First Quarter Trading Statement 2006

Basel, Switzerland, April 19, 2006

Sales in the first quarter of 2006 were \$2.7bn, 1% lower (CER) in comparison with a strong first quarter in 2005; reported sales were 5% lower due to a strengthening of the US dollar.

In Crop Protection, sales were 1% higher (CER). In Europe, Africa & Middle East a late start to the season was offset by a recovery in southern Europe, notably Spain, continued growth in Eastern Europe and a good performance in Germany. In NAFTA, growth was achieved across the region with new products again driving performance, notably the new cereal herbicide AXIAL® which made a strong start in its first season. Higher sales in Asia Pacific were led by China, as well as a number of countries in South East Asia. Sales in LATAM were somewhat lower due to challenging market conditions in Brazil.

Growth was achieved across all product lines with the exception of lower sales in fungicides, notably in Brazil. Professional Products again delivered solid growth with all three businesses □Seed Care, Lawn & Garden and Home Care - making significant contributions.

Seeds sales were 5% lower (CER). In comparison with a strong first quarter in 2005, corn and soybean sales were lower primarily due to production-related issues affecting corn in the USA. Diverse Field Crops again delivered good growth. Sales of Vegetables & Flowers were also higher, maintaining their growth record.

For the full year 2006, the company continues to target double digit growth in earnings per share*.
