RIVERVIEW BANCORP THIRD QUARTER PROFITS INCREASE 18% TO \$3.2

MILLION, LOANS INCREASE 16% AND DEPOSITS INCREASE 10%

Vancouver, WA - January 23, 2007 - Riverview Bancorp, Inc. (NASDAQ GSM: RVSB) today reported that loan and deposit growth coupled with a continued focus on operating efficiencies contributed to record profits for the third fiscal quarter of 2007. Net income for the third fiscal quarter increased 18% to \$3.2 million, or \$0.28 per diluted share, compared to \$2.7 million, or \$0.24 per diluted share, in the third fiscal quarter a year ago. For the first nine months of fiscal 2007, net income increased 24% to \$8.8 million, or \$0.77 per diluted share, compared to \$7.1 million, or \$0.63 per diluted share, in the first nine months a year ago. All per share data has been adjusted to reflect the August 2006 2-for-1 stock split.

"We have generated both top and bottom line improvements, with revenues increasing 10%, loans expanding 16% and net income improving 18% from year ago levels," said Pat Sheaffer, Chairman and CEO. "We are achieving our profit goals by delivering excellent customer service while maintaining solid asset quality. The exceptional growth throughout the Southwest Washington and greater Portland metropolitan area, which is led by manufacturing, technology and service industries, is fueling our balance sheet growth and has helped

Edgar Filing: RIVERVIEW BANCORP INC - Form 8-K

generate our double-digit profit growth."

Third Quarter Financial Highlights (at or for periods ended December 31, 2006, compared to December 31, 2005)

- * Net income increased 18% to \$3.2 million.
- * Net interest income increased 9% to \$9.3 million.
- * Revenues advanced 10% to \$11.7 million.
- * Net interest margin was 4.89%.
- * Efficiency ratio improved to 55.09%.
- * Total assets increased 13% to \$836 million.
- * Loans increased 16% to \$697 million.
- * Riverview Asset Management Corp. assets under management increased 31% to \$288 million.
- * Asset management fees increased 33% to \$504,000.

Operating Results

For the first nine months of fiscal 2007, net interest margin improved seven basis points to 5.03% compared to 4.96% for the same period a year ago. The net interest margin compressed to 4.89% for the third fiscal quarter, compared to 5.23% in the third fiscal quarter a year ago, and 4.97% in the prior linked quarter. "Our margin compression for the quarter primarily resulted from an increase in funding costs, which outpaced the increased yield on interest earning assets," said Ron Wyseske, President and COO. "The flat or inverted yield curve remains a challenge for us as well as the entire banking industry."

Revenues (net interest income before the provision for loan losses plus non-interest income) increased 10% to \$11.7 million for the quarter compared to \$10.7 million in the same quarter a year ago. Net interest income before the provision for loan losses increased 9% to \$9.3 million in the third quarter of fiscal 2007 compared to \$8.5 million in the third quarter a year ago. Non-interest income increased 12% to \$2.4 million in the third fiscal quarter of 2007 compared to \$2.1 million in the prior year's third quarter. The increase in non-interest income was largely due to gains in fees and service charges along with the 33% year over year growth in asset management fees from the trust company. Fee income from Riverview Asset Management Corp. increased to \$504,000 in the third quarter of fiscal 2007 compared to \$378,000 in the third quarter a year ago.

For the first nine months of fiscal 2007 revenues increased 12% to \$34.3 million compared to \$30.5 million in the nine-month period a year ago. Year-to-date, net interest income before the provision for loan losses increased 16% to \$27.5 million compared to \$23.7 million in the same period a year ago. Non-interest income was \$6.8 million in the first nine months of fiscal 2007, even with the first nine months in fiscal 2006. Fee income for Riverview Asset Management Corp. increased 29% to \$1.4 million in the nine-month period ended December 31, 2006 compared to \$1.1 million in the nine-month period ended a year ago.

Non-interest expense was \$6.4 million in the third quarter compared to \$6.1

Edgar Filing: RIVERVIEW BANCORP INC - Form 8-K

million in the same quarter a year ago. For the first nine months of the fiscal year, non-interest expense was \$19.5 million compared to \$18.5 million in the like period a year ago. The efficiency ratio improved 244 basis points to 55.1% for the quarter, compared to 57.5% in the same quarter a year ago. For the first nine months of the fiscal year, the efficiency ratio improved 368 basis points to 56.9%, compared to 60.6% in the like period a year ago. "Two factors figure into our improved efficiency. First, growing into our capacity, such as our success in Oregon has helped. Secondly, our growth in revenues due primarily to loan growth has spread our costs over a larger revenue base," said Wysaske.

Balance Sheet Growth

Net loans increased 16% to \$697 million at December 31, 2006, compared to \$600 million a year ago. Commercial real estate loans account for 51% of the total loan portfolio while permanent one-to-four family loans represent just 5% of the total loan portfolio. "Portfolio growth for the quarter slowed to a 4% annual growth-rate. We had some larger credits pay off just at quarter end. Our goal is to continue to keep our loan portfolio well diversified while maintaining excellent credit quality," said Sheaffer.

"We recently opened Riverview's third Portland area full service branch at 10401 NE Halsey Street Portland, Oregon. In this location a team of six commercial lenders that moved from our Downtown Portland location will serve our east Portland and Vancouver customers," Sheaffer said.

Total assets increased 13% to \$836 million at December 31, 2006, compared to \$739 million a year ago. Total deposits grew 10% to \$651 million, compared to \$592 million at December 31, 2005. "Growing core deposits (core excludes all certificates of deposit) is a key component to our long term strategy. Core deposits now account for 68% of our total deposits," noted Wysaske. "Non-interest checking balances represent 14% of total deposits and interest checking balances represent 22% of total deposits."

Shareholders' equity increased 8% to \$98.0 million, compared to \$90.9 million at the end of the third fiscal quarter a year ago. Book value per share improved to \$8.44 at December 31, 2006, compared to \$7.82 a year earlier, and tangible book value per share was \$6.14 at quarter-end, compared to \$5.46 at quarter-end a year earlier.

Credit Quality and Performance Measures

Credit quality remained strong, with non-performing assets at 0.15% of total assets at December 31, 2006, compared to 0.20% of total assets at September 30, 2006 and 0.11% of total assets at December 31, 2005. The allowance for loan losses, including unfunded loan commitments of \$355,000, was \$9.0 million, or 1.27% of net loans at quarter-end, compared to \$7.4 million, or 1.22% of net loans, a year ago.

Riverview's fiscal third quarter 2007 return on average assets improved to 1.53%, compared to 1.50% for fiscal third quarter 2006 and return on average equity improved to 13.0% for the quarter, compared to 11.9% for the same period last year. For the first nine months of fiscal 2007, return on average assets improved to 1.45% compared to 1.34% in the same period a year earlier, and return on average equity improved to 12.15% compared to 10.78% in the same period a year earlier.
