MULTEX.COM, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)
March 31, 2001

NOTE 1 -- BASIS OF PRESENTATION

Multex.com, Inc. (the "Company" or "Multex.com") is a global provider of investment information and technology solutions to the financial services industry, including brokerage firms, professional money management firms, hedge funds, venture capital firms, mutual funds, investment banks, corporations, and individual investors. Headquartered in New York, the Company also has offices in London, San Francisco, Edinburgh and Hong Kong.

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation have been included. Operating results for the three months ended March 31, 2001 are not necessarily indicative of the results that may be expected for the year ending December 31, 2001. The disclosure of segment information was not required as the Company operates in only one business segment.

The balance sheet at December 31, 2000 has been derived from audited financial statements but does not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements.

The interim financial information contained herein should be read in conjunction with the consolidated financial statements and notes thereto for the year ended December 31, 2000 included in the Company's annual report on Form 10-K.

NOTE 2 -- STOCKHOLDERS' EQUITY

During the three months ended March 31, 2001, the Company issued 174,000 shares of its common stock to employees in connection with the exercise of stock options and granted rights to receive an additional 301,000 shares to employees in connection with its restricted stock program. The restricted stock rights vest in four equal semi-annual installments beginning July 1, 2001, with stock issuance occurring on each vesting date.

Edgar Filing: MULTEX COM INC - Form 10-Q

NOTE 3 -- EARNINGS PER SHARE

The following table sets forth the computation of basic and diluted earnings per share for the periods indicated (in thousands, except per share data):

	Three Months Ended March 31,	
	2001	2000
	-----	-----
Numerator:		
Numerator for basic and diluted net income		
(loss) per share - net income (loss)	\$ 3,015	\$ (2,077)
	-----	-----
Denominator:		
Denominator for basic net income (loss) per		
share - weighted average shares	31,831	28,297
Assumed conversion of outstanding stock options	2,452	-
Assumed conversion of outstanding warrants	8	-
	-----	-----
Denominator for diluted net income (loss) per		
share - weighted average shares	34,291	28,297
	-----	-----
Basic and diluted net income (loss) per share	\$ 0.09	\$ (0.07)
	-----	-----

NOTE 4 -- COMPREHENSIVE INCOME (LOSS)

Total comprehensive income (loss) was \$2,796,000 and (\$2,057,000) for the three months ended March 31, 2001 and March 31, 2000, respectively.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

THE FOLLOWING DISCUSSION OF THE FINANCIAL CONDITION AND RESULTS OF OPERATIONS OF THE COMPANY CONTAINS FORWARD-LOOKING STATEMENTS WITHIN THE MEANING OF SECTION 27A OF THE SECURITIES ACT OF 1933, AS AMENDED, AND SECTION 21E OF THE SECURITIES EXCHANGE ACT OF 1934, AS AMENDED. STATEMENTS CONTAINED HEREIN THAT ARE NOT STATEMENTS OF HISTORICAL FACT MAY BE DEEMED TO BE FORWARD-LOOKING

Edgar Filing: MULTEX COM INC - Form 10-Q

STATEMENTS. WITHOUT LIMITING THE FOREGOING, THE WORDS "BELIEVES", "ANTICIPATES", "PLANS", "EXPECTS" AND SIMILAR EXPRESSIONS ARE INTENDED TO IDENTIFY FORWARD-LOOKING STATEMENTS. THE COMPANY'S ACTUAL RESULTS AND THE TIMING OF CERTAIN EVENTS COULD DIFFER MATERIALLY FROM THOSE ANTICIPATED IN THESE FORWARD-LOOKING STATEMENTS AS A RESULT OF CERTAIN FACTORS, INCLUDING, BUT NOT LIMITED TO, THOSE SET FORTH UNDER "RISK FACTORS THAT MAY AFFECT FUTURE RESULTS."

Overview

Multex.com is a global provider of investment information and technology solutions for the financial services industry, including brokerage firms, professional money management firms, hedge funds, venture capital firms, mutual funds, investment banks, corporations and individual investors. We offer four main products, as follows:

- o MultexNET, launched in June 1996, provides access to real-time, commingled equity and fixed income research, global estimates and company fundamental information to buy-side investors, sell-side institutions, public and private corporations and libraries of professional service firms;
- o MultexEXPRESS, launched in January 1997, offers development, hosting and real-time distribution of research and other investment information on customized web sites to buy-side investment firms, sell-side institutions and other financial services companies;
- o Multex Investor, launched in November 1998, is the Company's financial destination web site that provides financial data and access to free research in return for permission-based leads to brokerage firms and pay-per-view research on an embargoed basis; and
- o Market Guide, acquired in September 1999, provides investment information products to financial institutions and web sites, institutional investors, corporations and professional vendors.

MultexNET is offered either on a one- to three-year subscription basis or on a transactional basis through Multex OnDemand. The product allows entitled institutional investors, corporations, financial institutions and advisors to access full-text investment research reports on a real-time basis from investment banks, brokerage firms and other third-party research providers over the Internet or through other distribution channels.

MultexEXPRESS is also provided pursuant to one- to three-year subscriptions, generating revenue from professional services, hosting, and license fees. MultexEXPRESS enables financial institutions to distribute their proprietary financial research, as well as other corporate documents, over the Internet, through intranets and other private networks.

Multex Investor provides individual investors who register as members access to a range of financial reports and services online from a majority of the contributors to MultexNET. These reports are available either free of charge, or for a fee determined by the research provider. Multex Investor generates revenues from transactions, email and banner advertising, and contractual, lead-generating sponsorships. Sponsors on Multex Investor include full-service brokerage firms and other financial institutions interested in attracting individual investors to their products, services and brands.

Market Guide acquires, integrates, condenses and publishes accurate, timely and objective financial, descriptive and other information on publicly-traded companies. Market Guide generates revenue primarily by licensing its database in single or multi-year contracts.

Revenue from MultexNET subscriptions is recognized in equal installments over the term of the subscription. Revenue from transactions on MultexNET and Multex Investor are recognized upon sale. Some of the transactional users of MultexNET pay a flat annual fee for the service, which entitles them to receive research and other reports at a discounted rate. Revenues from these users are recognized in equal installments over the term of the subscription. Revenue from professional service fees related to Multex EXPRESS is recognized upon completion of relevant service, whereas the hosting and license fees are recognized over the term of the agreement. Revenue from sponsorships on Multex Investor is recognized in equal installments over the term of the sponsorship. Market Guide license fees are recognized over the term of the agreement.

The majority of costs associated with revenues from MultexNET, MultexEXPRESS, Multex Investor and Market Guide are expensed as and when incurred.

Results of Operations

Quarter Ended March 31, 2001 Compared to Quarter Ended March 31, 2000

Revenues

Multex.com's revenues consist of subscription fees for MultexNET, sales of investment research on a pay-per-view basis through Multex OnDemand, subscription, development, hosting and license fees for MultexEXPRESS, license and redistribution fees for the Market Guide database, and sales of sponsorships, advertising and investment research through the Multex Investor and Market Guide web sites. We also provide professional services to select MultexEXPRESS clients, including software development, customization and integration services.

Revenues increased 83.4% to \$29.5 million for the quarter ended March 31, 2001 from \$16.1 million for the quarter ended March 31, 2000. The increase in revenues reflects growth in all four product groups. MultexEXPRESS revenue benefited from an increase in the number of Express sites in operation, additional customization work, and an early termination charge associated with one customer who decided to exit the retail marketplace. MultexNET sales benefited from an increased number of users accessing the MultexNET service and an increase in the number of reports purchased through the OnDemand product. Multex Investor benefited from fees associated with the Multex Investor Europe partnership (jointly owned with Reuters), the inclusion of Sage revenues (acquired in March 2000), an increase in advertising revenue and early

Edgar Filing: MULTEX COM INC - Form 10-Q

cancellation fees related to two sponsors exiting the retail marketplace. Market Guide displayed strong growth from the inclusion of the Multex Global Estimates (formerly Barra Global Estimates) business which was acquired in December 2000, and an increase in the number of vendors distributing the Market Guide database, partially offset by several smaller internet distributors canceling their contracts and/or declaring bankruptcy.

Cost of Revenues

Cost of revenues consists primarily of fees payable to distributors of MultexNET and Multex OnDemand, royalties payable to the authors of investment research and content offered through Multex OnDemand, and the Multex Investor and Market Guide web sites, internal and external development costs incurred for MultexEXPRESS customers, research department costs related to the collection and processing of financial data and global earnings estimates, and data communications costs.

Cost of revenues increased 44.0% to \$5.7 million in the quarter ended March 31, 2001 from \$4.0 million for the quarter ended March 31, 2000. As a percentage of revenues, cost of revenues decreased to 19.4% for the quarter ended March 31, 2001 from 24.7% for the quarter ended March 31, 2000. The increase in cost of revenues in dollar terms was primarily due to increased royalty payments to third party contributors resulting from additional report sales through the Multex OnDemand platform, the inclusion of data collection costs related to the Global Estimates business, and costs associated with increased customization work related to development and enhancements of Express sites.

Operating Expenses

Sales and Marketing. Sales and marketing expenses consist primarily of salaries, commissions, advertising, public relations, tradeshow expenses and costs of marketing materials. Sales and marketing expenses increased 7.6% to \$6.7 million in the quarter ended March 31, 2001 from \$6.2 million for the quarter ended March 31, 2000. As a percentage of revenues, sales and marketing expenses decreased to 22.8% for the quarter ended March 31, 2001 from 38.8% for the quarter ended March 31, 2000. The increase in sales and marketing expenses was due to an increase in head count offset by a sharp reduction in advertising and marketing expenses. The Company has controlled its marketing expenditures with the majority of marketing dollars spent on generating qualified leads to the Multex Investor platform.

Research and Development. Research and development expenses consist primarily of salaries and benefits. Research and development expenses increased 15.6% to \$2.6 million for the quarter ended March 31, 2001 from

\$2.3 million for the quarter ended March 31, 2000. As a percentage of revenues, research and development expenses decreased to 8.8% for the quarter ended March 31, 2001 from 14.0% for the quarter ended March 31, 2000. The increase in research and development expenses in dollar terms was primarily due to an increase in the number of employees working on new products and enhancements

Edgar Filing: MULTEX COM INC - Form 10-Q

such as the next generation of MultexNET and the continued integration of Buzz and Sage into the Multex product offerings.

General and Administrative. General and administrative expenses consist primarily of salaries and benefits, fees for professional services and facility expenses, including depreciation and amortization of equipment, software and leasehold improvements, and amortization of identifiable intangible assets and goodwill. General and administrative expenses increased 88.0% to \$11.9 million for the quarter ended March 31, 2001 from \$6.3 million for the quarter ended March 31, 2000. As a percentage of revenues, general and administrative expenses increased to 40.4% for the quarter ended March 31, 2001 from 39.5% for the quarter ended March 31, 2000. Growth in general and administrative expenses reflects an increase in the number of employees and offices worldwide. Additionally, the first quarter ended March 2001 included full recognition of expenses related to Sage, Buzz and the BARRA Global Estimates business. As mentioned in prior filings, these three companies were acquired in fiscal year 2000 with only a small portion of Sage's expenses reflected in the March 2000 financials. The Buzz and BARRA Global estimates acquisitions were consummated subsequent to March 2000.

Income (loss) from Operations

Income from operations totaled \$2.5 million for the quarter ended March 31, 2001 compared to a loss from operations of \$2.7 million for the quarter ended March 31, 2000. Income from operations reflects revenue growth in all the Company's product lines and declining expenses as a percentage of revenue.

Interest Income (Expense)

Net interest income decreased 18.8% to \$566,000 for the quarter ended March 31, 2001 from \$697,000 for the quarter ended March 31, 2000. The decrease in net interest income is primarily attributable to a lower average cash balance coupled with a decline in interest rates.

Income Taxes

Income taxes increased 91.5% to \$90,000 for the quarter ended March 31, 2001 from \$47,000 for the quarter ended March 31, 2000. The Company's effective tax rate was less than 3% for the quarter and reflects the recording of franchise taxes.

At December 31, 2000, Multex.com had net operating loss carryforwards of approximately \$50.0 million and research and development credits of approximately \$1.5 million for income tax purposes that expire in 2009 through 2020. The utilization with regard to timing and amount of the Company's net operating loss carryforwards may be limited due to changes in the Company's ownership pursuant to Section 382 of the Internal Revenue Code.

Net income (loss)

The Company recorded net income of \$3.0 million, or net income per share of \$0.09, for the quarter ended March 31, 2001 compared to a net loss of \$2.1 million, or a loss per share of \$0.07, for the three months ended March 31, 2000. The improvement in net income was due to growth in all the product lines and tighter cost control measures.

Liquidity and Capital Resources

At March 31, 2001, we had \$44.9 million of cash, cash equivalents and marketable securities. Our principal commitments consist of obligations under operating leases.

Net cash provided by operating activities from continuing operations was \$2.0 million in the first quarter ended March 31, 2001, and net cash used in operating activities was \$3.0 million in the equivalent period in 2000. The increase in cash provided by operating activities reflects the Company's swing to profitability, higher non-cash charges (including depreciation and amortization) and improved accounts receivable balances, partially offset by a reduction in accrued expenses related to incentive compensation payments accrued in 2000 and paid in the March 2001 quarter.

Net cash provided by investing activities was \$15.2 million in the first quarter ended March 31, 2001, and net cash used in investing activities was \$21.0 million in the equivalent period in 2000. The improvement in cash provided by investing activities was primarily related to marketable securities transactions, a reduction in purchases of property and equipment, and the acquisition of Sage Online in March 2000.

Net cash provided by financing activities was \$876,000 in the first quarter ended March 31, 2001, and \$22.2 million for the equivalent period in 2000. The sharp decline in cash provided by financing activities was due to the private placement of stock issued to Merrill Lynch in the March 2000 quarter. There was no comparable transaction in the March 2001 quarter.

We believe that our existing cash, cash equivalents and marketable securities, will be sufficient to meet our anticipated cash needs for working capital and capital expenditures at least for the next twelve months.

RISK FACTORS THAT MAY AFFECT FUTURE RESULTS

Multex.com's business could be materially and adversely affected by a downturn in the financial services industry

We are dependent upon the continued demand for the distribution of investment research and other information over the Internet, making our business susceptible to a downturn in the financial services industry. In addition, U.S. financial institutions are continuing to consolidate, increasing the leverage of our information providers to negotiate price and decreasing the overall potential market for some of our services. Weakness in the financial services industry could also adversely impact our subscription renewal rates. These factors, as well as other changes occurring in the financial services industry, could have a material and adverse effect on our business, results of operations and financial condition.

Multex.com's business would be materially and adversely affected if the market for online investment research does not continue to grow

In order to be successful, we must increase our revenues from subscription fees for MultexNET, from development, hosting and subscription fees for MultexEXPRESS, generate additional sales of investment research on a pay-per-view basis through Multex OnDemand, attract more users to and generate

Edgar Filing: MULTEX COM INC - Form 10-Q

more leads for our sponsors from Multex Investor and increase the total license fees generated from the Market Guide database. We must also integrate and increase revenues from our recently acquired subsidiaries, Sage Online, BuzzCompany.com, and the BARRA Global Estimates division. We face risks in accomplishing these objectives, among others, relating to our ability to:

- o anticipate and adapt to the changing Internet market;

12

- o attract and retain more subscribers, research and data contributors, and technology and business partners;
- o implement our sales, marketing, and branding strategies, both domestically and internationally;
- o attract, retain and motivate qualified personnel;
- o respond to actions taken by our competitors;
- o continue to build an infrastructure to effectively manage our growth and handle any future increased usage; and
- o integrate acquired businesses, technologies, products, and services.

If we are unsuccessful in addressing these risks or in executing our business strategy, our business, results of operations, and financial condition would be materially and adversely affected.

The markets for our products and services are rapidly changing

The market for the distribution of investment research and other information over the Internet is rapidly evolving and demand and market acceptance for these services continue to be subject to a high level of uncertainty.

Because the market for our services is still relatively new and rapidly evolving, it is difficult to predict with any assurance the growth rate, if any, and the ultimate size, of this market. We cannot assure you that the market for our services will continue to develop or that our services will ever achieve broad market acceptance. If the market for our services weakens, develops more slowly than expected, or becomes saturated with competitors, if our services do not achieve broad market acceptance, or if pricing becomes subject to significant competitive pressures, our business, results of operations and financial condition would be materially and adversely affected.

Multex.com's business could be materially and adversely affected by pressures of competition

The market for the distribution of investment research and other information over the Internet is intensely competitive. Increased competition could result in price reductions, reduced gross margins and loss of market share, any of which could have a material and adverse effect on our business,

Edgar Filing: MULTEX COM INC - Form 10-Q

results of operations and financial condition. We currently face direct and indirect competition for both providers of investment research and other reports, and for subscribers, including with large and well-established distributors of financial information, such as Thomson Financial Services. Some of our competitors enjoy exclusive distribution arrangements with major financial institutions. We also compete with:

- o companies that provide investment research, including investment banks and brokerage firms, many of whom have their own Web sites;
- o other providers of either free or subscription research services on the Internet;
- o services provided by some of our strategic distributors which are competitive in one or more respects with our service offerings;
- o numerous prospective competitors, including Standard & Poor's, Moody's, and Zacks Investment Research, that offer investment research-based services;
- o various written publications, including traditional media, investment newsletters, personal financial magazines and industry research appearing in financial periodicals;
- o services provided by in-house management information services personnel and independent systems integrators;
- o annual reports and other filings with the Securities and Exchange Commission;
- o Standard & Poor's company-specific reports; and
- o Value Line investment research reports.

If we fail to successfully compete with these entities or information sources, our business, results of operations, and financial condition may be materially adversely affected. It is also possible that new competitors may emerge and rapidly acquire significant market share.

13

Rapid growth in Multex.com's future operations could strain our managerial, operational and financial resources

We have experienced rapid growth in our operations. This rapid growth has placed, and our anticipated future growth will continue to place, a significant strain on our managerial, operational and financial resources, that if not properly managed, could materially adversely affect our business, results of operations, and financial condition.

The loss of any of Multex.com's key personnel could have a material and adverse effect

Edgar Filing: MULTEX COM INC - Form 10-Q

Our future success will depend, in substantial part, on the continued service of our senior management, including Mr. Isaak Karaev, our Chairman, President and Chief Executive Officer, and key technical and sales personnel, none of whom has entered into an employment agreement with us other than a non-competition/non-disclosure agreement. We maintain a key person life insurance policy in the amount of \$2.0 million on the life of Mr. Karaev. The loss of the services of one or more of our key personnel could have a material and adverse effect on our business, results of operations and financial condition. We have from time to time in the past experienced, and we expect to continue to experience in the future, difficulty in hiring and retaining highly skilled employees with appropriate qualifications.

Multex.com's international operations are new and may not be successful. We have only limited business experience outside of the United States

A key component of our strategy is to continue to expand our international operations. To date, we have only limited experience in developing and obtaining research and other financial information relating to companies whose securities are traded on foreign markets and in marketing, selling and distributing our services internationally. The failure to gain the necessary experience, hire appropriate personnel, and enter into key business relationships in these markets could have a material and adverse effect on our business, results of operations and financial condition.

Doing business internationally subjects us to additional regulatory requirements, tax liabilities and other risks

There are risks inherent in doing business in international markets, including unexpected changes in regulatory requirements, potentially adverse tax consequences, export restrictions and controls, tariffs and other trade barriers, difficulties in staffing and managing foreign operations, political instability, fluctuations in currency exchange rates, and seasonal reductions in business activity during the summer months in Europe and various other parts of the world, any of which could have a material and adverse effect on the success of our international operations and, consequently, on our business, results of operations and financial condition. Furthermore, we cannot assure you that governmental regulatory agencies in one or more foreign countries will not determine that the services provided by us constitute the provision of investment advice, which could result in our having to register in these countries as an investment advisor or in our having to cease selling our services in these countries, either of which could have a material and adverse effect on our business, results of operations and financial condition.

Because Multex.com's business is dependent upon network and computer systems located in one area, we are susceptible to problems caused by natural disasters, power failures, system failures, security breaches or other damage to our system

Our electronic distribution of investment research utilizes proprietary technology that resides principally in New York City. The continued and uninterrupted performance of our network and computer systems is critical to our success. Any disaster, power outage or system failure that causes interruptions in our ability to provide our services to our customers, including failures that affect our ability to collect research from our information providers or provide electronic investment research to our users, could reduce customer satisfaction and, if sustained or repeated, would reduce the attractiveness of our services. An increase in the volume of research reports handled by

our systems, or in the rate of requests for this research, could strain the capacity of our software or hardware, which could lead to slower response times or system failures. Furthermore, we face the risk of a security breach of our systems that could disrupt the distribution of research and other reports and information. Our business, results of operations and financial condition could be materially and adversely affected if any of these problems occur.

Our operations are dependent on our ability to protect our network and computer systems against damage from computer viruses, fire, power loss, data communications failures, vandalism and other malicious acts, and similar unexpected adverse events. In addition, a failure of our communications providers to provide the data communications capacity in the time frame required by us for any reason could cause interruptions in the delivery of our services. Despite precautions we have taken, unanticipated problems affecting our systems have from time to time in the past caused, and in the future could cause, delays and interruptions in the delivery of our services. Although we carry general liability insurance, our insurance may not cover any claims by dissatisfied customers or subscribers or may not be adequate to indemnify us for any liability that may be imposed in the event that claims were brought against us.

The market price of our shares may experience extreme price and volume fluctuations

The stock market has, from time to time, experienced extreme price and volume fluctuations. The market prices of the securities of Internet-related companies have been especially volatile, including fluctuations that are often unrelated to the operating performance of the affected companies. Broad market fluctuations of this type may adversely affect the market price of our common stock. The market price of our common stock could be subject to significant fluctuations due to a variety of factors, including:

- o public announcements concerning us or our competitors, or the Internet industry;
- o fluctuations in operating results;
- o a downturn in the financial services industry generally or the market for securities trading in particular;
- o introductions of new products or services by us or our competitors;
- o changes in analysts' earnings estimates; and
- o announcements of technological innovations.

In the past, companies that have experienced volatility in the market price of their stock have been the object of securities class action litigation. If we were the object of securities class action litigation, it could result in substantial costs and a diversion of our management's attention and resources and have a material adverse effect on our business, results of operation and financial condition.

Our executive officers, directors and 5% or greater stockholders significantly influence all matters requiring a stockholder vote

Edgar Filing: MULTEX COM INC - Form 10-Q

Our executive officers, directors and existing stockholders who each own greater than 5% of the outstanding common stock and their affiliates, in the aggregate, beneficially own approximately 50% of our outstanding common stock. As a result, our executive officers, directors and 5% or greater stockholders will be able to significantly influence the outcome of all matters requiring approval by our stockholders, including the election of directors and approval of significant corporate transactions. This concentration of ownership may also have the effect of delaying or preventing a change in control.

The future sale of shares of our common stock may negatively affect our stock price

If our stockholders sell substantial amounts of our common stock, including shares issuable upon the exercise of outstanding options and warrants in the public market, the market price of our common stock could fall. These sales also might make it more difficult for us to sell equity securities in the future at a time and price that we deem appropriate.

Distribution and other fees to research providers and strategic partners increase Multex.com's costs

Royalties and distribution fees payable to our information providers and strategic partners to obtain distribution rights to research reports included in Multex OnDemand constitute a significant portion of our cost of revenues. If we are required to increase the royalties or fees payable to these information providers or strategic partners, these increased payments could have a material and adverse effect on our business, results of operations and financial condition.

The inadvertent distribution of research reports could result in a claim for damages against Multex.com or harm our reputation

Under certain of our contracts we are required to restrict distribution of financial information to those users who have been authorized or entitled to access the report by the information provider. We might inadvertently distribute a particular report to a user who is not so authorized or entitled, which could subject us to a claim for damages by the information provider or which could harm our reputation in the marketplace, either of which could have a material and adverse effect on our business, results of operations and financial condition.

We may be subject to legal claims in connection with the content we publish and distribute on the Internet

As a publisher and distributor of online content, we face potential direct and indirect liability for claims of defamation, negligence, copyright, patent or trademark infringement, violation of the securities laws and other claims based upon the reports and data that we publish. For example, by distributing a negative investment research report, we may find ourselves

Edgar Filing: MULTEX COM INC - Form 10-Q

subject to defamation claims, regardless of the merits of such claims. Computer failures or human error may also result in incorrect data being published and distributed widely. In these and other circumstances, we might be required to engage in protracted and expensive litigation, which could have the effect of diverting management's attention and require us to expend significant financial resources. Our general liability insurance may not cover any of these claims or may not be adequate to protect us against all liability that may be imposed. Any claims or resulting litigation could have a material and adverse effect on our business, results of operations and financial condition.

Risks Unique to the Internet Industry

If the Internet infrastructure is not adequately maintained, we may be unable to provide investment research and information services in a timely manner

Our future success will depend, in substantial part, upon the maintenance of the Internet infrastructure, including a reliable network backbone with the necessary speed, data capacity and security, and the timely development of enabling products for providing reliable and timely Internet access and services. We cannot assure you that the Internet infrastructure will continue to be able to support the demands placed on it or that the performance or reliability of the Internet will not be adversely affected. Furthermore, the Internet has experienced a variety of outages and other delays as a result of damage to portions of its infrastructure or otherwise, and these outages or delays could adversely affect the web sites of our contributors, subscribers or distributors. In addition, the Internet could lose its viability as a form of media due to delays in the development or adoption of new standards and protocols that can handle increased levels of activity. We cannot assure you that the infrastructure and complementary products and services necessary to maintain the Internet as a viable commercial medium will be developed or maintained.

We may become subject to burdensome government regulation and legal uncertainties

The laws governing the Internet remain largely unsettled, even in areas where there has been some legislative action. Legislation could dampen the growth in the use of the Internet generally and decrease the acceptance of the Internet as a communications and commercial medium, which could have a material and adverse effect on our business, results of operations and financial condition. In addition, due to the global nature of the

Internet, it is possible that, although transmissions relating to our services originate mainly in the State of New York, governments of other states, the United States or foreign countries might attempt to regulate our services or levy sales or other taxes on our activities. We cannot assure you that violations of local or other laws will not be alleged or charged by local, state, federal or foreign governments, that we might not unintentionally violate these laws or that these laws will not be modified, or new laws enacted, in the

Edgar Filing: MULTEX COM INC - Form 10-Q

future. Any of these developments could have a material and adverse effect on our business, results of operations and financial condition.
