Item 10. Director, Executive Officers and Corporate Governance.

Directors and Executive Officers

The following table sets forth background information for each of our current directors, including age, principal occupation for at least the last five years, qualifications to serve on the Board of Directors, and the year in which such director was first elected or appointed a director (each serving continuously since first elected or appointed). Each of Messrs. Jarl Berntzen, Steven Blumgart, Michael A. Bless, Andrew J. Caplan, John C. Fontaine, Daniel Goldberg, Peter C. Jones, Steven Kalmin, Andrew Michelmore, John P. O'Brien, Willy R. Strothotte and Terence Wilkinson served as directors during 2012. In March 2012, Mr. Blumgart was succeeded on the Board by Mr. Caplan and Messrs. Fontaine and Strothotte did not stand for reelection at the September 2012 Annual Stockholders' Meeting ("Annual Meeting"). Mr. Bless was elected to the Board on December 4, 2012.

At the 2012 Annual Meeting, our stockholders adopted and approved an amendment to the Company's Amended and Restated Certificate of Incorporation to declassify the Company's Board of Directors over a period of time and to provide for the annual election of directors. Directors who were elected at the 2012 Annual Meeting would be elected for a one-year term, directors who were previously elected for three-year terms ending in 2013 and 2014 would continue to serve out those terms, and directors standing for election at the 2013 and 2014 Annual Meetings and each Annual Meeting thereafter would be elected for a one year term. Accordingly, at the 2012 Annual Meeting, Mr. Berntzen was elected to serve on the Company's Board of Directors for a one-year term. Messrs. Goldberg, Jones, Michelmore, and O'Brien, who are Class II Directors, have terms expiring at the 2013 Annual Meeting, Mr. Bless' initial term will also expire at the 2013 Annual Meeting and Messrs. Caplan, Kalmin and Wilkinson, who are Class III Directors, have terms expiring at the 2014 Annual Meeting.

Corporate Governance and Other Board Matters

Our Board of Directors presently consists of nine directors. The Board, which is responsible for supervision of the overall affairs of Century, establishes corporate policies, sets strategic direction and oversees management, which is responsible for Century's day-to-day operations. The Board met eight times during 2012.

Board Leadership Structure

The Board of Directors selects the Chairman of the Board in the manner and upon the criteria that it deems best for the Company at the time of selection. The Board of Directors has not adopted a policy regarding whether the roles of the Chairman and Chief Executive Officer should be separate or combined, but recognizes the value to the Company of the separation of these positions and having an independent director serve as Chairman. The Board will continue to evaluate whether this leadership structure is in the best interests of the stockholders on a regular basis.

Our Chairman, Mr. Wilkinson, presides over each Board meeting and independent directors meeting. The Chairman serves as liaison between the Chief Executive Officer and the other directors, approves meeting agendas and schedules and notifies other members of the Board of Directors regarding any significant concerns of stockholders or interested parties of which he becomes aware. The Chairman presides over stockholders meetings and provides advice and counsel to the Chief Executive Officer.

Board Oversight of Risk Management

The Board of Directors is engaged in company-wide risk management oversight. The Board of Directors relies upon the Chief Executive Officer, Chief Accounting Officer, General Counsel and other executive officers of the Company

to supervise day-to-day risk management and to bring material risks to the Board's attention. Each of the Chief Executive Officer, Chief Accounting Officer and General Counsel provide reports directly to the Board of Directors and certain Board committees, as appropriate. Directors may also from time to time rely on the advice of our outside advisors and auditors provided they have a reasonable basis for such reliance.

The Board of Directors also delegates certain oversight responsibilities to its Board committees. Descriptions of the various Board Committees are set forth below. The full Board considers strategic risks and opportunities and regularly receives detailed reports from the committees regarding risk oversight in their areas of responsibility. For example, while the primary responsibility for financial and other reporting, internal controls, compliance with laws and regulations and ethics rests with the management of the Company, the Audit Committee provides risk oversight with respect to the Company's financial statements, the Company's compliance with legal and regulatory requirements and corporate policies and controls related to the financial statements, the independent auditor's selection, retention, qualifications, objectivity and independence, and the performance of the Company's internal audit function. The Governance and Nominating Committee considers risks related to succession planning and oversees the appropriate allocation of responsibility for risk oversight among the committees of the Board. The Health, Safety and Sustainability Committee provides oversight of risks relating to Century's policies and management systems with respect to health, safety and sustainability matters. See "Compensation Committee" below for a discussion of the Board of Directors' consideration of compensation-related risks.

Board Committees and Meeting Attendance

To assist it in carrying out its duties, the Board has established various standing committees. Each standing committee of the Board and its members are listed in the table below:

Name	Audit	Compensation	Governance & Nominating	Health, Safety & Sustainability
Jarl Berntzen	X			X*
Daniel Goldberg		X	X	
Peter C. Jones			X*	X
Andrew Michelmore		X*		X
John P. O'Brien	X*		X	
Terence Wilkinson	X	X		

*Committee Chair

The Board designates the members of each committee and the committee chair annually based on the recommendations of the Governance and Nominating Committee. The Board has adopted written charters for each of its committees, which are available in the "Investors" section of our website, www.centuryaluminum.com, under the tab "Corporate Governance." During 2012, overall attendance at Board and committee meetings was 94%. Messrs. Caplan and Strothotte were unable to attend certain board meetings in 2012, and as a result, their attendance at Board meetings in 2012 was less than 75%. We encourage, but do not require, the attendance of Board members at our annual meetings. Mr. Wilkinson attended the 2012 Annual Meeting.

Independent Directors

The Board determined that Messrs. Berntzen, Jones, Michelmore, O'Brien and Wilkinson were "independent" in 2012 under the criteria established by the Nasdaq Global Select Market ("NASDAQ"). Our independent directors are scheduled to meet in executive session without the presence of management no fewer than two times each year. The independent directors met six times in 2012.

Audit Committee

The Audit Committee, among other things:

- oversees the financial reporting process for which management is responsible;
- appoints and oversees the engagement of the independent auditors for audit and non-audit services;

- monitors the qualifications and independence of the independent auditors;
- reviews and approves all audit and non-audit services and fees;
- reviews the scope and results of the audit with the independent auditors;
- reviews the scope and results of internal audit procedures with our internal auditors;

8

- evaluates and discusses with the independent auditors and management the adequacy and effectiveness of our system of internal accounting controls and assessment of fraud risk;
- appoints and oversees the engagement of the Company's internal audit function, including internal audit plan and results;
- reviews current and pending material litigation with management;
- conducts or directs investigations of any allegations of material violations of securities laws, fiduciary duties or similar allegations;
- reviews and oversees the Company's risk management assessment and procedures;
- reviews and approves related party transactions pursuant to our Statement of Company Policy Regarding Related Party Transactions; and
- makes inquiries into other matters within the scope of its duties.

During 2012, Messrs. Berntzen, O'Brien and Wilkinson served on the Audit Committee. The Board determined that all members of the Audit Committee were independent in 2012 under the criteria established by NASDAQ. The Board determined that Messrs. Berntzen and O'Brien were "audit committee financial experts" in 2012 within the meaning set forth by the SEC. Mr. O'Brien has served as Chair of the Audit Committee since 2011 and previously served as Chair of the Audit Committee from 2001 to 2008. In 2012, the Audit Committee held four meetings.

Compensation Committee

The Compensation Committee reviews and establishes the compensation for our executive officers and has oversight responsibility for administering and awarding grants under our Amended and Restated 1996 Stock Incentive Plan (the "1996 Plan"). During 2012, Messrs. Goldberg, Michelmore and Wilkinson served on the Compensation Committee. While Mr. Goldberg was not determined to be "independent" in 2012, the Board determined that it is in the best interests of the Company and its stockholders for Mr. Goldberg to serve as a member of the Compensation Committee due to his unique and extensive knowledge of the aluminum industry by virtue of his position as Asset and Investment Manager of the Aluminum and Alumina Department of Glencore. Mr. Michelmore has served as Chair of the Compensation Committee since 2011. The Compensation Committee held five meetings in 2012.

The Compensation Committee reviews the relationship between our risk management policies and practices and the incentive compensation we provide to our named executives to confirm that our incentive compensation does not encourage unnecessary and excessive risks. The Compensation Committee also reviews the relationship between risk management policies and practices, corporate strategy and senior executive compensation. Our compensation programs are discretionary, balanced and focused on the long-term. Under this structure, management can achieve the highest amount of compensation through consistent superior performance over extended periods of time. This incentivizes management to manage the Company for the long term and to avoid excessive risk-taking in the short-term. Goals and objectives reflect a balanced mix of quantitative and qualitative performance measures to avoid excessive weight on a single performance measure and the elements of compensation are similarly balanced among cash, time-vested performance share units (which do not contain any performance based vesting requirements and settle in Century stock), and cash-settled performance-based awards. With limited exceptions, the Compensation Committee retains absolute discretion to modify or eliminate any incentive awards if the Committee determines such actions are warranted. Based on its assessment of our compensation policies and practices, the Compensation Committee has determined that it is not reasonably likely that Century's compensation and benefit plans would have a material adverse effect on Century.

Governance and Nominating Committee

The Governance and Nominating Committee is responsible for, among other things:

- evaluating the size and composition of the Board;

- identifying, recruiting and recommending candidates for election to the Board and its committees;
- overseeing corporate governance matters; and
- reviewing and making periodic recommendations concerning our corporate governance policies and procedures.

During 2012, Messrs. Blumgart, Goldberg, Jones, Fontaine and O'Brien served on the Governance and Nominating Committee for some period of time. Mr. Goldberg replaced Mr. Blumgart on the Committee upon Mr. Blumgart's resignation from the Board in March 2012 and Mr. O'Brien replaced Mr. Fontaine on the Committee following the Company's 2012 Annual Meeting at which time Mr. Fontaine did not stand for reelection. While Messrs. Blumgart and Goldberg were not determined to be "independent" in 2012, the Board determined that it is in the best interests of the Company and its stockholders for Messrs. Blumgart and Goldberg to serve as members of the Governance and Nominating Committee due to their unique and extensive knowledge of the aluminum and metals and mining industries. Mr. Jones has served as Chair of the Governance and Nominating Committee since 2011. In 2012, the Governance and Nominating Committee held five meetings.

The Governance and Nominating Committee solicits recommendations for potential Board nominees from a variety of sources, including directors, officers, other individuals with whom the Governance and Nominating Committee members are familiar, through its own research, and third-party research. The Governance and Nominating Committee also considers nominees recommended by stockholders who submit such recommendations in writing to our Corporate Secretary. The qualifications and standards the Governance and Nominating Committee will apply in evaluating any recommendations for nomination to the Board include, but are not limited to:

• significant business or public company experience;

• a willingness and ability to make a sufficient time commitment to Century's affairs to perform effectively the duties of a director, including regular attendance at Board and committee meetings;

• skills in finance, international business and knowledge about Century's business or industries;

• personal qualities of leadership, character, judgment and integrity; and

• requirements relating to composition of the Board under applicable law and listing standards.

The Governance and Nominating Committee also strongly considers diversity when evaluating any recommendations for nominations to the Board. The Governance and Nominating Committee takes into consideration each potential nominee's diverse attributes and variety of experiences and viewpoints but does not make decisions to include or exclude a potential nominee solely or largely based on race, ethnicity, gender, national origin or sexual orientation. While the Board has not adopted a formal policy with respect to diversity, the Governance and Nominating Committee believes that diversity is an important aspect in Board composition. In selecting a director nominee, the Governance and Nominating Committee focuses on skills, education, experience and qualities that would complement the existing Board, recognizing our diverse global business structure. Reflecting this diversity, our Board consists of directors who are citizens of six different nations. Our directors come from diverse business backgrounds including financial, industrial, non-profit and governmental.

Health, Safety and Sustainability Committee

The Health, Safety and Sustainability Committee (the "HSS Committee") was formed in 2008 to assist the Board with regard to oversight of Century's policies and management systems with respect to health, safety and sustainability matters. Specifically, the HSS Committee is responsible for the regular review of Century's health, safety and sustainability policies and related practices, assessments, performance, compliance and reporting. The HSS Committee must meet at least twice a year and provide recommendations to the Board. During 2012, Messrs. Berntzen, Jones and Micheltore served on the HSS Committee. Mr. Berntzen has served as Chair of the HSS Committee since 2011. The HSS Committee held four meetings in 2012 and holds regular update calls with Company management between meetings.

Stockholder Communications with the Board of Directors

Stockholders may communicate with the Board or any individual director(s) by sending a written communication in an envelope addressed to the Board or the appropriate director(s) in care of our Corporate Secretary, addressed

to: Corporate Secretary, Century Aluminum Company, One South Wacker Drive, Suite 1000, Chicago, Illinois 60606.

Code of Ethics

We have adopted a code of ethics that applies to all employees, including our Chief Executive Officer, Chief Accounting Officer and Controller. A copy of the code of ethics is available on our Internet website at www.centuryaluminum.com and a copy will be mailed to any person, without charge, upon written request addressed to: Corporate Secretary, Century Aluminum Company, One South Wacker Drive, Suite 1000, Chicago, Illinois 60606.

We intend to disclose any amendments to or waivers of our code of ethics on behalf of our Chief Executive Officer, Chief Accounting Officer or Controller and persons performing similar functions, on our website at www.centuryaluminum.com.

Directors' Compensation

Directors who are full-time salaried employees of Century are not compensated for their service on the Board. The Board believes that compensation for non-employee directors should be a mix of cash and equity-based compensation and for non-employee, non-independent Board members compensation should be only in cash. Paying non-employee, non-independent directors only in cash avoids indirectly increasing the beneficial ownership of any stockholder at whose direction a member of our Board serves. The Compensation Committee evaluates the appropriate level and form of compensation for non-employee directors at least annually and recommends changes to the Board when appropriate. The Board reviews the committee's recommendations and determines the amount of director compensation.

Equity Awards, Meeting Fees and Retainers. In 2012, each independent director continuing in office after the Annual Meeting of stockholders received an annual grant of time-based performance share units valued at \$75,000. These time-based performance share units vest 100% on the one year anniversary of the grant date. The shares were granted on the business day following the 2012 annual meeting based on the average closing price of Century's common stock for the 30 trading days preceding the grant date. In addition, each newly elected independent director receives a one-time grant of 1,000 time-based performance share units that vest 50% following 12 months of service and 50% following 24 months of service. Vesting of time-based performance share unit awards are subject to acceleration under certain circumstances pursuant to the terms of the award agreement.

During 2012, non-employee directors (other than Messrs. Blumgart, Caplan, Goldberg, Kalmin and Strothotte, who waived their rights to receive compensation, and Chairman Wilkinson, who received the amount noted below) received an annual retainer of \$45,000 for their services. Mr. Wilkinson, as Chairman of the Board, received an annual retainer of \$110,000. The Chairs of the Audit and Compensation Committees each received an additional \$10,000 and the Chairs of the Governance and Nominating and Health, Safety and Sustainability Committees each received an additional \$5,000 annual retainer. In addition, each non-employee director received a fee of \$2,000 for each Board or Board committee meeting attended. The Chair of the Audit Committee received an additional \$1,000 per Audit Committee meeting attended.

The equity awards, meeting fees and retainers above, were set in 2009 based on a competitive assessment of director pay practices among the peer companies used for our executive compensation benchmarking. In 2012, the Compensation Committee reviewed Century's director pay practices and determined to leave them unchanged for 2012.

Expense Reimbursement. All directors were reimbursed for their travel and other expenses incurred in attending Board and Board committee meetings, other than Messrs. Blumgart, Caplan, Goldberg, Kalmin and Strothotte, who waived their right to receive expense reimbursement.

The following table sets forth the compensation paid to each director in 2012.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Exchange Act requires our directors and executive officers, and persons owning more than 10% of a registered class of our equity securities, to file with the SEC reports of ownership and changes in ownership of our equity securities. These same persons are also required to furnish us with copies of all such forms. Based solely on a review of the copies of the forms furnished to us and written representations that no Form 5 filings were required, we believe that, with respect to the 2012 fiscal year, all required Section 16(a) filings were timely made.

Item 11. Executive Compensation.

Compensation Discussion and Analysis

Introduction

Our Compensation Committee (the "Committee") is a standing committee of our Board of Directors. The Committee reviews and establishes the compensation for our executive officers and is responsible for administering and awarding grants of equity awards under our 1996 Stock Incentive Plan, which we refer to as the 1996 Plan.

The Committee periodically reviews and modifies Century's compensation and benefit programs, and the principles and philosophies on which these programs are based. During the year, the Compensation Committee reviewed the structure of the benefits provided by the Company's Annual Incentive Plan (the "AIP") and Long-term Incentive Plan (the "LTIP") and the change-in-control provisions under the LTIP and 1996 Plan. Based on this review, the Committee determined that it was in the best interest of the Company to make certain changes and adopted the following improvements to more closely align the structure of our compensation programs with the interests of our stockholders:

• Awards granted for 2012 under the Company's AIP were based on 2012 EBITDA (as defined below under "Target Awards"), the achievement of certain safety goals and individual performance.

• Performance unit awards granted under the 2012-2014 LTIP were based 100% on the Company's total stockholder return.

• Our LTIP and 1996 Plan were each amended by the Committee to replace the "single trigger" change in control provision in the plans with a "double trigger," such that awards under these plans will no longer automatically accelerate upon a change in control of the Company, but will now only accelerate upon a qualifying termination of the participant following a change in control.

• Increased stock ownership requirements for our nonemployee independent directors.

Our Philosophy on Executive Compensation

Our compensation programs are designed to enable Century and its subsidiaries to provide competitive compensation packages that attract, retain and motivate talented executives and managers while aligning management's and stockholders' interests in the enhancement of Company performance and stockholder value. Consistent with this philosophy, the Committee in 2012 amended the performance metrics used to determine awards granted under both the Company's AIP and LTIP to further strengthen the alignment between management's and our stockholders' interests. The Committee determined that awards granted for 2012 under the AIP would be heavily weighted (50%) on EBITDA performance to more closely link executive compensation with the near-term business goal of increasing the Company's operating profitability, and performance unit awards granted under the 2012-2014 LTIP would be based 100% on total stockholder return in order to incentivize management to increase the Company's share price performance over the long-term.

Our compensation programs are structured as a balanced portfolio using multiple elements to deliver a total package consisting of base salary, annual incentive awards, long-term incentive awards, and retirement benefits. In addition, the Committee retains discretion to make adjustments necessary to balance the overall performance of Century and the individual performance of our executive officers and to pay for performance.

The size of previous equity-based grants and current equity holdings do not affect future grants and are not considered by the Committee when making long-term incentive award decisions. The Committee does, however, consider the combination of the major compensation and benefit offerings when making compensation decisions. The Committee generally applies its compensation philosophy and policies consistently in determining the compensation of each of

our senior executives, while being mindful of individual differences such as experience, level of responsibility, potential contributions to future growth opportunities and individual performance, as well as the practical implications of arms-length negotiations at the time each executive is hired or promoted. Market pay levels for chief executives of public companies are in general significantly higher than the pay levels for other executives, as indicated by the survey data and peer group data utilized by the Committee and described below.

At the Company's annual meeting of stockholders held in September 2012, over 79% of the votes cast on the advisory vote to approve the compensation of our named executive officers were voted in favor of the proposal. The Committee believes this affirms our stockholders' support for the Company's approach to executive compensation.

Our Process for Executive Compensation

We review market pay and performance levels, with the help of our compensation consultants, on a regular basis. We evaluate Company performance against our plans and budgets, pay and performance levels at comparable companies and in the context of the broader economy. The Committee retains final discretion in determining annual incentive awards and the vesting of performance units. In general, the Committee makes its final determination of both annual incentive awards and awards earned based on long-term performance in the first quarter following the end of each performance period.

The Committee maintains an annual agenda to help ensure that it discharges its duties in a thoughtful and timely manner. Agenda items include reviewing market benchmarking, compensation risk assessment, finalizing incentive awards, approving salary adjustments and new incentive plan terms, reviewing market trends or completing a self-assessment. Other matters may be added to the agenda. As a general practice, the Committee makes significant decisions over multiple meetings: discussing conceptual matters, reviewing preliminary recommendations and reviewing final recommendations before acting. The Committee also holds special meetings as necessary in order to perform its duties.

The Committee dedicated significant time and attention to management compensation in 2012, including holding five meetings.

Benchmarking Executive Compensation

Our philosophy emphasizes competitive objectives for executive pay. We prefer a flexible range to a single point to provide the Committee the discretion needed to discharge its duties, while being mindful of individual differences such as tenure and performance, as well as the practical implications of pay, on occasion, being the product of an arms-length negotiation at the time an executive is hired or promoted. Elements of compensation that are benchmarked, separately and in the aggregate, include base salary, annual incentive, long-term incentive, and retirement benefits.

Our incentive plans are designed to allow the Committee the discretion to reward outstanding performance significantly above the targeted range in the case of outstanding performance; conversely, when performance is below expectations, our plans are designed to deliver compensation that is below the targeted range and to allow the Committee the discretion to reduce or eliminate certain compensation elements. In 2012, the Committee designed the compensation program to provide Century's officers total compensation (including annual base salaries, annual incentive compensation, long-term incentive compensation and retirement benefits) that, assuming success in meeting or surpassing criteria under the Company's various incentive plans, was positioned, on average, around the midpoint of the compensation ranges for similarly situated officers at the surveyed companies.

With respect to the named executive officers, in 2012 the Committee primarily focused on the practices of a group of comparably-sized, asset-intensive, metals and other industrial companies. The Committee chose these parameters, and ultimately the companies noted below, to permit pay to be evaluated in a context that considers businesses with similar exposure to economic forces and business cycles. The composition of this group is reviewed regularly, and at least annually, and the group is refined to ensure its relevance in light of Century's position, as well as mergers, acquisitions, growth, etc. among the companies.

In 2012, the Committee considered a peer group of companies when evaluating compensation for the named executive officers, which group consisted of companies that the Committee believed was most representative of the Company's current size, revenues, operations and industry. The Committee, with input from management and its compensation

consultants, annually reviews the companies included in our peer group and may add or eliminate companies as determined appropriate. For purposes of fiscal 2012 compensation matters, the following companies were included in the Company's peer group:

14

AM Castle & Co.
Arch Chemicals
Buckeye Technologies Inc.
Carpenter Technology Corp
Eagle Materials Inc.
Genesee & Wyoming Inc.
Gibraltar Industries Inc.
Kaiser Aluminum Corp.
Koppers Holdings Inc.

Martin Marietta Materials Inc.
Minerals Technologies Inc.
Noranda Aluminum Holding Corp.
Schnitzer Steel Industries Inc.
Stillwater Mining Co.
Texas Industries Inc.
Vulcan Materials Company
Worthington Industries

Role of the Chief Executive Officer

As part of its review and determination of Century's compensation objectives, philosophy, programs and decisions, the Committee works with and receives advice and recommendations from our Chief Executive Officer (other than with respect to his own compensation). The Committee's charter formalizes the working relationship with our Chief Executive Officer and includes the following actions to be taken by the Chief Executive Officer:

- working with the Committee in its decisions regarding the approval of all general compensation plans and policies, including pension, savings, incentive and equity-based plans;
- reviewing and determining the respective corporate and individual goals and objectives for the other named executive officers relevant to their compensation;
- providing the Committee an evaluation of the performance of the other named executive officers in light of their respective corporate and individual goals and objectives; and
- recommending to the Committee the compensation levels of the other named executive officers.

The Committee considers the recommendations of our Chief Executive Officer, together with the review by our compensation consultant, in making independent determinations regarding executive compensation. For 2012 compensation, Mr. Bless did not recommend his level of compensation to the Committee.

Our Chief Executive Officer attends all Committee meetings, other than those portions that are held in executive session, and he is not present during voting or deliberations on matters involving his compensation in accordance with the Committee's charter.

Role of Compensation Committee Consultants

The Committee has authority under its charter to retain its own advisers, including compensation consultants. In 2012, the Committee engaged Frederic W. Cook & Co., Inc. ("Frederic Cook") and Towers Watson as compensation consultants, each of which is independent and without conflicts of interest with the Company. Frederic Cook advised the Committee in connection with designing and implementing the Company's executive compensation programs for 2012, including with respect to compensation philosophy, objectives, annual and long-term plan designs, and market pay levels. Towers Watson was engaged on a more limited basis, assisting the Committee with the preparation of the Compensation Discussion and Analysis report for the Company's 2012 proxy statement. Neither Frederic Cook nor Tower Watson provided services to the Company in 2012 other than the services provided directly to the Committee.

Overview of Compensation Elements

The list below summarizes the general elements and characteristics of our executive compensation programs. Detailed narratives of these compensation elements are provided in a later section.

- **Base salary:** Base salary is determined by our philosophy, the position (skills, duties, responsibilities, etc.), market pay levels and trends, individual performance and prior salary;
- **Annual incentive awards:** Variable compensation is payable in cash (or at the discretion of the Committee, shares or stock options) following the fiscal year the pay is earned; payment is based on the Committee's review of achievement

of pre-set performance goals;

15

Long-term incentives: Variable compensation is payable in cash (or at the discretion of the Committee, shares or stock options) and/or time-vested performance shares; payment for performance unit awards is based 100% on total stockholder return over the measurement period; and

Retirement benefits: Tax qualified defined benefit and defined contribution plans apply to salaried employees of our U.S. companies who meet eligibility requirements. In addition, our nonqualified defined benefit plan provides a select group of participants with benefits above the level permitted under a qualified plan.

Compensation Program Details

Base Salary

Base salary provides a secure base of compensation in an amount that recognizes the role and responsibility of the executive officer, as well as his experience, performance and contributions. The Committee typically reviews the salaries of our named executive officers annually (in the fourth quarter or early the following year). The amount of any increase is based primarily on the named executive officer's performance, the level of his responsibilities and the external competitiveness of his base salary and overall total compensation. In addition, the Committee may review the salaries of our named executive officers in connection with a promotion or other change in responsibility. The Committee's review of these factors is subjective and no fixed value or weight is assigned to any specific factor when making salary decisions.

The Committee authorized a cost of living base salary increase of approximately 2.5% for each of the named executive officers in 2012. The Committee determined to make such increases based on, among other things, its review of competitive pay practices, the current financial situation of the Company, the recommendation of the Chief Executive Officer with respect to the other executive officers, and in its own judgment.

Following Mr. Bless' appointment as President and Chief Executive Officer in February 2012, Mr. Bless' 2012 annual base salary was increased to \$730,000, effective as of January 1, 2012.

Annual Incentive Awards

The AIP is designed to motivate and reward our executive officers in achieving the Company's short-term financial and operational objectives. Under our AIP, executives (including the named executive officers) are eligible to receive an award, which has historically been paid in cash, but may be paid, at the discretion of the Committee, in cash, shares or stock options.

Target Awards

For fiscal 2012, the Committee determined the amount of the annual incentive awards that would be paid to the named executive officers based on the achievement of pre-established corporate and individual goals, as described below. For our executive officers, 70% of their award is based on the degree to which these corporate performance goals are achieved and 30% is based on their individual performance and achievements. For fiscal 2012, the two metrics used to measure corporate performance for determining payouts were: (i) EBITDA, which had a 50% weighting and (ii) safety performance, which had a 20% weighting. These metrics and their assigned weights reflect our near-term business goals of increasing operating profitability and improving the safety of our workplaces.

For purposes of this program, EBITDA is defined as the Company's net income excluding, as applicable: (i) equity in earnings (losses) of joint ventures, (ii) income tax expense/benefit, (iii) net gain/(loss) on forward contracts, (iv) interest expense/income and (v) depreciation.

The 2012 safety targets were to achieve a combined weighted average (based on total headcount) at our Hawesville and Grundartangi facilities of a: (i) total recordable case incident rate ("TCIR") of 1.96 and (ii) days away, restrictions and job transfers rate ("DART") of 1.43. Each of TCIR and DART had a 10% weighting.

The following table summarizes the performance range and payout for these performance metrics:

Performance Metric		90%	100%	110%	120%	130%
EBITDA (50% weighting)	Performance Range	of target	of target	of target	of target	of target
	Payout Level	50%	100%	125%	160%	200%
TCIR (10% weighting)	Performance Range	worse than target	target	better than target	better than target	better than target
	Payout Level	50%	100%	133%	167%	200%
DART (10% weighting)	Performance Range	worse than target	target	better than target	better than target	better than target
	Payout Level	50%	100%	133%	167%	200%

The Committee reviews and approves the performance metrics and target levels of performance annually. The Committee sets targets that it believes are challenging but reasonably attainable. In general, payouts may be above or below target depending on performance above or below the targeted levels based on a straight line interpolation. However, in each case, the Committee retains absolute discretion to modify or eliminate any incentive awards if the Committee determines such actions are warranted. To reflect the integrated nature of the Company's senior leadership team, performance measure weighting with regard to all 2012 AIP goals was identical for all 2012 AIP participants. The following table summarizes the Company's achievements with respect to the AIP EBITDA and safety performance metrics for 2012:

Operating Result	% of Aggregate Award If Target Achieved	Targets	Achievement
EBITDA	50%	We consider the EBITDA targets to be confidential, and the disclosure of those targets would cause competitive harm to Century. The EBITDA targets are based on business plan assumptions that may allow our competitors to be able to predict our pricing strategies or our ability to match certain prices.	Performance of this factor was below target for the measurement period, which resulted in a 58% payout of target for this factor.
Safety	20% (10% weighted to each of TCIR and DART)	The 2012 safety targets were to achieve a weighted average (based on total headcount) at our Hawesville and Grundartangi facilities of (i) TCIR of 1.96 and (ii) DART rate of 1.43.	TCIR was 1.49, which was better than the target and resulted in a 200% payout of target for this factor. DART was 0.99, which was better than the target and resulted in a 200% payout of target for this factor.

As explained above, 30% of an executive officer's target annual incentive relates to individual job performance. In assessing each executive's individual performance, the Committee considers the officer's personal achievements, as well as his individual contributions to the management team, leadership and management of his business or function. The Committee's evaluation of individual contributions is based, in part, on individual performance goals established at the beginning of each period and the Committee's subjective evaluation of the achievement thereof.

Target annual incentive opportunities for 2012 were based on a percentage of base salary: Mr. Bless 90%; Mr. Leatherberry 70%; Mr. Schneider 55%; and Mr. Hoerner 70%. The Committee determined these target annual incentive opportunities as part of its total compensation program to provide Century's named executive officers total compensation (including annual base salaries, annual incentive compensation, long-term incentive compensation and retirement benefits) that, assuming success in meeting or surpassing criteria under the Company's various incentive plans, was positioned, on average, around the midpoint of the compensation ranges for similarly situated officers at the surveyed companies.

2012 Payout

The annual incentives paid to Messrs. Bless, Leatherberry, Schneider and Hoerner for 2012 were as follows:

Name	Target Non-Equity Incentive Compensation pursuant to the 2012 Annual Incentive Plan	Actual Non-Equity Incentive Compensation Paid pursuant to the 2012 Annual Incentive Plan
Mr. Bless	\$ 657,000	\$ 683,280
Mr. Leatherberry	\$ 268,450	\$ 277,200 (a)
Mr. Schneider	\$ 159,775	\$ 167,585
Mr. Hoerner	\$ 231,000	\$ 260,000

(a) Amount included paid to Mr. Leatherberry pursuant to his separation agreement with the Company, dated February 1, 2013. Certain material provisions of his separation agreement are described below under the caption "Summary Compensation Table - Narrative to Summary Compensation Table and Grant of Plan Based Awards Table - Employment and Separation Agreements."

Long-Term Incentive Awards

The LTIP is designed to align executive compensation with the interests of the Company's stockholders by linking compensation to share price appreciation and total stockholder return over a multi-year period and support the retention of our management team. We provide two types of LTIP awards: performance-units and time-vested performance shares.

Time-vested performance share units are stock-settled awards that are granted at the beginning of the performance period. Both the performance units and time-vested performance share units vest, in their entirety, after three years. Performance units vest at the discretion of the Committee.

2012-2014 LTIP. The Committee determined that, other than for Mr. Bless, two-thirds of the awards granted under the 2012-2014 LTIP will be performance units and one-third will be time-vested performance shares. Mr. Bless' 2012-2014 LTIP will be three-fourths performance units and one-fourth time-vested performance shares. Performance units are generally cash-settled awards (although the Committee retains the discretion to settle these awards in stock) and have typically been based on the achievement of strategic objectives, free cash flow goals, and the Company's total stockholder return in relation to its peer group over a three-year period. In 2012, however, the Committee determined that for the 2012-2014 performance period (the "Performance Period") performance unit awards under the 2012-2014 LTIP would be earned based 100% upon the Company's total stockholder return ("TSR") relative to the average TSR of the following peer group of aluminum industry companies for the Performance Period: Alcoa Inc., Alumina Limited, Aluminum Corp. of China Limited, Noranda Aluminum Holding Corporation, Norsk Hydro ASA and United Co Rusal PLC.

The Committee established the following range of targets and achievement percentages with respect to TSR for the Performance Period:

	TSR Percentile Ranks		Achievement Percentage	
Maximum	150	% of Peer Average	200	%
Target	100	% of Peer Average	100	%
Threshold	70	% of Peer Average	50	%
Below Threshold	>70	% of Peer Average	—	%

The Committee believes that basing the 2012-2014 LTIP performance unit awards 100% on TSR further aligns management's and the Company's stockholders' interests by incentivizing management to increase the Company's long-term share price performance. TSR is defined as the change in value of the applicable stock price for the Performance Period, with any dividends during such period being reinvested. For purposes of determining TSR, the

applicable stock price shall be calculated based on the average closing stock price for the 20 trading days immediately prior to the beginning and end of the Performance Period. TSR is calculated by the Committee.

2010-2012 LTIP. Awards under the 2010-2012 LTIP were allocated equally between performance units and time-vested performance shares. Performance unit awards under the Company's 2010-2012 LTIP were to be based on the achievement of strategic objectives, free cash flow goals, and the Company's total stockholder return in relation to its peer group over a three-year period. The Committee, however, previously determined that the election of three directors designated by Glencore to our Board of Directors constituted a change in control under the terms of the LTIP and resulted in the accelerated vesting (but not settlement of) of the awards. Accordingly, the following payments were made to the named executive officers:

Name	Pro-rata Original Value of Performance Units Under 2010-2012 LTIP	Pro-rata Cash Settlement Value of Performance Unit Paid Pursuant to 2010-2012 LTIP
Mr. Bless	\$ 162,000	\$ 162,000
Mr. Leatherberry	\$ 135,000	\$ 135,000 (a)
Mr. Schneider	\$ 83,100	\$ 83,100

(a) Includes amount paid to Mr. Leatherberry pursuant to his separation agreement with the Company, dated February 1, 2013. Certain material provisions of his separation agreement are described below under the caption "Summary Compensation Table - Narrative to Summary Compensation Table and Grant of Plan Based Awards Table - Employment and Separation Agreements."

Stock Options

Option grants are made on a case-by-case basis to executive officers in connection with hiring awards and to recognize promotions and under other circumstances where deemed appropriate in the Committee's discretion. It has been the Committee's practice to approve all option grants at Committee meetings. For initial option grants to our executives made in connection with their employment by Century, the Committee approves the options at the time it approves the executive's overall compensation arrangement and the terms of his or her employment agreement, if any. Option grants are a high-risk, high return component of the executive total compensation program because stock options deliver value to an executive only if the share price is above the grant price after the date of vesting. Therefore, the stock options directly align executive officer and stockholder interests. No option grants were made to the named executive officers in 2012 and no option grants have been made since 2009.

Retirement Benefits

The Century Aluminum 401(k) Plan is a tax-qualified retirement savings plan pursuant to which our U.S. based salaried employees, including our named executive officers, are able to contribute a percentage, up to the limits prescribed by the Internal Revenue Service, of their annual compensation on a pre-tax basis. In 2011, the Company reinstated a matching contribution equal to 100% of eligible employees' pre-tax contributions to the 401(k) Plan up to 4% of eligible compensation, and 50% of eligible employees' pre-tax contributions equal to the next 2% of eligible compensation. Generally, "eligible compensation" used for purposes of calculating contributions under the Plan is the amount paid to an employee as base salary plus bonuses (excluding certain gifts, awards, severance pay, relocation pay, performance shares and amounts realized from the exercise of certain stock awards) up to \$245,000 in 2011 and \$250,000 in 2012. Each named executive officer was eligible to participate in these benefits in 2012.

We also maintain a non-contributory defined benefit pension plan for our U.S. based salaried employees who meet certain eligibility requirements, which we refer to as our Qualified Plan. We have also adopted a Supplemental Retirement Income Benefit Plan, or "SERP." The SERP provides selected senior executive officers with an additional retirement benefit equal to the amount that would normally be paid under our Qualified Plan if there were no limitations under Sections 415 and 401(a)(17) of the Internal Revenue Code of 1986, as amended (the "Code"). Final average monthly compensation for purposes of calculating the supplemental benefit will be based on the greater of (a) projected final annual compensation, assuming specified annual increases until retirement age, or (b) the average

of the highest three years' annual compensation over the last 10 years of employment. Each named executive officer, other than Mr. Hoerner, was eligible to participate in the SERP in 2012.

On selective occasions we have also provided enhanced retirement benefits, in the form of an "Enhanced SERP", which is designed to enhance the total retirement income level, when, due to the executive's age and potential years of service at normal retirement age, benefits under the Qualified Plan and the SERP are projected to be less than a specified percentage of the executive's estimated final average annual compensation. None of the current named executive officers participate in the Enhanced SERP.

Benefits triggered by retirement are valued and described below under the caption “Executive Compensation-Pension Benefits Table” and “Executive Compensation-Potential Payments upon Termination or Change of Control.”

Policies & Other Technical Considerations

Stock ownership guidelines

We maintain stock ownership guidelines for our executives and nonemployee independent directors. We adopted these guidelines to further underscore our belief that management's interests should be aligned with those of the stockholders. In 2012, we reviewed our nonemployee independent director stock ownership guidelines. After a review of policies in effect at other companies, a decision was made to substantially increase the number of shares required to be held until retirement in order to further emphasize a long-term focus on stockholder value.

The current guidelines for Century's officers and directors are summarized in the table below. The guidelines are based on a fixed number of shares, which was finalized after giving consideration to the value of the fixed share guidelines as a percent of pay (salary for executives and cash retainer for nonemployee directors). The guidelines of peers and, on a broader basis, industry practices were considered in developing this policy.

Category	Share Guideline
Chief Executive Officer	150,000
Executive Vice Presidents	48,000
Senior Vice Presidents	18,000
Vice Presidents	6,000
Nonemployee, Independent Directors	20,000

Non-employee, non-independent directors are not subject to these guidelines, although they are urged to follow them.

Officers and non-employee independent directors have five years from the later of the date of hire or the effective date of the guidelines to meet these ownership guidelines. Officers who are subsequently promoted to a higher category of participant level will have five years from the date of promotion to achieve their increased share guideline. Each of the named executive officers satisfies the current guidelines, other than Mr. Bless who has until February 2017 to satisfy the guidelines following his promotion to Chief Executive Officer.

Clawback

We maintain an Incentive Compensation Recoupment Policy. Under this policy, our Board will, to the extent permitted by applicable law, in all appropriate cases, require reimbursement of any bonus or incentive compensation paid to an employee after January 1, 2008, cause the cancellation of restricted or deferred stock awards and outstanding stock options, and seek reimbursement of any gains realized on the exercise of stock options attributable to such awards, if and to the extent that: (a) the amount of incentive compensation was calculated based upon the achievement of certain financial results that were subsequently reduced due to a restatement, (b) our Board or an appropriate committee determines that the employee engaged in any fraud or misconduct which caused or contributed to the need for the restatement, and (c) the amount of the bonus or incentive compensation that would have been awarded to the employee had the financial results been properly reported would have been lower than the amount actually awarded.

Timing of Equity Awards

Generally, the Committee makes incentive pay decisions at regularly scheduled Committee and board meetings. The Committee may also make compensation determinations at other times during the year for newly-hired executives or in connection with the promotion of existing employees. The Committee does not time any form of compensation award, including equity-based awards, to coincide with the release of material non-public information.

Income Tax Consequences

Section 162(m) of the Code generally disallows a tax deduction for annual compensation in excess of \$1 million paid to certain executive officers; however, compensation above \$1 million is deductible if such compensation is “performance based” and meets other criteria as specified under Section 162(m) of the Code.

The Committee agrees with the premise of pay for performance, and it has considered the impact of Section 162(m) on the design of our compensation programs. But the nature of our business, not the least of which is the impact of metal prices on our results, limits the ability to pre-determine meaningful goals without substantial subsequent discretionary adjustments. The Committee believes that such discretion is necessary and would not be available as a compensation management tool if incentive payments were to be “performance based” as defined and required under Section 162(m). Accordingly, it is not the Committee's goal for all compensation to be deductible by us under Section 162(m).

The Committee will continue to consider and weigh the potential loss of expense deductions against its need for discretion in designing programs for the named executive officers. The Committee does not expect the loss of any such deductions to have a significant impact on Century.

Hedging Policy

The Company has a policy that prohibits executives from engaging in any transaction in which they may profit from short-term speculative swings in the value of the Company's securities. This includes “short sales” (selling borrowed securities which the seller hopes can be purchased at a lower price in the future), “put” and “call” options and other derivatives. In addition, this policy is designed to ensure compliance with all insider trading rules relating to the Company's securities.

Employment Agreements

We currently only have an employment agreement with Mr. Bless. We had an employment agreement with Mr. Leatherberry prior to him entering his separation agreement. The terms of these agreements, including base salary, initial equity grants, minimum guaranteed bonuses, participation in Century benefit plans and other benefits, are approved by the Committee. The amounts and types of such compensation are negotiated terms. When reviewing and negotiating these terms, the Committee is provided with market data by its compensation consultants and considers practices of peer companies and, if applicable, compensation earned and/or forfeited by the officer at a previous employer. Mr. Leatherberry's employment agreement referred to above has been superseded by his separation agreement with the Company. Certain material provisions of the employment agreement of Mr. Bless and the separation agreement of Mr. Leatherberry are described below under the caption “Summary Compensation Table - Narrative to Summary Compensation Table and Grant of Plan Based Awards Table - Employment and Separation Agreements.”

Post-Termination Compensation and Benefits

Other Post-Termination Benefits

Selected senior executive officers may also receive benefits triggered by death, disability, retirement or termination without cause. Century has designed these benefits to be competitive with industry standards to attract and retain talented executive and management level personnel. Benefits triggered by death, disability, retirement and termination without cause are valued and described below under the caption “Executive Compensation-Potential Payments upon Termination or Change of Control.”

Century's policy is that accelerated benefits for executive officers should not be triggered in circumstances where the executive is terminated for cause or resigns voluntarily.

Change in Control

Our policy is to provide change in control protection to our named executive officers based on competitive practice in the industry. Change in control provisions are contained in long-term compensation agreements, retirement plans and severance protection agreements, particularly for executives who are unlikely to be retained in comparable positions by the acquiring entity upon a change in control. In addition, change in control protections have historically been designed to maximize stockholder value by creating incentives for named executive officers to explore strategic transactions and work to bring such transactions to fruition if appropriate. Our 1996 Plan, Executive Severance Plan, Severance Protection Agreements and employment agreements are each intended to provide for certain employee protections in the event of a change in control. These arrangements have been intended to attract and retain qualified executives that could have other job alternatives that may appear to them to be less risky absent these arrangements, particularly given the significant level of acquisition activity in the metals and mining sectors.

Our Severance Protection Agreements are “double trigger,” meaning that payment of severance benefits is not awarded upon a change in control unless the executive's employment is terminated involuntarily (other than for cause) within 36 months following the transaction. Similarly, our 1996 Plan was recently amended by the Committee to replace the single trigger change in control provision with a double trigger, such that awards will no longer automatically accelerate upon a change in control of the Company, but will now only accelerate upon a qualifying termination of the participant within 24 months following a change in control.

We believe the double trigger structure strikes a balance between the incentives and the executive hiring and retention effects described above, without providing these benefits to executives who continue to enjoy employment with an acquiring company in the event of a change of control transaction. We also believe this structure is more attractive to potential acquiring companies, who may place significant value on retaining members of our executive management and who may perceive this goal to be undermined if executives receive significant acceleration payments in connection with such a transaction and are no longer required to continue employment to earn these payments.

See “Potential Payments upon Termination or Change of Control-Severance Compensation Arrangements” for additional discussion of the severance compensation agreements of our named executive officers.

Involuntary Severance

The Compensation Committee established the Executive Severance Plan after recognizing a need for severance arrangements beyond the Company's Severance Protection Agreement for those executives without an Employment Agreement. The only named executive officers who are participants in the Executive Severance Plan are Mr. Schneider and Mr. Hoerner. The key terms of the Executive Severance Plan and benefits triggered by a change in control or involuntary severance are valued and described below under the caption “Executive Compensation - Potential Payments upon Termination or Change of Control.”

Narrative to the Summary Compensation Table and Grants of Plan Based Awards Table

Employment and Separation Agreements

We have an employment agreement with Mr. Bless. Mr. Bless' agreement provides for automatic extensions on each January 1 for an additional one-year period unless timely notice of termination is delivered by a party pursuant to the terms of the employment agreement. Effective January 1, 2011, Mr. Bless' agreement was so extended to December 31, 2013. Mr. Bless' agreement provides that his salary shall be subject to increase from time to time at the discretion of the Compensation Committee. Mr. Bless' employment agreement has not been amended to date following his appointment as President and Chief Executive Officer. This agreement also provides that Mr. Bless is eligible to participate in our incentive compensation plans, subject to the discretion of the Compensation Committee, and he is also eligible for stock option grants and performance share awards under the 1996 Plan and participation in the SERP.

Effective as of February 1, 2013, the Company entered into a Separation Agreement and General Release (the "Separation Agreement") with Mr. Leatherberry. Pursuant to the Separation Agreement, Mr. Leatherberry resigned as an executive officer of the Company effective as of February 1, 2013. The Separation Agreement supersedes both Mr. Leatherberry's employment agreement and his severance protection agreement with the Company that were in effect at

the time of his resignation. Mr. Leatherberry will continue as a non-executive employee of the Company until June 21, 2013, or such other date as mutually agreed between Mr. Leatherberry and the Company (the "Termination Date"). For his service during the transition period, Mr. Leatherberry will receive a base salary at a rate equal to his current base salary and shall be entitled to continue to participate in all employee benefit and welfare plans in which he currently participates.

Under the terms of his Separation agreement, Mr. Leatherberry has agreed to a general release of claims with respect to the Company (including any claims arising under his employment agreement or severance protection agreement) and is subject to non-disparagement, cooperation and confidentiality provisions. In consideration for his agreement to the general release and these restrictive covenants and subject to compliance with the terms of his Separation Agreement, the Company has agreed to pay Mr. Leatherberry (i) aggregate cash severance and other payments equal to \$1,675,475, (ii) payouts or share settlements of previously vested performance units and performance share units and (iii) a lump sum pension benefit calculated in the manner provided in his severance protection agreement, with the calculation based on the Termination Date. Mr. Leatherberry will also receive reimbursement of legal fees and reimbursement of COBRA premiums for continued COBRA group health and dental coverage for a period of 24 months.

Deferred Compensation

The election of three directors designated by Glencore to our Board of Directors in June 2011 previously was determined to have resulted in the accelerated vesting of certain awards granted under the Company's Amended and Restated 1996 Stock Incentive Plan and the Long-Term Incentive Plan. However, pursuant to the terms of the Amended and Restated 1996 Stock Incentive Plan and the Long-Term Incentive Plan, such awards would continue to settle on the originally scheduled dates absent the occurrence of certain subsequent events. The awards held by our named executive officers that previously were determined to have vested in June 2011, but have not yet settled, are set forth in the table below.

Post Employment Compensation
Pension Benefits

As discussed above under the heading “Retirement Benefits,” we maintain both the Qualified Plan and the SERP as retirement plans for our U.S. based salaried employees. The Qualified Plan provides lifetime annual benefits starting at age 62 equal to 12 multiplied by the greater of: (i) 1.5% of final average monthly compensation multiplied by years of credited service (up to 40 years), or (ii) \$22.25 multiplied by years of credited service (up to 40 years), less the total monthly vested benefit payable as a life annuity at age 62 under predecessor plans which we acquired. We determine final average monthly compensation under the qualified plans as the highest monthly average for 36 consecutive months in the 120-month period ending on the last day of the calendar month completed at or prior to a termination of service. Participants' pension rights vest after a five-year period of service, or earlier if the participant has reached the age of 62. An early retirement benefit (actuarially reduced beginning at age 55) and a disability benefit are also available. The compensation covered by the plan includes all compensation, subject to certain exclusions, before any reduction for 401(k) contributions, subject to the maximum limits under the Code.

The SERP provides selected senior executives with supplemental benefits in addition to those benefits they are entitled to receive under the Qualified Plan. More information about the SERP can be found under the heading “Retirement Benefits.”

The following table sets forth the present value of accumulated benefits payable to each of the named executive officers, including the number of years of service credited to each such named executive officer, under the Qualified Plan and the SERP, determined using interest rate and mortality rate assumptions consistent with those used in our consolidated financial statements.

The following table sets forth the amount of compensation payable to each of our named executive officers upon termination of such executive's employment. The amount of compensation payable to each named executive officer following: termination following a change of control, involuntary termination for cause, involuntary termination not-for-cause, death, disability, retirement and voluntary resignation is shown. The amounts shown assume that such termination was effective as of December 31, 2012. The actual amount to be paid can only be determined at the time of such executive's termination.

Severance Compensation Arrangements

Severance Protection Agreements

As discussed under the heading “Post-Termination Compensation and Benefits,” we have entered into severance protection agreements with each of Messrs. Bless and Schneider. We also had a severance protection agreement with Mr. Leatherberry, which was superseded by his Separation Agreement as described above under Employment and Separation Agreements. The severance protection agreements generally provide that if within 36 months after we experience a change in control the executive's employment is terminated either (i) by us for other than cause or disability, or (ii) by such executive for good reason, then such executive will receive a lump sum payment equal to three times for Mr. Bless, and two times for Mr. Schneider, the aggregate of the highest base salary and the highest annual cash bonus or bonuses received by such executive in any of the most recent five years. Also, upon a change in control, unvested stock options and performance shares held by such executives will vest assuming that all performance targets were achieved at the 100% level. The agreements also provide that we will continue to provide benefits to each executive for a period of three years for Mr. Bless and two years for Mr. Schneider, after the date of his termination. In addition, the executive will be credited for pension purposes, a period of two to three years, as the case may be, beyond the termination date, at that executive's highest base salary and highest bonus level, and Century will pay to the executive in a single lump sum the difference between the actuarial equivalent of (a) what the executive would have been entitled to under our retirement plans and (b) what he is entitled to taking into account the terms of the severance protection agreement, assuming the executive is 100% vested in the increase benefit under the retirement plans. The agreements are for a set period of time, but are subject to automatic one-year extensions on each January 1, unless the executive's employment is terminated prior to a change in control.

Employment Agreements

Our employment agreement with Mr. Bless provides that upon termination of employment for any reason other than voluntary resignation without cause, death, disability or “for cause”, Mr. Bless will be entitled to receive termination payments equal to (i) 100% of his base salary and bonus (based on the highest annual bonus payment within the prior three years) for the remainder of the term of the agreement (with a minimum of one year's salary plus bonus), (ii) his pro-rated target annual bonus for the period prior to his termination and (iii) an amount equal to his target long-term cash incentive compensation award (assuming achievement at target level of performance goals for the performance period).

If Mr. Bless is terminated as a result of his disability, the payments due to the executive will be reduced by any payments he receives under our disability plans. Also, any termination payments under Mr. Bless' employment agreement may not be duplicated under his severance protection agreements described above.

We also had an employment agreement with Mr. Leatherberry, which was superseded by his Separation Agreement as described above under Employment and Separation Agreements.

Executive Severance Plan

Messrs. Schneider and Hoerner are participants in our Executive Severance Plan. The Executive Severance Plan provides that upon a termination of employment for any reason other than voluntary resignation without cause, death, disability or “for cause”, Messrs. Schneider and Hoerner will be entitled to receive termination payments equal to (i) 100% of their respective base salary, (ii) 100% of the greater of (x) their respective target annual bonus on their respective termination date and (y) their respective target annual bonus for the most recently completed fiscal year and (iii) their respective pro-rated target annual bonus for the period prior to their termination.

409A and other tax considerations

Any amounts payable to each officer by reason of his termination of employment that are determined to constitute payments of “nonqualified deferred compensation,” as that term is used for purposes of Section 409A of the Internal Revenue Code, shall be payable, together with interest thereon, on the first business day of the seventh month following his termination of employment; and, for our officers that have employment agreements, require that the executive receive any severance at the same time and in the same form as required under the executive's employment agreement in lieu of single lump sum severance payments under certain circumstances and added a covenant on the part of the executive to maintain the confidentiality of information the executive received in the course of his employment.

The Code imposes certain excise taxes on, and limits the deductibility of, certain compensatory payments made by a corporation to or for the benefit of certain individuals if such payments are contingent upon certain changes in the ownership or effective control of the corporation or the ownership of a substantial portion of the assets of the corporation, provided that such payments to the individual have an aggregate present value in excess of three times the individual's annualized includible compensation for the base period, as defined in the Code. The severance compensation agreements provide for additional payments to the executives in order to fully offset any excise taxes payable by an executive as a result of the payments and benefits provided in the agreements. All benefits afforded the named executive officers under the severance compensation agreements are included in the amounts set forth in the "Potential Payments upon Termination or Change of Control" table above.

Item 13. Certain Relationships and Related Transactions, and Director Independence.

Related Person Transaction Policy

We have a written policy and written procedures for the review, approval and monitoring of transactions involving Century or its subsidiaries and “related persons.” For the purposes of the policy, “related persons” include executive officers, directors and director nominees and their immediate family members, and stockholders owning five percent or greater of our outstanding stock and their family members. Certain transactions are to be approved by the independent directors acting as a separate body. A copy of our Related Person Transaction Policy is available in the Investor section of our website, www.centuryaluminum.com, under the tab “Corporate Governance.”

Our Related Person Transaction Policy is administered by the Audit Committee and applies to all related person transactions entered into after its adoption. This policy applies, subject to certain specific exclusions, to any transaction, arrangement or relationship or any series of similar transactions, arrangements or relationships in which Century or any of its subsidiaries was or is to be a participant and where any related person had or will have a direct or indirect interest. Transactions involving less than \$50,000 are not subject to review and approval under the policy. In addition, the policy defines certain ordinary course transactions with Glencore that are not material and not subject to review and approval under the policy, although those transactions are otherwise reviewed and approved by our Audit Committee. Pursuant to the policy, the Audit Committee is responsible for reviewing qualifying related person transactions. However, all transactions with Glencore for new long-term supply agreements are subject to review under the policy and any other transaction the Audit Committee Chair determines is material is reviewed by the independent directors, acting as a separate body of our Board of Directors. Based on its consideration of all relevant facts and circumstances, whether the transaction is on terms that are fair and reasonable to Century and whether the transaction is in the business interests of Century, the Audit Committee or independent directors, as the case may be, will decide whether or not to approve or ratify such transaction. If a related person transaction is submitted to the Audit Committee after the commencement of the transaction, the Audit Committee or independent directors, as the case may be, will evaluate all options available, including the ratification, rescission or termination of such transaction.

Recent Related Party Transactions with Glencore

Approval of Transactions with Glencore

All transactions with Glencore, subject to our approval policy described above, were approved by the Audit Committee or by a special committee comprised solely of independent directors.

Hedging with Glencore

In 2011 and 2010, we entered into primary aluminum put option contracts with Glencore. We paid cash premiums to enter into these contracts and recorded a short-term asset in due from affiliates on the consolidated balance sheets. We believe that the cash premiums paid to Glencore under these contracts were purchased at prices that approximate market. We determined the fair value of the put options using a Black Scholes pricing model with inputs obtained from an independent source and account for the put options as derivative financial instruments with gains and losses in the fair value of the contracts recorded on the consolidated statements of operations in net losses on forward contracts.

Purchases from Glencore

We purchase alumina from Glencore on both a spot and long-term contract basis. We believe that all of the alumina purchased under these long-term contracts was purchased at prices which approximated market. For alumina purchased from

Glencore on a spot basis, we determined the market price for the spot alumina we purchased based on a survey of suppliers at the time that had the ability to deliver spot alumina on the specified terms. Based on this survey, we believe that all of the alumina purchased on a spot basis from Glencore was purchased at prices that approximate market.

Since 2010, we have had agreements to buy alumina from Glencore for Grundartangi. Glencore agreed to supply us with 18,000 metric tons of alumina in 2010 at a fixed price. Based on a survey of suppliers at the time that had the ability to deliver spot alumina on the specified terms, we believe that the alumina purchased from Glencore under this contract was purchased at prices that approximate market. In 2012 and 2011, the pricing on these alumina purchase agreements for Grundartangi has been indexed to the LME price for primary aluminum.

Alumina contract and amendments. We are party to a long-term alumina supply agreement with Glencore. Glencore agreed to supply us with alumina through 2014 at prices indexed to the LME price of primary aluminum.

Sales to Glencore

We sold primary aluminum and alumina to Glencore both at spot and long-term contract basis.

We sold primary aluminum under our long-term sales contracts with Glencore at prices based on the LME price for primary aluminum, as adjusted to reflect the Midwest Premium (a premium typically added for deliveries of aluminum within the U.S.). In addition, we received tolling fees from Glencore under tolling agreements that provide for delivery of primary aluminum produced at Grundartangi. The fee paid by Glencore under these tolling agreements is based on the LME price for primary aluminum, as adjusted to reflect the exemption from the European Union import duty for Icelandic primary aluminum. We believe that all of the transactions with Glencore under these contracts were at prices that approximate market.

We have a long-term contract to sell Glencore primary aluminum, at a variable price based on the LME, adjusted by a negotiated U.S. Midwest market premium with a cap and floor as applied to the current U.S. Midwest Premium. In addition, we entered into a contract to sell Glencore all U.S. produced primary aluminum, less existing sales agreements and high-purity metal sales. The term of the contract may be extended upon mutual agreement.

Transactions with BHH

We own a 40% stake in BHH, a carbon anode and cathode facility located in the Guangxi Zhuang Autonomous Region of south China. We have a long-term agreement with BHH to provide carbon anodes to Grundartangi through December 31, 2014. This agreement is renewable through December 31, 2017.

A summary of the aforementioned related party transactions for the years ended December 31, 2012, 2011 and 2010 is as follows:
