ABN AMRO announces updated outlook for the full year 2007 in connection with the Extraordinary General Meeting of Shareholders on 20 September

ABN AMRO today announces an update on the expected earnings for the year 2007 and our capital ratios.

Based on the results as per August year-to-date, we are on track to deliver an earnings per share (EPS) of approximately EUR 2.30 on an adjusted basis*, notwithstanding the impact of the current turmoil in financial markets on our Global Markets results and continued disappointing performance of Antonveneta.

Due to slightly higher demand for capital from our businesses, our capital ratios may be marginally below our target ratios at the end of the third quarter. We do expect to meet our capital ratio targets, a core tier 1 ratio of 6% and a tier 1 ratio of 8%, by year end 2007 under a normal course of business and following through on our commitment to strict capital discipline.

We are pleased to report that current market circumstances have not resulted in a revision of our loan loss provision forecast. In line with previous statements we expect the loan loss provisioning for our consumer portfolio to increase with the growth of the portfolio and to see somewhat higher levels of provisioning in the commercial portfolio due to the absence of write-backs and releases. ABN AMRO has a very limited exposure to the subprime segment.

ABN AMRO's overall liquidity position remains strong. For clarification purposes: ABN AMRO manages several asset-backed commercial paper (ABCP) conduits, which are diversified in terms of geographical and asset coverage and the maturities of the ABCP are well spread over time. The actual outstanding ABCP as per 13 September 2007 is EUR 51.5 bln, of which EUR 29.4 bln is in multi-seller conduits. All major conduits have been rolled over in the past weeks without any difficulty due to the underlying quality of the assets. It is noteworthy that up to 50% of the main multi-seller conduits can self-liquidate within a 3 month period. Retail savings remain stable. As part of our standard liquidity management process, ABN AMRO maintains a very substantial liquidity buffer to meet all contingent liquidity needs. We continue to monitor market developments, and remain comfortable with our liquidity position.

* For further details of the adjustments we refer to the first half 2007 results press release of 30 July 2007
