THE STANDARD REGISTER COMPANY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in thousands, except per share amounts)

NOTE 1 BASIS OF PRESENTATION

The accompanying consolidated financial statements include the accounts of The Standard Register Company and its wholly-owned subsidiaries (collectively, the Company) after elimination of intercompany transactions, profits, and balances. The consolidated financial statements are unaudited and have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and notes required for complete annual financial statements and should be read in conjunction with the Company s audited consolidated financial statements and notes for the year ended January 1, 2006 included in the Company s Annual Report on

Form 10-K.

In the opinion of management, all adjustments (consisting only of normal recurring accruals) necessary for a fair presentation have been included. The results for interim periods are not necessarily indicative of trends or of results to be expected for a full year.

Certain prior year amounts have been reclassified to conform to the current-year presentation.

NOTE 2 RECENTLY ADOPTED AND RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

Effective January 2, 2006, the Company adopted Statement of Financial Accounting Standards (SFAS) No.123(R), Share Based Payment (Revised 2004), which requires that compensation costs relating to share-based payment transactions be recognized in the financial statements based on estimated fair values. The Company adopted SFAS 123(R) using the modified prospective transition method. In accordance with the modified prospective transition method, the Company s Consolidated Financial Statements for prior periods have not been restated to reflect the impact of SFAS 123 (R). Incremental compensation expense recognized under SFAS No. 123(R) in 2006 is not material. The Company also recognized a $78 reduction of expense net of taxes to record the cumulative effect of a change in accounting principle as of January 2, 2006 (see Note 8).

Effective January 2, 2006, the Company adopted SFAS No. 151, Inventory Costs, an amendment of ARB No. 43, Chapter 4 Inventory Pricing. SFAS No. 151 requires idle facility costs, abnormal freight, handling costs, and amounts of wasted materials (spoilage) be treated as current-period costs. Under this concept, if the costs associated with the actual level of spoilage or production defects are greater than the costs associated with the range of normal spoilage or defects, the difference would be charged to current-period expense, not included in inventory costs. SFAS No. 151 also requires the allocation of fixed production overheads to the costs of conversion be based on the normal capacity of the production facilities. The adoption of this standard did not have a material effect on the Company s consolidated results of operations, financial position, or cash flows.

Effective January 2, 2006, the Company adopted SFAS No. 154, "Accounting Changes and Error Corrections - a replacement of APB Opinion No. 20 and FASB Statement No. 3". SFAS No. 154 requires, unless impracticable, retrospective application to prior periods financial statements of changes in accounting principle where transition is not specified by a new accounting pronouncement. SFAS No. 154 also requires that retrospective application of a change in accounting principle be limited to the direct effects of the change. Indirect effects of a change in accounting principle should be recognized in the period of the accounting change. The adoption of this standard did not have a material effect on the Company s consolidated results of operations, financial position, or cash flows.

In June 2006, the Financial Accounting Standards Board (FASB) issued FASB Interpretation No. 48 ("FIN 48"), "Accounting for Uncertainty in Income Taxes - an interpretation of FASB Statement No. 109," Accounting for Income Taxes . FIN 48 establishes that the financial statement effects of a tax position taken or expected to be taken in a tax return are to be recognized in the financial statements when it is more likely than not, based on the technical merits, that the position will be sustained upon examination. FIN 48 is effective for fiscal years beginning after December 15, 2006. The Company is currently assessing the impact this new standard will have on the consolidated results of operations, financial position, or cash flows.

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurements, which applies under most other accounting pronouncements that require or permit fair value measurements. SFAS No. 157 provides a common definition of fair value as the price that would be received to sell an asset or paid to transfer a liability in a transaction between market participants. The new standard also provides guidance on the methods used to measure fair value and requires expanded disclosures related to fair value measurements. SFAS 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007. The Company will adopt this statement for fiscal year 2008 and is currently assessing the impact that this standard will have on its consolidated results of operations, financial position, or cash flows.

In September 2006, the FASB issued SFAS No. 158, Employers Accounting for Defined Benefit Pension and Other Postretirement Plans. SFAS No. 158 requires a Company with a defined benefit plan to: recognize the funded status of a benefit plan measured as the difference between plan assets at fair value and the benefit obligation- in its statement of financial position. For a pension plan, the benefit obligation is the projected benefit obligation, for other postretirement benefit plans, the benefit obligation is the accumulated postretirement benefit obligation. The new standard also requires the benefit obligations be measured as of the same date of the consolidated financial statements and requires additional disclosures related to the effects of delayed recognition of gains or losses, prior service costs or credits, and transition assets or obligations on net periodic benefit cost. SFAS 158 is effective for financial statements issued for fiscal years ending after December 15, 2006. The Company will adopt this statement in the fourth quarter of 2006 and is currently assessing the impact that this standard will have on its consolidated results of operations, financial position, and cash flows.

NOTE 3 DISCONTINUED OPERATIONS

InSystems

On June 5, 2006, the Company sold 100% of the outstanding capital stock of InSystems Corporation (InSystems) to Whitehill Technologies, Inc. for approximately $8,500 in cash, plus the return of certain cash deposits. In the third quarter of 2006, the Company increased its estimate of deferred taxes to be written off as a result of this sale. The transaction resulted in a loss of approximately $10,815, net of taxes, which includes a charge of $2,980 for contractual obligations to Whitehill Technologies, Inc. related to the leased facility. In conjunction with the recording of this contractual obligation, the Company reversed a restructuring liability of $1,111 to discontinued operations.

The Company made the decision to sell this business primarily because it no longer fit with the Company s future strategic direction. Revenue for InSystems included in discontinued operations was $2,805 for the third quarter of 2005 and $4,897 and $8,371 for the first nine months of 2006 and 2005, respectively. No interest expense was allocated to discontinued operations.

The sale of InSystems, a reportable segment since its acquisition in 2002, met the criteria to be accounted for as discontinued operations under SFAS No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets, and the results of operations have been excluded from continuing operations in the accompanying Consolidated Statements of Operations. Cash flows related to discontinued operations are not separately disclosed in the Consolidated Statements of Cash Flows.

The Company s consolidated balance sheet at January 1, 2006 included the following assets and liabilities related to InSystems:

	January 1, 2006
Assets	

Accounts receivable	$	2,515
Deferred tax assets		4,545
Prepaid expenses		356
Property and equipment, net		1,388

Liabilities		
Accounts payable	$	267
Accrued liabilities		3,733
Other long-term liabilities		555
Total liabilities	$	4,555

Equipment Service

In December 2004, the Company sold selected assets and transferred selected liabilities of its equipment service business to Pitney Bowes. The transaction was completed on December 31, 2004 and resulted in a gain of $12,820, net of income taxes of $8,550. In the second quarter of 2005, the Company finalized the working capital adjustment with Pitney Bowes related to the sale of the service business and in 2006, adjusted related reserves. The net impact of these adjustments resulted in a $552 and $60 net increase in the gain on sale in 2005 and 2006, respectively. In 2006, the Company also recorded net charges of $682 to establish a liability for its estimate of a litigation settlement.

NOTE 4 RESTRUCTURING AND IMPAIRMENT CHARGES

The Company has undertaken restructuring actions as part of an ongoing effort to improve its utilization and profitability. These restructuring plans are more fully described in Note 4 to the Consolidated Financial Statements included in the Company s Annual Report on Form 10-K for the year ended January 1, 2006.

Liabilities for costs associated with a restructuring cannot be recorded until the liability is incurred and the fair value can be estimated, except for certain one-time termination benefits. Therefore, certain restructuring costs, primarily sublease payments and the associated taxes, utilities and maintenance costs, and remaining relocation costs are expensed as incurred. All costs related to restructuring actions are included in restructuring charges in the accompanying Consolidated Statements of Income.

Pre-tax components of restructuring expense are as follows:

2006 Restructuring

Within the Document and Label Solutions (DLS) segment, the Company closed its Terre Haute, Indiana label production plant. The plant s productive capacity will be transferred to three other plants in the United States to improve overall efficiency and lower operating costs. Restructuring costs to be incurred include severance and employer related costs and other associated costs directly related to the restructuring, primarily equipment removal and relocation.

Pre-tax components of 2006 restructuring expense are as follows:

	Total Costs Expected to be Incurred	Total Q3 2006 Restructuring Expense	Cumulative-To-Date Restructuring Expense
Severance and employer related costs	$ 840	$ -	$ 700
Associated costs	1,430	369	1,237
Total	$ 2,270	$ 369	$ 1,937

A summary of the 2006 restructuring accrual activity is as follows:

	Charged to Accrual	*Incurred in 2006*	*Balance 2006*
Severance and employer related costs	$ 694	$ (561)	$ 133
Total	$ 694	$ (561)	$ 133

2005 Restructuring

Within the Print on Demand (POD) Services segment, the Company closed one printing center, selling the building at a small gain. The Company moved production to other facilities, outsourced envelope production, and opened a new digital-only facility in 2006. The Company also closed a warehouse in the DLS segment. Costs incurred primarily related to severance and employer-related costs.

A summary of the 2005 restructuring accrual activity is as follows:

	Balance 2005	*Incurred in 2006*	*Balance 2006*
Severance and employer related costs	$ 336	$ (316)	$ 20
Total	$ 336	$ (316)	$ 20

2004, 2003, and 2001 Restructuring

All of the 2004, 2003, and 2001 restructuring actions are completed. Any restructuring expense recorded in 2006 for these actions is primarily related to vacated facilities, as the amount accrued is net of any expected sub-lease income and the Company has been unable to sublease the remaining facilities.

A summary of the 2004 restructuring accrual activity is as follows:

	Balance 2005	*Reversed in 2006*	*Incurred in 2006*	*Balance 2006*
Contract termination costs	$ 26	$ (4)	$ (22)	$ -
Total	$ 26	$ (4)	$ (22)	$ -

A summary of the 2003 restructuring accrual activity is as follows:

	Balance 2005	*Incurred in 2006*	*Balance 2006*
Contract termination costs	$ 266	$ (230)	$ 36
Total	$ 266	$ (230)	$ 36

2006 Asset Impairments

In conjunction with the 2006 DLS restructuring actions, the Company recorded $1,565 of asset impairments. As of October 1, 2006, assets held for sale related to the DLS segment included buildings and equipment with a net book value of $1,200. The carrying value of the Terre Haute building and equipment was adjusted to its fair value less costs to sell, considering recent sales of similar properties and real estate valuations. Other equipment was determined to have no fair value and was disposed of. In addition, impairment charges of $27 were recorded in the International Segment. Impairment charges are included in Asset Impairments in the accompanying Consolidated Statements of Income.

NOTE 6 GOODWILL AND INTANGIBLE ASSETS

Identifiable intangible assets consist of the following:

	October 1, 2006				***January 1, 2006***			
		Gross Carrying Amount		***Accumulated Amortization***		***Gross Carrying Amount***		***Accumulated Amortization***
Intangible Assets with Determinable Lives

Total	**$**	**3,188**	**$**	**(1,457)**	$	19,771	$ (9,462)

Amortization expense for intangible assets was $136 and $95 for the third quarter of 2006 and 2005, respectively and $327 and $285 for the year-to-date periods of 2006 and 2005, respectively. Estimated amortization expense for the remainder of 2006 is $120. Estimated amortization expense for the next five years is as follows: 2007-$208; 2008-$146; 2009-$123; 2010-$100; and 2011-$34.

During the second quarter of 2006, the Company performed the annual impairment test for goodwill related to the PlanetPrint acquisition. The test was performed at the reporting unit level using a fair-value-based test that compares the fair value of the asset to its carrying value. Fair values are calculated using discounted expected future cash flows, using a risk-adjusted discount rate. Based upon the test results, the Company determined that the discounted sum of the expected future cash flows from the assets exceeded the carrying value of those assets; therefore, no impairment of goodwill was recognized.

NOTE 7 EARNINGS PER SHARE

The number of shares outstanding for calculation of earnings per share (EPS) is as follows:

	13 Weeks Ended		*39 Weeks Ended*	
(Shares in thousands)	***October 1, 2006***	***October 2, 2005***	***October 1, 2006***	***October 2, 2005***
Weighted average shares outstanding - basic	**28,938**	28,806	**28,918**	28,707
Dilutive effect of stock options	**-**	91	**42**	51
Weighted average shares outstanding - diluted	**28,938**	28,897	**28,960**	28,758

The effects of stock options on diluted EPS are reflected through the application of the treasury stock method. Under this method, proceeds received by the Company, based on assumed exercise, are hypothetically used to repurchase the Company s shares at the average market price for the period. Outstanding options to purchase approximately 1,840,365 and 1,880,322 shares for the three and nine month periods ended October 2, 2005 and approximately 1,903,446 shares for the nine month period ended October 1, 2006 were not included in the computation of diluted EPS because the exercise prices of the options were greater than the average market price of the shares; therefore, the effect would be anti-dilutive. Due to the loss from continuing operations incurred in the third quarter of 2006, no outstanding options were included in the EPS computation because they would automatically result in anti-dilution.

NOTE 8 SHARE BASED COMPENSATION

The Company has one plan under which share-based awards may currently be granted to officers and key employees. The 2002 Equity Incentive Plan (2002 Plan) provides for the granting of a maximum of 3,500,000 shares. The 2002 Plan permits the grant of incentive or non-qualified stock options, restricted stock grants, and stock appreciation rights. A committee of the Board of Directors (Committee) administers the Company s stock incentive plan. The Committee has the authority to determine the employees to whom awards will be made, the amount of the awards, and the other terms and conditions of the awards. Non-employee directors are also eligible to receive stock incentives under the 2002 Plan.

Stock options granted under the 2002 Plan have terms that range from five to ten years and the exercise price per share may not be less than the fair market value on the grant date. The options vest over periods determined when granted, generally one to four years and are exercisable until the term expires. Stock options granted under a previous plan had a maximum term of ten years and the exercise price per share was not less than the fair market value on the grant date. The remaining options outstanding under this plan vest over one to four years.

Under the 2002 Plan, shares subject to restricted stock award may be issued when the award is granted or at a later date, with or without dividend rights. The stock awards are subject to terms determined by the Committee, and may include specified performance objectives. In 2004, as part of an acquisition agreement, the Company s Board of Directors also approved restricted stock awards to one individual not to exceed an aggregate dollar amount of $1,750.

Prior to the adoption of SFAS 123 (R)

Prior to January 2, 2006, the Company accounted for share-based compensation using the intrinsic value method in accordance with Accounting Principles Board (APB) Opinion No. 25, Accounting for Stock Issued to Employees, and related interpretations, as permitted by SFAS No. 123, Accounting for Stock-Based Compensation. As permitted, no share-based compensation cost was recognized for stock options in the consolidated financial statements for 2005, as all options granted had an exercise price equal to the market value of the underlying common stock on the date of grant. Effective January 2, 2006, the Company adopted SFAS No. 123(R) using the modified prospective transition method. Under that transition method, compensation cost recognized in 2006 includes compensation cost for all share-based payments granted prior to, but not yet vested as of January 2, 2006, based on the grant date fair value estimated in accordance with the original provisions of SFAS No. 123, and compensation cost for all share-based payments granted on or after January 2, 2006, based on the grant date fair value estimated in accordance with the provision of SFAS No. 123(R). In accordance with the modified prospective transition method, results for prior periods have not been restated.

The following table illustrates the effect on net income and earnings per share from continuing operations as if the Company had determined compensation expense for all awards granted under the Company s share-based compensation plans under the provisions of SFAS No. 123, prior to the adoption of SFAS No. 123(R). For purposes of this pro forma disclosure, the fair value of stock options was estimated using a Black-Scholes option-pricing model and amortized on a straight-line basis over the options vesting periods.

	13 Weeks Ended October 2, 2005	39 Weeks Ended October 2, 2005
Net income from continuing operations, before cumulative effect of a change in accounting principle	$ 2,139	$ 4,055
Add: share-based employee compensation expense included in reported net income, net of related tax effects	378	1,010
Less: share-based employee compensation expense determined under fair-value-based method for all awards, net of related tax effects	(426)	(1,140)
Proforma net income from continuing operations	$ 2,091	$ 3,925
Basic and diluted earnings per share from continuing operations		
As reported	$ 0.08	$ 0.14
Proforma	$ 0.07	$ 0.14

When recognizing compensation cost for restricted stock awards under APB Opinion No. 25, the Company was required to recognize compensation cost assuming all awards would vest and to reverse recognized compensation cost for forfeited awards only when the awards were actually forfeited. SFAS No. 123(R) requires the Company to estimate the number of share-based compensation awards that ultimately will be forfeited when recognizing compensation cost and to reevaluate this estimate each reporting period.

An estimate of forfeitures was required related to the unvested awards outstanding as of the adoption of SFAS No. 123(R) for which expense has been recognized in the Consolidated Statements of Income. The adjustment related to this estimate of forfeitures for compensation cost that would not have been recognized in prior periods had forfeitures been estimated during those periods was $78, net of $51 of tax, and is recorded as a cumulative effect of a change in accounting principle in the accompanying Consolidated Statement of Income.

Adoption of SFAS 123 (R)

The following table illustrates the effect of adoption of SFAS No. 123(R) on 2006 third quarter and year-to-date results of operations.

	13 Weeks Ended October 1, 2006	39 Weeks Ended October 1, 2006
