Notes to Financial Statements

Note 1-Basis of Presentation

The accompanying unaudited consolidated financial statements of FSB Community Bankshares, Inc., and its wholly owned subsidiary (the "Company") have been prepared in accordance with generally accepted accounting principles in the United States of America for interim financial information and the instructions of Form 10-QSB. Accordingly, they do not include all of the information and footnotes necessary for a complete presentation of consolidated financial position, results of operations, and cash flows in conformity with generally accepted accounting principles. In the opinion of management, all adjustments, consisting of normal recurring accruals, considered necessary for a fair presentation have been included.

The unaudited consolidated financial statements and "Management's Discussion and Analysis or Plan of Operation" should be read in conjunction with the Company's audited financial statements for the years ended December 31, 2006 and 2005, included in the Prospectus filed under Rule 424(b)(3) with the Securities and Exchange Commission ("SEC") on May 23, 2007, as subsequently amended.

Edgar Filing: FSB Community Bankshares Inc - Form 10QSB

Operating results for the three and six months ended June 30, 2007 are not necessarily indicative of the results that may be expected for the year ending December 31, 2007.

The consolidated financial statements at June 30, 2007 and December 31, 2006 and for the three and six months ended June 30, 2007 and 2006 include the accounts of the Company, Fairport Savings Bank (the "Bank") and the Bank's wholly-owned subsidiary, Oakleaf Services Corporation ("Oakleaf"). All inter-company balances and transactions have been eliminated in consolidation. Certain amounts from prior periods have been reclassified, when necessary, to conform to current period presentation.

Note 2-Stock Issuance Plan

On August 10, 2007 the Company completed its stock offering of 47% of the aggregate total voting stock of the Company pursuant to the laws of the United States of America and the rules and regulations of the Office of Thrift Supervision ("OTS") issuing 1,785,000 shares of common stock, of which 838,950 shares were sold at \$10 per share raising gross proceeds of \$8.4 million. The stock was offered to eligible account holders, the Bank's employee stock ownership plan (ESOP), and to the public. After the offering, 53% of the Company's outstanding common stock, or 946,050 shares, is owned by FSB Community Bankshares, MHC.

Costs of approximately \$855,000 associated with the Stock Offering have been deducted from the proceeds from the sale of stock resulting in approximate net proceeds of \$7,534,500, and were included in other assets at June 30, 2007.

Note 3-Recent Accounting Pronouncements

In July 2006, the FASB issued FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes" ("FIN 48"). The interpretation clarifies the accounting for uncertainty in income taxes recognized in a company's financial statements in accordance with Statement of Financial Accounting Standards No. 109, "Accounting for Income Taxes." Specifically, the pronouncement prescribes a recognition threshold and a measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. The interpretation also provides guidance on the related derecognition, classification, interest and penalties, accounting for interim

7

periods, disclosure and transition of uncertain tax positions. The adoption of FIN 48 did not have any effect on our consolidated financial statements. In May 2007, the FASB issued FASB Staff Position ("FSP") FIN 48-1 "Definition of Settlement in FASB Interpretation No. 48" (FSP FIN 48-1). FSP FIN 48-1 provides guidance on how to determine whether a tax position is effectively settled for the purpose of recognizing previously unrecognized tax benefits. FSP FIN 48-1 is effective retroactively to January 1, 2007. The implementation of this standard did not have any impact on our consolidated financial position or results of operations.

In September 2006, the FASB issued SFAS No. 157, "Fair Value Measurements" ("SFAS 157"), which defines fair value, establishes a framework for measuring fair value under GAAP, and expands disclosures about fair value measurements. SFAS 157 applies to other accounting pronouncements that require or permit fair value measurements. The new guidance is effective for financial statements issued for fiscal years beginning after November 15, 2007, and for interim periods within those fiscal years. We are evaluating the impact, if any, of the

Edgar Filing: FSB Community Bankshares Inc - Form 10QSB

adoption of SFAS 157 on our consolidated financial statements.

In February 2007, the FASB issued SFAS No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities-Including an amendment of FASB Statement No. 115" ("SFAS 159"). SFAS 159 permits entities to choose to measure many financial instruments and certain other items at fair value. Unrealized gains and losses on items for which the fair value option has been elected will be recognized in earnings at each subsequent reporting date. SFAS 159 is effective as of January 1, 2008. We are evaluating the impact, if any, of the adoption of SFAS 159 on our consolidated financial statements.

Note 4-Comprehensive Income (Loss)

Accounting principles generally require that recognized revenue, expenses, gains, and losses be included in net income. Although certain changes in assets and liabilities, such as unrealized gains and losses on available for sale securities, are reported as a separate component of the stockholder's equity section of the consolidated balance sheets, such items, along with net income, are components of comprehensive income (loss).

The components of other comprehensive income (loss) and related tax effects for the three and six months ended June 30, 2007 and 2006 are as follows:

	For the Three Months Ended June 30,		
	2007	2006	
	----	----	
	(In Thousands)		
Unrealized holding gain (loss) on available for sale securities	\$ 9	\$ (48)	\$
Less reclassification adjustment for realized gains Included in net income	-	-	-
	-----	-----	-----
Net unrealized loss	9	(48)	
Tax effect	3	(17)	
Net of tax amount	\$ 6	\$ 31	\$
	=====	=====	=====

8

Note 5-Earnings (Loss) Per Share

Since the Offering described in Note 2 was still in process as of June 30, 2007, the Company has not presented earnings (loss) per share data since such information would not be meaningful.

Item 2. Management's Discussion and Analysis or Plan of Operation

General

Throughout the Management's Discussion and Analysis or Plan of Operation ("MD&A") the term, "the Company", refers to the consolidated entity of FSB Community Bankshares, Inc., Fairport Savings Bank, and Oakleaf Services Corporation, a wholly owned subsidiary of Fairport Savings Bank. At June 30,

Edgar Filing: FSB Community Bankshares Inc - Form 10QSB

2007, FSB Community Bankshares, MHC the Company's mutual holding company parent, held 100% of the Company's outstanding common stock, engaged in no significant activities and was not included in the MD&A.

Forward Looking Statements

This Quarterly Report contains forward-looking statements, within the meaning of the Private Securities Litigation Reform Act of 1995. Such statements are subject to certain risks and uncertainties, including, among other things, changes in economic conditions including real estate values in the Company's market area, changes in policies by regulatory agencies, fluctuations in interest rates, demand for loans in the Company's market areas and competition, that could cause actual results to differ materially from historical earnings and those presently anticipated or projected. The Company wishes to caution readers not to place undue reliance on any such forward-looking statements, which speak only as of the date made. The Company wishes to advise readers that the factors listed above could affect the Company's financial performance and could cause the Company's actual results for future periods to differ materially from any opinions or statements expressed with respect to future periods in any current statements.

The Company does not undertake, and specifically declines any obligation, to publicly release the results of any revisions that may be made to any forward-looking statements to reflect events or circumstances after the date of such statements or to reflect the occurrence of anticipated or unanticipated events.

Critical Accounting Policies

The most significant accounting policies followed by the Company are presented in Note 1 to the consolidated financial statements ("the Consolidated Financial Statements") included in the Company's Prospectus filed pursuant to Rule 424(b) on May 23, 2007, as subsequently amended. These policies, along with the disclosures presented in the other financial statement notes and in this discussion, provide information on how significant assets and liabilities are valued in the consolidated financial statements and how those values are determined. We have identified the accounting of our allowance for loan losses as our critical accounting policy.

Allowance for Loan Losses. The allowance for loan losses is the amount estimated by management as necessary to absorb credit losses incurred in the loan portfolio that are both probable and reasonably estimable at the balance sheet date. The amount of the allowance is based on significant estimates, and the ultimate losses may vary from such estimates as more information becomes available or conditions change. The methodology for determining the allowance for loan losses is considered a critical accounting policy by management due to the high degree of judgment involved, the subjectivity of the assumptions used

9

and the potential for changes in the economic environment that could result in changes to the amount of the recorded allowance for loan losses.

As a substantial percentage of our loan portfolio is collateralized by real estate, appraisals of the underlying value of property securing loans are critical in determining the amount of the allowance required for specific loans. Assumptions are instrumental in determining the value of properties. Overly optimistic assumptions or negative changes to assumptions could significantly affect the valuation of a property securing a loan and the related allowance determined. Management carefully reviews the assumptions supporting such appraisals to determine that the resulting values reasonably reflect amounts

Edgar Filing: FSB Community Bankshares Inc - Form 10QSB

realizable on the related loans.

Management performs a quarterly evaluation of the adequacy of the allowance for loan losses. We consider a variety of factors in establishing this estimate including, but not limited to, current economic conditions, delinquency statistics, geographic concentrations, the adequacy of the underlying collateral, the financial strength of the borrower, results of internal loan reviews and other relevant factors. This evaluation is inherently subjective as it requires material estimates by management that may be susceptible to significant change based on changes in economic and real estate market conditions.

The evaluation has a specific and general component. The specific component relates to loans that are delinquent or otherwise identified as a problem loan through the application of our loan review process and our loan grading system. All such loans are evaluated individually, with principal consideration given to the value of the collateral securing the loan. Specific allowances are established as required by this analysis. The general component is determined by segregating the remaining loans by type of loan, risk weighting (if applicable) and payment history. We also analyze historical loss experience, delinquency trends, general economic conditions and geographic concentrations. This analysis establishes factors that are applied to the loan groups to determine the amount of the general component of the allowance for loan losses.

Actual loan losses may be significantly more than the allowance we have established which could have a material negative effect on our financial results.

Comparison of Financial Condition at June 30, 2007 and December 31, 2006

Total Assets. Total assets increased by \$8.5 million, or 5.6%, to \$161.3 million at June 30, 2007 from \$152.8 million at December 31, 2006. The primary increase in total asset growth reflected increases in cash and cash equivalents of \$7.6 million, with \$5.6 million in subscription funds from the Company's stock offering and additional funds from deposit growth in the Irondequoit and Penfield branches. Securities increased by \$955,000 while premises and equipment increased by \$495,000 mainly due to building and equipment costs associated with the new Irondequoit branch. Other assets increased by \$548,000 primarily due to deferred stock offering costs of \$502,000. These increases were offset by decreases in loans receivable of \$662,000, and FHLB stock of \$339,000.

Loans receivable decreased by \$662,000, or .5%, to \$120.5 million at June 30, 2007 from \$121.1 million at December 31, 2006. The decrease in loans receivable was the result of loan repayments exceeding loan originations and

10

sales of three 30-year fixed-rate mortgage loans totaling \$411,000. The Bank is not involved in, and has no exposure to, subprime lending activities.

Investment securities increased by \$955,000, or 3.9%, to \$25.8 million at June 30, 2007 from \$24.8 million at December 31, 2006. The increase was primarily attributable to \$3.5 million in purchases of United States Government agency securities, \$1.5 million in purchases of adjustable rate mortgage-backed securities, partially offset by the maturity of \$3.2 million of United States Government agency securities, \$763,000 of principal payments received from mortgage-backed securities, and a \$67,000 decrease in the fair value of securities classified as available for sale.

Deposits and Borrowings. Deposits increased by \$16.6 million, or 15.3%, to \$125.2 million at June 30, 2007 from \$108.6 million at December 31, 2006.

Edgar Filing: FSB Community Bankshares Inc - Form 10QSB

Certificates of deposit, including IRAs, increased by \$8.1 million, and transaction accounts, including checking, money market and savings accounts, increased by \$8.5 million. The net deposit growth was primarily attributable to \$5.6 million in subscription funds deposited into a savings account until the offering closed, and \$9.8 million in deposit growth in the Irondequoit branch since opening on January 4, 2007.

Borrowings decreased by \$8.1 million, or 28.8%, to \$20.0 million at June 30, 2007 from \$28.0 million on December 31, 2006. We decreased our short-term Federal Home Loan Bank borrowings by \$4.2 million and our long-term Federal Home Loan Bank borrowings by \$3.9 million. These funding sources were replaced by deposits obtained following the opening of our Irondequoit branch.

Stockholder's Equity. Total stockholder's equity decreased by \$291,000, or 2.1%, to \$13.6 million at June 30, 2007 from \$13.9 million at December 31, 2006. The decrease resulted from a net loss of \$247,000 for the six months ended June 30, 2007, and a \$44,000 decrease in accumulated other comprehensive income.

Non-Performing Assets. The table below sets forth the amounts and categories of our non-performing assets at the dates indicated.

	June 30, 2007 -----	December 31, 2006 -----
	(Dollars in thousands)	
Non-accrual loans:		
Real estate loans:

Total non-performing assets to total assets	0.15%	0.11%

Edgar Filing: FSB Community Bankshares Inc - Form 10QSB

At June 30, 2007, there were no other loans or other assets that are not disclosed in the table or disclosed as classified or special mention, where known information about possible credit problems of borrowers caused us to have serious doubts as to the ability of the borrowers to comply with the present loan repayment terms and which may result in disclosure of such loans in the future.

Average balances and yields. The following table sets forth average balance sheets, average yields and costs, and certain other information at and for the periods indicated. All average balances are daily average balances. Non-accrual loans were included in the computation of average balances, but have been reflected in the table as loans carrying a zero yield. The Bank has no tax-exempt securities or loans. The yields set forth below include the effect of deferred fees, discounts and premiums that are amortized or accreted to interest income.

Comparison of Operating Results for the Three Months Ended June 30, 2007 and June 30, 2006

General. We had a net loss of \$112,000 for the three months ended June 30, 2007 compared to net income of \$97,000 the three months ended June 30, 2006. The decrease was primarily attributable to a decrease in net interest income as a result of the decrease in our net interest margin in a flat yield curve environment (short-term interest rates on United States Treasury obligations equal or are slightly higher or lower than long-term rates). In addition we had a decrease in other income mainly due to decreasing revenue generated from our Oakleaf subsidiary, and an increase in other expense resulting primarily from additional salaries and benefits, occupancy, advertising, and other operating expenses incurred in connection with the operation of our Irondequoit branch that opened in early 2007.

Interest and Dividend Income. Interest and dividend income increased by

Edgar Filing: FSB Community Bankshares Inc - Form 10QSB

\$146,000, or 7.4% to \$2.1 million for the three months ended June 30, 2007 from \$2.0 million for the three months ended June 30, 2006. The increase in interest and dividend income resulted primarily from a \$126,000, or 7.6%, increase in interest income from loans and a \$20,000, or 6.1%, increase in interest income from investments. Average interest-earning assets increased by \$5.3 million, or 3.7%, to \$148.2 million for the three months ended June 30, 2007 from \$142.9 million for the three months ended June 30, 2006. The yield on interest earning assets increased by 20 basis points to 5.75% for the three months ended June 30, 2007 compared to 5.55% for the three months ended June 30, 2006, reflecting modest increases in long-term rates.

Interest Expense. Interest expense increased \$258,000, or 23.4%, to \$1.3 million for the three months ended June 30, 2007 from \$1.1 million for the three months ended June 30, 2006. The increase in interest expense resulted from an increase in both the average balance and average cost of interest-bearing liabilities. The average balance of interest-bearing liabilities increased \$8.0 million, or 6.4%, to \$134.0 million for the three months ended June 30, 2007 compared to \$126.0 million for the three months ended June 30, 2006. The average cost of interest-bearing liabilities increased by 57 basis points to 3.94% for the three months ended June 30, 2007 from 3.37% for the three months ended June 30, 2006. The average cost of deposit accounts increased by 56 basis points to 3.75% for the three months ended June 30, 2007 compared to 3.19% for the three months ended June 30, 2006. In addition, the average cost of Federal Home Loan Bank advances increased by 65 basis points to 4.97% for the three months ended June 30, 2007 compared to 4.32% for the three months ended June 30, 2006. The increase in interest expense reflects higher cost for new and renewing certificates of deposits and borrowings over the last twelve months.

Based upon current market rates, we expect our cost of funds to increase slightly in the third quarter of 2007 which will create additional pressure on our interest rate spread and our ability to be profitable. We have \$16.7 million of certificates of deposit that will mature during the third quarter of 2007 with a weighted average cost of 4.44%. Based on current market rates, if these funds remain with Fairport Savings Bank with similar maturities, the rates we pay on these deposits would increase moderately. We hope to alleviate some of this increase in interest expense with checking and savings account promotions that would result in lower average interest costs.

Net Interest Income. Net interest income decreased \$112,000, or 12.1%, to \$810,000 for the three months ended June 30, 2007 from \$922,000 for the three months ended June 30, 2006. The decrease in net interest income was due primarily to a 57 basis point increase in the average cost of our interest-bearing liabilities, while the average yield on our interest-earning assets increased by only 20 basis points, as the flat yield curve continued to decrease our net interest rate spread and net interest margin. Our net interest margin decreased 40 basis points to 2.18% for the three months ended June 30, 2007 from 2.58% for the three months ended June 30, 2006.

14

Provision for Loan Losses. Based on management's evaluation of the factors that determine the level of the allowance for loan losses, we recorded no provision for loan losses for the three month periods ended June 30, 2007 and June 30, 2006. We continue to maintain exceptional credit quality within our loan portfolio with no charge-offs recorded within the reporting period. The allowance for loan losses as of June 30, 2007 was \$322,000, or 0.27% of total loans, compared to \$331,000, or 0.28% of total loans as of June 30, 2006. We had non-accrual loans totaling \$238,000, or 0.20% of total loans receivable as of June 30, 2007 compared to \$207,000, or 0.18% of loans in non-accrual status as of June 30, 2006.

Other Income. Other income decreased \$27,000, or 25.7%, to \$78,000 for the

Edgar Filing: FSB Community Bankshares Inc - Form 10QSB

three months ended June 30, 2007 compared to \$105,000 for the three months ended June 30, 2006. The decrease in other income was primarily the result of a \$33,000 decrease in our Oakleaf subsidiary revenue.

Other Expense. Other expense increased \$187,000, or 21.3%, to \$1.1 million for the three months ended June 30, 2007 compared to \$876,000 for the three months ended June 30, 2006. The increase was the result of an additional \$67,000 in salaries and benefits expense primarily due to annual cost of living raises effective January 1 of each year and staffing of the Irondequoit branch which opened on January 4, 2007, an increase of \$42,000 in occupancy expenses (primarily lease, maintenance and depreciation of the Irondequoit branch), an increase in data processing costs of \$11,000, an increase of \$13,000 in advertising, and an increase of \$54,000 in miscellaneous other expenses, primarily related to the Irondequoit branch as well as increased costs associated with being a newly registered public company.

Income Tax Expense/Benefit. We had a pre-tax loss of \$175,000 for the three months ended June 30, 2007 versus a pre-tax profit of \$151,000 for the three months ended June 30, 2006, which resulted in a \$63,000 tax benefit for the three months ended June 30, 2007, versus a \$54,000 tax expense for the three months ended June 30, 2006, a change of \$117,000. The effective tax rate was (36.0%) for the three months ended June 30, 2007 compared to 35.8% for the three months ended June 30, 2006.

Comparison of Operating Results for the Six Months Ended June 30, 2007 and June 30, 2006

General. We had a net loss of \$247,000 for the six months ended June 30, 2007 compared to net income of \$164,000 the six months ended June 30, 2006. The decrease was attributable to a decrease in net interest income of \$231,000, a decrease in other income of \$14,000, an increase in other expense of \$396,000, offset by a decrease in income taxes of \$230,000. The decrease in net interest income resulted from a decrease in our net interest margin in a flat yield curve environment and an increase in our other expense resulted primarily from the additional cost of salaries and benefits, occupancy, and other operating expenses incurred in connection with the recent opening and operation of our Irondequoit branch.

Interest and Dividend Income. Interest and dividend income increased by \$317,000, or 8.1% to \$4.2 million for the six months ended June 30, 2007 from \$3.9 million for the six months ended June 30, 2006. The increase in interest and dividend income resulted primarily from a \$324,000, or 10.0%, increase in interest income from loans, partially offset with a \$7,000, or 1.1%, decrease in interest income from investments. Average interest-earning assets increased by \$5.9 million, or 4.2%, to \$147.2 million for the six months ended June 30, 2007 from \$141.2 million for the six months ended June 30, 2006. The yield on interest earning assets increased by 21 basis points to 5.74% for the six months ended June 30, 2007 compared to 5.53% for the six months ended June 30, 2006, reflecting modest increases in long-term rates and an asset structure containing a large percentage of fixed rate mortgages.

15

Interest Expense. Interest expense increased \$548,000, or 27.1%, to \$2.6 million for the six months ended June 30, 2007 from \$2.0 million for the six months ended June 30, 2006. The increase in interest expense resulted from an increase in both the average balance and average cost of interest-bearing liabilities. The average balance of interest-bearing liabilities increased \$8.4 million, or 6.8%, to \$133.0 million for the six months ended June 30, 2007 compared to \$124.6 million for the six months ended June 30, 2006. The average cost of interest-bearing liabilities increased by 62 basis points to 3.87% for the six months ended June 30, 2007 from 3.25% for the six months ended June 30,

Edgar Filing: FSB Community Bankshares Inc - Form 10QSB

2006. The average cost of deposit accounts increased by 62 basis points to 3.66% for the six months ended June 30, 2007 compared to 3.04% for the six months ended June 30, 2006. In addition, the average cost of Federal Home Loan Bank advances increased by 56 basis points to 4.88% for the six months ended June 30, 2007 compared to 4.32% for the six months ended June 30, 2006. The interest expense increase was primarily attributable to the deposit customer preference for high yielding certificates of deposits in the higher short term interest rate environment that we have been experiencing.

Net Interest Income. Net interest income decreased \$231,000, or 12.3%, to \$1.7 million for the six months ended June 30, 2007 from \$1.9 million for the six months ended June 30, 2006. The decrease in net interest income was due primarily to a 62 basis point increase in the average cost of our interest-bearing liabilities, while the average yield on our interest-earning assets increased by only 21 basis points, as the flat yield curve continued to decrease our net interest rate spread and net interest margin. Our net interest margin decreased 42 basis points to 2.24% for the six months ended June 30, 2007 from 2.66% for the six months ended June 30, 2006.

Provision for Loan Losses. Based on management's evaluation of the factors that determine the level of the allowance for loan losses, we recorded no provision for loan losses for the six month periods ended June 30, 2007 and June 30, 2006. We continue to maintain exceptional credit quality within our loan portfolio with no charge-offs recorded within the reporting period. The allowance for loan losses as of June 30, 2007 was \$322,000, or 0.27% of total loans, compared to \$331,000, or 0.28% of total loans as of June 30, 2006. We had non-accrual loans totaling \$238,000, or 0.20% of total loans receivable as of June 30, 2007 compared to \$207,000, or 0.18% of loans in non-accrual status as of June 30, 2006.

Other Income. Other income decreased \$14,000, or 8.1%, to \$159,000 for the six months ended June 30, 2007 compared to \$173,000 for the six months ended June 30, 2006. The decrease in non-interest income was primarily the result of a \$35,000 decrease in our Oakleaf subsidiary revenue, partially offset by a \$12,000 increase in service fees and a \$9,000 increase in other income.

Other Expense. Other expense increased \$396,000, or 22.0%, to \$2.2 million for the six months ended June 30, 2007 compared to \$1.8 million for the six months ended June 30, 2006. The increase was the result of an additional \$158,000 in salaries and benefits expense primarily due to annual cost of living raises effective January 1 of each year and staffing of the Irondequoit branch which opened on January 4, 2007, an increase of \$82,000 in new occupancy expenses (primarily lease, maintenance and depreciation of the Irondequoit branch), an increase in data processing costs of \$16,000, an increase of \$81,000 in advertising expense, and an increase of \$59,000 in miscellaneous other expenses related to the Irondequoit branch as well as increased costs associated with being a newly registered public company.

Income Tax Expense/Benefit. We had a pre-tax loss of \$385,000 for the six months ended June 30, 2007 versus a pre-tax profit of \$256,000 for the six months ended June 30, 2006, which resulted in a \$138,000 tax benefit for the six months ended June 30, 2007, versus a \$92,000 tax expense for the six months ended June 30, 2006, a change of \$230,000. The effective tax rate was (35.8%) for the six months ended June 30, 2007 compared to 35.9% for the six months ended June 30, 2006.

Liquidity and Capital Resources

Liquidity is the ability to meet current and future financial obligations of a short-term nature. Our primary sources of funds consist of deposit inflows,

Edgar Filing: FSB Community Bankshares Inc - Form 10QSB

loan repayments, advances from the Federal Home Loan Bank of New York, maturities and principal repayments of securities, and recently, but to a lesser extent, loan sales. While maturities and scheduled amortization of loans and securities are predictable sources of funds, deposit flows and mortgage prepayments are greatly influenced by general interest rates, economic conditions and competition. Our asset/liability management committee is responsible for establishing and monitoring our liquidity targets and strategies in order to ensure that sufficient liquidity exists for meeting the borrowing needs and deposit withdrawals of our customers as well as unanticipated contingencies. We seek to maintain a liquidity ratio of 4.0% or greater. For the six ended June 30, 2007, our liquidity ratio averaged 5.6%. We believe that we have enough sources of liquidity to satisfy our short- and long-term liquidity needs as of June 30, 2007. We anticipate that we will continue to maintain current liquidity levels following the completion of the stock offering.

We regularly adjust our investments in liquid assets based upon our assessment of:

- (i) expected loan demand;
- (ii) expected deposit flows;
- (iii) yields available on interest-earning deposits and securities; and
- (iv) the objectives of our asset/liability management program.

Excess liquid assets are invested generally in interest-earning deposits, short- and intermediate-term securities and federal funds sold.

Our most liquid assets are cash and cash equivalents. The levels of these assets are dependent on our operating, financing, lending and investing activities during any given period. At June 30, 2007, cash and cash equivalents totaled \$9.7 million.

Our cash flows are derived from operating activities, investing activities and financing activities as reported in our Consolidated Statements of Cash Flows included in our Consolidated Financial Statements.

At June 30, 2007, we had \$4.4 million in loan commitments outstanding. In addition to commitments to originate loans, we had \$7.7 million in unused lines of credit to borrowers. Certificates of deposit, including individual retirement accounts comprised solely of certificates of deposits, due within one year of June 30, 2007, totaled \$55.7 million, or 64.7% of our certificates of deposit and 44.5% of total deposits. If these deposits do not remain with us, we will be required to seek other sources of funds, including loan sales, other deposit products, including certificates of deposit, and Federal Home Loan Bank advances. Depending on market conditions, we may be required to pay higher rates on such deposits or other borrowings than we currently pay on the certificates of deposit at June 30, 2007. We believe, however, based on past experience that a significant portion of such deposits will remain with us. We have the ability to attract and retain deposits by adjusting the interest rates offered.

Our primary investing activity is originating loans. During the six months ended June 30, 2007, we originated \$7.3 million of loans, and during the six months ended June 30, 2006, we originated \$15.7 million of loans. We purchased \$5.0 million of securities held-to-maturity during the six months ended June 30,

2007 year as compared to \$1.5 million of securities-held-to-maturity during the six months ended June 30, 2006.

Edgar Filing: FSB Community Bankshares Inc - Form 10QSB

Financing activities consist primarily of activity in deposit accounts and Federal Home Loan Bank advances. We experienced a net increase in total deposits of \$16.6 million for the six months ended June 30, 2007 compared to a net increase of \$6.2 million for the six months ended June 30, 2006. Of the \$16.6 million increase, \$5.6 million was attributable to funds received in our stock offering. Deposit flows are affected by the overall level of interest rates, the interest rates and products offered by us and our local competitors, and by other factors.

Liquidity management is both a daily and long-term function of business management. If we require funds beyond our ability to generate them internally, borrowing agreements exist with the Federal Home Loan Bank of New York, which provides an additional source of funds. Federal Home Loan Bank advances decreased by \$8.0 million to \$20.0 million for the six months ended June 30, 2007, compared to a net decrease of \$1.5 million during the six months ended June 30, 2006. Federal Home Loan Bank advances have primarily been used to fund loan demand. At June 30, 2007, we had the ability to borrow approximately \$89.4 million from the Federal Home Loan Bank of New York, of which \$20.0 million had been advanced.

Fairport Savings Bank is subject to various regulatory capital requirements, including a risk-based capital measure. The risk-based capital guidelines include both a definition of capital and a framework for calculating risk-weighted assets by assigning balance sheet assets and off-balance sheet items to broad risk categories. At June 30, 2007, Fairport Savings Bank exceeded all regulatory capital requirements. The Bank's leverage (Tier 1) capital at June 30, 2007 was \$13.3 million, or 8.25% of adjusted assets. In order to be classified as "well capitalized" under regulatory guidelines, the Bank is required to have Tier 1 capital of \$8.0 million, or 5.00% of adjusted assets. To be classified as a well capitalized bank under regulatory guidelines, the Bank must have a total risk-based capital ratio of 10.0%. The Bank's total risk-based capital ratio at June 30, 2007 was 18.45%.

The net proceeds from the stock offering will increase our liquidity and capital resources. Over time, the initial level of liquidity will be reduced as net proceeds from the stock offering are used for general corporate purposes, including the funding of loans. Our financial condition and results of operations will be enhanced by the net proceeds from the stock offering, resulting in increased net interest-earning assets and net interest income. However, due to the increase in equity resulting from the net proceeds raised in the stock offering, our return on equity will be adversely affected following the stock offering.

Off-Balance Sheet Arrangements

In the ordinary course of business, Fairport Savings Bank is a party to credit-related financial instruments with off-balance sheet risk to meet the financing needs of our customers. These financial instruments include commitments to extend credit. We follow the same credit policies in making commitments as we do for on-balance sheet instruments.

Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. The commitments for equity lines of credit may expire without being drawn upon. Therefore, the total commitment amounts do not necessarily represent future cash requirements. The amount of collateral obtained, if it is deemed necessary by us, is based on our credit evaluation of the customer.

Edgar Filing: FSB Community Bankshares Inc - Form 10QSB

At June 30, 2007 and 2006, we had \$4.4 million and \$6.5 million, respectively, of commitments to grant loans, and \$7.7 million and \$7.3 million, respectively, of unfunded commitments under lines of credit.

Item 3. Controls and Procedures

Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) under the Exchange Act) as of the end of the period covered by this report. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that, as of the end of the period covered by this report, our disclosure controls and procedures were effective to ensure that information required to be disclosed in the reports that the Company files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms.

There were no significant changes made in the Company's internal control over financial reporting or in other factors that could significantly affect the Company's internal control over financial reporting during the period covered by this report that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

Part II - Other Information

Item 1. Legal Proceedings

The Company and its subsidiaries are subject to various legal actions arising in the normal course of business. In the opinion of management, the resolution of these legal actions is not expected to have a material adverse effect on the Company's financial condition or results of operations.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

- (a) There were no sales of unregistered securities during the period covered by this Report.
- (b) On August 10, 2007 the Company completed its initial public stock offering. In connection with this offering, the Company registered 1,305,308 shares of its common stock, par value \$0.10 per share, on a Registration Statement on Form SB-2, declared effective on May 14, 2007 (Commission File No. 333-141380). In the offering, the Company sold 838,950 shares of its common stock to its eligible account holders, the Bank's employee stock ownership plan and the public for gross offering proceeds of \$8,389,500. Costs of approximately \$855,000 associated with the Offering were deducted from the gross proceeds resulting in approximate net proceeds of \$7,534,500.

Sandler O'Neill & Partners, L.P. was engaged to assist in the marketing of the Company's common stock in the offering. For these services, Sandler O'Neill & Partners, L.P. received a fee of \$150,000. Sandler O'Neill & Partners, L.P. was also reimbursed for reasonable out-of-pocket expenses.

The Company lent approximately \$700,000 to the ESOP of the Bank in connection with the stock offering. In addition to the funds used for the ESOP loan, approximately \$3 million of the net proceeds of the offering was retained by the Company and the remainder of the net proceeds was contributed to the Bank. All of such proceeds have been invested in short-term investments.

Edgar Filing: FSB Community Bankshares Inc - Form 10QSB

19

- (c) There were no issuer repurchases of securities during the period covered by this Report.

Item 3. Defaults Upon Senior Securities

Not applicable.

Item 4. Submission of Matters to a Vote of Security Holders

During the period covered by this report, the Company did not submit any matters to the vote of security holders.

Item 5. Other Information

Not applicable

Item 6. Exhibits

The following exhibits are either filed as part of this report or are incorporated herein by reference:

- 3.1 Charter of FSB Community Bankshares, Inc.*
- 3.2 Bylaws of FSB Community Bankshares, Inc.*
- 4 Form of Common Stock Certificate of FSB Community Bankshares, Inc.*
- 10.1 Employment Agreement between FSB Community Bankshares, Inc. and Dana C. Gavenda*
- 10.2 Supplemental Executive Retirement Plan*
- 10.3 Form of Employee Stock Ownership Plan*
- 31.1 Certification of Chief Executive Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002
- 31.2 Certification of Chief Financial Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002
- 32 Certification of Chief Executive Officer and Chief Financial Officer pursuant to Section 906 of the Sarbanes-Oxley Act of 2002

* Filed as exhibits to the Company's Registration Statement on Form SB-2, and any amendments thereto, with the Securities and Exchange Commission (Registration No. 333-141380).
