Footstar, Inc. (the "Company") announced today that it expects to file its Annual Report on Form 10-K for the fiscal year ended December 28, 2002 by April 30, 2003, by which time it expects to complete the restatements associated with the Company's previously announced investigation into accounting discrepancies identified by Footstar management. Since November 2002, Footstar and its advisors have been investigating discrepancies in its prior financial statements. Footstar believes it has identified all of the financial discrepancies in its prior accounts and the restated financial statements are now under review by the Company's external auditors, KPMG LLP. The Company will file its Form 10-K and Form 10-Q as soon as practicable.

registrant was required to file such report(s) been filed? If the answer is no, identify report(s).

Yes  No

As announced by the Company on November 13, 2002, in the course of a management review of the account reconciliation processes at its Shared Services Center in Dallas, the Company discovered discrepancies in the reporting of its accounts payable balances. The Company launched an internal investigation and retained outside counsel to assist in the matter. Because the investigation is continuing, the Company did not file its Quarterly Report on Form 10-Q on November 12, 2002, when it was otherwise due. The Company will file its Form 10-Q as soon as practicable.

(3) Is it anticipated that any significant change in results of operations from the corresponding period for the last fiscal year will be reflected by the earnings statements to be included in the subject report or portion thereof?

Yes  No

If so: attach an explanation of the anticipated change, both narratively and quantitatively, and, if appropriate, state the reasons why a reasonable estimate of the results cannot be made.

Please refer to the Company's press release dated March 28, 2003, attached hereto.
