PROXY STATEMENT

The enclosed proxy is solicited on behalf of the Board of Directors of MindArrow Systems, Inc., a Delaware corporation (MindArrow or the Company), for use at MindArrow s annual meeting of shareholders (the Annual Meeting) to be held on Thursday, March 14, 2002 at 10:00 a.m., and at any adjournments thereof. The purposes of the Annual Meeting are set forth in this Proxy Statement and in the accompanying Notice of Annual Meeting of Shareholders. The Annual Meeting will be held at the offices of the Company, located at 101 Enterprise, Suite 340, Aliso Viejo, California 92656. These proxy solicitation materials will be mailed on or about February 15, 2002 to all shareholders entitled to vote at the Annual Meeting.

QUESTIONS AND ANSWERS

Q: What may I vote on?

- A: (1) The election of nominees to serve on the Board of Directors;
- (2) To approve an amendment to the Company s Restated Certificate of Incorporation to increase the number of authorized shares of the Company s common stock, par value \$0.001 per share, from thirty million (30,000,000) to seventy five million (75,000,000) shares; and
- (3) To approve the issuance of up to ten million shares of Common Stock and/or shares of convertible securities or debt instruments convertible into shares of Common Stock, at such prices and on such terms as may be approved by the Board of Directors; provided that any such issuance(s) would (i) occur within three months of the date this proposal is approved by our shareholders and (ii) be sold at prices no lower than the lesser of (A) \$0.50 per share of Common Stock and (B) a 40% discount to the closing market price of the Common Stock on the day prior to the date that a binding agreement is entered into for the sale of such securities.

Q: How does the Board recommend I vote on the proposals?

A: The Board of Directors recommends a vote FOR each proposal.

Q: Who is entitled to vote?

A: Shareholders as of the close of business on February 11, 2002 (the Record Date) are entitled to vote at the Annual Meeting.

Table of Contents

Q: How do I vote? Can I revoke my proxy later?

A: Sign and date each proxy card you receive and return it in the prepaid envelope. You have the right to revoke your proxy at any time before the Annual Meeting by:

- (1) notifying the Secretary of the Company in writing;
- (2) voting in person; or
- (3) returning a later-dated proxy card.

Q: Who will count the vote?

A: U.S. Stock Transfer Corporation, the Company's transfer agent, will count the votes and act as the inspector of election.

Q: What shares are included on the proxy card(s)?

A: The shares on your proxy card(s) represent ALL of your shares. If you do not return your proxy card(s), your shares will not be voted.

Q: What does it mean if I get more than one proxy card?

A: If your shares are registered differently and are in more than one account, or if you own more than one class of shares, you will receive more than one proxy card. Sign and return all proxy cards to ensure that all your shares are voted. We encourage you to have all accounts registered in the same name and address (whenever possible). You can accomplish this by contacting our transfer agent, U.S. Stock Transfer Corporation or, if your shares are held in street name, by contacting the broker or bank who holds your shares.

Q: How many shares can vote?

A: As of the Record Date, 17,246,825 shares of Common stock, 893,262 shares of Series B Preferred stock, and 887,473 shares of Series C Preferred stock, the only voting securities of the Company, were issued and outstanding. Every holder of Common stock is entitled to one vote for each share of Common stock held; and each share of Series B and Series C Preferred entitles the holder to one vote per share of Preferred stock held, except when voting on an as converted basis with holders of Common stock. When voting on an as converted basis, Preferred shares are entitled to that number of votes equal to the number of shares of Common stock into which the share of Series B or Series C Preferred is convertible as of the Record Date. As of the Record Date, the conversion ratio of the Series B Preferred was 1.103:1, and the conversion ratio of the Series C Preferred was 2.228:1.

Q: What is a quorum ?

A: A quorum is a majority of the outstanding shares entitled to vote. They may be present in person or represented by proxy. For the purposes of determining a quorum, shares held by brokers or nominees will be treated as present even if the broker or nominee does not have discretionary power to vote on a particular matter or if instructions were never received from the beneficial owner. These shares are called broker non-votes. Abstentions will be counted as present for quorum purposes.

Table of Contents

Q: What is required to approve each proposal?

A: For the election of directors, the Series B Preferred shares are entitled to elect one director and the Series C Preferred shares are entitled to elect two directors. The remaining directors will be elected by the shares of Common stock, and the Series B and Series C Preferred shares voting on an as converted basis. Once a quorum has been established, the nominees for director who receive a plurality of the shares and as converted shares entitled to vote in their election will be selected as the directors of the Company.

Directors are elected by a plurality of votes cast. Shareholders may not cumulate their votes for any one of the nominees for election as directors, provided, however, that under Section 2115 of the California Corporations Code (which is currently applicable to the Company), a shareholder may cumulate votes in the election of directors if the candidates' names have been placed in nomination prior to the voting and the shareholder has given notice at the meeting prior to the voting of the shareholder's intention to cumulate the shareholder's votes, in which case all shareholders may cumulate their votes.

To approve the proposed amendment to the Company's Restated Certificate of Incorporation, a majority of the shares of the Company's outstanding common stock, including the Company's Series B and Series C Preferred stock on an as converted basis, must be voted in favor of the proposal.

To approve the proposed issuance of up to ten million shares of Common Stock and/or shares of convertible securities or debt instruments convertible into shares of Common Stock, a majority of the shares represented at the Annual Meeting, either in person or by proxy, on an as converted basis, must be voted in favor of the proposal.

If a broker indicates on its proxy that it does not have discretionary authority to vote on a particular matter, the affected shares will be treated as not present and entitled to vote with respect to that matter, even though the same shares may be considered present for quorum purposes and may be entitled to vote on other matters.

Q: What happens if I abstain?

A: Proxies marked "abstain" will be counted as shares present for the purpose of determining the presence of a quorum, but for purposes of determining the outcome of a proposal, shares represented by such proxies will not be treated as affirmative votes. For proposals requiring an affirmative vote of a majority of the shares present, an abstention is equivalent to a "no" vote.

Q: How will voting on any other business be conducted?

A: Although we do not know of any business to be considered at the Annual Meeting other than the proposals described in this Proxy Statement, if any other business is presented at the Annual Meeting, your signed proxy card gives authority to the proxyholders, Robert I. Webber and Michael R. Friedl, to vote on such matters at their discretion.

Q: Who are the largest principal shareholders?

A: For information regarding holders of more than 5% of the outstanding Common stock, see "Security Ownership of Certain Beneficial Owners and Management."

Table of Contents

Q: How will the Company solicit proxies?

A: U.S. Stock Transfer Corporation, the Company's transfer agent, has been engaged to assist in the distribution of proxy materials and solicitation of votes. We estimate that our costs will be approximately \$4,000. The Company may also, in its discretion, retain professional proxy solicitors, in addition to its transfer agent, to assist in the solicitation of votes. The costs of such solicitation will be paid by the Company. We also reimburse brokerage houses and other custodians, nominees and fiduciaries for their reasonable out-of-pocket expenses for forwarding proxy and solicitation materials to shareholders. Proxies may also be solicited in person, by telephone, or by facsimile by directors, officers, and employees of the Company without additional compensation.

At the Annual Meeting, six directors are to be elected. The holders of the Series B Preferred are entitled to elect one person to serve on the Company's board of directors, and holders of the Series C Preferred are entitled to elect two persons to serve on the Company's board of directors. Potential realizable values are net of exercise price, but before the payment of taxes associated with exercise. Amounts represent hypothetical gains that could be achieved for the respective options if exercised at the end of the option term. The 5% and 10% assumed annual rates of compounded stock price appreciation are mandated by rules of the Securities and Exchange Commission and do not represent our estimate or projection of our future common stock prices. These amounts represent assumed rates of appreciation in the value of the common stock from the fair market value on the date of grant. Actual gains, if any, on stock option exercises are dependent on the future performance of our common stock and overall stock market conditions. The amounts reflected in the table may not necessarily be achieved.

Table of Contents**SECURITY OWNERSHIP OF CERTAIN
BENEFICIAL OWNERS AND MANAGEMENT**

The following table sets forth, as of December 31, 2001, information relating to the beneficial ownership of Common stock by each person known by the Company to be the beneficial owner of more than five percent of the outstanding shares of Common stock, by each director and nominee for director, by each of the executive officers named in the Summary Compensation Table, and by all directors and executive officers as a group. The number of shares beneficially owned by each director or executive officer is determined under rules of the Securities and Exchange Commission (the Commission), and the information is not necessarily indicative of beneficial ownership for any other purpose. Under such rules, beneficial ownership includes any shares as to which the individual has the sole or shared voting power or investment power and also any shares which the individual has the right to acquire within 60 days of December 31, 2001 through the exercise of any stock option, warrant, or other right. Unless otherwise noted, the Company believes that each person has sole investment and voting power (or shares such powers with his or her spouse) with respect to the shares set forth in the following table. As of December 31, 2001, there were 17,052,094 shares of Common stock, 894,387 shares of Series B and 891,284 shares of Series C preferred stock outstanding.

TRANSACTIONS WITH MANAGEMENT AND OTHERS

During the last fiscal year, there were certain transactions that occurred between the Company and its officers and directors, which are reported below. With respect to each transaction, the Company has determined that the terms of each arrangement were no less fair to the Company than those which could have been obtained from unaffiliated persons.

In December 2000, we cancelled a consulting contract with Thomas J. Blakeley, who was a director at the time, and issued a non-interest bearing note payable through March 2002. Additionally, in January 2001, options to purchase 57,000 shares of Common stock at an exercise price of \$5 per share were granted in connection with this contract cancellation.

In December 2000, we cancelled a consulting contract with Eric McAfee, who was a director at the time. Mr. McAfee was paid \$44,167 in cash and the amount due from him under an indemnity agreement was reduced by \$348,068.

In February 2001, the Company determined that between May 21, 1999 and April 7, 2000 stock certificates representing 1,107,951 shares (the Discrepant Shares) were illegally authenticated by the Company's prior transfer agent. In order to offset the impact of recognizing additional shares in the hands of innocent purchasers, Messrs. Blakeley and McAfee entered into an agreement with the Company pursuant to which they agreed to contribute for cancellation by the Company 1,107,951 shares owned by them. This contribution of shares was made concurrent with the exchange of new shares for the wrongly authenticated certificates. The agreement provides that in the event that any of the Discrepant Shares are recovered by the Company, an equivalent number of shares shall be issued to Messrs. Blakeley and McAfee. In addition, as the Company recovers cash or property other than the Discrepant Shares, then the Company shall issue shares of its Common Stock for every \$4.50 in property or cash recovered. In no event shall the Company be obligated to issue more than 1,107,951 shares pursuant to the agreement. In October 2001, upon the recovery of \$3.6 million, the Company issued 764,381 shares to Messrs. Blakeley and McAfee.

COMPENSATION COMMITTEE

The Company's Compensation Committee consists of Messrs. Webber, Matlock and Schoenfeld. Mr. Webber is our President and Chief Executive Officer. Neither of Messrs. Matlock or Schoenfeld is an officer or employee of the Company.

THE FOLLOWING REPORT OF THE COMPENSATION COMMITTEE SHALL NOT BE DEEMED TO BE SOLICITING MATERIAL OR TO BE FILED WITH THE SECURITIES AND EXCHANGE COMMISSION UNDER THE SECURITIES ACT OF 1933 OR THE SECURITIES EXCHANGE ACT OF 1934 OR INCORPORATED BY REFERENCE IN ANY DOCUMENT SO FILED.

**COMPENSATION COMMITTEE
REPORT ON EXECUTIVE COMPENSATION**

To the Board of Directors:

The Compensation Committee of the Board of Directors administers the Company's executive compensation program. The Compensation Committee is responsible for approving the compensation package of each executive officer and recommending it to the Board of Directors as well as administering the 1999 and 2000 Stock Option Plans. In making decisions regarding executive compensation, the Compensation Committee considers the input of the Company's management and other directors.

The Company's executive compensation program consists of a mixture of base salary, cash bonuses, and incentive stock awards. In determining the total amount and mixture of the compensation package for each executive officer, the Compensation Committee and the Board of Directors subjectively consider the overall value to the Company of each executive officer in light of numerous factors such as competitive position, individual performance, including past and expected contribution to the Company's goals of each executive officer, and the Company's long-term needs and goals, including attracting and retaining key management personnel.

The Compensation Committee periodically reviews the individual base salaries of the executive officers, and adjusts salaries based on individual job performance and changes in that officer's duties and responsibilities. In making salary decisions, the Compensation Committee exercises its discretion and judgment based on these factors. No specific formula is applied to determine the weight of each factor.

Long-term incentive compensation is realized through granting of stock options to most employees, including eligible executive officers. The Company has no other long-term incentive plans. Stock options are granted by the Company to aid in the retention of employees and to align the interests of employees with those of the shareholders. In addition, the Compensation Committee believes that the grant of an equity interest serves to link management interests with shareholder interest and to motivate executive officers to make long-term decisions that are in the best interests of the Company and the shareholders as well as provides an incentive to maximize shareholder value. Stock options have value for an employee only if the price of Common stock increases above the exercise price on the grant date and the employee remains in the Company's employ for the period required for the stock option to be exercisable, thus providing an incentive to remain in the Company's employ.

Impact of Section 162(m) of the Internal Revenue Code

The Company does not believe Section 162(m) of the Internal Revenue Code of 1986, as amended, which disallows a tax deduction for certain compensation in excess of \$1 million, will generally have an effect on the Company. The Compensation Committee reviews the potential effect of

Table of Contents

Section 162(m) periodically and will consider various alternatives for preserving the deductibility of compensation payments. However, the Compensation Committee will not necessarily limit compensation to that which is deductible.

Conclusion

The Compensation Committee has reviewed each element of compensation for each of the executive officers for fiscal 2001. The Compensation Committee reported to the Board of Directors that in the Compensation Committee's opinion, the compensation of each executive officer is reasonable in view of the Company's performance and the Compensation Committee's subjective evaluation of the contribution of each executive officer to that performance.

Committee of the Board of Directors

PROPOSAL NO. 2: PROPOSAL TO INCREASE AUTHORIZED COMMON STOCK

(Item 2 on Proxy Card)

Our Restated Certificate of Incorporation, as currently in effect, provides that the Company is authorized to issue two classes of stock, consisting of 30,000,000 shares designated as Common Stock, \$0.001 par value per share, and 10,000,000 shares designated as Preferred Stock, \$0.001 par value per share.

On January 31, 2002, the Board of Directors adopted a resolution setting forth a proposed amendment to our Restated Certificate of Incorporation to increase the authorized number of shares of Common Stock by 45,000,000 shares to an aggregate of 75,000,000 shares. The resolution declares the advisability of the proposed amendment and directs that the proposed amendment be considered at the annual meeting of shareholders. The proposed amendment does not change the authorized number of shares of the Company's Preferred Stock. As proposed to be amended, Article IV of the Restated Certificate of Incorporation would read as follows:

ARTICLE IV.

The Corporation is authorized to issue two classes of stock to be designated, respectively, Common Stock and Preferred Stock. The total number of shares that this Corporation is authorized to issue is Eighty-Five Million (85,000,000). The number of shares of Common Stock authorized to be issued is Seventy-Five Million (75,000,000), par value \$0.001 per share. The number of shares of Preferred Stock authorized to be issued is Ten Million (10,000,000), par value \$0.001 per share. The Preferred Stock authorized by this Certificate of Incorporation may be issued from time to time in one or more series. The Board of Directors of the Corporation is hereby authorized to increase or decrease (but not below the number of shares of such series then outstanding) the number of shares of any series of Preferred Stock subsequent to the issue of shares of such series. The Board of Directors is hereby further authorized to fix, or alter all or any of, the dividend rights, dividend rate, conversion rights, voting rights, rights and terms of redemption (including sinking fund provisions), the redemption price or prices, and the liquidation preferences of any wholly unissued series of Preferred Stock, and to fix the number of shares constituting any such series and the designation of such series. The term fixed for such series and correlative terms as used in this Article IV shall mean, with respect to any series of Preferred Stock, as stated in a resolution or resolutions lawfully adopted by the Board of Directors in exercise of such authority hereinabove granted.

Purpose and Effect of Amendment

As of February 11, 2002:

we had 17,246,825 shares of Common Stock issued and outstanding;

we had 893,262 shares of Series B Preferred stock issued and outstanding, which as of February 11, 2002, were convertible into 985,268 shares of Common Stock, and the same number of shares of Common Stock reserved for issuance;

we had 887,473 shares of Series C Preferred stock issued and outstanding, which as of February 11, 2002, were convertible into 1,946,510 shares of Common Stock, and the same number of shares of Common Stock reserved for issuance;

Table of Contents

we had warrants issued and outstanding to purchase, in the aggregate, 5,668,083 shares of Common Stock, and the same number of shares of Common Stock reserved for issuance;

we had 20,000 shares of Common Stock reserved for issuance upon conversion of an outstanding convertible note;

we had options issued and outstanding under the Company's 1999 Stock Option Plan and 2000 Stock Option Plan, to purchase, in the aggregate, 3,908,737 shares of Common Stock, and the same number of shares of Common Stock reserved for issuance; and

we had, under the Company's 1999 Stock Option Plan and 2000 Stock Option Plan, reserved for issuance upon the issuance and exercise of options available to be granted under those plans, an aggregate of 98,763 shares of Common Stock.

In total, as of February 11, 2002, we had 29,874,186 shares of Common Stock outstanding or reserved for issuance out of a total of 30,000,000 authorized shares of Common Stock.

The principal purpose of the proposed amendment to our Restated Certificate of Incorporation is to authorize additional shares of Common Stock in order to ensure that there is a sufficient number of shares of authorized Common Stock available to the Company in the future in the event the Board of Directors determines that it is necessary or appropriate to raise additional capital through the sale of securities, to acquire another company or its business or assets, to establish strategic relationships with business partners, to provide equity incentives to employees, officers or directors or to pursue other matters.

Increasing the authorized shares does not result in the issuance of shares, and any such issuance would take place only if approved by the Board of Directors or shareholders, if appropriate, at some future time. We have completed a number of private placements of our equity securities and anticipate that we will complete additional private placements in the future. Although Proposal 3 described in this proxy statement requests shareholder approval of the issuance of up to 10 million shares of Common Stock and/or shares of convertible securities or debt instruments convertible into shares of Common Stock, at such prices (subject to the minimum price requirement described in that proposal) and on such terms as may be approved by our Board of Directors, as of the date of this proxy statement we do not have any agreement or arrangement to issue any of the shares for which approval is sought. If the proposed amendment to our Restated Certificate of Incorporation is approved by shareholders, the Board of Directors does not intend to solicit further shareholder approval prior to the issuance of any additional shares of Common Stock, except as may be required by applicable law or the rules of the National Association of Securities Dealers, Inc.

Although the increase in the authorized number of shares for Common Stock will not, in and of itself, have any immediate effect on the rights of our shareholders, any future issuance of additional shares of Common Stock could affect our shareholders in a number of respects, including the following:

by diluting the voting power of the current holders of our Common Stock at such time; and

by diluting the earnings per share and book value per share of outstanding shares of our Common Stock at such time.

Table of Contents

Implementing the Proposed Amendment

If approved by shareholders at the Annual Meeting, the proposed amendment to our Restated Certificate of Incorporation will become effective upon the filing of a certificate of amendment with the Secretary of State of the State of Delaware.

Potential Anti-Takeover Effect

Although the proposed amendment to our Restated Certificate of Incorporation is not motivated by takeover concerns and is not considered by the Board of Directors to be an anti-takeover measure, the availability of additional authorized shares of Common Stock could enable the Board of Directors to issue shares defensively in response to a takeover attempt. Such issuances could dilute the ownership and voting rights of a person seeking to obtain control of our Company, dilute the value of outstanding shares, and increase the ownership of stockholders opposed to a takeover. Thus, increasing the authorized Common Stock could render more difficult and less likely a merger, tender offer or proxy contest, assumption of control by a holder of a large block of our Company's stock, and the removal of incumbent management. Issuance of additional shares unrelated to any takeover attempt could also have these effects. Management has no current intent to propose anti-takeover measures in future proxy solicitations.

Vote Required

Approval of this amendment to our Restated Certificate of Incorporation requires the affirmative vote of the holders of a majority of the shares of the Company's outstanding Common Stock, including the Company's Series B and Series C Preferred stock on an as converted basis. As a result, any shares not voted (whether by abstention, broker non-vote or otherwise) will have the same effect as a vote against the proposal.

The Board of Directors recommends a vote FOR the approval of the proposed amendment to our Restated Certificate of Incorporation.

**PROPOSAL NO. 3: APPROVAL FOR THE ISSUANCE OF SECURITIES EXCEEDING
20% OF THE COMPANY'S COMMON STOCK IN A PRIVATE PLACEMENT**

(Item 3 on Proxy Card)

The Company is requesting that shareholders authorize the Board of Directors, without any further shareholder action, to issue up to 10 million shares of Common Stock and/or shares of convertible securities or debt instruments convertible into shares of Common Stock, at such prices and on such terms as may be approved by the Board of Directors; provided that any such issuance(s) would (i) occur within three months of the date this proposal is approved by our shareholders and (ii) be sold at prices no lower than the lesser of (A) \$0.50 per share of Common Stock and (B) a 40% discount to the closing market price of the Common Stock on the day prior to the date that a binding agreement is entered into for the sale of such securities. This number of additional shares (10 million) would represent an increase of approximately 59% over Common Stock outstanding as of February 11, 2002 and an increase of approximately 33% over Common Stock outstanding as of February 11, 2002 after giving effect to the conversion or exercise of all outstanding convertible securities, warrants and stock options.

The Bylaws of the National Association of Securities Dealers, Inc., the NASD, require the Company to obtain shareholder approval in connection with a transaction other than a public offering involving the sale or issuance by the Company of Common Stock (or securities convertible into or exercisable for Common Stock) equal to 20% or more of a company's outstanding Common Stock if the price per share is less than the greater of book value or market value of the Common Stock.

Existing shareholders of the Company will be diluted by any future issuances of our securities approved by the Board of Directors and, if our proposal is approved by shareholders, your Board of Directors will have the authority to set the price and terms of the securities without your further approval. We are authorized to do that now but only with respect to up to that number of securities (approximately 3.4 million) that represents 20% of our outstanding shares of Common Stock, subject to integration, if required under NASD rules, with prior issuances by the Company in determining whether a proposed issuance exceeds the 20% threshold.

Although this proposal requests shareholder approval of the issuance of up to 10 million shares of Common Stock and/or shares of convertible securities or debt instruments convertible into shares of Common Stock, at such prices (subject to the minimum price described in this proposal) and on such terms as may be approved by our Board of Directors, as of the date of this proxy statement we do not have any agreement or arrangement to issue any of the shares for which approval is sought.

If our shareholders approve this proposal, then at any time on or before three months from the date our shareholders approve this proposal, we could, subject to the approval of our Board, consummate the following hypothetical private placement:

Type of Security:	Common Stock
Number of Shares:	10 million
Price per Share:	\$0.40 (assuming that the closing price of our Common Stock is no greater than \$0.67 on the day prior to the date we enter into a binding agreement for this hypothetical private placement)

Table of Contents

Net Proceeds to the Company: \$4 million before deducting expenses of the offering including placement agent fees, if any.

Assuming we had 17 million shares of Common Stock outstanding immediately prior to such private placement, after the private placement we would have 27 million shares of Common Stock outstanding, which would represent an increase of approximately 59% over Common Stock outstanding immediately before the private placement, and an increase of approximately 33% over Common Stock outstanding immediately before the private placement after giving effect to the conversion or exercise of all outstanding convertible securities, warrants and stock options. If all of the shares in the private placement were issued to one investor, and assuming that the investor did not hold any shares of the Company's capital stock immediately before the private placement, then after the private placement the investor would own approximately 37% of the Company's outstanding Common Stock and 25% of the Company's outstanding Common Stock after giving effect to the conversion or exercise of all outstanding convertible securities, warrants and stock options.

Any proposed sale of our securities will be submitted to the Board for its prior review and consideration. Unless the Board determines that the terms of any proposed sale, including the sales price, are just and reasonable and that the transaction is in the best interests of the Company and its shareholders, we will not enter into any agreements for the sale of our securities. The terms of any convertible securities or debt instruments convertible into shares of Common Stock to be authorized, including dividend or interest rates, conversion prices, voting rights, redemption prices, maturity dates, anti-dilution protections and similar matters will be decided by the Board of Directors.

There is one important exception to the statement that the Board can set the price (subject to the minimum price described in this proposal) and terms of securities without the prior approval of shareholders up to the 20% limit. We cannot, without approval of a majority of the holders of existing Series B and Series C Preferred Stock, voting as separate classes, create a new series of Preferred Stock that has rights senior to the rights of the holders of the Series B Preferred or Series C Preferred Stock. This limitation will continue to be true even after shareholders approve this proposal.

In making its determination to issue our securities in the future, the Board will review and consider:

the price of our Common Stock as reported on the Nasdaq SmallCap Market, the trading volume in our Common Stock, and the volatility in prices of our Common Stock;

the number of shares proposed to be sold in comparison to the average trading volume of our Common Stock;

appropriate discount factors for the restricted nature of our securities due to the absence of registration with the SEC;

recent trends in and prospects for the digital marketing and advertising industry as a whole; and

the business, operations, financial condition and prospects of our Company generally.

Securities that we sell in privately negotiated transactions will not be freely tradable and will be restricted securities within the meaning of Rule 144 under the Securities Act of 1933, as amended. In general, under Rule 144 as currently in effect, a shareholder who has beneficially owned shares constituting restricted securities for at least one year is entitled to publicly resell such securities.

Table of Contents

However, the resale is subject to certain limitations, including volume restrictions, provisions regarding the manner of sale, notice requirements and the availability of current public information about the Company. A shareholder who is not an affiliate of the Company for at least 90 days prior to a proposed transaction and who has beneficially owned restricted securities for at least two years, is entitled to sell such shares under Rule 144(k) without regard to the limitations described above. If this proposal is approved, any securities that we may sell will be restricted securities, and prospective investors may require a discount from market prices due to the restricted nature of those securities.

The Board of Directors believes that it needs the flexibility to seek to raise additional capital for the Company in amounts that may require the Company to issue shares in excess of the 20% limitation and recommends that you vote for the proposal. If the proposal is not approved, we will be required to seek shareholder approval prior to any issuance of securities that would exceed 20% of the then outstanding shares of Common Stock. We believe the delay associated with preparing proxy materials and seeking shareholder approval at the time of such a transaction will likely be unacceptable to potential investors in the Company.

Whether or not this proposal is approved, we will, within the limitations imposed by the Nasdaq rules, conduct private or public offerings of securities as the Board determines to be in the best interests of the Company and its shareholders.

Effect of Issuance and Sale of Shares to Existing Shareholders

The issuance of 10 million shares would represent an increase of approximately 59% over Common Stock outstanding as of February 11, 2002. As described in the preceding paragraphs, these securities may be sold at prices less than quoted market prices at the time of sale (subject to the minimum price described in this proposal). Although the number of shares of Common Stock, or securities convertible into Common Stock, collectively owned by purchasers after the issuance of these securities would not constitute a majority of the outstanding votes, the purchasers may nonetheless collectively own a sufficient number of shares to significantly influence our Company.

Shareholders will suffer dilution of their ownership interest in our Company as a result of the issuance and sale of securities. We are not able to quantify the dilutive effect of any sales because the sales price is not presently known. However, regardless of the sales price, the issuance of additional shares could reduce net book value per share and earnings (loss) per share, will have a dilutive impact on the voting power of current shareholders, and could depress the market price of our Common Stock.

Vote Required

Approval of this proposal to authorize the Board to issue up to 10 million shares of Common Stock and/or shares of convertible securities or debt instruments convertible into shares of Common Stock, at such prices (subject to the minimum price described in this proposal) and on such terms as may be approved by the Board of Directors requires the affirmative vote of holders of a majority of the shares represented at the Annual Meeting, either in person or by proxy, on an as converted basis.

The Board of Directors recommends that shareholders vote FOR the approval of the proposal for the additional issuance of securities as described above.
