fund intends to distribute substantially all net investment income and net capital gains to shareholders and to otherwise comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies. Therefore, no federal income tax provision is required.

48

Dividends and Distributions to Common Shareholders

Distributions to Common shareholders are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from U.S. generally accepted accounting principles.

Dividends to Common shareholders are declared monthly. With respect to the REIT securities held in the Funds' Portfolio of Investments, distributions received by the Funds are generally comprised of investment income, long-term and short-term capital gains, and a return of REIT capital. The actual character of amounts received during the period is not known until after the fiscal year-end. For the twelve months ended December 31, 2004, the character of distributions to the Funds from the REITs was as follows:

	Preferred and	Preferred and
	Convertible	Convertible
	Income	Income 2
2004	(JPC)	(JQC)
Ordinary income*	83.15%	83.29%
Long-term and short-term capital gains	14.69	15.13
Return of REIT capital	2.16	1.58

For the twelve months ended December 31, 2003, the character of distributions to the Funds from the REITs was as follows:

	Preferred	Preferred
	and	and
	Convertible	Convertible
	Income	Income 2
2003	(JPC)	(JQC)
Ordinary income*	84.04%	77.85%
Long-term and short-term capital gains	.20	.17
Return of REIT capital	15.76	21.98

* Ordinary income consists of net taxable income derived from dividends, interest, and net short-term capital gains, if any.

For the fiscal period ended December 31, 2004, each Fund applied the actual character of distributions reported by the REITs in which the Fund invests to its receipts from the REITs. If a REIT held in the portfolio of investments did not report the actual character of its distributions during the period, the Fund treated the distributions as ordinary income.

For fiscal periods ended prior to December 31, 2004, each Fund applied a

percentage estimate for the breakdown of income type, to its receipts from the REITs and treated as income in the Statement of Operations only the amount of ordinary income so calculated. Each Fund adjusted that estimated breakdown of income type (and consequently its net investment income) as necessary in the following calendar year when the REITs informed their shareholders of the actual breakdown of income type.

For the fiscal period ended December 31, 2004, each Fund applied the actual character of distributions reported by the REITs in which the Fund invests to the distributions paid to each Funds shareholders.

With respect to the portion of each Fund's monthly distribution to its shareholders derived from the Fund's investments in REIT securities for fiscal periods ended prior to December 31, 2004, each Fund treated that portion of its distribution as being entirely from net investment income. The Funds recharacterized those distributions as being from ordinary income, long-term and short-term capital gains, and return of capital, if necessary, in the subsequent calendar year, based upon the income type breakdown information conveyed at that time by the REITs whose securities are held in each Fund's portfolio. Consequently, the financial statements for fiscal periods ended prior to December 31, 2004, may have reflected an over-distribution of net investment income that was at least partly attributable to the fact that, as of the date of the financial statements, some of the amounts received by the Funds from the portfolio REITs, but none of the dividends paid by the Funds to shareholders from the portfolio REITs were treated as something other than ordinary income.

49

Notes to Financial Statements (continued)

FundPreferred Shares

The Funds have issued and outstanding FundPreferred shares, \$25,000 stated value per share, as a means of effecting financial leverage. Each Fund's FundPreferred shares are issued in more than one Series. The dividend rate on each Series is determined every seven days, pursuant to a dutch auction process overseen by the auction agent, and is payable weekly at the end of each rate period. The number of shares outstanding, by Series and in total, for each Fund is as follows:

	Preferred and Convertible Income (JPC)	Preferred and Convertible Income 2 (JQC)
Number of shares:		
Series M	4,720	3,860
Series M2		3,860
Series T	4,720	3,860
Series T2		3,860
Series W	4,720	3,860
Series W2		3,860
Series TH	4,720	3,860
Series TH2		3,860
Series F	4,720	3,860
Series F2	4,720	3,860
Total	28,320	38,600

Interest Rate Swap Transactions

The Funds may invest in certain derivative financial instruments. The Funds' use of interest rate swap transactions is intended to mitigate the negative impact that an increase in short-term interest rates could have on Common share net earnings as a result of leverage. Interest rate swap transactions involve each Fund's agreement with the counterparty to pay a fixed rate payment in exchange for the counterparty paying the Fund a variable rate payment that is intended to approximate each Fund's variable rate payment obligation on FundPreferred shares or any variable rate borrowing. The payment obligation is based on the notional amount of the interest rate swap contract. Interest rate swaps do not involve the delivery of securities or other underlying assets or principal. Accordingly, the risk of loss with respect to the swap counterparty on such transactions is limited to the net amount of interest payments that each Fund is to receive. Interest rate swap positions are valued daily. Although there are economic advantages of entering into interest rate swap transactions, there are also additional risks. The Funds help manage the credit risks associated with interest rate swap transactions by entering into agreements only with counterparties the Adviser believes have the financial resources to honor their obligations and by having the Adviser continually monitor the financial stability of the swap counterparties.

Due to recent clarification provided by the SEC to regulated investment companies, effective with the July 31, 2004, reporting period, the Funds changed the way they present net interest expense on interest rate swap transactions in the financial statements. Net interest expense amounts paid during the year are included in "Net realized gain (loss) from interest rate swap transactions". Net interest expense amounts accrued, but not yet paid, at the end of the fiscal year, are included in "Change in net unrealized appreciation (depreciation) of interest rate swap transactions". Previously, net interest expense was presented in "Expenses" and reported as "Net interest expense on interest rate swap transactions". This reclassification does not alter the tax treatment of interest rate payments on swap transactions which is to include such payments as an operating expense for tax purposes.

50

Futures Contracts

Each Fund may use futures contracts to hedge against changes in the values of securities the Fund owns. Each Fund bears the market risk arising from changes in the value of these financial instruments. At the time a Fund enters into a futures contract, the Fund deposits and maintains as collateral an initial margin as required by the exchange on which the transaction is affected. Pursuant to the contract, the Fund agrees to receive from or pay to the broker an amount of cash equal to the daily fluctuation in the value of the contract. Such receipts or payments are known as variation margin and are recorded by the Fund as unrealized gains or losses on futures contracts. Risk may arise from the potential inability of the counterparty to meet the terms of the contract. When a contract is closed, the Fund records a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the time is was closed.

Short Sales

The Funds are authorized to make short sales of securities if the Funds own at least an equal amount of such securities or securities convertible into securities of the same issuer. To secure its obligation to deliver securities sold short, the Funds have instructed the custodian to segregate assets in an

equivalent amount of the securities sold short or securities convertible into or exchangeable for such securities. The Fund is obligated to pay to the party to which the securities were sold short, dividends declared on the stock by the issuer and records such amounts as expense in the Statement of Operations. Short sales are valued daily and the corresponding unrealized gains or losses are included in "Change in net unrealized appreciation (depreciation) of investments."

Repurchase Agreements

In connection with transactions in repurchase agreements, it is the Funds' policy that its custodian take possession of the underlying collateral securities, the fair value of which exceeds the principal amount of the repurchase transaction, including accrued interest, at all times. If the seller defaults, and the fair value of the collateral declines, realization of the collateral may be delayed or limited.

Organization and Offering Costs

Nuveen Investments, LLC has agreed to reimburse all organization expenses (approximately \$11,500 per Fund) and pay all Common share offering costs (other than the sales load) that exceed \$.03 per Common share. Preferred and Convertible Income's (JPC) and Preferred and Convertible Income 2's (JQC) share of Common share offering costs (\$1,749,867 and \$1,766,467, respectively) were recorded as reductions of the proceeds from the sale of Common shares.

Costs incurred by Preferred and Convertible Income (JPC) and Preferred and Convertible Income 2 (JQC) in connection with their offering of FundPreferred shares (\$14,594,079 and \$19,727,060, respectively) were recorded as reductions to paid-in surplus.

Custodian Fee Credit

Each Fund has an arrangement with the custodian bank whereby certain custodian fees and expenses are reduced by credits earned on each Fund's cash on deposit with the bank. Such deposit arrangements are an alternative to overnight investments.

Indemnifications

Under the Funds' organizational documents, its Officers and Trustees are indemnified against certain liabilities arising out of the performance of their duties to the Funds. In addition, in the normal course of business, the Funds enter into contracts that provide general indemnifications to other parties. The Funds' maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets applicable to Common shares from operations during the reporting period. Actual results may differ from those estimates.

Notes to

Financial Statements (continued)

2. Fund Shares

Transactions in Common and FundPreferred shares were as follows:

	Preferred and Convertible Income (JPC)			Convert	
		Year Ended 7/31/04	For the Period 3/26/03 (commencement of operations) through 7/31/03	Months Ended	
Common shares: Shares sold Shares issued to shareholders due to			100,000,000		
reinvestment of distributions		79,185	36,992		
		79 , 185	100,036,992		
FundPreferred shares sold			28,320		

3. Securities Transactions

Purchases and sales (including maturities and transactions in securities sold short but excluding short-term investments) of investment securities during the five months ended December 31, 2004, were as follows:

	Preferred	Preferred
	and	and
	Convertible	Convertible
	Income	Income 2
	(JPC)	(JQC)
Purchases:	¢276 025 204	¢200 052 007
Investment securities Sales and maturities:	\$276,835,304	\$388,953,897
	207 021 050	200 221 620
Investment securities	287,821,050	389,231,630

4. Income Tax Information

The following information is presented on an income tax basis based on the information currently available to the Funds. Differences between amounts for financial statement and federal income tax purposes are primarily due to the recognition of income on certain securities which are treated as debt securities for income tax purposes and equity securities for financial statement purposes, and timing differences in recognizing certain gains and losses on security transactions.

At December 31, 2004, the cost of investments was as follows:

	Preferred and Convertible Income (JPC)
Cost of investments (net of proceeds received on securities sold short)	\$2,135,341,481

52

Gross unrealized appreciation and gross unrealized depreciation of investments at December 31, 2004, were as follows:

	Preferred and Convertible Income (JPC)	Preferred and Convertible Income 2 (JQC)
Gross unrealized:		
Appreciation	\$ 151,312,210	\$ 158,870,119
Depreciation	(35,294,509)	(31,341,565)
Net unrealized appreciation of investments	\$ 116,017,701	\$ 127,528,554

The tax components of undistributed net ordinary income and net realized gains at December 31, 2004, were as follows:

		Preferred and	Preferred and
	C	Convertible Income (JPC)	Convertible Income 2 (JQC)
Undistributed net ordinary income *	\$	8,790,389	\$ 11,988,764
Undistributed net long-term capital gains		3,341,644	 6,828,270

* Net ordinary income consists of net taxable income derived from dividends, interest and net short-term capital gains, if any.

The tax character of distributions paid during the fiscal periods ended December 31, 2004, July 31, 2004 and July 31, 2003, was designated for purposes of the dividends paid deduction as follows:

	Preferred	Preferred
	and	and

Distributions from net ordinary income *	\$ 21,811,614	\$
Distributions from net long-term capital gains		

Edgar Eiling: NUIVEEN DREEERRED CONVERTIRI E INCOME EUND - Form N-CSR

* Net ordinary income consists of net taxable income derived from dividends, interest and net short-term capital gains, if any.

Calculation of certain of the amounts presented above (namely, undistributed net ordinary income for tax purposes) involves the application of complex aspects of the Internal Revenue Code to certain securities held by the Funds. In calculating the amount of taxable income derived from these securities, management made assumptions as to the correct tax treatment of certain of those securities and made estimates about the tax characteristics of income received from those securities, based on information currently available to the Funds. The use of these assumptions and estimates will not affect the qualification of the Funds as regulated investment companies under Subchapter M of the Internal Revenue Code, nor is it expected that these assumptions and estimates will be used in computing taxable income for purposes of preparing the federal and state income and excise tax returns.

Notes to Financial Statements (continued)

5. Management Fee and Other Transactions with Affiliates

As approved by the Board of Trustees, effective August 1, 2004, a complex-wide management fee structure was adopted for all funds sponsored by the Adviser and its affiliates. This fee structure separates each fund's management fee into two components - a complex-level component, based on the aggregate amount of all funds assets managed by the Adviser and its affiliates, and a specific fund-level component, based only on the amount of assets within each individual fund. This pricing structure enables Nuveen fund shareholders to benefit from growth in the assets within each individual fund as well as from growth in the amount of complex-wide assets managed by the Adviser and its affiliates. Under no circumstances will this pricing structure result in a fund paying management

fees at a rate higher than would otherwise have been applicable had the complex-wide management fee structure not been implemented. As a consequence of this new management fee structure, the funds' effective management fees were reduced by approximately .009% as of January 31, 2005.

Effective August 1, 2004, the annual fund-level fee, payable monthly, for each of the Funds is based upon the average daily Managed Assets of each Fund as follows:

Average Daily Managed Assets	Fund-Level Fee Rate		
For the first \$500 million	.7000%		
For the next \$500 million	.6750		
For the next \$500 million	.6500		
For the next \$500 million	.6250		
For Managed Assets over \$2 billion	.6000		

Effective August 1, 2004, the annual complex-level fee, payable monthly, which is additive to the fund-level fee, for all Nuveen sponsored funds in the U.S., is based on the aggregate amount of total fund assets managed as follows:

Complex-Level Assets(1)	Complex-Level Fee Rate
For the first \$55 billion	.2000%
For the next \$1 billion	.1800
For the next \$1 billion	.1600
For the next \$3 billion	.1425
For the next \$3 billion	.1325
For the next \$3 billion	.1250
For the next \$5 billion	.1200
For the next \$5 billion	.1175
For the next \$15 billion	.1150
For Managed Assets over \$91 billion (2)	.1400

- (1) The complex-level fee component of the management fee for the funds is calculated based upon the aggregate Managed Assets ("Managed Assets" means the average daily net assets of each fund including assets attributable to all types of leverage used by the Nuveen funds) of Nuveen-sponsored funds in the U.S.
- (2) With respect to the complex-wide Managed Assets over \$91 billion, the fee rate or rates that will apply to such assets will be determined at a later date. In the unlikely event that complex-wide Managed Assets reach \$91 billion prior to a determination of the complex-level fee rate or rates to be applied to Managed Assets in excess of \$91 billion, the complex-level fee rate for such complex-wide Managed Assets shall be .1400% until such time as a different rate or rates is determined.

Each Fund paid through July 31, 2004, an annual management fee, payable monthly, at the rates set forth below, which were based upon the average daily Managed Assets of each Fund as follows:

Average Daily Managed Assets	Management Fee Rate
For the first \$500 million For the next \$500 million For the next \$500 million For the next \$500 million	.9000% .8750 .8500
For the next \$500 million For Managed Assets over \$2 billion	.8250 .8000

54

The management fee compensates the Adviser for overall investment advisory and administrative services and general office facilities. The Adviser has entered into Sub-Advisory Agreements with Spectrum Asset Management, Inc. ("Spectrum"), and Froley, Revy Investment Co., Inc. (Froley, Revy). Spectrum manages the portion of the Fund's investment portfolio allocated to preferred securities while Froley, Revy manages the portion of the investment portfolio allocated to convertible securities. Spectrum and Froley, Revy are compensated for their services to the Funds from the management fees paid to the Adviser. Spectrum also receives compensation on certain portfolio transactions for providing brokerage services to the Funds. The Adviser is responsible for the overall strategy and asset allocation decisions as well as managing the portion of the investment portfolio allocated to other debt securities.

The Funds pay no compensation directly to those of its Trustees who are affiliated with the Adviser or to its officers, all of whom receive remuneration for their services to the Funds from the Adviser or its affiliates. The Board of Trustees has adopted a deferred compensation plan for independent Trustees that enables Trustees to elect to defer receipt of all or a portion of the annual compensation they are entitled to receive from certain Nuveen advised Funds. Under the plan, deferred amounts are treated as though equal dollar amounts had been invested in shares of select Nuveen advised Funds.

For the first eight years of Preferred and Convertible Income's (JPC) operations, the Adviser has agreed to reimburse the Fund, as a percentage of average daily Managed Assets, for fees and expenses in the amounts and for the time periods set forth below:

Year Ending March 31,		Year Ending March 31,	
2003* 2004 2005 2006	.32% .32 .32 .32 .32	2008 2009 2010 2011	.32% .24 .16 .08
2007	.32		

* From the commencement of operations.

The Adviser has not agreed to reimburse Preferred and Convertible Income (JPC) for any portion of its fees and expenses beyond March 31, 2011.

For the first eight years of Preferred and Convertible Income 2's (JQC) operations, the Adviser has agreed to reimburse the Fund, as a percentage of average daily Managed Assets, for fees and expenses in the amounts and for the time periods set forth below:

Year Ending June 30,		Year Ending June 30,	
2003*	.32%	2008	.32%
2004	.32	2009	.24
2005	.32	2010	.16
2006	.32	2011	.08
2007	.32		

* From the commencement of operations.

The Adviser has not agreed to reimburse Preferred and Convertible Income 2 (JQC) for any portion of its fees and expenses beyond June 30, 2011.

6. Subsequent Events

Distributions to Common Shareholders

The Funds declared Common share dividend distributions from their net investment income which were paid on February 1, 2005, to shareholders of record on January 15, 2005, as follows:

	Preferred	Preferred
	and	and
	Convertible	Convertible
	Income	Income 2
	(JPC)	(JQC)
Dividend per share	\$.1005	\$.0975

Adviser Merger

Effective January 1, 2005, the Adviser and its affiliate, Nuveen Advisory Corp. ("NAC"), were merged into Nuveen Asset Management ("NAM"), also a wholly owned subsidiary of Nuveen. As a result of the merger, NAM is now the adviser to all funds previously advised by either NAC or the Adviser.

Announcement Regarding Parent Company of Adviser

After the close of trading on the New York Stock Exchange on January 31, 2005, The St. Paul Travelers Companies, Inc. announced that it intended to explore strategic alternatives to divest its equity stake in Nuveen.

- (1) Mr. Schwertfeger is an "interested person" of the Funds, as defined in the Investment Company Act of 1940, because he is an officer and board member of the Adviser.
- (2) Board members serve an indefinite term until his/her successor is elected. The year first elected or appointed represents the year in which the board member was first elected or appointed to any fund in the Nuveen Complex.
- (3) Nuveen Advisory Corp. and Nuveen Institutional Advisory Corp. were reorganized into Nuveen Asset Management, effective January 1, 2005.
- (4) Officers serve one year terms through July of each year. The year first elected or appointed represents the year in which the Officer was first elected or appointed to any fund in the Nuveen Complex.

Reinvest Automatically Easily and Conveniently

Sidebar text: Nuveen makes reinvesting easy. A phone call is all it takes to set up your reinvestment account.

Nuveen Closed-End Exchange-Traded Funds Dividend Reinvestment Plan

Your Nuveen Closed-End Exchange-Traded Fund allows you to conveniently reinvest dividends and/or capital gains distributions in additional fund shares.

By choosing to reinvest, you'll be able to invest money regularly and automatically, and watch your investment grow through the power of compounding.

It is important to note that an automatic reinvestment plan does not ensure a profit, nor does it protect you against loss in a declining market.

Easy and convenient

To make recordkeeping easy and convenient, each month you'll receive a statement showing your total dividends and distributions, the date of investment, the shares acquired and the price per share, and the total number of shares you own.

How shares are purchased

The shares you acquire by reinvesting will either be purchased on the open market or newly issued by the Fund. If the shares are trading at or above net asset value at the time of valuation, the Fund will issue new shares at the greater of the net asset value or 95% of the then-current market price. If the shares are trading at less than net asset value, shares for your account will be purchased on the open market. Dividends and distributions received to purchase shares in the open market will normally be invested shortly after the dividend payment date. No interest will be paid on dividends and distributions awaiting reinvestment. Because the market price of the shares may increase before purchases are completed, the average purchase price per share may exceed the

market price at the time of valuation, resulting in the acquisition of fewer shares than if the dividend or distribution had been paid in shares issued by the Fund. A pro rata portion of any applicable brokerage commissions on open market purchases will be paid by Plan participants. These commissions usually will be lower than those charged on individual transactions.

Flexible

You may change your distribution option or withdraw from the Plan at any time, should your needs or situation change. Should you withdraw, you can receive a certificate for all whole shares credited to your reinvestment account and cash payment for fractional shares, or cash payment for all reinvestment account shares, less brokerage commissions and a \$2.50 service fee.

You can reinvest whether your shares are registered in your name, or in the name of a brokerage firm, bank, or other nominee. Ask your investment advisor if his or her firm will participate on your behalf. Participants whose shares are registered in the name of one firm may not be able to transfer the shares to another firm and continue to participate in the Plan.

The Fund reserves the right to amend or terminate the Plan at any time. Although the Fund reserves the right to amend the Plan to include a service charge payable by the participants, there is no direct service charge to participants in the Plan at this time.

Call today to start reinvesting dividends and/or distributions

For more information on the Nuveen Automatic Reinvestment Plan or to enroll in or withdraw from the Plan, speak with your financial advisor or call us at (800) 257-8787.

Other Useful Information

Effective Jan. 1, 2005, the asset management services and operations of Nuveen Advisory Corp. (NAC) and Nuveen Institutional Advisory Corp (NIAC) became part of Nuveen Asset Management (NAM). This internal consolidation is intended to simplify the delivery of services to the investment management clients of Nuveen Investments. It does not affect the investment objectives or portfolio management of any Fund.

Quarterly Portfolio of Investments and Proxy voting information

Each Fund's (i) quarterly portfolio of investments, (ii) information regarding how the Funds voted proxies relating to portfolio securities held during the most recent 12-month period ended June 30, 2004 and (iii) a description of the policies and procedures that the Funds used to determine how to vote proxies relating to portfolio securities are available without charge, upon request, by calling Nuveen Investments toll-free at (800) 257-8787 or on Nuveen's website at www.nuveen.com.

You may also obtain this and other Fund information directly from the Securities and Exchange Commission ("SEC"). The SEC may charge a copying fee for this information. Visit the SEC on-line at http://www.sec.gov or in person at the SEC's Public Reference Room in Washington, D.C. Call the SEC at 1-202-942-8090 for room hours and operation. You may also request Fund information by sending an e-mail request to publicinfo@sec.gov or by writing to the SEC's Public Reference Section at 450 Fifth Street NW, Washington, D.C. 20549.

Dividend Information

The Nuveen Preferred and Convertible Income Fund and Nuveen Preferred and Convertible Income Fund 2 designates 7.93% and 7.73% respectively, of dividends declared from net investment income as dividends qualifying for the 70% dividends received deduction for corporations and 10.82% and 9.86% respectively, as qualified dividend income for individuals under the Jobs and Growth Tax Relief Reconciliation Act of 2003.

Glossary of Terms Used in this Report

Average Annual Total Return: This is a commonly used method to express an investment's performance over a particular, usually multi-year time period. It expresses the return that would have been necessary each year to equal the investment's actual cumulative performance (including change in NAV or market price and reinvested dividends and capital gains distributions, if any) over the time period being considered.

Market Yield (also known as Dividend Yield or Current Yield): An investment's current annualized dividend divided by its current market price.

Net Asset Value (NAV): A Fund's common share NAV per share is calculated by subtracting the liabilities of the Fund (including any MuniPreferred shares issued in order to leverage the Fund) from its total assets and then dividing the remainder by the number of shares outstanding. Fund NAVs are calculated at the end of each business day.

Nuveen Investments: SERVING Investors For GENERATIONS

Photo of: 2 women looking at a photo album.

Since 1898, financial advisors and their clients have relied on Nuveen Investments to provide dependable investment solutions. For the past century, Nuveen Investments has adhered to the belief that the best approach to investing is to apply conservative risk-management principles to help minimize volatility.

Building on this tradition, we today offer a range of high quality equity and fixed-income solutions that are integral to a well-diversified core portfolio. Our clients have come to appreciate this diversity, as well as our continued adherence to proven, long-term investing principles.

We offer many different investing solutions for our clients' different needs.

Managing more than \$115 billion in assets, Nuveen Investments offers access to a number of different asset classes and investing solutions through a variety of products. Nuveen Investments markets its capabilities under four distinct brands: Nuveen, a leader in fixed-income investments; NWQ, a leader in value-style equities; Rittenhouse, a leader in growth-style equities; and Symphony, a leading institutional manager of market-neutral alternative investment portfolios.

Find out how we can help you reach your financial goals.

To learn more about the products and services Nuveen Investments offers, talk to your financial advisor, or call us at (800) 257-8787. Please read the information provided carefully before you invest.

Be sure to obtain a prospectus, where applicable. Investors should consider the investment objective and policies, risk considerations, charges and expenses of the Fund carefully before investing. The prospectus contains this and other information relevant to an investment in the Fund. For a prospectus, please contact your securities representative or Nuveen Investments, 333 W. Wacker Dr., Chicago, IL 60606. Please read the prospectus carefully before you invest or send money.

ITEM 2. CODE OF ETHICS.

As of the end of the period covered by this report, the registrant has adopted a code of ethics that applies to the registrant's principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions. There were no amendments to or waivers from the Code during the period covered by this report. The registrant has posted the code of ethics on its website at www.nuveen.com/etf. (To view the code, click on the Investor Resources drop down menu box, click on Fund Governance and then click on Code of Conduct.)

ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT.

The registrant's Board of Directors or Trustees determined that the registrant has at least one "audit committee financial expert" (as defined in Item 3 of Form N-CSR) serving on its Audit Committee. The registrant's audit committee financial expert is Jack B. Evans, Chairman of the Audit Committee, who is "independent" for purposes of Item 3 of Form N-CSR. Mr. Evans has served as the registrant's audit committee financial expert from July 26, 2004 to the end of the reporting period on December 31, 2004.

Prior to July 26, 2004, William E. Bennett, who was "independent" for purposes of Item 3 of Form N-CSR, served as the audit committee financial expert. Mr. Bennett unexpectedly resigned from the Board effective April 30, 2004. Accordingly for this reporting period, the registrant did not have a designated "audit committee financial expert" from July 1, 2004 to July 26, 2004.

Mr. Evans was formerly President and Chief Operating Officer of SCI Financial Group, Inc., a full service registered broker-dealer and registered investment adviser ("SCI"). As part of his role as President and Chief Operating Officer, Mr. Evans actively supervised the Chief Financial Officer (the "CFO") and actively supervised the CFO's preparation of financial statements and other filings with various regulatory authorities. In such capacity, Mr. Evans was actively involved in the preparation of SCI's financial statements and the resolution of issues raised in connection therewith. Mr. Evans has also served on the audit committee of various reporting companies. At such companies, Mr. Evans was involved in the oversight of audits, audit plans, and the preparation of financial statements. Mr. Evans also formerly chaired the audit committee of the Federal Reserve Bank of Chicago.

Mr. Bennett was formerly Executive Vice President and Chief Credit Officer of First Chicago Corporation and its principal subsidiary, The First National Bank of Chicago. As part of his role as Chief Credit Officer, Mr. Bennett set policy as to accrual of assets/loans; designated performing/non-performing assets; set the level of reserves against the credit portfolio; and determined the carrying value of credit related assets and exposure. Among other things, Mr. Bennett was also responsible for the oversight of the internal analysis function including setting ground rules for the review and preparation of financial analysis and financial statements for use in making credit and risk decisions for clients.

Mr. Bennett has significant experience reviewing, analyzing and evaluating financial statements of domestic and international companies in a variety of industries with complex accounting issues.

ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

Nuveen Preferred and Convertible Income Fund

The following tables show the amount of fees that Ernst & Young LLP, the Fund's auditor, billed to the Fund during the Fund's last two full fiscal years. For engagements with Ernst & Young LLP entered into on or after May 6, 2003, the Audit Committee approved in advance all audit services and non-audit services that Ernst & Young LLP provided to the Fund, except for those non-audit services that were subject to the pre-approval exception under Rule 2-01 of Regulation S-X (the "pre-approval exception"). The pre-approval exception for services other than audit, review or attest services if: (A) the aggregate amount of all such services provided constitutes no more than 5% of the total amount of revenues paid by the Fund to its accountant during the fiscal year in which the services at the time of the engagement; and (C) the services are promptly brought to the Audit Committee's attention, and the Committee (or its delegate) approves the services before the audit is completed.

The Audit Committee has delegated certain pre-approval responsibilities to its Chairman (or, in his absence, any other member of the Audit Committee).

SERVICES	THAT	THE	FUND'S	AUDITOR	BILLED	ТО	THE	FUND
----------	------	-----	--------	---------	--------	----	-----	------

FISCAL YEAR ENDED	AUDIT FEES BILLED TO FUND	AUDIT-RELATED FEES BILLED TO FUND	TAX BILLED
December 31, 2004 *	\$ 18,139	\$ 0	\$
Percentage approved pursuant to pre-approval exception	N/A	0%	
FISCAL YEAR ENDED	AUDIT FEES BILLED TO FUND	AUDIT-RELATED FEES	
July 31, 2004	\$ 18,139	\$ 0	\$ 7
Percentage approved pursuant to pre-approval exception	N/A	0%	
July 31, 2003	\$ 19,300	\$ 0	\$
Percentage approved pursuant to pre-approval exception	N/A	0%	

*Nuveen Preferred and Convertible Fund changed its fiscal year end from July 31 to December 31, therefore, these numbers represent the period 08/01/04 - 12/31/04.

The above "All Other Fees" are fees paid to audit firms to perform agreed upon procedures required by the rating agencies to rate fund preferred shares. The above "Tax Fees" were billed for professional services for tax advice, tax compliance and tax planning.

SERVICES THAT THE FUND'S AUDITOR BILLED TO THE ADVISER AND AFFILIATED FUND SERVICE PROVIDERS

The following tables show the amount of fees billed by Ernst & Young LLP to Nuveen Institutional Advisory Corp. ("NIAC" or the "Adviser"), and any entity controlling, controlled by or under common control with NIAC ("Control Affiliate") that provides ongoing services to the Fund ("Affiliated Fund Service Provider"), for engagements directly related to the Fund's operations and financial reporting, during the Fund's last two full fiscal years.

The table also shows the percentage of fees subject to the pre-approval exception. The pre-approval exception for services provided to the Adviser and any Affiliated Fund Service Provider (other than audit, review or attest services) waives the pre-approval requirement if: (A) the aggregate amount of all such services provided constitutes no more than 5% of the total amount of revenues paid to Ernst & Young LLP by the Fund, the Adviser and Affiliated Fund Service Providers during the fiscal year in which the services are provided that would have to be pre-approved by the Audit Committee; (B) the Fund did not recognize the services as non-audit services at the time of the engagement; and (C) the services are promptly brought to the Audit Committee's attention, and the Committee (or its delegate) approves the services before the Fund's audit is completed.

FISCAL YEAR ENDED	AUDIT-RELATED FEES BILLED TO ADVISER AND AFFILIATED FUND SERVICE PROVIDERS	TAX FEES BILLED ADVISER AND AFFILIATED FU SERVICE PROVID

Percentage approved pursuant to pre-approval exception	0%	0%
July 31, 2003	\$ 0	\$ 0
Percentage approved pursuant to pre-approval exception	N/A	N/A

*Nuveen Preferred and Convertible Fund changed its fiscal year end from July 31 to December 31, therefore, these numbers represent the period 08/01/04 - 12/31/04.

NON-AUDIT SERVICES

The following table shows the amount of fees that Ernst & Young LLP billed during the Fund's last two full fiscal years for non-audit services. For engagements entered into on or after May 6, 2003, the Audit Committee is required to pre-approve non-audit services that Ernst & Young LLP provides to the Adviser and any Affiliated Fund Services Provider, if the engagement related directly to the Fund's operations and financial reporting (except for those subject to the de minimis exception described above). The Audit Committee requested and received information from Ernst & Young LLP about any non-audit services that Ernst & Young LLP rendered during the Fund's last fiscal year to the Adviser and any Affiliated Fund Service Provider. The Committee considered this information in evaluating Ernst & Young LLP's independence.

FISCAL YEAR ENDED		TOTAL NON-AUDIT FEES	
FISCAL IEAK ENDED

December 31, 2004 *	\$ 2,655	\$ 0
July 31, 2004	\$ 10,999	\$ 0
July 31, 2003	\$ 0	\$ 0

*Nuveen Preferred and Convertible Fund changed its fiscal year end from July 31 to December 31, therefore, these numbers represent the period 08/01/04 - 12/31/04.

Audit Committee Pre-Approval Policies and Procedures. Generally, the audit committee must approve (i) all non-audit services to be performed for the Fund by the Fund's independent accountants and (ii) all audit and non-audit services to be performed by the Fund's independent accountants for the Affiliated Fund Service Providers with respect to operations and financial reporting of the Fund. Regarding tax and research projects conducted by the independent accountants for the Fund and Affiliated Fund Service Providers (with respect to operations and financial reports of the Fund) such engagements will be (i) pre-approved by the audit committee if they are expected to be for amounts greater than \$10,000; (ii) reported to the audit committee chairman for his verbal approval prior to engagement if they are expected to be for amounts under \$10,000 but greater than \$5,000; and (iii) reported to the audit committee at the next audit committee meeting if they are expected to be for an amount under \$5,000.

ITEM 5. AUDIT COMMITTEE OF LISTED REGISTRANTS.

The registrant's Board of Directors or Trustees has a separately designated audit committee established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934, as amended (the "Exchange Act") (15 U.S.C. 78c(a)(58)(A)). The members of the audit committee are Robert P. Bremner,

Lawrence H. Brown, Jack B. Evans and William J. Schneider.

ITEM 6. SCHEDULE OF INVESTMENTS.

See Schedule I in Item 1.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

In the rare event that a municipal issuer held by the Fund were to issue a proxy or that the Fund were to receive a proxy issued by a cash management security, the Adviser would either engage an independent third party to determine how the proxy should be voted or vote the proxy with the consent, or based on the instructions, of the Fund's Board of Directors or Trustees or its representative. In the case of a conflict of interest, the proxy would be submitted to the applicable Fund's Board to determine how the proxy should be voted. A member of the Adviser's legal department would oversee the administration of the voting, and ensure that records were maintained in accordance with Rule 204-2(c)(2) under the Investment Advisers Act of 1940 (17 CFR 275.204-2(c)(2)), reports were filed with the SEC on Form N-PX, and the results were provided to the Board of Directors or Trustees and made available to shareholders as required by applicable rules.

ITEM 8. PORTFOLIO MANAGERS OF CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

Not applicable at this time.

ITEM 9. PURCHASES OF EQUITY SECURITIES BY CLOSED-END MANAGEMENT INVESTMENT COMPANY AND AFFILIATED PURCHASERS.

Not applicable.

ITEM 10. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

In the event of a vacancy on the Board, the nominating and governance committee receives suggestions from various sources, including shareholders, as to suitable candidates. Suggestions should be sent in writing to Lorna Ferguson, Vice President for Board Relations, Nuveen Investments, 333 West Wacker Drive, Chicago, IL 60606. The nominating and governance committee sets appropriate standards and requirements for nominations for new directors or trustees and reserves the right to interview all candidates and to make the final selection of any new directors or trustees.

ITEM 11. CONTROLS AND PROCEDURES.

- (a) The registrant's principal executive and principal financial officers, or persons performing similar functions, have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the "1940 Act") (17 CFR 270.30a-3(c))) are effective, as of a date within 90 days of the filing date of this report that includes the disclosure required by this paragraph, based on their evaluation of the controls and procedures required by Rule 30a-3(b) under the 1940 Act (17 CFR 270.30a-3(b)) and Rules 13a-15(b) or 15d-15(b) under the Securities Exchange Act of 1934, as amended (the "Exchange Act") (17 CFR 240.13a-15(b) or 240.15d-15(b)).
- (b) There were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act (17 CFR 270.30a-3(d)) that occurred during the second fiscal quarter of the period covered by this report that has materially affected, or is reasonably likely to materially affect, the registrant's internal

control over financial reporting.

ITEM 12. EXHIBITS.

File the exhibits listed below as part of this Form. Letter or number the exhibits in the sequence indicated.

(a) (1) Any code of ethics, or amendment thereto, that is the subject of the disclosure required by Item 2, to the extent that the registrant intends to satisfy the Item 2 requirements through filing of an exhibit: Not applicable because the code is posted on registrant's website at www.nuveen.com/etf. and there were no amendments during the period covered by this report (To view the code, click on the Investor Resources drop down menu box, click on Fund Governance and then Code of Conduct.).

(a) (2) A separate certification for each principal executive officer and principal financial officer of the registrant as required by Rule 30a-2(a) under the 1940 Act (17 CFR 270.30a-2(a)) in the exact form set forth below: Ex-99.CERT Attached hereto.

(a) (3) Any written solicitation to purchase securities under Rule 23c-1 under the 1940 Act (17 CFR 270.23c-1) sent or given during the period covered by the report by or on behalf of the registrant to 10 or more persons. Not applicable.

(b) If the report is filed under Section 13(a) or 15(d) of the Exchange Act, provide the certifications required by Rule 30a-2(b) under the 1940 Act (17 CFR 270.30a-2(b)); Rule 13a-14(b) or Rule 15d-14(b) under the Exchange Act (17 CFR 240.13a-14(b) or 240.15d-14(b)), and Section 1350 of Chapter 63 of Title 18 of the United States Code (18 U.S.C. 1350) as an exhibit. A certification furnished pursuant to this paragraph will not be deemed "filed" for purposes of Section 18 of the Exchange Act (15 U.S.C. 78r), or otherwise subject to the liability of that section. Such certification will not be deemed to be incorporated by reference into any filing under the Securities Act of 1933 or the Exchange Act, except to the extent that the registrant specifically incorporates it by reference. Ex-99.906 CERT attached hereto.
