REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Trustees  
Jack Henry & Associates, Inc.  
401(k) Retirement Savings Plan:

We have audited the accompanying statements of net assets available for benefits of the Jack Henry & Associates, Inc. 401(k) Retirement Savings Plan (the Plan ) as of December 31, 2010 and 2009, and the related statement of changes in net assets available for benefits for the year ended December 31, 2010. These financial statements are the responsibility of the Plan s management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan s internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such financial statements present fairly, in all material respects, the net assets available for benefits of the Jack Henry & Associates, Inc. 401(k) Retirement Savings Plan as of December 31, 2010 and 2009, and the changes in net assets available for benefits for the year ended December 31, 2010, in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule listed in the table of contents is presented for the purpose of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the Department of Labor s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan s management. The supplemental schedule has been subjected to the auditing procedures applied in our audit of the basic 2010 financial statements and, in our opinion, is fairly stated in all material respects when considered in relation to the basic financial statements taken as a whole.

**NOTES TO FINANCIAL STATEMENTS**

**AS OF DECEMBER 31, 2010 AND 2009 AND FOR THE YEAR ENDED DECEMBER 31, 2010**

**1. DESCRIPTION OF PLAN**

The following description of the Jack Henry & Associates, Inc. 401(k) Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions.

**General** The Plan is a defined contribution 401(k) plan benefiting Jack Henry & Associates, Inc. (the Company) employees. An eligible employee must have attained the age of 18 and completed 30 days of service to be a participant. Participants are eligible to receive Safe Harbor Employer Matching Contributions after six months of service. Additionally, the Company may make a Qualified Non-Elective Contribution ( QNEC ) to each non-highly compensated employee, actively employed on the last day of the Plan Year, who has completed a Year of Service (1000 hours of service.) The Company is the Plan Administrator. Prudential Retirement Insurance and Annuity Company was appointed the Plan Trustee to hold and invest Plan assets. The Plan is subject to the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

**Contributions** Participants may contribute up to the maximum contribution allowable under section 401(k) of the Internal Revenue Code (IRC). The Company matches 100% of participant contributions up to a maximum of the lesser of 5% of the participant's eligible compensation or \$5,000. The total amount that a participant could elect to contribute to the Plan on a pre-tax basis in 2010 could not exceed \$16,500. If a participant reached age 50 by December 31, 2010, they were able to contribute an additional \$5,500 catch up contribution to the Plan on a pre-tax basis.

In addition, the Company may make a Qualified Non-Elective Contribution equal to a uniform percentage of each participant's eligible compensation, which is determined each year by the Company. No QNEC contributions were made in 2010.

**Participant Accounts** Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contribution, the Company's Safe Harbor Employer Matching Contributions, allocations of Company QNEC contributions and Plan investment earnings, and charged with withdrawals and an allocation of Plan investment losses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

**Investments** Participants direct the investment of their contributions and employer contributions into various investment options offered by the Plan. The Plan currently offers Jack Henry & Associates, Inc. common stock, twenty-two mutual funds, seven pooled separate accounts and a guaranteed investment contract (GIC) (Prudential Retirement Insurance and Annuity Company Guaranteed Income Fund) as investment options for participants.

**Vesting** Participants are vested immediately in their voluntary contributions, the Company's Safe Harbor Employer Matching Contribution and the earnings on these contributions. Vesting in the QNEC portion of their accounts is based on years of service with an employee vesting 20% after two years of service and subsequently vesting 20% each year until becoming fully vested with six years of continuous service.

**Notes Receivable from Participants** Participants may borrow, as defined in the Plan, from their fund accounts a minimum amount of \$1,000 up to the lesser of (1) \$50,000 less the amount of highest outstanding loan balance in the

previous 12 months or (2) 50% of their vested account balances. Loan terms range from one to five years unless the loan is to be used to purchase the participant's principal residence, in which case the term may extend beyond five years. The loans are secured by the balance in the participant's account and bear interest at a rate as defined by the Plan (ranging from 3.25% to 11.00% as of December 31, 2010). Principal and interest are paid through payroll deductions.

**Payment of Benefits** Upon termination of service due to death, disability, or retirement, a participant/beneficiary may elect to receive a lump-sum amount equal to the value of his or her account as soon as administratively feasible following the date on which a distribution is requested or is otherwise payable. A participant/beneficiary may also elect to receive the value of his or her account in installment payments or have the balance rolled over into an Individual Retirement Account.

**Forfeited Accounts** At December 31, 2010 and 2009, forfeited nonvested accounts totaled \$46,248 and \$43,093, respectively. These accounts are used first as restoration of participant's forfeitures, then as an offset to Plan expenses, then as a reduction to future discretionary contributions. Forfeitures are restored when a participant is rehired and had previously forfeited any fund balance in the QNEC source.

## 2. SIGNIFICANT ACCOUNTING POLICIES

**Basis of Accounting** The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America.

**Use of Estimates** The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

**Administrative Expenses** Administrative expenses of the Plan are paid by either the Plan or the Company, as provided in the Plan document.

**Benefits Payable** Benefits are recorded when paid. As of December 31, 2010 and 2009, there were no distributions payable to Plan participants.

**Risk and Uncertainties** The Plan utilizes various investment instruments, including common stock, mutual funds, pooled separate accounts and a GIC. Investment securities, in general, are exposed to various risk, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

**Investment Valuation and Income Recognition** The Plan's investments are stated at fair value. Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Company's common stock is valued at the closing price reported on the NASDAQ on the last business day of the Plan year. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year-end.

The units of pooled separate accounts are stated at fair value as determined by the issuer of the account based on the fair value of the underlying investments. Individual participant accounts invested in the pooled separate accounts are maintained on a unit value basis. The Plan's GIC with Prudential Retirement Insurance and Annuity Company is valued at contract value, which approximates fair value (see Note 5).

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Management fees and operating expenses charged to the Plan for investments in the mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

**Basis of Allocation** Investment income and gains or losses on investments are allocated to the participants based on the participant's account balance. Discretionary contributions, if any, are allocated based on the plan document. Unless directed otherwise by participants, employer matching and discretionary contributions are allocated to funds in the same manner as employee contributions.

**New Accounting Pronouncements** In January 2010, the Financial Accounting Standards Board (FASB) issued ASU No. 2010-06, *Fair Value Measurements and Disclosures* (ASU No. 2010-06), which amends ASC 820 (originally issued as FASB Statement No. 157, *Fair Value Measurements*), adding new disclosure requirements for Levels 1 and 2, separate disclosures of purchases, sales, issuances, and settlements relating to Level 3 measurements and clarification of existing fair value disclosures. ASU No. 2010-06 is effective for periods beginning after December 15, 2009, except for the requirement to provide Level 3 activity of purchases, sales, issuances, and settlements on a gross basis, which will be effective for fiscal years beginning after December 15, 2010.

In February 2010, FASB issued ASU No. 2010-9 *Subsequent Events* (Topic 855) *Amendments to Certain Recognition and Disclosure Requirements* (ASU 2010-9). ASU 2010-9 amends disclosure requirements within Subtopic 855-10. This change alleviates potential conflicts between Subtopic 855-10 and the Securities and Exchange Commission's requirements. ASU 2010-9 is effective for periods ending after June 15, 2010 and was adopted by the Plan.

In September 2010, the FASB issued ASU No. 2010-25, *Reporting Loans to Participants by Defined Contribution Plans* (ASU No. 2010-25), which provides clarification on how loans to participants should be classified and measured by defined contribution plans. ASU No. 2010-25 requires participant loans to be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued by unpaid interest. Participant loans are exempt from the disclosure requirements about fair value and credit quality. The Plan reclassified the loans on the Statement of Net Assets Available for Benefits as of December 31, 2009 and excluded the loans as of December 31, 2009 from the investment disclosure in Note 3, as required by the ASU.

### 3. FAIR VALUE MEASUREMENTS

ASC 820, *Fair Value Measurements and Disclosures*, established a single authoritative definition of fair value, set a framework for measuring fair value, and requires additional disclosures about fair value measurements. In accordance with ASC 820, the Plan classifies its investments into Level 1, which refers to securities valued using quoted prices from active markets for identical assets; Level 2, which refers to securities not traded on an active market but for which observable market inputs are readily available; and Level 3, which refers to securities valued based on significant unobservable inputs. Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The following tables set forth by level within the fair value hierarchy a summary of the Plan's investments measured at fair value on a recurring basis at December 31, 2010 and 2009.

	Investments at Fair Value as of December 31, 2010

The valuation methods as described in Note 2 may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

#### 4. INVESTMENTS

## 5. INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan has a fully benefit-responsive GIC with Prudential Retirement Insurance and Annuity Company ( Insurance Company ). The Insurance Company maintains the contributions in a general account, which is credited with earnings and charged for participant withdrawals and administrative expenses. The GIC is included in the financial statements at fair value which is equal to contract value. The concept of a value other than contract value does not apply to this GIC even upon a discontinuance of the contract in which case contract value would be paid no later than 90 days from the date the sponsor provides notice to discontinue. There are no specific securities in the general account that back the liabilities of this annuity contract and it would be inappropriate to look to the market value of the securities within the insurer s general account to determine a fair value. The insurer is obligated to pay interest at crediting rates which are announced in advance and guaranteed for a six month period.

**Limitations on the Ability of the GIC to Transact at Contract Value** The GIC does not have any restrictions that impact the ability of the Plan to collect the full contract value. However, the GIC does allow for disbursements to be deferred over a period of time if the value of the disbursements exceeds 10% of the total beginning net assets of the guaranteed income fund pool in which the GIC belongs. Plan management believes that the occurrence of events that would cause the Plan to transact at less than contract value is not probable. The Insurance Company may not terminate the contract at any amount less than the contract value.

**Average Yields** The Insurance Company is contractually obligated to pay the principal and specified interest rate that is guaranteed to the Plan. The crediting interest rate is based on a formula agreed upon with the Insurance Company, but may not be less than 1.50%. Such interest rates are reviewed on a semi-annual basis for resetting. The crediting rate of the product will be established based on current economic and market conditions, the general interest rate environment, and both the expected and actual experience of a reference portfolio within the issuer s general account. These rates are established without the use of a specific formula.

	<b>December 31, 2010</b>
Average yields:	
Based on annualized earnings (1)	3.50 %
Based on interest rate credited to participants (2)	3.50 %

(1)

Computed by dividing the annualized one-day actual earnings of the contract on the last day of the Plan year by the fair value of the investments on the same date.

(2)

Computed by dividing the annualized one-day earnings credited to participants on the last day of the Plan year by the fair value of the investments on the same date.

## 6. EXEMPT PARTIES-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds and an investment contract managed by Prudential Retirement Insurance and Annuity Company. Prudential Retirement Insurance and Annuity Company serves as the Plan's recordkeeper. Therefore, these transactions qualify as exempt party-in-interest transactions. In addition, the Plan invests in shares of Company common stock. Jack Henry & Associates, Inc. is the Plan Sponsor, as defined by the Plan, and therefore these transactions qualify as party-in-interest transactions.

During 2010, the Plan received \$488,188 in dividends from the Company. In addition, the Company pays certain fees on behalf of the Plan for accounting services.

## 7. PLAN TERMINATION

Although it has not expressed an intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of plan termination, employees become 100% vested in any non-vested portion of their accounts.

## 8. FEDERAL INCOME TAX STATUS

The Plan was restated to comply with applicable law changes and updates effective December 1, 2008, and an application for an Internal Revenue Service ( IRS ) determination letter was filed on April 15, 2010. Although the IRS has not yet provided the requested determination letter, the plan administrator reasonably believes that the Plan, as restated, is designed and is being operated in compliance with applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the plan and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

## 9. NET ASSET VALUE (NAV) PER SHARE

The following table for December 31, 2010, sets forth a summary of the Plan's investments with a reported NAV.

Investment	Fair Value *	Fair Value Estimated Using Net Asset Value per Share			Redemption Notice Period

\*The fair values of the investments have been estimated using the net asset value of the investment.

(a)

Equity index fund strategies seek to replicate the movements of an index of a specific financial market, such as the Standards & Poors (S&P) 500 Index or Russell Midcap Value Index, regardless of market conditions.

(b) The balanced fund strategies seek to consistently outperform its benchmarks over full market cycles. These funds invest in a family of funds comprised of five distinct, multi-asset class, multi-manager investment portfolios, which offer a range of risk/return characteristics. The investment objectives of each of the five funds varies in keeping with the desired risk tolerance and associated asset allocation of the underlying portfolio.

(c)

The bond fund strategies seek to exceed the return of the Barclays Capital U.S. Aggregate Bond Index, consistent with preservation of capital by investing in a diversified portfolio of fixed income securities.

The following table for December 31, 2009, sets forth a summary of the Plan's investments with a reported NAV.
