**Item 12. Results of Operations and Financial Condition**

On October 15, 2003, Inco Limited (the Registrant ) issued a press release covering the impact that the slower than expected ramp-up at its Ontario operations after a nearly three-month strike which ended in late August 2003 has had on its production of nickel, copper and platinum-group metals and nickel unit cash cost of sales after by-product credits. The press release also indicates the impact that the increase in such unit cash costs and adjustments in tax accruals as a result of the appreciation in the Canadian dollar will have on its third quarter 2003 net earnings in accordance with Canadian generally accepted accounting principles. The press release also provides updated guidance on nickel unit cash costs of sales after by-product credits for the fourth quarter of 2003 and the year 2003 as well as premiums to be realized over certain benchmark nickel prices. A copy of the press release issued by the Registrant is furnished as Exhibit 99.1 to this Form 8-K.
