FOR IMMEDIATE RELEASE

DUANE READE INC. REPORTS FOURTH QUARTER AND FISCAL 2003 RESULTS

~ FOURTH QUARTER AND FULL YEAR DILUTED EPS OF \$0.12 AND \$0.49 RESPECTIVELY ~

New York, New York, February 19, 2004 - Duane Reade Inc. (NYSE: DRD) today reported sales and earnings for the fourth quarter and full year ended December 27, 2003.

FOURTH QUARTER RESULTS

As previously announced, net sales increased 7.7% to \$356.4 million from \$331.1 million in the same quarter last year. Net sales reflect an 11.9% rise in pharmacy sales, comprising 43.7% of sales, offset by the adverse impact of two December snow storms that disrupted seasonal business and contributed to delayed openings of new stores. Same-store sales increased 3.0%, reflecting a 7.0% increase in pharmacy same-store sales and a 0.1% increase in front-end same-store sales. Front-end same-store sales were favorably impacted by approximately 0.5% due to an increase in the number of 24-hour stores and expanded holiday hours.

In line with recently updated guidance, net income for the quarter was \$2.8 million, or \$0.12 per diluted share, compared to \$9.5 million, or \$0.39 per diluted share, last year. The fourth quarter of 2003 includes a charge of \$0.6 million, or \$0.02 per diluted share, representing costs associated with the planned acquisition of the Company by an affiliate of Oak Hill Capital Partners, L.P. The prior year's fourth quarter included pre-tax debt extinguishment income of \$2.1 million, or \$0.05 per diluted share.

Gross margin for the quarter was 21.7% compared with 22.9% in the same period last year. The decline was primarily attributable to the increased proportion of lower margin pharmacy sales, lower overall pharmacy margins attributable to reductions in NY Medicaid prescription reimbursement rates enacted earlier in the year, and lower margins on generic medications. Store level occupancy expenses were higher as a percent of sales, reflecting a lower rate of sales growth and increased New York City real estate taxes that became effective in January 2003. The final full-year LIFO provision resulted in a fourth quarter increase in margin of \$0.1 million, compared to an increase in margin of \$1.3 million in the previous year's fourth quarter.

Fourth quarter selling, general and administrative expenses were 17.1% of sales versus 16.1% of sales in the comparable period of 2002. The increase is primarily attributable to a lower rate of sales growth, higher legal and litigation-related expenses, a portion of which relates to the World Trade Center business interruption insurance claim, higher labor costs to support expanded store operating hours and increased promotional and advertising expenses.

During the quarter, the Company opened three new stores and closed

Edgar Filing: DUANE READE INC - Form DEFA14A

one store compared to eight new store openings and one store closing in the same period last year. As of December 27, 2003, the Company operated a total of 241 stores.

FISCAL 2003 RESULTS

As previously announced, sales for the full year increased 8.6% to \$1.384 billion from \$1.274 billion in the previous year. During the twelve month period, same store sales increased 2.7%, with a same-store sales increase of 7.5% in pharmacy. Front-end same-store sales declined by 0.8%.

Net income for the full year was \$11.9 million, or \$0.49 per diluted share, which includes pre-tax debt extinguishment costs of \$0.8 million, or \$0.02 per diluted share, and the aforementioned transaction costs incurred in the fourth quarter. The effective tax rate for fiscal 2003 was 40.0%, compared to 36.3% in the previous year, reflecting changes in New York state tax legislation enacted in the second quarter of 2003 that had retroactive application to January 1, 2003. In comparison, 2002 income before the cumulative effect of an accounting change was \$24.8 million, or \$1.01 per diluted share. Including the cumulative effect of the accounting change, fiscal 2002 net income was \$15.6 million, or \$0.63 per diluted share. The fiscal 2002 results included pre-tax debt extinguishment costs of \$11.4 million, or \$0.27 per diluted share, partially offset by the receipt of an initial payment of the Company's business interruption insurance claim of \$9.4 million, or \$0.23 per diluted share.

Full year gross margin was 21.4% versus 22.5% last year, reflecting the increased proportion of lower margin pharmacy sales, reductions in New York Medicaid prescription reimbursement rates, reductions in gross margins on generic prescriptions and higher store occupancy costs resulting in part from lower sales growth and the aforementioned New York City real estate tax increase. LIFO reduced gross margin in 2003 by \$0.4 million, compared to an increase in gross margin in 2002 of \$0.1 million.

Selling, general and administrative expenses were 16.5% of sales, compared to 15.6% of sales in the previous year. The higher expense ratio is primarily attributable to a lower rate of same-store sales growth, increased professional and litigation-related legal costs, increased costs for store labor related to expanded operating hours, a new shelf labeling system implemented during the second half of the year and increases in pharmacist wage rates. Also reflected are higher promotional and advertising expenses, increased costs associated with the large number of immature one-hour photo departments, increased credit and debit card processing fees and higher insurance costs.

For the full year, the Company opened a total of 17 stores and closed four locations, compared with 32 new stores opened and four stores closed in 2002.

Commenting on the Company's results, Anthony J. Cuti, Chairman of the Board and Chief Executive Officer, stated, "The fourth quarter and year-end results reflect the sustained challenges in the metro New York market as well as the shifting trends in the industry. We are continuing to invest our energies and strategies to improve the longer term prospects for our business by providing improved convenience and service for our customers."

(1) As used in this report, EBITDA means earnings before interest, income taxes, depreciation, amortization, transaction expenses, debt extinguishment costs, extraordinary charges, non-recurring charges and other non-cash items (primarily deferred rents). We believe that EBITDA, as presented, represents a useful measure of assessing the performance of our operating activities, as it reflects our earnings trends without the impact of certain non-cash and unusual charges or income. EBITDA is also used by our creditors in assessing debt covenant compliance. We understand that, although security analysts frequently use EBITDA in the evaluation of companies, it is not necessarily comparable to other similarly titled captions of other companies due to potential inconsistencies in the method of calculation. EBITDA is not intended as an alternative to cash flow provided by operating activities as a measure of liquidity, as an alternative to net income as an indicator of our operating performance, nor as an alternative to any other measure of performance in conformity with generally accepted accounting principles. A reconciliation of EBITDA to both net income and cash flow provided by operating activities is provided on the following page of this release.
